Wallace Delivers First Third Party Address

MILWAUKEE, Wis. Dec. 31—(UP)—Henry A. Wallace, in his first major address as a third party presidential candidate, tonight outlined a seven-point program "designed to form a basis for world peace."

Addressing a Milwaukee rally in the state where the progressive party gained fame as a third political power, Wallace attacked the Democrats and Republicans and said his program was based on aid to war devastated nations. His plan was formulated, he said, "to reaffirm the nation's faith in the United Nations."

Wallace delivered his address a few hours after disclosing at a news conference that he was considering U. S. Sen. Glen H. Taylor, (D-Idaho,) as his vice presidential running mate.

He charged in his speech that the European recovery plan, "with the Truman doctrine as its core," has interfered in the social economic, and political affairs of the countries that have received aid."

Wallace outlined his program in a speech sponsored by the Wisconsin Citizens for Wallace Committee. The program:

1. Establish a UN reconstruction fund, similar to UNRRA, to place war-devastated lands in Europe and Asia on a self-sustaining basis.

2. The fund to be administered by a UN agency, established for that purpose.

3. Contributions to be made by the United States and other nations "possessed of the means," sufficient for an over-all five-year plan.

4. Priority to be given to nations which suffered most under axis aggression, with allocations based solely on merit and need, regardless of a nation's politics and social institutions.

5. No political or economic conditions to be attached to loans or grants which might infringe on a nation's sovereignty. Each nation to be left free to develop its own national economic plan.

6. No money to be given for military supplies, armaments or war preparations.

7. Place the Ruhr Valley in Germany under international control by the big four to use Ruhr's resources for European reconstuction and guarantee that Germany never again can threaten world peace.

Henry A. Wallace

General Electric To Cut Prices

NEW YORK, Dec. 31 —(UP)— The General Electric Company today announced an average price reduction of five per cent on a wide range of its products, effective Jan. 1.

The reductions will save consumers an estimated $50,000,000 in 1948, the company said.

Charles E. Wilson, president, stressed that the reductions were in the hope that it will help reverse the inflationary spiral and inspire other companies to make reductions too. Neither technological improvements nor the desire to reduce profits motivated the action, he added.

The price reductions, ranging from 3 to 10 per cent, affect such electrical appliances as refrigerators, electric ranges, and home radio and television receivers.

Wilson said the action will affect products representing close to $1,000,000,000 worth of business annually at the consumer level.

The company also reduced prices of component parts which it supplies to other appliance manufacturers, including fractional horsepower motors, timers and ballasts for fluorescent lighting.

Three Killed in Texan Train Crash

MONAHANS, Tex., Dec. 31 —(UP)— Three crewmen were killed onight when two Texas and Pacific railroad freight trains collided head n and were enveloped in flames ine miles east of here.

The dead, identified by the dispatcher's office at Fort Worth, were O. M. Watters, engineer, and J. P. Kline, fireman, of one freight, and J. A. Coyne, engineer of the other. A brakeman whose last name was Morris was injured. The crewmen were reported to be from Big Spring, Tex.

Railroad officials said the westbound freight was moving on a regular schedule, while the eastbound freight was a local.

The train moving west had departed from Big Springs, while the east bound had left from Toyah, Tex.

Petrillo on Trial For Violation Of Lea Act

CHICAGO, Dec. 31 —(UP)— A radio station executive testified today that the American Federation of Musicians, headed by James C. Petrillo, had attempted to force the station to hire musicians it did not need.

Petrillo, unsmiling and represented by six attorneys, went on trial for the second time today on charges of violating the Lea act.

William E. Hutchinson, general manager of Chicago radio station WAAF, against which Petrillo called a strike on which the case is based, was the first government witness.

Hutchinson said the station had employed three musicians, and that the union wanted it to hire three more. He said they were unnecessary.

The union struck the station in May, since then, Hutchinson said, the station has operated without any musicians and has not been inconvenienced.

He said the station did as well in 1947 without musicians as it did in 1946, and that it has more sustaining programs.

Landis out of Civil Aeronautics Board

WASHINGTON, Dec. 31 —(UP)— James M. Landis, peppery and controversial chairman of the Civil Aeronautics Board, was dropped from his post by President Truman today, leaving the agency with two vacancies.

Appointed to the board in June, 1946, to fill the unexpired term of L. Welch Pogue who resigned to enter private law practice, Landis technically goes out of office at midnight tomorrow.

White House Secretary Charles G. Ross announced that Mr. Truman had decided not to reappoint Landis but gave no reason for the decision. He said the President was not ready yet to announce a successor.

Landis' departure will leave three members on the board, normally comprised of five. They are Vice Chairman Oswald Ryan, Hartley Branch and Josh Lee. Clarence Young, formerly the fifth member, recently resigned. Although he remains a member, Ryan automatically ceases to be vice chairman at the begining of the new year and thus the board will be without a director until Mr. Truman acts.

Clark to Investigate Hatch Act Violation

WASHINGTON, Dec. 31 —(UP)— Chairman William Langer of the Senate Civil Service Committee has asked, Attorney General Tom C. Clark to investigate a complaint that Democratic officials in Kansas violated the Hatch Act in the 1946 Congressional campaign, it was disclosed today.

Langer's action stemmed from a complaint by a Democratic post office in Reno County, Kan., that the Reno county Democratic central committee sought contributions from federal employes.

Among the data transmitted to Clark by Langer was a letter signed by George J. Burke, Reno county Democratic chairman, addressed to "all federal employes," it said:

"The boys are asking and expect on this delayed Jefferson drive, 10 per cent of one month's salary."

Weather Forecast

Partly cloudy. Occasional moderate showers. Moderate easterly winds with strong gusts.

Yesterday's temperatures: Max. 84.5; Min. 78.

Yesterday's rainfall: trace.

Rainfall for month: 5.33.

State Dept. Calls on FBI

WASHINGTON, Dec. 31 —(UP) The Justice Department has started an investigation to determine if the United States' neutrality laws have been violated through the use of former American ships for smuggling Jewish refugees into Palestine, it was disclosed tonight.

Authoritative sources said FBI agents were called in by the State Department as a result of British complaints that American vessels were being transferred to "dummy foreign owners and then put into operation as Palestine blockade runners.

Palestine Has Bloodiest Day Since Partitioning

JERUSALEM, Palestine, Dec. 31 —(UP)— Fifty one Jews, Arabs and Britons died today by bombing, beating, stabbing or shooting in a wild orgy of hatred due to the United Nations decision to partition Palestine. For sheer ferocity it was the bloodiest day in the Holy Land since the Arab revolt of 1936-1939.

Arab workers in the Consolidated Oil Refinery, who outnumber the Jews, went berserk. As the bombers fled to safety the Arabs attacked every Jew they could find in the plant. They dragged from offices and workshops fellow-workers beside whom they had labored in peace for years, stabbed, beat and kicked them to death.

Within a few minutes the battered bodies of Jews, interspersed with those of the few Arabs who were killed or wounded in the bombing lay blood-smeared all over the plant and its vicinity.

700 Against 3,000

The death toll was 41 Jews and six Arabs killed and 42 Arabs and seven Jews wounded.

Two British members of the Palestine Criminal Investigation Department were assassinated by gunmen here. A terrified Jew was grabbed by an Arab mob in Jerusalem also and shot through the ears after he had been dragged through the streets. A third British policeman was shot dead while on guard in an armored car at the funeral of a Jewish physician whom Arabs murdered Sunday in the olive rows of Holy Gethsemane.

MacArthur Speaks to Japanese People

TOKYO, Dec. 31—(UP)—General Douglas MacArthur told the Japanese people in the new year's message today that the remodeling of Japan along Democratic lines is nearly complete and that future developments lie largely in their own hands.

"Now the design of a remodeled, reconstructed Japan is nearly completed" he said. "The pattern has been etched, the path has been laid. The development now lies largely in your own hands.

"The success or failure depends upon your ability to practice simple yet transcendental principles which modern civilization demands," the supreme commander said.

The general warned the Japanese, however, that their path would not yet be easy and that individual hardship would be inevitable.

Some economic controls will be retained, at least temporarily, he told them, but will be removed as soon as possible in favor of "free enterprise."

He reminded them that their present economy was improverished only because their leaders led them into war.

B-29's Forced to Leave Canal Zone

PANAMA CITY, Panama, Dec. 31 —(UP)— The evacuation of U. S. bases in Panama will force the transfer of the 91st Long Range Air Reconnaissance Squadron from the Canal Zone to Waller Field, U. S. base on British Trinidad, Air Force officials said today.

The flood of men and materiel pouring into the zone from the 14 evacuated Panama bases is crowding the 91st out of its present bases at France and Moward Fields, which in any case would not be large enough to accomodate the B-29 bombers with which the squadron is to be equipped.

The Rio Hato airfield, largest of the evacuated bases, was constructed specifically for use by superfortresses. Panamanian lease on Rio Hato bars its further use by the northern nation.

U. S., Bulgaria Resume Diplomatic Relations

WASHINGTON, Dec. 31 —(UP) The United States and Bulgaria resumed formally today the diplomatic relations which the former axis satellite broke off by its declaration of war on Dec. 12, 1941.

Dr. Nissim Judasy Mevorah made the diplomatic reunion official by presenting his credentials to President Truman as Bulgaria's first post-war minister to this country.

Greek Army Within 3 Miles Of Konitsa

ATHENS, Greece, Dec. 31 —(UP) Greek army reinforcements driving through heavy rains and mud to relieve the outnumbered and battered defenders of Konitsa drove to within two miles of the beleaguered city today. Government spokesmen said the relief column was expected to enter Konitsa tomorrow.

Infantry forces, striking from Janning were said to have driven Gen. Markos Vlthiades' guerrillas from the hills south and southwest of Konitsa. They were reported 1.8 miles from the guerrilla-held Bourazani bridge, gateway to the city.

47 Killed

The small force of about 700 men holding the town against the attacks of some 3,000 guerrillas headed by Vlthiades himself had radioed urgent appeals for help.

Government air force planes, favored by clear weather over the rugged hills of northwest Greece, succeeded in dropping food and other supplies to the isolated defenders of Konitsa during the day.

The advancing troops had cleared the strategic hilltops between Kalpaki and the Bourazani bridge and were advancing toward the Bourazani and Voidmati bridges, keys to the Konitsa approaches.

Railroads Authorized to Increase Freight Rates

WASHINGTON, Dec. 31 —(UP)— The Interstate Commerce Commission today authorized the nation's railroads to increase freight rates 20 per cent.

The increase may be put into effect on five days' notice to the public but will be effective only until June 30, 1948.

Since the authorization includes a previously granted 10 per cent interim increase it actually gives the railroads a 10 per cent boost over present rates.

Last October the commission approved the 10 per cent emergency increase to remain in effect until a decision was made on the entire rate issue.

The railroads had asked for a 30 per cent permanent hike.

Headline Highlights

LOS ANGELES, Dec. 31—(UP)—James Roosevelt, chairman of the California Democratic state central committee, tonight expressed his regret that Henry A. Wallace had left the party and decided to run as a third-party candidate for the presidency next year.

WASHINGTON, Dec. 31 —(UP)— President Truman signed the Republican inflation control bill today and Secretary of Agriculture Clinton P. Anderson promptly put it into action with a temporary grain-allocation order cutting whiskey production sharply for the next month.

CHICAGO, Dec. 31 —(UP)— The National Safety Council estimated the 1947 traffic death total at 32,500, for the highest death rate in the nation's history.

MARAMA Club Nears Completion

HARMON FIELD—Brigadier General Arthur Thomas, commanding general, Marianas Air Materiel Area is shown as he addressed the civilian personnel of MARAMA yesterday afternoon at the new, nearly completed, Harmon Field civilian club and cafeteria. The occasion of the address was a special meeting of all MARAMA civilian personnel to receive reports from the club and mess committees who have worked diligently since early October of this year to make the civilian club and cafeteria a reality.

Thomas expressed his appreciation for the promotion of the club as a recreational and mess facility of Harmon Field, and further in regard to the contribution of the civilian personnel to the command, he emphasized that not only were they "welcome" but, that they were "essential" to the "operation of the air depot." The general expressed his regrets that the Australian nationals, who form a large part of the civilian force of MARAMA, are leaving the command to return to their home; thanking them for the invaluable assistance that they have rendered in the operation of the depot.

Subsequent to the general's address, Captain Lee M. Shelton, Harmon Field Special Services officer, explained the operation and procedures governing the finances of the club.

Pictured left to right are: Mr. William R. Wilcke, chairman of the mess committee; Mr. Frank P. Settele, president and chairman of the club committee; General Thomas; and Colonel H. A. Kendall, chief, base services division, MARAMA.

Display Nets $198.25

A public auction of the fruits and vegetables of the Agriculture Department's display at the Rotary Club's Christmas carnival last Saturday netted $198.25.

Harold E. Schwartz, director of the Department of Agriculture and Fisheries, announced Monday that the money had been turned over to the Guam Memorial Hospital fund.

He said that this made possible "through the cooperation and generous contribution of about 20 Guamanian farmers" who contributed to the interesting exhibit of Guamanian food products shown at the carnival.

For Sale — RCA radio phonograph and collection of records. See R. J. Deyo, AETM2, VP HL8, Hut 65, NAS Agana. 1

For Sale — 1940 Ford coupe, excellent condition, Call CH Carp. MaCall NAD, AT 5297 after 1600. 2

For Sale — 1946 Ford tudor sedan, radio, electric clock, fan. Perfect condition, call AT 6110 or see Hipps at VR-7 CPO Club, NAS Agana. 2

Recommended New Years Resolutions

In the recent issue of the bi-monthly Navy Department bulletin it was pointed out that the privilege of free postage for servicemen will be terminated as of 31 December 1947. Effective 1 January 1948, all personal mail matter admissible to the mails must have required postage.

MarBo Special Services Praised

Special Services received high praise today from Brig. Gen. J. S. Bradley, commanding general, MarBo Base Command.

The commendation was given for the Special Services activities that have run throughout the year and particularly around the Christmas season.

"The fine athletic program, numerous parties that were directed by hostesses, the Special Service Shows and the libraries that we have all enjoyed, reflect credit to this command."

Lt. Col. William Quirey, is the Special Services officer.

Increased church attendance from 12,000 in October to 16,000 and carefully planned services particularly during the Christmas season also brought praise from the general. Chaplain Loren Jenks is the chief chaplain.

As a result of a visit from General Bradley or his representative prior to or during the serving of the Christmas dinner, the following messes received special praise.

22nd Station Hospital. Patients and officers mess,

23rd Quartermaster Group. 220th Quartermaster Salvage and Repair Co. (PS).

501st Transportation Port Bn., Group. Co. B, 83rd Engineer Construction Bn.

501st Transportation Port Bn., Consolidated Port Co., Mess (PS) and Consolidated Truck Co., Mess.

4th Rescue Squadron Flies Soldier Here

HDQ. 20TH A. F., Dec. 31— Arriving at Harmon Field at 0830 Wednesday aboard a Fourth Emergency Rescue Squadron B-17, a malaria patient, Pfc. Manuel Campipi, was transferred to the 22nd Station Hospital for treatment. Two other patients who made the flight to Guam from Finschhafen, New Guinea were not identified.

Mrs. Agueda Johnson of the Department of Education came across Catherine the Great's ten commandments of social etiquette in an old Guam Recorder, April, 1937. She passed them on to Guam News, recommending the contents for a New Years resolution for everyone on the Island.

1. Leave your rank outside, as well as your hat, especially your sword.

2. Leave your right of precedence, your pride and similar feeling, outside.

3. Be gay, but do not spill anything: do not break or mar anything.

4. Sit, stand, walk as you will, without reference of anybody.

5. Talk moderately, and not very loud, so as not make the ears and heads of other ache.

6. Argue without anger and without excitement.

7. Neither sigh nor yawn, nor make anybody dull.

8. In all innocent games, whatever anyone proposes, let all join.

9. Eat whatever is sweet and savory, but drink with moderation, so that each may find his legs upon leaving the room.

10. Tell no tales out of school; whatever goes in at one ear must go out the other, when leaving the room.

(From the Golden Book Magazine.)

101,000 Killed By Accidents In 1947

NEW YORK —(UP)— Accidents killed 101,000 Americans in 1947, the third straight year in which accidental deaths increased, statistics showed recently.

Statisticians of the Metropolitan Life Insurance Company said to date about 2,000 more persons were killed in 1947 than in 1946.

Deaths from public, home and occupational accidents increased, they said, while deaths from motor accidents decreased. They estimated traffic accidents caused 32,500 deaths this year, compared to 33,700 in 1946.

"This decrease in the death toll occurred despite an increased volume of motor vehicle traffic, and suggests that the highway safety program has produced concrete results," their statement said.

The occupational death toll was affected by increased employment while the number of fatal home accidents resulted in part from the larger number of children in the population, the statement said.

Slang is Natural Development

SALT LAKE CITY —(UP)— Parents may look aghast when their offspring spouts off with "yeah, natch, doozy" and "cut a rug," but the experts say not to be alarmed.

Authorities assembled at the 1947 conventions of the Speech Association of America and associated groups being held here say "slanguage" is a natural development in a melting pot nation, still producing its own particular culture.

The experts say that to use overprecise, affected speech is practically as bad as using slanguage. What they advocate is a "middle course" between the two extremes.

Dr. Grant Fairbanks, professor of speech at the University of Southern California, pointed out that such famous modern orators as the late President Franklin D. Roosevelt often used slang and colloquial expressions.

Scientist Claims Insects Smarter Than Man

CHICAGO —(UP)— A scientist said yesterday that the ant, even the termite, is smarter than man: the insects at least supply enough food to all of their species.

The inability of man to provide food for all, said Dr. Ernest N. Cory, of the University of Maryland, is caused by human greed.

Cory, speaking at a session of the annual meeting of the American Association for the Advancement of Science, said that man "has approached the success of colonial insects in some of his material needs," including the production, processing, storage and preparation of food.

"In distribution in the larger sense," he said, "attempts to control supply through price regulation, incentive payments, or other artificial means have failed through the ages."

Lingerie Shops Draw Men, Not Blushes

HOLLYWOOD — (UP) — The movie-makers had better remodel their notion that the hero has to turn three shades of magenta when he buys a fluffy nightie. In this town the men saunter into filmland's swankiest lingerie shop—as casually as if they were in a pool hall.

In the movies guys sneak into an undie emporium like it was a marijuana den. They whisper their order, shakily press lettuce into a saleslady's mitt and stride with upturned coat collar into the night.

This wrings a laugh from the audience, but that's cheating.

Because we peeked in on a day's business at Juel Park's, where movie stars buy custom-made lingerie from $12.75 for panties to $300 for a robe. And her male movietown customers were so at home in the place you'd think THEY were going to wear the lace-and-satin frillies, not their fraus.

Jack Benny lounged on the pink satin sofa in the modeling room like he was at a gag writers' conference. Suave Paul Henreid knew almost as much about the fancy fabrics in the nighties as Miss P. did. Producer Al Bloomingdale, with nary a blush, sweepingly ordered everything from lace-trimmed panties to pink lame robe.

And almost every man wanted to brand the present, via embroidery, with his moniker or his wife's. Alan Ladd firmly requested a nightie for wife Sue Carol with "to Susie with love, Laddie" across the top.

News Chronology Of 1947

JANUARY

7—George C. Marshall succeeds James F. Byrnes as secretary of state.
10—President Truman submits $37,000,000,000 budget. Military costs more than $11,000,000,000.
18—Ellis Arnall resigns as governor of Georgia.
23—Andrew J. May indicted on fraud charges.
26—Grace Moore, American opera and film star, Prince Gustav Adolf of Sweden and 20 other persons perish in plane crash in Denmark.
30—Rear Admiral Richard E. Byrd arrived in Little America.

FEBRUARY

9—150 die in Berlin dance hall fire.
10—British black out power to save coal; millions in Britain idle.
12—United States and Canada agree to retain joint defense.
15—53 persons killed when Colombian passenger plane crashes into 9,000-foot Mount Tablazo, northwest of Bogota.
18—25 persons killed, 124 injured when Pennsylvania "Red Arrow" train plunges over 150-foot embankment near Altoona, Pa.
20—Britain announces she will quit India by June, 1948.
20—15 persons killed and 100 injured in Los Angeles when chemical plant blows up in downtown area.
24—Franz von Papen sentenced to eight years of hard labor by German denazification court.

MARCH

4—France and Britain sign 50-year pact of alliance.
6—In a Waco, Tex., speech, President Truman expounds his "doctrine" of all over anti-communist aids.
10—Moscow conference of Big Four ministers opens. (Ended April 24 without agreement.)
12—Implementing his "doctrines," President Truman asks Congress to vote $400,000,000 aid to Turkey, Greece.
14—U. S. A. obtains in Philippines pact bases for 99 years.
23—President Truman orders inquiry on disloyal employees of the Federal Government.
25—111 killed in mine explosion at Centralia, Ill.

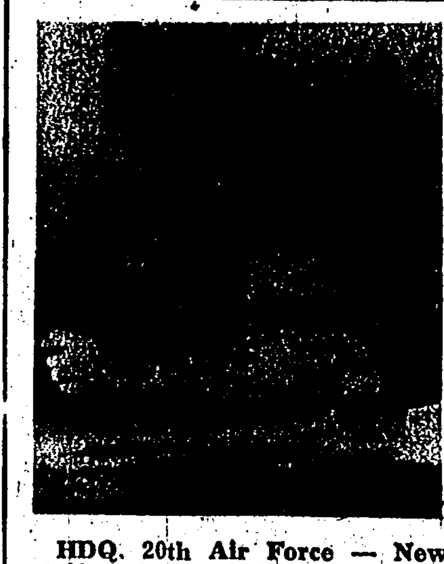
APRIL

2—King George of Greece dies. Succeeded by Crown Prince Paul.
7—Nation-wide telephone strike starts.
7—Henry Ford dies at the age of 83.
9—Senate approves David Lilienthal as U. S. A. atom head.
9—Commissioner A. B. (Happy) Chandler suspends Leo Durocher, manager of the Brooklyn Dodgers, for 1947.
16—Dov Bela Gruner and three other Jews hanged at Acre Prison in Jerusalem by the British.
16—Milton Reynolds makes around-the-world flight record in 78 hours, 55 minutes, 12 seconds.
16—Texas City destroyed by series of blasts after the explosion of a nitrate-laden ship; 408 persons were killed.
17—House passes Taft-Hartley bill 308-107.
20—King Christian X of Denmark dies.

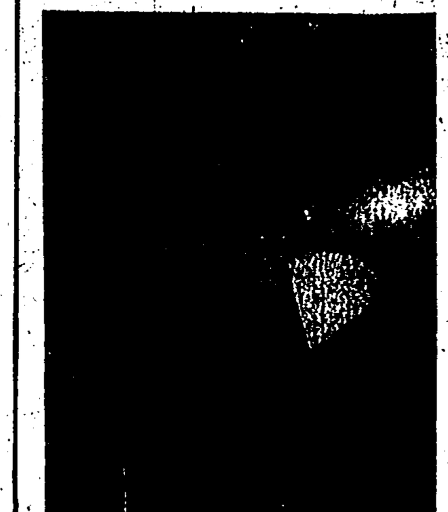
MAY

4—Palestine terrorists bomb Acre central prison, free 251 prisoners; 15 were killed in battle.
5—Four-week-old New York telephone strike ended, marking turning point in nation-wide strike.
7—Brazil outlaws Communist Party.
13—Senate passes Taft-Hartley bill, 68-24.
29—41 persons killed in United Airlines plane crash at La Guardia Field, New York.
30—53 killed in Eastern Air Lines plane crash near Port Deposit, Md.

To be continued



HDQ. 20th Air Force — New staff judge advocate for the Twentieth Air Force on Guam is Lt. Col. Adrian W. Tolen. Assigned to the Twentieth in November, he replaces Lt. Col. Walter B. Magness who became assistant chief of staff, A-2. (20th AF Photo)



Hdq. 20th Air Force — Lt. Col. Walter B. Magness recently became assistant chief of staff, A-2, for Twentieth Air Force on Guam. The new intelligence chief, formerly staff judge advocate, still directs legal affairs for Marianas-Bonins command.

Before joining the Twentieth, Lt. Col. Magness was assistant Air Forces Flying Training Command, Randolph Field, Texas.

Originally commissioned in February 1929, he became a regular Air Force officer in July 1947. Besides serving at a number of bases, his career includes attendance at several military schools. (20th Air Force Photo)

Transportation Cut to Minimum

A recent letter from Commander Marianas stated "the transportation equipment and gasoline situation renders it essential that Naval activities reduce their transportation requirements to a minimum."

It went on to say the Guam Bus Lines provides a means of doing this job. "All hands are enjoined to cooperate fully in this enterprise and to review their transportation requirements to the end of reducing these requirements to the degree which they can efficiently support with the men, money and equipment available to them."

The date of initiation of this plan is dependent on the time when the maintenance force of the Guam Bus Lines is able to handle additional busses. Details will be announced later.

Notice—It is requested that all classified and display advertising be submitted to the Guam News advertising office, Agana at least three days prior to the desired date of publication.

10 Scientific Achievements in 1947

NEW YORK —(UP)— The achievement of medical science in the effective application of streptomycin in the treatment of some forms of tuberculosis today ranked as the No. 1 science story of 1947.

This new wonder drug, discovered by Prof. Selman A. Waksman and his associates at Rutgers University in 1943, won its laurels as a recognized weapon against tuberculosis during the year. Many persons are alive today who would have been dead had it not been for streptomycin.

Physicians say it still is not the ultimate answer to the tuberculosis problem, but is regarded as a "must" in the treatment of some types of the disease.

Other outstanding scientific achievements during 1947 may be listed as follows:

2. Progress made in television including the radio relay and the first operation televised and broadcast outside a hospital.

3. Discovery of the 15,000 to 20,000 year old tepexpan man.

4. Confirmation of the theory that protons and neutrons within the core of the atom exchange electrical charges, thereby opening a new lead to the answer of what holds the world together.

5. The study of cosmic radiation from rockets sent as high as 125 miles.

6. The progress made in aviation, including the flying of a pilotless plane across the Atlantic and the attainment of the speed of sound.

7. The improved technique of using ordinary water to spray certain types of clouds, thereby making rain.

8. The development of new insecticides that should enable the American farmer to increase food crops in years to come.

9. The work of the U.S. Signal Corps in discovering that supersonic waves can kill experimental animals, and affect the equilibrium of man.

10. The progress in the development of synthetic fuels.

The numerous other scientific achievements of 1947 included the start of several long range projects to test the efficacy of the tuberculosis vaccine, known as BCG. The vaccine, used for many years in Europe, for the first time is being given a wide-scale test in the United States.

Sports Beat

by Bob Crosley

THE MAD RUSH you heard last summer and early last fall was a large group of civic leaders in various parts of the country dashing to get on the bowl bandwagon. Since the Rose Bowl originated during the first war, the list of rival bowls has increased, slowly at first, until this year the crop of new "classics" reached such proportions that now there are almost as many games on New Year's Day as any Saturday during the regular season.

The success of the brand new Delta Bowl in Ed Crump's own stadium, suh, coupled with the phenomenal rise of the Mississippi Rebels, is one of the success stories of the year.

Long before Charley Conerly was thought of as an All-America back anyplace but Oxford, Miss., and long before the Delta Bowl was ever heard of, things were happening that turned out to be big factors in the success story.....A big kid named George Poole gave up the ghost after a long struggle with calculus and military science at West Point and went to Ole Miss to pursue a slightly less exacting course there.....Red Drew, erstwhile 'Bama line coach who had taken over as head coach of the Rebs for the '46 season was called back to Tuscaloosa to handle the reins of the faltering Elephants when Frank Thomas stepped down and Johnny Vaught was given the job of trying to build up a team which won only one conference game in '46.

The Delta Bowl committee went into a huddle with the Rebels, then only one jump out of the SEC cellar and decided to let them be the host team for the inaugural game.

Then Chuckin' Charley, who couldn't even make the AP all conference team last year while passing to Ray Poole, lost his two Jima legs and made himself a threat to Harry Gilmer's reputation. As a result, Conerly and Poole set new collegiate records for pass completions and receptions, respectively, made first string berths for themselves on a majority of the All America teams, led the Rebs to victories over Kentucky, Florida, South Carolina, Tulane, LSU, Tennessee, Chattanooga and Miss State and brought to Mississippi its first Southeastern Conference title.

In addition to the good they did themselves and the university the two made a success of the first Delta Bowl game by luring TCU thus giving Memphis fans a game on a par with Miami's Orange Bowl game and even a shade better than Jacksonville's Gator Bowl.

First Brigade Eleven Now Complete for Today's Tilt

by R.A. Suhosky

SHANGHAI, Dec. 30—Four more players arrived from Guam this morning to round out the First Marine Brigade's thirty-two man squad prepping for the clash with the Shanghai All Stars in the third annual China Bowl game here New Year's Day.

Yesterday 14 players arrived to augment the Marines' roster and enable them to get in their first scrimmage here. With only two days remaining until the game, the Brigade team will have to work hard to get in top shape for the Shanghai classic.

Although the Devildogs have been rated 13 point favorites in the Shanghai newspapers, the Marines are pessimistic about the outcome. The cold weather (there were snow flurries yesterday) has hit the team hard. At yesterday's scrimmage, they found out that the frozen turf here is much harder than Guam's muddy gridirons.

The absence of Walt Morgan, the Devildog triple threat back, and Red Butler, who suffered a couple of cracked ribs in the scrimmage prior to the MarBo Sweatbowl Jamboree on Guam, digs deeply into the Brigade's list of regulars. Nor does the fact that Leroy Johnson, Johnny Kodysh and Bill Nimmo have already been bruised up since their arrival here help the Brigade's cause any.

Although the Marines went through a gruelling scrimmage today, they are still doubtful about whether they will be in the same physical shape that they were in when they ran through their MarBo opponents.

Gilmer Wants $100,000 Pro Contract

BILOXI, Miss., Dec. 31 —(UP)— Harry Gilmer, Alabama's bean-pole halfback with the slingshot arm, revealed today that he wants a $100,000 contract before signing with a professional football club.

Gilmer, who plays his final college game against Texas tomorrow in the Sugar Bowl, said he has talked terms with the Washington Redskins' owner, George Marshall. The Redskins of the National League and Brooklyn of the rival All-America Conference drafted the blond youngster.

"I told Marshall I would sign for $20,000 a year if he would give me a five-year contract and he nearly threw a fit," Gilmer said.

Gilmer indicated he might wait until next August before signing to give the pro clubs a chance to really bid on him. If Brooklyn and Washington fail to sign him, their options will be peddled to other clubs.

Ring Magazine Names Elmer Ray Next Best Heavy

NEW YORK, Dec. 30 —(UP)— Brown-skinned Elmer Ray of Minneapolis was designated today by "The Ring" magazine as the next best heavyweight contender in case matchmakers are unable to bring together Champion Joe Louis and challenger Jersey Joe Walcott for a return title bout.

As the magazine announced its world-wide boxing ratings, Editor Nat Fleischer in a copyrighted article pointed out that "Violent" Ray, after having beaten Walcott in New York, lost a questionable decision to Jersey Joe at Miami, Fla., last winter—for Ray's first loss in 51 fights.

Lesnevich Champ

Although the magazine lauded 33-year-old Walcott for his great fight with Louis on Dec. 5, it designated Gus Lesnevich, light heavyweight champion, as "Fighter of the Year" because of his four straight victories in '47. Those wins included a successful title defense against Blackjack Billy Fox and a 59-second knockout over Heavyweight Melio Bettina and to victories over Heavyweight Tami Mauriello, who was knocked out in their last tilt.

Editor Fleischer, gave Jersey Joe a special medal for having gone 15 rounds with Louis and for having put Louis on the canvas twice. He also named Walcott as principal in the "Round of the Year"—the fourth round in which he floored the champion for the count of seven.

Fleischer takes some of the sting from Rocky Grabiano by emphasizing that Rocky and Tony Zale participated in the "Fight of the Year" at Chicago's stadium last July 16 when Graziano wrested the middleweight title from Zale on a sixth-round knockout, for an all-time record indoor gate of $422,-009.

Great Individual Performances Expected At Far West Grid Bowl Classics

SAN FRANCISCO, Dec. 31 —(UP)— Great teams make the stars shine—and that may be the reason that the five bowl games slated for the Far West on New Year's Day can expect to offer some great individual performances on the gridiron.

More than 200,000 fans will sit in vast stadia to witness the great grid performers of 1947 in action for the last time this season—and they will be expecting the top thrills of the year.

The nation's No. 1 headliner will be in action in San Francisco as All-America Johnny Lujack packs the ball for the East team against the West in the annual Shrine Charity Game offering.

But the Rose Bowl at Pasadena, featuring Michigan and University of Southern California, also presents a flock of All-Americas and the other bowls will have their share of all-stars, too.

The Rose Bowl game will draw 100,000 fans; 60,000 will see the East-West tilt; 22,000 will be in San Diego for the Harbor Bowl; 15,000 will watch the Raisin Bowl at Fresno; 10,000 will attend the Salad Bowl at Phoenix; and 8,000 the Silver Bowl at Las Vegas.

Here are the men most likely to be in the spitlight during the Jan. 1 afterndon:

Rose Bowl, Pasadena—Bob Chappuis and Bump Elliott, Michigan's great backfield combination; Back Don Doll and All-America Tackle John Ferraro and End Don Cleary for USC.

Lujack and Wedemeyer

East-West game, San Francisco—Lujack for the East; and hurricane Herman Wedemeyer, one-time All-America from St. Mary's for the West.

Raisin Bowl, Fresno—Eddie Lebaron, College of Pacific's great all-around back; and Banko Linwood Sexton and Art Hodges, two of the nation's top ground gainers.

Harbor Bowl, San Diego—Hooks Davis, diminutive ball-packing wizard of Hardin-Simmons; and George Brown, San Diego State's little All-Coast lineman.

Silver Bowl, Las Vegas—Vic Ramus, passing wizard of the San Francisco Clippers; and Benny Reiges, former UCLA backfield star, now the standout of the Los Angeles Bulldogs.

Fearless Fraley Selects Winners Of Bowl Games

by Oscar Fraley
United Press Sports Writer

NEW YORK, Dec. 31 —(UP)— Absolutely the last 1947 edition of Fraley's Follies—or how to go slat with Fearless on the New Year's Day bowl games.

Rose Bowl:

Michigan over Southern California—If you can see it any other way you're clairvoyant. The only question seems to be by how much. The wizards of odds make it the Wolverines by 14 and one half. But it seems hardly enough when you consider that Fritz Crisler is weeping that his team has that "tired" feeling—and wants to top that 38-7 Nore Dame score.

Cotton Bowl.

Penn State over Southern Methodist—State is a seven point underdog and Coach Bob Higgins complains his team needs cold weather. When the man at the helm has to look that far for his crying material it portends a rough afternoon. Remember, too, that the Nittany Lions were the national defensive leaders. SMU is great but you can't win if you can't get the most points.

Sugar Bowl.

Alabama over Texas—another underdog.

Orange Bowl.

Georgia Tech over Kansas—But if you take the 10-point spot the books are handing out you've got a good thing going. It will take a lot of football to stop the jarring Jayhawks, who make a forte of recovering rival fumbles. And the engineers have been known to blow a few when they were smacked down with enthusiasm.

Shrine Bowl.

East over West—That 7 and one half spot looks about right. The shame of the game is that they won't be able to get more people into San Francisco's Kezar Stadium. For of all the games, the Shrine production is the most worthy with the proceeds to crippled children.

'Gator Bowl.

Georgia over Maryland—In the fading fraternity it's by seven points but I've got a better reason. Wally Butts is complaining that his Bulldogs are ragged. 'Nuff said.

Delta Bowl.

Mississippi over Texas Christian—Waving a tattered crying towel, Johnny Vaught is raging that Ole Miss is "overrated." Pore fella.

Aggies Rally to Nose Out LSU Quint, 45-44

FORT WORTH, Tex., Dec. 30 —(UP)— Texas A and M came from far behind to nose out Louisiana State University, 45-44, and North Texas Teachers drubbed Texas Tech, today in opening games of the Fort Worth Invitational collegiate basketball tournament.

The Aggies started ice cold and failed to score a field goal in the first 15 minutes, languishing on the short end of a 16-2 count at that juncture. Then they caught fire and by halftime had reduced LSU's margin to eight points, 24-16. The score deadlocked at 31 midway in the final half before the Aggies grabbed and held the lead.

Charley Bidwill Missed Out On Cards Title

Chicago, Dec. 30 —(UP)— It was too bad old Charley Bidwill couldn't live to see it, but the Chicago Cardinals, the team he assembled with the aid of a fat and quick-opening wallet finally owned full title today to the National League football championship.

Bidwill died on April 19, shortly after his greatest achievement, which was spiriting Charley Trippi, the Georgia All-America halfback away from the New York Yankees of the rival All-America Conference and it was significant that Trippi was a big star in yesterday's 28 to 21 playoff victory over the Philadelphia Eagles.

A hary gathering of 30,759 fans, who sat in 28-degree weather watched the teams battle on the hard-frozen turf of Cromiskey Park in tennis sneakers instead of the usual cleated football shoes. The Eagles started out by using another device to combat the slippery footing, they had filed the cleats on their shoes to razor sharpness, but after two five yard penalties for use of "illegal equipment" they switched to the tennis shoes.

Trippi, who's signed with the Cardinals for one of the highest salaries ever paid in professional football, made two of the four Chicago touchdowns while his running mate, Elmer Angsman, ex-Notre Dame star, made the other two.

PICK 'EM UP AND LAY 'EM DOWN—At the Fifth Service Depot yesterday the track season was ushered in with an Inter-Depot meet. Shown above is the finish of the mile relay won by the Headquarters and Service Company. H and S went on to win the meet.

Steelers Trade Draft Rights to Layne to Bears

PITTSBURGH, Dec. 31 —(UP)— The Pittsburgh Steelers today traded their draft rights to Bobby Layne of Texas to the Chicago Bears so that the Texas star could play with a T-formation team.

In exchange, the Bears gave the Steelers their draft rights to Halfback Ray Evans of Kansas.

Layne was the Steelers' No. 1 choice in the National Football League draft, but he subsequently indicated he would prefer the "T" to the single wing employed by Jock Sutherland at Pittsburgh.

Guam News

Guam, Marianas Islands Friday, 2 January 1948

Violent Tornado Sweeps Northwest Louisiana

SHREVEPORT, La., Jan. 1 —(UP)— A tornado struck with vicious suddeness in the Red River valley of northwest Louisiana today wiping out several communities and dealing heavy casualties in a 75-miles-long rampage of devastation.

Police headquarters at Minden, La., on the fringe of the storm area reported 27 persons were killed and 200 injuries in the wrecked town of Cotton valley. This report was not otherwise confirmed. But at least 60 patients with "serious injuries' from cotton valley crowded the small Minden sanitarium.

Other unconfirmed reports said six persons were killed at Haynesville, 25 miles northeast of Cotton valley.

The Red Cross rushed national disaster workers and equipment into the prostrated area in answer to appeals for help from local representatives.

Another tornado was reported to have struck the Gilham, Ark., area near the Oklahoma border 100 miles to the northwest of there but no casualties were reported.

Howling winds and electrical storms gave the Louisiana tornado area a frightful new year's eve as the Red Cross, police, state troopers and volunteers battled against debris and darkness to save trapped victims and feed and shelter the homeless.

The storm struck in a fateful spot. Just seven years ago a twister devastated the town of Minden. Weather Bureau officials noted that in this particular area tornadoes are most likely at this time of year.

National Guard Commander

Maj. Gen. Raymond Fleming, National Guard commander in Louisiana, ordered troops into the Cotton Valley area to keep order and help wherever needed. Gov. Jimmie Davis ordered "all-out relief" by all state agencies for the tornado victims.

One of the first witnesses of the wreckage and horror left in the tornado's wake was E. J. Kleinegger, Minden, undertaker, who went into Cotton valley and said he saw at least three bodies.

The Minden sanitarium was reported "jammed to overlowing" with injured from Cotton valley.

Wallace Rests Before Launching Campaign

MILWAUKEE, Jan. 1 —(UP)— Henry A. Wallace planned to fly to his home in South Salem, N. Y., today for a month's rest before launching an intensive campaign to win his third-party fight for president.

Wallace made his first address as a candidate last night.

He charged that leaders in the Democratic and Republican parties were "whooping it up for a war with Russia" and outlined a seven-point program "to form a basis for world peace."

More than 3,000 persons paid admission to hear him speak in the Milwaukee auditorium. The audience was enthusiastic but listened attentively to the address which was not broadcast.

Wallace approved of the Marshall European recovery plan as a means of aiding destitute nations but disapproved of the Truman policy motived as a means of halting Communism in those nations.

He said the plan "with the Truman doctrine as its core" has interfered with the social economic and political affairs of the countries which have received aid."

Lovett Sets U.S. Position in Free Greece Conflict

WASHINGTON, Jan. 1 —(UP)— The United States served notice on the Soviet-dominated Balkan nations today that recognition of the Communist "Free Greek" government would be a "serious violation of the United Nations charter."

Acting Secretary of State Robert A. Lovett made the American position emphatically clear at a press conference during which he scoffed at the claims of the free Communist guerrillas that they have set up a bonafide government in northern Greece.

No Change

"In itself," he said, "it would not materially change the existing situation."

But if other countries were to recognize the group, this step would have serious implications. It would be clearly contrary to the principles of the UN charter. And if the country concerned were one of Greece's neighbors to the north, the act would constitute an open disregard of the recent recommendations of the UN assembly.

Greek Troops March on Konitsa

ATHENS, Greece, Jan. 1 —(UP) Advancing government forces recaptured the strategic Bourazani bridge tonight while advance units broke through the guerrilla seige ring around Konitsa, reliable reports from Jannina said.

4 Miles From Konitsa

One relief column forced its way across the Voidomati river, less than four miles from Konitsa, during the day, and the other spearhead of the two-pronged offensive smashed through to Bourazani, defeating strong guerrilla resistance.

Many guerrillas were reported to have fled into Albania across the Marjani bridge, west of Bourazani, throughout the day. Some of guerrilla Gen. Markos' forces were fighting a rear-guard action on the heights commanding the road from Bourezani to Konitsa, along which the relief forces must pass to reach the town.

Air Force B-29 Missing With 9 Persons

ANIHORAGE, Alaska, Jan. 1 —(UP)— An Air Force B-29 with nine persons aboard is missing tonight and believed to have crashed in the mountain-rimmed Matanuska farming belt of southeastern Alaska.

The four-engined bomber took off in a snow storm from Elmendorf field here at 2:11 a.m. (PST) on a weather flight to California, and reported engine trouble 13 minutes later. Contact with the plane was lost almost immediately.

"Several witnesses saw a blinding flash in the sky" over the Matanuska valley about the same time, Army officers reported.

It was believed to be the second superfortress crash in Alaska within the last eight days. Another B-29 smashed into an uncharted mountain and crewmen survived the crash. Two paratroopers later died attempting to aid the survivors however and three other men were missing in an arctic storm.

Capt. Salvatore Pelle, Army Public Relations Officer at Ft. Richardson said, the pilot of the B-29 from Elmendorf field reported 13 minutes after takeoff that one of his engines was cutting out. The big plane was flying over Knik Arm, a slough which juts off the northern tip of Cooks inlet, north of Anchorage. Matanuska is about 25 miles from Anchorage.

King Michael Asks to Leave Romania in Exile

BUCHAREST, Romania, Jan. 1 —(UP)— Former King Michael of Romania has asked permission to fly into exile today with his mother and 60 members of the royal court but Premier Petru Groza indicated their departure might be delayed.

61 Visas

Official sources said Michael requested visas for himself, Queen Helen and 60 courtiers for departure from Romania before nightfall, by plane if weather permits, and otherwise by special train.

Groza, however, elated at the turn of events which abolished the monarchy told a press conference that he believed the King might be here until Friday and that he doubted Michael would need 60 passports for his entourage.

Groza said the 26-year-old Michael came into Bucharest today from Sinaia castle for a conference. During the talks Groza offered Mayhe the privilege of remaining in Romania as a private citizen, he said, but Michael refused.

Incorporation

"I think that he has his private motive to leave," Groza said, indicating that Michael was determined to depart from Romania as soon as possible so he might marry his fiancee, Princess Anne of Bourbon Parma and Denmark.

At least one reason for Michael's abdication was the government's refusal to permit him to wed Princess Anne.

"The King himself can come back if he likes," Groza said. "It all depends on him. He is a free citizen of this country and he is free to stay or leave."

An official government source said earlier that Michael had requested and been granted permission to fly into exile with his mother in her private Beechcraft, carrying two relief pilots, while the rest of the royal court took other planes.

It was believed Michael wished to go straight to Copenhagen, home of Princess Anne, for love of whom he challenged the Romanian government and lost.

In the recent issue of the bi-monthly Navy Department bulletin it was pointed out that the privilege of free postage for servicemen will be terminated as of 31 December 1947. Effective 1 January 1948, all personal mail matter admissible to the mails must have required postage.

Justice Dept. to Investigate Story About XS-1

James C. Petrillo

Reporters Testify Against Petrillo

CHICAGO, Jan. 1 —(UP)—Three newspaper reporters testified in federal court today that they had heard musicians' czar James C. Petrillo say in a speech that he had violated the Lea Act deliberately.

Violation of Lea Act

Petrillo, president of the American Federation of Musicians, is on trial before Judge Walter Labuy on a charge of having violated the act by calling a strike in May, 1946, against Chicago radio station WAAF. The act prohibits a union from attempting to force a station to hire more employes than needed.

The government rested its case after presenting the testimony of George Bartlett of the St. Petersburg, Fla., Times, Frank White of The St. Petersburg Independent, and John Ludlow Gould, for three years radio editor of the New York Times. They said that during an AFM convention in June 3, 1946 Petrillo stated during a two-hour speech that he had violated the act intentionally.

Molotov Blames U. S. For Failure

LONDON, Jan. 1 —(UP)— Russian Foreign Minister Viacheslav Molotov in a statement denouncing the United States for failure of the recent big four foreign ministers conference, may have been bidding for another one at which both the German and Japanese peace treaties would be taken up, diplomatic quarters believed today.

Cold Reception

A British Foreign Office spokesman made it plain, however, that if Molotov made any such suggestion in concrete form he would get a cold reception here. It was indicated that the American view would be similarly dim.

"His majesty's government adheres to the view that the council of foreign ministers, which was established before Russia was a participant in the far eastern war, was formed solely for the purpose of settling European peace only," the foreign office spokesman said.

WASHINGTON, Jan. 1 —(UP)— The Air Force announced today it was turned over to the Justice Department for investigation a recent magazine article which stated that a U.S. rocket plane had flown faster than the speed of sound.

The story was carried by Aviation Week Magazine, a McGraw-Hill publication, whose editor said the Federal Bureau of Investigation already had questioned him.

The Air Force announcement—issued after Air Secretary W. Stuart Symington before a press conference scheduled for Friday, said:

"The secretary of the Air Force's press conference scheduled for 9:30 a.m. Friday, Jan. 2, has been cancelled. The Secretary had proposed to discuss security matters in connection with the XS-1. These matters have been taken under study by the Department of Justice which has requested the postponement of the proposed discussion."

An Air Force spokeman added: "The publication of recent XS-1 data in Aviation Week Magazine has been referred to the Justice Department for investigation in accordance with its regular practice."

Aviation Week published the story Dec. 21. Its story said the Bell XS-1 experimental rocket plane "has flown faster than the speed of sound" and added that it had been done "a number of times." The Air Force never confirmed or denied the story.

Aviation Week said Capt. Charles Yaeger of the Air Force made the first piloted trans-sonic flight more than a month ago, flying at altitudes of from 40,000 to 70,000 feet above the Muroc, Cal., desert test center.

Truman Invites Russia to Aid World Peace

WASHINGTON, Jan. 1 —(UP)— President Truman today invited Russia to put a firm foundation under world peace by cooperating with the great powers in "a mutual spirit of goodwill and confidence."

He told the new Soviet Ambassador, Alexander S. Panyushkin, that the United States "will respond promptly to the people of any nation who make clear that they have the same goals."

President Greets Envoy

The President greeted the envoy at a five-minute White House ceremony shortly after telling his final 1947 news conference that he faces the new year with "every faith" of keeping peace through the United Nations, "for the simple reason that we can't afford anything else."

He said 1947 has been a good year—"Not as good as we would like to have had it"—but he is "still confidently looking forward to a world peace on which all the nations can agree, and the proper implementation of the United Nations."

Romanians Quit Jobs in Protest

LONDON, Jan. 1 —(UP)— Romanian diplomats quit their jobs in London, Vatican City and Istanbul today in protest against the abdication of King Michael of Romania, believing it had been forced on him by his Communist-dominated government.

Private Motive

British sources expressed belief that the formation of a new "popular republic" in Romania might lead eventually to that country's incorporation in the Soviet Union as a separate republic. They believed also that the first act of the new republic in foreign affairs would be to join the Soviet-satellite crusade against Greece.

Secretary Micrea Stoe, of the Romanian Embassy here, stormed from the embassy building today carrying a photograph of Michael with him after refusing to take the oath of allegiance to the new republic. Several embassy employes followed him.

Vandenberg Drops From Presidential Race

WASHINGTON, Jan. 1 —(UP)— Sen. Arthur H. Vandenberg, (R-Mich.) removed himself once more today from 1948 presidential politics, but friends predicted he would remain available as a compromise candidate in the event of a deadlock at the GOP nominating convention in June.

The Senate president said this time that he did not want his name "presented or supported, either at the Michigan State convention or the national convention at Philadelphia.'

"I am confident that I can best serve my country by completing my present term in the Senate," he said in a letter to Michigan supporters.

He had announced on several occasions that he is not a candidate for president in 1948. Regarding the possibility of a draft movement, he has said that few men in public life could refuse to heed an "honest" draft.

Some Republicans said the probable effect on Vandenberg's latest move will be to bolster the chances of another native son of Michigan —New York's Gov. Thomas E. Dewey.

One Colorado Killer Still at Large

CANON CITY, Colo., Jan., —(UP)— One man, a killer described as a "lone wolf," remained at large tonight as prison guards and state militiamen accounted for the remaining 11 hardened criminals who crashed out of Colorado State Penitentiary using guards as shields from gunfire.

James Sherbundy, murderer of an Eagle, Colo., deputy sheriff, was the only man who had succeeded in eluding several possees scouring the ice and snow-covered mountain country.

Late today a posse cornered three of the fleeing convicts near the rugged Garden Park district. Harold Hathaway, 37, robber and John Smalley, 36, habitual criminal, were wounded and captured. Ernest la Vergne, 31, pay-roll robber, begged for mercy and was also recaptured.

Capture of the three men today raised to nine the number which have been retaken. Five of them were wounded, but all were expected to recover. All the recaptured felons suffered severely from frozen feet or frostbite.

Two men were killed in the chase which followed the break for freedom last night. John Klinger, 42, kidnaper, was shot to death on a residential street here a few hours after the escape.

Weather Forecast

Partly cloudy with occasional moderate showers. Winds moderate easterly with frequent gusts and showers.

Yesterday's temperature: Max. 84; Min. 72.

Yesterday's rainfall: 0.22.

Rainfall for month: 0.22.

House Committee Recommends Stronger Anti-Trust Laws

WASHINGTON —(UP)— Strengthening of the anti-trust laws to protect the "little man" from unfair trade practices may be recommended by the House Committee on small business.

Its decision the committee said today in a report to Congress, rests on the outcome of current efforts to improve the position of the small, independent tire dealer.

Many small tire dealers, the report said, complained that five large manufacturers dominated the tire industry and that unfair trade practices, helpful to certain large distributors, were the result.

Irked by Complaints

"These complaints squarely raised a critical issue which the committee knows to exist in many other industries—that is, the integration of production and distribution under a common management," the report said.

The unfair effect of such integration, it has been repeatedly charged, is to permit the profits of manufacturing to subsidize distribution to the detriment of independent and non-integrated distributors, or to make possible excessive secret discounts by producers to their retail outlets....

Court Upholds Ruling

CHICAGO —(UP)— A 26-year-old strip-teaser won dismissal of charges that her life had been filled with tragedy since she was "purchased" by an elderly American doctor at the age of 1.

The dancer Beth Corde, was released in the custody of her agent after relating a fantastic life story that culminated in the death of her father, three children and, finally, an attempt at suicide.

Municipal judge Jay Schiller dismissed charges arising out of the suicide attempt after Miss Corde testified she had found a steady job and would attempt to straighten out her life.

She came to Chicago and started drinking, she said, and on Sunday morning decided to kill herself. She was taken into police custody after darting in front of an automobile which swerved in time to miss her.

Navy Recruits 99.8 Percent Of Quota

Reenlisments and new recruitments in the Navy during September totaled 14,977, Rear Admiral T. L. Sprague, USN, Chief of Naval Personnel, announced today. The figure represents 99.8 percent of the planned input for the month, he added.

New enlistments were 7,475, while 7,502 men elected to continue their Navy careers. August input was 11,511, or 76.5 percent of quota.

Of the 7,575 new recruits, 31 percent were from Southern states 12.5 percent from the West 26.5 from the Middle-West, and 30 percent from Northwestern states. Forty-six (46) percent of them were 17 years old; 21 percent, 18; and the remaining 32 percent, 19 years and over.

Gable, Morgan Cited In Violation of Game Law

BAKERSFIELD, Cal. —(UP)— Movie stars Clark Gable, Frank Morgan, Johnny Mack Brown and three other prominent Hollywoodites were arrested Sunday for possessing over-the-bag limits of ducks, game warden Les Arnold disclosed today.

Gable, who lists pheasant and duck hunting as his favorite sport, was shooting with comedian Morgan, former football star Brown and the other three at a gun club two miles south of Bakersfield, Arnold said.

The three others were Don M. Warner, Ivor Ridge, Charles Molat, Long Beach, and O. O. Dull, Beverly Hills.

All were cited to appear in justice court Saturday for violating the state game laws and then released on their own recognizance.

Justice of Peace Frank Noriega of Bakersfield will hear the cases. Both Gable and cowboy star Brown said in Hollywood that it was news to them that they had been arrested.

Hires Detective To Kill Wife

ST LOUIS —(UP)— A woman, whose husband is alleged to have mistaken a police detective for an "underworld character" and offered him $3,000 to kill her, filed suit for divorce today.

Freed on Bond

Chester Winkler, free on $500 bond, entered a general denial to his wife, Bessie's, charge that he beat her "for no apparent reason" last December 12.

Winkler was arrested last Wednesday after a city detective said Winkler offered him $3,000 to kill his wife. A warrant has been issued charging Winkler with "soliciting another to commit murder," a misdemeanor punishable by a maximum penalty of $100 fine and 60 days in the city workhouse.

Film Stars Cited

NEW YORK —(UP)— English actress Deborah Kerr and veteran Hollywood star William Powell today were announced as winners of the New York film critics award for 1947.

Miss Kerr was voted her award for her performance in "The Adventures" and "Black Narcissus." Powell was cited for his roles in "Life With Father," and "The Senator Was Indiscreet."

Tourists Visit Japan

YOKOHAMA, Japan—(UP)—The first postwar tourists have arrived in Japan and went on a "conducted" sightseeing tour accompanied by two jeep loads of American military police.

Seventy-two tourists were among the 87 passengers who arrived aboard the American President Lines' SS President Monroe. They were greeted at the docks by an Army band in cold, rainy weather. It was the first bad weather the tourists encountered since leaving San Francisco Dec. 13.

Most of the passengers were seasoned world travelers who had visited Japan before. They said they wanted to make a comparison between the old and new Japan.

Army Launches New Campaign To Combat V.D.

WASHINGTON —(UP)— Army Secretary Kenneth C. Royall has issued stern orders for a new drive to combat venereal disease among Army men including the discharge of any officer whose moral habits set a bad example for enlisted men, it was disclosed today.

The orders supersede the old "Army 'scare" approach in which personnel were required to attend lectures and "horror" movies on venereal disease.

The new program is based on a "moral or psychological" approach with emphasis on self-denial and sublimation as a more positive cure for temptation.

Authoritative sources said that Royall invoked the plan following widespread public criticism of the venereal disease rate among Army personnel which soared to its highest peak in 30 years about a year ago.

They said the program already has shown results with the rate slashed by about 40 per cent since that time.

Anyone interested in a Guam NEWS paper route in the dependent housing areas on ComMar Hill call AT 8220.

Embezzlement Charged Against Army Captain

CAMP LEE, Va. —(UP)— The Army presented its case today in the court martial of an officer charged with embezzling the checks of two superiors and spending the money in a 15-day AWOL binge from Miami to New York.

Capt. Edward P. Kelly, who was due for discharge tomorrow until charges were filed against him, was also charged with writing checks for $150 without a bank account.

The former Denville, N. J., restaurant manager, who was promoted to captain after he vanished Dec. 1 with the checks of 37 fellow officers, nervously wore his new insignia as he heard evidence against him. His blonde wife, who came from New Jersey to help him, stayed in the hall.

The prosecution introduced a statement Kelly made to Secret Service agent Ruben H. Van Alst after the missing captain gave himself up to military police in New York Dec. 15.

Over The Joepot

by Bill Jury

Out Fifth Service way the other day they ushered in the track season with an inter-Depot meet. It was the first dyed in the wool track session this season, as far as we know, and although no records were broken, some pretty fair performances were turned in considering it's still early in the year.

The "Cinder Trail" is more or less an "over hill over dale" affair with its bumpy path crammed with weeds and grass, but a couple of days would be all that's needed to smooth it down and hack away some of the foliage.

Against a stiff headwind, Jim Jefferies, of the Headquarters and Service company galloped down the century strip for a 10.2, which isn't bad for the first time out.

In the grueling 880 yard stampede J. L. Hawkins caused a few upturned brows and an occasional murmur of praise as he sprinkled on the benzene to come from behind to take the half mile in 2:26.2. With a little practice and more favorable conditions this guy might develop into a better than fair runner.

Fifth Service track officials plan on dual and triangle meets in the future with other of the Island commands and then the thinclads will be competing against the clock in order to set new marks as well as edge out the guy pounding up from behind.

ONCE OVER LIGHTLY. . . Harry Gilmer, Alabama's halfback with the buggy whip arm, says he wants 100 grand before he'll sign a pro grid contract. The Arm has offered to accept 20 G's a year for five years from George Marshall, Washington Redskins' boss, but Marshall can't quite see it. That's a lot of cabbage sez George. And How!

Morton Green, coach of the 109th SeaBees, told this writer before the Island playoffs started that "We don't have a chance of winning, but we'll give those other teams a good fight." Sho, you right, all right! Already they're in the finals and goin' as strong as ever. To top it off the guy didn't so much as blink when he said it either . . . Pome: "Sittin' all day, goin' nuts—get nuthin' to eat, except cold cuts."

SMU, Nittany Lions Nearly Even For Cotton Bowl

DALLAS, Tex. Dec. 31 —(UP)— Methodical Penn State and explosive Southern Methodist, both unbeaten grid titans of their respective sections, go to the post at almost even odds tomorrow in the 12th annual Cotton Bowl classic before a capacity crowd of 45,000.

The odds narrowed in bowl-eve betting because of the prospect that the game would be played in unfavorable weather—unfavorable, that is, for SMU, which had been established earlier as a one-touchdown favorite.

Nearly an inch of rain fell last night and today and a drop in the mercury to below the freezing mark was forecast for tomorrow morning. While the field was covered, assuring dry footing by kickoff time, the weatherman refused to predict the murky weather would clear away by game time.

Penn State's undefeated, untied Nittany Lions have been praying for a cold day and the prospects of such weather, which would be a handicap to the warm-blooded Texans, practically offset the injuries which may tend to slow up the Pennsylvanians' attack.

While SMU was reported in tip-top physical condition for its first appearance in the home-town bowl, Penn State counted itself without the services of Back Johnny Chuckran and figured on only part-time service from starter John Nolan at guard.

Crisler, Lujack, Ann Curtis Honored By Los Angeles Times

LOS ANGELES, Dec. 30 —(UP) Herbert O. (Fritz) Crisler, whose Rose Bowl-bound Michigan rested in nearby Pasadena, tonight was named football coach of the year by the Los Angeles Times Sports Award board.

Crisler was honored with 19 other prominent sports figures at a dinner in the Biltmore Hotel attended by more than 1,000 persons including movie stars and civic and athletic leaders.

Crisler was commended for his perfecting a highly-specialized single wing attack, which the board called "the first innovation of any importance since Clark Shaughnessy popularized the T."

Quarterback Johnny Lujack, mastermind of the Notre Dame team which has not lost a game in two seasons was named player of the year.

Ann Curtis of San Francisco was again cited the outstanding woman swimmer, an award she captured for the fifth successive year.

Alabama Given Edge Over Texas In Sugar Bowl

NEW ORLEANS, Dec. 30 —(UP) Alabama will whip Texas in the Sugar Bowl, 18 to 16 and if the Tide doesn't do it, you can sue the sports writers, coaches and radio people who voted at the New Orleans' Monday Quarterbacks' meeting today.

There may have been a trace of regionalism in the 52 ballots cast in a United Press poll at the luncheon. But boiled down, the figures pointed to a terrific struggle on New Year's Day.

Ward Favors Texas

Arch Ward, Chicago Tribune, liked Texas, 20 to 14. Ernest Mehl, Kansas City Star, also liked the Steers, 26 to 20. But Alabama got strong support from Edgar Hayes, Detroit Times, 28 to 14, and Tom Siler, Chicago Sun, went along with the Tide, 21 to 19.

Actually Alabama got 29 votes to 22 for Texas, but two of the Steer boosters declined to predict. Coach Ralph H. Young of Michigan State called a 20 to 20 tie.

McCarthy's Red Sox Hurling Crop Plentiful

NEW YORK, —(UP)— Manager Joe McCarthy of the Red Sox, who admits he's a farmer at heart, is headed for a bushelful of trouble next season when he attempts to rotate his pitching crop.

McCarthy's bumper crop currently includes the staggering sum of eight front-line pitchers and possibly a ninth.

Boston's eight potential starters are Tex Hughson, Davie Ferriss, Joe Dobson, Earl Johnson, Maurice (Mickey) Harris, Denny Galehouse, Jack Kramer and Ellis Kinder. Plumpish Harry Dorish, who made several starts last season and won seven games, is the ninth possibility.

Michigan's Wolverines Confident Chappuis Will Be in Top Shape For Bowl Game

Bob Chappuis (AP Photo)

PASADENA, Calif., Dec. 31 —(UP)— Michigan's unbeaten football perfectionists, confident that their backfield star, Bob Chappuis, will be in prime shape despite a leg injury suffered in practice this week, in prime shape despite a leg injury suffered in practice this week, were fit and ready tonight for their New Year's Day meeting with Southern California in the 34th renewal of the Rose Bowl.

Although Chappuis was excused from practice during the last two days because of some pulled leg muscles, Coach Herbert (Fritz) Crisler said the All America passing and running ace would be in good condition for the clash with the Trojans.

A crowd of approximately 93,000 fans was expected to witness the Wolverines' first return to the Rose Bowl, which they helped inaugurate against Stanford in 1902. Michigan, Big Nine champion, was rated a 14-½ point favorite by the odds-makers.

A threat of rain earlier in the week dissipated and the weather bureau reported the contest should be played under a clear sky. A heat spell which last week sent temperatures soaring to above 80 degrees also ended and the cooler weather was expected to be to Michigan's advantage.

Michigan, with a clean record of nine victories this season, meets a team which was tied once, by Rice, and defeated by a convincing 38 to 7 by Notre Dame.

Southern California also was in high gear as it ended workouts for the encounter. The Trojans showed such fire in their drills that there were some brave souls who ventured to predict the score would be close. Few were brave enough, however, to pick the home team.

Radio Station WVTG will broadcast the Michigan-Southern California Rose Bowl football game today at 0730 (Guam time) direct from the stadium in Pasadena. The game will come over the regular frequency, 1380 kcs.

Jack Kelly Given Sullivan Sports Trophy

NEW YORK, Jan. 1 —(UP)— Jack Kelly, Jr., world's single sculls champion from Philadelphia, today was awarded the James E. Sullivan Memorial Trophy as the "Amateur athlete who, by performance, example and good influence, did the most to advance the cause of good sportsmanship" during 1947.

In one of the closest ballots in the 18-year history of the award, the 21-year-old Kelly received 663 points; Harrison Dillard, Negro national hurdling champion from Baldwin-Wallace received 608 and Irving (Moon) Mondschein, three-time national decathlon champion from New York University, 572 points.

Sponsored by AAU

More than 600 sports authorities from all over the nation participated in the poll, sponsored by the National Amateur Athletic Union, basing their selections on sportsmanship, qualities of leadership, excellence of performance, strength of character and high ideals of amateurism. First place votes were worth five points, second place three points and third place one point.

Kelly, a Navy veteran and a University of Pennsylvania student who captured the single sculls title in the American and Canadian championships and England's Royal Henley Regatta, was the first choice of 77 balloters, Dillard drew 71 first place votes and Mondschein 62.

Francis Resigns As Grid Mentor

TOPEKA, Kans., —(UP)— The resignation of Sam Francis as head football coach at Kansas State College was accepted by the state board of regents at a meeting here.

Kansas State College lost its 26th straight football game on Nov. 29 to Florida University. Francis was in charge of football at the college only since last spring. It was his first collegiate coaching experience, after a great record as a player.

In submitting his resignation, Francis said:

"I have become convinced that my assistants and I cannot do a job of Big Seven caliber under the existing financial status."

During the fall the student paper at Manhattan, in a biting attack on the school's alumni, charged that alumni were contacted last summer for financial assistance and that the net answer was worth three cents per letter.

Lujack Difference In 5-2 Rating Of East Over West

SAN FRANCISCO, Dec. 31 —(UP)—Johnny Lujack appeared to be the principal difference tonight as the East was rated a 5-2 favorite over the West for their annual Shriners' all-star game here tomorrow.

The weatherman predicted increasing cloudiness with possible late afternoon showers.

However Kezar Stadium, which seats 60,000 fans, has been sold out for more than a month and a capacity crowd will witness the game and colorful pageant—rain or shine.

Strictly Offensive

If it comes up mud, any advantage the East might have will be wiped out, because they admit they are strictly an offensive team.

"We have the best offensive of any Shrine team I've coached in my 21 years in the game," says veteran Andy Kerr.

Lujack has taken this game very seriously and has been one of the hardest workers on the squad—and will be in tip-top condition.

To off-set the Notre Dame All-America, the West will offer hurricane Herman Wedemeyer, one time All-America from St. Mary's.

Wedemeyer, no ball of fire during the past season until the final game, has been a standout during the West team workouts and won the star left halfback role—where ne can kick, pass and run with the ball. Lujack will be at quarter for the East, but he may also see some action from the left half position.

The West team, which has stressed defense during its practice sessions under Coaches Don Farout, Lynn Waldorf and Marchie Schwartz, will outweigh the East on an average of nearly 10 pounds to the man.

Rickey Purchased Grid Dodgers Mirror Reports

NEW YORK, Jan. 1 —(UP)— The New York Mirror said tonight that Branch Rickey has purchased the Brooklyn Dodgers Professional Football Team of the All-America Conference.

Rickey is general manager of the Brooklyn Dodgers Baseball Team, and he has been the money losing football team's landlord at Ebbets Field. Several times he has been reported dickering for purchase of the football franchise.

Les Palmer Leads Nation's Punters With 43.3 Average

NEW YORK, —(UP)— Leslie (Footsie) Palmer, North Carolina State fullback, was officially crowned the nation's premier punter for the 1947 season.

Palmer, a sure-footed sophomore, won the title by only a tenth of a yard over Forest Bast of Lehigh, according to the National Collegiate Athletic Bureau. The North Carolina State kicker finished with an average of 43.3 yards on each of his 65 punts while Bast posted an average of 43.2 on 56 boots.

Fred Folger of Duke was the third leading punter with a 42.8 average, Jack Pesek of Nebraska fourth with 42.7 and Charlie Justice of North Carolina fifth with 41.6.

Jews Retaliate For Arab Bomb Attack in Haifa

JERUSALEM, Jan. 2 —(UP)— The Jewish underground army Haganah said today that its militia had made heavy attacks upon Arab settlements in Haifa and Jaffa last night in retaliation for the death of 42 Jews at the Haifa Consolidated Refineries Tuesday.

A British announcement said that four Arabs were killed and 31 wounded, many seriously, in the Haifa attack.

A spokesman for Haganah said the attacks were the largest punishment operation yet carried out in the month-old war set off by the United Nations decision to partition Palestine.

Jewish militia attacked the Arab settlement near the refineries with machine guns, grenades, fire bombs and dynamite, the spokesman said, inflicting "heavy casualties."

Another attack was made upon the Salamen quarter, an Arab area between Jaffa and Tel Aviv, the spokesman said. Three houses were blown up and the area was occupied for two hours, the report said.

New fighting came amid reports that the two blockade runners Pan Crescent and Pan York, had been boarded in mid-ocean by the British navy with demands that they debark their 12,000 refugees on the isle of Cyprus without touching Palestine.

Communist-Led Guerillas Repulsed By Greek Army

ATHENS, Greece, Jan. 2 —(UP) Greek army troops beat back Communist guerillas on three sides of Konitsa and triumphantly entered the city to relieve the tiny battered garrison which had held it against numerically superior forces since Christmas Day, it was announced officially today.

Fighting in heavy rain, the soldiers cleared the guerillas from hills west, south and east of Konitsa and reached the town at 8 p.m. (1pm EST) yesterday, military officials said.

The announcement did not say how many troops were involved, but new dispatches passed by army censors estimated 4,000 already were in Konitsa.

The guerillas were said to have suffered heavy casualties, especially in the Voidomatis River Valley, on the west outskirts of Konitsa, focal point of the army's drive to the city.

Gen. Lee Retires After 38 Years

SAN FRANCISCO, Jan. 2—(UP) Lt. Gen. John C. H. "Courthouse" Lee, supply commander in Europe during the war, went into retirement at the age of 60 today after 38 years in the U S. Army.

Lee closed out his long—and controversial—military career in colorful retirement ceremonies at the Presidio here with 15 other longtime soldiers.

"I don't think I'm out of the service, even now," Lee said. "I'll always be a soldier. That is what you taxpayers paid for."

Gen. Mark W. Clark, Sixth Army Commander, paid tribute to the retiring veterans in a brief address.

Lee was Mediterranean theater commander after the war ended. Charges of maladministration brought by newspaper columnist Robert C. Ruark were investigated by the Army and later declared groundless.

Hold Mass Funeral

JERUSALEM, Palestine, Jan. 2 —(UP)— Four Jews, three Arabs and a British constable were killed in fighting over Palestine. A mass funeral was held in Tel Aviv for 42 Jews killed yesterday by Arabs in a Haifa oil refinery after Jewish bombs had killed six Arabs.

Four Arabs held up Barclay's bank in Nablus and escaped with $4,000 after locking depositors and employes in a back room. They shot wildly as they withdrew to discourage pursuit, but no casualties were reported.

Chaplain's Wife Dies

Mrs. W. H. Rafferty, wife of Captain Rafferty, area chaplain, died Wednesday night, December 31 as a result of a cerebral hemorrhage at the U.S. Naval Hospital, San Diego, California.

Chaplain Rafferty is now back in the States on emergency leave.

Outlook Bleak For Soviet-American Relations

WASHINGTON, —Jan. 2 —(UP) The United States and Russia started the new year today with every prospect that their "cold war" will be intensified many fold during the next 12 months.

Diplomats of many governments agreed that 1948 may be the crucial year in determining whether American-Soviet relations are going to continue to deteriorate, or whether bottom will be hit and a slow climb upward toward some kind of a working agreement will be started.

Fear Worse Relations

Most realistic diplomats feared that East-West relations will be worse rather than better at the opening of next new year.

At the moment neither side will admit any virtue in the arguments, tactics or strategy of the other.

The Soviet Union continues its denunciation of the United States, accusing it of deliberately breaking up the recent big four meeting in London and of following a policy of preparation for war against the Soviet Union.

The United States, on the other hand, is convinced that the Soviet Union is embarked on a world-wide policy of territorial and ideological expansion, and that it is again determined to impose Communism upon the world and thereby dominate it.

Advocates Plan

Against these two extreme positions, every fact of day-to-day relations between the two powers will be measured in the coming months. But the major vehicle for the battle will be the Marshall Plan, debate on which will start in Congress next week.

Secretary of State George C. Marshall, author of the plan, is convinced that the only way to save Europe from Communism and to restore its heritage of free institutions and the rule of law is through success of his European economic recovery program.

Soviet Foreign Minister V. M. Molotov, committed to wrecking the Marshall Plan, continues to shout that the U. S. is only trying to impose "monopolistic, capitalistic" control over Europe and to apply "dollar diplomacy" in that continent.

There is little prospect of any improvement in American-Soviet relations for a long time. For the next three months the United States will be up to its neck in debate over the Marshall Plan which the administration has presented as a means of preventing the spread of Communism in Europe.

Police Capture Killer in Trap Set For Convict

HOT SULPHUR SPRINGS, Colo., Jan. 2 —(UP)— A police trap for an escaped convict tonight flushed a man who admitted, sheriff Chester McQueary said, killing a motorist earlier today, but the officers failed to catch their expected quarry—a killer on the loose since a state prison break last Tuesday night.

Denver police, who had announced the hitchhike slayer was James B. Sherbondy, 29-year-old escaped killer had set off an elaborate train-borne trap for the fugitive.

A posse of sharpshooters jumped the train at nearby Granby—ready to seize Sherbondy and end a three-day hunt for the last of 12 escaped convicts from the state penitentiary

But the man they snatched from the train was not Sherbondy. Sheriff McQueary said the captured man identified himself as Don Tucker, 25, of Peru, Ind. McQueary said Tucker admitted killing California motorist Robert Hutchins, 22, and wounding Hutchins' 20-year-old wife, earlier today near Castle Rock, Colo.

Severe Storm Raises Death Toll in Nation

CHICAGO, Jan. 2 —(UP)— One of the season's most severe storms lashed across a wide section of the nation today, knocked out essential services in several cities, and added traffic hazards that boosted the holiday accident death toll.

The worst accident was the collision during a snowstorm of two sections of a Missouri Pacific Passenger train near Otterville, Mo., in which 13 persons were reported killed.

119 Die

At least 119 persons died violently through the nation, 78 of them in traffic and 41 in miscellaneous accidents, a survey showed.

The storm, extending from eastern Texas northeastward through Michigan, hit hard in Missouri, Iowa, Illinois and northern Indiana. It sent tornadic winds lashing across the deep south where the death toll from tornadoes had reached 25.

Many communities in northern Illinois, northern Indiana and western Iowa were without telephone service and lights. Elmhurst, a Chicago suburb, reported that the storm had knocked out power and communication lines and that water service had failed.

Airplanes were grounded across the central states, and railroad and bus service was disrupted. All commercial flights were cancelled in and out of Chicago and 2,000 persons had to find other means of transportation.

Guam Congress Meets Today

The Guam Congress meets this morning at 8:30 to take up matters on their agenda for 1948.

A resume of the December meeting of the Guam Congress was submitted to the Governor by B. J. Bordallo, chairman of the House of Council and E. T. Calvo, chairman of the House of Assembly. It included:

1. The minutes of the November session of the Guam Congress were approved.

2. A bill to enact a traffic code for the Island of Guam was passed by a unanimous vote.

3. A bill substituting a chapter entitled "Attorneys and the Practice of Law" for a chapter entitled "Attorneys and Counselors at Law" in the code of civil procedure was passed by a unanimous vote.

4. A special proclamation relative to the chartering of a cooperation to be known as the "Island Trading Company of Micronesia" was adopted by a majority vote.

5. A letter requesting that Commander V. O. Smith be allowed to return to Guam after his separation from the service, was endorsed by the Congress.

6. A bill to provide for a medical practice act for Guam was passed by a unanimous vote.

7. A bill to establish a revised fee for license to practice law was passed by a majority vote.

8. A bill to have a uniform effective date on bills passed by the Guam Congress was passed by a majority vote.

9. The application of Isabel W. Jordan for the position of secretary to the Guam Congress was accepted by a unanimous vote.

10. A resolution establishing the value of a bearing coconut tree at $5.00 was adopted by a majority vote.

11. A resolution creating a Guam Memorial Hospital fund was approved unanimously.

12. A bill to amend the general tax law of Guam was passed by a unanimous vote.

13. A resolution regarding the procurement of supplies at military sources was adopted by a majority vote.

14. A petition from fifty-seven residents of Tamuning Village was presented and acted upon.

15. A petition regarding the construction of the AvGas line along Marine Drive was requested for submission to the Governor of Guam.

16. A bill to provide for the establishment and operation of cockpits was passed by a majority vote.

17. A motion was made and carried that a petition be drafted and sent to the Governor, requesting that a second-class road be constructed from the south end of Barrigada village to the main road.

Agreement Averts Tug Boat Strike

NEW YORK, Jan. 2 —(UP)— A strike of tug boat men that would have seriously curtailed movement of vital food and fuel into the nation's largest city was averted early today when an agreement was reached between operators and the union.

The agreement between the operators and the United Marine Division of the International Longshoremen's Association (AFL) provided a 10-per-cent-an-hour pay increase and other adjustments including a plan to arbitrate future disputes.

The agreement must be ratified within 30 days by the membership. This was expected to be a formality.

The contract between the union and operators expired last midnight, and the union earlier had signified it would walk out immediately under its policy of "no contract; no work." But there was no disruption of work before the agreement was reached before 1 a.m.

Princess Awaits News of Fiance

COPENHAGEN, Denmark, Jan. 2 (UP— Blonde Princess Anne of Bourbon-Parma waited anxiously at Amalienbog Palace tonight for news from her "unofficial" fiance, ex-King Michael of Romania, and said she was ready to follow him "anywhere in the world."

"I have not heard anything from Michael. I do not know anything about his plans. I am waiting for news from him before I leave Copenhagen."

She has not heard from him either by telephone or telegraph since his abdication Tuesday night. She was afraid to stir from the palace, lest he try to get in touch with her there and she miss his message.

"I had planned to go to America, but now I have made up my mind not to go, because of his abdication," she said, "I am only waiting for him now. What else can I do?"

"His abdication came as a surprise to me. I heard the news on the Danish radio while I was at a dinner party."

Notice—It is requested that all classified and display advertising be submitted to the Guam News advertising office, Agana at least three days prior to the desired date of publication.

Airline Building New Terminal at Agana

Henry C. Kunze, Philippine Airlines' station manager, announced today that ground was broken New Year's Eve on their new $100,000 air terminal building at NAS Agana.

The new terminal will furnish accomodations for the Philippine Airlines Trans-Oceanic Airlines and the Pacific Overseas Airlines.

Weather Forecast

Partly cloudy with few light showers this afternoon and tonight. Gentle to moderate easterly winds.

Yesterday's temperatures: Max. 85 Min. 78.

Yesterday's rainfall: .05 inches.
Rainfall for month: .27 inches.

Repeal Sought For Taft, Hartley Law

CHICAGO, Jan. 2 —(UP)— Rep. Thomas L. Owens, (R-Ill.), who helped write the controversial Taft Hartley Law, said today that if labor leaders insist, he will recommend that the law be repealed.

Owens is chairman of a House Labor subcommittee investigating the strike of the AFL International Typographical Union against the six major Chicago daily newspapers.

During the hearings Owens said we would be better off without the "law on the books" and that he would recommend that it be repealed.

However, after the hearing adjourned, Owens clarified his statement for newsmen. He said:

"If leaders of labor want to abolish the act I will be in accord with it. There should not be an act on the books that would help employers only I think the law is advantageous to labor. I think they are wrong in wanting to take it off the books. I think it is a good law for workers. The government should not interfere with lawful contracts."

The union struck the newspapers Nov. 24 in pursuing a policy of refusing to sign contracts in protest against the provisions of the law, especially a clause banning the closed shop.

13 Casualties Result in Missouri Train Crash

OTTERVILLE, Mo., Jan. 2 —(UP)— Two sections of a Missouri Pacific train rammed together in blinding snow storm today and personal effects found in the debris of a smashed Pullman car indicate two of the probable 13 victims might have been Alexander W. Weddell, retired American diplomat, and his wife, a socially prominent heiress.

W. D. Heady, railroad passenger agent here, said that he believed the casualty toll would stand at 13. At 8:30 p.m., more than 1 hours after the accident, 12 bodies had been brought to three mortuaries here.

Boy Identified

Only one victim, a 16-year-old boy, was identified. Railroad officials said he was identified from personal affects as Jack Ryan of Evansville, Ind.

Huge searchlights pierced the murky night and swirling snow flurries as workers continued the probe for more bodies in the tangled wreckage.

Baggage found in the wrecked car bore the name of "Alexander W. Weddell." It was addressed to Tucson for the winter and that was found with the inscription "Alexander W. Weddell, State Department, Washington."

Bodies were so badly mangled and steam burned that it was impossible to obtain quick identification of the victims, trapped within the wreckage of their Pullman and the steam engine of the second section ripped through it.

Weddell, 71, retired from the diplomatic service in 1942. At his Richmond, Va., estate, R. S. Taylor, its supervisor, said that Mr. and Mrs. Weddell were en route to Tuscon for the winter and that a relative of Mrs. Weddell telephoned him today from St. Louis that she feared they had been in an accident.

Patrolmen Sought in Hit-Run Accident

On the night of October 10th an enlisted Navy man was returning to NAS Orote with a truck tractor and a low boy in tow. He was stopped near camp Piti by a patrol car because his lights were not functioning and then proceeded on to his base.

The next day investigators came to NAS Orote and questioned him about an alleged hit and run. A dent was discovered in one of the fenders of the truck.

This man is now standing court martial proceedings on serious charges.

An urgent appeal is made to find the Guam police patrolmen or military police patrol car that stopped him at Camp Piti. Contact Lt. Sauters at Boston 3179 for particulars.

Record Makers Rush Production of Discs

NEW YORK —(UP)— Recording musicians and their employers have postponed their champagne parties untill 1948. They were celebrating New Year's eve—their last day to make records—working—and working hard.

"I'm working right through 'til the stroke of midnight and then drinking champagne," said singer Buddy Clark. "After that I'll relax and listen to my own records for the next few years."

At Decca, the fastest recording job ever attempted had studios in an uproar. Last night Irving Berlin wrote a song in Mexico City and called up Decca president Jack Kapp and sang it to him.

Kapp said the song was wonderful and must be recorded at once. Berlin got on the phone again and read the lyrics and notes to his right-hand-man in New York, Helmy Kreza. Kreza did a repeat job over the phone to arranger Dewey Bergman. Late this afternoon, just under the wire, Guy Lombardo and his orchestra recorded the tune, "In Acapulco."

The cause of all this rush was James Caesar Petrillo, boss of the 225,000-strong American Federation of Musicians union, AFL. Petrillo ordered his union men to make no more discs after midnight, Dec. 31. He argued that recordings and transcriptions reduce jobs for musicians and eventually would throw all of them out of work.

No Price Cuts In Auto Trade

DETROIT —(UP)— Spokesmen for the "Big Three" auto producers tonight predicted that the industry would not follow the lead of General Electric Corporation, which announced a sweeping five per cent price slash on many of its products.

Ford Motor Company, General Motors and Chrysler Corporation officials agreed that cost rises in sheet steel and other raw materials, plus wage boosts, would forestall any immediate reduction in the price of cars and trucks.

A Ford spokesman said flatly: "We tried cutting prices last January, and we lost"

New Year's Baby

A New Yoor's baby boy was born to Sgt. and Mrs. Alfred C. Gentry of JacsPac at the 22nd Station Hospital. Weighing 8 pounds and 3 ounces, the baby arrived at 4:20 a.m. January 1st.

Sunday Concerts At Palm Beach

COMMAR HILL — The third in a series of Sunday night recorded concerts of favorite classical music will take place at the Palm Beach Officer's club tomorrow night at 1030.

These concerts, an effort to revive nostalgic compositions of the great masters and present them to those interested, are open to all military officers and their guests and all civilian personnel entitled to guest privileges at the Palm Beach Officer's club.

Highlighting this week's gathering is the "Concerto No. 2 in C minor" by the reknown Russian composer, Sergei Vasilyevich Rachmaninov. Also on the first part of the program is the "Spanish Caprice" by Rimsky Korsakov.

Following the intermission will be a recording of "the Dance of The Hours" by Amilcare Ponchielli. Rise Stevens will then offer two of Jerome Kern's most famous compositions, "All The Things You Are," and "The Song is You." Concluding the program will be the ever popular piece, "Finlandia" by the Finnish composer, Jean Sibelius.

The first two concerts in this series were marked with favorable success. The apparent lack of classical offerings here on Guam tends to make this new innovation an enjoyable disruption in the placid island musical trend. Amid pleasant surroundings; these revivals of the old masters opens the door for nostalgic reclusion to those who appreciate the best in music.

In charge of the program is Ens. Churney of NSC.

Nervous Tension May Cause Tooth Decay

CHICAGO —(UP)— Nervous tension isn't emotional disturbance may be a factor in tooth decay, Dr. Leonard S. Fosdick, professor of chemistry at Northwestern University, said today.

He told the American Association for the Advancement of Science that the flow of saliva was an important factor in immunity to dental decay, and that "It is interesting to speculate on the effect of prolonged nervous tension or emotional disturbance on the flow."

Final Gesture

PHILADELPHIA —(UP)— Fire box 2295 collapsed from old age. But it turned in its own false alarm to notify firemen. The box fell to the ground when the pillar supporting it snapped from corrosion. The box landed flat on its face, breaking the glass and turning in the alarm.

CLASSIFIED ADVERTISEMENTS

Notices

Notice — There will be a public installation of the newly elected officers of Charleston Lodge, No. 44 F and AM on Monday, January 5, 1948. All Masons and friends are most cordially invited. Time 7:30 p.m. (19:30). Refreshments will be served. No reservations necessary. 3

For Sale — Jeep and Easy washing machine. Contact Major Griffen 74th Fighter Sq., North West Field or Quarters T-1607 North West Field. 4

Nation's Divorce Rate Takes Sharp Plunge

CHICAGO —(U)— The nation's divorce rate dropped sharply this year, for the first time since before the war, as the nation settled down to peacetime living.

In 1946, more Americans than ever before flocked to the divorce courts to iron out their postwar matrimonial problems. But this year the trend reversed abruptly, according to a survey conducted by United Press.

Divorce judges, sociologists and psychologists generally were agreed that the primary reason for the decline was the fact that most hastily wartime marriages which did not "take" already had been dissolved.

Other factors cited were:

1. Women had lost some of their wartime independence and were finding it harder to shed their husbands and get high paying jobs.

2. The higher birth rate tended to keep marriages intact.

3. Soaring prices had offset the "easy money" of the immediate postwar period, and fewer couples could afford divorces.

As David B. Roberts, chief notary at Pittsburgh, put it: Rosie the riveter and Winnie the welder are back home taking care of their children."

Millionaire Gives $25,000 Party

HOLLYWOOD —(UP)— A millionaire today hired a plush Hollywood nightclub to give a $25,000 party for movie star Lana Turner, and rumors were the party was to announce their engagement.

The engagement rumors were not confirmed by anybody but Albert Califano, headwaiter of the Mocambo Club.

Charlie Morrison, Mocambo manager, confirmed he was turning his club over to Henry (Bob) Topping, Jr., January 9 to entertain 400 guests at a shindig Morrison figured would cost "about $25,000."

Topping was flying three orchestras—reportedly Miss Turner's favorites—here from New York. An airplane load of orchids and other flowers was ordered from Hawaii for decorations.

The guest list included socialites and movie stars, many of whom reportedly would be flown by Topping to his party.

"It's the very creme de la creme of the film world and the international social world," Morrison said.

Conscience Eased

OKLAHOMA CITY —(UP)— The state highway awards the palm for civic righteousness to a panhandle farmer whose tractor tore a hole in a highway. The farmer drove 12 miles to a highway department headquarters to inform officials and pay for the damage.

LATEST IN BALL POINTS

BOSTON —(UP)— An ingenious Bostonian has invented a ball point pen with which women can dab themselves with perfume. A Paris merchant has ordered 100,000 of them.

Tall Talers Announce Winner Of Best Fib For 1947

BURLINGTON, Wis. —(U)— The Burlington Liars' Club fortified by truth serum, announced today that the biggest fib of 1947 was told by John C. Hopley, San Antonio, Tex.

The tall tale tids went to Hopley for his fable about a fly, an eight-ball and a poolroom wager.

Here is the year's championship fib of 1947:

"I want to tell you about a pool shot I saw one night in Dude McCook's poolroom in Enid, Okla.," Hopley related. "Me and my friend Charley Skorpea were playing that night for the championship of Boggy Greek Bottoms, and it was his shot.

"Just as he started to shoot for the eight-ball, a fly lit exactly on top of the ball.

"Charley said 'I'm going to kill that fly with one shot.'

"Time—and the fly—stood still while the boys booked bets on whether or not Charley would make good his boast.

"Most of the boys in the house expected Charley to loft the cue ball so that it would light on top of the fly and exterminate it," Hopley went on. "But when the boys had placed their bets, Charley chalked his cue and knocked the eight ball from under the fly—so fast that the fly fell and broke its back."

Honorable mention in the competition went to R. F. Harris, Williston, N. D., who told this story:

"You can believe this or not, but last winter it got so cold in North Dakota, people had to carry ice cubes in their pockets to keep warm."

New Yorkers Stay Home New Year's

NEW YORK —(UP)— The nation, faced with the rising cost of living and bad weather generally, centered its New Year's eve celebrations in the home tonight.

Night clubs were filled in most of the big cities, but proprietors whose business has been in a slump the past few months, felt luckier. Where in recent years, reservations had been sold out weeks and months in advance, many places were looking for customers only a few hours before the stroke of 12.

Small Crowd

Times Square in New York, focal point of the nation's celebrations, was wet underfoot from the remains of last week-end's record breaking snow, and the smallest crowd in a decade was expected in the 14-block long area when 1948 made its official appearance at midnight.

The police department assigned 1,750 men to the area, more than 230 less than in recent years. Nevertheless, crowd-wise merchants had boarded up store fronts to protect plate glass windows against over-zealous celebrants.

Canadian Expelled

SALT LAKE CITY, Utah —(UP)— The Mormon church in Salt Lake City substantiated the reported excommunication of a Canadian member charged with "teaching and advocating" polygamy.

David O McKay, high Latter-Day Saints church official, confirmed but declined comment on the excommunication of John M. Blackmore, Lethbridge, Alta.

French Snails Return To Dinner Table

PARIS —(UP)— Fine French snails will be available next year for the fashionable dinner tables of the world, the foreign trade ministry announced recently.

Preparations are being made to resume snail breeding in 1948, the ministry said, and Czech trade officials are already negotiating for the delivery of 40 truckloads of the tasty creatures during the year.

Discussions are scheduled for possible export to Great Britain and the United States, the ministry announced.

French snail production fell off sharply during the war years.

Back For Seconds

NAPLES, Italy —(UP)— A band of thieves bit off more than they could chew last night when they stole 530,000 false teeth from a medical warehouse and then returned for more.

Police captured one of the gang on the return visit and were confident he would lead them to the other thieves, who absconded with the teeth, valued at about $8,000.

Young Scientist Awarded Prize For Research

CHICAGO —(UP)— A 30-year-old assistant professor today won a $1,000 prize for scientific paper in which he reported that a single cosmic catastrophe millions of years ago was the cause of all meteors.

The award was made by the American Association for the Advancement of Science to Dr. Harrison Brown of the University of Chicago's Institute for Nuclear Studies as part of the institution's 12,000,000 program in atomic research.

Master-List Of Meteorites

He explained at a news conference that the first step was the compilation of a master-list of meteorites from all parts of the world, translating their chemical analysis.

"The only way to account for the observed chemical phenomena," he said, "is to deduce that all the fragments came from an exploding planet which had a molten core of nickel-iron at about 3,000 degrees centigrade and an internal pressure of more than 100,000 atmospheres."

1080 Poison Kills 87 Rats at Customs Warehouse at Piti

COMMAR HILL—Cphm. E. M. Scribner, rodent control officer for Island Public Health Department, announced yesterday that at least 87 rats were killed on the night of December 9 in the Customs warehouse at Piti through the use of 1080 (Sodium Monofluoroacetate). 1080 is one of the poisons which will be used during the Island-wide rat campaign which will open January 5.

Eighty-seven dead rats were actually counted, and possibly many more were killed by the poison, Scribner said. 1080 was mixed with a quart of water and placed where it was easily accessible to rats.

Michigan Routs Southern Cal, 49-0; Penn State, SMU Tie

Lions Surprise With Passing Attack

DALLAS, Tex., Jan. 2 —(UP)— Penn State and Southern Methodist pounded at each other with almost vicious verve today and wound up in a 13 to 13 tie in the Cotton Bowl football game before 45,000 fans, who saw the surprising Eastern giants, match the pride of the Southwest in aerial tactics.

After being outplayed by the Methodist Mustangs for most of the first half, Coach Bob Higgins' Nittany Lions cashed in on Coach Matty Bell's tardiness in lifting his reserves. While the S.M.U. second stringers remained in the lineup Penn State got a new life and, eventually, the tie.

S.M.U. had forged ahead with two touchdown surges, one in the first period and another in the second period, and held the upper hand until the Lions uncorked passing magic, which was not expected.

State's great Elwood Petchell and S.M.U.'s All-America Back Doak Walker staged a great individual duel. Petchell passed for both State touchdowns. Walker passed for one, ran for another, kicked an extra point and missed another—a point that would have, as it finally turned out, spelled victory.

S.M.U. moved 82 yards for its first touchdown, with Walker's 53 yard pass to Ed Green good for the score. Walker kicked the point, and the hometown Mustang rooters went wild.

Their elation mounted in the second period. Three minutes remained before the half when Walker knifed through the line from three yards out for the last Mustang touchdown.

With a comfortable lead, and the clock showing two minutes of the period remaining, Bell sent in his substitutes and Petchell started engineering the State comeback, in the form of a 65 yard march. It paid off with his 15 yard pass to Larry Cooney, and Ed Czekaj came in to kick the extra point.

The inspired Staters pushed SMU deep into a hole in the third, grinding over the Mustangs down to the one-foot line midway of the period before surrendering the ball on downs, but Petchell broke the S.M.U. recovery hopes moments later by returning the punt-out from the Mustang 36 to the 9. Two plays later, State was on the S.M.U. 3, and Petchell sailed a touchdown pass into the waiting hands of Wally Triplett.

Bowl Game Results in Brief

Dixie Bowl

BIRMINGHAM, ALA., Jan. 1 —(UP)— Arkansas came from behind in the fourth period with a 97-yard touchdown drive to beat William and Mary, 21 to 19, in the inaugural Dixie Bowl game today, before 20,000 fans

The Razorbacks started slowly, permitting the Indians of Virginia to build up a 13 to 0 lead. However, Leon Campbell, a spinning halfback, sneaked through the W. and M. line twice to give the Razorbacks a 14 to 13 lead at half time and the extra two points needed in the final quarter.

• • •

Harbor Bowl

SAN DIEGO, Jan. 1 —(UP)— A hard-running, hard-charing football eleven from Hardin-Simmons completely outclassed the San Diego State College Aztecs to score a 53 top victory in the second annual Harbor Bowl game today.

• • •

Gator Bowl

JACKSONVILLE, Fla., Jan. 1 —(UP)— Georgia, featuring Johnny Rauch through the air, and Maryland, starring Lu (Bambino) Gumbino on the ground, battled to a thrilling 20 to 20 tie today in the third annual Gator Bowl before 21,000 satisfied fans.

Gambling on lanky, long-striding back, won the individual honors for the day with his scampering from

Layne Leads Texas To 27-7 Victory Over Crimson Tide

NEW ORLEANS, La., Jan. 1 —(UP)— Texas, roaring like a wind-swept prairie fire, crashed in on every break today, outclassing Alabama in a great 27 to 7 triumph in the 14th annual Sugar Bowl classic before 72,000 fans.

It was a personal triumph for Blond Bobby Layne, passing ace from Dallas, who dominated every phase of his long-advertised duel with Alabama's great Harry Gilmer.

Alabama was game. But that was about all. The half-time score caught the teams squared away, 7-7. But Texas made a blocked Alabama punt pay off for six points in the third period and took command of the game the rest of the way.

Texas struck through the air with three times the force Alabama was able to generate.

Longhorns Score

Texas scored first, in less than 10 minutes. Swift Billy Pyle snatched a pass from Layne on a 46-yard play to set up the touchdown. The ball rested on the Alabama 18. Tom Landry hit for one, Layne passed to Jim Canady to the nine and two plays later shot a touchdown pass to Peppy Blount. Frank Guess kicked the extra point.

Alabama was ineffective throughout the first period, except for its line play on defense. Texas, with all its power and speed, was able to gain only 59 yards on the ground in the entire game. The Alabamans scored in the second period after Norman Mosley ran back a guess punt from his own 20 to the Texas 40. Gilmer, whose general performance was dismal, threw to Ed White for 10 yards and a first down. L. W. (Red) Noonan took charge and hammered the ball to the Texas eight on five plays. From the eight Gilmer pitched to White, who stole the ball from Canady in the end zone for the touchdown. Hugh Morrow added the point.

a bewildered split-T attack but Rauch's passes brought Georgia from far behind in the fourth period and had the Terrapins digging in the turf at their goal-line at the finish.

• • •

Delta Bowl

MEMPHIS, Tenn., Jan. 1 —(UP)— The brilliant fourth period passing of Charley Conerly today pulled Mississippi out of the hole for a 13 to 9 Delta Bowl victory over the Texas Christian Horned Frogs. A capacity crowd of 28,000 shivering fans saw the Southeastern Conference champions turn near defeat into victory in the final minutes.

• • •

Sun Bowl

EL PASO, Tex., Jan. 1 —(UP)— Surprisingly powerful Miami, O., University showed Texas Tech some tricky plays today to score a 13 to 12 victory before a crowd of 18,000 in the annual Sun Bowl football game.

Three times in the first period Miami crossed the goal line, but only on of the six touchdowns were up on the scoreboard. Two atempts were called back on penalties.

Johnny Lujack

Lujack Leads East To 40-9 Victory

SAN FRANCISCO, Jan. 1 —(UP)— Notre Dame's Johnny Lujack, America's greatest collegiate football player, passed, kicked and ran the East All-Stars to a smashing 40 to 9 victory over the West in the 23rd annual shrine classic here today before 60,000 fans in rain-soaked Kezar stadium.

After the West had scored the first touchdown in the first four minutes, the East came back to dominate the play and run up the most lop-sided score in the history of the charity game for the benefit of crippled children.

Lujack, aided by his all-star cast, was just as brilliant today while playing against the cream of the West Coast crop, as he was during the season with the Fighting Irish.

Accurate Passes

His passing had the deadly accuracy of a sharp-shooter. Only a slippery ball that squished through receiving fingers kept him from chalking up a phenominal aerial average.

The West's first tally came on a 67-yard march featuring the running and passing of Herman Wedemeyer of St. Mary's. The payoff was a pass from Virgil Eikenberg of Rice, to End Gail Bruce of Washington in the end zone. Wedemeyer converted.

Lujack then tied up the game with a pass to All-America Bill Swiacki, of Columbia for 17-yards and a touchdown. The Notre Dame star sent the East ahead in the second period with another touchdown pass to Bobby Sullivan, Holy Cross, to make it 13 to 7 at halftime.

The Easterners pulled up to 20 to 7 on a ground drive that ended with Benton Yablonski of Columbia one of the East's top ball-packers, going most of the way and Earl Maves of Wisconsin, plunging over from the one.

The West picked up two points in the same period on a safety and then came the deluge in the final period. Lujack scored his touchdown standing up on a sneaker; Art Fitzgerald of Yale, passed into the end zone to Lou Mihajlovich, of Indiana, for one counter, and Bob Smith of Iowa scooted around end from the 9 after Lujack set up the play with passes.

The 1st Marine Brigade, which ended up in a tie for first place in the MarBo Sweat Bowl football league, walked off with a 45 to 0 victory over the China All-Stars in the third annual China Bowl game New Year's Day in Shanghai. Details were not available for today's edition.

Wolverines Set New Bowl Scoring Mark

PASADENA, Cal., Jan. 1 —(UP)— Michigan's power-crazed Wolverines, obviously aiming to establish themselves as the Nation's top football team trampled Southern California, 49 to 0 today, pinning upon the Trojans the most humiliating defeat in the history of the Rose Bowl.

Never in 60 years had any Southern California team absorbed such a licking. A full house of 93,000 fans saw the rout.

Using two mighty units, one for offensive operations, and the other for defense, the Wolverines scored almost every time they got the ball and kept the Trojans hopelessly bottled up.

Michigan's Jack Weisenburger led the seven touchdown scoring parade with three sorties across the goal line while Automatic Jack Briteske kicked seven successive extra points for a new Rose Bowl record.

The versatile Wolverines scored in every period and the touchdowns came through the air, through the line and over the middle. Everything the Wolverines tried worked, leaving Southern California a bewildered group of players, trying vainly to hold the score down.

If there had been any question before about the Midwest's football supremacy over the Pacific Coast, it was removed today.

The entire Wolverine offensive played like All Americans, as did the brilliant pass-catching ends. The rest of the squad was just a shade behind in efficiency.

It was the second defeat for Southern California in its 10 appearances in the Rose Bowl. Alabama two years ago defeated the Trojans 34 to 14.

Today the honors were shared by two backs, if any two could be singled out. They were the great passer, Bob Chappuis, and the plunging fullback, Welsenberger.

Between them, they ran and passed Southern California into football oblivion. But they were not alone. The brilliant field-generalship and pass catching of Howard Yeges was the key to Michigan's drive, and the work of Gene Derricotte and Chalmers (Bump) Elliott also was on the superlative side.

The only flash of offensive drive shown by the Trojans was one 75 yard march. And they moved into Michigan territory only twice in the entire game.

Georgia Tech Ekes Past Kansas in Orange Bowl

MIAMI, Jan. 1 —(UP)— Georgia Tech's Engineers rode to a 20 to 14 football victory over Kansas before 59,578 fans in the Orange Bowl today on three touchdown passes by Slim Jim Still, but the bruisin', crusin' Jayhawkers stole the show with a stirring last period drive that fell short of a tying tally.

Two touchdowns in a third period rally gave Tech its margin of victory and inspired play by the Engineers' superb line kept Ray Evans and his Kansas mates at bay in the hair-raising final quarter.

Actually, Kansas was beaten by its own eagerness to win in its first bowl appearance before the largest crowd ever to witness an Orange Bowl classic.

Evans Tallies

With a minute and a half to go, Evans plunged to the Georgia Tech one-yard line. A touchdown would have meant a tie and the extra point a victory. But on the next play Kansas Quarterback Lynne McNutt fumbled the snap from center and Rollo Phillips, Tech guard and co-captain, recovered. Tech ran out the clock on line plays for its victory.

Georgia Tech passed the Kansans dizzy in the third quarter to break the first half 7-7 tie with two quick touchdowns.

Still found Queen wide open on the Kansas seven and the Jacksonville, Fla., back knifed over standing up.

Late in the third period, Kansas again found the key to the Georgia Tech defense. Bryan Sperry grabbed Evans' third straosphere pass from the arms of a Tech defender. The ball soared 43 yards and put the Jayhawkers on the Tech 37 yard line.

The Jayhawks were set back that time but not for long as they started again on their own 44 with Frank Pattee carrying the ball and Bill Hogan and McNutt alternating with the passing attack.

Hogan found Evans clear in the end zone with his fourth down pass from 22 yards out, and Tom Fambrough converted a second time.

Com Mar, SeaBees Tangle Tonight

ComMar and the darkhorse 109th SeaBees clash tonight on the ComMar court in the initial game of a two out of three series in the finals for the championship of the 1947 Inter-Command basketball league.

Both teams have advanced through the double elimination tourney last week to this series to decide who will be officially declared champs and for the dubious honor of being the host command to the all-star team to represent Guam in the WesPac All Navy tourney.

Using their height to good advantago the SeaBees have capitalized on the hook shots of Earl Whitely, Jack Argotsinger's all around play and just plain fight on the part of the whole team to bump other strong contenders for the crown.

ComMar, a team that was looked on as an interloper when they first started winning in October and then came to be known as a high-powered pennant contender and eventually league champs, will go into the game with a record of 25 wins and only one loss.

The game, starting at 1900, is expected to be much closer than the first meeting of the two on the 22 of December. The SeaBees have given warning that they are out for revenge, and ComMar will have to be on its game toes to stop the never-say-die construction crew.

Southern States Fight Over Fishing Rights

SAVANNAH, Ga., —(UP)— Georgia fishermen have appealed to the U. S. Supreme Court to declare unconstitutional South Carolina laws which they claim discriminate against their fishing rights in South Carolina coastal waters.

The South Carolina statutes limit the number of fishing licenses which may be issued to non-residents and require the catch to be taken to South Carolina ports. There outside interests are required to pay income tax on all fish caught in Carolina waters, even though they may be sold in other states.

U.S. Marines Ordered Into Troubled Mediterranean

WASHINGTON, Jan. 3 —(UP)— Four detachments of Marines have been ordered into the troubled Mediterranean, the Navy announced today, in what some high quarters viewed as a demonstration of American support for the Communist-threatened Greek and Italian governments.

Navy spokesman indicated the leatherneck contingents will put stronger than normal marine landing forces aboard U.S. warships standing by at four key points in the Mediterranean—Piraeus, Greece, and Naples, Genoa and Leghorn, Italy.

Strength Witheld

They refused to reveal the strength of the detachments which will leave next Tuesday, or to link their dispatch directly to the explosive political situations in Greece and Italy.

The State Department said it had been consulted only a few hours before the Navy announcement, and that it approved the move.

Informed sources regarded the action as a token of support for the Greek and Italian regimes rather than a display of military power.

In addition, it would enable the Navy to cope with any local emergencies that might arise in the eastern Mediterranean, particularly since U.S. occupation forces have been withdrawn from Italy.

U.S. Agreement Gives France $200,000,000

PARIS, Jan. 3 —(UP)— The United States and France signed an agreement today under which France will get more than $200,000,000 this month, in February and in March under the interim foreign aid program.

"There has been no example of so generous a response since that gesture which our citizens made toward yours more than 150 years ago (in the Revolutionary War)," French Foreign Minister Georges Bidault said as he signed.

A French foreign office spokesman called the $200,000,000 France will receive a gift. It was part of the $522,000,000 Congress appropriated on December 17 to aide France, Italy and Austria over the first three months of 1948. After that the State Department presumably hopes the Marshall Plan for Europe will be in operation.

A dispatch from Washington said the first allocation to France would be $69,300,000. That will include 1,000,000 long tons of American coal valued at $21,600,000 and 343,000 long tons of grain valued at $47,700,000.

Sailor, Two Civilians Drown Off Asan Point

Three men were reported drowned on the reef near Asan Point Thursday night, but efforts to locate their bodies had proved futile late yesterday.

The three men, two civilians, A. M. Burtcher and A. M. Cox from Vinell-Bosey, and a sailor, C. L. Bebee, S2, USN, attached to FASRON 13, NAS Orote, were reported to have gone to the aid of two marines caught on the reef.

The two marines, their names withheld, were reported safe yesterday, but the other three are missing and presumed drowned.

The Fourth Air-Sea Rescue Squadron dropped planes in the search was continued yesterday, but no trace has been found of them.

Announcement of the missing men was made by the Provost Marshal's office who stressed the fact that swimming in unauthorized areas is not only dangerous, but illegal, and personnel apprehended in such areas will be arrested.

All personnel, both civilian and service, are urged to familiarize themselves with the authorized areas for swimming.

Arabs-Jews Continue Clashes

JERUSALEM, Palestine, Jan. 3 —(UP)— Thirteen persons—Arabs, Britons and Jews—were killed or wounded today in ambushes, bombings, robberies and sniping from one end of Palestine to the other.

Of these, 12 were killed—four Jews, five Arabs, and three Britons. Twenty-five were wounded, about half Jews and half Arabs. Among the dead were two British corporals, a 20-year-old Jewish nurse and an Arab bank guard.

Twenty-nine Jews, a week's accumulation of victims of partition fighting in Jerusalem, were buried late today in the "Old Cemetery" near the Mount of Olives, with heavy British military protection to discourage Arab attacks against undertakers and mourners.

Tommies with machineguns were posted at the Tomb of the Virgin, the church of St. Mary of Magdalene, in the Garden of Gethsemane and at the Tomb of Absalom as the dead were brought up in two buses.

Arabs had shot into two previous burying expeditions, wounding some of the mourners. The bodies were taken back to the morgue until today, when they became such a problem that the British decided to hold the funerals under armed guard. There were no incidents today.

Immigration Law Eased For Future G. I. Brides

NEW YORK, Jan. 3 —(UP)— The Department of Justice today stretched the strict letter of the law in behalf of 20 prospective brides of former G.I.'s who arrived from Europe a few hours after expiration of the law permitting them entry into this country.

It ordered their release from Ellis Island under $500 bond each pending "appeal." Presumably all will be married quickly to the ex-G.I.'s who sent for them and the moment they are married to American citizens, there will be no question of their staying.

The order was issued too late in the day to permit 18 of the 20 to escape a melancholy week-end on Ellis Island. Their fiances couldn't raise the $500 before the immigration office closed until Monday.

Tojo Claims War 'Unfortunate' But Not A Crime

TOKYO, Jan. 3 —(UP)— Wartime Premier Hideki Tojo told the International War Crimes Tribunal today that he didn't think war is a crime but that war did have "an unfortunate effect" on both victor and vanquished.

His statement was made in answer to a question by chief allied prosecutor Joseph B. Keenan as his trial resumed after a New Year holiday.

Feels "Sorry"

Tojo also told the court that the "China incident" was really a war inasmuch as 2,015,000 Chinese were killed between 1937 and 1941. He said he thought the war "most unfortunate" and said he felt "very sorry for those people" who were killed.

Keenan attempted to force the witness to agree that "aggressive wars" in particular were crimes against peoples upon whom they were imposed. Tojo's attorney, George Blewett of Philadelphia, objected that the defendant already had been indicted and had pleaded not guilty.

Tojo's wife and three of his children attended today's session and sat inconspicuously in the Japanese press gallery among an overflow of spectators.

Army Disproves Immorality Charges

WASHINGTON, Jan. 3 —(UP)— The Army today described as "irresponsible and false" published reports of widespread moral laxity among U. S. occupation troops in Germany.

A spokesman said it is "common knowledge" that strict controls are enforced in the occupied territories. Officers and enlisted men found guilty of immorality, he said, have been punished overseas or sent home.

The spokesman also denied reports that the divorce rate among American troops in Europe is increasing at a "scandalous rate." He said that of the 17,000 wives of Army men now in Europe, only 157 have applied for transport home to get divorces in the past three months.

Weather Forecast

Partly cloudy with scattered showers, becoming cloudy late afternoon, with frequent moderate to heavy showers. Moderate easterly wind with fresh gusts in showers.

Yesterday's temperatures: Max. 86 Min. 76

Yesterday's rainfall: 0.33 inches
Rainfall for month: 0.60 inches

Guam Congress Holds First New Year Meet

AGANA—The first regular session of the eighth Guam congress to inaugurate the new year was held at the Agana Council building yesterday.

Numerous topics relative to the welfare and rehabilitation of Guam and its people were discussed and acted upon.

The highlights of the session were as follows:

Two members of the House of Council, Felix T. Pangelinan of Santa Rita and Simon A. Sanchez of Dededo, and two members of the House of Assembly, Felix T. Carbullido of Agat and Atonio S. N. Duenas of Sinajana, were chosen to study existing and potential policies pertaining to the subject of public nuisance. A report shall be submitted by them at the next regular meeting.

Mr. E. T. Calvo and Mr. B. J. Bordallo were unanimously appointed to serve on a forthcoming legal examining board which will decide whether licenses shall be issued to prospective law attorneys.

Official Island Flag

A resolution was proposed and unanimously passed for the adoption of the flag of Guam, which up to now has only unofficially held that title, to be declared the official flag of the Island and flown from all school buildings and public or civic buildings. The author of the resolution was Mr. Paul Carano, social science teacher at Adelup Point school.

An amendment was proposed and unanimously passed that a clause be added to section 319 of the Guam Penal Code, which in itself declares that the operation of any lottery or raffle, regardless of its benefit, is illegal. It will state that such operations, if their profit is for the benefit of the people or for some worthy cause, such as hospitals, churches etc., shall be within the limits of the law if approved by the governor. The amendment, if approved by the governor, shall be retroactive to January 2, 1948.

Children's Bus Rates Maintained

Mr. E. T. Calvo made the motion that the Guam Congress go on record as recommending that bus rates for children en route to and from school be maintained at their present level, or that in the event of a general overall increase in rates, the children be given a 50 per cent reduction regardless of zones. The motion was carried without opposition.

Mr. James T. Drought, Guam planning commissioner, was present during part of yesterday's session to answer questions and take part in the discussion of a proposed planning act and zoning ordinance. In relation to this, Mr. Simon A. Sanchez moved that the planning act be given thorough study by all members and be brought up at the next session. This movement was passed by a majority vote.

Governor's Address

An extensive discussion was held in reference to Governor Pownall's address to the Guam Congress at its last meeting of the old year concerning the agricultural rehabilitation of Guam. The matter was ultimately referred to the Agricultural committee for further study.

The Congress proposed to draw up a resolution for submittance to Governor Pownall to expedite the construction of New Agat. The basis for this move was the widely voiced poor living conditions under which the people of old Agat now live, due to the total war destruction of their village.

With no new business on hand, the Congress adjourned at approximately 4:30 p.m.

Schuman Seeks Approval of Anti-Inflation Measure

PARIS, Jan. 3 —(UP)— Prime Minister Robert Schuman staked the life of his five weeks old "save the franc" government tonight on his ability to ram a 125,000,000,000 franc ($1,050,000,000) anti-inflation program through a reluctant National Assembly.

The austere, 61-year-old government chief called an emergency National Assembly session for 10 a. m. tomorrow to begin immediate discussion of a new "soak the rich" tax bill from which the government hopes to get enough to balance its 1948 budget and smash inflation.

Passage Authorized

A 15-minute cabinet meeting today authorized Schuman to make passage of the bill a confidence issue as he saw fit.

If he fails, his government will fall and the long-awaited showdown between the Communists and anti-Communist forces of Gen. Charles De Gaulle might be precipitated.

Today, Schuman gave the assembly the new bill embodying the original measures of Finance Minister Rene Mayers' plan which the chamber watered down on its first reading last week.

The new bill was drafted at a series of lengthy cabinet meetings Sunday night and Schuman said the government "will not accept any modifications" and "will stake its existence on this text."

Big Three Begin Discussions On Zone Merger

LONDON, Jan. 3 —(UP)— The United States, Great Britain and France have started informal talks on merger of the three western occupation zones in Germany, competent French informants said today.

The talks are being conducted through normal diplomatic channels, informants said, and at this stage are tentative. They are intended primarily to establish a basis for conclusion of an eventual agreement on merger of the Anglo-American zones—"Bizonia"—with the French zone into a new "Trizonia."

It was added that the talks also would include the prospects for economic progress in Germany after the expected merger of the three zones.

Neither American-British nor French sides had yet decided definitely how or whether fusion was to be effected, informants said.

Pressure Forces King Michael Into Exile

BUCHAREST, Romania, Jan. 3 —(UP)— King Michael of Romania, his throne abandoned under government pressure, prepared today to ride into exile by train with his mother, Queen Helen, and a few close royalist friends.

An authoritative dispatch from Budapest, Hungary, said the former king will arrive in Budapest at 2 p.m. GMT (9 a.m. EST) tomorrow aboard a special train en route to Switzerland. The train is expected to stop briefly at Budapest station before continuing on to Zurich.

The royal party's first stop in exile was expected to be Switzerland, but there was no official word as to their destination.

Notice—It is requested that all classified and display advertising be submitted to the Guam News advertising office, Agana at least three days prior to the desired date of publication.

Higher Living Costs Foreseen For 1948

WASHINGTON, Jan. 3 —(UP)— Commissioner Clague, of Labor Statistics, predicted today that the cost of living will climb even higher this year. He saw practically no indications that 1948 will be a "depression year."

Clague was one of the first prominent economists to predict last year that 1947 would end without a recession or depression.

Communications Severed As Workers Strike

NEW YORK, Jan. 3 —(UP)— Some 3,000 CIO communications workers struck today against four major overseas cable companies, cutting off two-thirds of the normal commercial communication channels between the United States and the rest of the world.

Joseph Selly, president of the American Communications Association (CIO), walked out of negotiations with the Western Union Company's cable division shortly after 4 a.m.

Selly said no future meetings had been scheduled, although federal conciliators said they would continue efforts to settle the strikes.

The union had struck against Mackay radio, Commercial Cables and All-America Cables at 12:01 a.m., but had continued negotiations with Western Union in a last minute effort to avert the strike.

The union had asked a 30 per cent wage increase.

Support Urged For Marshall Plan

WASHINGTON, Jan. 3 —(UP)— Democratic party leaders, mapping 1948 presidential campaign strategy tonight urged Republicans in Congress to get behind the Marshall European recovery plan and the campaign to end the high cost of living at home.

Inflation already is a major issue in the campaign, and the Marshall Plan is certain to become one if Sen. Robert A. Taft, (R-O.), and other GOP lawmakers succeed in carrying out threats to rewrite it.

They called on Congress, which reconvenes Jan. 6, to approve the Marshall Plan to assure world peace, and to enact President Truman's anti-inflation program to prevent collapse of the nation's economy.

They accused the Republicans of deliberately putting obstacles in the way of the administration's post-war recovery efforts.

The Democrats laid down their program for the New Year in a second nationwide "radio rally" sponsored by their national committee.

Storm Ties Up Communications

CHICAGO, Jan. 3 —(UP)— One of the worst storms of the century crippled travel, communications and business in hundreds of cities from Iowa to the Atlantic coast today, tied up the great metropolitan area of New York for the second time in a week, and caused damage in millions of dollars.

The storm affected more than 60,000,000 persons in the heavily-populated, 10-state area, and a cold wave was following right on its heels. Temperatures already had fallen to zero or lower in the plains states and were expected to dip to 10 to 15 degrees in the midwest tonight.

Joint Task Force Seven Set up to Aid In Atomic Test at Eniwetok Proving Grounds

WASHINGTON —(UP)— A new military unit known as Joint Task Force Seven has been set up to build the physical plant and to aid in testing atomic weapons at the huge secret atom proving ground now being developed at Eniwetok, the Atomic Energy Commission disclosed recently.

The commission revealed for the first time how its new outdoor testing laboratory for atomic weapons will be run and made public the names of the men who will direct the task.

Top Secrecy

There was no hint, however, as to how far preparations for atomic tests have gone or when the first will be held. Nor has the commission disclosed the nature of its future test.

The scientific work at the new proving ground will be under the commission itself. To head the technical operations at Eniwetok, the commission named Dr. Darol K. Froman, a nuclear physicist from the Los Alamos, N. M., atomic laboratory and also an expert in cosmic rays.

Army, Navy and Air Force units aiding in the work of the big laboratory have been linked into Joint Task Force Seven, a follow-up to Joint Task Force One which conducted the military end of the Bikini atom bomb tests.

This is an entirely new military organization. Heading it as commanding general will be Lt. Gen. John E. Hull, designed by defense secretary James Forrestal to head military operations at Eniwetok.

Rear Adm. William S. Parsons, the Navy's director of atomic defense, and Maj. Gen. William E. Kepner, chief of the U. S. Air Force's special weapon's group, will serve as deputies to Hull.

Brig. Gen. Claude B. Ferren

Brig. Gen. Claude B. Ferren Haugh, serving with Army ground force headquarters in the Pacific, will be chief of staff of Joint Task Force Seven.

Naval units will be under Rear Adm. Francis C. Denebrink. Brig. Gen. David A. D. Ogden will head Army units of the new task force and Brig. Gen. Roger A. M. Ramey, a B-29 expert, will command Air Force units.

Task Force Purpose

The purpose of Joint Task Force Seven, according to the commission, is to "construct necessary facilities and installations at Eniwetok" and to "assist the commission in the conduct of routine experiments and tests of atomic weapons at the proving ground."

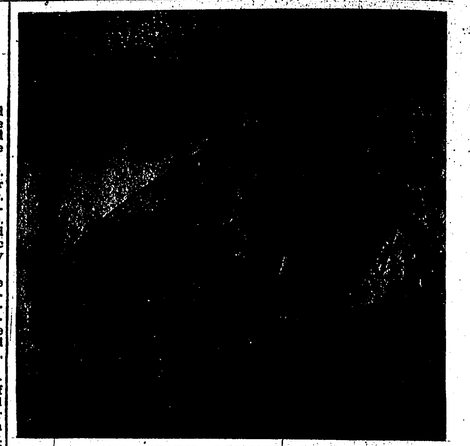
Assisting Froman will be Dr. Alvin C. Graves, deputy director of the proving ground, and Dr. John C. Clark and Robert W. Henderson, assistant scientific directors. All are now at Los Alamos, and have been connected with atomic bomb experiments since the early stages.

Capt. James S. Russell of the Navy, a member of the commission's division of military application, will be the commission's liaison man at Eniwetok, responsible to the commission for technical operation of the proving ground.

Task Force Commander

Russell also will serve as commander of the scientific group of Task Force Seven. His deputy will be Col. Paul T. Preuss, an Air Force officers also connected with the division of military application.

Today's announcement revealed nothing new except the organizational and personnel setup since the disclosure that Eniwetok would be a secret proving ground for atom weapons.



NAVY NATION'S GREATEST PROMOTER OF RESEARCH—Looming huge in the dark of Naval research laboratory's Chesspeake Bay annex, the big radar antenna, above, is one of the type recently employed to contact the moon. This is one of the many inventions and gadgets which have come about as a result of research fostered by the Office of Naval Research. (U.S. Navy Photo)

Rear Admiral and Mrs. Chester A. Pownall entertained several hundred guests at their New Years Day reception. In the reception line are: Mrs. Pownall, Adm. Pownall, Lcdr. E. S. Herman, and Brig. Gen. Arthur Thomas, ComGen Marama. (Guam News Photo)

Third Party Threat Taken Seriously by Democrats

Wallace Out to Lick Enemy, Truman

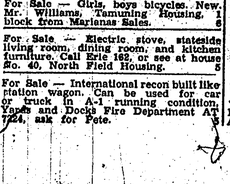
WASHINGTON —(UP)— Henry A. Wallace's third party threat is beginning to be taken seriously here in both Republican and Democratic presidential politics.

With Wallace running next year, Democratic chances of winning the presidential election will be hurt. His left wing presidential candidacy will attract men and women who have been voting Democratic in recent elections. President Truman scarcely can afford to lose those votes but it looks mighty like he will lose some of them.

Possible Deal

Wallace may be only fooling. If he is not, there is but one way for Mr. Truman to call him off. That would be to make a deal with the extreme left wing of what used to be the new deal-Democratic coalition. No such deal is even remotely likely. As of today the odds favor a left wing bolt from Mr. Truman to Wallace and a third party ticket in several of the 48 states next year.

Wallace cannot take all the new deal with him. His following will be the extreme left wing dominated by the organized Communist party which was part of the new deal but far from all of it. It doesn't take many votes to swing a close election and Wallace apparently intends to try to lick his old enemy, Mr. Truman.



HENRY A. WALLACE THIRD PARTY THREAT — A program based on aid to war devasted nations and reaffirm the nation's faith in the United Nations. (AP Photo)

That should be sweet music to the Republicans. It is sweet to the party as a whole and it would sound like a heavenly choir to the man who finally is nominated for president at next June's Republican National Convention.

Republicans at Ease

But right now it is reasonable to believe that all high placed Republicans do not look upon the Wallace threat in the same way. Take, for instance, Sen. Robert A. Taft (R-O.). Wallace's maneuvers are putting a tank of high-octane gasoline in the Taft-for-President machine.

Chances are that Gov. Thomas E. Dewey of New York and Gen. Dwight D. Eisenhower, to name a couple, would be happier if Wallace forgot about his third party until after the Republican ticket is named. Dewey is a substantial political figure in his own right and among his qualifications is a reputation as a vote getter.

A whooping third party movement for Wallace would lesson considerably the importance of nominating a Republican candidate with guaranteed political sex appeal, which is what Dewey and Ike have the most of—and Taft perhaps the least.

Pacific Island Economy Threatened by Insect Scourge

by George W. Wilbur, USN

The administration of the Trust Territory of the Pacific Islands, aided by top scientists from throughout the globe, is drawing from every source available in an effort to save the economy of the Pacific Islands from failing to the coconut beetle and giant African snail.

This insect and snail, running rampant in past years through the Caroline, Marshall and Marianas Islands, have succeeded in contributing to a bleak agricultural picture. The two pests mentioned are not the only one which cause trouble. The scientists in the field are all on their guard against other pests also. Prior to World War II agriculture was very meager. The supply of natural foods did not encourage extensive farming. This marginal effort on the part of the natives was further restricted by the demands made by the Japanese, who then controlled these islands.

Ravenous Appetite

These pests, feeding upon subsistence foods, multiplied until farming became nearly futile and one after another of the cultivated and natural foods fell to their ravenous appetite.

In 1945 military government officials found native agriculture frustrated and the problem of saving any foliage becoming increasingly difficult.

Chief among these pests was the giant African snail, (achatinafulica) which appears to have been introduced by the Japanese as an emergency food.

The snail found the humid climate of the Carolines an ideal habitat and multiplied at unbelievable numbers. It is reported that 24 snails were smuggled into Ponape in 1934. Ten years later one of the five districts on that island hand-picked over five million. A prolific breeder with an insatiable appetite for nearly all growing plants, the snail soon became a dreaded scrouge. Actually at one time the Island of Rota in the Marianas was nearly denuded of all natural indigenous foods. Only prompt control measures and Navy relief saved these native Chamorros from near-starvation.

The second enemy which has ravaged extensive areas throughout the Pacific is the coconut beetle (brontispa), which appears in many species. These pests find the coconut leaves and buds particularly appetizing, although they will spread to nearly all members of the palm family.

Paralyzing Native Economy

To devestate coconut trees on these islands is to deliver a paralyzing blow to native economy. Copra, coconut oil, building materials and foods are all forthcoming from this plant. But the beetle is unheeding, and in the last few years has more than halved the number of nut-bearing coconut trees on Saipan, Tinian, Rota, and throughout the Marianas.

In view of the widespread scrouge of these two pests, the high commissioner of the Trust Territory of the Pacific Islands called upon the U. S. Department of Agriculture to assist the Navy and civil administration in obtaining natural enemies for the snail and beetle. This appeal was made through the Pacific Science Board in Washington.

Immediately, professionally trained scientists, specialists in insect control, were assigned duty in the Trust Territories. They reported to Rear Admiral Carlton H. Wright, USN, deputy high commissioner of the Trust Territory of the Pacific Islands.

Meanwhile, other scientists in many parts of the world took interest in the project and joined the ever-increasing ranks of men whose job it was to wipe out these dangerous enemies of mankind in the Pacific. Entomologists from such far-off places as Zanzibar, Africa and the Philippines whole-heartedly offered their experiences and material for the oncoming fray.

Hunting For Weapon

The investigation has been going on for months now. Scientists have been combing the brush and trekking off into coconut jungles throughout the Pacific, noting the growth, habits and extent of damage caused by the beetle and the snail, and attempting to find some weapon, either a natural parasitic enemy or a man-made poison, which will halt their devastating path.

Dr. William Harry Lange, Jr., of the University of California was one of the numerous entomologists who became actively engaged in combating the snail and coconut beetle. Dr. Lange coupled his own personal findings with the investigation results of other scientists in the field and recently forwarded a report to the Trust Territory officials on Guam, in which he outlined a plan which could sucesfully combat these pests and restore the agricultural economy of the Pacific.

Dr. Lange stressed the importance of introducing natural enemies of the snail and beetle into the stricken areas. He put this method of control above all others. Work is already underway to obtain a natural parasite for the giant African snail from Africa itself.

Although Dr. Lange agreed on the effectiveness of poison against the snail, he pointed out that fly-attracting and odorous remains would probably be nearly as great a menace as their existance, especially in populated areas.

Dr. Lange's major suggestion was to cut down and destroy all the present trees on islands which were damaged by the coconut beetle. He pointed out that in this way the beetles would starve or be mechanically destroyed. A new group of trees could then be planted and would be bearing fruit a few years later.

Concluding his report, Dr. Lange claimed that in order to keep the insect scrouge from spreading, studies must go on continuously in all infected areas, and the search for natural parasitic enemies must never stop.

The success of this venture is of prime importance to the welfare of Pacific Island people, striving hard towards rehabilitation. Victory is in sight.

Sex Crashes British Movies

by Robert Musel

United Press Staff Correspondent

LONDON —(UP)— Sir Alexander Korda demanded to know who had turned on the central heating. It was only Christine Norden entering his office.

The British movie producer took off his thick glasses-he didn't need them to see Christine. Through his mind ran the complaints from film house managers about austere Britsish heroines chastely bestowing refrigerated kisses.

"Do you act?" he asked.

There was a low throaty reply. It was 4:30 p. m. Sir Alexander noticed the exact time, for it was that moment that sex first raised a lovely blonde head towards the British screen.

Now, some two years later Sir Alexander believes he has the only British actress extant who belongs to the warm blooded animals. He doesn't count those who emigrated to Hollywood such as Meril Oberon (his ex-wife.)

Burgess Meredith agrees with him "Mine Own Executioner" that Burgress turned to an assistant director and stated:

"Remind me, occasionally, that I'm a married man."

Miss Norden has several distinctions besides sea-green eyes and figure that meanders pleasantly from 34 inch bust beyond 34-inch hips to a pair of legs that won her a model job and caught the attention of two American GI's jeeping down London's Edgware road.

She was probably one of the prettiest casualties of World War II. It happened in Normandy where she was one of the first entertainers to go overseas.

"I raced a piece of shrapnel to a slit trench near Caen," she said. "The shrapnel won but it only caught my arm and these scars are all I have left to show."

About the GI's. They were jeeping along when one of them, Nick Brodszky, applied the brakes to get a better view of a lissome blond waiting to buy a movie ticket. Brodszky is a composer who knows many film people thus his opening line was the classic: "you ought to be in pictures."

Later he told a friend in the Korda office about her and that led to the historic interview mentioned above.

New Look or Not, These Girls Like Their Sweaters

CHICAGO —(UP)— A group of bobby soxers think the "new look" will do just fine as long as they don't have to take off their sweaters.

Seventy-three high school sweater girls filled out questionnaires on what they thought of the new look. They agreed that sweaters—tight or sloppy— still were their favorite garb.

Fashion designers can make skirts with padded hips, pleats or hems to the ankles if they want to, the girls said, but woe to the artist who erases the sweater.

A tabulation of the survey, made by a large department store, showed that a majority thought skirts and sweaters were typical high school garb. Some preferred to wear their sweaters tucked in the skirt, some out, and some liked the kind that button.

For activities outside school and casual wear, 21 chose slacks; five, skirts, and 19 blue jeans. All 45 said they'd take a sweater to go with them.

The rest of the 73 said they wore blouses or jackets with their slacks.

While they spend most of the day in their sweaters, the girls said they like to discard them in favor of skirts and blouses with "that ballerina look" for evening wear.

But they agreed that most of the time they'd rather be sweater girls.

New Drug Store Opens at MarBo

MARBO—A drug store that does not sell a lettuce and tomato sandwich or ham on rye with malted milks while you are waiting for your prescription is located right here in MarBo.

This pharmacy is located at the 22nd Station Hospital. Filling prescriptions is their speciality. The civilian in charge Benjamin Goldberg center in picture is a veteran of more than 34 years in the drug business. A veteran, too, in Army installations, he served 18 months in the pharmacy in Iceland and upon returning to the United States was assigned to the pharmacy at the POE of New York.

Goldberg has two assisting him, S-sgt. Samuel B. Ryder (right in picture), a former pharmachist mate in the Navy and Sgt. Carlos Tango (left in picture).

40 to 50 prescriptions per day are filled here. This is a good record for a pharmacy in the states. This does not include the medicines supplied to the dispensaries in bulk. Military personnel: their dependents and civil service personnel are priviliged to receive the prescriptions written by Army doctors.

All vaclnes are kept on hand in this pharmacy which is organized and fully equipped to take care of the needs of the hospital.

Navy Operating Extensive CIMA Program in Trust Territory

by Leonard J. Morgan

Almost immediately after the American occupation of the ex-mandated islands in 1945, the Navy Department instituted a program to investigate some phases of Micronesian anthropology.

Scientists were sent into the field, operating singly or in groups, but these early projects only covered specific items and no overall program was set up. For the most part, these individual scientists were college professors who were working during their summer vacations or sabbatical leaves and very little of the information they received was made available to the local military governments.

Early in 1946, the United States Commercial Company economic survey made an area sweep to study the agriculture, natural resources, indigenous plants and in general, to get a picture of the newly acquired area. But because of the lack of time available for study, only a partial investigation was completed.

In the latter part of 1946 and in early 1947 the Pacific scientific board in Washington formulated plans for an extensive, thorough going study of Micronesian anthropology. In this plan, practically every field was to be investigated by approximately 50 scientists representing 22 universities, colleges and institutions.

The organization was called the Coordinated Investigation of Micronesian Anthropology or CIMA.

The Navy Department is providing air transportation and all necessary equipment. Dr. Harold J. Coolidge, executive secretary of the Pacific scientific board and Mr. Leonard Mason of Honolulu arrived on Guam in May, 1947 to arrange for the necessary supplies.

Surplus supplies were issued free of charge by the Navy, the thought being to cut the cost of the program whenever possible in order that more scientists could be sent into the area out of the alloted funds.

Six weeks of activity on Guam proceeded the first draft of 19 CIMA scientists. Special air transportation to points nearest their respective stations was arranged and travel to their ultimate destinations was expedited.

Photographic services were offered to CIMA scientists in the field. Black and white films were processed on Guam and assistance was offered in getting complete films developed in Honolulu or the States. Complete pictorial films were taken for further study and documentary files.

On arriving at the civil administration units, field trips were organized to send the scientists to the outer satellite islands. Here, camps were set up and work begun.

The investigations included four main phases of anthropology. They are:

1. Physical anthropology, which includes psychology, anatomy, growth and mental development of the natives. This information will be invaluable in developing the public health programs.

2. Languages, in which the 7 different language groups in the area are being studied. This study will be used for the scientific and education programs planned for Micronesia. Special emphasis is being placed on grammar, vocabulary system of writing and dialect. From this study, dictionaries will be compiled and, in time, text books.

3. Enthnology which includes a study of the cultural anthropology in religion, social activities, customs and kinship of groups of men to one another—to assist the administration in adjusting itself to the customs and traditions of the natives.

4. Geography, which includes a study of the natural resources and their actual and potential use, native system of property ownership and their economic status. To be used in the economic rehabilitation of the Trust Territory islands.

The Japanese had a similar program which opened up avenues of endeavor, understanding and development. None of the information the Japanese obtained is available to the present administration. While the military government has been in an administrative capacity for over 2 years, they have not been professionally equipped nor have they had the transportation or personel to obtain the information that the CIMA scientists can gather and evaluate for the administration's purpose.

To govern properly, the Trust Territory officials must understand these people as they are and they have been for generations. Their important folk lores, traditions, customs, etc. are the ingredients which make these people what they are, and the more the administration knows about them, the better it can adjust its administrative program to preserve and foster them.

The CIMA program is enthusiastically endorsed and supported by the Navy Department, and the natives, directly or indirectly, will benefit by these painstaking investigations. By using the information obtained, the inhabitants of the Trust Territory will improve their own language, stabilize their spelling, improve their diet and their living quarters, raise their economic standard, and in general improve their overall standard of living.

CIMA REPRESENTATIVES—Shown as they arrived on Guam to begin their study of Micronesian anthropology is the largest group of CIMA representatives to go into the field. Headed by Dr. George P. Murdock and Dr. Peter Buck the group stopped at Guam in early July, 1947, on their way to their respective islands. (Guam News Photo)

Rough-Water Amphibian, Carrier Jet-Fighter Planes Newest Additions to Uncle Sam's Naval Air Power

by Ships Editorial Association

NEWEST in the Navy's air force are the Panther, top, and Albatross.

Radical improvements in Navy air power has been introduced by two new planes—Grumman XJR2F, amphibian utility craft, *Albatross*, and Grumman XF9F-2 *Panther*, carrier-based jet fighter.

The *Albatross*, capable of rough-water operation on the open sea, will be used for rescue work, personnel or cargo transport or multi-engined seaplane training.

The new plane is the product of extensive hydrodynamic research, and is expected to operate in waves as high as four-and one-half feet.

Loading in the *Albatross* will be accomplished through an overhead hatch, with a dutch-type door cut into the side of the fuselage for rescue operations. The big amphibian has a wing-spread of 80 feet, an over-all length of 61 feet, 4 inches and has a three-point altitude of 24 feet, 5 inches. Two 1,425 horsepower engines propel the huge plane, which has an expected take-off time of 12 seconds.

The most powerful production jet engine developed to date power the *Panther*, the Navy's second newcomer to air ranks, and is expected to give it a speed of more than 600 miles per hour.

Three XF9F-2 type craft will be made by Grumman, the *Panther* and the second plane in the series powered by Rolls Royce Nene turbo-jet engine capable of producing 8,000 horsepower at 600 miles an hour. The third plane of the series will be equipped with the Allison J33-A-8 turbo-jet engine, capable of producing up to nearly 10,000 horsepower at very high speed.

The *Panther*, therefore, will be the first jet fighter to have a dual source of engines, which will insure uninterrupted engine supply and tend to lower production costs. Field or operation units can accomplish the interchange from one type of engine to another in routine manner.

Novel construction features such as a highly functionalized cockpit and movable landing edge of the wing provide improved stalling conditions and improved lifting power.

The cockpit is considered the closest approach by any Navy fighter to what medical studies set as the ideal from physical and psychological standpoints.

GUAM'S FUNCION

by Evelyn Perez

Mr. Atanasio L. G. Salas is soon to leave for the U.S. to further his education under the G.I. Bill of Rights. He will reside at the home of his brother, Mr. Francisco L. G. Salas of Oakland, California.

Mrs. Gene W. Radar, the former Miss Minna Scharff, returned recently to visit her parents. Her husband will join her within a month.

Mr. Joaquin P. Quitugua is soon to leave for the U.S. to visit his brother Mr. Vicente P. Quitugua of Torrence, California.

Mr. Vicente T. Perez, returned recently from the U.S. after visiting relatives and escorting his sister who is to continue her schooling in the mainland.

Mr. Jose Salas Lizama is soon to leave to attend trade school under the G. I. Bill of Rights. He will reside at the home of his cousin, Mr. Hipolito P. Lizama of San Francisco, California.

Mr. Thomas G. Meno is soon to leave to continue his schooling and to visit his cousin, Mr. Pedro Aguon White of Brooklyn, New York. He will reside at the home of his cousin until he finishes his studies.

Miss Frederica Elena Roberto, daughter of Mrs. Margarita P. Roberto and the late Mr. Ignacio T. Roberto was married to Mr. Henry John Kurkowski, of Buffalo, New York with the most Rev. Father Raymond officiating. They are now residing at Leyang, Barrigada.

Miss Rosa V. Cruz celebrated her 22nd birthday at her home in Chalan Pago on January 1, 1948.

Mrs. Mary Wolford Blas and son Howard are soon to leave for the United States to join her husband who is stationed in San Francisco, California.

Miss Josefa D. Cruz will celebrate her birthday party at her home in Mongmong tonight.

BLONDIE (Courtesy King Features via SEA) by CHIC YOUNG

THE FEMININE TOUCH

(ED. NOTE—June Lenz continues from last week, the story of the Admiralty Islands. In last week's column the location of the islands, personal appearance and dressing habits of the inhabitants were discussed while this week, the social life, guise for beauty and money standard complete the story.)

by June Lenz

The social set-up is somewhat involved for such a simple people. Each village has a head chief and a sub-chief. The villages seem to resolve themselves, inexplicably, into two sections, presided over by the respective chiefs, the latter being responsible to the number one man. The natives are also divided into two types. The shallow water Kanaka and the bush Kanaka. The former lives in a thatched hut built on stilts in the shallow water of the lagoon. The bush natives have their villages in the bush or jungle.

Polygamy is practiced as far as ones wealth allows. The chiefs have as many as six wives. The marriage ceremony consists of the bride and groom each biting into a piece of pork, which is then severed with a mother-of-pearl knife, designating the act of sharing. The divorce is effected with even less ceremony. The Kanaka Marie gathers her few belongings and leaves the hut or Kanaka Joe turns her out, depending on who initiates the rift. This easy solution of dissolving marriage is tempered by the fact that desirability drops after each "divorce" and marriage is the most important function in the native social scheme. Children are regarded with complete indifference. By the same token little respect or regard is shown for the parent. Mothers do not bother to remember the ages even of their young children. Formal training or chastisement is completely neglected but with all the youngsters develop into acceptable Kanakas.

One of the most unusual practices in the guise of beauty is the elongating of the earlobe. The ears are pierced, usually at puberty and a small spool of rolled palm frond is inserted into the aperature. Gradually, the size of the spool is increased until the lobe is stretched to such an unbelieving length, it can be brought back up and folded over the top of the ear. Shells, counterparts of earrings, such as bead work and flowers are placed in the slit for adornment. This is effected by both men and women. Tattooing is also popular with the Kanaka. This is achieved by skin mutilation rubbed with ashes and to a small extent vegetable dye. When the wounds heal, permanent discoloration forms the simple, short line patterns.

The "gold standard," around which is built all trading, bartering and the purchasing of a wife, is tambu. Tambu is a native shell found only on the island of Ponam. The natives of other islands do not known how it is prepared though it is accepted "money." It is polished and sized and on this the value is levied. The shells are strung about the waist, head and neck as adornment and thereby visual wealth. Dog's teeth are the silver standard.

During the German reign dog's teeth were imported from Turkey to pay the native wage for plantation work. Inflation followed with such implications as to increase the price of a wife from 500 dog's teeth to 10 times that amount. Proving even native economy is not infallible. Only the fangs of the dog are used. After being polished and carved with a small design at the top of the tooth, a small hole is bored and the teeth are strung for necklaces. Calabashes are also highly treasured. Though native art has had little development in these islands, the calabashes, as turned out by these people, are superior to any in the Pacific. They are fashioned from trunks of native mahogany. First the wood is hollowed with a small adz or obsedisan stone and then sanded with sharkskin or stingeree. A small carved design is worked on to the outer side of the large bowl. 100 frames of tambu, 5,000 dog's teeth, 3 calabashes or an equivalent combination are enough to purachase a maiden on the first marriage.

Guam News

Published daily and Sunday for personnel of the Army, Air Force, Marine Corps, Coast Guard, Navy and civilians of the Western Pacific Islands. United Press services received through special arrangements made by Ship's Editorial Association of the Bureau of Personnel, Navy Department.

The Navy Department does not necessarily endorse products herewith advertised.

Price per issue, three cents daily within radius of seven miles of Production Plant, Agana, five cents outside; five cents on Sunday.

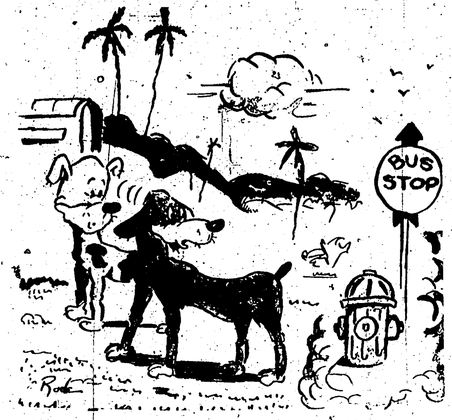
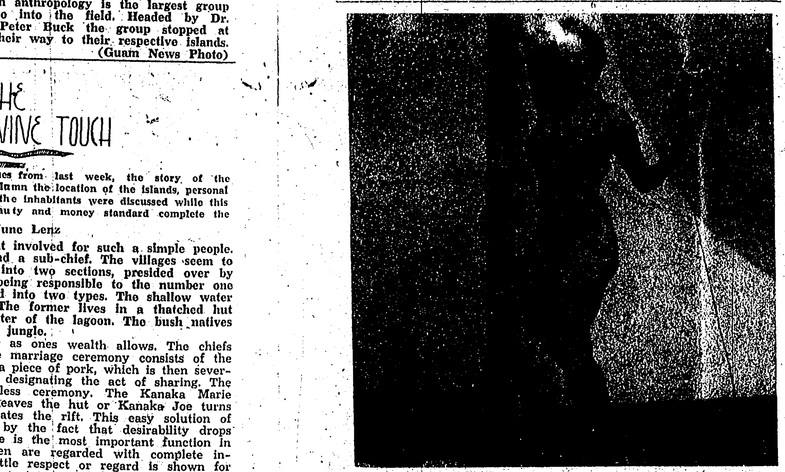
Ink-Spots . . . . by Rode



"Say, Charlie, do you think we're susceptible to illusions the same as people are??"



BY POPULAR DEMAND—We again present to you Miss Rosemary Schwebs, Wisconsin University freshman adjuged "Miss Drum Majorette of America For 1947" Miss Schwebs utilizes her bathing for purpose other than just looking beautiful, for she won the Wisconsin state women's diving championship this past summer and has hopes of repeating the performance again this year. Rosemary writes us there on the staff that she envies our all-year-round swimming climate. Little does she know huh? (Candid Photo)

Poet's Corner

There's No More Time

by Eleuterio J. Tropa

There's no more time to waste,
My comrades, my fellowmen;
The dawn is in its morn,
'Tis for us to sow its seed
That is in each heart, yet unborn.
Let us now awake and see,
The world that is ours this day,
To conquer with our hearts sublime;
Submitting ourselves into its rhyme;
To look for ourselves the right way.
Change from what it is,
To the right path that leadeth us
To the light, the truth of our goal,
Awake into its bugle call, throbbing
From cozters of the earth, shaking,
The light of hope will soon emerge,
From you and I, from corner to corner
Of the globe in wavering brightness,
If its human man submits itself
To its wake of survival gloriousness.
Gone now let us pause and watch,
The tremor of voices that needs the light,
The life which has been lost, yet waiting
For this time to act into its way,
From all of us today to discover,
It's in you and I, in everyone
The truth, the light to our goal,
Patiently waiting, waiting since ages past,
But now still in its cask, waiting
For all of us to use, applying to form,
Form it is for us to mold,
Our life into freedom and peace.
In each hearts there it glows,
When we use it, it sparkles
Its brightness will be the
Only hope of our world.

"Life's Best"

by Casimiro P. Fernandez
Pgl-Stock Shipbuilding Co.

All day long I toil
And at night I wail,
That's what on earth is my life
Like a lamp without someone to light
Someday I may come to rest
To this quite and peaceful place,
I'll no more find sorrows nor happiness
But in heaven I will find the best
Life will be different then,
When up I'll be in heaven,
Angels I'll always find singing
And's happiness for me-ever-lasting.

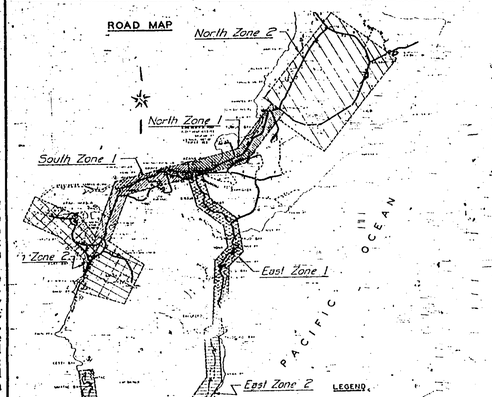
New Guam Bus Line Tariff Rates

The Hopkin's Committee recommended, among other things, that the prewar bus line rates then in effect at the time of their visit be reduced drastically downward. Predicated thereon, the present rates were placed into effect as of 1 May 1947. This rate provided for a straight ten cent (.10) fare all over the Island as one zone. It was foreseen at the time that the bus line stood to lose considerable in revenues through such reduction in fare. At the same time it was highly desirable to ascertain by trial the minimum practical fare that could be charged and still remain solvent. Over a period of eight months, during which time decided efforts were made to reduce overhead, and to provide efficient service, precise accounting was maintained.

It was evidenced from this date and observation, that it is impractical to operate a satisfactory bus line on Guam in a solvent status on a straight ten cent fare. Consequently, zoning studies have been made, on an equitable and practical basis. They are as follows:

Zone No. 1 (south) will extend between the bus terminal in Agana and the NSC commissary store. Zone No. 2 (south) will extend between the NSC commissary store and all points south thereof. Zone No. 1 (north) will extend between the terminal in Agana and Wettengel Junction. Zone No. 2 (north) will extend between Wettengel Junction to all points north thereof Zone No. 1 (east) will extend between Agana and Talofofo bridge and zone No. 2 (east) the area south of Talofofo bridge.

As an example, a person going from Agana to a point south of NSC commissary will be required to pay a ten cent fare upon boarding the bus at Agana and another ten cent fare when leaving the bus at his destination. Likewise Agana bound passengers will pay ten cents when boarding the bus south of NSC commissary and another ten cents at Agana. The same system of fare collection will apply north and east of Agana with Wettengel Junction being the zone dividing point on the north and Talofofo on the east.



This rate will be posted in all busses and in the Agana terminal, and will become effective at 0800, 10 January 1948.

The rates charged by this rezoning are below the customary tariffs in effect and in Honolulu and the United States of from 30 to 50%. Any profits derived from the foregoing will be used to improve the equipment and the service of the bus line.

Another factor which has tended to defeat the overall efficiency and purpose of the bus line, has been the large amount of gratuitous governmental travel that has existed and which is still existing since the war and V-J Day. The initial policy of the government is to gradually remove all forms of gratuitous service which are not justified. When such gratuitous services are integral to the wage scale, they should be stated in specific terms, otherwise, they should be abolished forthwith. The government, including its bus line cannot reach a sound basis of economy, with equity to all, by endeavoring to compete with the government activity which enjoys a free fare service.

Present plans contemplate that the bus line will become the major source of transportation on the Island. This, on a practical and step-by-step process, predicated upon gradual expansion of its equipment, maintenance facilities and personnel, and the gradual removal of gratuitous government transportation.

STORK NOTES

A Christmas baby, Elizabeth Mary Chrisoftomo, was born to Steward's Mate and Mrs. Teodore Chrisoftomo of Toto village.

On 27 December Susan Jane Anderson greeted her new parents Master Sergeant and Mrs. Anthony C. Andersons live at the 5th Service housing area.

It was a baby girl, also, for ship's cook and Mrs. Bernard C. Robles of the ComMar housing area. The young lady's name is Susana Bautista Robles.

A baby boy, Peter William Katsirubas, was born December, 21, to Mr. and Mrs. William P. Katsirubas of the Naval Government housing area.

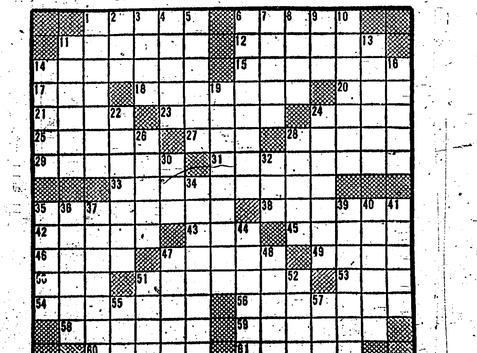
	52 Wander.
	55 Endeavor.
	57 Vase.



Over The Joepot

by Bill Jury

"Go West, young man, go West." No, Horace, you're wrong there. (The poor old duffer obviously hadn't seen much of Western football, huh?)

We'd bet our last pair of socks that Western football followers were suffering from a double-barrel hangover on New Year's Day when the tabulations were in.

Southern California's Trojans, the undefeated, once-tied champions of the West Coast, were never figured to win the Rose Bowl party, but a lot of people were depending on them to hold the score down, anyhow. Forty-nine to nothin'. Holy Moe! There oughta be a law.

Up north in 'Frisco the Eastern All-Stars knocked the West aggregation from pillar to goal post for the most lopsided victory in the 28 years of the charity classic. . . . a rousing 40 to 9 fiasco.

In the not-too-heard-of Harbor Bowl in San Diego, Hardin Simmons buried San Diego State, 53 to 0.

What's behind the rapid disintegration of Pacific Coast football? Before the late world unpleasantness the Coast could match the best in the country.

For a solution as to how to get the West Coast back on the victory trail we'll recommend you for a plush seat at the Pacific Coast conference table. Your smiling face would indeed be welcomed there.

Luckily for West Coast sports fans they've got track, basketball teams, track teams and two of the best crews in the country in Washington and California, but as for the grid squads—They should've stood in bed.

Basketball Tourney Goes Into Second Half At 20th Monday

HQ. 20TH AIR FORCE, Jan. 3 —Basketball competition within Twentieth Air Force will be renewed Monday night when the second half of the double round robin tournament begins on the Headquarters court. Upon its completion a representative team will be selected to represent the Airmen against a Ground Forces team during the last week of February.

Represent Headquarters

The 474th Signal Company "Gamecocks," undefeated during the first half of the tourney, will represent Headquarters.

Monday, 5 January: AACS vs. Harmon; Northwest vs. North; Tuesday: 514th Weather vs. 811th EAB, HQ. vs. AACS; Wednesday: Harmon vs. Northwest; Thursday: North vs. 514th; 811th vs. HQ.; Friday: 811th vs. North; Harmon vs. HQ.

First games of doubleheaders will start at 1900 with the second beginning at 2015. The Wednesday night game is scheduled for 2000.

Cage Scores

Ripon 45	Lawrence 37
Ottawa 59	Carroll College 34
Colorado Mines 64	Emporia 22
North Dakota 59	Ellendale 45
Yale 70	Wayne 65
Seton Hall 63	Baldwin Wallace 54
Hastings 56	Oklahoma City 39
Akron 73	Albion 43
Indiana St. Tchrs. 86	Georgetown 43
Dickinson Tchrs, 41	Fargo 35

Local Grid Dispute

To settle an old score that dates back to the early days when the Sweat Bowl meant touch football, the 93rd Engineers will tangle with the 811th EAB Wildcats this afternoon on Geiger Field.

The two teams both ended up in the second division in the final MarBo standings, but the Engineers claim they weren't treated right by the Wildcats in the football jamboree December 20 and want to do something about it.

ComMar Quint Takes Series Opener, 43 to 34

Jack Craig Leads Brigade Eleven to 45 to 0 Victory

SHANGHAI, Jan. 2 —The First Marine Brigade football team led by Jack Craig's spectacular ground gaining, overwhelmed the China All Stars, 45-0, before a crowd of 10,000 at the Race Course here New Year's Day.

Before game time, both teams looked evenly matched. Early in the first quarter, however, the Marines capitalized on a China fumble on the All Stars' 20 yard line and Craig, starting at fullback for the first time, went through a hole in the left side of the line, weaving and bobbing and faked four would-be tacklers out of position to cross the double stripe standing up. Tex Koenig's placement for the point was blocked.

This was the story all afternoon. All of the 32 Devildogs who made the trip to Shanghai saw action in the game, but Craig was without a doubt the outstanding player on the gridiron.

Johnny McLoughlin held a field day with his touchdown passes. There were four of them altogether. Midway in the second period, McLoughlin heaved one to Bill Nimmo in the end zone for twelve yards and a TD. Koenig converted for the point again. In the second quarter, McLoughlin chucked another one to Halfback Ray Collins who eluded the entire China secondary and safety man to go 45 yards for another score. The placement was wide.

Coming back in the second half with a 19-0 lead, the Devildogs lashed out with a series of spinner plays that hid the ball from sight until the All Stars had tackled almost everyone who was standing in the Brigade backfield. Craig sparked a downfield drive and then carried the pigskin over from the four yard line. The placement was blocked.

McLoughlin came back in the fourth quarter and tossed two more touchdown passes. The first one came early in the period when McLoughlin again threw to Ray Collins who scampered to pay dirt. The play covered thirty yards and gave the Brigade their sixth touchdown of the game. On this one, Knight booted the extra point. Probably to add one for good luck, McLoughlin threw to Knight who caught the ball on the dead run four yards from the goal and stepped over for a 6 pointer. Koenig kicked the point to add the finishing touch to the 45-0 victory.

Statistics on the Brigade-China All Star game:

	Marines	China
First downs	11	3
Yds gained rushing	227	53
Yds lost rushing	46	16
Passes attempted	10	24
Passes completed	6	3
Kickoffs	9	0
Penalties	10	6
Punts	8	13
Average punt	39	40

Coast Grid Group To Play in Honolulu

SAN FRANCISCO, Jan. 2 —(UP)— A group of West Coast football stars headed by Herman Wedemeyer of St. Mary's College, will fly to Hawaii tonight for a series of games in Honolulu.

Three players left this morning aboard a Pan-American plane—Joe Daugherty, William Ross and John Tsarnas, of University of San Francisco.

Leaving on a Pan-Am plane tonight will be Wedemeyer, accompanied by his wife and daughter; Dennis O'Connor, Frank Carrillo and Ed Ryan of St. Mary's; Harry Agler, Ted Kenfield and Harry Pieper of California and George Quist and Ainslie Bell of Stanford.

Johnny Longden Top 1947 Jockey With 316 Wins

ARCADIA, California, Jan. 2 —(UP)— Johnny Longden, pint sized millionaire who's brought in more winners than any other American jockey, started the New Year today at the leading rider of 1947 with 316 victories and he's going stronger than ever.

Two winners the first three days of the current Santa Anita meet brought his all-time mark to near 2900—Johnny himself has lost track of the exact figure. He previously led the nation's saddlesmiths with 236 in 1938, and has won top honors at a string of individual track seasons, the latest being 55 wins at Bay Meadows which closed last month.

Fancy Riding

All of which spells a lot of fancy riding for the five foot, 97 year old "Mr. Moneybags" who parlayed the $25 he got for riding his first winner at a Montana county fair in 1927 into a fortune estimated at more than a million dollars.

"People keep asking me when I'm going to retire, but I think it would be silly while I'm still on top," Johnny said. "Last season was just about my best."

Yankees Refuse To Comment On DiMag's Contract

NEW YORK, —(UP)— The New York Yankees, although confirming that they were negotiating with Joe Di Maggio over his 1948 contract, refused comment today on a report that he was holding out for $75,000 and denied that ex-President Ed Barrow would rejoin the club in an executive capacity.

In admitting contract discussions with Di Maggio and other members of the team, the Yankees said that the outfielder and General Manager George Weiss had agreed that no publicity be given the negotiations.

Di Maggio, who received $43,500 for the 1947 season is the highest salaried player on the team.

A club spokesman added that some players are being forwarded contracts for 1948 while others were expected to come to New York for the purpose of conferring with Weiss.

Co-Owner Dan Topping personally denied the Barrow report in a telephone conversation from Miami, Fla.

Lager Leads Hilltoppers as SeaBees Bow

After a see-saw battle had raged through more than three quarters of the game, Maynard Lager put on a personal scoring spree last night in the closing minutes to give ComMar a 43-34 victory over the 109th SeaBees in the first game of the Island cage finals on the ComMar court.

The biggest part of the game was a disappointment to many fans, both teams playing far below their usual standard, but the finish was a thriller. Leading by a lone point with less than three minutes to go, the Hilltoppers were anything but a cinch to win until Lager, who had 17 points for the night, suddenly caught fire and pumped in a pair of field goals and two foul shots and Buz Squires hit a crip to ice the game with only a minute remaining.

Trailing by eight points as the first period ended, the SeaBees, led by Jack Argotsinger, who looks small on the court alongside his teammates, got their collective eye and pulled up to lead 17-16, late in the quarter only to stop there and permit Fons and company to ring up three goals and lead at the half, 22-17.

Argotsinger Big Factor

Both teams were playing sloppily as the second half started and the SeaBees hit two quick ones to tie it up and it was still knotted when the fourth quarter got underway. Argotsinger again was a big factor as he teamed with Earl Whitely and Spade Coley to keep abreast of the North League champs.

Bud Isaacs broke the 28-28 deadlock early in the final quarter with a foul shot, but from there on the SeaBees had an almost unbelievable streak of bad luck as rebound after rebound rolled around the rim and then dropped off and the foul shooting of Texas Earl Whitely was all that kept the game from becoming a rout. Gil Marlowe, Ken Fons and Lager hit for ComMar to move five ahead only to have Whitely close the gap with three gratis heaves. In the final four minutes Lager went crazy and two more free shots by Whitely could only keep the margin under ten points as the Hilltoppers won going away.

Wrestling For All Navy Begins March 1

(SEA)—Grunt and groan experts from every corner of the globe will compete in the huge All Navy Wrestling Championships, slated to begin at the U. S. Naval Academy, Annapolis, on March 1, 1948.

Not only will the men who reach the finals at Annapolis be in the running for the All Navy diadem, but will also earn a crack at trials for the U. S. Olympic wrestling team.

Competition will be started in Naval Districts and area commands and 32 champions will make up the trip to Annapolis. Four men in each of the eight weight divisions will enter the finals. One man in each weight class will be picked through the All Navy sports program elimination system from each of the following: Hawaiian Islands and areas west of Hawaii; ashore and afloat West Coast, including Com 17; ashore and afloat Atlantic, including Com 10 and Com 15; East Coast Naval Districts including Com 8 and Com 9 and river commands. The Marine Corps personnel will enter area eliminations.

Olympic rules will govern all bouts and will be disseminated at a later date. All contestants must hold amateur standing and winners will remain at the academy for intensive training for Olympic trials, scheduled for mid-April.

Ray Swartz, head wrestling coach at Annapolis, will instruct the Navy's mat hopefuls.

25 MarBo Boxers Leave for Army Meets in Pearl

Every man shooting for a trip to Chicago and a possible shot at the Olympics tryouts, 25 MarBo boxers and Coach Lt. Mike Karvasales left yesterday afternoon from the Harmon Field terminal for the Army Inter-Command Meets in Pearl Harbor late this month.

Karvasales took with him at least two fighters in each of the nine weight classes and in some cases three. Each of the five Army commands in the Pacific will enter two men in each weight class, thus making a ten man bracket for each class. The winners of the tourney will make the trip to Chicago for the Army finals and the ultimate victors there will go on to Boston for the Olympic tryouts this spring.

The hope of the MarBo team will be carried in the main by Featherweight George Crump and by the unorthodox Clarence Fentress. Crump has completely outclassed everyone he has met in the last four months both here and in China and Fentress has displayed a knockout punch in either hand that has established him to mow down all opposition.

Fulton Baseball Club Fined by Trautman

COLUMBUS, O., Jan. 3 —(UP)—Fines totaling $1,500 were handed out today to the Fulton, Ky., club of the Kitty League and its president, K. P. Dalton, for violations of the bonus rule, but the fines were immediately suspended.

George M. Trautman, president of the National Association of Professional leagues, fined the Fulton Club $1,000 and Dalton $500 and then suspended both penalties because Dalton "honestly admitted" that the club had violated the rule in dealing with player William J. Propst. Propst was made a free agent.

The fines followed Propst's protest that Fulton had not paid him the $50 per week guaranteed to him of the $175 received by the team when his contract was sold to the Greenville, Miss., club.

All Navy Cage Tourney Set For April

(SEA)—Navy basketball fans will focus their attention on the All Navy hoop tournament in the first week in April.

Although the exact site of the gala joust has not been definitely decided, tentative plans call for the games to be played at a Florida station of the Naval Air Training Command.

Four Teams

Four teams will compose the finalists in this year's event, two to be selected by ComServPac (West Coast and Pacific area) and two by ComServLant (East Coast including Com 3, Com 9 and river, commands and Atlantic area).

Augmentation rules similar to those promulgated for the All Navy football tournament will apply, with the exception that only one officer per team may participate in the game at one time.

First Football Death Of 1948 Occurs To Army Lieutenant

PALO ALTO, Cal., Jan. 3 —(UP)— Football claimed its first fatality for 1948 today with the death of 1st Lieut. Thomas Lynch, 30, a member of the Fort Ord Army team who broke his neck making a tackle in a New Year's Day game at Mountain View, Cal.

Lynch was injured in the second half of the game against the Mountain View Apaches, a semi-professional team and taken to the Palo Alto Hospital where he died today. The Apaches won the game, 31 to 7.

Native of Mt. Vernon

Lynch, a native of Mt. Vernon, N. Y., came to Fort Ord about a year ago. He was a twice-wounded veteran of the war serving with the 51st Infantry Division which participated in the Normandy Beach landings in France. He won the silver star for valor in action.

He is survived by his widow, Beverly and a four-year-old daughter, Diana, who live in Ord Village near Monterey, Cal.

Vikings Win 32nd Straight

TAMPA, Fla., Jan. 2 —(UP)— Missouri Valley's vikings won their 32nd straight game and their second bowl victory of the season today by outclassing West Chester (Pa.) State Teachers College, 26 to 7 in the second annual Cigar Bowl game here.

GUAM NEWS to Sponsor Second Annual Tennis Tourney

Weekly Sports Roundup

by Bill Jury

Here on Guam the Island basketball playoffs held the sports spotlight as ComMar dumped the NavBks-RecSta quintet 38 to 33 for the Southern champs first defeat this season. Ken Fons gathered 20 points for the winners to figure greatly in the battle of the two league leaders.

Bob Montgomery, former lightweight champion, retired after 11 years in the ring to climax his recent downhill trend that has seen him drop his latest bouts to younger challengers.

Cloutin' Ted Williams, BoSox star, captured American League runs-batted-in honors along with the slugging crown to make him the first three-time winner in baseball. Williams racked up a hefty .343 batting average for the season.

While Williams was awarded the AL slugging crown, the Sporting News, baseball's bible, picked Branch Rickey and Bucky Harris to reign with Williams as baseball's "Men of the Year."

Army's all-time great Glenn Davis lost the last round in his pro football venture as the famous "Mr. Outside" was refused a request to resign from the Army to enter pro-ball. The San Francisco Forty-Niners hold draft rights to both Davis and his former teammate Felix "Doc" Blanchard.

As a preliminary to the New Year's Day bowl games the annual Blue and Gray game between the North and South saw the Southern stars ramble to a 33 to 6 victory.

The 109th SeaBees, underrated dark horse of the playoffs, knocked the NavBks-RecSta out of the championship picture by handing them their second defeat in the playoffs 39 to 35 to win a berth in the finals with ComMar.

Closing the National Football League season, the Chicago Cardinals outscored the scrappy Philadelphia Eagles 28 to 21 to take the NFL championship. Charlie Trippi, former Georgia All-American, and Elmer Angsman spearheaded the Card victory.

In the bowl games on Hangover Day the crafty Michigan Wolverines pounced on the Southern California Trojans in the Tournament of Roses for a record breaking 49 to 0 slaughter to raise Midwest football prestige a couple of notches higher.

Down Sugar Bowl way the Texas Longhorns rolled with ease over Harry Gilmer and the Alabama Crimson Tide 27 to 7 while Penn State's Nittany Lions held Southern Methodist to a 13 to 13 tie in the Cotton Bowl.

In the Shrine game in 'Frisco, the East handed their Western opponents the worst defeat in the history of the classic, 40 to 9. Johnny Lujack, Notre Dame's bundle of sunshine, sparkled on nearly every play as he passed, ran, and kicked the Easterners to victory. The only bright spot in the West's lineup was one-time All-America Herman Wedemeyer.

Other winners in the major bowl games were: Georgia Tech over Kansas in the Orange Bowl, Mississippi edging Texas Christian 13 to 0 in the Delta Bowl and Arkansas over William and Mary 21 to 19 in Dixie's bowl.

Richman Hands Out Honors To Deserving Players

by Milton Richman UP Sports Writer

NEW YORK —(UP)— Now that the baseball class of 1947 has graduated, it's high time to pass out appropriate honors to the most deserving students.

Smartest—Larry MacPhail. He had a great time running the Yankees, successfully withstood all his critics while doing so and then ambled off with half the coin of the realm when he decided to retire to his farm and "take it easy."

Most likely to succeed—Bobby Brown. The flashy Yankee infielder has a pronounced tendency to do the right thing at the right time, which is the formula for becoming a 10-year man in the majors.

Most industrious—Hugh Casey. The portly Dodger relief ace kept trudging to the mound during the day and tending bar in his tavern at night. In between times, he kept praying for a rainy day.

Class most chronic cutter—Paul Lehner. The Brownie outfielder, tagged "Rover" by his pals, loved to play "hooky."

Most ambitious—John Berardino. John Fancies himself a serious threat to Movieland's Errol Flynn, and even his severest critics admit that Johnny is a bigger threat to Flynn than he is to Ted Williams.

Most optimistic—Connie Mack. He thinks his athletics are a pennant consideration in 1948.

Most pessimistic—Luke Appling. "Every year gets tougher and tougher."

Best grades—Ted Williams. Ted rated ace high in virtually every department, even managing a passing grade in deportment.

Teacher's pet—Joe Page. Manager Bucky Harris thinks Joe is the last page in anybody's book.

Class clown—Charlie Grimm. "Anything for a laugh," is Jolly Cholly's motto, despite the fact that the pupils he tutored were a bit retarded during the past semester.

Class statistician—Bob Feller. He's a wow with figures.

Class rowdy—Hank Greenberg. (A vacant since Leo Durocher's suspension).

Class valedictorian—Branch Rickey. A speech for every occasion.

Most modest—George McQuinn. Attributed all his good work in 1947 to "the breaks."

Best dressed—Hank Greenberg. Equally at home in a sport shirt, as white tie and tails.

Biggest spender—Tom Yawkey. He got the habit long ago.

Most thrifty—St. Louis Browns. They saved for a rainy day and currently it's coming down in buckets.

Notre Dame Rules With Michigan as '47 Grid Champs

By OSCAR FRALEY
United Press Sports Writer

NEW YORK (U.P.)—The Fighting Irish of Notre Dame and Michigan's mighty Wolverines ruled as mythical national collegiate football champions in 1947 amid much glaring and grumbling because they couldn't settle the issue.

The South Bend steamroller had some satisfaction, however, as it took the luster off the Rose Bowl by belting Southern Cal's Pacific Coast Conference champions just four weeks before Michigan's Big Nine titlist went west for the Jan. 1 spectacle.

In a season spiced with the usual number of upsets—including Columbia's unexpected smashing of Army's long winning streak—Notre Dame, Michigan and Penn State wound up as the three major titans who went all the way unbeaten and untied.

Penn Ivy Champion

Pennsylvania, winner of the Ivy League title, and Southern Methodist, the Southwest Conference king, stood on the threshold as they missed perfection with one tie marring their records. Penn was held to a 7-7 deadlock by Army and SMU, in its finale, had to come from behind to eke out a tie with fighting T.C.U., 19-19. Kansas, the Big Six winner, was tied twice.

The Army juggernaut which for three years had dominated the gridiron finally groaned to a complaining stop at Baker Field as the Columbia Lions, trailing 20-0 at the roared up in the last half for a 21-20 conquest. Until then, Army had gone through 32 games without defeat, slowed but twice in a 1946 deadlock with Notre Dame and a scoreless bout with Illinois early this season.

Once Columbia turned the trick, Notre Dame did the same and Army wound up with two losses, two ties and five wins—saving its season with a 21-07 conquest of Navy before President Truman and 101,500 fans at Philadelphia's Municipal Stadium.

U. S. Still Dominates Tennis World

NEW YORK (U.P.)—America continued to dominate the tennis world in 1947 with a clean sweep of all titles but the future was in doubt in the men's division as Big Jake Kramer, king of the amateur courts, turned professional.

The United States swept the works. Kramer and Mrs. Margaret Osborne DuPont carried off the loot at Wimbledon; Kramer and Louise Brough won the U. S. championships, and the United States retained both the Davis and Wightman cups.

Kramer's loss was a terrific blow to America's hopes for continued domination of the world courts. Regarded as one of the finest players ever produced by California's incubator, Big Jake now will try to supplant little Bobby Riggs as pro champion. Turning to the case game with him was Dinny Pails, one of Australia's top ranking stars, and Francisco (Pancho) Segura.

Davis Cup Fireworks

The Davis Cup challenge round against Australia produced most of the year's fireworks. Kramer beat Pails, 6-2, 6-1, 6-2 in the first match as Ted Schroeder conquered John Bromwich, 6-4, 5-7, 6-3, 6-4. Schroeder developed a hand cramp and used a masseur in violation of Davis Cup regulations.

When the Aussies rebounded to win the doubles that violation looked more and more important. Bromwich teamed with Colin Long to down Kramer and Schroeder, 6-4, 2-6, 6-2, 6-4. Leading by a slim 2-1 in a match reminiscent of the 1939 debacle when Australia took the cup Down Under for the duration, the Americans came roaring back to victory.

Schroeder, playing alternately in tennis shoes, socks, bare feet and finally spikes, won a three-hour duel against Pails, 6-3, 8-6, 4-6, 9-11, 10-8, to clinch the silver mug. Kramer then dusted off Bromwich in an anticlimactic finish, 6-3, 6-2, 6-2.

Kramer apparently was off form in the nationals and, in the finals against Frankie Parker, dropped the first two sets as his pro offers dwindled. But the defending champion roared back against the 31-year-old two-time champ to retain his laurels, 6-1, 6-0, 6-3.

Novice, Regular Classes Open to Servicemen; Winners to Get Shot at All Navy Meet

In keeping with its policy of aiding the recreation program on the Island, GUAM NEWS will sponsor the second annual All Guam tennis tournament beginning the first week in February.

With the NAVY NEWS Golden Gloves less than two months gone, and a big success it was, GUAM NEWS is carrying on tradition started last spring by George Dissinger, then sports editor of the NEWS.

All service personnel, both enlisted and officer, are eligible, and to provide more incentive for the beginners, the meet has been devided into two classes, one for novices and one for regulars.

A novice will be defined as any player who has never competed in an organized tournament, whether it be school, civic, or in the service. Anyone who has been in one or more tournaments will be classed as regulars and will play with the more seasoned netters.

Champs To Be Crowned

Both singles and doubles champs will be crowned in the meet, which will probably last over a period of several weeks, since all the play will be on weekends when military duties will permit players to get away.

Staff welfare and recreation has decided to use the GUAM NEWS tourney as a basis for the all Navy eliminations coming up early next spring and take the top twelve players for a round robin to determine the GUAM CHAMP.

All that is necessary is to send in the entry blank on this page.

Lesnevich Signs With Fox for Return Match

NEW YORK —(UP)— Light heavyweight champion Gus Lesnevich and "Black Jack" Billy Fox signed recently for a return 15-round title fight at Madison Square Garden on March 5.

In their first bout last February 29, Lesnevich retained his championship by stopping the Philadelphia Negro in the 10th round. In the third round, however, Fox had Lesnevich on the verge of a knockout, but young Billy lacked the experience then to put the titleholder away.

Signs For Bout

Fox and his manager, Frank (Blinky) Palermo, signed for the bout this forenoon. Later in the day, Joe Valla, manager of Lesnevich, signed on behalf of the champion.

Terms were not announced. It was known, however, that negotiations for this match were drawn out because of arguments over what percentages should be received for a "rubber match" in case Fox should wrest the title from Lesnevich on March 5.

Valla and Lesnevich were holding out for an even split—30-30 percent—for both Lesnevich and Fox in case a third match were necessary.

Lesnevich, who recently was given on the Edward J. Neil plaque by the New York Boxing writers for having contributed the most to boxing during 1947, had four consecutive victories during the year.

In addition to his successful title defense against Fox, he knocked out Heavyweight Mello Bettina in 59 seconds and he twice defeated Heavyweight Tami Mauriello, once by a knockout.

Shortage of Funds May Put Crimp in Aussie Comeback

MELBOURNE, Australia —(UP)—There is a possibility that a shortage of funds might prevent Australia from challenging for the Davis Cup in 1948.

The final decision on whether the Aussies will attempt to recover the tennis trophy they lost to the United States two years ago will not be made until the state representatives of the Lawn Tennis Association meet in January.

Sir Norman Brookes, head of the Association, said, "If it seems likely that a strong enough team will be available, we will approach the commonwealth for a dollar permit."

Costs $36,000

Brookes said the cost of sending last year's Aussie squad in its unsuccessful quest for the cup was about $36,000.

The Association has asked American players Ed Moylan of San Francisco and Jim Brink of Seattle, Wash., who are touring Australia, to remain to play in New South Wales, Feb. 6 and 7. Brink and Moylan have planned to leave for the Philippine championships.

The Association increased the membership of the Davis Cup selection committee from three to five with the addition of Cliff Sproule of New South Wales and R. Shephard of South Australia.

West Coast Plans To Fight Back

by Hal Wood
United Press Sports Writer

SAN FRANCISCO —(UP)— The Pacific Coast Baseball League needs relief from major league domination and is going to get it—one way or another, says Charles Graham, Jr., General Manager of the San Francisco Seals.

As stories go the rounds along the West Coast about plans to fight back at the majors for their refusal to have anything to do with the Pacific coast cities as far as big time baseball is concerned, these developments stand out:

1 Manager Lefty O'Doul of the Seals suggested that the league turn outlaw and set up its own baseball system.

2 Graham thinks the league should ignore the major league draft and then let the majors take their own steps on what is to follow.

3 There appears no chance ever of the majors voting to allow the coast league to become a major league itself.

4 There appears little chance of the majors inviting any of the cities—such as San Francisco and Los Angeles—to join them.

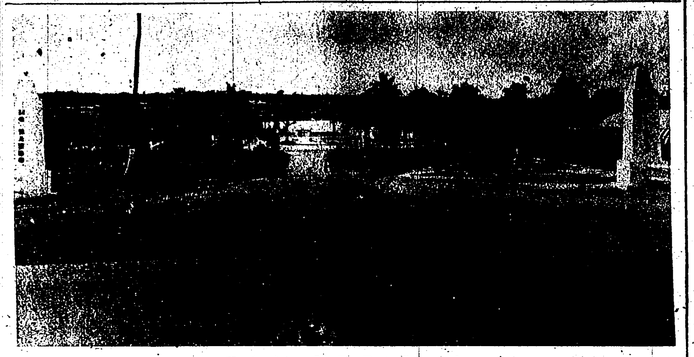
Headquarters Marianas Bonins Command



Headquarters MarBo Base Command

The MarBo command is responsible for the logistical support of all Army and Air Force units in the MarBo area.

In a command like this so far removed from the base of supplies it is easily understood why complete operation of all units is necessary. The command is just like a team, each unit being dependent upon the other for support and maintenance. This close cooperation is necessary to insure a successful completion of the command's mission.

A Brief Explanation

To say one unit is any more important than the other in a chain like this is not exactly true, with this premise in mind, a brief explanation of the functions of the command will be made.

The transportation corps will be a good place to start with our story. It is one of the larger units here and one of the first contacted when a person reaches Guam. Some of the readers of this article may have arrived on transportation corps operated ships. If not on their ships, they were probably in range of the docks of the transportation corps. All of the activities connected with the operations of the docks from the unloading of the ships to loading of the trucks and trailers with food and supplies is a function of the transportation corps.

The supply division officers must know the requirements of the command many months in advance, many things like the weather, truck breakdowns, strikes, lack of supplies when the requisitions were placed effect the smooth operation of the supply units.

Signal Corps

The Signal Corps with all of its ramifications has a very definite place in the mission of the command. So much of the daily activities of the units are dependent on the Signal Corps. It is not possible nor feasible at this time to tell the number of telephones in operation here nor shall an attmpt be made to tell of the delicate operations of the teletype circuits. The modern switch board is another very important function of the Signal Corps. All of these operations and many more controlled and operated by the Signal Corps must operate perfectly if contact with the other parts of the world and within the command is to be carried out. Constant vigilance must be exercised at all times to protect the electrical equipment from the weathering elements.

The saying that the American soldier is the best dressed and best fed soldier in the world is taken seriously by the quartermater corps. Great pride is taken by the quartermaster corps to maintain this confidence in them.

Quartermaster Corps

All of the food consumed within the command is the responsibility of the quartermaster corps. The clothes the soldiers wear, the laundry, the bakery, the shoe repair unit and the small machine repair unit also are quartermaster corps operated. A reefer unit has been established to service and maintain the reefers. The most complete commissary sales store on the Island has recently been opened. This sales commissary is quartermaster operated.

The operations of the ordnance services on Guam are much like they would be in the States. Of course the conditions under which they operate differ greatly. The ordnance services, therefore, has a great many jobs to do. It receives, stores, issues, and renovation of all ammunition of this command except air ammunition. The ordnance handle the disposal of bombs found in th jungle areas or elsewhere. In this conneciton, ordnance officers request that they be notified in case any one should find a bomb or ammunition on the Island. They ask that the finder of the bombs leave them alone and not try to dispose of them.

The headquarters of the MarBo ordnance service, supervises and coordinates the activities of all ordnance troops, personnel depots, housing and billeting areas, shop facilities, and organizations assigned to fulfill the ordnance mission on the Island of Guam.

Engineers

The engineers like the ordnance have important technical services to carry out. One of the important jobs of the engineers is the planning and supervising all military construction in the command, including the procurement and distribution of engineer supplies, and procurement, assignment, and movement of engineer troops required to accomplish construction projects. Indeed it would be difficult to visualize what MarBo command would be like were it not for the work of the engineers. The good roads we ride on, the water we drink, the light we read by are at our command due to the work of the engineers. Yes, it would be back to the jungle age in this command were it not for the engineers.

The heavy equipment shops are the equal of those found in the states.

The successful completion of the mission of all of the other services is dependent on the successful completion of the mission of the engineers.

Medical Installations

The medical installations in MarBo provide all phases of medical service to all Army and Air Force personnel and to all categories of the Army constructed civilians within the area. The health of the command is excellent.

Not withstanding the rush to get this command in operation during the past year, the religious activities have been overlooked. The importance of the religious guidance was recognized by providing religious services for three major faiths. Four of the many chapels in use must be enlarged to accommodate the worshipers.

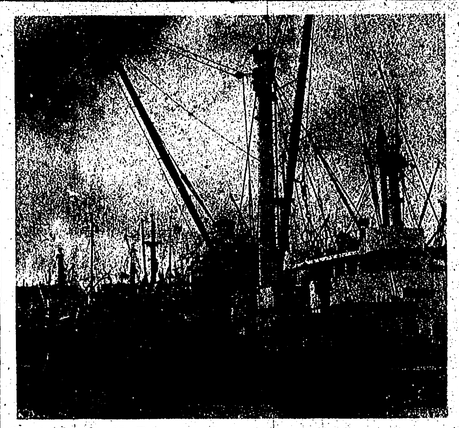
Trying to find the best man for the job and then give that man extra training in that field has been the policy of the Army. Schools have been established within the command for training of the soldiers in administration work; cooks and bakers and motor maintenance. In addition to the local schools, soldiers are selected to attend schools in the Philippines and in Japan. The knowledge gained by the soldiers at these schools will be an asset to them long after they have completed their military service.

The opportunity to attend officer candidate schools is again offered to the soldiers.

A definite program for athletics and recreation has been in operation in this command for many months. This program is supervised by the special services division. Athletic teams have been sent to other islands and to other commands for competition. The boxing and football programs now underway are two of the most popular at this time. In addition an intermural-sport program has been established, hobby shop, libraries, service clubs and soldier shows are additional, leisure time activities available for the soldiers.

Schooling Opportunities

One of the aims of the information and education program is to provide opportunities for schooling for military personnel at various educational levels; grade, high school and college courses are offered. The very popular USAFI program is supervised in this command by the information and education section. The radio station on Guam, WVTG, the voice of Guam is supervised by information and education.

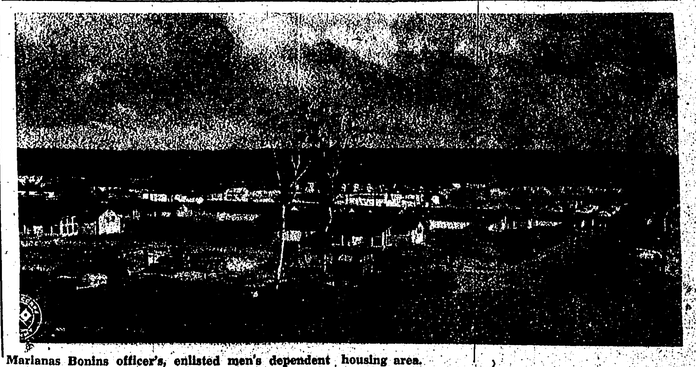


Supply line for MarBo command.

A man is down but never out. Sports and recreation program one of the best in the Pacific area.

Church services are provided for personnel of the various faiths.

Medical care, patients receive the best attention and treatment at the 22nd Station Hospital.



Marianas Bonins officer's, enlisted men's dependent housing area.

Schuman Asks Assembly For Confidence Vote

PARIS, Jan. 4 —(UP)— Premier Robert Schuman tonight posed a series of confidence votes to the National Assembly which will be taken Monday to decide if his government stands or falls on its emergency anti-inflation bill.

Stating he would accept no cuts in his "soak the rich," supertax program, Schuman asked for five separate confidence votes on as many series of amendments as the special assembly session dragged into the night.

The assembly passed the first and fourth articles of the nine clause bill but Rightwing and Communist deputies put forward one amendment after another on the second article, which would impose stiff taxes on shopkeepers and businessmen, and on the third article affecting farmers.

The 61-year-old premier appeared assured of a narrow majority but if he lost, it could easily cause a rough showdown between the Communists and followers of Gen. Charles De Gaulle.

His demand came as he asked the assembly to reject amendments by Communists, the Rightwing Republican party of liberty and peasants to rise the 425,000 franc ($3,750) base above which the bill would levy a supertax.

The government is attempting to raise 125,000,000,000 francs to balance its 1948 budget and crush inflation.

Chrysler-General Motors Engage in Production Race

DETROIT, Jan. 4—(UP)— Chrysler and General Motors plan to play it safe in 1948 and engage in another production race in the low-priced field leaving only Ford among the "big three", companys to risk a complete model change.

This probably will mean more passenger cars for a hungry public because the auto industry expects a slight improvement in deliveries of steel, the principal bottleneck of 1947.

Chrysler has announced it will continue to produce its present models of Chrysler, De Soto, Dodge and Plymouth cars throughout 1948, although the date for 1949 models has not been set.

Ford expects to announce its new truck lines within the next few weeks and to follow by mid-1948 with completely re-engineered and re-styled Lincolns, Mercurys and Fords, changing one line at a time.

But production by the big three will center on the low-priced Chevrolets, Plymouths and Fords. During its changeover shutdowns, Ford plans to store up steel and other materials for concentrated output in the last half of this year.

Chrysler's announcement of its model plans ended widespread speculation because company policy has been to keep quiet about the future.

Parachutes Undesirable

WASHINGTON, Jan. 4 —(UP)— Use of parachutes in commercial planes was ruled out today as "undesirable as well as impracticable" by President Truman's Air Safety Board.

In its final report, written by Chairman James M. Landis, the board recommended that all airlines appoint safety directors and proposed that non-scheduled air carriers be required to meet the same safety standards as scheduled carriers.

In the report, Landis, the retiring chairman of the Civil Aeronautics Board, roamed far afield from take-off and landing rules, navigation aids and air traffic control.

Toyko Based P-80 Hits 780 mph

TOKYO, Jan. 4 —(UP)— The U.S. Fifth Air Force announced today that two high-flying jet-propelled P-80's recently streaked across Japan at ground speed in excess of 775 miles an hour, aided by high tail winds.

Lieut. William K. Thomas of (6011 53rd street, NW) Seattle, stationed at Yokota Air Base, flew the 350 miles from Hiroshima to Tokyo in 27 minutes for an average ground speed of 777.7 miles an hour, the announcement said.

On the following day, Lieut. John B. Chickering of New York, also of Yokota base, went from the city of Misawa on the northern shores of Honshu to Sendai, a distance of 175 miles, in 13 minutes, 27 seconds. His run averaged 780 miles an hour.

The high speeds were made possible by making advantage of tremendous tail winds peculiar to the upper atmosphere over Japan at this season of the year.

Headline Highlights

STOCKHOLM, SWEDEN, Jan. 4 — (UP) — Prof. Riks Berven eminent Swedish cancer specialist, left by plane today for Moscow when he said he had been summoned to assist Soviet physicians with "a very serious case of cancer." He declined to reveal the name of his prospective patient.

KODIAK, Alaska, Jan. 4 —(UP)— Ominous radio silence today aroused fears of Naval officials that the motorship Spencer, aground on the shores of Shelikoff Straits north of Kodiak, had broken up and sunk.

WASHINGTON, Jan. 4 —(UP)— Secretary of Agriculture Clinton P. Anderson today promised housewives plenty of sugar at fair prices this year, and predicted an early return to meat rationing.

WASHINGTON, Jan. 4 —(UP)— Chairman Eugene D. Millikin of the State Finance Committee predicted tonight that Congress would override any presidential veto on an income tax reduction bill this year if the cut is not too heavy.

ANCHORAGE, Alaska, Jan. 4 —(UP)— Air Force Officials today studied small bits of scattered wreckage found on the shores of Kuk Arm, they believed it to be part of a missing B-29.

Guam News

Guam, Marianas Islands Monday, 5 January, 194

Police Halt Explosives On Way to Palestine

JERSEY CITY, N. J. —(UP)— A commonplace accident today exposed 26 cases containing 65,000 pounds of TNT as they were being loaded into a freighter bound for Palestine.

Police said it was enough TNT to blow up a 100-mile area. It was considered such a hazard to this crowded seaport and industrial city across the Hudson from New York that this dock was evacuated at once.

The Federal Bureau of Investigation and United States Customs were called in by New Jersey police who wanted to discover the identity of the shipper, but didn't doubt that the explosives were intended for use in the growing war between Jews and Arabs in the Holy Land.

The cases were being swung into the hold of the S.S. Executor, a 14,000-ton vessel of the American Export Lines, due to sail Monday. All were marked "industrial machinery." One dropped out as a sling was swung up from the dock and broke open. It contained 50 boxes, each one of which contained 50 one-pound tins of TNT. The boxes were marked: "dangerous—for front line demolition only—U.S. corps of engineers."

Boss Stevedore Raymond Grimm put in a hurry-up call for police. The first policemen to arrive sent for Chief Charles Wilson who immediately closed the pier and ordered the 700 men loading the Executor and three other ships to leave at once.

Police then began opening the cases and found that all contained the same amount of TNT. A barge was summoned, the cases were loaded aboard, and it was towed at once to a government munitions depot on Gravesend Bay, ending the danger to a sizeable section of the waterfront.

British Troops Repel Arab Attack On Palestine

JERUSALEM, Palestine, Jan. 4—(UP)—British troops used tear gas and smoke bombs tonight to drive back an Arab mob advancing upon the semi-besieged Jewish section of old Jerusalem.

Officials figures said three Jews and one Arab were killed today; the body of a Jewish woman was found in Haifa, but she apparently was considered one of yesterday's victims.

All three Jews in today's casualty list were killed in Jerusalem, one in the old city. The Arab was killed in Tulkarem, in the north some 20 Jews and Arabs were wounded.

Informed Arab sources said the first big contingent of Arabs from Syria and Lebanon had reached Palestine to mount a large-scale offensive "shortly." There have been similar reports from Jewish settlements along the border.

The Jewish section of the old city has been under semi-siege since Tuesday, when the police stopped escorting food trucks in. Since then, Haganah has been slipping in food at night. The Arab driver aboard the gates was believed to be an attempt to keep the Jews from getting food tonight.

Sniping went on all day between Jews and the Arabs on the outside. Several hundred Jews were crouched on rooftops shooting back at the Arabs.

Pauley Resigns

LOS ANGELES, Jan. 4 —(UP)— Edwin W. Pauley, central figure in the Congressional investigation of grain speculation, today submitted his verbal resignation as Democratic national committeeman, Sen. J. Howard McGrath, Democratic national chairman, announced tonight.

McGrath told a press conference that Pauley, who holds a government post as special assistant to Army Secretary Kenneth C. Royall, was sending him a letter confirming his telephoned resignation. There was no indication that Pauley's resignation was directly connected with recent publicity surrounding speculation in commodities.

Royall Proposes Change of Statute

WASHINGTON, Jan. 4 —(UP)— Army Secretary Kenneth C. Roya today blamed a defective law for the Army's apparent generosity i granting "disability" pensions to high-ranking officers. He recommend ed that the statute be changed immediately.

Simultaneously, Defense Secretary James Forrestal announced thi he had sent President Truman the names of 25,580 Army, Navy an Air Force officers who have been retired or relieved of active dut for physical disability since V-J day.

Mr. Truman had asked for the names, presumably as the firs step in a move to determine whe ther all the retirements were just ified on disability grounds.

Royall conceded that some "hu man errors" have been made i approving the tax-free pensior which are equivalent to 75 pe cent of an officer's base pay.

"But," he said "what has appea ed to the public as a widesprea abuse has, I believe, been principall merely the granting of rights pr scribed by a statute which shoul be changed."

Royall said he has been advise by Attorney General Tom C. Clar that under the present law th Army secretary does not hav legal authority to reexamine re tirements of regular Army officer for physical disability.

Communist Troops Close in on Changchun

SHANGHAI, China, Jan. 4—(UP) —Nationalist dispatches said tonight that 20,000 to 30,000 Communist troops were closing in on Changchun, the prewar capital of Manchuria.

About 1,000 Communist, according to earlier reports, felt out the city's inner defenses yesterday. They penetrated into the city proper for the first time and withdrew only after a seven-hour battle in which the defenders had to use artillery.

Nationalist reports said the Communists were still withdrawing from Mukden, some 200 miles south of Changchun, but sizeable concentrations remained to the northwest of the city. High government sources said local Nationist successes around Mukden in the past two days had not affected the critical, overall picture in Manchuria.

One authoritative government source said Manchuria was the most critical front in the whole civil war. A military informant said the Communists in Manchuria outnumbered Nationalist troops and had fire power equal to that of the best government divisions or superior to it.

The authoritative govt. source said only United States military aid could insure a Nationalist victory; that Communist plans had developed from separate thrusts into a well-laid campaign to conquer and hold.

Friendship Food Gets Cold Reception

MILAN, Italy, Jan. 4 —(UP)— The main friendship train of gift food from the United States arrived here today and was given a mild reception by 1,000 citizens because the city was preparing for tomorrows sixth annual congress of the Italian Communist party.

In comparison with enthusiastic receptions at Florence and Bologna yesterday where crowds of 10,000 and 5,000 respectively met the train, today's welcome was almost apathetic.

Tomorrow's Communist congress opens here against a backdrop of a nation-wide strike of bank clerks and a renewal of Communist-directed violence throughout the peninsula.

Industrial Milan had the appearance of a "little cominform" city today as 800 delegates representing 2,250,000 Italian Communists mingled with delegations from foreign Communist parties.

Weatherman Predicts Calm Season

CHICAGO, Jan. 4 —(UP)— The Weatherman promised mild weather today after one of the worst storms of the century had piled up a thick gap of ice and snow from Iowa to the Atlantic seaboard.

During the height of the storm, which began in the midwest on New Year's Day, communications and travel were disrupted throughout most of the area.

The storm took a toll of 28 lives as it swept across the 16 northeastern states, comprising the nation's most heavily populated area.

The death total did not include 25 persons killed in tornadoes in Louisiana and Arkansas and 14 killed in a train wreck during a blinding snowstorm near Otterville, Mo.

Damage to railroads, public utilities and communications was estimated at more than $50,000,000. The loss to private firms and citizens was too large to contemplate.

Most of the midwest had dug itself out today, three days after the storm had struck. Most roads were open and railroads were resuming normal schedules, but some communities still were without power and telephone service.

The U.S. Weather Bureau at Chicago forecast mild weather for the next three days, but there was a pessimistic note in the forecast. Forecasters said snow and ice melting today would freeze again tonight in the midwest, coating highways again with a slipery film of ice.

2 Died in Plane Crash

CHATTANOOGA, Tenn., Jan. 4 —(UP)—Naval authorities today investigated the crash of a Coast Guard amphibious plane near here last night in, which two Coast Guardsmen lost their lives.

Highway patrolmen recovered two charred bodies from the wreckage on Signal mountain where the twin-engined amphibious plane crashed and burned.

The plane, based at San Diego, had left the Memphis Naval Air Station at 5:37 p.m. (CST) headed for an undisclosed east coast point via Chattanooga. It was scheduled to arrive here at 8:05 p.m.

State Department Stops Export of U.S. Arms to East

WASHINGTON, Jan. 4 —(UP)— A State Department official sai tonight that shipment of any arm or ammunition of U. S. origin t any place in the middle east wa officially forbidden on Dec. 5.

Referring to the frustration b Jersey City, N.J. authorities of a attempt to ship 55,000 pounds c TNT to Palestine, the spokesma said the attempt "clearly was violation of the official order."

The spokesman said he he "heard" that the Federal Bure of Investigation already had starte an inquiry at Jersey City. He sai that in any case "it's up to th Justice Department."

FBI headquarters, however, sai "We do not have any commer because customs officials up thes and the Jersey police are handlir the situation."

The State Department's nation arms control board, headed by As sistant Secretary of State Charl E. Saltzman, banned shipment arms and munitions to the middl east shortly after the United Natio General Assembly voted to partitio Palestine.

Eisenhower May Sell Service Memoirs

WASHINGTON, Jan. 4 —(UP)— Gen. Dwight D. Eisenhower will b able to save a substantial amou of federal taxes on the propose sale of his memoirs becaus of a supreme court ruling that copyright is a capital asset.

This if he copyrights his manu script and sells it outright, the mor ey he receives would be classe as a capital gain. A capital ga is taxed at 25 per cent. Regula income taxes on substantial sum run far higher than that.

If, as rumored, Eisenhower ge $500,000 for his memoirs, the capi al gains tax would be $125,000. Th income tax on $500,000 received one year would be around $400 000.

A copyrighted manuscript is ju as much a piece of property as house or a business, the way th courts and the Internal Reven Bureau look at it.

Usually, authors are paid by percentage royalty which make their receipts dependent on ho their books sell. On that basis a author's income is subject to re gular income taxes.

For the Eisenhower deal to qua ify as a capital asset, the gener must sell the story of his war year "lockstock and barrel."

Weather Forecast

Partly cloudy. Ocassional mod erate showers this morning an late this afternoon. Gentle t moderate easterly winds with frest gusts in showers.

Yesterday's temperature: Max 85; Min. 73. Yesterday's rainfall .39. Rainfall for month: .99.

Mind Controls 'Dem Bones'

by Herbert Foster

DURHAM, N. C. —(UP)— A young gambler who found his dice too obedient started Dr. J. B. Rhine of Duke University on a study which the scientist thinks confirms the idea of mind over matter.

Stripped of scientific language, charts, tables and equations, the tall, gray-haired reseacher's theory boils down to this: some people seem to be able to get an edge on the law of average by sheer effort of will.

Without touching them, they can control dice—and possibly other inanimate objects. Dr. Rhine has the records (and figures which he thinks back up this case.

The professor, his wife and his staff set up one of the greatest scientific dice—rolling experiments ever undertaken. He tried to eliminate all physical means of control be releasing the dice down corrugated boards or spinning them in an electrically-rotated cage.

Beats Law of Averages

He first used ordinary dimestore dice, then tried cubes of various materials from balsa wood to lead. Still they beat the law of average when the person controlling them concentrated on "high dice."

Maybe, thought Dr. Rhine, there was some flaw in the dice themselves. So instead of trying for high numbers the experimenter, using the same dice, started rooting for the numbers 6 or lower. The dice obediently switched to the low figures the operators were rooting for.

Later studies showed that the pits drilled in the dice to show the numbers made the high-numbered sides slightly higher and a little more likely to land on top—but not enough to explain the strange behavior of the dice.

"We have established the existence of the phenomenum," Dr. Rhine said. "The dice are not behaving according to physical laws."

Aerologists Leave

COMMAR HILL—Fleet Weather Central, Commander Marianas, lost two valuable men when the USS OGLETHORPE sailed Sunday in the personages of Cdr. J. W. Brock and Lcdr. P. T. Jorgensen.

Brock, serving in the capacity of executive officer of Fleet Weather Central since he arrived on Guam August 5, 1946, is heading for the Office of Naval Research in Washington, D. C.

Jorgensen, senior forecast duty officer nearly the complete time since he arrived on this station on March 11, 1946, is travelling to the Naval Academy at Annapolis where he will instruct officers in aerology at the post graduate school.

Local Rat Drive Starts

COMMAR HILL—Today, an intensive rat trapping and poisoning campaign will open in an all-out effort to eradicate these rodents which cause extensive property damage on Guam every year and which have a high disease carrying potential. This campaign, instituted by Commander Marianas, will be continued through January 20.

Because of the great menace of the house rat to human health and prosperity and its utter lack of usefulness, every effort should be made by all activities and individuals to remove this menace. Killing a few rats in only a temporary expedient, however, and should be accompanied wherever possible by the elimination of rat harborage and the rat proofing of buildings.

Rats are notorious carriers of disease, and this reason alone leading authorities say, should be sufficient incentive to wipe the rat population into total extinction. This would be very difficult and expensive, however, because of the furtive habits of the rat and because it is such a highly prolific animal. Some writers have estimated that, ignoring the death rate, the progeny of a single pair of rats could exceed 350,000,000 in three years.

This figure is of value, however, only as it shows the ability of the rat to recuperate quickly from any unusual depletion in its numbers and as it shows how persistent man's resistance must be if this pest is to be kept under control.

A few of the diseases rats are known to be incidental in spreading are: bubonic plague, typhus fever, spirochetal jaundice, rat bite fever, food poisoning, tularemia, rabies, trichnosis, intestinal protozoa and tapeworm. In another article Guam News will try to give more information about these diseases in an effort to show additional reasons why the rats on Guam should be eradicated.

Social

One of the Yuletide season's most elaborate dinner dances was held last Monday at the Coconut Grove Restaurant.

Each table was attractively decorated with an arrangement of calachucha and zinnias. Lighting effect of the blue gold gave added attraction to table arrangement.

Club owner, Mr. B. J. Bordello, served a delicious dinner of dainty dishes like kelaguem, sliced breast of turkey, holiday dressings, sliced beef, chicken, Spanish rice and flaked potatoes.

Enjoy Dance Music

The crowd enjoyed the dance music furnished by the "Guameons" from Barrigada village.

Hosts and hostesses at this gala affair were six prominent business men and women: Ben Paloma, President Guam Chamber of Commerce; Miss Cynthia Torres, owner of the Triangle; Vincent T. Cruz, Marianas Sales representative of the Pan Asiatic Exporting Company; Ed Perez, automobile and liquor distributor; B. J. Bordello, owner of the Coconut Grove and William Lujan, professional promoter and circulation manager for the GUAM NEWS.

Among those enjoying themselves at a Naval Government holiday party held at Tutujan lodge was Comdr. and Mrs. F. L. Sheffield, Jr., and their 10-year-old daughter, "Dolly." Mrs. Sheffield and daughter recently arrived on Guam. He is head of the Internal Affairs Department. (Guam News Photo)

Majuro Peds Graduate

Last week the advanced class of the Majuro teacher training school held their commencement exercises.

An article in the "Majuro Magpie" said, "A great deal of practical work was completed by this class, but academic work had fallen short of the goals established due to the failure of texts to arrive from the states and also to unexpected complications in setting up the teaching staff."

Hire Dependent Wives

Four dependent wives have been hired to fill out the teaching staff for the next term, the article said.

The "Majuro Magpie" complimented the graduating class for "the fine groundwork they laid in promoting this program by their cooperative building activities, their studious efforts and their example of promoting the Marshallese Teachers Association."

Napoleon Died - But Where, When?

NEW ORLEANS —(UP)— Pierre Paul Ebeyer contends that Napoleon Bonaparte died, not in exile at St. Helena in 1821 as history books record. Napoleon died in Cornwall, England, 14 years later, Ebeyer believes.

A native of New Orleans author-historian, Ebeyer further claims that Napoleon and Czar Alexander of Russia probably visited New Orlean during a lengthy sea voyage some time after the French emperor's "escape" from St. Helena in 1817.

A local landmark, the Napoleon House in New Orleans' French Quarters, was remodeled to accommodate the Corsican during a proposed visit to the new world, according to legend.

Ebeyer, in his version of Napoleon's odyssey after Waterloo, said that the early 19th century governments of Russia, Austria, France, and England were fully aware of Napoleon's existence after his "presumed" death in 1821.

Fled to Brazil

The writer expressed his belief that the emperor fled to Brazil after his escape from St. Helena in 1817. From South America, he negotiated with leading European rulers to re-enter Europe incognito, according to Ebeyer's extensive research.

He claims that a man who resembled Napoleon was given poison and buried as Napoleon on St. Helena in 1821. His research indicates that the "true" body of Napoleon was secretly moved from England to St. Helena after his "death" in 1835.

When the body was released to the French five years after, "It was in a perfect state of preservation, whereas the man who posed for Napoleon was not even embalmed," Ebeyer said.

AF Non-Regulars

HQ 20th AF — According to information received here Wednesday, Army of the United States officers desiring to remain on active duty are advised to apply for an officers reserve corps commission under the provisions of War Department Circular 97, 1947, as amended.

Affected by the message are all AUS officers (except WAC officers, warrant officers and Philippine Scouts or former Philippines army officers holding appointments in the AUS) who do not hold a National Guard or officers reserve commission dated subsequent to June 28, 1947.

Separation from the service not later than April 30, 1948 has been directed for effected officers other than male officers of the medical department and officers who are not hold a National Guard or reserve being utilized as linguists who do serve commission dated subsequent to June 28, 1945.

More detailed instructions from USAF are expected.

4th E.R.S. Demonstrates

HDQ 20TH AF — The Fourth Emergency Rescue Squadron, Northwest Field, recently familiarized Air Force, Navy and Marine Corps flying personnel with emergency rescue equipment. Demonstrations and instructions showing how "ditched" flyers should use modern airborne equipment, parachuted to them, was conducted by Lt. Richard L. English.

For two weeks this mobile training unit toured Island installations, stopping at North Field, Harmon Field, Hdq. 20th Air Force and the Naval airfields at Agana and Orote.

Blandy-CinCLant

(SEA)—Admiral William H. P. Blandy, USN, has been named by SecDefense James V. Forrestal as commander of a unified command in the Atlantic area. All U. S. Naval forces in that region except fleet units and fleet air wings assigned to the Carribean Command CinCEastLantMed will come under his command.

March of Dimes

MARBO — Plans are about completed for the annual March of Dimes Program for the MarBo Base Command.

Each commanding officer of MarBo will select a representative to work with the chairman of the committee for this command.

Want A Car? MarBo's Got 'em

MARBO—MarBo Central Post Exchange officers announced Saturday that there are 119 new automobiles enroute to priority purchase holders. In fact 78 of these cars are now at Apra Harbor awaiting to be unloaded.

These cars will be placed on sale at the Central Post Exchange on January 7. Only those who hold purchase rights are permitted to buy these autos. Forty-one additional cars have left the port of San Francisco.

The exchange officials point out that there are still 38 on the old list who will come first in the order of purchasing. Those holding purchase certificates up to 40 on the new list will be permitted to buy the new cars.

Those who hold purchase certificates up to 80 are asked to contact Mr. Howe at H-293 or H-63 regarding the cars.

Service Plaque Awarded

MARBO — MarBo Headquarters received word Saturday that six officers who were assigned to the headquarters of the Western Pacific Base Command during the period for which the Meritorious Service Unit Plaque was awarded to the Headquarters of the Western Pacific Base Command are entitled to wear the sleeve insignia.

Officers on duty at MarBo Headquarters who were named in the order are:

Colonels J. H. Baumann, Dan G. McBride, Lt. Colonels John F. Snider and Frederic J. Hughes, Jr., Major Kern H. Copeland and Captain James W. Scully III.

IT'S NOW OR NEVER FOR THE SEABEES....A slight case of the jitters and an unusually severe frown from a babe called Lady Luck teamed up with ComMar two-minute hot streak to lose them the first of the series last Saturday night....They shouldn't have such a bad break tonight.

The SeaBees have won the hearts of most of the non-partisan fans on the Island and though the finals are all being played at ComMar (at the request of the Bees, incidentally) they have as big a following at the game as the hosts....Then, too, the American custom of rooting for the underdog enters in.

One of the most ardent SeaBee supporters in the crowd—which was more than 1200 strong—for the game was Mrs. H. W. Douglas wife of the Naval Barracks-Receiving Station Coach.....Mrs. Douglas, who in no uncertain terms, called Ken Fons a bum while her own Naval Barracks boys were in the tourney, broke down and admitted that the speedy ComMar forward was "the best ball player I've seen in a long time." There were hundreds of others who were singing the praises of Maynard Lager, the half blind ComMar center who played one of his best games of the season Saturday.

An equal number were extolling the prowess of easy-going Earl Whitely and Jack Argotsinger, the SeaBee mainstays and at the same time bemoaning the bad luck.

One thing that has been very much in the basketball picture here on the island and yet a subject that has been mentioned very little by this corner is the officiating....It was obvious from the outset of the season that there was much to be desired and yet what could be done.....Referees were hard to get and impartial officials were rare indeed....The sad situation was the first topic discussed at a meeting of coaches and managers shortly after the season got going, but no solution was devised.

An injustice was done as a result of the poor selection of referees when the playoff between Marine Barracks and the First Marine Brigade was protested on the grounds that the calling was too bad to be overlooked....The protest was upheld and the Brigade, which had lost the first game, won out in the second.

The two referees who have handled the tournament thus far and are slated to finish in that capacity are two of the best qualified arbiters on the Island....They are Tonie Derose and Gordon Smith, both from Illinois.... Derose, who holds an official's license in Illinois, played both basketball and baseball at the University of North Carolina, while Smith was a cager at VMI.

Though even the work of this popular duo chosen by the coaches of the teams in the tournament, did not meet with unanimous approval Saturady night, they were above reproach and deserve credit for coming out for the games....It certainly isn't the fee that brings them out.

'The Legs' Usually Of What Baseball Answers Question

NEW YORK, —(UP)— What "goes" first on a baseball player? The arm, the legs, the eyesight or the wind?

Ask the average ballplayer that question and the odds are he'll reply: "the legs."

One of baseball's commonest expressions is:

"He isn't as fast as he used to be. He's slowed down a step or two."

Statistics and averages prove, however, that even players who have lost much of their fleet-footedness still are able to improve upon the all-round performances they gave when they were younger and speedier.

Dixie Walker, 38, Johnny Mize 35 and Joe Di Maggio, 33, are outstanding examples of individuals who have experienced extraordinary season many years after their actual physical prime. Some speed might have left them but it didn't cause retirement.

Legs Are First

Gabby Hartnett, the former star Chicago Cub catcher, is one of those who staunchly maintains that a ballplayer's legs are the first physical properties to fold when he starts on the decline.

"I think that is especially true of catchers," he said. "Belding up and down for pitches continuously takes a great deal out of the best legs that ever were made."

Catchers, nevertheless, show a greater big league span than outfielders, according to statistics. It could be that the receivers are more difficult to obtain.

The theory that a player's throwing arm goes first lacks any extensive foundation. There is considerable evidence of individuals with noticeably weak throwing arms continuing to earn a good livelihood in the major: Earl Combs, former Yankee flychaser, had an unusually poor arm for an outfielder but managed to remain in the New York lineup for more than 10 years.

Besides, many overage pitchers still manage to win in the big time after they lose a great deal of their "swift." There have been only few isolated cases of players who had to retire simply because their arms went back on them.

The question of how quickly eyesight goes on a ballplayer seems to vary with the individual. Many players claim their vision is just as good after 10 years of service as when they broke into the game. And their averages appear to bear them out.

Visual Difficulties

Other experience visual difficulty and are forced to don glasses after several years in baseball. Some players who began wearing specs after many years included Mel Ott, Bill Lee and Babe Dahlgren.

Jimmy Foxx, the old home run hitter de luxe, once admitted that it became increasingly difficult to follow fast pitches near the twilight of his long career. Double X claimed that his greatest difficulty occurred in parks which had poor backgrounds.

In the main, few players complain about falling eyesight or poor wind. Some, however, are quick to notice when their other reflexes begin to slow.

There was one researcher who had a well-defined reply to the question.

"I don't exactly know what goes first on a ballplayer," he said; "but I'm sure that the pocketbook goes last."

Equipment, Free Subbing Rule Big Gripes in Football Coach Poll

SeaBees Need Cage Victory Tonight In Island Series

With their backs fluah against the wall and desperately in need of a victory, the 109th SeaBees meet ComMar tonight to make another bid for the 1947 Inter-Command basketball title.

ComMar, which won the first game of the two out of three series last Saturday night, can cop the championship tonight with a victory, while the SeaBees only gain a reprieve until Wednesday night should they win. In order to win the crown, The SeaBees will have to defeat ComMar two games in succession—and they've only lost one game in 27 this season. It's a big bill for anyone to fill, but it is not inconceivable. Though neither team was up to snuff Saturday night, it was a nip and tuck affair with the lead changing hands four times in the third period alone. The Bees have a bunch of big boys with long arms and have concocted a defense that held the ComMar fast break in check most of the night and several stopped times their offense completely as soon as the ball crossed the center line.

The SeaBees now have two drubbings at the hands of ComMar to avenge and they will get a chance to show whether or not they can do it tonight at 1900.

Cards Smoothest Fielding Nine in National League

NEW YORK, —(UP)— The St. Louis Cardinals were the National League's smoothest fielding unit during 1947, but the Boston Braves supplied three individual defensive leaders in Bob Elliott, Tommy Holmes and Phil Masi, official averages revealed.

Second Straight Year

It marked the second straight year that the Redbirds won the fielding title, St. Louis registering a .979 fielding mark by handling 6,062 chances and committing the least errors in the circuit, 128. The Cardinals also had the most putouts, 4,193 and were deadlocked with Brooklyn for the most double plays with 169.

In individual fielding honors, Elliott, the most valuable player in the league during 1947, topped all third basemen with an average of .956. He handled 451 chances and made 20 errors to beat George Kurowski of St. Louis by two points.

Holmes ranked as one of the three best defensive outfielders in the league with a .988 average and Masi, third Brave leader, topped the catchers with .989.

Bob Chappuis Named Star of '48 Rose Bowl

LOS ANGELES, Jan. 4 —(UP)—Making official what most fans suspected, Bob Chappuis, Toledo, O., Michigan's All-America halfback, was named the outstanding player of the 1948 Rose Bowl game today by the Helms Athletic Foundation.

Chappuis, who said after the game he wasn't in first class shape because of a leg injury, passed for two touchdowns, completed a total of 14 out of 24 passes and ran the ball for 91 yards.

He personally accounted for more yardage than the entire Southern California team, running and passing for a total of 272 yards, an all-time Rose Bowl record.

Little Reveals 'Sore Spots' of 1500 Mentors

NEW YORK, Jan. 4 —(UP)— A poll of the nation's football coaches revealed today that spirited fight over the free-substitution rule and a move to soften equipment as a means of cutting down injuries will be the main issues tackled by their rules committee during the NCAA convention here next week.

Lou Little of Columbia, chairman of the 30-[illegible] rules committee, said that he had polled 1,500 coaches on their [illegible] the current rules.

First of all, he said, they want to talk about [illegible]tution rule. Then they [illegible] something about [illegible] crusher equipment the players now wear. And next they want to look into the matter of keeping T-formation quarterbacks at least a yard behind the line of scrimmage.

The coaches' rules committee recommendations adopted on these and other issues will be forwarded to the NCAA rules committee for final action at its Savannah, Ga., sessions Jan. 13, 14 and 15.

Two Schools of Thought

Little said that there defin[illegible] were two schools of thought [illegible] the free substitution rule. [illegible] thinks that coaches are taking [illegible] game from the players with substitute [illegible] play "messenger boys." The other thinks that the game is speeded up by unlimited substitution.

As for equipment, Little revealed that most coaches are becoming increasingly wary about the rock-hard shoulder pads, thigh pads, etc., which are inflicting injuries on opponents.

The coaches indicated in their poll, Little added, that they want to make sure that any backfield player in a position to recieve the ball from the center is at least a yard behind the line of scrimmage. This, of course, is aimed principally at T-formation quarterbacks.

Under the present rules, all backs must be a yard behind the line "except one player if stationed with his hands in position to receive the ball if passed between the snapper's legs." But the coaches now want the T-formation quarterback also a yard back.

Bob Feller Splits AL Mound Honors With Chandler

NEW YORK, —(UP)— American League pitching honors for 1947 were split between blazing Bob Feller of Cleveland and Spud Chandler of New York, according to official averages released but neither the Indian fire-ball artist nor the Yankee veteran was particularly proud of the questionable accomplishments.

The 29-year-old Feller was the only American League hurler to win 20 games, but his 20 triumphs were the fewest he has registered over a full season since 1938. His 11 defeats left him with a percentage of .645, sixth best in the circuit.

Chandler, inactive for most of the season due to arm trouble, was the official leader in earned run average with 2.46. He won only nine and lost five and won the title only because Chicago's Joe Haynes, who had a 2.42 earned run mark, failed to complete 10 full games.

American League pitching, on the whole, declined during 1947. Whereas five moundsmen won 20 or more games in 1946, Feller was the lone 20 game winner last season. The general earned run average rose from .21 to 3.71.

Feller ranked runnerup in earned runs with 2.68, followed by southpaw Eddie Lopat of Chicago and rangy Dick Fowler of Philadelphia, each with 2.81. Others to finish with an average below three earned runs per game were Hal Newhouser of Detroit, 2.87 and Joe Dobson of Boston, 2.95.

West Coast Grid Outlook Poor After Second Trouncing

The moguls of the Pacific Coast Conference couldn't be blamed if they were pretty sick of the deal by which their champion football teams will have to face Big Nine powerhouses for three more long years in the Rose Bowl.

For the second New Year's Day in a row, the cream team of the Far West took a terrific thumping in the Rose Bowl at Pasadena, Cal., Michigan's voracious Wolverines doing the job yesterday, 49 to 0 over once proud Southern California.

A year ago it was Illinois which upturned U.C.L.A., 45 to 14 and today Rose Bowl fans had reason to wonder if the pact between the Pacific and Big Nine Conferences was making their annual dream game a nightmare.

For it was the most lop-sided and dull of all the major games played yesterday. The 93,000 fans who packed the Rose Bowl at Pasadena, many of them paying up to $75 for mid-field seats felt as if they had been short-changed.

Calumet Farm Primed For Another Season On Big Money Tracks

NEW YORK, —(UP)— Calumet Farm, which has won over $3,900,000 in the past seven years, is all primed for another big season.

The horses currently are stabled at Hialeah Park and will see action early in the meeting which opens Jan. 16. Already Warren Wright's racers are considered the horses to beat in the major stakes to be decided.

Only in the juvenile stakes can rival horsemen count upon starting a horse without facing a standout Calumet colorbearer and that is only because Ben Jones, general manager of the outfit and Jimmy Jones his son who now trains the horses, don't start the juveniles that early in the year.

Irish or Michigan? Judge Refuses Decision

KALAMAZOO, Mich., Jan. 4—(UP)— The question of which is the better football team—Notre Dame or Michigan—wound up in court today.

But Justice Carl Lankenburg refused to make a decision. Instead he simply fined Richard Lance of Three Rivers and Bruce Hendershot of Kalamazoo $10 each for brawling over the issue in a restaurant.

Truman Takes Price Tag Off Marshall Recovery Plan

WASHINGTON, Jan. 6 —(UP)— President Truman took the $17,000,000,000 price tag off the Marshall Plan for European recovery today and accepted a Republican counter-proposal that Congress vote funds for the 51-month aid program on a year-to-year basis.

Mr. Truman's compromise offer was revealed by Senate President Arthur H. Vandenberg, (R— Mich.), whose Foreign Relations Committee will begin open hearings on the Marshall Plan legislation this week, with Secretary of State George C. Marshall testifying.

Vandenberg said the administration still is insisting on a congressional authorization that will commit the United States to aid in European reconstruction over the next 4 years.

But he said Mr. Truman and his State Department aides have agreed that the program has a better chance of passage if the overall cost estimate of $17,000,000,000 is omitted from the authorization bill.

That switch in administration plans, Vandenberg emphasized, in no way alters the President's request that this Congress appropriate $6,800,000,000 for European recovery projects during the first 15 months of the program, from April 1, 1948 through June 30, 1949.

Mr. Truman's move, which was expected to silence some of the loudest congressional critics of the Marshall Plan, was proposed by Vandenberg himself.

The GOP foreign policy spokesman told a press conference that he had suggested the compromise to the administration on the theory that it would be "five times easier" to get a Marshall Plan bill through Congress if it didn't carry a definite price tag for the full life of the program.

Commission Probes Steel 'Conspiracy'

WASHINGTON, Jan. 6 —(UP)— The federal Trade Commission announced that it will open hearings here Jan. 12 on its charge that the nation's steel producers had agreed in an "unlawful conspiracy" to fix prices and throttle competition.

The commission is empowered, after conducting hearings, to issue a cease-and-desist order enforceable in the courts.

Its charges already have been denied in general terms by the American Iron and Steel Institute, New York, and the 101 individual companies which were named in the complaint.

Most of the firms have reserved the right to ask for dismissal of the proceedings on grounds the commission "lacks jurisdiction."

Another face of the steel-price picture gets an airing here beginning tomorrow when a House public works subcommittee headed by Rep. W. Kingsland Macy, (R-N.Y.) begins delving into an alleged $1,000-000 black market in steel. High officials of the steel industry have been asked to testify.

Macy said it is estimated that 10 per cent of the nation's steel production "finds its way into this vicious market" and that as a result, some steel has sold from six to seven times above mill prices.

Hoarding Threatens British Business

LONDON, Jan. 6 —(UP)— Black marketeers and tax dodgers threatended to paralyze everyday business life in Britain today with a new racket—the hoarding of silver coins.

Fear that the Bank of England is about to call in the present bank note issue and replace it with new notes has caused a rush to amass coins which has depleted the bank's silver coin stocks to only one-tenth of its holdings a few months ago.

Rumors have been circulating for some time that pound notes will be called in and replaced by a new issue to counteract the hoarding of notes by black marketeers and tax dodgers and to stop the illegal flow of sterling notes from abroad.

Assembly O.K.'s Schuman's Tax Measure

PARIS, Jan. 6 —(UP)— The National Assembly approved Premier Robert Schuman's $1,050,000,000 "soak-the-rich" tax bill today after he had won five close confidence votes in a show-down with both the extreme left and right. The final vote of approval for the bill was 315 to 269.

Communists, Gaullists and extreme right-wing deputies, their eyes apparently on the national election which is callable any time after June, voted against Schuman. He was backed by his own Popular Republicans, the Socialists and some Independent Republicans.

Schuman received from 306 to 308 votes on each ballot, showing he had lost some support since Nov. 28, when 322 deputies backed his tough military measures against Communist-led strikes.

As uncompromising with the assembly as he had been with the Communists in smashing their national strike movement a month ago, Schuman gave the deputies the alternative of accepting his tax bill without amendments or throwing him out of office.

Coast Guard Rescues Survivors Of Alaskan Wreck

KODIAK, Alaska, Jan. 6 —(UP) Thirteen half-frozen shipwreck survivors, including two women and a small boy, were rescued today from the stormy Alaskan coast by a Coast Guard landing party.

A surfboat crew battled through heavy breakers to reach shore on the rock-strewn cape of the Alaskan Peninsula where the motorship Spencer went aground four days ago, and carried the wrecked victims to safety aboard the cutter Clover.

Rescuers were surprised to find the women and the six-year-old boy among those stranded on the wind-swept sub-artic glacier. Originally the survivors were thought to include only six seamen and three Navy men who had failed in an earlier rescue attempt.

Urges Dispute Settlement

KARACHI, Pakistan, Jan. 6 —(UP)— Premier Liaquatali Khan, charging that India was out to destroy Pakistan, urged today that the United Nations Security Council consider other disputes between the two dominions in addition to the Kashmir question.

Khan said at a press conference that he hoped for peace, but added, "We are ready for any eventuality."

This apparently was his rebuttal to the warning yesterday by Pakistan if Moslem attacks in Kashmir did not cease.

Wants More Trade

LOS ANGELES, Jan. 6 —(UP)— M. Asaf Ali, first ambassador to the United States from the newly-formed union of India, arrived here yesterday en route to Washington, D. C., and urged America to buy more from India so that country can develop itself.

Ali said there would have been neither world wars if "half the world had not been so underdeveloped, it tempted the other half to fight for its mastery."

"With only two 'giants' in the world at present, the great need is for a third 'giant'— to keep the other two apart or bring them together as the needs of peace dictate. India can be that third 'giant'," Ali said, referring to Russia and the U.S. as the two "giants."

Marines Sail for Mediterranean Before Time

MOREHEAD CITY, N. C., Jan. 6 —(UP)— A detachment of U.S. Marines and their equipment sailed aboard two transports at 2 p. m. today for the Mediterranean, taking off a day ahead of schedule to reinforce warship personnel in Italian and Grecian waters.

The Marine Corps imposed near-wartime secrecy and restricted photographers from certain areas, but waterfront observers said bulldozers and possibly tanks were included in the shipment aboard the cargo carrier Montague.

A small number of Marines sailed aboard the Montague, but most of the detachment of several hundred Marines was aboard the personnel transport Bexas.

Busloads of Marines and truckloads of equipment, shielded from view, moved through Morehead City today while the ships were loading. The ships flew a danger signal which usually denotes the dangerous cargo is being handled.

Observers said the equipment also included food, gasoline and oil, and several trucks were seen driving to the pier with the red flags, which ordinarily warn of ammunition cargoes.

Sherman Gets New Assignment

WASHINGTON, Jan. 6 —(UP)— Vice Adm. Forrest P. Sherman, a top-level naval strategist and veteran of Pacific fighting in World War II, today was ordered to take command of the U.S. Mediterranean fleet now in Italian and Grecian waters.

This new assignment was revealed by the Navy as a detachment of Marines, estimated unofficially at between 800 and 1,000 in number, sailed under near-wartime secrecy from Morehead City, N. C., to reinforce the fleet's personnel.

Sherman, 51, has served as deputy chief of naval operations—the "working level" of Navy manuvers and planning—since December, 1945. From 1943 until 1945 he was deputy chief of staff to Adm. Chester W. Nimitz, then commander-in-chief of the Pacific fleet and Pacific Ocean area.

Taylor May Be Truman Running Mate

COLUMBUS, O., Jan. 6 —(UP)— Sen. Glen H. Taylor, (D-Ida.), said today he probably would become "a running mate" of Henry A. Wallace on a third party ticket if President Truman named "another banker or Wall Street figure" to replace Chairman James M. Landis of the Civil Aeronautics Board.

Taylor said in an exclusive interview printed in the Columbus Citizen that he had been all set to stay with the Democrats and let Wallace go his own way." A week ago" Wallace announced he would run as an independent candidate for the presidency.

"I even had a formal statement drawn up announcing my intentions and was carrying it around in my pocket," Taylor added.

"Then President Truman announced he was letting Landis out as chairman of the Civil Aeronautics Board and I decided I'd better wait a while before deciding whether to join the fight with Wallace. If the President names another banker or Wall Street figure, Wallace may get himself a running mate."

Aussies Stay in Japan

SAN FRANCISCO, Jan. 6 —(UP) The Australian government has abandoned plans to recall its army component in Japan by next June because of expected delays in concluding the Japanese peace treaty, radio Australia said yesterday.

The Army ministry said the "Australian force will not return until the treaty has been concluded, and it now seems unlikely that this will be achieved in the first part of 1948."

Republicans to Consider Truman's Price Control Plan

WASHINGTON, Jan. 6 —(UP)— Senate Republican policy makers promised today to consider President Truman's plea for emergency control and rationing powers, but House leaders said the first showdown in the election-year Congress will come on a new GOP drive to cut income taxes.

Congress convenes at noon (EST) tomorrow. Mr. Truman will appear before a joint session of the Senate and House at 1:30 p. m. (EST) Wednesday to deliver his annual state of the union message, which the White House said he regards as "of extreme importance."

Taxes, inflation and the Marshall Plan for European recovery topped the issues confronting the lawmakers. All three are expected to be kept alive to confront the voters when they go to the polls Nov. 2 to elect a president, a vice president, one-third of the Senate, and an entire House of Representatives.

The President's own position on taxes probably will be known in detail by next Monday when he sends Congress the annual budget message disclosing the estimated costs of running the government for the next fiscal year. One administration source in Congress said that these estimates may be as high as $41,000,000,000 including proposed spending under the first 12 months of the Marshall Plan. Last year's budget originally totalled $37,500,000,000.

Investigators Claim Information Witheld In Senate Probe

WASHINGTON, Jan. 6 —(UP)— Senate investigators complained today that Brig. Gen. Wallace H. Graham's broker was holding out information on Graham's commodity speculations, and suggested that the White House physician may have to tell all at a public hearing later this week.

Chairman Homer Ferguson, (R—Mich.), of the Senate Appropriations subcommittee, said the Senators want to hear first from Republican presidential aspirant Harold E. Stassen, who started the market trading furor last month by charging that government officials were using "inside" information to gamble in commodities.

Stassen to Testify

Stassen will testify at an open subcommittee hearing Thursday morning, and Ferguson said Graham probably would be called next.

After Graham may come Edwin W. Pauley, million-dollar California oil man who has acknowledged having been a million-dollar commodity speculator before he was made a special assistant to the Secretary of the Army last fall.

Medics Not Ready For A-Bomb

CLEVELAND, Jan. 6 —(UP)— The president of the American Medical Association said today that his profession was unprepared for atomic bomb attacks in which there would be mass casualties.

Dr. Edward L. Bortz, opening the AMA mid-year meeting, reminded the 3,000 assembled medicalmen that this was a time of "international disequilibrium and great social unrest."

He said that neither doctors nor hospitals of the nation were prepared to care for large numbers of casualties "if an incident precipitated a major catastrophe in the near future."

The Philadelphia doctor advocated the establishment of widely-dispersed first-aid teams in every community for service in event of an atomic bombardment, and added that it was "high time" organized medicine played a large role in preparing the members of the profession and allied groups for rendering emergency service in time of need.

U.S. Authorizes Transfer of Goods to Greece

WASHINGTON, Jan. 6 —(UP)— The United States has given Britain blanket authority to transfer to the hard-pressed Greek army any lend-lease military equipment held by British forces in Greece, the State Department disclosed tonight.

That move to bolster the Greek government in its bloody civil war against Communist guerilla forces was revealed in a routine departmental announcement of surplus military equipment sales.

The department said the "items and quantities" of British-held lend lease equipment destined for Greece have not yet been determined.

But it disclosd that the British already have available for transfer almost 1,500,000 rounds of anti-aircraft and small-arm ammunition which, presumably will be turned over to the Greek army without delay.

The British also have been authorized, the department said, to transfer 2,100,000 rounds of U.S. lend-lease ½ inch ammunition to Turkey.

The Britain-to-Greece transfer was the first such blanket authorization granted by the United States to any of the allied powers which received American military supplies under the wartime lend-lease act.

Three Face Murder Charge in Trial

COMMAR HILL—A new war crimes trial, the third in a series of trials involving atrocities committed in the Palau Islands during the war, convened yesterday at the Commander Marianas auditorium.

Former First Lieutenant Kazuo Nakamura, former Sergeant Major Chihiro Kokubo and former Corporal Yoshimori Nagatome, all demobilized members of the Imperial Japanese Army, face charges of murder and violation of the law and customs of war.

Nakamura, Kokubo and Nagatome are grouped within the same charge of murder referring to the incident where three American prisoners of war were either beheaded or shot on Babelthuap island in the Palau group in the latter stages of World War II. Nakamura is also charged with the murder of Charlie Smith, alias James, a British National held captive there by Japanese forces.

In addition, Nakamura is charged with failing to discharge his duty as commanding officer of the First Detachment, South Seas Military Police, by permitting his compatriots to commit acts of violence upon the three American prisoners.

Though playing the part of top defendent in this trial, Nakamura acted in the role of prime witness in the war crimes trial which was completed nearly two weeks ago.

Weather Forecast

Partly cloudy with scattered light showers. Moderate easterly wind.

Yesterday's rainfall: .09 inches

Rainfall for month: 1.13 inches

GOP Prepares for 1948 Presidential Race

WASHINGTON, Jan. 6 —(UP)— Republican congressional bigwigs served notice tonight that they await only the opening gun of the new session of Congress tomorrow to give President Truman's foreign and domestic legislative program a thorough going-over.

Sounding the 1948 election campaign battle cry, "No fifth term for the New Deal," GOP leaders of the House and Senate went on the air in a radio rally (Mutual) to answer demands made in a Democratic rally last week, that Congress quickly aprove the Marshall European recovery plan and drastic anti-inflation legislation.

Speaking tonight, with GOP National Chairman Carroll Reece as moderator, was Chairman Robert A. Taft, of the Senate Republican Policy Committee.

Demonstrators Arrested

BUENOS AIRES, Argentina, Jan. 6 —(UP)— Police announced yesterday that they had arrested 115 men and 56 women who took part in an alleged Communist demonstration outside the Spanish embassy to protest the execution by the Franco government of two Spanish resistance leaders.

Similar demonstrations took place in Montevideo, Uruguay, and Paris.

Scientists Prefect Wind Tunnel

BERKELEY, Calif. —(UP)— The world's first supersonic wind tunnel to duplicate high altitude conditions above 250,000 feet unfolded new possibilities today for laboratory research on rockets and guided missiles.

The new low-pressure tunnel, which will simulate speeds over 750 miles per hour, was unveiled at the University of California.

E. D. Kane, engineering professor, said the tunnel would enable scientists to explore for the first time a "no man's land" in the atmosphere extending up to 300,000 feet above the earth. Engineers have been unable to determine what actually happens to a rocket or plane traveling at supersonic speed in the rarefied atmosphere above 50,000 feet.

Kane said the principle immediate applications of knowledge gained through wind tunnel research would be in the field of guided missiles, rockets and jet planes, but he pointed out there may be later commercial applications other than in aviation.

The tunnel demonstrated here for the first time is a small "pilot" model of a larger tunnel which will be put into operation later this year.

Other wind tunnels have simulated speeds ranging above the speed of sound, but the California model will be the first to duplicate the extremely rarefied atmosphere 500 miles above the earth.

'March of Dimes' Campaign Launched

COMMAR HILL—It was announced yesterday by Commander Marianas that the annual "March of Dimes" campaign held to raise funds for the National Foundation for Infantile Paralysis, Inc., will begin on January 15 and continue through January 30.

Voluntary Contributions

All hands are urged to donate generously to this most worthy fund. Voluntary contribution will be the theme of this campaign, and it will not be carried on in any competitive sense. However, all funds raised in the "March of Dimes" are used in an all-out effort to completely remove the threat of dread Infantile Paralysis, and contributions may aid some inflicted child to walk and play again.

Marshall 'Man of Year'

NEW YORK.—Secretary of State George C. Marshall was named the "Man of the Year" by the magazine Time.

MARBO WIVES GREET WIFE AND DAUGHTER OF BRIG. GEN. J. S. BRADLEY—A reception and tea was given recently honoring Mrs. J. S. Bradley and daughter, Susan, wife and daughter of General Bradley, commanding general MarBo base command. Mrs. Francis H. Griswold, wife of Major General Griswold, was one of the guests of honor. Mrs. Bradley is the fourth from the right and Mrs. Griswold is the fourth from the left. (Signal Corps Photo)

G.I.'s Mature in German Zone

BERLIN —(UP)— The days of the "beardless boys" in American-occupied Germany are over.

An Army survey shows that the typical American who actually does the occupation job here is an unmarried Private, first class between 21 and 25 years old. He joined the Army about 18 months ago and has spent a year on this side of the Atlantic. He got through two years of high school and his IQ is about equal to that of his average fellow-citizen back home.

1946 Survey

In mid-1946 the typical occupation soldier had not reached voting age. With the gradual transition to a "regular" volunteer Army, figures show the majority—57 percent—over 21.

Today's GI is here on a three-year enlistment, but is still "undecided" about taking the oath again.

The average officer from whom GI Joe takes his orders is considerably older and has been in uniform since before Pearl Harbor.

MARBO Ratters Busy

MARBO—A full house of rat fighters greeted Major Kern Copeland, sanitary engineer, today when he outlined the plans for the present rodent control fight. The meeting was held at the Hollywood Theater.

Various types of traps and poison bait were on display. The prebaiting campaign will start January 9 and continue through January 16. The actual poison will be set out on January 14 and will remain in place through January 16.

The public was cautioned to leave the traps alone and to restrain all pets during the time the poison is in use. In other words, tie up the pets from January 14 through January 16.

Thieves Loot Capitol Inn

WASHINGTON, —(UP)— Capitol police reported that thieves broke into the safe of the House of Representatives restaurant last week.

They said no details were immediately available.

It was not known how much, if any, money was stolen.

One employe in the restaurant manager's office, where the safe is located, said this would not be known until an auditor checks the books.

Workers Unearth Pre-Historic Camp

EUGENE, Ore., —(UP)— Workmen making summer resort improvements at the Odell Lake high in the Oregon Cascades have discovered a pre-historic Indian camp site which proves that men occupied this part of the northwest more than 10,000 years ago.

Evidence also was discovered which indicates hunters may have roamed the Oregon country some 20,000 years ago, before New Mexico's stone spear-throwing Folsom men.

The discovery is being studied by Prof. L. S. Cressman, head of the University of Oregon anthropology department. He has notified the Smithsonian Institution in Washington D. C.

The ancient camp site and handimplements were buried deep in Mt. Mazama volcanic ash in the top layer of glacial debris, thus clearly establishing them as older than the climatic erruption of Mt Mazama 10,000 years ago, and suggesting occupation in the late pleistocene period, when rivers of ice were still pushing into cascade valleys.

Pilot Gets Thrill

H.Q., 20th AF—First Lt. Steve W. Tabak of Garfield Heights, Ohio, received an unscheduled thrill Saturday, January 3, when he experienced complete engine failure in his P-47 fighter aircraft while flying on a routine flight over Guam. While at 7,000 feet a few miles from the field the engine sputtered several times and quit completely while streaming a long trail of white smoke. He immediately cut all switches and since the smoke had thinned out, and no fire was visible, he called for an emergency landing. A dead stick landing was safely executed with no additional damage to the aircraft. At present Lt. Tabak is assigned to the 76th Fighter Squadron, Northwest Field, Army Air Base. He is armament officer of the 76th. He expects to go stateside for re-assignment in March.

MarBo Officer Receives Citation

At a formal retreat and review Capt. C. H. Wollenberg was presented with a Navy citation for his work in connection with the Bikini tests. The citation was presented by Lt. Colonel Newton L. Chamberlain, commanding, prior to a formal review of the 516 Signal Service Battalion.

The citation follows:

"For exceptional service as signal officer of the technical staff, task group 1.4 and commander task unit 1.4.2, joint task force one, during the period 20 February to 7 August 1946. He foun prompt and effective solutions to many problems connected with the procurement of test items and their shipment to the target area. At Bikini Atoll, he was equally efficient in preparing the displays of task unit 1.42 for test Able and adapting the plans for his unit to the new situation created by the change in plan for test Baker. By his work in developing the communications system of the task group, he did much to facilitate the successful accomplishment of its mission. Through his cooperative spirt and his personal interest in the welfare of the enlisted men of the command, he did much to develop good teamwork and to foster a high morale."

W.H.P. Blandy
Admiral, U.S. Navy

For the past year Capt. Wollenberg has been in charge of signal construction of Guam and in one of the other islands of the command.

He is now commanding "A" company, as well as the 504 Signal Heavy Construction platoon. He is also executive officer of the Signal Battalion.

Liquor Board Discusses Beer Restrictions

AGANA—At the last meeting of the Liquor Control Advisory Board, Lt. Col. G. R. Newton, USMC, island provost marshall, gave a discussion on Joint Order 35-47 regarding the restrictions on the sale of beer in restaurants.

He cited several instances where restaurants had been nuisances and as a result, out-of-bounds signs concerning military personnel were placed on them.

However, he said this did not mean they were out-of-bounds to the civilian population.

He said the owners of the establishments were contacted and asked not to sell beer to the military personnel.

"If we are to reduce crimes that exist," he said, "We must reduce the spots where crime breeds."

Mr. J. C. Smith, contractor's representative, was asked, "How far should liquor be sold from contractor's camps?"

He replied that there never was a designated place and no ruling was made on this. He said, "I would say not less than three miles away from the camps."

Col. W. C. Hall, USMC, commanding officer, Marine Barracks, stated that at the next regular meeting of the board he expected members to submit specific recommendations for consideration by the board.

The Liquor Control Advisory Board holds regular monthly meetings the second Friday of each month.

"Happy birthday, Cookie. From the boys.
P.S. When upon transfer, please pass this copy to relief."

Crew Sights Sea Monster

NEW YORK —(UP)— The claim of the crew of the S.S. Santa Clara that they sighted and struck a sea monster off the Atlantic coast won support from the curator of fish at the Bronx Zoo.

Christopher W. Coates, curator-aguarist of the zoo, said that the 45-foot long monster which the Santa Clara reported could well have been an oar fish—expect that a few details don't check.

The Grace Line ship messaged the Coast Guard that a monster with an eel-like head and a body three feet in diameter was seen "thrashing in a large area of bloody water and foam." It was described as brown-skined with an entirely smooth head.

Coates said the oar fish, or regalicus glesne, is ribbon-shaped rather than round and that a dorsal fin projects from the head, creating a pompadour appearance.

He said if the monster wasn't an oar fish, it might have been a giant eel, or a giant worm, but he was doubtful. Eels 45 feet long, he said, are found only in tropical waters south of the North Carolina coast, where the Santa Clara made the discovery. Coates added that giant worms have no red blood.

New Porch Added

WASHINGTON, —(UP)— President Truman soon will have a $12,000 balcony off his bedroom—like those of many colonial mansions—so that he can relax on summer evenings away from the gaze of passersby, the White House disclosed yesterday.

The balcony, or porch, will be built off the President's second-floor bedroom and study, and will not extend any of the six huge columns which mark the south portico overlooking the vast lawn and Washington monument.

MarBo Assignments

MARBO— MarBo headquarters announced that Lt. Colonel Winston Dutscher has been named transportation officer in place of Colonel Louis B. Rapp who has gone to a new assignment with the 8th Army.

HASHING IT OVER....With the dispute between the PCL and the majors, the hottest thing in basketball since the World Series, apparently over for a little while, attention is gradually turning to preparation for spring training, which, among other things, usually means a mad flurry of swaps and sales. The Phillies, hot to go for a first division berth this year, have followed up the purchase of Bert Haas by obtaining Roy Cullenbine, who has been around the majors for quite a while and numerous lesser lights from the minors.

Jeff Heath was lost in the shuffle a few weeks ago when the Browns sold lock and stock, keeping only the barrel, but it is likely he would have been traded anyhow. His temperament, which, along with Hal Trosky's clubhouse law practice, was partly responsible for the uprising of the Injuns in '40, makes him a tough cookie for a manager to get along with. The crowing touch last September during the last game of the season—the Brownies were for a change, ahead, 5-0, and when it came time for Gentle Jeff to take a swing at the plate, he was nowhere to be found. A search revealed Heath taking an early shower. They frowned on that.

The Indians have sent Les Fleming to Indianapolis and have gotten Elbie Fletcher from the Pirates. The Bucs sent Jimmy Bloodworth, formerly of the Senators, to Montreal for Romanus Basgan. The Giants let Jake Wade and two others go to San Diego for First Baseman Jack Harshman.

* * * * * * *

News of the death by drowning of Rex Hurley stunned MarBo fight fans. The "Chief" as he was known because of his Indian blood, was a popular fighter and in the Golden Gloves in November advanced to the semi-finals where he was eliminated by David Dorsey, MarBo's No. 2 featherweight.

* * * * * * *

Welfare and recreation says that although the wrestling eliminations at NAS Orote are over, rasslers on ships arriving on Guam may still enter by contacting the athletic head at Orote. A chance to train under the varsity coaches at Annapolis awaits the top four men in each weight class in the final All Navy eliminations.

* * * * * * *

Lt(jg) M. S. Hanson, of the Coast Guard, has the honor of being the first entrant in the GUAM NEWS Tennis Tourney coming up next month. Lt. Hanson, a player of no mean ability—he has 20 tourneys behind him—is looking for a good doubles partner from the Coast Guard Depot.

Ann Arbor Out to Welcome Triumphant Wolverine Team

ANN ARBOR, Mich., Jan. 6 —(UP)— Michigan's triumphant Wolverines rolled into their hometown last night and heard a crowd cheering them as the greatest football team in the land.

Despite freezing temperatures and the late hour, 6,000 townspeople and students jammed in and around Ann Arbor Railroad Station to welcome the Wolverines back from the Rose Bowl.

As the Rose Bowl express steamed into town, a fiery "M" flashed from a hillside where fans stood in formation with flares. Searchlights from city fire trucks swept back and forth as the players stepped down.

Mayor William E. Brown called the team to a specially built platform and extended his official welcome and James Adams, provost of the University of Michigan, added his welcome on behalf of the school.

It was the largest crowd to appear at the station since Wendell Wilkie delivered a speech there in 1940. And Coach Fritz Crisler and the players who conquered Southern California in the New Year's Day classic were obviously pleased.

"I hardly expect ever to have another team as outstanding as the one I had the pleasure of coaching in the Rose Bowl," Crisler said.

Members of the team praised the hospitality shown them on the coast. They were jovial and talkative. They didn't say it in so many words but they seemed to regret that it was all over.

Eleven Michigan players sang their college football swan song in the Rose Bowl. For all of them, the season was over. And with no more fields to conquer, Michigan has come to a stop. A record of 10 straight victories, the Big Nine championship and the Rose Bowl title has gone into the books.

Sound-Sleeping Louis Proves Death Report To Be False

NEW YORK —(UP)— Heavyweight Champion Joe Louis slept so soundly today he didn't hear the telephone in his New York hotel room.

The call was from a reporter who wanted to check on a report from Chicago, believed to have originated with a prankster, that Louis was dead. So Marshall Miles, Louis' manager, got a key from the hotel clerk and entered Louis' room. The champ was sleeping soundly.

Just to make sure, Miles shook Louis awake. Louis denied he was dead and went back to sleep.

Actors Assigned Pro Partners for Golf Tournament

DEL MONTE, Calif., Jan. 6 —(UP)— Four radio and motion picture celebrities, headed by Sponsor Bing Crosby, today were assigned their professional golfing partners for the $1,030 Bing Crosby National Pro-Amateur Tournament starting here Friday.

Crosby drew Cam Puge, local professional; Actor Randolph Scott came up with Lawson Little, one-time U.S. and British golf champion; Freeman Osden (Andy of "Amos and Andy") with Roco Monti of Los Angeles; and Dennis O'Keefe with Jack Burke, promising young professional from the Southland.

Meanwhile, the team of Frank Stranahan of Toledo and Bobby Locke of South Africa, playing in the same foursome with Bobby Gardner of Los Angeles, California amateur champion and Jimmy Thompson, one of the longest hitters in golf, loomed as standout.

SeaBees, ComMar Fives Vie Tonight For Cage Title

Winding up the Island basketball playoffs, ComMar and the 109th SeaBees tangle on the ComMarianas court tonight to decide the holder of the Guam cage crown.

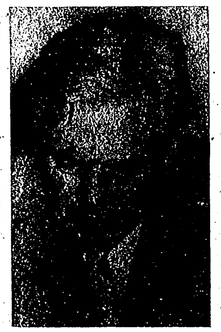
In the playoff series so far ComMar has dropped only one game, a hard-fought 35 to 34 decision to the SeaBees, while the Southerners have dropped two, both of them to the Hilltoppers.

The Hundred and Niners assumed the underdog role from the time they entered the playoffs, but went on to establish themselves as definite contenders for the title defeating the First Marine Brigade, NavBks-RecSta and ComMar.

ComMar, meanwhile, ran over NavBks-RecSta and the SeaBees to grab a berth in the finals and appear the most likely team to take the championship.

The SeaBees fought their way into the finals and now stand on an even par with the Northern champs, one win and one defeat in the two out of three game finals.

Tonight's contest, starting at 1900 will be the championship game, with the winner taking all and the loser getting nothing but consolation for being the runners-up.



Jimmy Conzelman (AP Photo)

Jimmy Conzelman Named Pro Grid Coach of Year

ST. LOUIS, Jan. 6 —(UP)— Jimmy Conzelman, who guided the Chicago Cardinals to their first National Football League championship in 22 years this season, today was named professional coach of-the-year by the Quarterback, a national gridiron weekly.

The genial Conzelman, a former boxer, actor, song writer and an accomplished piano player, led the Cardinals to the Western Division title after beating the Chicago Bears in the final game of the season and then to the N.F.L. crown with a 28 to 21 victory over the Philadelphia Eagles.

Conzelman, who coached the Cards from 1940-'42 and then took a job as assistant to President Don Barnes of the St. Louis baseball Browns, returned to Chicago in 1946 and rased the club from a National League doormat to a pennant contender.

Footballers Fly More

NEW YORK —(UP)— College football teams did more traveling by air this past season than ever before, according to a survey of United Air Lines. On United's system alone, 13 college gridiron squads rolled up a total of 1,650,000 passenger miles.

Michigan Over Notre Dame Voted in Editors' Poll

DETROIT, Jan. 6 —(UP)— Michigan defeated Notre Dame by a wide margin today in a Detroit Free Press poll of sports editors who were asked to pick one team or the other as the greatest collegiate football unit of the past season.

Seventy-two per cent of the balloters voted in favor of the Western Conference and Rose Bowl champions. Notre Dame polled 23 per cent of the first place votes while the remaining five per cent declared that the two teams share the honors.

Free Press Sports Editor Lyall Smith explained the poll was taken "among top flight editors and football observes in each of the 48 states and the District of Columbia in an attempt to settle one of the most heated arguments in modern football history."

Most of those who voted in the poll felt that Michigan's superiority against three common foes who also played Notre Dame made the difference.

The Wolverines scored 167 points against Southern California, Pittsburgh and Northwestern while Notre Dame made only 104. On defense, Michigan yielded only 21 points to the three teams and Notre Dame 32.

Opinion also was top-heavy that Michigan's all-round depth and elusiveness over-balanced Notre Dame's great first string line and that the Wolverines' bevy of talented ball carriers overshadowed the greatness of Johnny Lujack.

Ben Hogan Takes L.A. Open With 275

LOS ANGELES, Jan. 6 —(UP)— Defending Champion Ben Hogan scored his third Los Angeles Open triumph today and broke his own Riviera Country Club course tournament record when he pushed through a heavy fog for a brilliant four-under-par 67 and a 72-hole total of 275.

Same Course

The total was five strokes under his mark of 280 set on the same course last year. His other triumph was in 1942.

Hogan got $2,000 in "take home money" for winning the meet.

Lloyd Mangrum, U.S. Open winner in 1946, who played in the same threesome with Hogan, also shaved four strokes off par to win second place with 279.

Fog drifting in from the nearby Pacific Ocean throughout the day reduced visibility to 200 feet. Occasionally the sun would appear, clearing the fairways.

Jimmy Demaret Top Money Winner in Pro Golf in 1947

NEW YORK, —(UP)— While the golf addicts down South tune up their swing and the fans up North look forward to the spring:

Natty dresser Jimmy Demaret of Ojoi, Cal., adds up his ledger and discovers that he made $27,930.53 as the winningest professional golfer of 1947. And Bobby Locke, the South African swinger who took second place with $24,327.50, returns to the golden tournament trails of the United States after a visit to his home in the Transvaal.

Transplanted Cowboy

Not only did Demaret, the transplanted Houston, Tex., cowboy, win the most money, and wear the most dazzling clothes, but he gleaned other less noticeable honors. He posted the lowest 72-hole score of the year when he shot a 264 at Tucson, Ariz. and he was, with Ben Hogan of Hershey, Pa., a member of the best four-ball combination, winning in the Miami and Inverness tournaments and the Ryder Cup matches.

Demaret's three changes of clothes during a single day's play prompts the thought that the much-reviled knickers may return to the golf scene. Locke wore 'em and did both the British and American Ryder Cup teams. The fans liked them, but it's going to be tough on fellows with skinny, unmuscular legs.

Take Too Long

Incidentally, Henry Cotton, captain of the British Ryder cuppers who took an 11 to 1 trouncing at Portland, Ore., says American professionals take too long to play. The Yanks need four hours to play 18 holes, while British pros take only three. If he were an American caddy, he says he'd charge by the hour and not the round.

Jack Kramer Evens Count With Riggs

TOLEDO, O., Jan. 6 —(UP)— Lanky Jack Kramer, who is challenging Bobby Riggs' title to the national professional tennis championship, last night evened the count at three matches apiece by downing the tennis king, 6-4 and 7-5.

Kramer's booming service proved to be the margin of victory as Riggs constantly was forced to play from the rear of the court.

Coach Bob Higgins Admits Bickering Plagued Squad

STATE COLLEGE, Pa., Jan. 7,—Coach Bob Higgins, openly irked by what he called "true but damaging" reports, today admitted that dissension within the ranks almost ruined his undefeated Penn State football team before the Cotton Bowl game with Southern Methodist University on New Year's Day.

"Before the game I thought this bickering between some of the players and myself would hurt our playing. But the final score satisfies me that the boys gave everything they had."

Higgins reluctantly conceded that some of his players kicked about their quarters at the Dallas Naval Air Base; that one sought a special airplane to make a visit to Houston; and that "most of the squad" left quarters one night to make a tour of the sights in Dallas.

"But the game, the season—everything—is over now. What do you want me to do, tag these kids with a bad name. Some of them are headed for pro ball and great football careers. I can't and I won't name any of them who caused us trouble."

Dodgers Will Take Cigarettes to Camp At Ciudad Trujillo

NEW YORK, —(UP)— A majority of the Brooklyn Dodger players are planning to bring cigarettes from the mainland with them when they report for spring training at Ciudad Trujillo in the Dominican Republic next March.

Reason: Cigarettes are 75 cents a pack down there.

But smokes aren't the only items that are "way out of proportion in Trujillo." Take a peek at the fences around the park in which the Dodgers will work out and you'll find center field 600 feet distant, while the right and left field fences measure "only" 450 feet each.

Branch Rickey, Jr., of the Dodgers says, however, that the playing field is better than the one we have in Ebbets Field." The Montreal Royals, Brooklyn's International League farm, will train 18 miles away at San Cristobal and probably will furnish the Dodgers' only opposition until Dem Bums return to the states.

Schultz's Bat Is Dead

The doubtful distinction of finishing last among the National League's regular batsmen during 1947 went to towering Howie Schultz who went from Brooklyn to the Phillies early last season. He batted .400 times and finished with a skinny .220 mark.

When Schultz came to the Phils, Manager Ben Champman declared: "Schultz may not develop into the best hitter in the league, but by the end of the season he'll be able to hit a curve ball or I'll know the reason why."

Okay, Benny, let's hear the reason....

'Real' Progress Made Toward European Recovery

CHICAGO, Jan. 7 —(UP)— Secretary of Commerce W. Averell Harriman said tonight that real progress has been made toward recovery of western Europe despite physical obstacles and "determined efforts of the Communists" to block the United States program in Europe.

Harriman said that the Communists "clearly recognize their aggressive program for taking over the governments of Europe will be blocked by recovery".

Efforts Necessary

In a speech prepared for delivery before the National Council of Farmer Cooperatives, Harriman said "every effort" is necessary to increase production in order to combat inflation in this country.

He told the farmers he felt sure "that there is common agreement that certain farm prices have risen beyond the danger point if we are to retain stability." He did not elaborate on this point.

Both Harriman and Undersecretary of Agriculture N. E. Dodd, who addressed the convention this evening, emphasized the necessity of a strong fight against infidtion. Dodd said that legislation Congress had passed to cope with inflation is totally inadequate.

15 Die in French Airliner Crash Near Paris

PARIS, Jan. 7 —(UP)— An Air France Douglas DC-3 airliner flying from Brussels crashed and burned last night in the Paris suburbs with 11 passengers and five crew members while attempting a landing at Le Bourget field.

Air France said that 15 of the 16 persons aboard died in the flames including three passengers listed as Americans.

The Americans listed as dead, Air France said, were booked only by their last names—Burrell, Povert and Sibre. Paris police listed the second American as Power instead of Povert.

An Air France official said, "We believe the crash was due to the ground fog which blanketed the field during the evening."

Air France listed as killed in addition to three Americans, two Britons, two Belgians, one Frenchman, one South African, one Pole and the five French crew members.

The sole known survivor was the lone woman passenger, a Polish girl.

Come Well Prepared

NEW YORK, Jan. 7 —(UP)— Passengers aboard the S.S. Ernie Pyle arrived here today from Poland carrying packages of mushrooms and spiced meats because they feared a serious food shortage in the United States, an officer of the ship said.

Those among the 600 passengers who had brought dried mushrooms were permitted to take them ashore after paying duty on them. Customs agents confiscated the spiced meats under regulations aimed at preventing the entrance of cattle diseases into this country.

Guam Law Delays Raffle

AGANA—Island Attorney General J. D. Davis announced yesterday that the benefit drawing for the Guam Memorial Hospital fund will be delayed due to legal difficulties.

Davis said that a legal question has been raised as to whether public charitable benefit drawings fall within the prohibition of lotteries under the laws of Guam.

The decision on this question should be announced within 30 days, Davis said.

Following such determination, a public drawing will be held or monies will be refunded to purchasers of tickets.

Marshall Plan Hits First Snag In House Debate

WASHINGTON, Jan. 7 —(UP)— The Marshall plan for European reconstruction ran into priority trouble in the House today almost as soon as Congress began its new session, despite administration pleas for quick action to get it into operation by April 1.

Rep. Christian A. Herter, (R-Mass.) raised the first barrier apparently with the backing of some Republican House leaders.

Herter demanded that his own foreign aid legislation be given at least equal status with the Marshall Plan on the agenda of the House Foreign Affairs Committee.

"My bill carries out all that the Marshall Plan has in mind and more," he told the United Press, pointing out that its measure would provide long-range economic assistance to far eastern countries, Germany and Austria as well as the 16 western European states covered by the Marshall Plan.

Herter was chairman of a special House committee which went overseas last summer to study foreign relief and reconstruction problems. The legislation he drafted was as a result of that study.

British Labor Organizes to Combat Russian Expansionism

LONDON, Jan. 7 —(UP)— Britain's labor unions with memberships totaling 7,000,000, developed a snow-balling anti-Communist drive today as the labor government prepared to map a sweeping campaign at a cabinet meeting Thursday against Russian expansionism in Europe.

Two leftist union leaders, both Communist-supported, have been defeated for union office in the last few days. A purge of the executive of a third union is believed imminent.

The cabinet is to take up Thursday a blueprint for a completely revised foreign policy as the result of the break-up in failure of the big four foreign ministers conference.

Two decisions of first importance may be taken soon as the result of this meeting:

1. The reinforcement of the 5,000 British troops still in Greece to aid joint United States-British support of the Greek government against the Communist guerillas in the north.

2. A strong formal statement to Albania, Yugoslavia and Bulgaria warning of the danger of any diplomatic recognition of the Communist "government" set up by the guerillas in the territory they hold.

Hitler Puppets Face Probe

NURENBERG, Germany, Jan. 7 —(UP)— The United States today opened its case against the "gentlemen of the Wilhelmstrasse," 21 political, diplomatic and economic administrators who translated Adolf Hitler's fantastic plans into action.

Arrayed with chief defendent Baron Ernest von Weizsaecker, former diplomat who played a key role in the Nazi conquest of Czechoslovakia, were 2 others charged with implementing the Nazi orgy of murder, slave labor, anti-semitism, and aggression.

Weather Forecast

Partly cloudy with scattered moderate showers. Moderate easterly wind with fresh gusts.

Yesterday's temperatures: Max. 85. Min. 78.

Yesterday's rainfall: Trace

Rainfall for month: 1.13 inches

Headline Highlights

MEXICO CITY, Jan. 7 —(UP)— Mexico City and southern Mexico swayed and shook in a series of earthquakes today which caused traffic jams in the capital, but civic authorities said no damage or casualties were reported.

LONDON, Jan. 7 —(UP)— A British European Airways Viking airliner, carrying 12 passengers and three crew members, crashed in an open field at Ruislip Common in Middlesex last night, killing the pilot. All passengers and crew members—seven of them on stretchers—were carried to nearby Hillingdon County hospital, where the pilot died early today. The co-pilot was said to have been seriously injured.

NEW YORK, Jan. 7 —(UP)— The CIO United Electrical, Radio and Machine Workers said today that it will demand "substantial wage increases" from General Electric Corp., despite that company's recent price reductions because GE workers can't "eat television sets."

Nimitz Advocates 'Radar Screen' For Nation

WASHINGTON, Jan. 7 —(UP)— Adm. Chester Nimitz says the United States has "absolute" Control of the seas, but he wants a "radar screen" to protect against another Pearl Harbor.

A report prepared by Nimitz before he retired last month as chief of Naval Operations, and released by the Navy today, also called for carrier-based planes armed with atom bombs for floating air bases, and submarines capable of launching guided missles.

Nimitz stressed that the United States must make the fullest possible use of its technological skills since it would be "relatively" outmanned in any future war involving central Asia, east Asia or western Europe.

Without mentioning Russia by name, he said neither east Asia nor western Europe will be "in a position to endanger us for decades to come unless they pass under unified totalitarian control."

Nimitz warned that in any future war air attacks might come across the oceans from Europe and Asia "as well as across the polar regions."

But, he said, it is "improbable" that bomber fleets will be able to make two-way trips between continents, even over polar routes, for several years to come.

Palestine Government Denounces Haganah's 'Wholesale Murder'

JERUSALEM, Palestine, Jan. 7 —(UP)— The Palestine government in an implicit warning to the Jewish Haganah underground organization, denounced today "the dastardly wholesale murder of innocents" in the bombing of the Semiramis Hotel here early yesterday.

A second government statement said that Gen. Sir Alan Cunningham, British high commissioner, had summoned David Ben Gurion, chairman of the Jewish agency executive, to discuss "matters concerning the security situation."

It was believed that his summons also concerned the bombing of the hotel—allegedly an Arab headquarters—in which at least five persons were killed. Rescuers are still digging for the bodies of men, women and children believed buried in the ruins.

Reuther Confident of Pay Increase for UAW

DETROIT, Jan. 7.—(UP)— President Walter P. Reuther said tonight that his 800,000 CIO United Auto Workers soon "will demand and win" a new round of pay increases for which the union's rank-and-file has been clamoring.

At the same time, Reuther denounced both the Democratic and Republican parties for "unscrupulous political maneuvering" which he said was directly responsible for the government's failure to curb inflation.

Reuther and other top officials of the UAW wage policy committee which met today to pave the way for an executive board meeting on Jan. 15, declined to comment on the specific figure that would be asked.

But earlier, he was reported to have been "pleased" with the rising cry among union members for a 25-cent hourly wage hike.

Fear American Return

MILAN, Italy, Jan. 7 —(UP)— Communist speakers at the sixth Communists' party convention warned today that American troops will soon be back on Italian soil and demanded more positive action against the moderate government of Premier Alcide de Gasperi.

Guido Grilli of Varese, one of 3,000 Italian delegates, said the convention must devote more time to international problems, especially because American troops will disembark at Genoa, Leghorn and Naples.

Congress Convenes, Awaits Truman's 1948 Program

WASHINGTON, Jan. 7 —(UP)— The election-year Congress convened without fanfare today, but a Republican leader predicted that "the fireworks" would start when President Truman discloses his foreign and domestic program.

The President will present his legislative requests in person to the GOP-controlled Congress at a joint session at 1:30 p. m. (EST) tomorrow. The session will be broadcast to all parts of the country.

Mr. Truman summoned his cabinet to the White House late today for a preview of the 5,000-word "message of extreme importance." Its contents will affect every government agency.

He also conferred with budget director James E. Webb on the annual budget message which he will send to Congress next Monday. Some reports said it would call for $41,000,000,000 of federal spending in the next fiscal year. Chairman John Taber, (R—N. Y.), of the House Appropriations Committee, gave advance notice that such a figure would be "too damn high."

Congress went back to work after a short holiday respite from its emergency session last month, under what Senate Republican Kenneth S. Wherry, of Nebraska, called a one-day political truce.

U. S. Probes Use of Goods By Communists

TOKYO, Jan. 7 —(UP)— The United States today asked Russia for information regarding reports that Japanese army equipment captured in Manchuria by Soviet forces was now in the hands of Chinese Communists.

William Sebald, American member and chairman of the Allied Council for Japan, demanded the information from Russian member Maj. A. P. Kislenko during a heated four-power council session.

Sebald charged that recent press reports from the battlefronts in the Chinese civil war indicated that arms formerly belonging to the Army of Japan found their way to the Chinese Communists after the army fell to Russian forces just before the end of the war.

Any information on the subject, Sebald told the tight-lipped Kislenko, would be a great aid to Gen. Douglas MacArthur's headquarters in preparing a report on the final disposition of all Japanese troop disarmaments.

Michael Denies Cause of Abdication

LAUSANNE, Switzerland, Jan. 7 —(UP)— Former King Michael of Romania rested in his hotel suite today while aides unpacked a relatively small amount of royal baggage which included nine cases of gin.

He took time to issue a statement to the press denying he had abdicated his throne for love, that he brought with him refugees from Romania or that he had a personal fortune of $1,000,000.

Michael reportedly told his sweetheart, Princess Anne of Bourbon-Parma, over the telephone yesterday to remain in Copenhagen until he was settled here. Judging from the speed with which his baggage was unloaded today, he hoped to be settled in a hurry.

Michael denied enthusiastically, however, that he had abdicated for the love of Princess Anne.

Chinese Bands Wage Attacks On Hunan

SHANGHAI, China, Jan. 7—(UP)—Chinese Communist bands probed the Hunan province "Rice Bowl" from the north and west today while large-scale fighting raged on the north banks of the Yangtze river west of Hankow, government military dispatches reported.

Hunan Governor Wang Tung-Yuan sent an urgent appeal to Nanking for reinforcements as the Communists' sudden thrust from the west threatened Changsha, Hunan capital and vital railway city on the Hankow-Canton line.

The Communists in the west—reportedly a band 2,000 strong led by "Tiger" Liu Hsiung-Hu—presumably infiltrated south of the Yangtze in small numbers and reformed in Kweichow province, west of Hunan.

They were reported attacking the walled city of Hweitung, 150 miles southwest of Changsha, near the Hunan-Kweichow border. Chinese news dispatches from Hankow said the Communists apparently planned to cross the Yangtze and converge on Changsha from two directions.

Guam to Hold Hospital Poster Contest

Plans for a poster contest were announced yesterday by the Board of Trustees of the Guam Memorial Hospital Fund. The contest will be open to all persons on Guam, civilian and military, and to

One hundred and fifty dollars in prizes are offered by the board for the three best advertizing posters submitted. The winning posters will be used in a campaign to raise money for the Guam Memorial Hospital building fund.

Last November Governor Pownall instituted a program to raise a million dollars locally as the first increment of a fund to build a permanent Guam Memorial Hospital of 500 beds.

It is evident that the people of Guam are sincerely interested in the project because already more than $18,000 has been contributed to the fund.

The board of trustees will shortly launch a vigorous fund-raising campaign throughout the Island. The poster contest is a preliminary step in that campaign.

Rules of the contest:

1. The contest is open now to all persons on Guam. It will close at midnight, April 10, 1948.

2. Any person may submit as many entries as he or she desires. The poster must be approximately 18 by 20 inches in size. There are no restrictions as to content, format or color.

3. Entries should be sent to the Guam Memorial Hospital. They should be legibly labeled with the name and address of the contestant.

4. The Board of Trustees will not be responsible for the return of entries. Unsuccessful contestants may call for their entries after February 28.

5. The Board of Trustees will be the sole judge of winning entries.

6. Winning entries on payment of the prize money will become the sole property of the Board of Trustees who shall have the right to have them reproduced and to use them as the board sees fit.

7. Prizes will be awarded as follows: First prize $75.00, Second prize $50.00, Third prize $25.00. Winning contestants will be announced not later than March 1, 1948. Winners will be paid as soon as possible after announcement by the financial secretary of the Board of Trustees.

With the approval of the Guam Congress on December 3, 1947, Governor Pownall appointed a Board of Trustees for the Guam Memorial Hospital fund. The board consits of Capt. Harry C. Oard, MC, USN, as chairman and Mrs. Agueda L. Johnston, Monseigneur O. L. Calvo, Mr. John Lewis, Mr. Eduardo T. Calvo and Mr. B. J. Bordallo as members.

Guam Has First Public Musical Recital

COMMAR — A surprisingly large number of people turned out at the Coconut Grove ballroom Monday evening to attend what is believed to be the first public musical recital since before World War II.

Over thirty Guamanian piano students, ranging from five to twenty-two years of age, took their places at the instrument to musically illustrate the product of their teachings under the able hand of Mrs. Carmen De La Cruz, the coordinator of the recital and Island piano instructor.

The recital added impetus to an already undisputable fact, that the Guamanians are very definetly musically inclined, as are most Pacific island peoples. Proof of this occured many times during the evening when tiny be-ribboned tots, hardly able to scramble upon the piano stool, grinned complacently at the audience after executing a smart little bow and then settled down to let their youthful fingers rove over the keys with harmonious assuredness and skill that would do justice to many elders.

In addition to the many proud parents, numerous Guam social figures attended this reknown "first" recital, such a Civil Administrator, Capt. M. H. Anderson and wife, Guam Planning Commissioner, James T. Drought, Chief Commissioner, Ben Zafra and family, and many others.

The musical instructor in charge of the recital, Mrs. Carmen De La Cruz, has an extremely interesting background, both musically and otherwise. Besides being the daughter of Philippine Supreme Court Justice, Norberto Romualdez, she is a graduate of the Philippine Conservatory of Music, and president of the allumni organization of that school.

Santa Claus Parts Couple

PARIS —(UP)— A Normandy woman was granted a divorce after she told the court that her 39-year-old husband "still believed in Santa Claus," the newspaper France Soir reported yesterday.

The wife, identified only as "Madame S.," said her husband believed in Santa Claus just as other men believe in God," the newspaper said.

Rattlesnake Whiskey

NEW YORK —(UP)— During a raid in Chinatown, federal narcotic agents seized a bottle of beverage labeled "rattlesnake whiskey," popular with the Chinese as a restorer of strength.

The recipe: place one live rattlesnake in a large jar; add rice wine, dried toads, soy beans, sliced deer antlers and a handful of dried sea horses; keep six months and then drink at your own risk.

Teeth Decay Cause Sought

NEW YORK —(UP)— A group of about 100 institutional children will start an experiment soon, designed to help determine what causes their teeth to decay.

The study, to be conducted by several doctors in connection with the sugar research foundation, is expected to continue for some years. By then, the doctors hope to know definitely whether tooth decay in a large part is caused by lack of exercises of the teeth, gums and jaws.

Three Groups

The children chosen for the study live in Dobbs Ferry, N. Y., a few miles north of New York City. They will be divided into groups. One section will be given sections of sugar cane stalks to chew daily in addition to the regular diet. Another will have the cane juice added.

A third group, the controls, will have the regular diet. All members of the three groups will undergo dental examinations several times a year. At the end of two years, the doctors hope to see whether the hard mechanical exercise has any effect on the teeth of the cane-chewing group.

Sponsors of the study say that cane was suggested to supply the toughness, yet the sweetness and is palatable.

General MacArthur Chased by Major

SAN ANTONIO, Tex. —(UP)— Not many men can boast that they ever chased Gen. Douglas MacArthur anywhere. Ed Armstrong, Sr., 82 year-old veteran of two major wars and the Philippine insurrection, is the exception.

Chased Off Field

He chased MacArthur off the parade field in the Philippines.

"It was this way," the former soldier explained. "I was a major in the 30th infantry under the late Maj. Gen. Douglas MacArthur, father of the now-famous commander of Allied occupation forces in Japan.

"That was in 1899, and Doug, Jr., was a mischievous 16-year-old boy. He had the same squint in his eyes that he has today. He wore his cap at the same jaunty angle."

Armstrong remembers General MacArthur as an "unforgettable youngster." He was full of pep and ginger and was curious about anything that was military," he recalled.

He added that it probably was the curiousity of young Doug that caused him to get too close to the reviewing troops. "It was my duty to chase him off the field," Armstrong said.

Swedish Search For Uranium

LONDON —(UP)— The world's largest untapped store of uranium and radium is being measured by a Swedish deep-sea expedition led by Prof. Hans Peterson, of Goteborg.

The expedition, aboard the 1,400-ton motor schooner Albatross, has studied the deep ocean and its bed during a voyage across the Atlantic and Caribbean and recently entered the Pacific through the Panama Canal.

Many limits of research are being pursued by the expedition's scientists, Prof. Peterson wrote in the British scientific magazine Nature. The measurement of uranium and radium, made by analyzing large volumes of sea water taken from different depths, were not directed at discovering a method for retrieving the elements.

"Such measurments have become of special importance because of the light they may shed on the ionium precipitation in the sea."

Jane Powell's First Screen Kiss

HOLLYWOOD —(UP)— Jane Powell's first screen kiss is getting the personal scrutiny of Hollywood's censorship chief.

That's not because of the nature of the kiss, but because the boy doing the kiss is the censor's son.

"It makes a fellow feel kind of funny about kissing a girl," young Thomas Breen said, "when he knows his dad is going to be criticizing his technique."

Breen is the son of Joseph L. Breen, excutive of the Motion Picture Producers' Association and chief of its censorship department. He makes his screen debut playing Miss Powell's boy friend in the Metro-Goldwyn-Mayer technicolor musical, "Luxury Liner."

"It looked for a while as if I wouldn't have a career at anything," Breen said, speaking of the serious war wounds for which he received the Purple Heart.

High Blood Pressure

MINNEAPOLIS —(UP)— Male students at the University of Minnesota show a greater tendency toward high blood pressure than women students.

A university study over a 12-year period showed that 23 per cent of men tested scored 130 or more and only six per cent of the women reached that mark.

Constant attention to the water supply is one of the reasons why the health of the MarBo command remains good. The soldier in this picture is checking the automatic gas chlorinator. The machine automatic in operation feeds chlorine into the water in the required proportions. The water system comes under the direction of the engineers.

Rat Diseases Listed

COMMAR HILL — There is no known use for the common rat that offsets in any measure its destructiveness. Unlike most other animal pests, the rat has no saving quality. That it may act as a scavenger is a negligible fact when you consider the filth it leaves behind and the harmful organisms it spreads may often be more objectionable than the offal it might consume.

Because of the close association of rats with man and domestic animals and because rats are scavengers, living on both filth and edible foods, frequently alternately sewers and grocery stores or pantries, running from places where disease organisms abound to places where otherwise sanitary conditions prevail, carrying disease organisms on their feet and in their fur and stomachs, it is no wonder that rats play an important role in the spread and dissemination of disease.

Among the serious diseases carried by rats which are transmissable to man are:

Bubonic Plague — Of the rat diseases transmissable to man, bubonic plague is by far the most important. It is a highly fatal disease transmitted from an infected rat to man by the bite of a rat flea.

Typhus Fever — Like plague, this disease is transmitted from an infected rat to man by the bite of a rat flea. The death rate is not so high as of the plague, but the disease is extremely disabling.

Spirochetal Jaundice, by Weil's Disease — This disease is contracted by ingesting food or water contaminated with the urine or feces of infected rats, or through the skin by direct contact with the body or excretions of an infected animal. This is also a dangerous and highly disabling rat disease transmissable to man.

Rat Bite Fever — This serious fever is contained in the saliva of an infected rat and is transmitted to man through a rat bite.

Food Poisoning — Commonly though incorrectly known as ptomaine poisoning, man contracts this disease by eating food which has been contaminated with organisms carried on the feet and fur of rats or mice. Many thousands of cases of this type food poisoning are reported annually.

Rabies — Rabies, or hydrophobia is primarily a disease of dogs but affects other animals, including rats, and is transmitted by the bite of the rabid animal.

Because of the absolute lack of saving qualities in the rat, and the great harm to human health and prosperity it may effect, there should be no doubt that every possible step should be taken to rid Guam of this rodent by whatever means is may be affected.

Can't Sell Money

INDIANAPOLIS, —(UP)— Ed Sovola reported recently that it took him 10 minutes to sell a dollar bill for 79 cents.

Sovola, who once counted the leaves on a maple tree, reported in his column in the Indianapolis Times that he stood on a downtown street corner in sight of hundreds of bargain hunting shoppers. A sign on his chest offered the bills at a reduction of more than 20 per cent.

After hawking his bargain for 10 minutes, dozens of passersby "scoffed in my face," Sovola said a young man "stepped up and said he'd take a chance."

After that, he said, he had little trouble getting rid of 24 other bills at a net loss of $5.25.

Sovola finally ran out of money, took down his sign, and "went out of business."

Citizenship Thoughts

Appearing in the December issue of "O Le Faatonu," a periodic published monthly by the Government of American Samoa, was a new column called "The Citizen."

This column is dedicated to present to the people of American Samoa thoughts on citizenship, a long hoped for status by the people there.

The article said the facts and concepts in the column are for careful study and meditation. "Citizenship is not a gift. It is a freedom and a privilege earned through years and even centuries of allegiance to the common cause, the rights of free men."

Some Somoans have been granted citizenship by services rendered to the United States while a part of the armed forces.

Present legislation now before Congress will, if enacted grant citizenship to many of American Samoa.

The National Foundation has authorized more than $6,000,000 for the training of doctors, nurses, physical therapists and other health workers in modern methods of fighting polio, and for the education of the public.

Concessionaire Requested For Civil Service

COMMAR HILL—Negotiations are now in progress to obtain a concessionaire to operate all Naval civil service facilities on Guam, a recent letter from Commander Marianas chief of staff said.

The civil service subsistence program was started by the Navy on Guam because other facilities were not available for this purpose when the first group of civil service employes arrived here, and has, from necessity, provided in whole or in part this service since that time.

This arrangement was entered into by the Navy as an interim measure in order to expidite the accomplishment of the mission that it was designed to perform in the Marianas.

Naval Authority

The Navy did not have, nor does it have now, authority under existing legislation that would permit funds appropriated for the Navy to be used for food and services for its civilian employes.

The letter said that this problem is further complicated due to the reduced compliment of officer and enlisted personnel for this area which will make it necessary to supplement them with civilian help.

"Civilians should appreciate the fact," the letter said, "that without legal authority to underwrite mess losses no other alternative is available."

It is believed that a reliable company can be obtained for this purpose which will be able to efficiently serve all Navy civil service personnel on Guam at a reasonable cost, the letter said.

The Navy is working in close cooperation with the "Board of Civil Service Representatives" in the negotiation of a contract for this purpose and with its consummation the civil service personnel will be provided quarters and subsistence at reasonable prices.

"Harry, I think we'd better put a restriction on those atomic slings just one to a customer! !"

HDQ. 20th A.F. — The Protestant choir of the 20th Air Force chapel gave a series of recitals in advent of the Christmas season. Under the direction of Lt. Demeen, they are pictured left to right: Capt. Dave Barrow, Pvt. Bob Tyler, Pvt. Bob Justice, Pfc. Bob Blake, Pfc. James Piess and M-Sgt. Herman Johnson. (U.S.A.F. Photo)

Adm. Riggs Directs Reserve

(SEA)—New director of Naval Reserve will be Rear Admiral Ralph Smith Riggs, USN, who succeeds Rear Admiral John E. Gingrich, USN. Adm. Gingrich was recently appointed Director of Security and Intelligence of the U. S. atomic energy commission.

Adm. Riggs, as Director of Naval Reserve, will be responsible for the policy and general development of the entire Naval Reserve establishment—which will total more than a million officers and enlisted personnel when fully organized.

The total reserve strength at present is approximately 266,045 officers and 550,515 enlisted men.

Said Adm. Riggs: "We can't build or have an adequate Navy without reserves....the problem is to keep a reserve system up to strength and trained in the most up-to-date fashion."

The basic mission of the Naval Reserve is to furnish a source of trained officers and enlisted men to augment the Regular Navy in time of war or emergency.

Adm. Riggs comes to his new post from the Navy's general board where he has been on duty since May 12.

ComMar Captures Island Basketball Crown

Over The Joepot

by Bill Jury

In pro football circles they're lamenting Army Secretary Kenneth C. Royall's recent rejection of Glenn Davis' request to resign from the Army.

The former three year All-America halfback for Blaik's Black Knights of the Hudson had great aspirations toward a play-for-pay career and the same can be said for Coach Buck Shaw of the San Francisco 49'ers.

The 49'ers held draft rights to Davis as well as to his famous teammate Felix "Doc" Blanchard and it goes without saying that the 'Frisco bunch could use the one-two punch of Messrs. "Inside" and "Outside." The AAC club already has Frankie Albert and Norm Standlee, the famous "Wow" Boys of Stanford, but with Davis and Blanchard it would be more the merrier.

It's not hard to imagine Davis' wanting to vacate his second lootie post in favor of the huge salaries pro football has been handing out lately. But with "Junior" and the football world standing by waiting for the verdict, Royall reminded the sports fans and Davis that "these are not normal times" and proceeded to reject the Touchdown Twin's request. Then to top it off it has been reported Davis is slated for overseas duty.

Shed a tear, sport fans, professional football has suffered a great loss.

Back in the states some 300 colleges are preparing to vote on the so called and widely-discussed "purity code" pertaining to athletes. There's been plenty of talk about eliminating "recruiting" among athletes, but up until now not much has been done about it. January 9th and 10th representatives from colleges all over the country will meet in New York to set up standard practices for regulating college sports and to remove any professional taints.

At a glance it looks like just another meeting to let off steam and to accuse rivals of unsportsmanlike policies toward obtaining the cream of the athletic crop, but word is going around that a proposal to set up a "National Athletic Conference" is in the offing. If so the get-together may not be a complete failure after all.

The colleges aren't fooling many people. It's ceasing to be a question of who is offering lucrative rewards to athletes. Instead it's more a question of who is offering the most.

The confab in New York may be the answer to a lot of the bickering going on at present under full steam, but don't count on it.

There's no such thing as a full-fledged "amateur" in college sports.

Baseball Dodgers Take Over AAC Club Front Office

NEW YORK, Jan. 7 —(UP)— The National League Champion Brooklyn baseball club went into the professional football business today by taking over the operation of the Brooklyn Dodgers of the All-America Conference under circumstances indicating the franchise was an outright gift from the circuit.

Branch Rickey, president of the baseball club and renowned as one of the shrewdest traders in sports, carefully avoided the word "brought" when he announced acquisition of the financially-ailing football team.

He merely said he was "taking over operation" of the Dodgers, free of the previous administration personnel. This left him apparently without business connections with Bill Cox and Gerald Smith, the partners who operated the club in the red for the last two seasons.

In his statement, Rickey added that the Dodgers were not the chief stockholders in the football team. But Jonas Ingram, commissioner of the All-America Conference, left little doubt about who has control of the club now. He issued a formal statement in which he said, "I welcome the new ownership of the Brooklyn football club into the conference."

Most Welcome

Rickey added that there are "responsible people" still interested in operating the Dodgers as a football team. "If we find them of worthy caliber," he said, "they will be most welcome."

This apparently was a loophole which Rickey could rid himself of of the team, even if it proves to be a white elephant under his direction. The deal apparently was that the league gave the club to Rickey outright on a one-year-trial basis, with no strings attached.

Louis to Fight in June

NEW YORK, Jan. 7 —(UP)— The 20th Century Sporting Club announced tonight that Joe Louis will defend his heavyweight championship in New York in June.

No definite opponent was named.

Sol Strauss, acting director of the club said that the title defense will be made at one of the ball parks "if I can arrange appropriate terms with a ball park."

Numerous fans have inquired as to why the 501st Port Rams and the First Marine Brigade have not played off the tie for first place in the MarBo Sweat Bowl standings. The Rams were willing, but due to transfer and discharge of key men, their team has been weakened to such a degree that they do not feel they could compete.

The 501st Port Rams won the first annual Rock Bowl game on Okinawa last Sunday, 21-0, MarBo Public Information reports. Details are not yet available.

PISTOL PETE MORGAN goes up high for a lay-up in the fourth period of last night's championship game on the ComMar court. Joe Ward, CB guard, is seen practicing an unorthodox method of basketball defense. Pete missed the shot but made the charity toss and added one more point as ComMar dubbed the hard-fighting CB's, 48-34. (Guam News Photo)

Hilltoppers' Fast Break Nets 48-34 Win

ComMar struggled along on even terms with the 109th NCB's through the first half of the championship game last night and then broke loose with its vaunted fast break to rout the SeaBees. 48-34, and take the 1947 Inter-Command basketball title.

Starting Pete Morgan and Red Worthington for added height to the ComMar five paid off as the Hilltoppers jumped to a 6-0 lead.

Earl Whiteley, the SeaBee center, brought his mates back with a foul shot halfway through the period and they followed up with two field goals. Bud Dedrich popped in a long set shot and the 109'ers led at the end of the first period, 7-6.

ComMar again started fast and moved ahead, 12-7. Unable to penetrated the ComMar defense, the Bees shot from way out and Dedrich and Joe Ward evened the count. Ken Fons matched Bob Buum's bucket but Jack Argotsinger sent Coach Mort Green's hustlers ahead for the half, 18-16.

The Hilltoppers' fast break rolled up a 12 point lead when the third period ended. Maynard Lager dumped in an underhanded pivot shot to make the scoreboard read, 34-22.

Still fighting, the Bees came back hard and narrowed the gap by seven points on the shooting of Argotsinger and Dedrick.

Buzzy Squires and Gil Marlowe brought ComMar back to life and they led 30-32 with four minutes to go. ComMar held the ball most of the remaining time, freezing it and shooting when the chance came. Squires stole two passes and hit two lay-ups; Fons popped in two more as the SeaBees went to pieces and threw away their last chance to win.

Fons was high for the Island champs with 17 and Whiteley took honors for the SeaBees with 7.

Response Indicates Success Of Tennis Tournament

The GUAM NEWS all Guam Tennis Tournament, announced in last Sunday's paper and scheduled to begin the first week end in February, is moving right along and the flow of entries early this week indicates that it will be a big success.

Inquiries from several ladies at MarBo and other sections of the Island have prompted the tourney director to include a women's division and if enough interest is shown, a mixed doubles bracket will be played off. A women's tennis class was held at MarBo late in the summer and there are several good distaff netters on the Island.

The other divisions of the tourney, which are open to anyone on the Island, include a novice and open class, both singles and doubles. A novice is any player who has never competed in a tournament.

Lcdr. J. David Smith, of NATS, winner of last year's meet has made known his desire to compete and an entry has already been received from Captain A. P. Kohlhas, of NSC, last year's runner-up.

The rules of the tourney are as follows:

1. USLTA rules will govern play.

2. Two out of three sets will decide a match in all cases except the finals, in which case a three out of five series will be required. In the ladies' division two out of three sets will be played throughout.

3. All games will be played on the flag courts at ComMarianas. All matches will be played on weekends so that that service personnel may be free from military duties.

4. The tournament is open to all tennis players on the Islands; civilian or service.

5. Anyone who has competed in any tennis tournament previously must enter in the open class, while others will be classed as novices.

To enter, you need only fill out the application blank found on this page or in subsequent issues and mail it to the sports editor, GUAM NEWS.

Baseball Coaches Ask NCAA Aid

NEW YORK, Jan. 7 —(UP)— The American Association of College Baseball Coaches today petitioned the National Collegiate Athletic Association to throw its weight behind efforts to prevent campus raids by organized baseball.

The coaches, who have long sought to formulate an agreement with the major leagues, adopted a resolution seeking the aid of the powerful N.C.A.A. in forcing an agreement similar to the one in effect between colleges and organized football.

Hands Off Policy

The college coaches, under Clinton W. Evans of California, demand that pro baseball adopts a hands off policy as long as collegians still play in school and that "bird dog" scouts who point out talent to major league clubs be outlawed.

Meanwhile, prior to the N.C.A.A. sessions, the track coaches prepared to add three and possibly six olympic events to the N. C. A. A. track and field championships at Minneapolis, June 18-19.

Boston Braves Accused Of Unethical Tactics By Sam Barry

LOS ANGELES, Jan. 7 —(UP) Sam Barry, University of Southern California baseball coach, today accused the Boston Braves of the National League of using unethical tactics in signing an 18-year-old college player, First Baseman Larry (Bud) Pennell.

Basketball Coach

Barry, who also coaches the Trojan basketball team, said the Braves not only awaited until he was out of town to contact Pennell, but even suggested that he not tell his coaches he had been signed.

Irish - Michigan Question Put Before Trojans

LOS ANGELES, Jan. 7 —(UP)— The unanswered question of the 1947 football season—is Notre Dame or Michigan the better team—was put to a representative cross-section of Southern California's eleven today and the majority believed the Irish would win.

The Trojans were beaten by both teams, 38 to 7 by Notre Dame, and 49 to 0 in the Rose Bowl by Michigan.

Although Michigan's victory was more convincing, 17 of the 22 players polled felt Notre Dame was the stronger team. Their reason was the Notre Dame line, even though the Trojans were able to break through the solid wall for one touchdown.

Notre Dame's line would be able to make their offense go through Michigan and at the same time would be able to stop Michigan's thrusts," one player said.

And even of the five players who thought Michigan would win, most of them felt Notre Dame had a stronger line. Those five picked Michigan because they felt the trickery of the Wolverine backfield would fool the Irish as it fooled the Trojans.

Ben Eastman Signed

SANTA CLARA, Cal., Jan. 7 —(UP)— Flazin' Ben Eastman, one of the world's great track stars 15 years ago, today signed a contract as head track and field coach at Santa Clara University.

The pact was made on a part-time basis and Eastman will continue his present executive position with a service station supply company.

Guam News

Guam, Marianas Islands Friday, January 9, 1948

America, Britain to Merge German Zones

FRANKFURT, Jan. 8 —(UP)— Gen. Lucius D. Clay announced today that military government organizations in the American and British zones will be merged into a single unit as part of a reorganization establishing a central government for western Germany.

Clay arrived in Frankfurt by train to attend a two-day conference with British and German officials during which he is expected to announce formation of a central government as the answer to the breakdown of the London foreign ministers conference.

Reorganization of the British and American military governments will be worked out in a special meeting tomorrow morning with Gen. Sir Brian Robertson, commander of the British zone, Clay said.

He said the new organization will follow the pattern of supreme headquarters (SHEAF) established during the war by Gen. Dwight D. Eisenhower.

Officials were unanimous in predicting that most of the important jobs will go to American officials because the United States now is bearing the major share of expenses in two zones.

All minister-presidents of the two zones were in Frankfurt to hear Clay tell them about allied plans for the future of Germany.

The central government, Clay was scheduled to tell the Germans, will be built upon the basis of the existing bi-zonal economic council and will have authority over all eight states of the two zones.

It is expected Clay will announce new measures to strengthen the powers of the economic council and give it authority to enforce decisions welding the eight states into economic and political unity.

The far-reaching measures to be announced are expected to bring an end to increasing labor dissatisfaction in the Ruhr, where 16,000 are on strike, and in Hamburg, where 5,000 dockworkers are idle.

Brazil Ousts Red Legislators

RIO DE JANEIRO Brazil, Jan. 8 —(UP)— The chamber of deputies tonight approved a bill ousting Communists legislators throughout Brazil. Already passed by the Senate, the bill was expected to be signed immediately by President Eurico Gaspar Dutra.

The Communist party was outlawed last May and this country broke diplomatic relations with Russia in October.

The new bill affects one senator —Luis Carlos Prestes, leader of the Communist party—14 members of the chamber of deputies, 43 members of state legislatures throughout the country, and 18 Rio De Janeiro aldermen who form the majority of the capital's municipal council.

Minister of Interior and Justice Aldroaldo Costa said in a statement that the government was "perfectly prepared to suppress any agitation resulting from the final voting of the bill."

He emphasized that debate of the measure had been carried out "in an atmosphere of absolute freedom with all legislators including the Communists, enjoying their full parliamentary impunities."

Weather Forecast

Generally cloudy. Occasional moderate showers. Moderate easterly winds with strong gusts.

Yesterday's temperature: Max. 85.5, Min. 77.

Yesterday's rainfall: .01

Rainfall for month: 1.14.

Morgenthau Speculator

WASHINGTON, Jan. 8 —(UP)— Former Secretary of the Treasury Henry Morgenthau, Jr., one of the top fiscal experts in the Roosevelt regime, was disclosed today to have speculated in corn in June, 1947.

Secretary of Agriculture Clinton P. Anderson named Morgenthau, who quit his cabinet post in July, 1945, as among 4350 other traders who were in the Chicago corn market on June 30, last year.

The former new deal cabinet member immediately issued a statement emphasizing that his commodity transactions took place "a year and a half after I resigned from office."

18 Killed as Palestine Rioting Continues

JERUSALEM, Palestine, Jan. 8 —(UP)— Eighteen persons were killed and 53 or more wounded today in a brief, blazing flash in the streets of Jerusalem and wooded Mamillah cemetery.

Fifteen of the dead and 50 of the wounded were Arabs, casualties in a Jewish bomb blast in a crowded street. Three of the dead and two of the wounded were the five Jews who did the bombing. One British policeman was wounded by a bomb fragment.

Ten Jews of the terrorist Irgun Zval Leumi organization stole a police armed car from a garage in central Jerusalem. Five of them drove off in the car to the Jaffa gate. They tossed a "parcel bomb" packed with rivets into a homeward bound crowd of Arabs at the teeming Jaffa gate.

As their car roared off along the Mamallah road they tossed a second bomb. Fifteen Arabs were killed and 50 Arabs and the British policemen were wounded by the blasts.

The fleeing Irgunists turned their car into Princess Mary Avenue as police, firing wildly from the hip with automatic weapons, pursued them. A police bullet ripped a tire of the car and it crashed into a wall.

The five Jews climbed out and ran for the woods of Mamillah cemetery, hoping to reach a Jewish quarter beyond it.

Troops joined police in pursuit of the bombers and mowed down all five Jews with fire from a cemetery ridge. Three of the Jews were killed, two seriously wounded and captured tonight enraged Arabs in the Jaffa gate region burned the disabled armored car.

5 Drowned in Oregon as Weather Ramps

CHICAGO, Jan. 8 —(UP)— More snow fell in New York today and five persons were reported drowned in Oregon as flooding rivers and streams forced hundreds of persons to flee from their homes.

The Oregon floods disrupted rail and highway transportation and hundreds of homes in at least 20 communities were flooded.

The broad Williamette river spilled over its banks at several points along a 125-mile valley. Tributary streams also overflowed after seven days of almost steady rainfall and storms which have lashed the coast.

The floods forced 1,400 persons to leave their homes at Glenwood, a suburb of Eugene, Ore. Schools were closed in several communities and highways were under water.

A bridge washed out 11 miles south of Roseburg, and several families were evacuated from their homes near Medford where six to eight inches of water covered the highway.

Main line transportation between Portland and San Francisco was shut off when a washout swept away 150 feet of track on the Southern Pacific lines three miles south of Dunsmuir, Cal.

In New York, Sanitation Commissioner William J. Powell said the new snow there—3,070,000 tons of it—was "just a baby after fighting 25.8 inches." He said it would be cleaned up in record time.

Air Force P-47 Crashes Killing Pilot

HDQ. 20th AF—An Air Force P-47 from Northwest Field, Guam, crashed yesterday afternoon at 2:31 p.m. killing the pilot. The aircraft of the 20th Fighter Wing had been on a routine training mission.

Immediately prior to coming in for a forced landing, radio contact with another aircraft indicated that the engine had failed. Apparently undershooting Northwest Field, the pilot headed up the beach and nosed over upon impact.

A ground search party arrived at the scene at approximately 3:00 and printed the word "dead" in the sand, according to crew members of the 4th emergency rescue squadron B-17 which was flying over the crash.

The pilot's name and home address will be released pending notification of next of kin.

A board of qualified Air Force officers will investigate and determine the exact cause.

Russian Navy Aids Sinking Motorship

TOKYO, Jan. 8 —(UP)— A small Russian naval patrol ship today reached the sinking Soviet motorship Dvina in stormy seas off Japan today and stood by to aid the 800 passengers aboard.

The Soviet passenger ship was reported shipping water rapidly and listing at 40-degree angle. Five feet of water already had poured into the disabled vessel's hold.

The commander of U. S. Naval forces in the Far East said the Russian patrol ship number 30, about the size of a destroyer escort vessel, was standing by the sinking Dvina 150 miles due east of Hakodate, in the storm-battered Sea of Japan, between Siberia and the northern most Japanese islands.

The Naval Government Department of Record and Accounts announced yesterday that vehicle operators' licenses should be renewed immediately.

The original deadline for renewing them was set at December 31, 1947, and all persons apprehended without a 1948 license are subject to fine.

FASRON 13 yesterday released the name of another sailor who drowned last Friday night off Asan Point bringing the total to four.

The body of Julian Henry, S1, USN, attached to FASRON 13, was found Monday morning. Next of kin have been notified.

DC-3 Air Liner Crashes Killing 17 Passengers

SAVANNAH, Ga., Jan. 8 —(UP)—A chartered DC-3 air liner loaded with homeward-bound Puerto Ricans, crashed and exploded in the wild marshes at the mouth of the Savannah river today, killing 17 of the 26 persons aboard.

The nine survivors, including copilot Raymond Eick of Trenton, N. J., who blamed the crash on control failure, were seriously injured.

Eick said the plane, a converted Army C-47, went into a sideslip, spiraled down, and crashed on one wing. The wing tore off, the gasoline tanks exploded and all who were not thrown clear were killed.

Flatboats

Coast Guardsmen and U. S. Army engineers dredgeboat crews poled flatboats into the tangled swamp to reach the victims and brought out 16 bodies and 10 survivors. But a 10-year-old girl died before she could be taken to a hospital.

Frank Bell, a Savannah reporter who went to the scene, and saw the girl just before she died.

Marshall, Douglas to Sell European Program

WASHINGTON, Jan. 8 —(UP)— Secretary of State George C. Marshall and U. S. Ambassador to Britain Lewis W. Douglas were picked today to head the administration team that starts tomorrow on the rough job of "selling" the long-range European recovery program to Congress.

Chairman Arthur H. Vandenburg (R-Mich.) of the Senate Foreign Relations Committee, announced that Marshall, who initiated the far-reaching foreign aid project last June, will lead off for the administration when the committee begins public hearings tomorrow.

Six other cabinet officers and a battery of experts from the State Department and other executive departments will follow the popular secretary to the witness chair during the week alloted to presentation of the administration's case.

But the committee said the main burden of presenting the program will fall upon Douglas, who has been mentioned prominently as a likely choice to administer the $17,000,000,000 aid project when and if Congress aproves it.

Italian Police Protect Solacolo

ROME, Jan. 8 —(UP)— Italian police broke into the Romanian legation to the Vatican today to protect the ex-charge d'affaires, Theodore Solacolo, from two "Communist Russians" he said had held him prisoner inside.

Two Carabinieri officers broke a padlocked chain stealing the legation gates after Solacolo had telephoned police for help. The officers, Solacolo and the alleged "Russians" planned to remain in the legation overnight.

Meanwhile, the Vatican formally protested what it termed an attempt by the Romanian minister to Italy to seize the Romanian legation to the Vatican. The Vatican is sovereign over its tiny territory inside Rome.

Studying the diplomatic angles involved, the Italian foreign office instructed the Carabinieri to remain in the legation to protect Solacolo.

Jackson Appointed

LAKE SUCCESS, N. Y., Jan. 8 —(UP)— United Nation's Secretary General Trygve Lie announced tonight that he was appointing Robert C. A. Jackson 37, of Australia, ninth assistant secretary-general.

Jackson will assume his duties alongside Lie's eight other lieutenants, when the secretary-general returns in February from a trip to Europe to canvas possible sites for next fall's session of the General Assembly. Lie will leave on Friday.

The Guam Girl Scout council will meet Saturday, January 10th at one p.m. in the Girl Scout office. All members are urged to attend.

Truman to Make First 1948 Speech to Congress

WASHINGTON, Jan. 8 —(UP)— President Truman will deliver before a joint session of Congress today a factual message expected to be a left-of-center appeal—in the Roosevelt tradition for election year support. His campaign challenge will be fired at a Republican-controlled Congress.

The President must bolster and almost re-create the late FDR's new deal-democratic coalition to be elected president next November. This State of the Union message is expected to be the opening shot in his 1948 campaign to hold new deal lines against the left wing presidential candidacy of Henry A. Wallace.

Mr. Truman will read his message in the chamber of the House of Representatives with members of the Supreme Court and his cabinet also seated there before him. The recommendations have been pretty well indicated in advance except for presidential year tax policies.

Some political realists believe Mr. Truman will accompany opposition to any reduction of federal revenue with a willingness to approve some degree of tax relief for the little fellows. There are millions of them and they vote.

Mr. Truman will detail administration tax and fiscal policies in his annual budget message next Monday and two days later will send Congress an economic report. These, together with today's message, will become the principal structure of the 1948 Democratic platform.

The President still wants new legislation to curb monopolistic concentration of industrial power and to aid new enterprises. Last year he asked for legislation to provide 500,000 low-rental housing units in the next four years.

He wants universal military training and will repeat his recommendations of a year ago. Conservation of natural resources is high on the Truman list and probably will be discussed in detail in next Wednesday's economic report. The keystone of administration foreign policy is the Marshall plan for which the President already has asked an initial appropriation of $6,800,000,000 for the fifteen months beginning next April. His message almost inevitably will plead with Congress to vote the money and set up the machinery on time.

Senate Approves Voice of America Broadcasts

WASHINGTON, Jan. 8 —(UP)— A bill giving the State Department permanent authority for its "Voice of America" broadcasts was approved by the Senate Foreign Relations Committee today as administration sources disclosed that the program will be taken over by George V. Allen, U. S. ambassador to Iran.

Administration quarters reported meantime that Secretary of State George C. Marshall has selected to be his assistant secretary for public affairs, a post which has been vacant since William Benton resigned last Oct. 1 to return to private business.

They said President Truman plans to send the nomination to the Senate "very soon," possibly tomorrow, and Allen will return from Iran early next month to take over his new duties.

He will be in direct charge of the department's office of information and educational exchange which administers the 24-language "voice" radio programs, provides all American diplomatic and counselor establishments with daily radio reports on U. S. events.

AGANA — Naval Lieutenant George L. Musick, former Public Information officer of Com Nats Asia, died at 8:27 Wednesday night at the Naval Medical Center of a gunshot wound. Musick reported for duty at Com Nats Asia, Guam, on June 6, 1947. He was born May 19, 1919.

He is survived by his wife, Helen H. Musick, and one child, residing at 3120 San Jose Blvd., Jacksonville, Florida.

Headline Highlights

LONDON, Jan. 8 —(UP)— Chancellor of the Exchequer Sir Stafford Cripps warned today that Britain will, of necessity, halt her exports of coal and steel and give up any attempt to help Europe recover if the Marshall plan falls to go through.

NEW YORK, Jan. 8 —(UP)— Prices went up on the nation's major security and commodity markets today as most traders and speculators interpreted President Truman's "state of the union" message as inflationary.

WASHINGTON, Jan. 8 —(UP)— Chairman J. Parnell Thomas, (R-N.J.,) disclosed tonight that his House Unamerican Activities Committee has nearly completed an investigation of "Communist influences" in the field of atomic energy as part of its intensive, 12-point program to stamp out Communism in this country.

BOMBAY, India, Jan. 8 —(UP)— Reports from Karachi, Pakistan, said tonight that 122 persons were killed and 299 injured Wednesday in another wave of rioting but that now the "situation is well in hand."

WASHINGTON, Jan. 8 —(UP)— Republicans claimed today that President Truman's "cost of living" tax credit plan would increase living costs and said they would try to ram their own tax cut program through the House before Feb. 1.

First Post-War Archeological Trip

CHICAGO —(UP)— Two University of Chicago professors have embarked on the first archeological expedition into western Asia since the war.

They are Robert J. Braidwood, assistant professor of old world prehistory and anthropology, and Donald E. McCown, research associate in the university's oriental institute.

Their route lies from New York to Greece and thence to excavation sites in Iraq and Iran.

Seventh Excavation

Braidwood, who will be making his seventh Asiatic excavation, will travel to the site of an ancient mound at Qara Yitagh in Iraq, where he will make camp.

McCown will work at Iran at the head of the Persian gulf south of Ahwaz. He will travel over a section of Iran looking for mounds which might prove interesting.

Braidwood said he expects to find remnants of cultures ranging from 4,000 B.C. to as far back as 6,000 B. C. in the mound at Qara Yitagh. He said he would employ about 50 native wormen, including pick and shovel men, dirt carriers and women to wash pottery fragments.

Scientists Search Bottom of Atlantic Ocean

(UP)— Tons of rock, dug from the tops of an underseas mountain range in the Atlantic Ocean, are going under the microscope and other instruments at Columbia University in New York.

The rocks are the specimens brought back by an expedition sponsored by the National Geographic Society, Columbia University and the Woods Hole, Mass., Oceanographic Institution.

Ewing Headed Group

Prof. Maurice Ewing, of Columbia's department of geology, who headed the expedition, said the first trip opened the way for extensive investigation of this great submarine mountain range in the Atlantic.

Ewing and his associates feared at first they would get only mud, but they got a windfall when specially constructed dredges brought up rocks—rocks from the peaks of those underground mountains.

The scientists were sailing in the vicinity of the legendary lost continent of Atlantis. Ewing, however, has insisted the expedition was not a search for the "lost continent."

Baby Boom to Crowd Wisconsin's Schools

MADISON, Wis. —(UP)— Wisconsin schools are overcrowded now, but Paul Weis hates to think what it will be like in 1953.

Weis, state director of vital statistics for the Wisconsin Health Board, reported Wisconsin is experiencing a baby boom. He estimated this year's births would reach 80,000 for a new record.

He figured by 1953 this year's babies would boost school enrollment 51 per cent more than enrollment this year, with 27,000 more children in the first six grades of school.

Guam Rat Program Continues

COMMAR HILL—Cphm. E. M. Scribner, Rodent Control Officer for the Island Public Health Department, recently emphasized the necessity for cooperation of all activities in the current rat campaign on the island and enumerated a few of the harmful effects of these rodents.

There have been no reports of the rats on Guam carrying diseases transmissable to man, but the disease carrying potentialities of the rat are great and there is a definite danger of their carrying infection and disease, Scribner said. In addition to this rats destroy many hundreds of dollars worth of foodstuffs and equipment of Guam every year.

This rodent has been especially damaging to farmers crops on the southern end of the Island, goods stored in the various warehouses and electrical equipment which has not been chemically treated. Rats chew through the insulation on wiring and cause short circuits and fires.

It has been estimated that the damage caused by rats in the United States averages $1.50 per rat per year, and Scribner said that this figure is probably applicable to Guam.

Scribner outlined the present trapping and poisoning campaign which is currently in progress on Guam. The campaign is being carried on in all Army and Navy activities and in all civilian communities on the island.

'Ants in Your Pants' Is Latest Fashion

PHOENIX, Ariz. —(UP)— The new look for men is finally sweeping the country, but it's not so much a "look" as an "it's there, all right, but you can't see it."

Antsy pants, the latest wrinkle in boxers shorts, is an exclusive product of Goldwater's Phoenix Department store. Since the firm began placing advertisements in national magazines it has received more than 3,500 orders for the novel male lingerie.

Working Overtime

Mr. America's desire to have his shorts adorned with huge red ants has the firm working overtime to fill orders which pour in at the rate of 150 a day.

Gene Warren, the store's men's shop buyer and antsy pants authority, said an additional clerk had to be hired to handle correspondence connected with the craze.

"We're not only 3,000 orders behind already," he said, "But new orders keep coming in faster than we can catch up on the old ones."

'Lady' Finds Flea Cure at Bikini

ST. LOUIS —(UP)— Lady, once the queen of Bikini Atoll, is a lady. She never scratches.

The reason, said Coxswain James Nestor, 19, who adopted the frisky black-and-white terrier that survived the atomic experiments at Bikini, is that "all her fleas must have been blasted away by the bomb."

Lady is believed to have been the only dog on Bikini to pull through the double blast in the atoll's lagoon. One year after the experiments in 1946, she was found running about one of the sand spits by an advance group of SeaBees searching for signs of radioactivity.

Original Lincoln Presentation Found

SPRINGFIELD, Ill. —(UP)— An original presentation copy of the "Debates Between Lincoln and Douglas," personally autographed by Abraham Lincoln, has been found in a Springfield bookstore by King V. Hostick, collector of Lincoln letters and documents.

Published in 1860 in Columbus, O., the volume is inscribed on the title page in the hand of Abraham Lincoln to R. M. Elder.

Elder made speeches for Lincoln during the latter's presidential campaign. The book is one of 100 copies which were given to Lincoln by publishers in payment for his supplying them with his text of the famous Lincoln Douglas debates.

Political Favors

Lincoln used the books as political favors, giving them to his friends during the presidential election year.

Although many copies of the book are still in existence. The presentation sentiment, together with Lincoln's signature, makes Hosticks find one of some value, he said.

The national foundation is always on the alert and ready to combat epidemics wherever and whenever they occur. It also evaluates new methods of treatment and makes such knowledge available to the public and the medical profession.

Samoan Cancer Cases Incurable

During recent months there have been six patients admitted to the American Samoa hospital who were found upon examination to have cancer which had advanced to a stage where nothing could be done to save their lives.

The American Samoan monthly paper, "A Le Faatonu" said in each of the six cases signs and symptoms had been previously noticed which should have prompted them to seek medical attention in some instances for more than one year.

The paper published a list of danger signals for cancer which are considered sufficient indications to warrant medical attention as soon as possible to determine if a cancer may or may not be developing.

Boy Scouts Guam Council to Meet At Coconut Grove

The Annual Council meeting of the Guam Council, Boy Scouts of America, will take place at the Coconut Grove Annex Sunday, January 11, at 2:30 pm.

This is a meeting of the adult leadership of the Boy Scouts movement on Guam, and is particularly significant in that while it is the second full meeting of the Council, it will be the first meeting at which a report of the entire council will be made to constitutionally elected representatives of sponsoring institutions. It will also be the first time that an organized selection and nomination procedure will produce the new group of officers.

Nominating Group

A nominating committee consisting of Judge Jose C. Manibusan, chairman, Simon A. Sanchez, B. J. Bordallo, Monsignor Oscar L. Calvo, and Fred Gutierrez has been hard at work since the latter part of November to give the Council the best set of officers available. In line with what the scout movement is trying to achieve on the Island, for boy membership, the procedures which involve selection of adult membership are equally "citizenship training" for the men who are the so-called "super-structure" of a scout council.

The program of the annual meeting will include a showing of the sound-color "Scout Trail to Citizenship" movie, the report of various committees with regard to by-laws and properties, the election of officers for 1948, a buffet luncheon with music provided for background, and a closing pageant involving scouts.

About 75 people and their wives and guests have been invited, to the meeting, involving the youth of the Island, aimed at producing good character building, citizenship training, and physical fitness.

If polio strikes, watch for these symptoms: Headache, unexplained fever, a cold, even an upset stomach. They may be the first symptoms of infantile paralysis.

MarBo Offer New Army Program

MarBo headquarters announced today that the Army extension course program is now in operation with over 100 courses available to qualified personnel.

This is one of the most important and comprehensive programs of military education ever undertaken by the Army. New courses are in the process of preparation by the various services. It is expected that nearly 1000 courses will be completed within the next three years.

While this program is designed primarily to provide a systematic course of instruction at home for members of the organized reserve and the national guard. Those qualified persons now on active duty may also avail themselves of these courses.

The courses, which are being administered by the various ground, administrative and technical schools in the six army areas, are arranged in six series of sub courses for each of the services, and are adapted according to the military grades of the enrolees, They are designated as follows:

10— series for basic instruction of EM and warrant officers
20— series second lieutenants
30— series first lieutenants
40— series captains
50— series majors
60— series lieutenant colonels

Conscientious Cabbie

CHICAGO —(UP)— The driver of Checker Cab No. 5.000 goes beyond the call of duty to give good service to his customers.

It brings fat tips, for one thing but to Edward Hamilton that's not the most important thing. He says he just likes people and likes to see them happy.

His cab contains the latest editions of all Chicago newspapers, free cigarettes and cards of safety pins for mothers with infants.

Hamilton supplies his fares with cleansing tissues and even the Chicago telephone book.

Police Clamp Down

CHICAGO —(UP)— Military Regulation for uniforms can SNAFU even a rear admiral.

Exploring the south pole doesn't faze Richard E. Byrd. But en route to Ames, Ia., he had to call for help.

He didn't have any black shoes. Even a boot knows you can't wear tan oxfords with gold-braid blues.

The train crew volunteered all the black shoes they could find. Mike Bies, the chef, saved the day. He fits the admiral perfectly.

"Now I can follow in the admiral's footsteps," he quipped.

TOURNEY RECAP.....ComMar's victory Wednesday night over the 109th SeaBees rang down the curtain on a colorful tournament that was from every standpoint a big success. Sports on Guam have a two-fold purpose, the most important of which is the recreation it provides the spectators.....though the players themselves undoubtedly consider the winning or the losing of the team more important than the size of the crowd..the fact remains that many events are planned to take place where the largest crowd can be accomodated....the cage tourney was tops in both.

* * * * * *

The final series was a beautiful display of defense....the SeaBees, never a high scoring outfit, were stymied completely in the final game ...Very seldom did they get in close enough to take a good shot and did most of their scoring on long set shots and rebounds....In turn, the SeaBees bottled up the ComMar fast break more effectively than any other team has done so far this season in all but the last game... The fast break of ComMar seems to gather momentum as it gets moving... They were still going away Wednesday night as the game ended ...In the first two games, however, the offense was slowed down to a complete stop several times and deceptiveness was not there until the finale.

* * * * * * *

We'll try to give you the highlights of the tournament as we saw it: Outstanding player of the tourney: Ken Fons and we'll argue with anyone on that one. Though he didn't run up his usual unbelieveable scoring total, he was the high scorer in all but one of ComMar's tournament appearances and in addition played some of the best defensive ball he's turned in all year. Close behind Fons were Jack Argotsinger of the SeaBees and Cy Cassidy of NavBks-RecSta. Most heartbroken: Again Jack Argotsinger was feeling mighty low after the final game.

Biggest surprise: It's about a tossup between the SeaBees and NavBks-RecSta. The SeaBees for the great showing they made and the Receiving Station crew because it lost two straight and was dropped from the tourney.

Jim Thorpe Named on Two All-Time Great Football Teams

CINCINNATTI, —(UP)— Jim Thorpe, the galloping left half who made football history with Carlisle, Pa., Indians, was named to two all-time great football teams selected by James N. Young, senior editor of Colliers magazine.

Young, in an article written for MacGregor Goldsmith's Sportsvue magazine, named Thorpe on the modern team, made up of players who have played since 1912 and an old-time team, made up of men who played prior to 1912.

Old Team

LE	Hinkey	(Yale)
LT	Curtis	(Michigan)
LG	Heffelfinger	(Yale)
C	Schultz	(Michigan)
RG	Hare	(Pennslyvania)
RT	Horr	(Syracuse)
RE	Shelvin	(Yale)
QB	Eckersall	(Chicago)
LH	Thorpe	(Carlisle)
RH	Heston	(Michigan)
FB	Coy	(Yale)

Modern Team

LE	Hutson	(Alabama)
LT	Hubbard	(Geneva)
LG	Fortmann	(Colgate)
C	Hein	(Washington State)
RG	Musso	(Millikin)
RT	Henry	(Wash. & Jefferson)
RE	Muller	(California)
QB	Clark	(Colorado College)
LH	Thorpe	(Carlisle)
RH	Strong	(New York Uni.)
FB	Nagurski	(Minnesota)

Modern all-time coaches: Knute Rockne (Notre Dame); Glenn S. Warner (Cornell, Stanford and others); Lou Little (Columbia); and Percy Haughton (Harvard).

Old-time coaches: Amos Alonzo Stagg (Chicago); Fielding H. Yost (Michigan); Walter Camp (Yale); and Dr. Henry L. Williams (Minnesota).

Dean Sensanbaugher Signed by Browns

CLEVELAND, Jan. 8 —(UP)— Coach Paul Brown of the Cleveland Browns announced today that his All-America Conference team has signed Ohio State Halfback Dean Sensanbaugher to a professional football contract and will use him at right half next season.

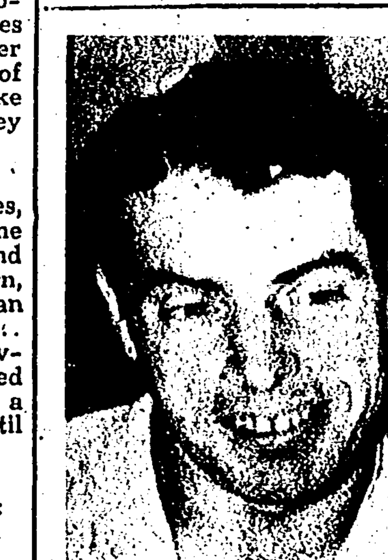
Ted Williams, Joe DiMaggio Sign 1948 Contracts; Both Get Salary Boosts



Joe DiMaggio (AP Photo)

NEW YORK, Jan. 8 —(UP)— Ted Williams and Joe DiMaggio bumped into each others' headlines today in an off-season journalistic crack-up by which, through somebody's bad timing, they both came to 1948 salary terms on the same day.

The premier American League sluggers both got fat raises' too, as befitted outstanding performances in the 1947 season which found DiMaggio of the Yanees getting the league's most valuable player award by one tenth place vote over Williams of the Red Sox.

Williams' salary represented a $5,000 boost from his 1947 figure and was granted without even long-distance haggling in view of the fact that he earned his keep and then some by leading the league in batting with a .343 mark, in home runs with 32, in runs batted in with 114, and in runs scored with 125.

Actually, steady Teddy wasn't down on the dotted line as was DiMaggio and there seemed a remote chance that he might kick up a little fuss over a few provisions, but Cronin said that he wasn't concerned about it.

Beat Bubble-gum

DiMaggio, who had an even bigger post-war comeback last summer than bubble gum, was rewarded with his first raise in six years, an increase of $21,250 over his previous salary of $43,750.

He followed by only a few days his outfield colleague, Tommy Henrich, in signing up for 1948 and Henrich, too, received substantial increase.

The Yankee payroll on the basis of the raises to DiMaggio and Henrich and to other players who already have signed for 1948, was expected to go over $500,000, which would represent an all-time major league high, exceeding even that of the New York club in the heyday of Babe Ruth, who made $80,000 a year by himself.

Thus with the Yankees owners setting the pace in the salary league as their players did in winning the 1947 world championships, there were general indications that next season's major league payroll would be the highest of all time.

Ted Takes $80,000

Williams, the Bean-Town beanpole with the fat bat, settled up yesterday for $80,000, while DiMaggio, the panky Yankee with the wide stride, had to sign for $65,000, but he got the bigger raise of the two.

Graham Renews Demands for Price Tag on PCL Players

SAN FRANCISCO, Jan. 8 —(UP) —Charles H. Graham, president of the San Francisco Seals, today renewed demands that the majors agree to pay a price of $25,000 for Pacific Coast League players after making players from the league draft-exempt for six years.

"Up to Majors"

"I'm going to make such a proposal at our last meeting later this month at Los Angeles," said Graham. "And if it is approved; then it will be up to the majors to take the next step."

"We are not going to ask the majors for their approval—we are just going to make the announcement of the $25,000 price tag on drafted players. That is entirely up to them."

Graham said he believed that public opinion—both in the East and West—would support the PCL demands.

Naval Academy Athletic Policies Reviewd By NAA

ANNAPOLIS, Md., Jan. 8 —(UP) —A panel of high-ranking Navy officers met today to review U. S. Naval Academy athletic policy and make recommendations for improving the status of Navy teams.

The officers, all members of the Navy Athletic Association, were called into conference by Rear Adm. James A. Holloway, superintendent of the academy.

An academy spokesman said the work of the group would be entirely advisory and that it would report directly to Holloway.

The panel is expected to recommend some changes in the present method of assigning Naval officers to the academy as athletic coaches.

It was reported, however, that Capt. Tom Hamilton would be retained as head football coach despite any recommendation to the contrary.

Unofficially, it was revealed that the conference was called after academy coaches complained that Navy could not compete on an equal footing with institutions which offer inducements for athletes to enroll. The coaches' complaints were given strength by the poor record of the Navy football team during the past two seasons and led directly to calling of the meeting.

NCAA Meeting Gives Attention to Olympic Baseball Petition

NEW YORK, Jan. 8 —(UP)— Shooting for continued United States domination of the Olympics, the NCAA concentrated at its annual meeting today on various phases of the international games and moved toward adding baseball to the Olympic program.

College baseball coaches opened the drive for Olympic baseball when they petitioned the NCAA to assign their association as negotiating agency.

At Least 10 Countries

George Gardner, assistant to U. S. Olympic Committee President Aver Brundage, explained that to be included on the calendar a sport must be played in at least 10 countries. Prospects appeared bright, particularly off the report of Felicio Grosa, athletic director of the University of Puerto Rico.

He disclosed that baseball would be part of the 1950 Pan American Games at Buenos Aires and that nearly 10 nations would compete there. Baseball heretofore has been only an Olympic exhibition.

The executive committee also authorized the boxing committee to alter 1948 tournament rules to meet Olympic standards. The boxing coaches will consider three, instead of two, minute rounds and the use of eight ounce gloves instead of the normal collegiate 12-ounce mittens.

Striving to improve track and field chances in the international games, the track coaches headed by Jim Kelly of Minnesota announced that all races at the NCAA meet at Minneapolis June 18-19 would be metric distances.

The full Olympic yard will be held with two execptions, those being in the marathon, decathlon and the walks.

Harmon, North Field Fives Win

HQ. 20TH AIR FORCE, Jan. 7—Harmon and North Field basketball teams scored victories Monday night on the Headquarters court to begin the second half of Twentieth Air Force's round robin tournament.

In the first contest Harmon beat AACS, 48-37. AACS jumped out to a four point lead in the opening minutes but was quickly overhauled by the Flyers who held the lead thereafter.

North Field took Northwest in the nightcap, 55-47. Both quints concentrated on offensive play with plenty of action under the basket.

Particularly dramatic was the march off the court by one Northwest basketeer late in the game. Evidently disgusted with the opponents' constant lead and a knee which troubled him, the man donned his clothing. This action was worth one free throw on a technical called by the officials.

19th Bombers Take Title

HQ 20TH AIR FORCE, Jan. 7—Keglers from the 19th Bomb Group North Field, won the Guam Bowling League championship Tuesday night at MarBo by beating the HQ. Twentieth contenders by a score of 2259 to 2078. The victors had no trouble in scoring a clean sweep of all three games.

Besides medal presentations to the Bombers, they will enter the new MarBo League to begin play soon in a favored spot.

Members of the team are Master Sgt. Walter C. Bulaga, Sgt. Philip Kowalchuk, Jr., Sgt. Les Lausch, Sgt. Roy Porter and Private First Class Clarence Herman.

Harmon Baseballers 132 Strong

Baseball season is just around the corner and potential ball players at Harmon Field are eager to get in the swing of things. The "first practice day" found 70 volunteers out in the blazing sun "polishing up" the ball diamond. As soon as the field is in shape there will be practice sessions held every day.

30-Man Squad

At present 132 men have reported as baseball players and the first practices with equipment will be held the 10th and 11th of January at Harmon Field. During the course of the tryouts, the squad, consisting of approximately 30 men, will be formed.

Lt. Winfred Weigelt, athletic director, and Mr. Charles Stegura, assistant athletic director, are presently in charge of baseball activities. Mr. Stegura says, "Harmon's squad will be the best in the Far East League."

'Skins Sign Art Pollard

WASHINGTON, Jan. 8 —(UP)— The Washington Redskins of the National Professional Football League tonight announced the signing of Art Pollard, University of Arizona halfback.

Democrats, Republicans Split on Truman Speech

WASHINGTON, Jan. 9 —(UP)— Republicans in Congress met President Truman's 1948 tax-cutting, foreign aid and social welfare program today with an almost-solid wall of charges that it was "dripping with political demagoguery" aimed at holding the Democratic party's leftwing votes.

Democrats, for the most part, lined up behind Party Chairman J. Howard McGrath who said Mr. Truman's message was "above partisanship" and outlined a "practical program of progressive liberalism."

Chief target of the Republican fire was the President's proposal for a $40 cost-of-living tax cut for individuals, with a compensating increase in corporate taxes.

Chairman Harold Knutson, (R—Minn.), of the tax-writing House Ways and Means Committee, said the President's plan was inflationary because it would give lower-income groups more money to buy scarce goods while curbing the productive capacity of business.

Some Democrats agreed with Republicans in their claim that the plan has no chance of adoption. GOP leaders said they would go ahead with their own tax-cutting plan which, they said, would give more relief to lower-bracket taxpayers.

A search for substitute teachers is being made by the Department of Education, it was recently announced.

Applications from qualified elementary and high school teachers now living on Guam are being sought.

Placements for regular teachers is also being considered for the remainder of the year. Applicants should call AT 7131 during the morning of Jan. 12 and 13.

Marshall to Defend Plan Before Congress

WASHINGTON, Jan. 9 —(UP)— Secretary of State George C. Marshall goes before a Congressional committee today to begin his fight for a 51-month pledge of American dollars and goods to check hunger, despair and Communism in Europe.

The gray-haired, soldier-statesman was the first witness called before the Senate Foreign Relations Committee on the European recovery program which bears his name.

Committee Chairman Arthur H. Vandenberg, (R—Mich.), prepared for Marshall's appearance with a last-minute call for "all the details" on the vast, money spending program—the largest peacetime foreign commitment proposed in American history.

The opening of hearings set the stage for an epic Congressional debate on foreign policy, a debate that must be played out against the backdrop of a national election year.

Marshall will tell the Senators much of what President Truman has told Congress before—that the European recovery program is only a "calculated" risk; that it is a risk worth taking as a hopeful investment in peace.

Guam News

Guam, Marianas Islands Saturday, January 10, 1948

President's 'State of Union' Speech

WASHINGTON, Jan. 9 —(UP)— President Truman's State of the Union recommendations to Congress in brief:

1. Taxes.

Give each individual taxpayer a "cost of living" credit of $40, effective Jan. 1, on his 1948 income tax due on March 15, 1949, plus a like credit for his wife and each dependent. This form of "little fellow" tax relief, which would have about the same effect as increasing personal tax exemptions by $100, would cost the government about $3,200,000,000 a year.

The personal tax cut, which the President said is desirable because "the low income group is being pressed very hard," would be offset by increased taxes on corporate profits. Small corporations would be safe guarded against any possible inequities. Mr. Truman gave no details of this plan, but treasury officials said it probably would mean raising the present 38 per cent corporate tax to about 50 per cent.

2. Wages.

The minimum wage under the wage-hour law should be raised to 75 cents an hour from the present "inadequate and obsolete" level of 40 cents.

3. Rents.

Federal rent controls now due to expire Feb. 29, must be extended and strengthened until "we can overcome the present drastic housing shortage."

4. Housing.

The administration stands by its orginal long-range federal housing program, including government aid for public housing for low-income families. Within the next 10 years, Congress "must see that every American family has a decent home."

5. Inflation.

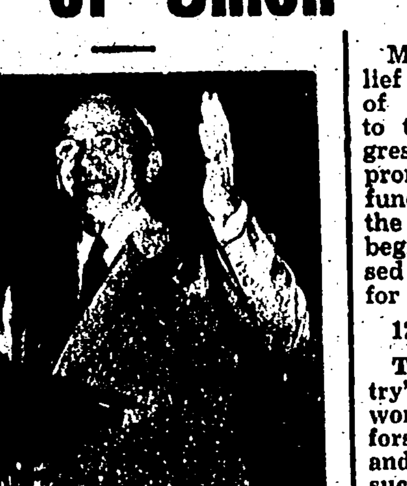
All 10 points of last year's administration anti-inflation program, encluding club-in-the-closet price and rationing controls, are still essential and should be enacted "within the shortest possible time." "High prices must not be our means of rationing."

6. Agriculture.

Continued price supports for major farm commodities; crop insurance; encouragement for farm cooperatives; school lunch programs; rural electrification, and conservation of small resources. The average farmer "is now better off than ever before," but still does not enjoy the high standard of living of city dwellers.

7. Labor-management.

The president voiced the hope "that labor and industry will stop work shortages" that would cut



President Truman (AP Photo)

production, result in a possible boost in the already high cost of living, and deny the "necessities of life" to hard-pressed European peoples.

But he said he had not changed his opinion of the Taft-Hartley law, which he vetoed unsuccessfully last June on the ground that it would lead to widespread labor-management unrest. "As long as it remains the law of the land, however, I shall carry out my constitutional duty to administer it."

8. Business.

Industry should invest at least $51,000,000,000 over the next few years "to improve and extend our productive facilities so free competition must remain the nation's "key" to prosperity, and Congress should protect it by putting up enough money to enforce the anti-trade laws properly.

9. Universal military training.

"A favorable decision by the Congress at an early date is of world importance. I am convinced that such action is vital to the security of this nation and to the maintenance of its leadership."

10. Disarmament.

"We look forward to the day when nations will decrease their armaments. Yet so long as there remains serious opposition to the idealism of a peaceful world, we must maintain strong armed forces."

11. The Marshall plan for European recovery.

Mr. Truman reaffirmed his belief in "the soundness and promise of this proposal," which he sent to the emergency session of Congress in December. He urged prompt approval of the initial fund of $6,800,000,000 to finance the plan for the first 15 months beginning April 1. And he promised a special message later on aid for China.

12. United Nations.

The President pledged the country's continued, full support to the world organization, despite its "unforseen and unwelcome difficulties," and he is "confident of its ultimate success."

13. Civil Rights.

A special message will be sent to Congress "on this important subject." Meantime, the nation's first goal in the achievement of a "glorious future" is "to secure fully the essential human rights of our citizens."

14. Social Benefits

Extension of unemployment compensation, old age benefits, and survivors' benefits—with increased payments for all; Federal health insurance, and a government-financed national education program.

"The government's program for health and education are of such great importance to our democracy that we should now establish an executive department for their administration," Mr. Truman said.

15. Statehood.

"I believe the time has come for Alaska and Hawaii to be admitted to the Union as states."

16. Reciprocal Trade.

Extension of the Reciprocal Trade Agreements Act, now due to expire in June, "is of extreme importance."

17. Displaced persons.

The President renewed his plea for enactment of laws "at once so that this nation may do its share in caring for homeless and suffering refugees of all faiths."

18. Natural resources of the United States.

Stockpiling of scarce materials; erosion control reclamation expansion; forestry cultivation and greater development of "multiple purpose dams on our great rivers.

19. World Peace.

The United States is walking the path that leads to peace, not war. "We are fighting poverty, hunger and suffering.... we are building toward a world where all nations, large and small alike, may live free from fear of aggression... above all else, we are striving to achieve a concord among the peoples of the world based upon the dignity of the individual and the brotherhood of man."

UN Commission Well Received

SEOUL, Korea, Jan. 9 —(UP)— Cheered by thousands of flag-waving, torch-bearing Koreans and hailed as "apostles of international justice," 27 members of the United Nations special commission on Korea arrived here today, hopeful of cooperation from the Russians and determined to hold general elections throughout this divided land.

Most of the natives who stood two and three deep along the colorful nine-mile route from Kimpo airport to the heart of Seoul were political Rightists. The Communists and their friends apparently had been told to stay home.

The four delegates of the UN group did not arrive today. The Canadian and French representatives were expected this week end, in time for the first commission session, Jan. 12. El Salvador has not named its delegate. The Soviet Ukraine has failed to say whether it will join the commission or not.

Senate Investigates Henry Morgenthau

WASHINGTON, Jan. 9 —(UP)— Senate investigators sought today to find out if Henry Morgenthau, Jr., was speculating in grain while he was a member of the President's cabinet.

They said they would call him for a public accounting if he was.

Chairman Homer Ferguson (R-Mich.) of a Senate subcommittee investigating speculation, gave the order to "dig deeper" into the former secretary of the treasury's grain trading activities following a closed meeting at which Edwin W. Pauley's business manager was questioned.

Ferguson said the committee was trying to clear up the "complicated account" of the extensive speculations of Pauley, special assistant to Secretary of Army Kenneth C. Royall and former treasurer of the Democratic national committee.

Palestine Commission Meets For First Time

LAKE SUCCESS, N.Y., Jan. 9 —(UP)— The United Nations Palestine commission will meet for the first time tomorrow, faced with the problem of its own protection as well as the protection of the people of Palestine.

UN Secretary-General Trygve Lie said today he would place the security problem before the commission as soon as it meets.

The five-nation commission, charged with administering the partition of Palestine, fears it will be greeted by a hail of Arab bullets as soon as it reaches Palestine.

A high Canadian official in Ottawa proposed today that UN recruit a brigade; or even a division, of volunteers to protect the commission.

As erroneously reported to GUAM NEWS, the body which was recovered last Sunday noon was not Julian Henry, but Julian Henry Strayhorn, S1, USN from FasRon 13.

Jerusalem Riots

JERUSALEM, Palestine, Jan. 9—(UP)— Jewish and Arab riflemen fought from noon to dusk today inside Jerusalem and the British used armored cars in a vain attempt to break up the shooting in which bullets whizzed past their military and government headquarters.

Despite all the noise and shots fired, only two persons were reported killed—both Jews. A total of 11 fatalities for all Palestine today was reported. They included Jews, Arabs, British, one Pole a cousin of the grand mufti of Jerusalem.

When the British brought up their armored cars, they succeeded only in drawing fire from both sides. Bullets sang around the King David Hotel, British military and government headquarters.

Authorities Checking On Savannah Crash

SAVANNAH, Ga., Jan. 9 —(UP) —Authorities today investigated claims of survivors that they had tried unsuccessfully to cancel their reservation on a chartered DC-3 airliner that crashed near here yesterday, killing 17 persons and injuring nine.

The converted Army C-47, enroute from Newark, N. J., to Puerto Rico, crashed and burned in swampy marshes near the mouth of the Savannah river.

Of the dead, 14 were Puerto Ricans from the New York area making a pilgrimage to their homeland. Another was plane captain Aldioni Antoniollo.

Top other bodies, burned to a crisp were said to be those of U. S. internal revenue agents picked up in Philadelphia. They were burned so badly that they were not immediately indentifiable.

Weather Forecast

Partly cloudy with scattered moderate showers. Winds moderate easterly with fresh gusts in showers.

Yesterday's temperature: Max. 86; Min. 78.

Yesterday's rainfall: 0.06.

Rainfall for month: 1.20.

No Progress, Wallace

NEW YORK, Jan. 9 —(UP)— Presidential aspirant Henry Wallace said today that President Truman's State of the Union message "set the same objectives he set in 1946."

"If he were president in 1958 he would still be asking for the same objectives," Wallace said. "No progress would have been made by that time. He does not call for repeal of the Taft-Hartley act."

Against Training

Wallace said he was "wholeheartedly against" military training. He charged that "once again he (Truman) makes it clear the Democratic high command is for backing up reactionary governments at the expense of the American people and at the risk of war."

Marines Support Troops at Trieste

SAN FRANCISCO, Jan. 9 —(UP) —Adm. Chester W. Nimitz said today American Marines were sent to the Mediterranean to give "visible evidence" of strong support to U. S. troops at Trieste.

In a statement in which he also amplified a Washington announcement that the Navy is developing carriers and carrier-based planes capable of carrying the atom bomb, the retired chief of Naval operations said the Navy wants to keep its personnel at full strength in the Mediterranean.

The Navy itself is short of men, he explained at a press conference, and to bring the complements of its ships to full strength has substituted Marines for Navy personnel.

But, he added, "wherever the United States has armed forces ashore, they are entitled to visible evidence of strong support close at hand."

British Draft Slowing Down

LONDON, Jan. 9 —(UP)— Britain's first peacetime industrial draft slowed down today, as informed quarters reported that the barrel had been scraped nearly clean of the first conscription group. The registration remains far short of the 500,000 goal.

Spokesmen said the scheme of conscripting all non-essential workers, starting with street peddlers this week, would prove of little help in filling the half-million essential jobs in the nation's battle for economic recovery.

Conservative, liberal and independent political leaders and newspapers already were denouncing the program, which went into effect Monday, as both a dangerous encroachment on personal freedom and as relatively ineffective.

Stolen Safe Containing $3,500 Recovered

HQ. 46TH FIGHTER WING, Guam Jan. 9 — A safe which contained approximately $3500 was stolen New Year's Eve from Headquarters and Base Service Squadron, Northwest Air Base, and was recovered yesterday.

A tip from an unidentified source was followed through by Military Police. The safe was found empty and demolished in the jungle near Northwest Field. $1765 was found in a book and $1,731 was found in a mess kit presumably belonging to the alleged theives. The location of the remaining contents of the safe was ascertained.

Cpls. John M. Bayus and George D. Prujillo of the 1938th Engineer Aviation Utilities Co. are being held for formal investigation and court-martial. They have both made voluntary confessions to the crime.

It may take years for the person seriously crippled by polio to regain the greatest possible use of his body. Sometimes surgery is necessary. Local chapters often help pay expenses for such cases for many years. Chapters cannot provide aid for crippling caused by anything but polio.

Wet And Dry Forces Battle

WASHINGTON —(UP)— Wet and dry forces, which fought out the legal liquor question in 769 local option elections in 21 states last year, tangled again in a battle of statistics.

Distilling Industry spokesmen claimed that 1947 brought "the first wet gains since repeal."

Prohibition groups countered that the past 12 months produced new victories for their campaign to dry the country a community at a time.

To back up their rival claims, the wets used population figures, while the drys counted areas.

The distilled spirits institute reported a net gain of about 150,000 persons in the "wet population" —those living in areas where the sale of hard liquor is legal.

Confirms Figures

The institute, which represents most of the nation's big whisky-makers, said it was officially confirmed figures from state governments showing that the steady dry progress of the past 14 years was halted, and even thrown into reverse, last year.

"In 1945," the spokesman said, "local option elections dried up areas in which 311,293 Americans lived. In 1946, there was a gain in the total dry population of 285,309. But this year, the tables were turned and the wet population showed an increase for the first time since 1933."

Exact figures on the wet gains, the spokesman said, will be published in an institute report scheduled for issuance next week.

Dry successes in 1947 were reported by Mrs. D., Leigh Colvin, president of the Women's Christian Temperance Union, and by Research Secretary Lauca Lindley of the Anti-Saloon League.

Mrs. Colvin estimated that the number of legally dry areas "jumped about 500" during 1947 as a result of local option elections. She said the year had brought abundant evidence of a "new trend toward temperance," and predicted that still more areas would be dried up in 1947.

If chapters exhaust their funds in epidemics, the national foundation advances money to cover expenses; mobilizes trained personnel; locates and sends needed equipment; sends trained teams of polio fighters to assist local health officers, if requested.

BuPers Clarifies Naval Reserve

(SEA)—Misunderstanding in some Naval districts as to the peacetime mission of the Naval Resgrve has caused BuPers to issue clarification of the aims of the reserve.

"The organized Naval Reserve is primarily a training organization," the BuPers multiple address letter began. "Its mission is to train specified numbers of personnel to fill the billets which mobilization will entail.

"It is not desired that military functions such as mustering, inspection, announcements, roll call, etc., be allowed to prevent devoting a maximum of the drill period to training reservists in their rates of classifications.

"Classifications of the division's commanding officer (should) correspond to the major type of enlisted training to be performed by the four eight rating groups allocated to the division. For example, this officer's classification should contain a "T" or "C" if electronic warfare training predominates in the division.

PRIZE WINNER—Brigadier General E. A. Craig, commanding general of the 1st Marine Brigade, presents a check of fifty dollars to Private Woodrow Ballestro of "B" company, 5th Marines, for winning the name contest to title the newly constructed enlisted men's club on that base. Ballestro's choice was "Tun Tavern II", named after the famous Philadelphia Tun Tavern, the birthplace of the Marine Corps. First Lieutenant S. P. Barr Jr., officer in charge of the club, stands at the right. (Marine Corps Photo)

Make Mine a Pineapple Sundae

Hq. 20th. A.F.—Averaging about 100 gallons of ice cream six days a week is the production quota of the 20th Air Force ice cream plant situated in the headquarters area of the 20th Air Force.

The manufacture of ice cream is a fairly simple process involving the adding of water to the prepared mix which comes in gallon tins from the States. To eight gallons of mix, nine gallons of water are added and after a thorough mixing it is placed into four Taylor freezers, where it is properly frozen into a rich, creamy ice cream.

The flavor is always vanilla unless the mess hall provides their own flavoring. The present high cost of chocolate has put a crimp into that particularly popular flavor.

The plant provides ice cream for four mess halls on a rotation basis, which gives them ice cream at least once a week, and in many cases twice a week. Any officer or dependents of both officers and enlisted men may come directly to the plant and purchase ice cream, the minimum amount being one gallon.

Cpl. Ralph Bright is the NCO in charge, with three assistants: Pfc Raymond Aguirre, Pfc Wilburn Blanton, T-5 Herman Hawkins.

This week, because of arrival of crushed pineapple, the ice cream will be flavored with that fruit for the mess halls only.

Harvard Yard Co-Ed

CAMBRIDGE, Mass. —(UP)— Harvard Yard—long a stronghold of masculinity—looks like a co-ed campus this year.

In 1941, the Harvard faculty voted to admit Radcliffe College students to the graduate school of arts and sciences. But it wasn't until recently—when girls were required to attend classes in the yard—that the invasion really began.

MARBO: The next class for the department of the Army Officer Candidate class is May 6, with the starting date on May 10, 1948. The last date for submitting applications to headquarters for this class is March 15, 1948.

Guam Congress Session Summarized

At the December session of the Guam Congress a resolution was passed which makes all bills by the Guam Congress effective upon the first day of the month following the date upon which such bill is approved by the governor.

The code of civil procedure, entitled "Attorneys and Counselors at Law" was revoked and changed to "Attorneys and the Practice of Law."

It provided for a board of legal examiners, qualifications for admission to practice law, duties of attorneys, disciplinary authority of the board of examiners and the right of appeal.

The civil regulations with the force and effect of law on Guam were amended by the Congress with the addition of a chapter entitled "Medical Practice Act of Guam."

The new law covers all phases of medical practice, practitioners, licenses, qualifications, etc. Complete details may be obtained at the Naval Government Department of Health.

Perhaps the most far reaching of the acts of the December session of Congress was the bill for creation of a new "traffic code for the Island of Guam."

This new act is now effect, and everyone is urged to familiarize themselves with its provisions.

See Your ESO First

USAFI—Large numbers of Naval personnel have been reported bypassing their command Educational Services Offices and going directly to the USAFI office to make their applications for schooling. Thus, the commanding ESO has no way of knowing what is going on in his command and cannot properly make the educational services quarterly report.

In the future USAFI will not honor any application for a course or a test, unless the application blank bears the command ESO's signature or approval. (For a test application, the ESO should sign his name on the upper left hand corner of the application blank.)

If polio strikes, call your doctor at once if any of these symptoms appear. Call him even for a slight illness, expert medical care may help prevent crippling.

New U. S. Half Dollar

WASHINGTON—(UP) — A new half-dollar bearing the likeness of Benjamin Franklin on one side and the Liberty Bell on the reverse, is being minted for nationwide issuance in the next few weeks.

Except for limited, special issue, it is the first new design in 50-cent pieces since 1916, when the present coin, (with a "Liberty Lady" and an eagle on the respective faces) was minted.

Secretary of the Treasury John W. Snyder, proud owner of the first two Franklin half-dollars struck from the dies, said the great Revolutionary War patriot was chosen for the honor in part because he was and ardent advocate of thrift.

"Well fancy meeting you he', Ensign McHenly . . I didn't know Irma, had a kid sister!"

Chief of Police Urges Use of Bank

AGANA—"If the people would deposit their money in the Bank of Guam instead of keeping it at their home, it would certainly make my duties a lot simpler," said the chief of police.

"As a background for my above statement, let me cite you a case that happened recently. A resident of Toto village reported a theft of $950 from her home. Fortunately, this party reported her loss promptly and we were able to apprehend the "unauthorized taker." But not before many man hours were expended in police efforts. This, as in other cases, might have been avoided if we all used the facilities of the bank."

Bank of Guam

The Bank of Guam is a sound banking institution, providing the population of Guam normal banking facilities, including savings and checking deposit accounts. On savings deposits the bank pays 1½ per cent interest per annum on a semi-annual basis. This means that on each $100 left with the Bank of Guam for a full year the depositor will receive $1.50 in interest. Checking account deposits would best serve business firms, providing security for their money and ease of paying their obligations.

Bishop Baumgartner said in an interview some time ago that it is his desire that the "people of Guam make greater use of the bank," and that he knows of no better way to save money both from the viewpoint of good business and security. He wants them to know that the Bank of Guam is just a "safe as the government of the United States."

(Sea)—New Director of Naval Reserve will be Rear Admiral Ralph Smith Riggs, USN, who succeeds Rear Admiral John E. Gingrich, USN. Rear Admiral Gingrich was recently appointed Director of Security and Intelligence of the U. S. Atomic Energy Commission.

Over The Joepot

by Bill Jury

The fate of Guam's chances of winning the WesPac championship in basketball hangs in the balance while three likely starters wait word concerning their trip to the Olympic tryouts at Annapolis.

The three cagers mentioned, almost sure bets of landing on the Guam team, are Ken Fons of ComMar, Red Edwards and Lew Arey of NavBks-RecSta. All three have been recommended to tryout for the big time at Annapolis and while they're due to leave around the 15th of this month they have yet to receive their orders, etc.

While it will be a big break for them, at the same time it's going to be a definite blow to Guam's chances to go all the way in the All Navy classic.

If they fail to get the go-ahead in time to make it to Annapolis, or they decide against going in preference to competing in the Navy playoffs, the home team has a pretty good chance of going to Pearl and further.

Ensign Potts, stellar guard for the U.S.S. Hector while they were in the Southern League this season, has given us a sneak preview of some of the competition Guam must wade through in the coming WesPac playoffs. The good ship Hector roamed up and down the coast of Japan and China for a spell and during this time had a chance to play some of the top squads in the area. They did all right, apparently, for they went through 30 games undefeated.

Another measuring stick can be used when you remember the U.S.S. Randall's meeting with Guam's NavBks-RecSta squad. The Southern champs rolled to an impressive win over the Randallites. Not bad, when you consider the Randall crew toppled the Sub Base aggregation in Pearl Harbor earlier.

Things look rosy for Guam's quintet and if Fons, Arey and Edwards stick around for awhile you're going to see some mighty fine ball playing.

Word has gotten around that Fons isn't too keen on the Annapolis jaunt anyhow, as he would enjoy getting a crack at the All-Navy clambake. Down south, Chief H. W. Douglas has hopes of talking Edwards and Arey out of leaving, but until things are ironed out definitely, the Guam backers are going to spend a few sleepless nights.

Too Bad Irish, Michigan Could Not Play -- Leahy

KINGSTON, N. Y., Jan. 9 —(UP)—Coach Frank Leahy, in a properly expansive post-season mood, admitted it was too bad that his "great Notre Dame team" could not have played the "great Michigan team, which had great coaching and great spirit that made them a great team to beat."

"Michigan was second to none," he said. "But the Irish would have welcomed the chance to meet the Wolverines any time or any place."

Leahy, touching upon the terminated traditional series between the Irish and Army's Cadets, said that although the schools had not entered into any negotiations, "It is my opinion that the series will be resumed in the not too distant future."

Speaking before a group of athletic officials, Leahy made it plain he had no intention of entering the professional coaching ranks.

"I consider it a great honor and privilege to serve Notre Dame as coach and director of athletics," he said. "I can't think of a higher honor and hope to carry on for Notre Dame for a long, long time."

Frank Leahy (AP Photo)

Maxim 9-5 over Tandberg

NEW YORK, Jan. 9 —(UP)—Joey Maxim, Cleveland "cutie" was favored at 9-5 today to spoil the American debut of Olle Tandberg, Sweden's heavyweight contender, in their international 10-round bout at Madison Square Garden tomorrow night.

Maxim was favored despite the fact that he will be spotting the tall, fair-skinned Swede about 27 pounds. The Cleveland Italian expected to scale about 180; Tandberg, about 207.

Snuffy Stirnweiss Signed

NEW YORK, Jan. 9 —(UP)—The New York Yankees announced tonight that they have signed Second Baseman George (Snuffy) Stirnweiss, one of the sparkplugs of the World Series victory over Brooklyn to a 1948 contract.

Commissioner Bert Bell Says NFL Rules Committee Will Consider Drastic Changes

PHILADELPHIA —(UP)— Commissioner Bert Bell said that National Football League rules committee will consider drastic scoring changes which would eliminate all tie games and the point after touchdown when it convenes in New York on Wednesday.

Bell said he would recommend adoption of the "sudden death" extra period proviso as a regular feature of all league games. The committee also will study legislation to wipe the extra point from its scoring rules.

The "sudden death" calls for the flip of a coin to determine choice of kicking or receiving in the extra period if a game ended in a tie. A new game is started immediately and the first team to score a touchdown, field goal or safety is the winner. The "sudden death" proviso is in effect now for the National League championship playoff game.

Bell said Luke Johnson, assistant coach of the Chicago Bears, made the suggestion to eliminate the extra point.

The controversial rule—now frequently judged by the position of the blocker after the play is completed—also will receive committee consideration, Bell said.

The amended rule to be considered would enable a blocker going in the same direction as an opponent, with his head in advance of the opponent, to contact the player from behind with any other part of his body. Sponsors said this will prevent a man about to be blocked from turning into the block and drawing a penalty.

Clown Prince Al Schacht Claims Managing Toughest Job in Baseball

NEW YORK —(UP)— The tough-job in baseball, according to Al Schacht, is managing a ball club.

"And I ain't clowning about that, either," insists baseball's clown prince.

Schacht, got his chance to manage while serving as a coach with the Washington Senators.

"It was near the end of the season," he explains, "and Manager Joe Cronin had to leave the club for a few days. 'Schacht, you run the team until I get back,' he tells me. I ran it all right—almost into the ground.

"We pull into Philly one day for a three-game series with the A's and I find myself stuck for catchers. Rick Ferrell is out with a torn ligament. The other kid catcher I have, Cliff Bolton, can't help me out because his middle finger is split wider than the Democrats and Republicans.

"All I can do is use my bullpen catcher, Moe Berg. I run around askin' everybody if they know where he is, but everybody dummies up. Finally, I get hold of some third-string pitcher and I ask him whether he knows where Berg is. He tells me that Berg is in New York.

"We go to the ballpark and who do you think breezes in during batting practice? That's right—Berg!

"I say to him 'Moe, I'm so glad to see you that I ain't even going to bawl you out. You know you're catchin' today. Don'tcha?'

"I explain that I'm not goofy and Berg curses a little but he agrees to put on the tools of ignorance, anyway.

"I start a left-hander named Walter Stewart on the mound. Now all southpaws got a right to be crazy but this guy abuses the privilege. When he's got his stuff, he's great, but when he hasn't got it, he's terrible. Only he never wants to come out of the ballgame when you come to tell him he's finished.

Everything goes great for eight innings and then Philadelphia gets two men on base. We're ahead by two-runs at this point. The next guy up singles and I signal for Jack Russell to warm up.

"No sooner does Russell get started in the bullpen than the next hitter cracks a single to right field.

"I see the handwriting on the wall so I call time. I know that Stewart has had enough, but I can tell from where I'm sitting that he isn't ready to admit it.

"I walk out to the mound and say 'tough luck, Walter. You'll get 'em next time. Better give me the ball now.'

"'Beat it,' Stewart says. 'I started this one and I'm going to finish. Are you trying to make a monkey out of me?'

"I try to reason with him but it's impossible. Umpire Bill McGowan comes over and tells me to make up my mind who I want to pitch. I tell him my mind is made up long ago, but so is Stewart's.

"I never do get that guy out of the box and we lose the game," Schacht confessed. "It was awful glad when Cronin finally came back."

Jim Brown to Manage Pirate Farm Club

NEW ORLEANS, —(UP)— The Pittsburgh Pirates named Jimmy Brown, former St. Louis Cardinal infielder, manager of the New Orleans Pelicans of the Southern Association.

Ray Kennedy, general manager of the Pirates' 10-club farm system, said the appointment of Brown was Pittsburgh's first move to give New Orleans a winning baseball team next season.

The expanding Pittsburgh organization purchased the Pelicans from A. B. Freeman, New Orleans soft drink bottler, last month. Kennedy said the Pirates also had added Davenport, Ia., of the Three-I League to their list of farm clubs.

Brown, who arrived in New Orleans today with Kennedy for the formal announcement, managed the Indianapolis team on the American Association, another Pirate farm club, last season and finished sixth.

Louis Signed up For Probably Last Title Defense

NEW YORK, Jan. 9 —(UP)— Heavyweight Champion Joe Louis signed today to defend his world title, probably for the last time, against Jersey Joe Walcott or "another suitable contender that the 20th Sentury Club could produce at a New York ball park next June.

Louis' contract, which calls for him to receive 40 percent of all net receipts, including gate, radio, television and movies, is believed to be the most generous ever offered a contestant in an outdoor fight by the 20 Century Club. Observers estimated that return Louis-Walcott fight would draw $1,500,000.

Sol Strauss, acting director of the 20th Century Club, said that his next move would be an attempt to sign Walcott, the 33-year-old Camden, N. J., Negro battler, who almost dethroned Louis at Madison Square Garden on Dec. 5. Strauss said he hoped to stage the match at Yankee Stadium on June 23.

Bing Crosby Charity Golf Tournament Opens

DEL MONTE, Cal., Jan. 9 —(UP)— The oddest field in the history of a top-flight golf tournament will tee off tomorrow in the annual Bing Crosby $10,000 National Pro-Amateur Meet.

Headlined by such top-flight shotmakers as Jimmy Demaret, Ben Hogan, Sam Snead, Lou Worsham, Jim Ferrier and Lloyd Mangrum, the field also includes movie actors, prize fight champions, football stars and baseball executives.

It's all for charity—and that's why the big names lending a supporting hand. Crosby furnishes the $10,000 in prizes and pays all other expenses. Every nickel of the gross receipts will go to charity—half to the Sister Kenny Foundation and half to the area's community chest.

The defending championship pair is slammin' Sam Snead and his amateur partner, Roger Kelly of Los Angeles.

However, this duo is not the favorite to retain the crown. That role is held by Bobby Locke, the South African sharpshooter, who teams with Frank (Muscleman) Stranahan, one of the world's best simon-pures from Toledo, O.

Ski's Run Makes Him UN Delegate

SYRACUSE, N. Y., Jan. 9 —(UP)—Students in a political science quiz at Syracuse University today were asked whether 1. Vichinsky, 2. Gromyko, 3. Slovenski, is a Russian delegate to the United Nations.

Slovenski is Walter (Sliver) Slovenski, the wingback on the Syracuse football team who raced 65 yards through the entire Colgate team for the winning touchdown in last season's traditional game with Colgate.

Better than 48 per cent of the students circled Slovenski's name.

Asked by what manner of logic they can do such a thing, the stock reply is that "what contributions for a better world have the Russians made that surpass Slovenski's great deed?"

474th Signal, North Field Fives Deadlocked

The 474th Signal "Gamecocks" and the North Field quintet forged into a tied tournament lead with records of two wins and no losses apiece as each team won games on the Headquarters basketball court Thursday night.

Playing their neighbors, the 514th "Typhoon Chasers," North came out on the top end of a 50 to 31 score in the first game. Representing Headquarters, the "Gamecocks" took the 811th Engineers in the second contest, 43 to 21.

Undefeated in the first half of the tournament, the men from 474th fielded their second team to play most of the contest with the hard-fighting but cellar-dwelling Engineers.

SYRACUSE, N. Y.—(UP)—Plans for Syracuse University's new gymnasium call for an expenditure of almost $4,000,000.

Calumet's Citation Voted Best Bet

NEW YORK —(UP)— Calumet Farm's Citation, the champion juvenile of 1947, has been selected as the two-year-old most likely to succeed by two of the country's leading racing secretaries.

John B. Campbell, who assigns weights at the New York tracks and Charles J. McLennan who has the same job at several Maryland, New Jersey and Florida plants agreed that the brilliant colt, winner of eight of his nine starts, has the stuff to add to his impressive record next year.

Campbell is certain to assign Citation top weight in his experimental handicap listings which will be released some time next month. Cosmic Bomb and Double Jay shared this honor with first flight last year and only first flight failed to finnish near the top of the division when all the votes were in.

Wedemeyer Gets Pro Contract With L. A. Dons

LOS ANGELES, Jan. 7 —(UP)— Herman Wedemeyer, former All-America halfback at St. Mary's has signed a two-year contract with the Los Angeles Dons, Club President Don Ameche announced today.

Ameche refused to say how much the All-America Conference team would pay the Hawaiian ace, but unofficial reports placed the amount at $25,000-$30,000 for the two years.

Wedemeyer, operating from the half-back position, would lend a double-edge to the Don's T-formation passing attack. He is also an exceptional runner.

He was an unanimous choice for All-America honors in 1945 and received prominent mention in 1946. Playing behind a mediocre team last season, he executed some brilliant plays and starred for the West in the Shrine Game New Year's Day.

New York Police Seize Would-be Smugglers

NEW YORK, Jan. 10 —(UP)— Three trailer trucks loaded with 138,000 pounds (69 tons) of an explosive six-and-a-half times more powerful than TNT, were seized by police today.

New York state police, tipped off by the FBI, closed in on the three trucks at Lake Katrine, N. Y., while a contingent of New Jersey state police swooped down on a warehouse at Ashbury Park, where they found 52 cases of cambat knives and 50 cases of first aid materials. Explosives and war supplies all were believed destined for the Jewish underground in Palestine.

The drivers of the trucks became suspicious of the freight they were carrying and notified the FBI, police said. One of the trucks was owned by the Jazek Transportation Company, New York City. The other two were driven by their owners.

Makes Big Haul

OAKLAND, Calif., Jan. 10 —(UP)— A tall good-looking gunman posing as a telephone repairman tricked his way into the Piedmont home of socially prominent Mr. and Mrs. J. J. Whitehead, Jr., today and made off with diamond and ruby-studded jewelry valued at nearly $100,000, police reported.

The robber, described as about 26, six-feet two inches tall, with curly hair and a dark mustache, entered the Whitehead residence shortly after breakfast in a pretext of fixing the telephone, Mrs. Whitehead told police.

Her husband, president of the Jud-Whitehead Heater Company, was at his downtown offices in Oakland at the time.

Guam News

Guam, Marianas Islands Sunday, January 11, 1948

Editorial . . . . .

Of late hardly a Sunday or holiday goes by on Guam without the day being marred by a beach tragedy. In the past week seven bodies were recovered from the "Pacific." Four drownings were a quirk of fate, two due to carelessness and one a mystery.

In the major episode, Dame Fate pointed her fickle finger at four would-be rescuers of two stranded people on the reef off of Asan. As Fate had it, the two troubled people are safe today but death claimed the four rescuers. A mystery shrouds the drowning of the popular featherweight boxer from the Air Force, Rex "Hurley" Yarde, who was missing since New Years Eve and was discovered under a crash boat the evening of January 2. The third case was a mishap at Tarague Beach. Carlessness was exhibited when a group of swimmers were caught in an undertow and swept to sea.

Most all these tragedys have resulted because of a lack of appreciation for beaches and disobedience of beach regulations. Island officials are deeply concerned; in fact, the North Field command have shaken their heads and closed Tarague Beach until a more rigid safety plan can be conceived.

A factor, not known to all on the Island, released yesterday by men well acquainted with Marianas waters, revealed that undertow or current is incressed immeasurably by the presence of a storm in nearby waters—ranging from 100 to 200 miles away. Harbor pilots have stated that even at the entrance to Apra Harbor, they sometimes have to "crab" as much as 20 to 25 degrees off the true course because of swells caused by storms which never hit Guam. If a harbor boat has to put up that much fight to combat the surf, it is evident that a human hasn't much of a chance.

But aside from nature's contribution to the disasters, the main cause of theses deaths are human follies. In the case of the Civilian Camp Ethridge, a fine, large swimming pool, the only one on the Island, is in existence But apparently this is not enough, because several drownings have occured when people have ventured out into the ocean beyond the reef. Only the heroic work of a handful of Marines and Camp Manager John McNally and his crew recently saved the lives of a group of adventurous swimmers.

Adequate publicity and warning signs have been posted at all swimming areas. Take heed, swimmers! There are enough safe swimming facilities on Guam which are for your utilization. Disobedience to warnings may lead to your death and also to some innocent bystander who may volunteer his assistance.

Tarague Beach Closed

Tarague Beach will be closed until further notice, it was announced by the North Field Public Information Office yesterday. The reason for the move is because of the beach mishaps which have occured recently.

Marshall Charged With Using 'Propaganda Technique'

WASHINGTON, Jan 10 —(UP)— Sen. Walter F. George, (D—Ga.), charged today that Secretary of State George C. Marshall used the "technique of propaganda" when he told Congress it must provide enough money to meet all the needs of the European recovery program or "not undertake it at all."

"I don't think the State Department is justified in presenting Congress with an absolute alternative," the veteran administration Senator said. "This is the technique of propaganda which I don't quite appreciate myself."

George laid his charge before Lewis W. Douglas, U.S. Ambassador to Britain, who testified before the Senate Foreign Relations Committee in the second day of its hearings on the Marshall Plan. Douglas is in charge of presenting the administration's case to Congress.

He also was told by the Senate's two foreign policy leaders—Senate President Arthur H. Vandenberg, (R—Mich.), and Sen. Tom Connally, (D—Tex.), that aid to the 16 nations of western Europe must be conditioned strictly on an all-out effort by those countries to promote their own recovery. Both Vandenberg and Connally are strong supporters of the program.

Arab Troops Invade Jewish Towns in Palestine

JERUSALEM, Palestine, Jan. 10 —(UP)— Six hundred to 1,000 Arab troops invaded northern Palestine from the Lebanon-Syrian border today and attacked two Jewish towns. They were driven back only after the British had hit their siege lines with warplanes, artillery and mortars.

The British said late today that the Arabs had fallen back across the frontier, but they had reason to believe they would return an "renew the attack." Reports from the mile-square battleground told of British Spitfires shooting up the Arabs with rocket projectiles, and of artillery, mortars and machine guns firing squarely into Arab positions.

Sir Alan Cunningham, British High Commissioner for Palestine, protested to the Syrian government against the attack, showing that the British were convinced it was mounted from Syrian territory. A dispatch from Beirut said, however, that the attackers came from Lebanon.

Fighting around the two settlements under attack—the latter largely inhabited by American Christians—lasted seven hours. The settlements are at the headwaters of the Jordan river, in the narrow, northern extension of Palestine that juts between southern Syria and southern Lebanon.

Unofficial but reliable Arab sources in Jerusalem said the invaders were all Palestine Arabs, who had finished training for the threatened holy war against the Zionists in Syria. British regulations in Palestine do not permit open military training.

Youth Wrecks Train

JONESBORO, Ind., Jan. 10—(UP)—A 16-year-old youth confessed today that he threw a switch which caused derailment of a local passenger train "just so I could see a train wreck."

Four persons were slightly injured when the locomotive and three cars were derailed last night. New York Central officials estimated the damage at $50,000.

State police and the F.B.I. said the youth told them he took a wrench from his home and battered and pried off a padlock on the switch.

"I don't know for sure why I did it," he said, "I guess it was just so I could see a train wreck."

A few minutes later, he said, he became frightened and hurried back to close the switch. But on his way he heard a crash as the train plowed off the track. The locomotive overturned.

Stassen's Charges Challenged by Anderson

WASHINGTON, Jan. 10 —(UP)— Republican presidential aspirant Harold E. Stassen charged today that "about 11" government insiders made $4,000,000 in commodity market gambling and was promptly challenged by Secretary of Agriculture Clinton P. Anderson to prove the allegations.

Stassen made his charges before the Senate inquiry on speculation. He said President Truman's personal physician, Brig. Gen. Wallace H. Graham, had not been "truthful" in claiming he lost money in grain speculation.

Stassen called the roll on Graham, Edwin W. Pauley and Ralph K. Davies, all previously listed as speculators, when administration Senators demanded that he name names. But he declined to name other so-called "insiders" publicly although he was willing to identify them at a closed hearing.

No Judicial Proof

Stassen told the committee he has "information, but not judicial proof," on the men whose names he withheld, and that he did not want to accuse them openly until he has "a court case." He said his information came from certain federal employes who were "disgusted" with the acts of some officials. He added that no Congressmen were on his list.

Anderson questioned Stassen's designation of Pauley, Graham and Davies, wartime deputy petroleum administrator, as "insiders." He said "insiders" are persons who can get hold of information and do something about it. He implied that the three men did not fall in this category.

Police Capture Bank Bandits

NEW ORLEANS, Jan. 10 —(UP)— A five-man bandit gang robbed the Hibernia National Bank's midtown branch of a record $130,000 today, but police got a tip from an unidentified blond and quickly seized three of its members and a large part of the loot.

John Rosselbach, one of the three arrested, had $30,000 of the bank's money cached under the floor of his house, detective chief Joseph Scheuring said. Tommy Ricketts, 21, and his uncle, George W. Ricketts, were arrested in possession of a suitcase full of cash.

Officers held the 35-year-old woman tipster in protective custody. She told them she tried unsuccessfully to warn them of the intended robbery last night after she overheard the gang discussing it for several days.

She said she had been drinking with the gunmen, and after failing to reach police capt. Harry Gregson by telephone last night she "forgot about it." When she called again today the robbery had been perpetrated but she was able to put them on the trail of the bandits, police said.

Altar for White House

EUREKA, Calif., Jan. 10 —(UP)— Dr. Claude A. Watson, prohibition party candidate for president, declared today that if he becomes president he will abolish cocktail bars and poker dens in the White House and substitute an altar.

He told a Eureka audience in a speech last night that there was "no righteousness in Christianity" in the present U. S. government.

Weather Forecast

Generally cloudy with occasional moderate showers. Moderate easterly winds with strong gusts.

Yesterday's Temperatures: Max. 86, Min. 78.

Yesterday's rainfall: None.

Rainfall for month: 1.20 inches.

Eisenhower Endorsed For Republican Candidacy

WASHINGTON, Jan 10 —(UP)— Sen. Charles W. Tobey, (R—N.H.), came out tonight for Gen. Dwight D. Eisenhower for president, and predicted that the Army Chief of Staff would carry the Republican party to a sweeping victory in November.

Tobey, chairman of the influential Senate Banking Committee and a frequent critic of GOP economic policies, announced that he had accepted a directorship in the Draft Eisenhower League, which has its headquarters in New York City.

"For some time," he said in a statement, "I have been giving serious thought as to which man of the several possible and actual candidates for the Republican nomination for president is best qualified to lead this nation in this time of great crisis in national and international affairs.

"I have come to the conclusion that Dwight D. Eisenhower is that man."

The announcement signaled a complete break between the outspoken New Englander and Sen. Robert A. Taft, of Ohio, a leading contender for the GOP presidential nomination. The two men never have seen eye to eye on methods of dealing with the nation's economy.

But Tobey emphasized that he has "only the kindest regards for all other potential or announced candidates."

The first full slate of delegate candidates filed for the New Hampshire presidential preference primary on March 9 was pledged to Eisenhower today, and Tobey timed his announcement to coincide with this "Ike-for-President" movement in his home state.

State Department May Send Guard To Palestine

WASHINGTON, Jan. 10 —(UP)— The State Department disclosed tonight that it is actively considering the possibility of sending "American guards"—either Marine or civilian guards—to Jerusalem to protect the American consulate there.

But it categorically denied reports from London that it has asked or received permission to send Marines to the Holy Land.

Discussions over the possibility of needing American guards in Palestine were initiated by the Palestine government very recently.

The department issued a formal statement on the question upon receipt of news reports from London.

"This government has never asked permission from either the Palestine government or the British government to send Marines to Palestine," it said.

"Reports from London probably arise from the fact that the consulate general in Jerusalem had discussed informally with the Palestine govetrnment the necessity for taking measures to increase the security of the consulate general and property."

During the informal discussions with the Palestine government the question of the necessity for sending American guards arose."

Germans Stage Hunger Strike In Ruhr Area

FRANKFURT, Germany, Jan. 10 —(UP)— Forty-five thousand Germans staged a "hunger" strike in the Ruhr today in a move allied authorities thought might be the opening of a Communist counter-attack against the formation of a central German governmental regime in the United States and British occupation zones.

The strikes were peaceable and there was nothing on the surface to indicate a political motive. But the Russian and German leftist propaganda machines were at work opposing the central regime plan, and allied officials said that while there were legitimate food grievances the Rhur strikes may be political.

Thirty-five Germans walked out of factories in Solingen in the Rhur and 10,000 walked out in Essen. There was also an unrelated wildcat street car strike in Munich in the American zone. Strike leaders intimated that their men in all three cities would be back at work tomorrow.

Six thousand of the Solingen strikers met in the town hall. They demanded punishment of black marketeers and readjustment of the food ration to prevent forgery of ration cards.

Hall Denied to Singer

GARY, Ind., Jan. 10 —(UP)— The school board today denied Negro singer Paul Robeson use of the Roosevelt High School auditorium for a meeting tomorrow, sponsored by the Midwest Committee for the Protection of Foreign Born. The school principal said permission to use the hall was withdrawn when it was learned his concert in a church auditorium. The sponsor said Robeson would speak but the six other speeches had been cancelled.

Shanghai Businessmen Fear Collapse as Prices Skyrocket

SHANGHAI, Jan. 10 —(UP)— Shanghai businessmen feared today that the Shanghai market may be out of control as the worst inflation since last spring's gold panic caused commodity prices to soar.

It was the second day in a row that prices rose, and there was no indication that they would decline. The situation almost duplicated last year's financial crisis which led to stringent emergency economic laws that put many speculators and black market operators in jail.

Black market quotations of U. S. dollars remained fairly steady at 210,000 to $1, the highest on record. Rumors were that the dollar would soar even higher before the Chinese new year on Jan. 19.

On the war fronts, Communist forces at the mouth of the Hai river, the narrow funnel for Tientsin's shipping, threatened to cut off food and coal supplies for Tientsin and Peiping.

Russian Motorship Still in Distress

TOKYO, Jan. 10 —(UP)— The Russian motorship Dvina with 800 persons aboard and six feet of water in her hold weathered rough mountainous seas today apparently under tow, but aerial eyewitness said she seemed to be capsizing.

Lt. L. J. Fitzsimmons, Bloomfield, N. J., pilot of a B-17 rescue plane which flew over the stricken vessel, said Russian patrol boat No. 30 "appeared" to have secured a line to the waterlogged Dvina.

Fitzsimmons, who flew over the Dvina with four American photographers said that "At times she neared close to turning over completely."

Forty to 50 persons were huddled on the bow and fantail of the Dvina, which first reported herself in distress Wednesday, Fitzsimmons said.

AGANA, Jan. 10 — Captain Donald F. Smith, USN, (Ret.) announced today that he had received orders to active duty and expected to leave Guam on January 13 for his new assignment.

Since being on inactive duty, Captain Smith has headed the Mid-Pacific Liquor Distributing Corporation with offices in the Triangle building on Marine Drive in Agana.

Latest U.S. Air Force, Navy War Planes

Majority of Planes in Experimental Stage

by Charles Corddry
United Press Staff Correspondent

WASHINGTON —(UP)— An almost bewildering number of spectacular new military planes have been introduced in recent months. So many that even aviation experts are hard put to keep with developments.

It must be remembered, however that these planes are not any indication of the nation's military strength. Many are not yet part of the combat Air Forces. Most are experimental planes-designated as "X" planes. Most are limited in production, many only to three planes.

Here are the latest U. S. Air Force and Navy planes by category:

JET AND ROCKET RESEARCH AIRCRAFT

Bell XS-1.—Rocket-powered. In flight tests at Muroc, Cal., has approached the speed of sound. Designed to fly up to twice the speed of sound, which is 763 miles an hour at sea level. It is an Air Force plane.

Bell XS-2. — Rocket-powered. Successor to XS-1. Now under construction. Will have swept-back wings which are expected to reduce the shock at the speed of sound.

Douglas D-558-2 Skyrocket.—A rocket-powered swept-back sister of the Skystreak. Also has a jet engine. The Navy says it should fly 650 to 750 miles an hour in tests to start soon.

Douglas XS-3.—Being designed for the Air Force. Supposed to be designed for two to three times sonic speed with an altitude ceiling of 200,000 to 300,000 feet.

The above are not combat planes. They are flying laboratories from which the services hope to obtain design data for practical supersonic combat planes.

BOMBERS

While the Air Force would rely on the Boeing B-29 Superfort if it had to fight, it has these bombers coming along:

Boeing B-50.—Adapted from B-29 Superfortress but with more range, bomb capacity and speed. There are 133 on order and the first few should be turned over soon to the Air Force.

Consolidated-Vultee B-36. — A six-engined giant said to have a 10,000-mile range with five tons of bombs. That is 2 and one-half the range of a B-29 and three and one-half times the bomb load. There are 100 on order.

Northrop B-35 Flying Wing. — Said to have a 10,000-mile range with five tons of bombs. Thirteen have been ordered.

North American B-45.—Only jet bomber now in production. The Air Force has ordered 100. It has four jet engines. The Air Force claims it will exceed 480 miles an hour, and carry 11 tons of bombs with about a 2,000-mile range.

Consolidated-Vultee XB-46. — Four-jet bomber in the 11-ton, 2,200 to 2,400-mile range, greater than 480 m.p.h. category. Only one built.

Boeing XB-47. — Revolutionary experimental bomber having six jet engines, swept-back wings and a speed around 600 miles an hour. Range said to be about 2,000 miles and capacity 11 tons. An experimental contract called for two.

Martin XB-48.—Six-jet bomber with tricycle landing gear. Speed about 500 miles an hour. Bomb capacity 11 tons and range about 2,100 miles. Two ordered.

Northrop YB-49.—An eight-jet version of of the B-35 Flying Wing. Performance about the same as other jet bombers, but it has more range.

AIR FORCE AND NAVY FIGHTERS

Lockheed P-80 (Shooting Star) and Republic P-84 (Thunder-jet.)—Combat-ready Air Force jet interceptors. Have fired their guns under simulated combat conditions at more than 500 and 600 miles per hour. Both are mass production planes.

North American P-82.—Conventional propeller long-range escort fighter. Has a twin fuselage and is called the Twin-Mustang because of its resemblance to its predecessor, the North American P-51 of war fame. Top speed 475 miles an hour.

Grumman F8F Bearcat and Chance Vought F-4U-5 Corsair.—Only two propeller-type fighters the Navy now has in production.

McDonnel FH Phantom. — A twin-jet plane with speed exceeding 500 miles an hour. Navy's first jet fighter. Carrier groups are being formed.

McDonnell F2H Banshee. — A twin-jet, more powerful Navy brother to the Phantom. Also is in production. Is in the 600-mile-an-hour class.

Chance Vought F6U Pirate. — A jet now in production. Said to fly "well over 500 miles per hour."

North American FJ. — Fourth Navy jet now in production. Also a 500-mile-an-hour plane.

EXPERIMENTAL FIGHTERS

North American XP-86.—A 600-mile-an-hour Air Force fighter. Swept-back wings and range over 1,000 miles. Possible successor to P-80 and P-84.

Curtiss XP87.—The first four-jet fighter plane, recently began ground and taxi tests. Designed as an Air Force all-weather fighter.

Grumman XF9F.—Has a British Nene jet engine interchangeable with an Allison jet. Navy plane.

In early stage of development are McDonnell fighter, designed to be carried aboard the B-36 bomber; McDonnell XP-88 and Lockheed XP-90, designed to be long range jet fighters.

ATTACK BOMBERS

Douglas AD-1 Skyraider and the Martin AM-1 Mauler.—They pack the fire power of destroyers or light cruisers, and fly at more than 350 miles an hour. Both Navy planes and in production.

NAVY PATROL PLANES

Martin P4M Mercator.—Two jet and two conventional engines.

Lockheed P2V Neptune. — The Truculent Turtle, a P2V, holds the world's non-stop distance record from Melbourne, Australia, to Cleveland, O. A twin-engine plane.

Martin PBM-5A Amphibious Mariner.—Jack-of-all-trades. Serves as patrol-reconnaissance or cargo-carrying plane.

All are in production.

New Island "E" Savings Bond Campaign Planned

COMMAR HILL—Commander Marianas announced recently that a new series "E" saving bond campaign will be held on Guam during the third week of January. The goal of this drive will be to enlist at least 65 per cent of all the service personnel on the Island in the payroll savings plan.

Series "E" savings bonds are the individual's safest means of investment— the government will back each one. This is also a permanent means of saving money, and the interest rate is higher than most ordinary savings accounts. The interest will amount to 5.9% if the bond is held until maturity.

Purchases of the bonds will be made under the payroll deduction plan, without any inconvenience to the individual, and in case of emergency may be cashed at any Federal Reserve bank or Post Office sixty days from the date of issue.

Payroll deduction is the most practical and convenient way to save money. A small amount is deducted each payday and will never be missed, but in ten years the amount invested plus 25 per cent may well come in handy.

In addition, buying bonds gives the United States a better debt structure and makes an important contribution at this particular time to the control of inflationary pressures. The best means yet devised for proper management of our huge national debt is its wide distribution to individuals through the purchase of savings bonds.

Over 55,000 volunteers helped in the 1946 March of Dimes. More than 13,000 theaters participated in the collections. The press, radio, the sports world, industry and labor solidly backed the campaign.

Mid-Pacific Post Number 1 of the American Legion and the Ladies Auxiliary will hold a beach party at Agat, in the vicinity of Boondocker's Inn Sunday, January 18, at 0900. Lunch will be served. Charge: $2.00. Ladies free.

The monthly Officer's Wives luncheon will be held at the Cliff House, NAS Orote, Wednesday, Jan. 14, at 12:30 p.m. Reservations accepted until 1800 Monday by Mrs. Burke, BO 2183, and Mrs. Clayton, BO 5255.

J. C. Pereda, Barrigada farmer, proudly displays his herd of hogs. This is an expectionally good illustration of good sanitation practices advocated by the Department of Agriculture to combat the hog cholera epidemic. (Guam News Photo)

Hog Cholera Epidemic Strikes Island

An epidemic of hog cholera has resulted in a serious setback to the rehabilitation of the local economy, states Harold E. Schwartz, director of the Naval Government Department of Agriculture.

Mr. Schwartz estimated that more than one thousand hogs and pigs died since the outbreak first occurred in September. Further heavy losses may be expected unless local hog owners take steps to help stamp out the disease. The present outbreak is the first experienced on Guam in more than ten years.

Epidemic Cause

The epidemic is traceable to the practice among Guamanian farmers of feeding garbage without taking proper precaution, Schwartz said. Swine feeders in the states often market their hogs when cholera appears in the herd. The virus, which is the source of the disease, may live in raw pork for months. Whenever raw infected meat is put in garbage fed to susceptible hogs, an outbreak of cholera may be expected.

Hog cholera is highly contagious and is usually acute. Fortunately, the disease is believed to be limited to swine. Once the disease breaks out it may be spread either by direct or indirect contact with affected pigs. Its medium of transmission may be food (especially uncooked garbage), water, or it may be brought onto clean premises by dogs, cats, flies, birds or people.

Six Point Program

In an endeavor to check the epidemic, the Department of Agriculture is advocating a six point program:

1. Innoculation of all hogs and pigs with anti-hog cholera serum, to give temporary immunity. Innoculation must be repeated at regular intervals. This is a preventitive measure and hog owners should not wait to innoculate their hogs until the disease is present in their herd.

2. Improved sanifation. The virus is ever present in the discharges of an infected animal, especially the urine. Pens should be cleaned regularly. Good drainage is important.

3. Pre-cooking of all garbage fed to hogs to guard against the further introduction of the disease. The virus is destroyed by cooking.

4. Refrain from transporting hogs from one point on the Island to another.

5. A strict quarantine of affected herds should be observed.

6. Destruction of the carcasses of animals which have died from hog cholera or other suspicious causes. Do not throw dead animals into streams or dumps. Either burn the carcasses at once or bury them at considerable depth.

Before the war, the farmers of Guam had about 15,000 hogs and pigs. The Island was largely self-sufficient so far as its pork requirements were concerned. By the time of the American liberation in July, 1944, the hog population had been reduced to only about ten per cent of the pre-war number.

Through the continued aid of the military and Naval Government activities, hog numbers had been increased to an estimated 5,300 at the outbreak of the epidemic.

Precaution Necessary

Based on present day conditions, Mr. Schwartz estimated that Guam should have a hog population of not less than 25,000 head. Loss of considerable numbers of breeding animals at this time because of cholera is a damaging blow to the early attainment of a satisfactory level of hog population on Guam.

Charted Goal Set by GUAM NEWS For 1948

Guam News like other businesses on Guam has set itself a goal to reach in 1948.

The course we have set leads to the publishing of an eight page paper for its readers with a circulation of thirty thousand copies daily.

The biggest shoals appearing on our charted course is (A) drastic personnel reductions, (B) acute shortage of newsprint. To overcome these obstacles, the newspaper has launched a program of recruiting and training Guamanians in the newspaper business. When thoroughly trained the Guamanians will relieve military personnel to a degree. In spite of acute shortages and increasing prices, we feel the Naval purchasing office in New York will be able to supply us with the newsprint necessary for an 8-page paper.

Mr. William Lujan, our civilian circulation manager has started a campaign to increase our circulation. As distribution problems are solved, we will be better able to reach more readers in all of the western Pacific islands.

Ship Movements

Applicable to ships under Navy control: Outgoing cargo B/L with eight copies must be delivered to freight transportation branch of Naval Supply Center 48 hours prior to arrival of ship (telephone BO 6264).

Passengers or their representatives must deliver to Port Director their authorization for travel or travel orders 48 hours prior to departure of vessel. (Telephone BO 6143).

Italian Scientist Claims Atomic Secret Beyond Soviet Reach

ROME —(UP)— Prof. Giovanni Giorgi, one of Italy's foremost physicists, contends that the atomic bomb is not a "scientific" but a technical secret and that the Soviet Union cannot produce it "within foreseeable time."

Giorgi, 76, returned recently from a government mission to the United States to investigate modern methods of telephone industry. He said the United States is the only country which succeeded in producing, "not one but many so-called atomic bombs" and that it is now applying radar's "electric eye" to it.

Atom Protected

Giorgi pointed out in an interview that he had written in his book, "The Smashing of The Atom," that the "Secret of The Technique" of the atom bomb is protected by a "thousand executive details, every one of which—is known to a different person."

He listed three other reasons for the "secret":

1. The necessity of having simultaneously a large number of scientific laboratories directed by men who have devoted their lives to the study of nuclear physics.

Life Devotion

2. The necessity of providing mighty industrial plants, the personnel of which is trained by devoting all their lives in acquiring skill in certain special operations.

3. The enormous difficulty of coordinating and integrating the work of so many persons and so many specialized technical plants.

Giorgi is the author of the system of handling electrical units named after him and adopted throughout the world (Das Georgische Masse System). He said that to obtain any of the "terrible nuclear explosives" and utilize them in putting together the A-bomb, it is necessary to obtain uranium and graphite and many other products which are absolutely pure and specially treated.

U. S. Skill Needed

To "purify" any one of those products, he said, such colossal industrial plants as the U. S. Du-Pont company had to contribute their skill. He added that such important plants, a "legion of chemists, physicists and technicians" have devoted their lives to mastering their specialty and have machines and instruments of difficult and complex structure which could not be imitated without a long preparatory period.

Giorgi emphasized that certain principal operations which permit the passage from common uranium to explosive metals require "action on each individual atom to detach and assemble one by one." He said that to form one milligram of the product it is necessary to "other so many atoms as are expressed by a number formed by a digit followed by 21 zeros.

Milligram of Atom

Otherwise, expressed, he explained, "if we worked gathering 15,000 atoms per second and continued for two billion years—approximately the age of our planet—we would succeed in putting together a milligram of the product." He said that to collect the few tens of kilograms necessary to make an atom bomb would require a period equal to the calculated past time of the sun, if undertaken individually.

"And yet the United States," Giorgi said, "has succeeded in combining so many efforts to obtain not one but many of the so-called atom bombs, which are now stored and held ready."

Giorgi, who has contacts with many American scientists, said that the Soviet Union could not produce anything similar for a long time to come.

No Immediate Danger

"I am convinced," he said, "that it is not impossible for another nation even well endowed—like the Soviet Union, which has absorbed a great part of Germany—to succeed in producing the terrible nuclear explosives, but not from one year to the next. It would require an immense amount of effort and a period of time which it is impossible to foresee."

Giorgi said he believed that future A-bombs will not be employed "so simply" as before, because "in a future war, the systematic use of new explosives would be tied up with the famed electric eye, and integral part of radar, in the production of which other groups of factories and industries of extraordinary complexity and importance are engaged.

He implied that the Soviets could not possibly match the U. S. in this field either because "the production of these radar instruments of miniature dimensions involving generators of millimetric radio waves" will take a long time even for the United States to perfect. He said another war would see the emergence of now unpredictable weapons and that who ever has them would not announce them to the world and "no attention should be paid to anything announced publicly."

Capt Oard Thanks Guam Hospital Workers For 'Well Done' Job

Capt. H. C. Oard, MC, USN, medical officer in command, Guam Memorial Hospital, issued a statement to the civilian and military workers of the hospital thanking them on behalf of the people of Guam and the Western Pacific for their service to them during the past year.

In thanking them he said this was their performance: 2,585 persons were cared for in the hospital. 12,357 treatments were administered in the out-patient departments. 451 child health clinics—more than 12,000 examinations of children—were conducted throughout the Island. 345 babies were born in the hospital. The patient-hospital days were more than three-quarters of a million.

Capt. Oard said, "think what those figures means in terms of healthy mothers and infants, in terms of relief of human suffering, of restoration to health, usefulness and happiness.

"You also made possible training in the healing arts of many student nurses and medical practitioners. Soon they, too, will go out to bring comfort and healing to thousands of others."

He said the accomplishment was especially noteworthy because of the trying and discouraging conditions left by tropical weather, war and typhoon.

"Guam Memorial Hospital is an outstanding example of working democracy," said Capt. Oard, "you of the staff come from all parts of the United States and from many islands of the Pacific. You are of many races, many lands, many beliefs; yet, you have worked in harmony and have achieved greatly.

"It is a privilege to serve with you," said Capt. Oard.

GUAM'S FUNCION

by Evelyn Perez

Mr. Eugenio B. Baija is soon to leave for the United States to visit his uncle, Mr. Jesus Baija of Vallejo, California and to continue his schooling under the G.I. Bill of Rights. He will reside at the home of his uncle until he finishes his schooling.

Mr. Perpetuo C. Lujan is soon to leave for the States to continue his studies and to visit his cousin, Mr. Pedro D. Camacho of Vallejo, California. Mr. Lujan is going to school under the G.I. Bill of Rights.

Mr. Joaquin P. San Nicolas is soon to leave to take up a course in Carpentry under the G.I. Bill of Rights. He will reside at the home of his cousin, Mr. Pedro Pangelinan of Vallejo, California.

Mr. George S. Cruz is soon to leave to attend a trade school under the G.I. Bill of Rights He will reside at the home of Mr. Francisco L. G. Salas of Oakland, California.

Miss Dorothy Mae San Migal will celebrate her 16th birthday at her home in Mongmong village this afternoon.

Mr. Francisco C. D. Dungca and Mr. Epifano B. Sablan are soon to leave for the Philippine islands to visit Mrs. Felicita Cruz Dungca and to accompany her and her two children Eleanor and Jose to Guam. Mr. Francisco D. Palting and Mr. Alejo D. Palting are also expected to return to Guam. They have finished their studies in the Philipines.

Guam Boy Scout Council Meeting Today

The second annual meeting of the Guam Council, Boy Scouts of America, will take place this afternoon at 2:30 p.m., at the Coconut Grove Annex in Tamuning Village. Nearly 120 members of the Council and their wives and guests are expected to attend.

Old and new members will hear reports of operations for the past year and will have their attention directed to the needs of the coming year. Scout Executive Eugene C. Krapf will present the reports, and will have general charge of the program.

A year ago there were 398 Scouts and 82 adult members registered in scouting on Guam. At present there are 698 Scouts and Cub Scouts, and 155 registered on Guam between the ages of twelve and fifteen. The Council will have its attention called to ways and means in which these boys may be reached.

Born on January 2 to Captain John L. Kindelsparder, a baby boy, Erie Vaughn. The Kindelsparder live at the Northwest Field Housing Aréa.

On January 3, Cynthia Ann Moon, six pounds and one-half ounces, helped her parents, Lieutenant and Mrs. Jack F. Moon, usher in the New Year. Lieutenant and Mrs. Moon live at the 20th Fighter Wing housing area.

It was a baby girl for the Beavers, CMoMM and Mrs. Thomas H. Beaver of the SubBase Housing area. Betty Ann was born on January 4th.

Philip Allen Gerrity greeted his parents CMM and Mrs. William M. Gerrity on January 7. The Gerritys live at Base 18.

'Liquorless Fridays' Proposed by Drys

ST. LOUIS—(UP)—Now it's "liquorless Fridays."

A resolution sent to President Truman by the Greater St. Louis Prohibition Clubs proposes, that America's 50,000,000 drinkers shall be urged to abstain from alcoholic liquor of every kind" on every Friday to save grain.

The two days of denial—"Meatless Tuesdays" and Eggless Thursdays"—fell "far short of the need," the resolution said. It added that "many million tons of grains for the world's stockpile" would be saved if the idea is adopted.

Letters to The Editor

My Dear Editor,

Last Sunday I happened to be in Barrigada and by chance I met a charming girl. We talked only a few seconds and suddenly she went home. I was not able to get her address for I was dumb-founded. Neither have I followed her for I got no pass. I would just like to let her know how much that meeting meant to me so I am sending you now a short poem, especially for her, so as to let her know.

Would you do me a favor by kindly publishing this attached poem?

I will never forget this if you do. Thanks in advance.

Respectfully Yours,
Casimiro P. Fernandez
Pollock Stockton Shipbuilding Company

I was a victim of first sight
A few moments ago;
While strolling alone in a cafe,
A sweet charming lass I saw.
So sweet was her endless smile
That weaved all around her face,
Clear were the visions from her dark eyes;
Clearer than the running river of the Nile.
On her breast above her heart
I saw her name heavenly engraved,
Leland, how sweet! Wish you'll not part
For my heart is weak—for you I crave . . .

(Another man hits the dust.)

Dear Editor:

Refering to my incident one day not long ago, at the Agana Post Office, I'm one of the many, who like them perhaps, is deeply obliged to send money home as soon as possible, for a very urgent reason. Unexpectedly however, when it was my turn after I have handed my money order blank form, the girl at the window told me that why should I go there when we have our own post office. After quite awhile, she did make the money order for me, but I noticed a trace of despise on her face which made me ponder uncomprehendingly.

I think this type of character among some of them (if there are more) should be better taught how to behave well. They are that kind which have no sense of feeling and understanding toward one another. They should not be working there if that's how they treat somebody—especially to a stranger. Government employes should always behave well!

Very respectfully yours,
Hermogenes B. Rotea
MKK CO. and Inc.
North Field, Guam

Dear Sir:

I am looking for a penfriend on the island of Guam and I thought the best way would be to write to a newspaper over there. I would like to correspond with someone of either sex of about twenty-one years of age.

I am keen on all kinds of sports; photography, films, writing, music, and I like to go hiking to study landscapes.

I work with the P. M. G. Department and have seen letters coming from all parts of the world so I thought I would like to write to someone overseas to compare their country with ours.

Yours Sincerely,
Mr. N. McLean
Logan Road, Mt. Gravatt
Brisbane, Queensland,
Australia.

Dear "?"

I had a OUT OF DOOR string of Christmas tree lights that I put on the tree in front of my house, hoping others who had no tree would enjoy them.

Merry Christmas to the person who stole them.

M. A. Newman CMoMM

March of Dimes Drive Set For Jan. 15-30

WASHINGTON — The annual March of Dimes, spearhead of the fight against infantile paralysis, will be held throughout the nation January 15 to 30, it was announced here.

The cost of fighting polio has skyrocketed, it was stated in pointing out that rising prices and mounting polio incidence have placed a tremendous burden on the resources of the National Foundation for Infantile Paralysis, which this year celebrates the tenth anniversary of its founding by Franklin D. Roosevelt.

Greatest Drive

The March of Dimes Committee is setting up the machinery that will make the 1948 appeal a record demonstration of this nation's active interest in helping the stricken children of America along the road to health. A special events committee is arranging to make the two weeks of the fund-raising drive an entertaining and instructive lesson in public spirited citizenship.

Every phase of community life will participate in sending a ringing message of hope to the unfortunate victims of this crippling disease, which has stricken 80,000 Americans in the past five years.

Releases revealed that every community in the nation was being geared to make this the greatest March of Dimes drive in history.

When the 1948 March of Dimes goes into action on January 15, more than 500 volunteers from every walk of life will be translating American ideals into terms of active assistance.

This is the democratic way of fighting a humanitarian war against disease. Every man, woman and child must enlist in the fight by joining the 1948 March of Dimes.

'New Look' on Ice

ST. MORITZ, —(UP)— Petite, blonde Gretchen Merrill of Boston, America's number one woman figure skater, will wear the "new look" on the ice in the 1948 Olympics—a skirt only five inches above the knees.

This, she explained, is still three inches longer than her last year's skating skirt.

The new look on the ice also includes a white belt, no shoulder pads and very full pleats in the skirt.

Year-round services paid by the national foundation chapters, working in cooperation with the local medical and health authorities, include hospitalization, professional services such as salaries of nurses, physical therapists, and other professional personnel, transportation, purchase of respirators (iron lungs), orthopedic appliances and other special equipment; also scholarships for local personnel and refresher courses for professional workers.

THE FEMININE TOUCH

by June Lenz

The time inevitable arrives in this man's Navy when our skipper informs us it is time to weigh anchor and shove off. As first mate there is no choice for your writer but to bid reluctant farewell.

Harkening back over our long stay on Guam, from the vantage point of a packing box, the good and not so good stand out in high relief.

Things we shall prefer to forget....

June Lenz

A rather intimate acquaintance with rats....the stain and odor of dampness and mildew....rain blowing nonchalantly through our unresisting hut.... envelopes and stamps forming an inseparable attachment for each other....salt and sugar always in a lump sum... cold storage eggs....ants and cockroaches.... the necessary but unsightly construction and heavy equipment constantly grinding against ear drums and nerves ...the eternal endeavor for glamour when a jeep is the only transportation....the struggle for food supplies....infected mosquito bites....coral, uncompromising whether to eyes, underfoot or strangling the shores.

Things we shall enjoy remembering....

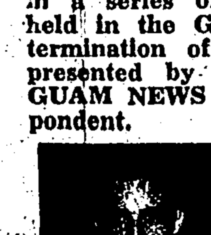
The lovely and ever changing pageant of the Guam sky....fat white clouds resting on the very rim of the horizon....glorious sunsets with dark clouds edged in gold and blown into intriguing silhouettes ..the ready smile of the Guamanians and their love of children.... the sweeping view of Agana and northern points from the upper highway of ComMar....from the top of the hill the scene towards Apra Harbor with the great arm of the breakwater flung out in protection against the might of the sea ....the same scene at night when fireflies of light wink up to the lofty heights... fine radio entertainment sans advertising.....the tremendous improvement of Island conditions during our 1? months residency....the brave little Guam News and your writer's association with the paper....

TO GOOD FRIFNDS AND NEIGHBORS, HAIL AND FAREWELL!

CHANGE OF COMMAND—Comdr S A. Britton, MC, USN, (R.) recently relieved Capt. R. H. Fletcher, MC, USN, as Officer in Charge of the School of Medical Practitioneers, Guam Memorial Hospital. Capt. Fletcher, who commissioned the school on January 2, 1946, will be assigned to the professional division of the Bureau of Medicine and Surgery in Washington, D. C. (Guam News Photo)

History of War Crimes Trials

(Ed. Note—This is the nineteenth in a series of war crimes trials held in the Guam area since the termination of World War II, as presented by George W. Wilbur, GUAM NEWS War Crimes correspondent.



George Wilbur

Thru out World War II, specifically the conflict between the Allied powers and the empire of Japan, the world was treated to a special dish of literary sensationalism .... the custom of Japanese soldiers to take their own lives before capture by the enemy.

Pulp novels were repeatedly illustrated by glaring characterizations of toothy Japanese grimmacing in pain as they twisted a Samurai sword into their abdomen. Newspaper headlines often read something like this, Japanese on Atoll Launch Suicidal Banzai Attack With Total Loss," Hollywood too added to the surge in such pictures as "Behind The Rising Sun" where the entire would-be correct method of a Japanese honorable suicide was enacted for the American public.

Sadistic Propaganda

No one really knows what mental initiative prompted such irrational movies, whether it was in keeping with the true tradition of the Japanese, or merely the terror accompanying the thought of being captured by the enemy. It is widely known that the Nipponese high command, as part of its clever web of protectional home-front propaganda, related to all its troops the mythical fiendish tortures and acts of sadistic retribution the American practiced on the captured enemy.

I have no accurate count on how many war crimes trials have been held in the Pacific area, but in my observation of many records, I have time and time again been met with this simple phrase, "The convening authority is requested that nolle prosequi be entered for the accused....who is deceased by reason of having committed suicide."

Death Before Condemnation?

Rather than lose face by standing trial before an American tribunal or meeting an unhonorable death at the enemy's hands, these men have restored the outmoded Japanese tradition of sucide. I am in no position to argue Japanese shintoism, or any other religion for that matter, only to comment on what appears to me an unrealistic situation, one which brings death to many men who might have made something of their lives in spite of their seemingly dark future. Captured Japanese soldiers were repatriated to their home country as rapidly as possible after the war's end, contrary to their belief that they would be tortured and killed. American war crimes tribunals are fair, as even adjudged by Japanese attorneys and the defendents themselves. What need then death before condemnation?

No Greater Glory

In the trial of Rear Admiral Nisuki Masuda of the Imperial Japanese navy, accused with four other officers of murdering three American airmen on Jaluit atoll, Marshall islands during the war, the admiral committed suicide before the trial. He left a note which in part reads as follows,....... "during the 50 days which has elapsed since the end of the war I have carefully and deliberately considered the proper time and place to die. For the sake of my country, I can see no difference between immediate death and death later thru execution by the United States Armed Forces. Now on this soil surrounded by my men, I will die even though I cannot receive the honor of being killed in action. I feel there is no greater glory."

Masuda's thoughts on the subject of suicide as revealed in this note are probably typical of the thoughts which preceded. His other such Japanese deaths. His alleged crime was likewise similar.

Three Yanks Murdered

In about February, 1944, three American flyers were forced to land in the vicinity of Jaluit atoll, where they were captured and interned by the Japanese forces there. Approximately a month later they were secretly shot to death and cremated. Five Japanese, including the Admiral, were arraigned on charges of murder and violation of the law and customs of war.

As Musada committed suicide before the trial, only the remaining four were left to face their crimes. It was mainly their own confession which sealed their doom. As usual when a superior officer dies before testimony can be given and therefore cannot deny or confirm anything said by his subordinates, all these men tried to lay the major guilt with Masuda. Such excuse is not valid, however, and they were all found guilty of the charges. Three were sentenced to life inprisonment and another to ten years.

In all likelihood, Admiral Masuda would have gained the death penalty, and foreseeing this, he chose to die in what he thought the only honorable way left, by his own hand.

Sports Beat

by Bob Crossley

SUNDAY HASH....The old timers maintain that the twenties, with figures like Babe Ruth, Jack Dempsey, Bill Tilden, Man O'War and Lou Gehrig, was the golden age of sports....On that point we won't argue, but as for the money angle, the forties are far ahead.... Perhaps pro football is now enjoying the biggest boost, partly due to the introduction of a rival league....The failure of the two leagues to reach a working agreement leaves the way clear for a collegiate flash to dicker with both leagues and sign a contract with the club which offers the most take-home pay—something which never happens in baseball....Many players now getting $25,000 would be "earning" barely half of that if the two circuits were not at war....Compare the $100,000 four year contract Charley Trippi signed with the Cardinals last year with Don Hutson's starting salary of $150 per game. Even in later years, Hutson's top stipend was paltry $1500 an hour, which amounted to only $15,000 or thereabouts for a season....Sid Luckman, one of the smartest quarterbacks ever to play pro ball, was in the lower income bracket with something like 6,000 skins....Operators like Jonas Ingram, Bert Bell and Tim Mara will doubtless come to an agreement within a few years and end the salary inflation, but probably not before such birds as Johnny Lujack, George Connor and Bob Chappuis have a chance to make their "X" on a contract calling for a hundred thousand or so over a period of three or four years.

And take a look at baseball....Ty Cobb, Christy Mathewson, Nap Lajoie, Chief Bender and the old time greats whose feats still stand as the epitome of baseball achievement got only a fraction of what Bob Feller, Joe DiMaggio, Ted Williams and other contemporary hotshots drag in.

Jack Kramer was guaranteed 50 G's when he left the simon pure ranks, while wheels like Tilden and even the more recent Don Budge signed for less than half of that.

Even college football players today, laughingly called amateurs, live better than many old pros did....Perry Moss allegedly made more last year as Illinois' quarterback than Coach Ray Elliot did.... Charley Justice is getting a college education for himself and his wife, an apartment, his laundry and a few incidentals, plus a perquisite of no small sum....Things were plenty tough back in the early thirties for athletes as well as the working men and now it appears that the nasty pros are coining enough to last them over the rough spots that seem sure to come if the cycle of world events and economics continues to repeat itself.

Boo Ferriss Called War-Time Hurler; Manager Cronin Predicts Improvement

NEW YORK —(UP)— A startlingly large number of American Leaguers believe that Dave (Boo) Ferriss of the Boston Red Sox is stricty a "war-time pitcher" and never will regain the razzle-dazzle form which enabled him to win 21 games in 1945 and 25 in 1946.

The drawing Mississippian registered only 12 triumphs during 1947, but Boston General Manager Joe Cronin claims Delta Dave is a cinch to snap back in '48.

Cronin ought to know. He handled Ferriss as a freshman, sophomore and junior. The coming season will be Dave's fourth in the big time.

Despite the fact that stocky Henry Majeski, Philadelphia A's third baseman, hit acceptably and was tops at his position in fielding, the Philadelphia management wasn't very satisfied with his performance. As a matter of fact the A's think they got stung when they took the hustling Staten Islander from the Yankees.

Eddie Stanky, Brooklyn Dodger second baseman, is reported to have told friends he will ask to be traded if he is side-tracked from the keystone in favor of Jackie Robinson. Robinson, by the way, a close friend of Stanky, is content to remain at first base.

The Brooklyn Dodgers and Boston Braves are attempting to outshout each other, both clubs claiming that they own the rookie most likely to succeed in 1948.

CADET CAGER—Bill Yeoman, a dependable man on the Military Academy basketball team and pivot man for the football squad has been elected captain of the 1948 grid edition. Yeoman will succeed two-time All-America Guard Joe Steffy. The newly elected captain at one time played for Texas A. and M.
(Signal Corps Photo)

Lefty Joe Page Signs 1948 Contract With Yankees

NEW YORK, Jan. 10 —(UP)— The New York Yankees, signing up their star players, one headline at a time, got lefty Joe Page safely into the fold today and it looked like "flat-foot" Johnny Lindell would be the next to get his name into the papers because he asked the boss for a raise.

Page, the handsome southpaw whose relief pitching gave the Yankees a pennant and world championship, signed his contract for a figure more than double his 1947 stripend.

Stanford Adds Tiff

PALO ALTO, Calif., —(UP)— Stanford University has added San Jose State College to its 1948 football schedule, giving the Indians their first 10-game card since the war. The game will open the season for both elevens on Sept. 18.

Fritz Crisler Officially Honored As College Grid Coach of Year

Canadian Pair Jumps into Lead Of Pro-Am Tourney

DEL MONTE, Cal., Jan. 10—(UP) A crack international pro-amateur team of Canadians Professional Shan Leonard, Vancouver, B. C., and Amateur T. Sufferen Taller, New York and Phoenix, Ariz., Socialite, vaulted into the leadership of the $10,000 annual pro-amateur golf championship here today with a thundering, seven-under-par 65.

Coming in late in the day just ahead of a rolling fog bank, the Leonard-Taller duo took a lead over the field with a dozen foursomes still on the course.

Meanwhile, a trio of far western shotmakers took over the individual leadership among the professionals with two-under-par 70's on the beautiful, heavily sanded Cypress Point Course, which has a 37|35—72 par.

Deadlocked for the leardership were the dapper former national open champion, Lloyd Mangrum of Los Angeles, Bill Fritz, young San Francisco pro and George Fazio, Los Angeles.

Vince DiMaggio Player-Manager Of Stockton Ports

STOCKTON, Cal., Jan. 10 —(UP) Vincent Paul DiMaggio, brother of Joe and Dominic, has been signed at an undisclosed salary as player-manager of the Stockton, Calif., Ports in the California State Baseball League, Club President Al Speckens announced today.

The contract depends upon DiMaggio obtaining a release from the Oakland Acrons of the Pacific Coast League—a promise he already has tucked up his sleeve—Speckens said.

Sources close to Speckens reported unofficially that Vicent's salary was in excess of the $750 monthly paid Johnny Babich, the 1947 manager.

Branch Rickey Knocks NCAA 'Sanity Code'

NEW YORK, Jan. 10 —(UP)— President Branch Rickey of the Brooklyn Dodgers curtly told the NCAA today to get rid of its own professionalism before worrying about baseball grabbing college players.

Rickey's statement to the college officials came on the eve of their vote on the proposed "sanity code." The code, designed to eliminate existing pseudo-professionalism in collegiate sports, comes up for approval tomorrow.

The college baseball coaches repeatedly have complained that professional teams are signing their players before graduation and slashing the quality of the sport on the campus.

But Rickey took a dim view of their complaints.

He told the NCCA, "You stay out of the pro field and we will stay out of the college field. If you don't make your men professionals, we won't either."

"The major problem confronting colleges today is not one involving the relations with the professional game. In fact, the invasion of your ranks by profesional baseball is very rare indeed."

Then Rickey struck his blow. In explaining why the major leagues tabled the colleges' resolution asking for a hands-off policy on college players, he said:

"There isn't a professional club in this country which does not have written evidence—in quanity—that a great many colleges have induced boys to enter college.

"Boys are then kept in college on such terms as we in the professional game define as 'professionalism.'"

Shaughnessy Advisory Coach to L.A. Rams

LOS ANGELES —(UP)— Clark Shaughnessy, the nation's foremost exponent of the T-formation, has been signed as advisory coach of the Los Angeles Rams.

Owner Dan Reeves of the National Football League team said Bob Snyder would remain as head coach. Terms of Shaughnessy's deal with the Rams were not disclosed but the announcement said his contract was for a long term.

In joining the Rams as advisory coach, Shaughnessy will perform duties similar to those he handled when he was advisory coach to the Washington Redskins from 1944 to 1947.

It was at Chicago that Shaughnessy and George Halas, coach of the Bears, devised the modern T-formation. Shaughnessy at the time was University of Chicago coach. He served in an advisory capacity to Halas from 1936 to 1941.

Governor Dewey, Mayor O'Dwyer Present At World-Telegram Celebraton

NEW YORK, Jan. 10 —(UP)— H. O. (that ain't water, Fritz) Crisler was officially installed today as football's coach of the year.

Gov. Thomas E. Dewey, a "blocking baritone" at Michigan a few years back and Mayor William O'Dwyer, who despite reports never played for the Fighting Irish, chipped in at the celebration tossed by the New York World-Telegram and Associated Scripps Howard newspapers and it was dilly.

Crisler pushed the buttons which carried Michigan to an undefeated season and an all-time conflict with Notre Dame. Oddly enough, Michigan won the first Rose Bowl game by beating Stanford, 49-0. Just nine days ago it duplicated the same score in polishing off Southern California.

Which prompted one observer to remark that Pravda, the Soviet newspaper, probably would offer this as proof that there hasn't been any proof that Crisler didn't get the best of it as he was feted and footed.

"Fritz told me when I asked him how long I should speak, that I could tell you all I know in three minutes," Dewey cracked.

"So I told him I'd speak for four minutes and tell you everything we both know."

And E. E. (Tad) Wieman of Maine, president of the American Football Coaches Association, told of the dear dead days when Crisler was trying out for the Chicago football team under the great Amos Alonzo Stagg.

COACH FRITZ CRISLER—Michigan's mighty mentor, H. O. (Fritz) Crisler led the Wolverines of Ann Arbor to an undefeated, untied season on the gridiron to gain coach of the year honors.
(Acme Photo)

3,415,957 Fans Attended Sports Events in Yankee Stadium in 1947

NEW YORK —(UP)— Yankee Stadium, "The house that Ruth built," accommodated 3,415,957 "tenants" during 1947 and for the second successive year proudly boasted that it was the mecca of American sports.

It also marked the second straight year that more than three million people attended the stadium's attractions. Baseball, naturally was the chief drawing card, followed by professional and intercollegiate football, a rodeo and soccer.

Despite the fact that there were no championship boxing bouts at the Bronx ballyard during 1947, compared with the three which drew 123,587 fans in 1946, the stadium still exceeded its record-smashing total of 3,302,587 patrons attracted during 1946.

The Yankees (baseball variety) ranked as the number one attraction, drawing 2,200,369 paid during the regular American League playing season. Four World Series games against Brooklyn at the stadium drew 288,843 customers.

The stadium, in addition to being the site for the baseball championship, also was the scene of the pro football title clash between the Grid Yankees and Cleveland Browns. Including the championship game, eight professional football contest drew 326,191 people, a gain of almost 100,000 from the previous year.

Three intercollegiate football games were played before 69,431 and represented one of the few attractions which dropped off at the stadium since 1946. Three college contests during 1946 drew 113,150. A total of 158,657 fans witnessed the rodeo and 36,115 the soccer match between Napoel and the Metropolitan All-Stars.

Other baseball contests, including a Yankee-Giant exhibition, Negro baseball games and amateur baseball games, also helped the turnstiles keep clicking.

A total of 6,718,544 fans packed the Yankee ballpark during 1946 and 1947.

The Yankees believe that no other sports arena in the land can top that mark.

40,000 Entries In 1948 Bowling Congress Tournament

NEW YORK, Jan. 10 —(UP)— A record-breaking entry list of more than 40,000 competitors with all-time high prize fund amounting to almost $500,000 today earmarked the 1948 American Bowling Congress Tournament as the greatest pin-toppling extravaganza in history.

The ABC's 45th annual classic, which has drawn entries from every state in the nation as well as Canada, Mexico, Alaska, Hawaii and the Canal Zone, will be held on the 40 alleys of the State Fair Coliseum in Detroit from March 11 to May 26.

John C. Hibert, office manager of the Eastern Division of the ABC, said that the lush half-million dollar prize awards will be almost double that of the previous high-mark of $254,704 set in the 1940 tourney at Columbus.

Weekly Sports Roundup

by Bill Jury

Coming on the heels of the Rose Bowl game on New Year's Day was the selection of Bob Chappuis of Michigan as the outstanding player in the Pasadena classic. The choice, made by the Helms Athletic Foundation, was based on the Wolverine halfback's standout performance and all-around ability to pass, kick, or run whenever the situation best presented itself. Chappuis accounted for more yardage than the entire Southern California Trojan team.

Bobby Feller, fireball righthander for the Cleveland Indians, split American League mound honors with Spud Chandler of the New York Yankees last week as the baseball bouquets were handed out. Feller, although the only 20 game winner in the circuit, was far behind his previous records in past years and it was Chandler of the series winning Yanks who was the official leader in earned runs average with 2.46 despite the fact that he was inactive most of the season with an injury to his flipper.

The St. Louis Cardinals were picked as the smoothest fielding nine in the National League for the second straight year as they compiled a better than good average of .979 in the field.

During the week some of the stateside basketball favorites took a nose dive in prestige as Utah, last year's national champs, were dropped by Cincinnati 66 to 49. Meanwhile, Temple, the quintet who upset Kentucky a couple of weeks ago, bowed to Colorado 50 to 45.

Here on the island the 109th SeaBees produced an upset of a sort as they toppled ComMar 35 to 34 in the second game of the Island finals on the ComMar court.

Jimmy Conzelman, mentor of the Chicago Cardinals, was voted pro grid Coach of the Year for piloting the ChiCards to their first NFL championship in 22 years.

The heated question of which team was the better, Michigan or Notre Dame, was answered in part by the Detroit Free Press poll of sports writers who picked the Wolverines as the Nation's no. 1 grid power. Meanwhile the Trojans defeated by both teams this season, added to the confusion by nominating the Irish as the strongest team in the country.

On the local scene the ComMar quintet walked off with the Island Inter-Command basketball crown by defeating the 109th SeaBees 48 to 34 in the final contest of the two out of three games series.

All-Bowl Grid Eleven Chosen

by Steve Snider
United Press Sports Writer

NEW YORK —(UP)— From reports of New Year's Day football games comes an All-Bowl team today dominated by some of the lads who have been grabbing headlines since the first kickoff way back in September.

This simply is one fan's opinion of how the bowls sounded in print and on the air. No medals, trophies or hand-knitted sweaters will be awarded but we'll be happy to tip our hat to these men any time and so will most of the millions of fans around the nation:

Ends—Bob Mann of Michigan; George Brodnax, Georgia Tech.

Tackles—Ziggy Czarobzki, East All-Stars (Notre Dame); George Petrovich, Texas.

Guards—Earl Cook, Southern Methodist; Steve Suhey, Penn State.

Center—Walt McCormick, Southern California.

Backs—Johnny Lujack, East All-Stars (Notre Dame; Bobby Layne, Texas; Bob Chappius, Michigan; Doak Walker, Southern Methodist.

Broken down totals by schools that makes two each from Michigan, Notre Dame, Texas, and Southern Methodist with one each from Georgia Tech, Penn State and Southern California.

Indicating how class will tell, that backfield of Lujack, Layne, Chappius and Walker—the four dominant backfield stars of the day—all made the United Press All-America.

NavBksRecSta Next With Three, CB's Get 2

Com Marianas, winner of the Island Basketball Championship, placed four men on the official All-Star team selected Friday morning by the executive committee of the Commander Marianas cup competition. Though only 12 players will be on the final team when the eliminations begin, 17 cagers were chosen as the cream of the crop to try for a berth on the squad that will represent Guam in the coming Western Pacific tourney.

Close behind ComMar in the balloting was Naval Barracks-Receiving Station with three players and the 109th NCB, the First Marine Brigade, and Marine Barracks had two each.

The 17 chosen were: Ken Fons, Gil Marlowe, Buzzy Squires, and Pete Morgan, ComMar; Lew Arey, Red Edwards, Cy Cassidy, NavBks-RecSta; Larry Horan and Tom McHale, Marine Barracks; Jack Argotsinger and Earl Whiteley, 109th NCB; Spike Towey and John Gaughan, First Marine Brigade; Beal, NAS Grote; Dan Davis, Medical Center; J. L. Hawkins, AmTrac; and H. W. Cook, NSC.

It is fitting that ComMar should place the highest number of men since they won the north league title and copped the Island Armey, but even without this consideration, the men chosen from the Hilltopper squad were All-Stars in their own right. Three more players who were sure to get a berth on the team—Larry Christianson and Maynard Lager of ComMar, and Chuck Nesbitt of Marine Barracks—had to be omitted because they are due to leave the Island before the tourney is over.

Lt. R. W. O'Brien, who took over the ComMar team in midseason as coach when Dr. Buie left, will be the officer in charge and coach of the Guam team, and Chief H. W. Douglas, NavBks-RecSta mentor, will act as manager.

The nomination of Fons, Arey, Davis, and Edwards several weeks ago for a possible trip to Annapolis to train under varsity coaches and try for the Olympic team, makes the future of the team uncertain. Though improbably, it is possible that all four will make the trip. Thus leaving Lt. O'Brien with only one player—Gil Marlowe— out of the five he chose as his tentative first team. The loss of any one of the five would definitely weaken the squad.

The first round of the eliminations will get started the first of next month with Saipan and Kwajelein coming here. The 20th of February, teams from China, Japan and the Philippines are slated to arrive for the final WesPac meet. The ultimate winner will then proceed to Pearl Harbor about March 1st.

RADM C. H. Wright presents the trophy symbolic of the Island basketball championship to team captain Ken Fons of ComMar at ceremonies held after Wednesday's final. Beside Fons is Lt. R. W. O'Brien, ComMar Coach, and Pete Morgan, guard is standing at his right.

Pitt Pirates Will Click This Season, or Else!

NEW YORK —(UP)— It'll be D-Day plus one for the Pittsburgh Pirates in 1948, and if they don't deliver, the owners are prepared to abandon ship.

D, as far as the Pittsburgh owners are concerned, stands for due. They figure that the Pirates, bolstered by various purchases such as Hank Greenberg and Billy Herman, should have clicked last year. But the only click audible was the noise made when the club dived into the cellar.

So 1948 automatically becomes D-Day plus one, particularly for Pirate Prexy Frank McKinney, who has indicated he wants out. If the Bucos go Mooey again this coming summer, Other Pittsburgh stockholders, John Galbreath and Crooning Harry L. (Bing) Crosby, are reported to be of the same mind as McKinney.

Dodgers Help

The Brooklyn Dodgers have done everything humanly possible to keep McKinney and his cohorts in the league a little longer, by contributing generously to the Corsair cause.

Pittsburgh boasts ex-Brooklynites at virtually every position. In the pitching department, there's little Vic Lombardi, Hal (Rocky) Gregg and the inimitable Kirby (I'll-win-a-million) Higbe. The infield numbers First Baseman Eddie Stevens, Shortstop Stan Rojek and Second Baseman Romanus Basgall, whom Pittsburgh plucked from the Montreal Royals, Brooklyn's number one minor league affiliate.

The Pirates whistled Dixie long enough at the Dodgers to lure Outfielder Dixie Walker and Catcher Dixie Howell.

The Pittsburgh crew which finished the last season was a sadly disorganized band lacked both direction and incentive. Kiner's home run rampage was the only item which kept the fans' interest toward the waning weeks of the campaign.

Kiner couldn't do it alone in '47 and it's a cinch he won't be able to do it alone in '48.

WesPac Wrestlers Vie For Annapolis Journey

Western Pacific wrestling elimination at NAS Orote will get underway this week with Saipan and Kwajalein teams pitted against the winners of the Guam tourney.

The victors in the WesPac meet will go directly to Annapolis to train there for Olympic tryouts.

ComNavE, ComNavPhil, and ComNavWesPac will send teams here the 20th of this month and Com. 14 will be five days behind them.

The Annapolis-bound contingent will leave Guam March 1st, according to staff welfare.

ATTENTION!!!
SERVEL
Kerosene Refrigerator
Stays Silent ..... Lasts Longer
Runs on Kerosene . . . costs just a few cents a day to run. It brings you plenty of ice, homemade ice cream, space for frozen foods and for fresh meats and vegetables, and it operates anywhere!
There's never a sound, no worry about wear or repairs, either, with Servel. That's because it freezes with no moving parts. It has no machinery, valves, pistons or pumps. Instead, a tiny kerosene flame does the work. So the Servel Kerosene Refrigerator stays silnt, lasts longer.
Our quarterly allocation has just arrived. Persons having earlier reservations, please call for immediate delivery.

ASPHALT PLANT—This picture gives a general view of the asphalt at NOB showing the machines which mix the crushed coral and asphalt, the huge rotary kilns and the hot storage tanks for the melted asphalt. This plant will produce several hundred tons of paving asphalt per day. (Guam News Photo)

DIGGING CORAL—The first step in the process of making asphalt paving is digging the coral. This gigantic 2½ yard shovel claws into the hill and loads several tons of coral at a single scoop. From the pit coral is taken to the rock crushers to be ground into fine gravel. (Guam News Photo)

Processing Asphalt for Roads on Island of Guam

by Stacey

A complicated and interesting process, the making of asphalt paving from native coral and asphalt is one of the biggest jobs being done on Guam at the present time. A Barber-Green asphalt plant operated by Brown-Pacific-Maxon Co., near the NOB Receiving Station is producing several hundred tons of asphalt per day used in building and repairing roads on Guam, additions to dockside paving, and in the construction of the new runway and taxiways at NAS Orote airfield.

From the coral pit to the highway a great change is made in the coral. First the coral is scooped and blasted out of the hillside and loaded on a truck. The truck carries it to huge rock crushers to be ground into fine gravel. Then from the crushers the coral is carried by series of conveyor belts into large rotary kilns where it is "cooked" at a temperature of 375 degrees fahrenheit to remove all moisture and impurities.

Kiln to Mixer

From the kilns, the crushed and dried coral is again taken by conveyors into a gigantic mixer. In the mixer, the processed coral is mixed with heated asphalt and then loaded into trucks to be taken to the job.

When it reaches the place it is to be utilized, the asphalt is dumped directly into a hopper on a "Spreader," a machine which lays and packs the asphalt as it moves along. One of these "Spreaders" will lay approximately 25 feet of asphaltic concrete per minute. After the "Spreader" lays the asphalt, it is further packed by heavy rollers, and is then ready for use.

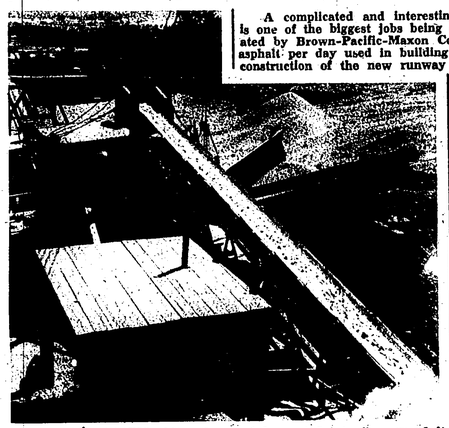
Asphalt Roadway

At present, most of the asphalt produced at the BPM plant is being used in construction of the NAS Orote runway. This job is for 618,750 square feet of asphalt requiring 31,000 tons. The work is reportedly progressing satisfactorily, and will be completed as scheduled.

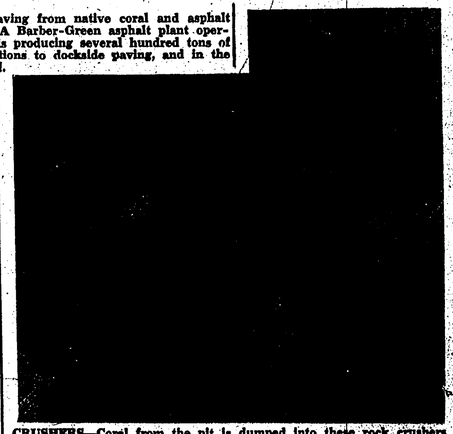
Next Major Project

The next major paving project planned by Brown-Pacific-Maxon is the new highway which will connect Commander Marianas Airfield and Marine Drive near Piti village. This job will require two and seven-tenths miles of paving, or approximately 70,000 square yards of asphalt.

The subbase material for this road will be obtained by crushing coral in the pit near the gate of ComMar. After this subbase is in place, the finished asphalt surface will be laid, the material being transported from the asphaltic concrete plant described above.



CONVEYOR SYSTEM—After the coral is ground into fine gravel it is carried over this chain of conveyor belts to the rotary kilns where it will be 'cooked' to remove the moisture from it. (Guam News Photo)



CRUSHERS—Coral from the pit is dumped into these rock crushers where heavy machinery grinds large uneven chunks of coral into usable gravel. From the crushers the coral is taken to the kilns by a chain of conveyors. (Guam News Photo)

KILNS—In these rotary kilns the crusher coral is 'cooked' at a temperature of 371 degrees fahrenheit to remove all moisture and impurities from it and heat it for the next step of the process. (Guam News Photo)

HEATING THE ASPHALT—A workman heats the asphalt with a large gasoline torch to melt it and remove it from the barrel. The melted asphalt is then put into hot storage tanks where it is further heated for the mixing process. (Guam News Photo)

LAYING THE PAVING—A truck dumps into the hopper on a spreader as it moves along laying the pavement. This machine will lay approximately 25 feet of paving per minute. After this asphalt has been rolled and packed it will be ready for use. (Guam News Photo)

THE FINAL STEP IN MAKING ASPHALT PAVING—Here the hot asphalt and the 'cooked', crushed coral are mixed together to form asphalt paving and loaded into trucks to be taken to the job where it will be used. (Guam News Photo)

F.B.I. Investigates Arms Smuggling To Palestine

NEW YORK, Jan. 11 —(UP)— Investigation of an alleged Palestine arms ring centered today on a businessman who told the FBI he procured 199 tons of super-explosives for an unidentified man claiming to act for the Jewish agency for Palestine, for consignment to the Haganah organization in the Holy Land.

Leonard Weisman, president of three small steamship and export companies, said he had acted only in an "advisory capacity" to the mysterious foundry associates, to which the contraband cyclamite was consigned.

About 45 days ago, Weisman said, he was approached by an unidentified Palestinian who asked him to buy up "various materials" for the Jewish agency to ship to Palestine.

He said he would agree to do so if proof was offered that the "materials" were not intended for either the Stern gang or the Irgun Zvai Leumi, underground terrorist organizations.

Weisman said proof was given to a man mutually agreed upon by both parties, and he then volunteered to help obtain the explosives.

British, Haganah Await Renewed Arab Attack

JERUSALEM, Palestine, Jan. 11 (UP)— Reliable advices from Cairo, where the exiled Grand Mufti of Jerusalem has his headquarters said tonight that Arab troops could be expected to invade northern Palestine again in a few days.

Two or three hundred British troops, with additional hundreds of Jewish Haganah men, were entrenched along the northern border tonight, waiting for the Arabs to come back. The British had the heavy machine-guns and artillery they used to drive some 800 Arabs back into Syria yesterday.

The British disclosed today that 12 Jews and eight Arabs were killed last night in a pitched battle that went on around the sand dunes and in orange groves in south Palestine.

From the point of known dead, it was far a bloodier engagement than the Arab invasion of northern Palestine and the attack on the settlements of Dan and Kefar Szold. Four Jews were killed and eight wounded in northern Palestine; Arab casualties were not known by British or Jews.

In southern Palestine, the British said, 11 of the 12 Jews killed were members of the Haganah training near the settlement of Yavneh. The Arabs were members of a band totaling some 200, who attacked from orange groves and from behind sand dunes.

Hollywoodites Charged With Contempt

WASHINGTON, Jan. 11 —(UP)— Ten Hollywood writers and directors were ordered today to face trial on contempt of Congress charges for their refusal to tell a House investigating committee whether they belonged to the Communist party.

All of them pledged innocent when arraigned before federal district judge Richmond B. Keech. He gave them 15 days in which to file legal motions in the case, and allowed them to remain free on the $1,000 bond which each posted at a previous California arraignment.

Writer John Howard Lawson, who was called "The Red Commissar of Hollywood" by a witness at the House committee's hearings last fall, was the first to enter a "not guilty" plea, and also was the first called to trial. His case will be opened Feb. 9.

After trying Lawson, the federal district court will set in judgement on the other nine defendants.

NEW SCOUT OFFICERS—In a colorful ceremony at the Coconut Grove Annex, Tamuning, the Guam Council, Boy Scouts of America elected the following officers: (L. to R.) F. B. Guerrero, Scout Commissioner; F. D. Perez, Vice President; S. A. Sanchez, Vice President; Monsignor Calvo, President; Judge F. Lujan, Vice President; Judge J. C. Manibusan, Treasurer. (Guam News Photo)

Aviation Report Goes to Congress

WASHINGTON, Jan. 11 —(UP)— Seventy per cent of the aircraft types in use by the Air Force and Navy are obsolete and are being flown because modern planes are unavailable, a report to Congress showed tonight.

Covering 79 major types of military aircraft, the report was prepared for the congressional aviation policy board by the Aircraft Industries Association.

The board, which plans to hold public hearings next week, is scheduled to make new air policy recommendations to Congress on March 1.

The industry reported listed among research planes now being flown or built the Northrop XS-4. This brought the first confirmation that the Air Force that the plane, another of its so-called supersonic series, is being built, although there have been published reports concerning it.

Only 3 Jet Fighters

Of the 39 military plane types now in operational service, the report showed, 27 are no longer in production. The entire list of planes in service included only three jet-propelled types, all fighters.

The remaining 40 plane types included 13 in production but not yet in operational service, 21 experimental and six research.

The report said that of the planes announced since the war ended as being in production but not yet in operational service, procurement schedules call only for several hundred at most and frequently for less than 50 of a type.

"The main strength of the Navy's air arm consists of 19 major types of planes no longer in production," the industry association said. "The Air Force still has in production eight types including four top combat planes that have been out of production since V-J Day."

Divorce Bill Introduced

WASHINGTON, Jan. 11 —(UP)— Sen. Pat McCarran (D-Nev.) has introduced a bill which would establish once and for all the validity of a Reno divorce.

McCarran's bill would provide that a divorce is to be recognized by other states provided:

(1) The decree was final and valid in the other states where granted,

(2) The decree stated that requirements of that state had been met and

(3) The granting state was the last state where husband and wife lived together or that the defendant in the divorce action was under that state's jurisdiction or personally appeared in the proceedings.

Guam Ex-Governor Cited

GUAM—In the decorations and citations section of the December issue of All Hands magazine, it was noted that Captain George J. McMillin, USN, of Washington, D. C., was awarded the legion of merit of the United States for duty on Guam. McMillin was the governor of Guam from 1940 until the Japanese occupied the Marianas in December, 1941.

Navy Tug to Assist Russian Derelict

TOKYO, Jan. 11 —(UP)— The 1,800-ton Navy tug Cocopa was being dispatched from Yokosuka Naval base today to aid the distressed Russian ship Dvina as predictions of worsening weather caused grave fear for the drifting vessel and her 800 passengers and crewmen.

The Navy said the Dvina was drifting helplessly eastward in heavy seas after parting her towline from a Russian patrol craft during the night. The Navy added that it would be "some time" before the tow could be established.

With the arrival of the Cocopa, first American-manned ship to reach the scene, the rescue fleet will reach a total of nine vessels. Already on the scene were three Japanese-manned ships, and five Russian vessels.

The arrival of three additional Soviet ships today made it apparent the Russians were determined to "police" the stricken ship to prevent her from being salvaged by the Japanese ships present.

Bandits Use Smoke Screen in Holdup

CAMBRIDGE, Mass., Jan. 11 —(UP)— Hurling three smoke bombs to blind and panic 200 customers and employees, three, fast working bandits held up the famous Harvard Co-op in traffic-jammed Harvard Square and escaped with $50,000 in cash.

The gunmen struck minutes after an armored car had delivered the cash to the store to be used for cashing checks for wealthy Harvard students.

Seizing the money bag, the bandits tossed one smoke bomb into the book department at the rear of the store, another in the shoe department at the front—thereby throwing a smoke screen before all exits.

Taking advantage of the resulting confusion, the bandits worked quickly and efficiently.

Lovers Evade Newsmen

LUXEMBOURG, Jan. 11 —(UP)— Ex-King Michael of Romania and Danish Princess Anne of Bourbon-Parma played a game of continental hide-and-seek with correspondents today in an effort to keep the world guessing about their romance.

The beautiful Anne left Copenhagen, Denmark, yesterady, presumably for a secret rendezvous with Michael somewhere in Switzerland. She made an unexpected detour, however, and stopped off here today to visit royal relatives.

Weather Forecast

Generally cloudy with occasional showers. Fresh easterly winds with gusts to 35 knots.

Yesterday's temperatures: Max. 84, Min. 76.

Yesterday's rainfall: 0.51 inches

Rainfall for month: 1.71 inches

Industrialists Asked to Aid In War Defense Program

WASHINGTON, Jan. 11 —(UP)— The government tonight invited 15 top industrial leaders to help gird the nation for any future war.

Defense Secretary James V. Forrestal asked them to meet here next Wednesday with the National Security Resources Board set up to handle advance planning of industrial and governmental mobilization.

The board was established under last year's military unification law which put Forrestal at the head of the nation's combined land, sea and air strength.

Thomas J. Hargrove, chairman of the munitions board of Forrestal's military establishment, will participate in the meeting. Arthur M. Hill, chairman of the resources board, will preside.

Hill said the industrialists were called because of their "board experience" in dealing with the basic problems of resources mobilization in World War II.

The industrialists were invited to help decide the scope and content of the board's mobilization program, what phases should get priority, how individual firms and specific industries can prepare themselves for any future war emergency, and the part that federal controls should play in the picture.

Orthodox Church Head To Try Members

LONDON, Jan. 11 —(UP)— The world head of the Russian Orthodox church, in a new attempt to control its American parishes, announced today that the North American head of the church and four of his bishops would be tried "for their stubborn attempts to split the church."

News of the scheduled trial was released here in the form of a Tass dispatch from Moscow distributed by the Soviet radio Monitor.

Meanwhile in New York, R. M. Arkush, General Counsel of the Russian Orthodox Greek Catholic church of North America, charged today that the head of the church in Moscow had ordered American church officials to trial because they refused to pledge allegiance to the Russian government.

Arkush labelled the scheduled trials as another attempt by Moscow to seize control of the American Orthodox church, with its 1,000,000 members and 250 parishes in the United States, Canada and Alaska.

Act to Prohibit 'Inside' Speculation Expected, Stassen

ST. LOUIS, Jan. 11 —(UP)— Harold E. Stassen, Republican presidential aspirant, said here today he believed Congress would enact legislation banning commodity speculation by government officials.

He told a luncheon audience of Republican supporters that he felt this would be the logical result of a current congressional investigation that started after he recently voiced charges of speculating by government "insiders."

The former Minnesota governor, here to launch a 10-state tour of the west and southwest, also demanded that machinery exports be cut off to Russia, who, he said, had received more such shipments in the past year than France and England together.

Coast-to-Coast Rail System Urged

NEW YORK, Jan. 11 —(UP)— Robert R. Young, chairman of the Chesapeake and Ohio, said today in a telephone interview that he foresaw the time when American railroads would be merged into eight or ten countrywide systems.

Busy with plans for a railroad system running from coast to coast and from New York to Florida, he also discussed the possibilities of having entire trains travel across the continent without the layovers that now are in effect. Young gave the interview from Palm Beach, Florida.

The great financial sucess of the experimental "one car to the coast" operation of the nation's roads between New York and California has made it imperative for the carriers soon to run entire trains from coast to coast, Young declared.

But the time has come when the individual roads can no longer oppose public demand, nor can they ignore the savings possible through longer runs for crack trains.

State Department Curbs Shipments Of Radar Goods

WASHINGTON, Jan. 11 —(UP)— The State Department clamped down on exports of war surplus radar tonight after Rep. Ross Rizley (R-Okla.) protested that some were going to Russia.

Elmer T. Cummins, executive secretary of the National Munitions Control Board, said radar hereafter will be classed as "arms" and that none can be exported without a license.

The action means that war-useable radar will not be shipped hereafter to Russia or to Russian satellite countries. Palestine also is on the list of nations to which exports of arms are not currently licensed.

Surplus radar of types declared by the Army to be non-secret have been sold heretofore without restriction by the War Assets Administration. Such equipment could be exported without control.

8 Killed in Mine Blast

PETITE ROSSELLE, France, Jan. 11 —(UP)— Eight miners were killed, five were missing and feared dead, and 42 were injured today when two explosions and fires they caused wrecked a coal mine near this east French village.

The injured, 16 of whom were still in a "grave state," suffered mostly from severe facial burns.

Late tonight, rescue workers still were groping their way through the smoke-filled shafts of the pit, searching for the five missing miners. Most of the victims of the disaster were Germans from the nearby Saar Basin.

Stalin Rumors Unfounded

MOSCOW, Jan. 11 —(UP)— Premier Stalin is in good health, a source that usually is unimpeachable told the UP today.

Rumors that he is ill are "unfounded," the source said. It was added that Stalin was not the patient that Dr. Ellis Berven, Swedish cancer specialist, came to Moscow to treat earlier this week.

(The foregoing dispatch is the first bearing on the state of Stalin's health that the UP has received direct from Moscow since rumors of his death were circulated this week. It was passed through the Russian censorship.)

Headline Highlights

BOSTON, Jan. 11 —(UP)— A crowded commuter train was wrecked at Back Bay station today, injuring an inspector—engineer, perhaps fatally, and hurting 70 passengers. Two hundred and sixty others were shaken up. Twenty-nine of those injured were women, many of whom fainted as the four-car train jumped the track and the locomotive overturned, mowing down a row of steel girders.

BERLIN, Jan. 11 —(UP)— The newspaper Nacht-Express reported yesterday that a 28-year-old woman received 2,437 offers of marriage in reply to her advertisement in a Schlewig-Holstein paper that she occupied a two-room apartment and received two food packages monthly from the United States.

DUNKIRK, France, Jan. 11 —(UP)— Mrs. Andree Vernieuwe of Hoymille gave birth to her 22nd child yesterday at the maternity hospital. The event brought to 19 the number of living children in the Venleuwe family.

RALEIGH, N. C., Jan. 11 —(UP)— Josephus Daniels, Secretary of the Navy during World War I, was described as "desperately ill" by his doctors today.

Red Cross Halts Operation of Clubs

New Years Eve saw the close of a great year and also the termination of an era. Though comparatively short in the sense of "eras", the American Red Cross terminated a war time service at this time, that of operating clubs for the enlisted men on Guam.

The Red Cross turned over to the Army and Navy over $15,000 worth of equipment in the five clubs. Those clubs which were vacated are: The Anchor Inn club at NAS, Agana, The Fleet's Inn club at NOB (vacated Dec. 15), The Aero club, Harmon Field, and the RC Gama club, also Harmon Field.

The latter two clubs were taken over by the Army Hostesses and will continue operation. The Navy will operate E M clubs under its Welfare and Recreation program.

This does not mean that the Red Cross is pulling up stakes and leaving Guam. In fact their field director service has been substantially increased, with new directors taking posts at the Marine Brigade and North field. Other directors are at Naval Barracks, NAS Agana, NOB Saipan and 20th Air Force.

Also increases are planned in the Red Cross staffs at the Naval Medical Center and the 22nd Station Hospital (MarBo).

R. B. Eldridge, regiment supervisor, reported that the organization is averaging 1800 welfare cases per month in the Marianas region through its communications with chapters in the States. These cases deal with adjustment of personal and family problems. As provided for in Army and Navy regulations.

Statement on Polio

A statement issued recently by Colonel James Murchison, Surgeon of the Marianas Bonins Command on polio says, "The public is advised of the seriousness of the dreaded disease of polio more at this time of the year during the campaign for the March of Dimes than at other times, when the incidence of disease may be higher in certain localities.

"The polio virus may strike at any or all times of the year. It is never quiet, but is active in some part of the world around the calendar.

"The polio strikes the young and the old, the strong and weak, the rich and the poor alike. No alert is sounded ahead of the outbreak.

"The fight on the polio virus is continuous.

"Scientists are at work in their laboratories throughout the year trying to isolate the polio virus.

"Your contributions to the March of Dimes will help to keep them on the job.

In an average group of 100 cases of polio;
50 will recover completely
25-30 will show slight after-effects
15-20 will be seriously crippled
5-10 will die

HARMON FIELD, Guam—New Years Eve, Aero Club: "so long fellows, its been grand." Miss Hilda Fisher, American Red Cross Club Director, bids goodbye to the men as the A R C clubs at Harmon Field are turned over to the special services army hostess service. Miss June Winters (right) ass't command hostess will replace Miss Fisher. Pictured with Miss Winters is Miss Elsie Obach who will assist her in the direction of the club, and seated at the piano is Miss Sarah Dalton A R C, who is also to say "goodbye." (USAF Photo)

De-worming Plan Begun

SAMOA—During the month of December, 1947, a program was started on American Samoa to accomplish a mass de-worming of the entire population.

The program also included the administring of the necessary immunizations consisting of either booster or initial injections against typhoid, tetanus and small pox.

Advertising for all social organizations on Guam will be permitted to submit free announcements to the GUAM NEWS Advertising Office in Agana for publication in "This Week" column which will be run on Sundays only. These announcements must be submitted to the ADVERTISING OFFICE not later than Friday of the proceeding week in which these announcements will be published.

USAFI Program Moving Ahead

HARMON FIELD—Under the guidance of the MaraMa I & E staff lead by Sgt. Isreal L. Heard of St. Petersburg, Fla., the United States Armed Forces Institute program is progressing rapidly.

Offering self study and correspondence courses to officers and enlisted men alike, the education program presents an opportunity for all active duty service personnel to gain further knowledge in special subjects ranging from social science to mechanical drawing.

Through USAFI, service personnel may receive college credit by means of university extension courses. They may also receive high school diplomas from some states schools throughout the country.

To date headquarters and base service squadron, commanded by Lt. Robert L. Witter of Baltimore M. D., is leading unit activity with a total of 25% of their personnel enrolled in USAFI. The 607th Air Material Squadron, commanded by Lt. Lawrence Holland is a close second with 22% of their personnel enrolled. For the entire Marianas area a total of 10% of all service personnel enrolled in USAFI.

Manus 'New Singapore'

LONDON —(UP)— Manus Island may be slated to become the British empire's new Singapore in the Pacific.

The island, in the Admiralty group northeast of Australia, was the keystone of Gen. Douglas MacArthur's advance to the Philippines. The United States spent $150,000,000 to make it a mighty naval base for the conquest of Japan.

A proposal for development of the island as one of Australia's main Pacific naval bases will be made to the cabinet soon by Navy Minister W. J. Riordan.

Manus Island is north of New Guinea, and the U. S. Navy made into a "Little Pearl Harbor" from a jungled, semi-explored wilderness.

'Tough' on Addicts

SHANGHAI —(UP)— The police authorities announced that they would definitely not postpone the enforcement, which went into effect the first of the year, of the opium regulation, which stipulates the execution of all non-registered addicts upon conviction.

All registered addicts must cure their habits within the prescribed period.

ATTENTION!!!
SERVEL
Kerosene Refrigerator
Stays Silent ..... Lasts Longer
Runs on Kerosene ... costs just a few cents a day to run. It brings you plenty of ice, homemade ice cream, space for frozen foods and for fresh meats and vegetables, and it operates anywhere!
There's never a sound, no worry about wear or repairs, either, with Servel. That's because it freezes with no moving parts. It has no machinery, valves, pistons or pumps. Intsead, a tiny kerosene flame does the work. Inside the Servel Kerosene Rfrigerator stays silnt, lasts longer.
Our quarterly allocation has just arrived. Persons having earlier reservations, please call for immediate delivery.

ELLIOTT'S
Agana, Guam

Inventor Sues Ford Motors

NEW YORK —(UP)— Harry Ferguson, an Irish-born inventor, accused the Ford Motor Company recently of appropriating his hydraulic system of hitching farm implements to tractors and sued Ford, three subsidiaries and eight individuals in federal district court for $25,000,000.

It was one of the largest civil suits ever filed in the United States and according to Ferguson's lawyers who handed in an abstract of the suit and notes on the Ford-Ferguson relationship to reporters at the federal building.

They also handed out a text of the suit, and pictures of the late Henry Ford and Ferguson smiling at each other across a table upon which was a model of a tractor.

Henry Ford II, President of the Ford Motor Company and one of the eight individuals Ferguson sued, had an answer ready within a few minutes after the suit was filed. It said Ford—not Ferguson—was the loser in the farm implement deal in question.

"The blunt truth about this relationship is that it made Mr. Ferguson a multi-millionaire and cost Ford Motor Company $25,000,000 in the process."

New Officers School

WASHINGTON— Approximately 500 Regular Navy officer transferees will report for duty under instruction at the inaugural class of the new Navy general line school at Monterey, California which convenes February 26, 1948. Half of the enrollees will be Naval aviators.

Education facilities of the school will be principally in the Del Monte Hotel, which is presently leased by the Navy. Congress has authorized the purchase of the hotel and other property in Monterey, but as yet no money has been appropriated for that purpose.

The curriculum, designed to give a well-bounded working knowledge of the Navy afloat and ashore, will include courses in seamanship, navigation, ordnance and gunnery, intelligence, communications, aerology, logistics, electronics and military law.

All transferred general line and general aviation duty officers, from the rank of ensign through commander, are required to take the ten-month course at sometime in their naval careers, and are assigned as available.

MEDICAL SERVICE CORPS

This is the first picture of the new insigna of the Medical Service Corps. This new corps is made up from former Medical Administrative Corps, Sanitary Corps and Pharmacy Corps officers. About 18 officers on the Island are affected by this change.

Traffic Perils

CHICAGO —(UP)— The National Safety Council finds traffic accidents more numerous in the 15 and 24 age group than in any other except that of persons 65 and over.

In its "Accident Facts," an annual statistical yearbook, the council said there were 34 traffic deaths among person 15 to 24 years old per 100,000 population in 1946.

In the 25 to 44 age group, there were 22 deaths per 100,000, in the 45 to 64 age group, 12 in the 5 to 14 class and 12 among children up to four years of age. Fifty deaths per 100,000 were recorded in the 65-year and older bracket.

The high death rate among elderly persons was attributed to the fact that many of them die of traffic injuries a younger person might survive, and also to the large number of pedestrians in that age group.

Boy Scout Program

At the second annual meeting of the Guam Council, Boy Scouts of America, held at the Coconut Grove Annex, Tamuning, yesterday, an interesting and instructive program was presented to members who are to serve the youth of Guam for the year 1948.

Monsignor Oscar L. Calvo was elected president of the council, succeeding A. T. Bordallo, who moves to the Executive Board, and was elected national council representative for the National Council meeting at Seattle in May.

Monsignor Calvo is well known among the people of the Island for his service to his people. An enthusiastic Scouter, he has lent his hand to every Boy Scout interest since the idea was first presented in 1945.

Under his direction, the council is expected to go over the thousand mark in membership and to solve some major pressing problems such as the future financial success of the group.

Others Named

Judge Francisco Lujan, Simon A. Sanchez, superintendent of schools, and Frank D. Perez were elected as council vice-presidents, and Judge Jose C. Manibusan was made the new treasurer. Francisco B. Leon Guerrero was relieved as the Council Scout Commissioner.

New members of the Executive Board for 1948 (in addition to the above named) are: Charles Ellis and Jose Guzman, Sinajana; Vicente Cruz, Piti; Jesus Barcinus, Merizo; Alfred Sablan, Agat; Joaquin Torres, Santa Rita; B. J. Bordallo, Tamuning; Innocentio Afiague and John Martinez, Agana; Pedro Cruz, Barrigada; and A. T. Bordallo, Agana Heights.

Additional members at large of the council were elected for the year 1948 to serve on the various council committees. These include Joaquin T. Aguon, Toto; Jose Aguon, Talofofo; Manuel Lujan, Yona; Juan Muna, Barrigada; Francisco Sanchez, Umatac; William U. Lujan, Sinajana; Alfred Flores, Inarajan; George Franquez, Agana; Felix Pangelinan, Santa Rita; Bernardo Punzalan, Tamuning; Tomas R. Santos, Barrigada; Frederice T. Gutierrez, Agana Heights; and V. C. Reyes, Sinajana.

Two associate memberships were voted. These were for Major William E. Stell, 1st. Provisional Marine Brigade, and Dr. Joseph M. Sataloff, of Philadelphia, past national council representative.

Honorary memberships were voted for Radm. Charles A. Pownall, USN, Governor of Guam; Most Rev. Appolonaris Baumgartner OFM Cap., Vicar Apostolic of Guam; Capt. Milton H. Anderson, USNR, civil administrator; Capt. Harry C. Oard, USN, Guam Memorial Hospital; Capt. Carl K. Youngkin, USN, public health officer; Judge John C. Fischer; Dr. J. C. Harmeyer, head of the Baptist Mission on Guam; George Hall, head of the Department of Education; and E. T. Calvo, chairman of the House of Assembly of the Guam Congress.

The new officers and council members were invested in a colorful ceremony involving nearly 200 scouts. Their investiture took place as the closing ceremony, of the annual meeting.

Solution Promised

MASSILLON, O. —(UP)— A possible solution of the baffling Massillon city hospital baby slayings within three months was promised as the year neared its end.

In an interview with United Press, Stark County prosecutor D. D. McLaughlin told of a "promising new suspect" in the case.

The slaying of eight-weeks-old Rosemary Morton and nine-weeks-old Liana Brand was written off the books by city police when six-year-old Roger Gue confessed that he accidentally killed the infants "while playing nurse with them."

Dissatisfied With Story

However, McLaughlin and his detectives Harry Grossglaus were dissatisfied with the boy's story. They made tests which they said proved he could not have been responsible for the death of the infants who were found in their cribs on June 6 with their skulls crushed.

"The babies' deaths were violent crimes," McLaughlin said, "not accidents."

"We never were completely satisfied with the boy's story. To back us up we have the coroner's and medical reports and the findings of two psychologists who examined Roger."

McLaughlin said it was his duty to prove persons accused of a crime guiltless if they were innocent as well as convict those guilty. He added that they considered Roger innocent.

He said the new suspect looked "very good," but added that vital witnesses had left town and that the investigation could not proceed until they returned, probably in three months.

"We really think we have something this time," he said.

"One witness" said the suspect was now in jail on a rape charge and had confessed to several other crimes in Massillon recently." He added:

"One witness said he saw the man lurking around the hospital on the night of the slayings. A second witness said he only 'thought' he saw him there but he wasn't sure."

"We have two other persons we want to view the suspect but we must wait until they return to town," McLaughlin said.

Navy Dept. Announces Customs Law

The Navy Department announced yesterday that complaints received indicated a lack of familiarity of service personnel with provisions of public law 384, eightieth Congress, allowing duty free entry of so much of any bona fide gift parcel as does not exceed $50.00 in value.

The announcement directed the contents of the law be again promulgated to all Hands.

Commands outside customs territory the United States were directed to have their mail clerk inform senders that any parcel without complete certification as required will be subject to customs inspection and assessment of duty which must be paid by the addressee prior to delivery by local postmasters.

Actual Value of Article

Attention was invited to the fact that custom duties are assessed on actual value of the article which is not necessarily the purchase price.

Navy Department bulletin 46-734 provides that any shipment that does not exceed $50.00 in value shall be admitted into the U. S. or its territories or possessions free of all custom charges, if there is filed in connection with the entry satisfactory evidence that the articles for which free entry is claimed were purchased in or through authorized agencies of the armed forces on duty outside the continental limits of the U. S.

The shipment of such articles must be accompanied by a declaration of the donor and signed by a duly designated officer of the armed forces. These declarations are obtainable at your post office.

Largest Plane

NEW YORK—(UP)—The largest passenger plane actually in use on world airways, capable of carrying more than 100 passengers, has been placed in service by air France. It flies between Biscarosse, seaplane base near Bordeaux, and Port de France on the island of Martinique in the West Indies.

The French air giant, known as Latecoere 631, stands nearly 33 feet high, is about 185 feet from tip to tip and weighs 79 tons. It is powered with six motors of 1,600 horsepower each.

Flying Boat

The new two-deck giant comet, which is a flying boat, has a speed of 186 miles an hour and covers the more than 5,000 miles between Biscarosse and Fort de Frange in 26 hours and 30 minutes flying time. It is on a twice a month schedule.

Although it is capable of carrying 100 passengers the comet is being restricted to 46 passengers to provide them with seats for 15, in addition to stools around the bar, individual folding tables and a divan.

Air Safety Regulations

PARIS —(UP)— On warm days, airplanes soon may have to unload several pounds before takeoff, if new safety regulations proposed in Paris go into effect.

The International Civil Aviation Organization held a special conference with eight countries (Argentina, Belgium, France, Holland, Nicaragua, Switzerland, the United Kingdom and the United States) to discuss regulations for international air transport based on new findings of temperature effect on flight.

High Temperatures

"High temperatures never really have caused accidents," K. J. Spencer of the United Kingdom and chairman of the committee said. "But there can be no doubt that heavy loading in warm climates has been a factor in accidents."

After a fortnight's work, the committee on temperature accountability had boiled down safety ruled of various countries to two possible world-wide safety systems.

1. Different airfields should limit baggage and passengers according to the mean temperature of the airport, which could be made over a period of months. (This is the easiest regulation to apply.)

2. All flights should check the immediate temperature and limit baggage and passengers accordingly.

"This would mean that if temperatures, say on a specially warm October day, were higher than the mean, an odd passenger might be dumped off at the last minute," Spencer said.

"I know it sounds fantastic, but we will stop at nothing to insure safety in the air."

ICAO is an organization of international air transport at government level. The suggestion of the temperature committee will be taken up next year in Montreal for final decision.

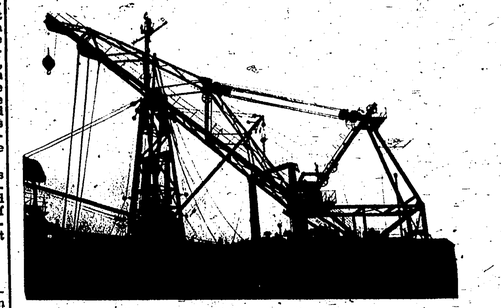
"You sure you've got it timed right??"



The 60 ton floating crane now in use to give aid to unloading of the many ships arriving here is a mighty big help to the dock officials. This crane is one of the few of this type in this part of the Pacific. It has a capacity of 95 tons. It is operated by a 7 man crew. The crane is dispatched to ships of the Army Transport Service where speed is necessary in the unloading of the ship. This versatile crane has a 360 degree turn. (Signal Corps Photo)

Tchaikovsky Music in Operetta

NEW YORK —(UP)— Setting an episode of the career of Peter Llych Tchaikovsky to his own music sounds like a reasonably good basis for an operetta, but the show called "Music in My Heart" has little to recommend it aside from the Russian master's melodies.

It would be better to get them through phonograph recordings, unadorned by the lyrics which Forman Brown has fashioned for them in this Henry Duffy production.

All of the operetta clinches are present, including what seem like worse comedy attempts than usual. The unfortunates saddled with this chore are Vivienne Segal, who was once outstanding prima donna of operettas some years ago, and Han Murray, a facile comedian from the night clubs and vaudeville stages who has a sad time of it in his first legit effort. No fault of his, however.

The show's theme is Tchaikovsky's passion for a Parisian singer named Desiree Artot. The book by Patsy Ruth Miller deals with an episode of Tchaikovsky's early years when he was enamoured of a French singer of the above name who jilted him. In this production the composer is alone on the stage at the end, pounding the piano and dedicating his life to music.

Franz Steininger, who conducts the excellent pit orchestra, seems to have done a good job in selecting the melodies used and no expense has been spared in the production. However, the leading singers are not always what might be desired, and, as mentioned above the lyrics are strictly run-of-the-mill.

One good thing about the show is that Tchaikovsky, in the person of Robert Carroll, is not called upon to sing. He plays the piano and Carroll actually does it; there is no faking in the orchestra pit.

KEROSENE

Over The Joepot

by Bill Jury

Following the Rose Bowl game on New Year's Day the West Coast went back to the dark ages as far as football was concerned, but as Hal Wood, a coast sports writer indicates, there's nothing wrong with western college football that a new cycle wouldn't cure.

Wood admits that while things are mighty gloomy on the Pacific Slope, the East is basking in the sunlight after Michigan's 49 to 0 thumping of Southern California in the Tournament of Roses and the East All-Stars 40 to 9 runway from the West in the Shrine classic. On the other hand he took a squint at the record book and found that the West was still ahead in both the East-West and Rose Bowl games. Out of 23 Shrine battles, the West had come out on top 12 times, lost seven and tied four. In the 24 Rose Bowl games, the Westerners triumphed 16 times, the East 13 times and five had ended in ties.

The big alibi in the West right now is that the Pacific Coast is a year or two behind the Mid-West and East in recovering since the war as many colleges in the West did not play football during the war years, thus retarding the development of many gridders.

The East has had its troubles too and before the war there was a familiar cry arising that it was impossible for Mid-West and Eastern teams to compete on an even basis with West teams in the Rose Bowl because the East schedules ended earlier than those of the West. Another one was that Mid-West and Eastern football players were not used to Southern California climate.

Whatever the reason it seems they have been able to adapt themselves pretty well during the last few years. From here it looks as if the PCC is going to be mighty sorry they ever made that contract with the Big Nine concerning the five year playoffs with the champs of the Mid-West and the title team on the Coast. With Minnesota and Wisconsin looming ever bigger on the horizon one could safely bet that the West's average in the Shrine and Rose Bowl games will drop a couple of notches more before the Coast can get back in the groove.

Baseballers Answer Certain Questions

NEW YORK —(UP)— Funny thing about ball-players. They'll only answer questions which suit them.

All the coaxing, conniving and cajolery in the world won't get them to reply to a reporters queries when they're set against answering.

The question which a vast majority of hitters never will answer, for obvious reasons, is "What pitcher gives you the least trouble?" Conversely, the query most hurlers dodge is "Which hitter is the easiest to get out?" Some players give a four-star performance during those informal question-and-answer sessions.

Outfielder Dave Philley of the Chicago White Sox is a difficult subject to interview, not because he's uncooperative, but because he rarely has much to say. One writer, who attempted to learn about drawling Dave's experiences in the American Association, gave up after 15 minutes of stress and strain.

The scribe, attempting to break the conversational ice, asked Philley, "was there any particular park you liked to hit in while you were in the Association?"

The White Sox outfielder shook his head in the negative.

"Any pitcher give you a great deal of trouble in that league?"

"Nope."

"Was there any particular accomplishment which gave you a kick in the minors?"

Philley thought a few seconds and then answered "no."

After several interrogations elicited the same type of reply, the writer reversed his field and laughingly inquired, "Are you glad to be alive?"

Philley allowed himself a grin and said "yup."

Catcher Walker Cooper of the Giants is another tough customer. A reporter, not having too much success with the husky receiver, suddenly asked, "How much money is the club paying you this year, Coop?"

"I don't talk about those things," the catcher replied.

"And you don't talk very much about other things, either," sighed the journalist as he concluded the "interview."

Al Schacht Opens New, Fancy Restaurant

by United Press

Al Schact, baseball's clown prince, has finally opened his new restaurant. Schacht's Shack retains the baseball motif of the first place, which he opened about five years ago, but it's a much fancier place.

Al's brother, Lou, a designer of some note, did the place for him and turned in a tasty job in green upholstery and paneling of natural-color wormy chestnut that keeps the primary colors of a baseball diamond always in mind. One hundred thirty big league baseballs and bats went into the decorative scheme.

Behind the bar is a unique mirror that presents Al's all-time team of greats. A diamond, names and statistics are etched on the glass and nine panels contain the pictures of Dickey, Gehrig, Collins, Ruth, Johnson, Speaker, Cobb, Wagner and Traynor. However you see only one picture at a time as it is lighted in rotation. No pictures are visible when the electricity is turned off.

Al also has his own sports broadcast now on station WOR on Saturday nights.

Maxim Wins Decision

NEW YORK, Jan. 11 —(UP)— Joey Maxim of Cleveland spotted Ollie Tandberg 29 pounds last night and spoiled the Swedish heavyweight's American debut by winning a majority 10-round decision before 10,488 fans at Madison Square Garden.

Tandberg, who surprised the boxing world by beating Joe Baksi at Stockholm last July, looked like a willing amateur who would scarcely make a good sparring partner for Heavyweight Champion Joe Louis.

He used his advantage of height, weight and reach but he was so inept in boxing that he permitted the Italian to land more and cleaner punches.

NCAA Adopts 'Sanity Code'; Establishes Enforcement Agency

PCC Has High Hopes for NCAA 'Sanity Code'

NEW YORK, Jan. 11 —(UP)— Members of the Pacific Coast Conference believe the new "sanity code" of the National Collegiate Athletic Association will help bring their football teams back on a par with those in such conferences as the Big Nine.

But it will take several years to do it and no one from the coast who attended the NCAA meeting that ended here today expects the Western representatives in the Rose Bowl to fare very well against the Big Nine entrant for the next three years.

The "sanity code" sets up national rules governing the recruiting of athletes by colleges and universities. Heretofore each conference has made its own rules. The Pacific Coast Conference rules were probably the most drastic in the country. For instance, a Pacific Conference coach, under the old regulations could not even write a letter to a promising high school football player. Nor could he suggest to an alumnus that he get in touch with the boy. Other conferences were not so strict. In the Big Nine a coach could suggest to alumni groups that they get in touch with promising football players anywhere in the country.

Now the same rules apply to everybody. Coaches are not allowed to offer any inducements, direct or indirect, to high school athletes.

Groups also are barred from engaging in such activity. Scholarships cannot be awarded on the basis of athletic ability. This rule applies to all members of the NCAA which includes virtually all major colleges and universities.

Although none of the far West officials at the meeting would permit use of his name and all were careful to avoid pointing an accusing finger at any one, they were agreed that the recruiting system in vogue out there since 1939 had been the major factor in the decline of Pacific Coast football fortunes.

Basketball a Sick Baby Comes As Surprise

NEW YORK —(UP)— It came as quite a surprise that the game of basketball is a mighty sick baby.

All we've been hearing up to now in this young season is that tickets for major games in every corner of the nation are scarce.

Basketball looks healthy enough but coaches of teams with intersectional games on their schedules rapidly are reaching the blow-up stage as the game continues to suffer from too many "dialects."

The officiating and naturally the style of play is different in every section and it's growing worse, which is a rough deal for 1948 when candidates for the U. S. Olympic basketball team may be penalized or handicapped during the tryouts by playing the type of game in vogue in their particular areas.

As Southern and Western coaches trek eastward for the lucrative doubleheaders at Madison Square Garden and other seaboard points, the weeping and wailing grows in intensity.

In the East, officials run the game strictly by the rulebook while the South and West have looser interpretations on some points, stricter on others. The difference in officiating alone could be account for 10 or more points against a visiting team from a far off section.

It's time something was done to standardize officiating but nobody knows what. There are, however, plenty of suggestions.

Wilbur Johns of U.C.L.A., chairman of the rules committee of the Basketball Coaches Association, would like to see half the rules eliminated.

"If it's too hard for officials to interpret the rules as they're written, let's kick out half the rules," he said. "Let's be honest about it. There's too much whistle blowing."

Defending the tooters is Dave Walsh, supervisor of officials for the bulky Eastern Collegiate Athletic Conference.

"What else can we do but follow the book?" he wants to know. "If everybody did it throughout the country there wouldn't be any trouble. If the book's not right, let's get a new rulebook. We'll follow what they give us."

Limits Financial Aid to Athletes

NEW YORK, Jan. 11 —(UP)— Admitting it was under "suspicion and scrutiny," the N.C.A.A. today adopted its "sanity code" limiting financial aid to athletes and set up an enforcement agency to drive home its plan for purification of intercollegiate athletics.

Only slight opposition arose as delegates to the annual convention approved the five-principle code which will govern 275 member schools and also affect non-members who wish to retain relationship with NCAA members.

And immediately after rushing through the purity measures, the delegates named a three-man college F. B. I., to be known as the "constitutional compliance committee," which will investigate cases.

The important investigating agency is headed by Clarence P. Houston of Tufts, chairman, and the other two members are Raplh W. Aigler of Michigan and James H. Stewart of the Southwest Conference.

The "purity code" principles are:

1. Strict amateurism in that athletes may not be paid.
2. Institutional control and responsibility for correct conduct.
3. Second academic standards for all students, including athletes.
4. Limited financial aid, as publicized and based on scholastic standing.
5. Limited recruiting, under which athletic staffs must not make offers of financial aid.

Cage Game To Return To Campus

NEW YORK, Jan. 11 —(UP)— Heeding the rumblings attached to the big-time basketball promotions by private interests Dr. Carl Leib of Iowa, president of the NCAA, today predicted that the sport would be "returned to the campus" in the near future.

Leib, in his annual address to the organization's heads have an "ardent desire to take basketball tournaments back to the campus of a member institution."

Currently and aproved for this year also the NCAA regional tournaments are staged in Madison Garden, New York and the Kansas City Municipal Auditorium, with the finals in the big Manhattan arena.

Games at those courts and particularly in Madison Square Garden, have reached the status of a major promotion—with attending evils as a result of control being in the hands as purely a business interest.

Jet Pilot Almost Forgotten Horse In Year-End Polls

NEW YORK —(UP)— Early last spring Jet Pilot made headlines when he won America's most glamorized horse-race—the Kentucky Derby—but the chestnut colt was almost forgotten as the New Year got underway.

In year-end polls to determine divisional champions Jet Pilot gathered few votes from the experts, while the attention of the racing public long since had been distracted by the three-year-olds who remained in competition.

Phalanx, Fervent, Faultless, Cosmic Bomb and Double Jay were the big guns as the season closed, but not one from the coast who attended the NCAA meeting that ended here today expects the Western representatives in the Rose Bowl to fare very well against the Big Nine entrant for the next three years.

British Deputy Minister Attacks Russia

LONDON, Jan. 12 —(UP)— Deputy Prime Minister Herbert Morrison told Russia today that their policies—including untruthful and malicious charges against this country—were impeding European recovery and threatening to provoke a new war.

Morrison attacked unsparingly the Russian Communist satellite system in eastern Europe as undemocratic, unrepresentative and oppressive.

Asserting that promotion of international peace was a keystone of British policy, Morrison said that such promotion entailed "availability and if necessary readiness to use armed force to prevent an outbreak of violence."

Britain would like nothing better than to co-operate with Russia, Morrison said.

"But we can not be expected at all times to lie down to untruthful and malicious attitudes which ruin our government by the reckless propaganda machines of the Russian Communists and of Communist parties of the world which conduct themselves as servile, automatic outposts of the Soviet foreign office," Morrison said.

"....Nobody is seeking to upset the internal security of the Soviet Union. Can not they begin to reverse their engines and to discard the provocative policies by which they are not only running the risk of war at some time but are impeding economic recovery and progress of mankind."

He commented that he could not understand why Russia tried to sabotage the Marshall recovery plan unless it was following the doctrine that Communism could triumph more easily if there were more misery in the world.

Refinery Workers Return to Jobs

TEXAS CITY, Tex., Jan. 12 —(UP)— Employes of the Pan American Refinery returned to work today after settlement of a 10-day-old strike and company spokesmen said the flow of fuel to east coast states, which have been affected seriously by the walkout, would be resumed early tomorrow.

Workmen began loading six tankers today, including the Pan American with 130,000 barrels capacity and the Bulklube with 160,000 barrels capacity. Two more tankers were expected here shortly to take on fuel.

The strike, which idled 1,400 refinery workers, was settled yesterday. It began Jan. 1 when members of local 449 of the CIO oil workers' international union walked off the job in support of demands for a wage increase of 50 cents an hour.

Martin J. O'Connell, field director of the federal mediation and conciliation service, said that the company and union agreed on a 25 cents an hour increase.

The strike had shut off shipments to distributors from Maine to Virginia.

Thomas to Show Personal Records

WASHINGTON, Jan. 12 —(U.P.)— Sen. Elmer Thomas (D-Okla.) offered today to bare all his personal records on commodity market holdings and other investments to prove that he has not taken advantage of "inside information" to speculate for profit.

Chairman Homer Ferguson (R-Mich.) of a Senate subcommittee investigating speculation promptly took him up on the offer.

Thomas said he had not yet been able to establish definitely whether his wife was the "Edith Thomas, Washington, D. C.," who was named yesterday on an agriculture department list of speculators.

He emphasized, however, that he was not trying to deny the holding of 300 bales of cotton futures on July 31, 1946, which was attributed to Edith Thomas.

The Agriculture Department is publishing lists of commodity market traders in compliance with a subpoena from the Senate Appropriations Committee, which began a checkup after Republican presidential aspirant Harold E. Stassen charged that Edwin W. Pauley and "other administration insiders" were cleaning up in the market.

Russia Threatens To Force U. S., Britain From Berlin

BERLIN, Jan. 12 —(UP)— The official Red army newspaper Taegliche Rundschau published an implied threat today that the Russians would attempt to force the United States and Great Britain out of Berlin because of their new agreement to unify western Germany.

"Britain and the United States have entered the dangerous course of violating the (allied) control mechanism which will unavoidably lead to a change in the occupation statute of Berlin," the newspaper said in a first page editorial.

"It can no longer be tolerated that Berlin becomes the object of separatism. There is no space in Berlin for the supporters of German partition."

The editorial was signed by M. Sobinov, a Red army officer.

Gen. Lucius D. Clay declined comment on the editorial. But allied authorities were expected to take it seriously because of the prominence with which it was published in an official Russian army organ.

It was suggested that the Russians might make the first step in a campaign to force the Americans and British out of Berlin on Jan. 20 at the next meeting of the four-power allied control council, supreme governing body of all Germany.

Car Industry Agrees on Exchange

DETROIT, Jan. 12 —(UP)— The automobile industry today announced new agreements for continued exchange of inventions without compensation or fear of infringement suits.

Major Portion

The cross-licensing plan covers the major portion of motor vehicle manufacturers. Under it, the firms have not filed a single infringement suit against each other since 1915.

George Romney, managing director of the Automobile Manufacturers Association, said 17 firms—all in the industry except Ford and Packard—signed the pact covering patents owned on Jan. 1, 1948.

The agreement extends to Jan. 1, 1952, but the companies are protected in the use of their inventions perfected since 1940, giving them an eight to 12 year period to exploit their individual developments in the competitive auto market.

Only Ford remains outside of the AMA. Packard is a member but does not participate in the present agreement. However, Ford licenses anyone to use its patents without charge and Packard charges only a "reasonable fee."

The 17 firms make 95 per cent of all the motor vehicles manufactured by members of the association. In 1947, they made about 77 per cent of all the cars and some 80 per cent of all trucks turned out in the United States.

Auto companies adopted the first cross-licensing agreement in 1915 after many years of litigation over patent infringements, which they felt wasted time and money and slowed the industry's progress.

Marine Commandant Denies Charges

PHILADELPHIA, Jan. 12—(UP)— Gen. Clifton B. Cates, Marine Corps commandant, tonight denied "reports" that Marines will go to Palestine or that assignment of some 1,000 Leathernecks to the Mediterranean last week meant that the "Corps is looking for trouble."

"If it did," Cates said, "we wouldn't be sending a scrub team to take the place of the varsity."

Routine

He termed the assignment of Marines to ships of the U. S. Navy "fleet" now in the Mediterranean "routine" and denied that a detachment of the Corps will guard the U. S. legation in the Holy Land.

Later, the recently appointed Marine Corps chief, told 17,000 ex-Marines and their friends who jammed Convention Hall to overflowing, that "there never has been too many Marines."

"We do have enough Marines for our basic needs," he said. "I feel like a football coach who looks around and realizes the team on the field is just about the only team he has."

King Carol Blesses Son

LISBON, Portugal, Jan. 12 —(UP)— Former King Carol of Romania gave his blessing today of the romance of his son, former King Michael and Princess Anne of Bourbon Parma, and said he hoped to see Michael soon.

He said also, in his first formal statement on Michael's abdication, that he believed it was forced upon him and that it constituted a new warning to the world against Communism in Europe.

Greek Paper Attacks U.S. Aid Administrator

ATHENS, Greece, Jan. 12 —(UP)— The royalist newspaper Acropolis, sharply attacking U. S. Aid Administrator Dwight P. Griswold's gold policy, today compared American authorities in Greece to the Nazis who occupied the country during the war.

The gold issue has been a source of sharp conflict between the U. S. aid mission and the government, which reportedly has threatened to resign unless it is given full powers to deal with the situation.

Curb Prices

The government wants to curb gold prices by heavy sales of the precious metal on the Athens market. The aid mission agrees in principle, but has insisted that it be consulted each time such action is taken.

The British pound soared to an all-time record price of 235,000 Greek drachma on the market yesterday, but dropped off to 225,000 late in the day after a fairly sizeable amount of gold had been sold by the government-controlled Bank of Greece.

A Sharp Kick

Acropolis charged that Griswold's statements on gold "gave the drachma a sharp kick," and added that the price of the pound sterling had increased from 149,000 drachmas to its present level since the U.S. administrator arrived last July.

The newspaper compared the situation to the inflation in the fall of 1942, when the Nazis held Greece and declared that "we are living again in an occupation period."

U.S. Officer Shot at

BERLIN, Jan. 12 —(UP)— Russian border guards today fired five shots into an automobile in which Maj. Richard R. Baker, United States Air Force, and his wife were driving.

Baker suffered a nicked finger. He was not sure whether it was caused by a bullet or by flying glass.

Baker, attached to the judge advocate's office at Wiesbaden, said he was passing through a barrier a Helmstedt, a check point on the highway between the British and Russian zones, 125 miles west of Berlin.

The Russian guard permitted his car to pass 75 yards beyond the barrier and then opened fire.

Labor Confederation Supports Italian Strikes

ROME, Italy, Jan. 12 —(UP)— The Communist-led National Labor Confederation ordered 160,000 tax collectors to go on strike tomorrow to support 60,000 striking bank workers, and to stay out until the bank strike is settled

Giuseppe Di Vittoria, Communist general secretary of the confederation, issued the call after government and bank representatives failed again to end the crippling dispute. Their fourth meeting broke up at 2:30 p. m. without agreement.

The strike of bank employes for higher wages entered its third week with businessmen demanding that the government settle it at once. The bankers' association estimated $102,000,000 worth of business was being held up.

Businessmen said they have been charged interest as high as 120 per cent on liquid credits from non-bankers. Most firms have not met payrolls for two weeks and even the state-owned bank of Italy said it may close down during the walkout.

The determined Communist campaign to unseat Premier Alcide De Gasperi's government, interrupted during the Christmas holidays, was intensified with these new strike threats:

1. Milan, by workers for the Municipal Electric Company; may shut off power for half the city; police reinforcements called out.
2. Rome, by employes of a privately owned water company.
3. Forli, a general strike Jan. 15 unless jobs are found for 30,000 unemployed.
4. A nationwide strike of newspapermen Jan. 18 for higher wages.
5. By dock workers at Naples and Genoa, paralyzing Italy's greatest ports. The Naples strike went into its fifth day. Workers at Civitavecchia, the port of Rome, walked out in sympathy yesterday. Leghorn was threatened.
6. Seventy-five thousand farm hands in Venice province continued their strike through its fifth day. Farm workers around Naples began to join them today.
7. Workers at Ancona on the Adriatic remained in their shipyards to enforce demands for increased pay.

U.S. Loses Only Testing Grounds In Panama

WASHINGTON, Jan. 12 —(UP)— The U. S. Army lost its only testing ground for poison gases and other war chemicals with abandonment of 14 military bases in Panama, an American chemical society publication said today.

Tiny San Jose island, 50 miles off the coast of Panama, was among the installations covered by the proposed canal-defense agreement rejected by the Panamanian national assembly last month.

Believed haunted by the natives, San Jose was uninhabited when acquired by the Army in 1942. The chemical corps spent $1,000,000 to $15,000,000 developing the island into a research and development establishment.

It first was used as a testing ground for chemicals under tropical conditions—important at that stage of the war. Subsequently it proved "an ideal testing area" for other materials and all other similar proving grounds were abandoned the Chemical and Engineering News reported.

During the postwar period San Jose was continued as a testing ground for toxic chemicals since it was the most remote spot available for such work," the publication said.

"With the closing of this installation the chemical corps is now without a satisfactory testing ground, and many of the long-range projects which were underway have to be discontinued and the results lost."

Rescue of 800 Dvina Passengers Started

TOKYO, Jan. 12 —(UP)— Crewmen of Soviet patrol vessel No. 30 tonight began removing the first of 800 passengers from the waterlogged Russian motorship Dvina in what could become one of the greatest peacetime marine rescues —or disaster—in history.

A spokesman for the Soviet mission to Japan here said that it had received word from the patrol ship, which is similar to a U.S. destroyer escort, that it had already succeeded in taking off an unspecified number of passengers.

Reports to U. S. Naval headquarters from two Japanese ships standing by also said passengers were being removed from the Dvina in gathering darkness.

The passengers were being transfered to the Russian naval vessel in moderating weather, but a forecast of renewed heavy seas and high winds spurred the efforts, the Japanese ships reported.

Weather Forecast

Overcast with clearing late tonight. Frequent heavy showers today. Scattered showers tonight. Fresh to strong southeasterly winds with gusts to 40 knots.

Yesterday's temperature: Max. 79.5; Min. 75.

Yesterday's rainfall: 0.87.

Rainfall for month: 1.60.

British Make Formal Protest Against Invasions

JERUSALEM, Palestine, Jan. 12 —(UP)— An Arab force which invaded north Palestine Saturday has retreated back into Syria, British military headquarters announced today, and Arab sources said another such invasion is unlikely to occur until the British leave Palestine.

Dispatches from Beirut said the British minister to Syria had made a formal protest against the invasion to the Syrian government. The protest politely said that Britain would be responsible for peace and order in Palestine until the withdrawal set for May 15.

Returned to Normal

A British communique said the situation in the Palestine area had returned to "normal" but dispatches said that heavily armed British troops had dug in along the frontier to prevent any new Arab thrust.

Haganah reinforcements continued to pour into the northern border area to protect settlements there. Eight of the settlements, in an exposed position, are guarding the British force which helped Jewish troops beat back Arab attacks on Kefar yesterday.

Guam in Storm Condition Two

COMMANDER MARIANAS—The Marianas Islands underwent storm condition two at approximately 1630 yesterday afternoon when a tropical storm was reported at that time to be located 150 miles due south of Guam and moving northwest at a twelve knot speed.

At this writing last night, the storm was reported to have moved to within 100 miles of Guam and still moving in a north westerly direction, with core winds of 60 knots and 30 knot winds extending to a 150 mile radius.

Condition two, the first in the Marianas in fifteen months, was not issued because the storm was expected to hit Guam, but due to the fact that the only sure means of ascertaining the storm's nature and direction, aircraft observence would be rendered inadequate after nightfall, and the precautionary measures would be necessary for total assurance the Islands would be prepared in case of a sudden change.

Headline Highlights

WASHINGTON, Jan. 12 —(UP)— The Navy said today it has set a new world record of 10,581 miles for regularly-scheduled long range radio-photo transmission.

WASHINGTON, Jan. 12 —(UP)— High administration officials are searching "diligently and hopefully" for a formula that would satisfy both Congress and the State Department in administering the Marshall European recovery program, it was revealed today.

Nevada, Utah Feudin' 'n Fussin'

LAS VEGAS, Nev., —(UP)— The state of Nevada, already threatened with a lawsuit for stealing Utah's clouds, was charged with stealing its neighbor's tourists.

Gov. Vail Pittman admitted here that Utah officials had complained Nevada was sending people on a roundabout trip through every Nevada waterhole to get to Salt Lake City, Utah.

The Nevada signs claim the Nevada way to Utah is the "fastest route." Utah says the Utah way is 100 miles shorter and has better weather.

Since the signs went up, they added, the Utah cities of St. George and Cedar City had lost 18 per cent of their business.

Investigating Complaints

Pittman, attending a Senate subcommittee hearing, said he was investigating the complaint and would have the signs changed if they were wrong.

It was Utah's second cry of thief in a week. When Nevada tried to make snow by bombing cumulus clouds with dry ice, Utah Attorney General Grover Giles got out his law books to "consider carefully" filing for a federal injunction to keep Nevada from stealing water nature meant for Utah.

NAS Orote Has Rat Drive

AGANA — In an all-out effort to eliminate rats, NAS Orote has instituted an inter-hut competition. A beer party will be given for the hut trapping the most rats before termination of the rat campaign.

In addition to this competition, NAS also set poisoned baits for rats and 67 dead rats have been counted already.

Miss Paris of 1947 To Marry American GI

HOBOKEN, N. J.—(UP)— Miss Paris of 1947, who spurned 40,000,000 Frenchmen to marry the American GI who made her the "Dinah Shore of Paris," walked down the gangplank of the liner Westerdam into the arms of balding, 33-year-old Ray Mack.

Kay Trevil, 24, a can-can dancer and singer said she will marry Mack at his, Columbus, O., home and then will join a show he hopes to take on a road tour.

Embraces Beauty

Male passengers aboard the Holland-American liner watched with startled interest as Mack embraced the five-feet, nine-inch beauty and kissed her repeatedly at the request of news photographers.

Mack, who met Miss Paris while he was managing an Army show in Germany, said he hopes to take a show on tour for the benefit of disabled veterans.

"I learned to speak good English with the American Army," Miss Trevil said. "I have been in show business all my life. I sang and danced at the Tabarin in Paris."

The National Foundation for Infantile Paralysis has authorized over $6,000,000 for research in grants to universities, laboratories, hospitals and other institutions, to find a preventive and cure for this disease.

White House to Get $15,000 Balcony

WASHINGTON—(UP)—President Truman soon will have a $15,000 balcony off his bedroom—like those of many colonial mansions—so that he can relax on summer evenings away from the gaze of passers-by, the White House disclosed today

The balcony, or porch, will be built off the President's second-floor bedroon and study, and will not extend beyond any of the six huge columns which mark the south portico overlooking the vast lawn and Washington monument. Thus, it will not change greatly the appearance of the executive mansion.

Funds for the work which will begin in two or three weeks will be taken from the regular annual appropriations by Congress for maintenance and repair of the White House.

For Sale — 1939 cream colored Olds. Convertible coupe. Excellent condition. New tires and radio. MKK North Field Barracks 50 or 51 or call Erie 25. Price $1,800. 14

For Sale — Norge electric range, $300. Call AT 991 Ext. 52, L. D. Skeen, Yards and Docks, Hut 1-13. 14

Moscow Short of Common Medicine, Says Doctor

MOSCOW, —(UP)— The woman doctor in charge of the Moscow regional ambulance service complained in an open letter to the ministers of public health and the medical industry yesterday that some common and essential medicines were not to be had in Moscow pharmacies.

"A prescription, which is quite hopeless to secure, becomes a black piece of paper....the medical industry's work at present cannot satisfy either Soviet doctors or the Soviet Republic," Dr. Tanya Zheldina's letter, printed in the trade union newspaper, Trud, said.

She listed sulpha drugs, penicillin, glucose, iodine, vaseline, strychnine, calcium chloride and pure chalk for ointment and pill bases as in short supply.

ATTENTION!!!

SERVEL

Kerosene Refrigerator

Stays Silent ..... Lasts Longer

Runs on Kerosene ... costs just a few cents a day to run. It brings you plenty of ice. Homemade ice cream, space for frozen foods and for fresh meats and vegetables, and it operates anywhere!

There's never a sound, no worry about wear or repairs, either, with Servel. That's because it freezes with no moving parts. It has no machinery, valves, pistons or pumps. Intead, a tiny kerosene flame does the work. So the Servel Kerosene Refrigerator stays silent, lasts longer.

Our quarterly allocation has just arrived. Persons having earlier reservations, please call for immediate delivery.

Housing Group Has Housing Trouble

WASHINGTON, —(UP)— The office force of the joint Congressional committee on housing is having, well, ahem, er—housing trouble.

It's story punctunted with all the miseries and aches that beset the homeless.

The last Congress, in a fit of good will toward men, authorized the special committee to "conduct a thorough study and investigation of the entire field of housing." But do not spend more than $100,000.

Fine. So the committee's second team, or the office gang which keeps all the records, set up housekeeping in room 314 of the old house office building Swell. It was a handy room, with red velour hangings, a rug on the floor, battery after battery of telephones and brand new desks. The place was just a 10-second elevator ride to the House cafeteria. Life, indeed, was beautiful. For about two weeks or so. Then, zowie!

Along came another Congressional committee with more seniority. It thought room 314 was much nicer than the place it had been cooped up in, and would the housing people please pack up and move—now? There wasn't anything anybody could do about it, but move. So desks, files, pretty stenographers and office boys rolled down the way to room 327, at the end of the hall. In fact, almost in the wall.

Life there was pleasant, if not full. Then this week, along came another whiskered committee. The housing crowd sighed and was on the move again—right when the committee was getting ready to call for the records and start hearings here.

Lucky Accident

PORTLAND, Ore. —(UP)— Roger C. Clark, 19, and a companion were having a hard time seeing the highway on a foggy night.

Suddenly their car crashed into a sign which stopped it.

Beyond the sign was a sheer 50-foot embankment.

The sign read, "Drive carefully and avoid accidents."

Electronic 'Brains' to Forecast Storms

WASHINGTON, —(UP)— Giant new electronic "brains" now being built by the U. S. Bureau of Standards will make possible accurate long-range forecasts of storms such as those that have swept the nation recently, the bureau's director said recently.

Dr. Edward U. Condon predicted in a radio broadcast that the new machines will lead to "marvelous advances in scientific discovery" by providing scientists with speedy solutions to mathematical problems which otherwise would require decades of work.

He said the Bureau of Standards is building high-speed electronic computers that will aid weather forecasters as well as other scientists.

"Much is known about the temperatures of air, mass movement, temperatures and humidity," Condon said. "Highly complex equations can be written to provide accurate long-range forecasts. But their solution through ordinary methods takes so long their use would result in a forecast for tomorrow's weather weeks from today." This will permit advance preparation "for blizzards, ice storms and tornadoes such as have wrecked America this week."

New Type Glue Developed by Goodrich

AKRON, O. —(UP)— A new type of synthetic glue twice as strong as brass rivets has been developed by the B. F. Goodrich Co.

J. E. Thomas, a company executive, said an automobile manufacturer will start to use it this fall to anchor truck brake linings and eventually will use it on his passengers car. Thomas said the new glue used on brake linings may outmode the use of rivets, since the lining then can be worn down to the shoe without replacing it and without danger of rivet heads cutting ridges in the brake drums.

In 1946, chapters enrolled more than 5,000 polio emergency volunteers (PEV) in 150 communities, to train volunteers to assist physicians, nurses and physical therapists in the bedside care of polio.

Shot Saves Hunter's Life

MOSCOW —(UP)— The most important shot in the life of a professional hunter named Grish' was fired by a companion, Smislov. It killed the tiger that was carrying Grishko in its mouth back into the bushes.

The story of the battle of the two hunters with the tiger and its dramatic conclusion reached here from Vladivostok.

Smislov and Grishko are hunters in the village of Nesterovka. They were awaked early one morning by the alarm spread by one Shevchenko, who had heard terrible bleatings from his sheep pen.

The tiger seized a sheep and fled as the hunters approached but Grishko's first shot wounded it. In its fury, it turned on the hunters.

Grishko was not fast enough. The tiger seized him in its mouth and turned back towards the bushes. To the accompanying screams of Grishko, Smislov knelt, took aim and fired at the rapidly receding figure of the cat.

He knew that it was the only shot he would get. The animal, although wounded, its blood staining the helpless Grishko, was making good time and by the time Smislov could reload would be out of range.

But Smislov's aim was true. The bullet pierced the tigers head, it dropped dead and Grishko tumbled from its mouth.

Grishko is recovering from his wounds.

Three Time Loser

GOSHEN, IND. —(UP)— Mrs. Laura Stengel has had her car since 1930 and for all its 18 years it didn't look bad—until now. It was struck three times by three different cars in three hours as the car skidded on ice-covered pavement.

Bulk-Head by Rode

"No, wise guy, he isn't.....he's a carpenter"

Boss Asks Men to Drink at Work

CHICAGO, —(UP)— Chicago turned up yesterday with a sheet metal works where employes might get fired if they don't drink on the job.

The boss at the Feldt Sheet Metal Works installed a bar in the company's plant and said he expected his employes to help themselves when they wanted a drink.

Milton Sachsel, general supervisor, said he had solved labor and production problems by installing the bar and stocking it with choice liquor.

He said his employes had gotton into the habit of "ducking out" the back or front door

"I knew they were going to the taverns," he said. "But I couldn't watch both doors at once."

He said the bar—made of sheet metal, of course—had solved the problem of disappearing employes and declining production.

The liquor, he said, is easier to replace than any of his six sheet metal workers.

"The men don't abuse the privilege and it's a good thing for the customers, too. Only this morning we made a big deal over the bar."

He said he plans to install a small restaurant soon.

Heavens Above

PHILADELPHIA —(UP)— Fels Planetarium officials who labeled their mighty show of celestial bodies "Heavens Above" didn't count on the woman who inquired over the telephone:

"What's being presented at the Planetarium this month?"

"Heavens Above," replied the telephone operator, Betty Ash.

"Well, you don't have to get snippy about it," snapped the caller.

Sports Beat

by Bob Crossley

Something is wrong someplace....more than a month ago, orders were sent out to all Navy commands on the Islands for athletic heads to start preparing for softball....A big Inter-Command league was planned to start in February with baseball to follow it so that versatile birds could participate in both.... January 5 was set as the final for entry of teams in the league and yet yesterday, one week after the original date set, only three entries had been turned in. Staff welfare has extended the deadline in hopes that more entries would be sent in....Welfare bosses complain that they never received the news of a league being formed....The final FINAL deadline now is Thursday, day after tomorrow....The rainy season is over, it says here, and softball weather should abound.....Get those entries in.

Mike Karvasales, MarBo athletic director in Honolulu with his 26-man boxing team, reports that the MarBo team was dealt a blow early last week when Nat Montgomery, bantamweight champ, was hospitalized with an infected tooth that required surgery and forced him to abandon plans to fight....Roger Silva and Paul Robinson now are MarBo's hope against Roy Higa, last year's Army Inter-Command champ....The team is on a training schedule including 10 miles road work a day and a 2½ hour workout in the gym.....The team is quartered at Schofield Barracks which, says Mike, is a palatial place surrounded by more than a million dollars worth of recreation facilities including: a swimming pool, golf course, tennis courts, roller skating rink, baseball diamonds, bowling alleys, gymnasium and a boxing bowl with seats for 15,000....With an envious note creeping in, Mike also mentions two stateside football fields complete with granstands....The tourney, with teams from China, the Philippines, Korea, Japan and the host team, Hawaii, participating, will get started Jan. 21 and will run through the 28th.

Newspaper work may now officially be called a racket without fear of contradiction....Man Mountain Dean, now with a long grey beard, has enrolled as a student in journalism at the Atlanta branch of the University of Georgia....He plans to write a book entitled "The Hells Kitchen Hillbilly."

The fella who married the talkative girl says that a thing of beauty is a-jaw forever.

Dean Cromwell, USC Track, Field Coach Awarded Job as Olympic Mentor

TO FIGHT AT COMMAR—This crop of fighters from Fifth Service will provide entertainment aplenty for fight fans on the Island when they put on a boxing card the 23rd of this month. Tutored by Hiner Thomas, well-known middeweight and Navy News Golden Glove winner, the squad has been working out at Camp Allen and promises to be a razor edge for the coming fights. Top row (L-R): James Phinisee, Charlie McDaniel, John Jones, David Avery, and Frank Jordan. Middle row (L-R): Larry Hampton, John Hill, Willard Inge, and Ben Willey. Front row (L-R): Fred Doyle, Frenadres Ellis and Archie Cadgit. (Guam News Photo)

NEW YORK, Jan. 12 —(UP)— Dean Cromwell, the University of Southern California's "maker of champions," was awarded one of the most coveted jobs in sports today when he was named head coach of the U. S. Olympic track and field team.

The 68-year-old track tutor, USC coach since 1908, succeeds another veteran, Lawson Robertson of the University of Pennsylvania. Robertson, coach of the last three Olympic teams, retired recently because of illness.

Named as Cromwell's assistants were three other outstanding track teachers—Emil von Elling of New York University, Tom Jones of Wisconsin and Emmett Brunson of Rice.

Al Masters of Stanford, will be head manager of the Olympic track forces and his assistants will be Ed Parsons of Northeastern University, Boston, and Lloyd Olds of Michigan Normal.

Ward H. Haylett of Kansas State will handle the decathlon and Fred Travalena of New York's Metropolitan AAU will be manager of the Marathoners and walkers.

Cromwell's selection to head American's track and field forces did not come as a surprise, although there had been much mention of Brutus Hamilton of California. He was assistant coach in 1936.

"We feel we have made the best selection possible," Kenneth L. (Tug) Wilson said.

Cromwell and his staff deserve that accolade. The USC mentor has won more NCAA championships and at 68 still is a speed fanatic. He also has developed more world record holders than any other coach, including such as Frank Wyckoff and Lou Zamperini.

Bill Lujan to Stage Benefit Fights For Guam Memorial Hospital Fund

As another step toward making the long-sought Guam Memorial Hospital a reality, William Lujan, local fight promoter and one of the Island's main advocates for the hospital, has announced a benefit fight at the Paseo on Friday January 16th.

Highlighting the card will be Ivan Jones, 126 pounder, against Baby Freddie of the Luzon Stevedores in the eight round main event. Jones defeated Joey Archibald, former featherweight champion of the world, and at present the featherweight champion of the State of Maine.

In the semi-final, Melvin Sakata, 118 pounds, from MKK and Honolulu, will mix it up Frankie Duran, also an 118 pounder, from Luzon Stevedores. Both of these boys have had plenty of ring experience. The winner of the scrap will meet Bantamweight Champion Little Campo sometime next month.

The fans will get another glimpse of Mighty Nick De Mike when he climbs into the squared circle to meet Harry Armstrong from North Field in the middleweight class.

U.S. Expects to Win Olympiad

LOS ANGELES, Jan. 12 —(UP)— The United States expects to win the 1948 Olympiad in London—"just as we always have"—Dean Cromwell said today when he told he has been named head coach of the U. S. Olympic track and field coach.

"But we expect the keenest competition ever from the some 58 nations participating," Cromwell said.

"I make this prediction just to see how good a guesser I am in January. We will relish the keenest competition. We have the finest boys and the finest coaches ever.

"This is the most remote from being a one man job. It goes all the way down to every track coach in the country and every athlete. We have marvelous athletes to represent us."

Cromwell has had an Olympic champion in every Olympiad since 1912 when Fred W. Kelly won the high hurdles at Stockholm.

George Magerkurth Resigns as Umpire

MOLINE, Ill., Jan. 12 —(UP)— Blustery George Magerkurth, one of the most colorful umpires in major league history has sent his resignation to the National League, it was learned today.

Magerkurth's resignation after 19 years in the National League was due to leg injuries, suffered last season, it was reported. He suffered a knee injury while working an exhibition game in Florida and has been forced to use a cane since the close of the 1947 season.

In De Mike's last tussle the customers were treated to a rousing fight that carried the participants out of the ring and up the aisle.

Three Rounder

In a three rounder, Cappy Ricky, a Guamanian welterweight, is slated to come up against Jimmy Kaup from Pomeroy Camp No. 4, while Enrique Sablan, 115, from Toto Village, will meet Shorty Domingo of Luzon Stevedores in the second three rounder.

Raymond Pangelman, 108 pounds and from Barrigada Village, is looking for a fight and will challenge anyone interested to a three round bout. Anyone willing to take him up on this challenge is encouraged to reach Bill Lujan as soon as possible.

Willie Pep Sues Airline for Injuries

WILMINGTON, Del. —(UP)— A $200,000 suit against Nationwide Air Transport Service, Inc., was filed in federal court recently on behalf of Featherweight Champion Willie Pep.

Prevented Fulfilling Contracts

Lou Viscusi, manager of the Hartford, Conn., boxer, claimed that injuries Pep suffered in the crash of one of the company's planes last January prevented him from fulfilling contracts.

The suit said Wee Willie was "permanently affected" by the injuries which sidelined him from Jan. 5 to Aug. 27, 1947. The plane with Pep aboard, crashed at Millville, N. J. while enroute from Miami to Newark.

Lloyd Mangrum Cops Singles Crown in Pro-Am

DEL MONTE, Cal., Jan. 12—(UP) —Dapper Lloyd Mangrum, the picture golfer from Los Angeles, captured the singles division of the $10,000 Bing Crosby Pro-Amateur Golf Tournament here today when he blistered the Pebble Beach Course with a four-under-par 68 to chalk up a 205 total for 54 holes.

The favored entry of Ben Hogan and veteran Amateur Johnny Dawson won the pro-amateur divison as they came from behind to post a score of 197 for the 54 holes as the dark-horse combine of Stanley Leonard, Vancouver, B. C., and T. Suffern Tailer, New York, slipped to a total of 200.

Mangrum added the 68 today to earlier rounds of 70-67 to win the $2,000 first prize for the professionals.

With the victory, Mangrum zoomed into first place among the nation's golfing money winners for 1948. Added to his first prize money in the singles, he also picked up $500 in the pro-amateur to add to $1,400 won at Los Angeles, where he finished second, for a total of $3,900.

Top Competition Set For Met AAU Mile

NEW YORK, Jan. 12 —(UP)— A dog-eat-dog fight in the mile run today stacked up as the headline attraction for the Metropolitan AAU indoor track championships scheduled next Saturday night.

A flock of name runners including Tommy Quinn, Les MacMitchell and Bill Hulse will be in the event, along with home dangerous newcomers.

For MacMitchell, the race marks a crucial stage in his career. He was a disappointing performer last season and needs a good year to remain in the top bracket.

Stassen Asks Truman to Throw Pauley Out of Job

WASHINGTON, Jan. 13 —(UP)— Harold E. Stassen brought his flaming feud with Edwin W. Pauley to a higher pitch today by calling on President Truman to throw Pauley out of his Army job because he admitted making almost a million dollars gambling in commodities.

The White House had no comment.

Pauley was not available. He said previously that he took his post to do a specific job and would remain until it was finished. His office said the job is "not finished yet."

Stassen's brief newest challenge was telephoned to his office here from Sheridan, Wyo., where he is on a political tour in behalf of his Republican presidential candidacy.

The former Minnesota governor noted that Pauley, former Democratic national treasurer and close friend of the president had acknowledged that he had made $932,-703.10 in commodity trading since the war.

"Now that Mr. Pauley has admitted the extensive nature of his operations," Stassen said, "I respectfully ask this question of the President. I ask it in particular view of the urgent need of leveling off food prices and of the anticipated heavy governmental purchases of food in 1948.

"Does a man who has admitted under investigation that he made approximately a million dollars ($932,703 to be exact) in personal profit by speculating since the war in increased prices of food and commodities belong in the position of assistant to the Secretary of the Army for procurement and industrial mobilization?"

Pauley has resigned as Democratic national committeeman from California since the current Congressional investigation of commodity speculation, sparked by Stassen's charges, began several weeks ago.

Grand Jury Indicts Ten Electrical Firms

LOS ANGELES, Jan. 13 —(UP)— Ten electrical equipment manufacturing firms were indicted today by a federal grand jury on criminal price-fixing conspiracy charges.

The government accused the firms of gouging municipal and private public utility firms of millions of dollars through alleged price-fixing.

The Grand Jury indictment accused General Electric Co., Westinghouse and eight others of seeking to fix "artificial and noncompetive prices" on switches and other items essential to public utilities.

In addition to the criminal complaint, the government filed a civil action against the same defendants asking the courts to restrain them from further price-fixing and acts in restraint of trade.

"Our west coast anti-trust investigations revealed noncompetitive action in the electrical industry affecting important equipment sold to such local bodies as the Los Angeles Department of Water and Power and the imperial irrigation district of California," he said.

$44 Million Asked To Fight Red Info

WASHINGTON, Jan. 13 —(UP)— Congress was asked today to give the State Department's foreign information program $44,000,000 in the next 18 months to challenge Russia's "misleading propaganda" against U. S. foreign policy and the Marshall European recovery plan.

President Truman, in his annual budget message, asked for an extra $6,000,000 now and $38,000,000 during the 1949 fiscal year to carry out "an effective foreign informational and cultural program."

"This program," he said, "is essential in order to present to the world an accurate picture of United States policies and to counter misleading propaganda. An adequate information program will greatly increase the effectiveness of our international political and economic policies, especially in Europe."

Congress made a sharp cut in funds for the information program, including the "Voice of America," this year, But Congressmen returning from Europe are now almost unanimous in favor of a bigger and better "voice." The House-approved Mundt bill, which would give the "voice" a permanent legal footing, comes up for Senate consideration this week. Approval is expected.

Gandhi Goes On Hunger Strike To Stop Fighting

NEW DELHI, India, Jan. 13 —(UP)— Mohandas K. Gandhi, spiritual leader of Hindu nationalists, announced tonight that he would go on a hunger strike tomorrow, preferring the "glorious delivery death" to the destruction of India by religious strife.

The announcement electrified New Delhi at a moment when India and Pakistan were all but at war over moslem guerrilla invasion of Kashmir and as news spread swiftly over the dominion Hindus prayed that the frail, 78-year-old leader might again, at risk of his life, get Hindus and moslems to stop their fighting.

Gandhi made his decision after Deputy Prime Minister Vallabhbhai Patel, "iron man" of the national movement had said in statements here and in Jammu that India in event of war could sweep Pakistan from end to end—and that the situation was fast deteriorating toward war.

To the congregation, a majority women and children, at his evening prayer service, Gandhi said:

"It shall fast starting from my first meal tomorrow. The period is indefinite....it will end when I am satisfied there is a reunion of all hearts in all communities.

Cold Wave Sweeps North Central States

CHICAGO, Jan. 13 —(UP)— A 40-mile per hour wind whipped a sub-zero cold wave into the north central states today and the weatherman said temperatures would drop 15 to 20 degrees all the way to the east coast by Wednesday.

The mercury was expected to skid to 25 degrees below zero tonight and early tomorrow in some sections of Minnesota, Wisconsin, Iowa, the Dakotas and Nebraska.

The U.S. Weather Bureau in Chicago issued cold wave warnings for the area and posted storm warnings on the Great Lakes. Temperatures of zero to 10 above were forecast for the Great Lakes region.

The temperature already had fallen to four and five degrees below zero in parts of northern Minnesota.

Headline Highlights

LONDON, Jan. 13 —(UP)— The Moscow radio claimed that Russia had taken an international aviation record away from the United States.

RALEIGH, N. C., Jan. 13 —(UP)— Joseph S. Daniels, 85, secretary of the Navy during World War I, was reported to be weaker today, and his doctor said he would live "only a matter of hours." Daniels was in a deep coma, suffering from pneumonia and complications of age.

TOKYO, Monday, Jan. 13 —(UP)— U.S. Naval headquarters here reported today the crippled Russian ship Dvina was proceeding slowly toward Hakodate, Japan under tow by a Soviet patrol boat.

ARLINGTON, Wis., Jan. 13 —(UP)— The fireman of a Milwaukee railroad train was killed and the engineer injured seriously today when the boiler of the locomotive exploded.

Vandenberg May Oppose Marshall Plan

WASHINGTON, Jan. 13—(UP)—Arthur H. Vandenberg, (R—Mich.) jolted administration supporters of the Marshall plan today with the disclosure that he may oppose granting the full $6,800,000,000 asked as a down payment on the European aid program.

He flashed his warning toward the close of a long round of Marshall plan testimony presented to his Senate Foreign Relations Committee by Secretary of Commerce W. Averell Harriman.

Apparently taking issue with Secretary of State George C. Marshall's assertion that Congress should approve the full sum or forget about helping Europe, the GOP foreign policy spokesman added:

"It might be more, it might be less. It hasn't ipso facto ruined the program if one makes changes in it."

He went on to point out that there were differences over the program within the administration ranks, specifically between the State Department's foreign spending proposals and those recommended by the special committee headed by Harriman.

Vandenberg's surprise attack on administration tactics in presenting the aid program came as Marshall went before the House Foreign Affairs Committee to repeat in substance the plea for prompt and adequate European aid which he made to the Senate committee last week.

The secretary countered republican criticism of his program by predicting that this passage would lessen the danger of a third world war.

Funeral Ship Struck by Fire 900 Miles at Sea

NEW YORK, Jan. 13 —(UP)— The Army funeral ship Joseph V. Connolly was swept by fire and abandoned 900 miles at sea today, but two rescue ships won a dramatic battle against darkness and heavy seas to reach the Connolly's four lifeboats and pick up all survivors.

There were 46 men aboard the Connolly, which was bound from New York to Antwerp to return American war dead, when the captain gave the "abandon ship" order shortly before dawn after an engine room fire raged out of control and swept the big transport from stem to stern.

All 46 were saved, the Coast Guard announced.

The Army transport General R.E. Callan picked up 10 survivors and the freighter, Union Victory, rescued 27. None of the 45 crew members or the one Army officer aboard was seriously injured, the Coast Guard said, although a "few" suffered bruises in abandoning ship and spending the day in the bobbing, open boats.

The Connolly is a total loss. The rescue ships radioed as they brought the last survivors to their decks. The transport keeled over on its port side but still was burning fiercely.

Last Rites Held For Jose Quinata

Last rites for Jose Sanchez Quinata, United States Navy, will be conducted Thursday, January fifteenth, in his native Umatac.

Seaman Quinata was a member of the crew of the U.S.S. Arizona, and died in defense of his country at Pearl Harbor, December seventh, 1941. He was probably the first Guamanian to die from enemy action in the recent conflict.

His remains will be brought ashore to his native Guam from the United States Army Transport Pope Thursday morning at nine o'clock in a brief ceremony at Sugar One Dock. There will be a guard of honor of two platoons of army troops, and music will be furnished by the Twelfth Army band. The ceremony will be attended by Commander Marianas; the Commanding Generals of MarBo Command and MarBo Base Command; the Bishop of Guam; Army, Navy, and Air Force chaplains; civic officials, and representatives of local civic organizations. Friends of the family and the public at large are invited to attend also.

Following the cermony at the shipside the body will be taken to Umatac for a naval funeral. This service will be conducted by Reverend Father Adelberg Donlon at Saint Dionisios Catholic church. The time for this service will be announced later.

Quinata was the son of Vincente Agon and Margarita Sanchez Quinata, of Umatac. He is survived by his parents and several brothers and sisters.

Gl Insurance Payments Stalled By Red Tape

WASHINGTON, Jan. 13 —(UP)— Red tape is holding up payment of a dividend estimated at from $1,000,000,000 to $2,000,000,000 to ex-GI's who hold national service life insurance, President Truman said today.

The dividend can't be paid until the financial liabilities and the legal status of the fund are determined. And no provisions was made for it in the budget, the President said.

"The Veterans Administration is gradually catching up on the processing of the basic insurance records," he added.

However, he held out some hope. The general contingency reserve includes money to pay the dividend "if the exact status of the fund is clarified during the fiscal year of 1949," Mr. Truman said.

Truman Outlines Spending Program For Veterans

WASHINGTON, Jan. 13 —(UP)— President Truman, in his fiscal 1949 budget, today outlined a $6,102,000,000 spending program on behalf of the nation's 16,000,000 veterans.

The funds, earmarked for veterans' benefits and services during the 12 months beginning next July 1, represent a $530,000,000 savings over the current fiscal year and a reduction of $1,268,000,000 in actual outlays during fiscal 1947.

Mr. Truman told Congress that the figure next year would have been bigger except that he decided against recommending a "cost-of-living' increase in veteran's benefits at this time. The latter, he said, would "add greatly to the inflationary pressures in our economy."

He asked for $5,154,000,000 in new appropriations to finance the bulk of the 1949 program. The remaining $948,000,000, he said, would come from prior appropriations and, if authorized, from unexpended balances.

Pointing out that 900,000 World War II veterans returned to civilian life during the past year, Mr. Truman said the "total veteran population" has now reached a peak of 18,000,000.

MacArthur Hopes For Early Withdrawal

TOKYO, Jan. 13 —(UP)— Gen. Douglas MacArthur hopes for an early withdrawal of all troops from Korea and believes Koreans in the northern and southern zones will cooperate peacefully after the troops are gone, it was revealed today.

MacArthur made his views known to Sen. Melicio Arranz, delegate from the Philippines on the United Nations Korean Commission, who lunched with the general and Mrs. MacArthur.

Arranz will leave here tomorrow for Seoul to attend the first meeting of the commission on Korean soil the same afternoon.

Arranz said MacArthur expressed a strong belief that the Korean people want a free and independent nation, but that their desires are hindered by being caught in cross currents of opposing ideologies.

Weather Forecast

Generally cloudy with scattered moderate showers. Winds moderate easterly with occasional strong gusts.

Yesterday's temperature: Max. 80; Min. 75.

Yesterday's rainfall: 0.37.

Corrected rainfall for month: 2.05.

Storm Curves West Missing Guam

COMMANDER, MARIANAS—The islands went off storm condition two at 9:17 yesterday morning as the tropical storm "KAREN" which skirted Guam with its outer winds last night, slowly recurved to head West at twelve knots.

Fleet Weather Central authorities reported at 1700 last night that the storm has been tracked earlier in the day by aircraft and its position was then 250 miles south west of the Island. The Islands of Ulithi and Yap in the Caroline group were advised yesterday that the gale center would pass approximately 80 miles north of them at 2200. Though the storm hadn't reached typhoon proportions when last tracked, it was expected to intensify to a certain degree.

Bus Line Explosion

ALEXANDRIA, La., Jan. 13 —(UP)— A terrific explosion shattered the plate glass windows of the Southern Bus Lines station today in renewal of violence against the company which has been hampered by a strike since last May.

The blast was the first major violence in connection with the eight-month-old strike in several weeks. The legislature of neighboring Mississippi enacted drastic laws, including one providing the to curb the bus strike violence in death penalty for such dynamiting, that state.

Police said a hole was knocked into the concrete floor of the Alexandria station, indicating that dynamite was the explosive used. There were no injuries. One bus was parked in the station and it suffered some damage.

Attack Against Cancer Underway

CHICAGO, Jan. 13 —(UP)— Dr. E. V. Cowdry, one of the world's leading cancer investigators, said tonight that the cancer death toll could be reduced greatly and disclosed that a worldwide attack against the disease now is underway.

In an address prepared for delivery at a meeting of the institute of medicine and the Chicago Pathological Society, Cowdry said that the U.S. State Department has sent to 40 participating nations the first report of the recently-organized International Cancer Research Commission.

"It is, for the first time, a world attack on a world problem," he said.

New EM Club for Air Force

HDQ. 20TH FIGHTER WING—Miss Ethel Anderson, club director, is shown greeting the first enlisted men to arrive at the opening of the 20th Fighter Wing Service Club. The men are (left) Sgt. Andy Louchinecz, (center) S-Sgt. Charles V. Wimber and (right) S-Sgt. Marion P. Holliman.

The club was officially opened Sunday, January 4. Miss Ethel Anderson, formerly with the Red Cross in Tokyo, assisted by Miss Mary Woynovich, recreation hostess, formerly with the Red Cross at NAS Agana, conducted open house for all enlisted personnel.

The snack bar was opened dispensing sandwiches, free ice cream and cake. Music was furnished in the evening by the "Twilight Playboys."

Club Renovated

The club has been completely renovated, making it one of the most beautiful and completely equipped clubs on the Island. The facilities available include pool tables, ping-pong tables, lounge and card room and the snack bar.

Plans are being completed for a hobby shop with instructions in photography, tooling, metal craft, carpentry and various other activities.

Dances will be held approximately once every two weeks.

Club hours are 6 p.m. to 10:30 p.m. daily except Wednesdays and Saturday, when they are 1 p.m. to 10:30 p.m. and on Sundays and Holidays, 10 a.m. to 10 p.m.

Notice—It is requested that all classified and display advertising be submitted to the Guam News advertising office, Agana, at least three days prior to the desired date of publication.

Selznicks Separate

HOLLYWOOD —(UP)—. Mrs. Irene Mayer Selznick, New York stage producer and daughter of movie magnate Louis B. Mayer, today won a divorce from producer David O. Selznick on charges of mental cruelty.

Mrs. Selznick asked for no alimony and won custody of two sons, Lewis Jeffrey, 15, and Daniel Mayer, 11.

Since their separation, Selznick has been seen frequently in the company of his Academy Award-winning star, Jennifer Jones. Gossip columnists have reported he plans to marry Miss Jones after his divorce is final.

U.S. Seems to Prefer Chocolate in Sodas

NEW YORK —(UP)— At the nation's soda fountains, chocolate sodas are the people's choice 8 to 1, according to an ice cream manufacturer's survey.

Chocolate is the leader in the sundae department, too. Two out of three patrons ask for that flavor. In th esummer they want the regular sauce, but in the winter they prefer hot fudge. Other sundae preferences are pineapple, strawberry, and cherry, in that order.

Here's one place chocolate takes a back seat. According to the Department of Commerce, of the three billion quarts of ice cream manufactured in this country about half is vanilla. Chocolate accounts for 15 per cent. Twenty-seven other flavors make up the remaining 35 per cent, with strawberry third.

KKK Takes to Autos

ATLIANTA, Ga. —(UP)— Ku Klux Klan knights, once known for their swift horses with the blazing eyes, now ride in automobiles on their cross-burning expeditions.

The new mode of transportation has the approval of Grand Dragon Samuel Green of Atlanta.

The night riders usually make their trips en masse, although the Klan charter has been revoked.

The national headquarters of the National Foundation for Infantile Paralysis receives half the money raised in the March of Dimes, using it for research, education and epidemic aid. The public gave nearly $16,000,000 in 1946.

KEROSENE

Made expressly for Servel Kerosene Refrigerators under a Special Formulae is essential for prolonging the life of your Servel and for continuous, uninterupted operation.
This is also available for immediate delivery.

MAYTAG Motor Oil

Is especially blended for use in MAYTAG MULTI-MOTOR Washing Machines only. It must not be confused with ordinary SAE oils. These are also available to MAYTAG owners.
Our next allocation of MAYTAG Washers is due anytime now.

For Sale — Dress, size 16, large tricycle, scooter, electric perculator, electric fan, Officer's housing, ComMar Hut No. 27. 14

'Best Years of Our Lives' Tops For '47

NEW YORK —(UP)— The motion picture "Best Years of Our Lives" was hailed today as the best picture of 1947 by some 344 newspaper reviewers and 102 radio commentators who participated in this year's Film Daily poll.

A Samuel Goldwyn production, the Oscar-studded "Best Years" won an easy victory over the nine runners up, scoring 352 votes—59 over the second best "Jolson Story" which drew 293 votes.

Stars Named

"Best Years," starring Fredric March, Myrna Loy, Teresa Wright, Dana Andrews, and Harold Russell, was adapted by Robert E. Sherwood from "Glory For Me," the bitter-sweet story by MacKinley Kantor concerning returning servicemen.

Declared second best, Columbia studio's "The Jolson Story" was the only musical to sing its way into the 10 top pictures of the year.

Warner's shift of "Life With Father" from its long Broadway run to the screen brought that studio the number three award.

The other winners:

Fourth, "The Yearling"; fifth, "Miracle on 34th Street"; sixth, "Great Expectations"; seventh, "Crossfire"; eighth, "Boomerang"; ninth "Brief Encounter," and tenth "Odd Man Out."

MARBO—The 1947 collections for the March of Dimes reached $8,851.09 according to the figures released today by the MarBo March of Dimes chairman. This included the Air Force and the Army.

Antonio Perez, STM1, USN, of Headquarters Command was injured Friday afternoon when a jeep driven by Jesus S. Mendiola, SC2, USN, from the same place, was to ced off the road near the gate to ComMar and struck the railing. P rez was taken to the Headquarters Command dispensary for treatment. (Guam News Photo)

Dye Pills May Cure Mountain Sickness

BERKELEY, Cal. —(UP)— A capsule of dye, methylene blue, may cure that mountain sickness people get when they climb to the peaks.

A University of California biologist, Dr. Matilda M. Brooks, says she tried out the dye in Peru—and stopped the nausea from ruining the days of people who have to go to the mountains for business or just plain like the elevations there.

Aviation also might be a field for the method, she says. However, continued use of the dye has not been okayed by medical men. Its total effect on the human system is yet to be fully tested.

Glamorous Males

NEW YORK —(UP)— Men seem to be going strongly for toilet preparations and even cosmetics.

A survey by the American magazine among its male readers shows that men today are using hair tonics and hair dressings, hand cream and lotions, lip preparations, deodorants and anti-perspirants in quantities undreamed of only a few years ago.

The nation-wide study showed that nearly 7 out of every 10 men in moderate income classes use hair tonics and dressings, 36 per cent more than did in 1940.

Utah Raps Nevada's 'Cloud Milking'

SALT LAKE CITY —(UP)— Utah's going to go to Congress if no other way can be found to stop Nevada from "Milking the snow from our clouds" by perforating east-bound cumulus with dry ice pellets.

Gus P. Backman, executive secretary of the Salt Lake Chamber of Commerce, said that existing laws cover illegal diversion of water only in river streams, making no provision for diverting water from clouds.

"Existing laws," he said "don't seem to give us adequate protection, and it's becoming serious."

He has been investigating the possibility of filing suit in federal court to enjoin Nevada from "milking" the east-bound clouds by bombarding them with ice pellets to obtain snow.

Nevadans have, in effect, told Backman to "jump in the Great Salt Lake."

Backman pointed out that for five out of the last eight days the weatherman has predicted "showers or snow" for Utah.

"But none of that precipitation has arrived in Utah," he said.

Notice — The regular meeting of the Guam Chamber of Commerce will be held at the Bamboo Club, Wednesday, Jan. 14, at 7:00. Dinner will be served. All members are requested to attend. 14

Kerosene Refrigerator

Stays Silent . . . . . Lasts Longer

Runs on Kerosene . . . costs just a few cents a day to run. It brings you plenty of ice, homemade ice cream, space for frozen foods and for fresh meats and vegetables, and it operates anywhere!

There's never a sound, no worry about wear or repairs, either, with Servel. That's because it freezes with no moving parts. It has no machinery, valves, pistons or pumps. Instead, a tiny kerosene flame does the work. So the Servel Kerosene Refrigerator stays silent, lasts longer.

Our quarterly allocation has just arrived. Persons having earlier reservations, please call for immediate delivery.

It's easy to save money under the payroll savings plan. It's one of the best investments you can make, and in ten years, every three dollars you invest now will bring back four. In order to facilitate the military personnel on Guam in enrolling in this wise money-saving plan, the GUAM NEWS will bring the application form directly to you.

All you have to do is fill out this application and take or send it to your disbursing officer, and savings bonds will automatically be deducted from your pay. The first deduction will be made in March, 1948.

Who Wrote Shakespeare's Plays, Poems?

LONDON —(UP)— Drama critic Percy Allen reported recently that he had contacted William Shakespeare, the Earl of Oxford and Sir Francis Bacon in the spirit world and had asked them bluntly:

"Who wrote the plays attributed to William Shakespeare?"

Shakespeare admitted that he was not the sole author of his famous plays and poems and that Edward De Vere, 17th Earl of Oxford, was his collaborator, Allen said.

On the basis of these reported "conversations," Allen contends he has conclusive proof that Oxford and Shakespeare definitely worked together.

For the past century in Britain and other countries, learned groups have backed various Elizabethan noblemen and writers as actual authors or part authors of Shakespear's plays and poems.

These scholars contend that Shakespeare himself was just an unlearned country burpkin who became a passable actor and moncylender.

A.F. Secretary Backs 'March of Dimes'

HQ. 20TH AIR FORCE—Secretary of the Air Force W. Stuart Symington has made the following statement in reference to the 1948 "March of Dimes:"

"The Department of Air Force has joined wholeheartedly with the other services to insure a unified effort for the defense of our country. All Americans must make a unified effort to protect the future of our nation by safeguarding the health of our youth.

"The National Foundation for Infantile Paralysis is the bulwark of our defense against crippling, deadly poliomyelitis. I am certain that every American will again respond generously to the annual appeal for funds to carry on the foundation's work in combating this terrible disease."

Snake Catching Lucrative

FLASHER, N. D. —(UP)— A native of this short-grass country has developed a lucrative business catching rattlesnakes.

The live snakes George Sinclair catches are shipped to a sourthern company where the venom is extracted. Others are sent to taxidermists and skin collectors.

Sinclair uses the simplest equipment to trap the poisonous reptiles: a length of gas pipe with a coiled loop pulled through.

The story of Jim Thorpe, probably the greatest athlete of all time, is a tear jerker.

Big Jim, although world reknown as one of the most outstanding athletes who ever lived, was a fall guy. While he was one of the top backfielders in football history and a fine baseball player, he excelled at track and field events, but you can scan the pages of track and field records and never find the name of the Carlisle Indian listed as champion or record holder.

Yet in 1912, the King of Sweden said to Thorpe:

"You are the greatest athlete in the world!"

And this sentiment was echoed vehemently by American newspapers and the sporting world.

Thorpe had just won both the pentathlon and the decathlon championships in the Olympic Games at Stockholm. No athlete had ever done that before and no one has since. Those championships are awarded on the point system. To win the pentathlon he had to be the top scorer for the five events—300 meter run, 1500 meter run, broad jump, discus throw and javelin heave. The decathlon consists of 10 events—110 meter high hurdle, 100 meter sprint, 400 meter run, 1500 meter grind, pole vault, broad jump, shot put, discus toss and the javelin throw.

Big Jim won them both, and by a wide margin. Truly a great feat. The Indian had well-earned the moniker "the greatest athlete in the world."

But in 1913, less than a year after the Olympic Games, a Boston paper broke a story that Thorpe had played minor league baseball—for pay—prior to participating in the Olympics. Indian Jim readily admitted it. He said he saw no wrong in it; that he had played under his own name for $15 to $30 a week, and never made any secret about it.

It washed him up. Thorpe was stamped as a professional and the simon pures took his prized trophies from him; his records were obliterated. In the books he is unknown, but to fans who know Thorpe, knew of the feats he had performed, he was still The Greatest Athlete Who Ever Lived.

Kansas University Mentor Plugs For Slow-Down Style of Basketball

SAN FRANCISCO —(UP)— Dr. Forrest (Phog) Allen, self-styled voice of basketball, recently claimed that the cage game is getting out of hand and is impossible to officiate. He suggested a slow-down program.

"There is too much of this race-horse basketball for the good of the game," said Phog as he watched and cussed his Kansas University basketball team sprint up and down the floor the other night at the Cow Palace. (They drubbed University of San Francisco, 57-43).

"I would suggest a batting order the same as they use in baseball tip-offs from the center," he said. "By that I mean, that each man on the team would take a turn at jumping for the ball in the center ring.

"Also, there is no earthly reason that some big seven-foot goon should be allowed to stand under the basket and on a missed free throw be allowed to tip the ball into the basket for two points.

"It is my belief that the ball should be declared dead after every free throw attempt—missed or made. Just as we do on a technical foul or a double foul. Then put the ball in play from the center sideline. That would slow it down and stop a lot of this race-horse business."

Allen, who rarely stops to even draw a deep breath when he is talking, kept up the same steady stream of chatter as he watched his team slaughter a good USF squad.

"My team is the worst I've ever seen," he expands on the subject. "They don't seem to known if they should be running or stopping, shooting or passing.

"Never had such a bunch of boys who knew so little about the game of basketball," he remarked as his team executed a set play to perfection to chalk up another two points.

Groaners Tangle Tonight at Orote

Three challengers from Saipan will take on Guam's best in the welterweight, lightheavy, and heavyweight classes tonight at NAS Orote in the FASron 13 and try to make for themselves a berth on the Com-Marianas area squad.

Saipan's Weshit, 145 pounder, will meet Dennis Goyeau, from the First AAA for the welter title, Walkovich takes on 172 pound Manual Macias from the First Marine Brigade, and in the heavyweight division, Shilling will tangle with NOB's F.L. Prime.

The card, which includes two exibition bouts, will get underway at 1900.

Though Kwajalein failed to send a team and Saipan's turnout was slim, teams are expected to arrive here about the 20th of this month for further eliminations.

'Frisco Clippers to Bid For Berth in NFL Ranks

PHILADELPHIA, Jan. 13 —(UP) The San Francisco Clippers of the Pacific Coast League will make their second bid for a franchise in the National Professional Football League at the annual NFL meeting opening in New York City Wednesday, Commissioner Bert Bell revealed today.

PCL president Rufus Klawans, representeing bidder Frank Ciraolo, will present the San Francisco owner's check for $50,000 and plead the cause of the Pacific Coast eleven, Bell said. Ciraolo's application first came up last year and was tabled.

Ciraolo, president of the Clippers, will have the only application to be considered, Bell said, but there was no immediate indication that the West Coast promoter would get his franchise.

Three Cage Teams Drop From Unbeaten Ranks As Stateside Race Gains Momentum

NEW YORK, Jan. 12 —(UP)— The ranks of the invincible were thinning faster than ever today in the nation's 1948 basketball campaign as three more major teams were scratched from the list of undefeated.

Kansas State, St. Louis University and West Virginia were those which toppled from the select list this week.

Kansas State had a record of 10 victories and no defeats when it went onto the boards at Madison Square Garden Tuesday against Long Island University. But LIU whipped up a 65 to 47 upset victory.

Capt. Tom Hamilton (AP Photo)

West Virginia's Mountaineers had a five-and-zero record Thursday night—and again Madison Square Garden proved to be the battlefield of Waterloo. Little Manhattan College was the one to turn the trick this time, 58 to 53.

St. Louis U. was riding high, undefeated in seven games, until the crucial Missouri Valley conference with Oklahoma A&M last night. But Hank Iba's Aggies were up to the occasion in a defensive battle, and St. Louis tumbled, 33 to 30.

However, other major undefeated teams pulled through during the week—and the East seemed to have more than its share of them—Columbia, NYU, Rhode Island State, LaSalle, Duquesne and Fordham.

Iowa licked Ohio State and Purdue in quick succession to hold the top-flight honors in the Big Nine conference race, but Illinois and Wisconsin were in there pushing. Iowa must meet Wisconsin in a crucial battle tomorrow night.

Georgia's undefeated record in 10-games made the Bulldogs look good in the Southeastern Conference, but Kentucky, with a record of 12 victories and one defeat, still was favored for the SEC championship.

Texas remained the source of the Southwest and a strong choice to retain its conference championship. The Longhorns beat Rice, 59-44, last week and now play TCU tomorrow and Texas A&M Saturday.

UCLA did immeasurable damage to Stanford's hopes of a Southern Division title in the Pacific Coast Conference by downing the Indians, 55-47, last night. That gives Stanford a record of seven-and-three and UCLA a 10-and-six mark. But California topped the division with a 2-0 record.

Oregon State, the defending champ in the Northern Division, downed one of its chief contenders, Washington State, 43-48, last night.

Hamilton Out As Navy Revises Coaching System

ANNAPOLIS, Md., Jan. 13 —(UP)—Navy junked its graduate football coaching system today and announced that a civilian will replace Head Coach Capt. Tom Hamilton.

Hamilton, who had one more year to go as head coach, will become director of athletics and head of the department physical training when Capt. Edmund B. Taylor completes his shore duty in June.

The Naval Academy announcement said "a professional coach will be employed as head coach as early as practicable in order to make plans for the forthcoming season."

It said negotiations for a civilian coach "will be started immediately."

Hamilton, Taylor and the executive committee of the Naval Academy Athletic Association will have charge of selecting the civilian coach.

The announcement disclosed that Edgar E. (Rip) Miller, an assistant coach since 1926, had been considered for the head coach job but had declined it.

Miller will be appointed assistant director of athletics.

The decision to abandon the graduate coaching system stemmed from recommendations made by a special panel of former Navy football stars which met here last week.

Baseball Tryouts At Harmon Field

In preparation for the coming Island baseball season, Harmon Field diamond enthusiasts spent most of last week limbering up their battin' and chuckin' arms.

One hundred twenty aspirants to the squad berths turned out Saturday and Sunday afternoons to get in their share of batting and fielding practice as Charles Stegura, baseball manager of the Harmon Field special services, announced that preliminary tryouts for the squad will be held this Saturday and Sunday at 1400 on the Harmon diamond.

The diamond is in good shape and special services out Harmon way is making every effort to have it in top condition for the first practice game to be held within the next two weeks.

Tennis Tourney Gains Interest as Entries Pour in

Interest is zooming in the coming GUAM NEWS tennis tournament with several more entries coming in, among them two threats for the women's crown, and two strong contenders for the title held by Lcdr. J. D. Smith, last year's winner.

The women's division, organized only last week because of repeated inquiries, got two more entries from Miss Nora Riley, and Lt. Betty Marble of the 22nd Station Hospital.

From MarBe came blanks from Lt. John Tobin and Capt. Bob McBride, champion and runner up in the recent Army tournament. Both have several tourneys behind them and will be contenders for both the singles and doubles crowns.

The newly formed mixed doubles class has been neglected so far, and it appears that unless some interest is shown, it will have to be abandoned.

There is more than three weeks remaining to practice and the deadline for entry is still more than two weeks off. The novice class—for those who have never competed in a tournament—will give the weekend duffers a chance, so fill out the blank on this page and send it to the sports department, GUAM NEWS.

Vermont Girl Tops U. S. Women Skiers

GRINDELWALD, Switz., Jan. 12 —(UP)— The baby of the U.S. women's olympic ski team, 15-year-old Andrea Mead of Rutland, Vt., tied for fourth in the giant slalom for the top American performance today in the finale of the Swiss Ladies Ski club contests.

The event ended in a first place tie between Georgette Thiollere of France and Celina Seghi of Italy, both of whom were clocked in 2 minutes 10 seconds. Sweden's May Nilsson was third in 2:11.3.

Tied with Miss Mead for fourth with 2:18 was Francoise Gignoux of France. In seventh place was Rebecca Cremer of LaCrosse, Wis., in 2:20.6, and other Americans to compete were Gretchen Frazer of Vancouver, Wash., ninth, 2:52.2; Dodie Post of Reno, Nev., 11th 2:26.3, and Ann Winn of Gannett, Ida., 16th, 2:25.3.

NEW YORK, Jan. 13 —(UP)— The National League will conclude its 1948 baseball season on Sunday, Oct. 3, a week later than usual, due to "a break in the calendar" President Ford C. Frick announced today.

The season will open April 20, about a week later than usual, and as customary, each club is scheduled to play 154 games.

HIGHEST SALARIED PLAYER IN BASEBALL HISTORY AND HIS BOSS—Bill Veeck (Left), president of the Cleveland Indians, said today that Pitcher Bobby Feller (Right) received the highest salary of any player in the history of baseball with a total of $87,000 last season and will have a chance to retain the distinction in 1948. Feller is expected to have to pay $52,000 of his 1947 pay in income taxes, leaving him about $32,000 to toy around with. (AP Photo)

Ike-for-President Boom Sparks Political Race

WASHINGTON, Jan. 14 —(UP)— The Ike-for-President boom looks today like the fastest moving thing in American politics.

Gen. Dwight D. Eisenhower just about took the brakes off the committee movement yesterday. He avoided the direct issue raised by entry of a slate of delegates in his behalf in the March 9, New Hampshire preferential primary.

Unless the general takes himself out shortly in no uncertain language, he will be in the pre-convention campaign for the Republican presidential nomination to stay and to win or take a licking. He won't be able to control it himself.

Announcement that an Eisenhower delegation had been formed in New Hampshire was followed promptly by an endorsement of Ike by Sen. Charles W. Tobey, (R—N.H.).

"For some time," said Tobey, "I have been giving serious thought as to which man of the several possible candidates for the Republican nomination is best qualified to lead this nation in this time of great crisis. I have come to the conclusion that Dwight D. Eisenhower is that man."

Fire Guts Historic Savannah Theatre

SAVANNAH, Ga., Jan. 14 —(UP)— A general alarm fire broke out last night in the historic Savannah theatre on Bull Street here, the oldest theatre in America. Some 200 people witnessing a movie were evacuated.

A movie-goer, who happened to see the ceiling of the threatre burning, walked calmly out of the brick building and notified the fire department. All persons were ushered out in an orderly manner.

Firemen fought the intense blaze for nearly an hour before bringing it under control and lost a new aerial ladder in the process. The upper end of the ladder, swinging near the top of the three-story structure, melted in the heat of the fire and forced the fire chief to order it taken down.

While the cause of the fire was not known, damage was expected to be "considerable."

War Hero Makes Last Voyage Home

Presumably the first from Guam to die in the war between the United States and aggressor Japan, Jose Sanchez Quinata will return to his native soil today in a flag draped coffin aboard the USAT Pope.

Quinata died while serving aboard the USS Arizona when the Japanese made their sneak attack on Pearl Harbor on December 7, 1941. The arrival of his remains marks the first return of war dead to Guam.

A brief ceremony will take place at Sugar One dock at 0900 this morning, with military representatives, chieplains, a guard of honor, representatives of local civic organizations and a military band attending.

The body will then be transported to Quinata's native Umatac village, nestling beneath the foothills at the southwest end of the Island. It will lie in state at the Saint Dionisios Catholic church until its final burial 10:00 Friday morning. Chaplain Brock, USA, and Chaplain Burke, USN, will accompany the body from the dock to Umatac.

The final resting place of Quinata, after spending over six years away from Guam, will be the Catholic cemetery at Umatac. He will be buried with a full Naval funeral, Father Adelberg Donlon presiding. NOB will provide pall bearers, a firing squad and buglers for the last salute.

Weather Forecast

Generally cloudy today, becoming partly cloudy tonight. Occasional moderate showers. Winds moderate southeast to east with fresh gusts.

Yesterday's temp. Max: 84 Min: 77
Yesterday's rainfall: 0.17 inches
Rainfall for month: 3.12 inches.

Bank Employes End Two-Week Business Strike

ROME, Jan. 14 —(UP)— The 14-day strike of 60,000 bank and credit house employes, which had gripped Italy in a slow financial paralysis, ended here tonight. Sixty-thousand tax collectors who struck in sympathy also expected to return to work.

Meanwhile, eight Communists were arrested in the Roman hill towns of Genazzano, Marino and Albano when a Carabinieri search for hidden arms caches uncovered heavy machineguns, rifles, revolvers, thousands of rounds of ammunition and 1,000 rounds of TNT.

At San Stino, near Venice, Carabinieri found a second agsenal of anti-tank and cannon shells rifles, pistols and ammunition.

End of the strike which had crippled little and big business was announced at 6:30 p.m. at the labor ministry where Minister Amintore Fanfani and Labor-management representatives signed a formal agreement.

Mother Strangles Child To Collect Insurance

BIRMINGHAM, Ala., Jan. 14 —(UP)— A 21-year-old mother strangled her three-year-old son with a diaper and told police she hoped to collect $1,000 in insurance and pay off $150 that had been loaned to her husband at 50 per cent interest for six months.

Mrs. Alec E. Fitzhugh, a slender and pretty blonde girl, tried to make her apartment look as though it had been burglarized and asked the police to believe the burglar had killed the baby. When they wouldn't, she confessed and pleaded that the lenders of the money were threatening to garnishee her husband's $50 a week pay.

"I thought Alec might lose his job," she sobbed. "The baby's insurance was the only way out."

She became hysterical when police required her to describe how she looped the diaper around blue-eyed Johnny Fitzhugh's neck and twisted it "for I didn't know how long." Johnny "did not cry."

She said she came to her decision about midnight, after her husband, an electrician, went to work on the 11 p.m. to 7 a.m. shift at the Tennessee Coal, Iron and Railroad Co. The diaper belonged to their three-months-old daughter.

Five Killed in Crash

WASHINGTON, Jan. 14 —(UP)— Five persons were killed and four injured today when an Eastern Airline DC-3 passenger plane, groping through heavy rain and predawn darkness, crashed in a wooded area five miles southeast of here as it approached Washington for a landing.

The big plane was carrying nine persons in all, six passengers and three crew—all men—on a scheduled flight from Houston, Tex., to Boston.

The survivors told attaches at casualty hospital it was "some crash," but could offer no explanation as to the cause other than the poor visibility at the time.

Cold Wave Hits Midwest

CHICAGO, Jan. 14 —(UP)— A sub-zero cold wave hit the midwest today, and snow fell from Iowa to the Atlantic coast, the same area hit by a severe storm less than two weeks ago.

Heavy snow was falling in snow-burdened New York, and in eastern Pennsylvania and the New England states. The snow was expected to reach a depth of from four to eight inches.

U.S. Seeks Action In China Aid Legislation

SHANGHAI, Jan. 14 —(UP)— The United States is gradually bringing stronger pressure to bear on China to meet the terms for aid and the Chinese government had launched a trial balloon program of its own in an attempt to influence American action, it was learned yesterday.

An authoritative source disclosed that the State Department through some official channels, but mainly through unofficial conversations with high Chinese personages, both in Nanking and Washington, is laying down premises upon which it will agree to ask Congress for funds for China.

These conditions, among others, according to this source, include a definite blueprint for assistance of Chinese farmers and small industries and a realistic system by which U. S. representatives would share equally with the Chinese in administering the general program from start to finish.

At the same time, it was said, the United States is making an effort to learn how far it can go in using the aid program as a lever in prying the Chinese government loose from its attitude on the Japanese peace treaty.

Rail Mishaps Strike East Coast

CHAMBLEE, Ga., Jan. 14 —(UP)— The Southern Railway's new high-speed flier, the New Yorker, plowed into a Navy crane-truck at a grade-crossing here tonight, and 10 cars of the 13-car train turned over or careened off the rails.

At least five persons, all of them said to be train engemen, were injured when the New Yorker crashed up only a few minutes after it left the Atlanta terminal station on a scheduled 18-hour run to New York.

The injured were taken from the buckled train and rushed to nearby Lawson General Hospital.

The three-man Navy crew of the huge derrick truck reported that their vehicle stalled on the track and they jumped to safety. They vainly tried to wave down the New Yorker, which was traveling about 50 miles an hour.

Thomasville, Ga.

The Atlantic Coast Line's Miamito Chicago "South Wind" was wrecked before dawn yesterday 15 miles south of here, injuring eight persons.

The streamliner, which left Miami an hour late last night, hit a broken rail near Pidcock Junction at 4:37 a.m. (EST) as it crossed into Georgia from Florida. Couplings snapped and the locomotive and two cars careened on down the track undamaged.

The other cars curled up steel ribbons from 29 sections of rail.

Middletown, Ind.

A locomotive and all six cars of a westbound Pennsylvania Railroad mail express train were derailed early today when it struck an automobile at a crossing here, killing one of the occupants and seriously injuring the other.

Roscoe Leveridge, Newcastle, Ind., driver of the automobile, was injured seriously and his companion, an unidentified woman, was killed instantly in the wreck, which occurred at 1:15 a.m. (CST).

Only two of the 15 passengers aboard the train were hurt and they suffered only minor injuries, according to Indiana State Police.

Sled Hits 1,000 mph

MUROC AIR BASE, Cal., Jan. 14 —(UP)— A rocket-powered ground vehicle traveling on a railroad track has cracked the speed of sound barrier with speeds in excess of 1000 miles an hour, the U. S. Air Force disclosed today.

Modified jet-bomb launching sleds about 15 feet long were used in the experiment with "slippers" to hold the sleds to the rails.

The sled weighed about 1500 pounds, said Northrop Aircraft officials, who conducted the experiment. They were powered by five giant solid fuel rockets, each developing 10,000 pounds thrust for 1.8 seconds.

Ramsey Heads PacFlt

Admiral DeWitt C. Ramsey, USN, will assume the duties of the Commander in Chief, Pacific and U. S. Pacific Fleet aboard the aircraft carrier, USS Valley Forge at Pearl Harbor, Monday.

Admiral Ramsey, who arrived in Honolulu aboard the Matsonia Monday morning, has been Vice Chief of Naval Operations for almost two years.

Vice Admiral H. B. Sallada, USN, has been acting CincPac since Admiral Louis E. Denfeld, USN, left for Washington early in December to become the Chief of Naval Operations.

The brief ceremony was attended by high ranking officers of the Army, Navy, Air Force and Governmental officials.

Hays Refutes Russian Tales Of American Evacuation

BERLIN, Jan. 14 —(UP)— Maj. Gen. George P. Hays, deputy American commander in chief, answered an apparent Russian campaign to oust the western allies from Berlin with the blunt assertion today that the United States forces intend to stay here until all Germany has been unified.

Hay's statement was intended, on the surface, to quiet fears of Germans that the American, British and French forces might withdraw and leave the German capital to the Red Army. Actually it went deeper. It constituted a forceful retort to the implied threat in the official newspaper of the Russian Army here that Russia might seek to force the western allies out of Berlin because of the recent Anglo-American agreement on unity of western Germany.

Following this up, the Russian propaganda machine started working today in an apparent attempt to convince Germans that the Americans were already leaving.

Tuagliche Rundschau, Red Army newspaper organ which published the implied ouster threat, published a cartoon showing American soldiers sitting on their packed bags in Berlin. The caption said: "Such a lie." They simply claim they are sitting on some bundles."

Radio Moscow, in a broadcast recorded tonight, gave a long string of figures to create the impression that the Allies are pulling out of Berlin.

Jews Threaten To Blow Up City Wall

JERUSALEM, Palestine, Jan. 14 —(UP)— Angry Jewish may blow a breach in the wall of the old city in Jerusalem, with resultant death to "many innocent people," unless British troops aid 1,500 Jews isolated in the area under Arab sniper fire, a Jewish agency spokesman said today.

Warning that the dynamiting of the ancient wall was "one of the things that might happen," the spokesman added:

"I do not speak for Haganah (the biggest Jewish underground organization) or any other Jewish organization. But if you hear a big bang one of these days, with many innocent people killed, do not be surprised. This is a logical deduction from the state of mind of the Jewish man in the street."

The spokesman demanded that the British use artillery if necessary to break Arab road blocks around the area—including all gates to the old city area—and prevent "the big bang."

British official sources at once said that the spokesman's statement was a "threat" which was made at a time when "our men are risking their lives every day to get food into the besieged Jewish quarters of the old city."

British troops last night took two convoys of food into the area. The Jewish agency spokesman said today that the food situation was satisfactory there at present.

Clashes continued between Jews and Arabs in Jerusalem and Palestine generally.

Fist Fights Break Up Assembly Meeting

PARIS, Jan. 14 —(UP)— Fist fights broke up a meeting of the National Assembly tonight soon after veteran radical Socialist leader Edouard Herriot was re-elected assembly president over the Communist, Raoul Calas.

In the midst of the uproar, acting President Marcel Cachin, 78, a Communist, suddenly adjourned proceedings until 3 p.m. tomorrow, when it was apparent that the assembly was aligned against the Communists seeking lesser assembly offices.

Cachin, who took the chair because he is the oldest member, announced that he had appealed to President Vincent Auriol because "presidents of groups (parties) were unable to reach agreement for application of the rule of proportional sharing-out of assembly offices, called for by the constitution."

Rescue Ships Avert Arctic Disasters

KODIAK, Alaska, Jan. 14 —(UP)— An estimated 21 persons reportedly were snatched from danger today in icy north Pacific waters by rescue ships that sped to the aid of two distressed vessels off the Aleutian Islands.

The Coast Guard cutter Cedar, racing a howling arctic storm, plucked 12 passengers and crewmen off the stricken passenger-freighter Aleutian Mail, and secured a line to the ship to tow her to port.

Passengers and crew abandoned ship to the Cedar after increasing winds and high tides tore her from a rocky perch where she went aground yesterday on the shore of Unimak Island, 400 miles west of Kodiak.

Forty miles southwest of the scene of that coastline rescue, the crew members of the sinking Army barge BSP-1927, a self-propelled craft that usually carries a crew of nine, were reportedly "picked up" out of the lifeboat they leaped into when their vessel began to founder.

Aussies in Japan 'Morally Rotting'

SYDNEY, Australia, Jan. 14 —(UP)— Reliable information from Japan indicated that 8,000 Australian soldiers on occupation duty there were "morally rotting," Barry J. McDonald, president of the legion of ex-servicemen, said today.

McDonald said Australian Army officers in Japan drank heavily and excessively and neglected the welfare of enlisted men. He said the attitude of high-ranking officers towards the men was comparable only with that of the German general staff in wartime.

McDonald said he also had been informed that blackmarketing was common among the officers.

Headline Highlights

LOS ANGELES, Jan. 14 —(UP)— Professional magician John Calvert's twin-engine DC-2 transport plane today crashed into a residential district after taking off from Lockheed air terminal in San Fernando Valley. The magician's father said Calvert was at the controls but was uninjured except for a bump on the head.

MINNEAPOLIS, Jan. 14 —(UP)— Thirty-four persons escaped possible death or injury today when a cool-headed pilot landed his crippled DC-4 airliner safely after circling Wold-Chamberlain Field for two and a half hours.

CHICAGO, Jan 14 —(UP)— The National Labor Relations Board filed a second complaint against the printers' union today, charging unfair labor practices, as a publishers' representative testified at an NLRB hearing that the union intended to keep the closed shop despite the Taft-Hartley Law.

TACOMA, Wash., Jan. 14 —(UP)— Jake Bird, 45, doomed Tacoma axe murderer, today tried to establish himself as the nation's most wanton killer, with a cool confession that he had slain 29 persons and could solve 14 other violent deaths from New York to California. Glibly and methodically, the Negro transient recited in his death cell, before an audience of official questioners, a list of murders and high crimes that extended over 20 years and a dozen states.

Poles to be Cleared

An order to remove all signs, brackets and other foreign equipment which are attached by various activities to Island Public Works pole systems and other facilities, was issued last week by Capt. E. N. Parker, Chief of Staff to Commander Marianas.

The order was promulgated to elimanite hazards and prevent casualties that might result because of this practice. All such matter will be removed from the poles prior to February 1, 1948.

Where it appears that it is essential to allow certain foreign equipment to remain, written permission, requested in writing, must be secured from the Island Public Works Officer.

The regular monthly meeting of the executive committee of Guam Chapter, American Red Cross will be held at 1000, Saturday, 17 January in Commander Marianas office.

$200 Nets $100,000

MINNEAPOLIS —(UP)— In six years, two Minneapolis brothers have run a $200 investment into a $100,000 business.

Willard and Robert Resnick, co-owners of the Tripoli Refining Co., set up a paint manufacturing plant in 1941 as a subsidiary to their oil refining division.

They recently had to build a $75,000 addition to take care of the mushrooming paint business, which almost outdistanced the oil scales.

Crew Re-shuffled

NEW YORK —(UP)— Commuters arriving here on an early morning train from Westchester County said they had been jolted by the appearance of the train crew.

The conductor was rakishly attired in a checkered sports cap, the brakeman wore a sports coat and tan slacks, and the engineer had on a business suit.

New York officials explained that another train had been derailed and that the substitute train was organized hastily with a crew "recruited from here and there."

The National Foundation for Infantile Paralysis was founded in 1938, dedicated to the conquest of this disease. Before that, there was no national organization to fight infantile paralysis.

Radical price reduction at Fifth Service Post Exchange for service personnel 15, 16, 17 January 1948. Hours 1130-1700. Prices drastically reduced on practically our entire stock. Sale ends Saturday, Jan. 17.

Guam Airmen to Leave For West Point Prep.

HARMON FIELD — Sgt. Lucius W. Gaddis, of 2021 West 4th St., North Platte, Neb., and Sgt. Sherman L. Webster, of 911 Hartzel Place, Pacific Palisades, California, both members of the Marianas Air Materiel Area, have received appointments to the United States Military Academy preparatory training school at Stewart Field, New York.

The interesting point of note is that Sgt. Gaddis and Sgt. Webster arrived overseas at the same time, applied for West Point at the same time, and received their appointments at the same time. The Sgts. received their appointments through normal military channels.

Sgt. Gaddis, assigned to the 19th Air Repair Squadron has been working in the maintenance division at MARAMA as a camera technician, while his friend and fellow school mate, assigned to the 19th Air Supply Squadron, has been working as an administrative supply clerk in the supply division of MARAMA.

Both men will leave immediately by air for the United States and Stewart Field to commence training.

"IT WONT HURT A BIT," at least that is what Capt. E. S. Emmerson, veterinary officer at the 22nd station hospital indicates. This beautiful dog is receiving a shot for rabies. Incidentally this was the last one to be given here at this dispensary. In the future, dog owners must bring their animals to the Public Health Department at Agana. Sick call for pets is held daily at the veterinary dispensary 22nd station hospital from 7 to 8 a.m. Military personnel bring their pets in for examination and treatment. Health certificates for pets are issued to those owners who desire to take their animals back to the states. (Signal Corps Photo)

It Was Probably Only Puppy Love

MONTEREY, Calif.—(UP)— Tony, a heart-broke collie dog who wouldn't eat while his soldier master was gone, was re-united yesterday with Cpl. Robert H. Stratman. But the Army wondered if it was worth it.

The three-year-old tail-wagger was flown here from Santa Monica, Calif., in a special Air Force "mercy plane." A group of Army officers, who went to considerable trouble to save the grieving pet's life, made a proud and admiring audience for the grand reunion at the Fort Ord kennels.

Barking excitedly, Tony leaped into Stratman's arms, lavishing canine affection and displaying supreme doggy happiness.

Just then another dog—a lady one—trotted by. Tony was away like a flash. It took the red-faced corporal nearly an hour to corral his errant pooch.

GUAM NEWS Retailers Listed

Retailers for the GUAM NEWS have been established in the majority of the villages on the Island by the Bill Lujan Agency.

The following establishments have the GUAM NEWS for daily sales:

AGANA: Guam Commercial Store, Bamboo Inn, and the Cruz Store; SINAJANA: Bill Lujan's residence, and Castro Store; AGANA HEIGHTS: Mrs. Rosario Sablan's residence, principal of the Agana Heights school; CHALAN PAGO: Jose Leon Guerrero's residence, principal of Chalan Pago school.

YONA: Manuel Lujan's residence, principal of Yona school; TALOFOFO: Cumbado's Store; INARAJAN: Mrs. Rosa Diego's Store; MERIZO: Charfauros Store; UMATAC: Sanchez Store.

AGAT: Toves Store; SANTA RITA: Pangelinan Store; PITI: Kaminga Store; ASAN: Tydingco's residence; BARRIGADA: Ben Calvo's Store, Ben Palomo's Store, Luis Untalan's Store, Carbullido's Store and Carmen Matias' Store.

TAMUNING: Marianas Sales Company and Takana Store; DEDEDO: Carmen Cruz Store and Shimizu's Store; YIGO: Daniel Perez' residence, principal of Yigo school; and MONGMONG: San Miguel's Restaurant.

BuPers Discloses Transfer Orders

COMMAR HILL—Orders recently issued by the Bureau of Naval Personnel revealed that Vice Adm. Harold B. Sallada, acting Commander-in-Chief Pacific has been detached to Commander Air Pacific, succeeding Vice Adm. John D. Price, who will pursue duties as Deputy Chief of Naval operations, for air.

Change of Command

Adm. Sallada was deputy CinC-Pac under Admiral Louis V. Denfeld who has assumed duties as CNO relieving Fleet Admiral Chester W. Nimitz.

Rear Admiral Samuel P. Ginder, frequent visitor to Guam, has been shifted from Commander Carrier Division Three to Comdr CarDiv Two.

Also of interest locally: Capt. Calvin F. Wakeman, CO of NAS Kobler, Saipan, has been issued orders to duty as operations officer on the staff of ComNATS. Cdr. Erle V. Dennett, of NOB, Guam who has been a prominent figure in Island athletics as a promoter and coach, will leave shortly for duty as inspector-instructor for Naval Reserve, Bridgeport.

Cdr. William A. Held has been ordered to Naval Supply Center, Guam from Supply Depot, Mechanicsburg, Pa. Cdr. Avery A. Pabst will report to NSC, Guam from NSD, Seattle. Lcdr. Selden S. Hoos will also report in at NSC, Guam from NSC, Oakland.

NOTICE

Announcing the opening of the GUAM SERVICE CENTER, Saturday, January 17th. Naval uniform and photo supplies. Marine Drive, Tamuning Village. 16

The first major epidemic of polio, as infantile paralysis, or poliomyelitis, is called, occurred in 1916 when 27,363 cases were reported. In the past 30 years, 223,306 additional persons came down with the disease.

Rules Prescribed For Safe Driving

As a result of thousands of interviews with offenders and alleged offenders of the Motor Vehicle Code of Guam, Lcdr. R. A. Kiely, Guam Police Force, lists the following rules for safe driving, which if strictly adhered to, will materially reduce the number of traffic-hazards and accidents on the local highways.

RULES FOR SAFE DRIVING

(1) Always be alert, let nothing distract your attention from your job of driving.

(2) Approach pedestrians with caution. Be ready to make a quick, safe stop. Be alert in business districts for pedestrians stepping from between parked cars.

(3) Always remain at sufficient distance behind the car in front of you to be able to stop safely.

(4) Slow moving vehicles must keep to the extreme right of the highway. They are an accident hazard, inviting foolish motorists to make dangerous passes.

(5) When a police officer signals for you to stop, drive to the extreme right of the highway and give notice to the vehicle which is behind you.

(6) Always slow down before reaching a curve.

(7) Instead of coasting around a curve, keep your car in gear and feed the gas cautiously.

(8) Never jam your brakes. The best braking power is obtained by applying and releasing the brakes intermittently with a pumpli motion.

(9) Permit cluch to be engaged in slowing down.

(10) To ensure safety, use the same gear in descending a steep grade as you would have to use ascending it.

(11) If your car starts to skid, keep it in gear and turn the front wheels in the direction of the skid.

(12) Slow down at sun-down. A good rule is to drive two thirds as fast by night as you do by day.

(13) Keep your windshield clean. A dirty windshield is especially hazardous at sun-down and at night.

(14) Be on the alert at night for trucks and busses. Many vehicles of this type unfortunately do not have proper identification lights.

(15) Keep your car under control while passing children who are walking or playing along the highway.

(16) Avoid looking directly at the lights of an oncoming vehicle at night. An eye is a sensitive instrument which is quickly blinded by a glare.

(17) Be careful when pulling your car onto the main traveled portion of the highway. It is not always possible to see cars approaching from the rear in your mirror.

(18) Be careful of vehicles making left turns when driving through intersections.

(19) Do not fail to obey stop signs. They are placed for your protection.

(20) Always dim your lights when 300 feet away from the car coming towards you.

REMEMBER. . . ACCIDENTS DON'T HAPPEN, THEY ARE CAUSED

Colonel Revisits Fox Hole on Guam

MARBO—Lt. Colonel Wm. L. Kopp, a member of the headquarters staff at the time of the invasion of Guam, took a second look at Guam this week, and admits it was under less trying circumstances.

His first glimpse of Guam was waiting on board a ship for the signal to go ashore. It was D plus one day when he first saw the Island through the rain of shell fire.

On his return trip through Guam last week on his way to Iwo Jima to lead garrison forces there, he tried to locate some of the spots he thought he would never forget.

One such place he did find. It was located near some bushes near the town of Agat. Of course, he remarked, there was no town of Agat at that time because it had been completely destroyed.

This spot was the colonel's first fox hole on Guam. He said it got much deeper between the first and second night.

The modern highway system we now enjoy was not here then, he added. Col. Kopp said there were just trails and most of these were not passable with vehicles.

The colonel landed on Guam on July 22 and left on November 2, 1944. He was with the 77th Division.

Col. Kopp is a native of Baltimore, Maryland. He served with the headquarters of the Second Army before returning to this command. His wife and son will remain in Baltimore for the time being, he said.

Lt. Col. Walter Killilae, present commander of the garrison forces at Iwo Jima, will return to Guam for a new assignment.

Lt. Colonel Wm. L. Kopp

New Rules Set For Car Buyers

MARBO—New rules or qualifications required before a person may purchase an automobile at the Central Exchange were announced yesterday by MarBo Central Exchange officials. Effective at once the following qualifications will be in force:

1. All previous qualifications for the purchase of automobiles as published by the MarBo Central Exchange are hereby rescinded and the following qualifications become effective immediately:

A. A deposit of $1,000 will be paid upon making application.

B. Each purchaser must certify that the automobile is for his personal use.

C. Only one automobile will be sold to each authorized person or his dependent (not both).

D. Sales to be restricted to military personnel, Department of the Army civilian personnel, employes of special services who are paid from non-appropriated funds, Post Exchange employes, technical representatives, school teachers and teachers in the Guam Area schools;

E. The resale of an automobile purchased from any Army exchange will be prohibited unless paragraph 4G, FEC Circular No. 26 is complied with, which permits selling only to a person authorized to purchase an automobile from any Army exchange. The resale price will not be more than the original cost price.

The 2,718 chapters of the national foundation serve the 3,070 counties in the U. S. Volunteer workers in the chapters carry on the fight against polio the year round. Each chapter keeps half the money it raises in the March of Dimes.

Southern Cagers Feted at Barbeque

Capt. and Mrs. O. P. Thomas, Jr. continued the steak and eggs tradition at NavBks-RecSta Sunday as they played host to the two top basketball teams in the southern league, NavBks-RecSta, 109 Sea-Bees.

While the former opposing squads shook hands over a glowing barbeque pit, 20 guests honoring the team sat down to barbequed pork and beef served with all the trimmings.

Highlighting the evening Capt. Thomas assured both teams that everyone was proud of the fine showing and clean sportsmanship during the season. He also pointed out that a great deal of credit should go to the third team from the area, NOB Industrial, which tied for third place in the southern league. Capt. and Mrs. L. C. Grannis, Commandant, NOB, attended the party.

Middies Seek Grid Coach; Huskies Sign Eli Mentor

ANNAPOLIS, Md., Jan. 14 —(UP)— perhaps even Frank Leahy of Notre Dame—was expected to be named shortly to direct Navy's football team as the academy launched a new policy today of operating on the gridiron without benefit of its ancient obsolete graduate system.

Whether Leahy had been approached or whether he would take the job even if he were, belonged with the speculation that found Navy's seadog mentor, Capt. Tom Hamilton at South Bend Ind., the home of the fighting Irish, at precisely the time that the Navy announced it was junking its civilian coaching system.

Hamilton was there, presumably to attend a sports banquet, but in view of the fact that Leahy was a war time Navy officer, there seemed a remote chance that he might consider coaching the Middies in peace time—for a sizeable sum.

Washington Gets Odell

SEATTLE, Jan. 14 —(UP)— The Seattle Times reported today that Howard Odell, Yale's head football coach for the past six years, was enroute to Seattle to accept a position as head football coach at the University of Washington.

The Times quoted his wife as saying by long-distance telephone that Odell would join her in Iowa after completing arrangements here with University officials to succeed Ralph (Pest) Welch as Washington's coach.

University officials refused to confirm the selection or to comment on Cassill's possible recommendation.

Yank Skater Gathers Most Points, But Loses

PRAGUE, Czech., Jan. 14 —(UP) Hans Gerschwiler of Switzerland squeaked through to victory in the compulsory figure skating event of the European title competition today despite the fact that Dick Button of Englewood, N. J., won most of the plaudits of the crowd and most of the points.

Gerschwiler, Switzerland's champion figure skater in the men's division, registered 747.8 points and 14 placings while Button had an aggregate of 749 points and 15 placings. The judges' placings, which awarded one vote for the first place, two votes for second place and so on down the line, gave Gerchwiler the triumph by a narrow margin although the slender, 18 year old Button had a larger total of points.

The Hungarian team of Andrea Kekessy and Ede Kiraly won the Paris title.

New MarBo Cage Loop Gets Underway

MarBo's new "buffalo" basketball league started rolling Tuesday afternoon with a game postponed from Monday night at the 226 M. P. sports arena.

Starting at 1900, the gage sport is slated nightly under the lights of the M. P. court until the winner from the new circuit is picked to meet the champs from the Air Force loop. The winners of that game will represent the MarBo command in Manila sometime in March.

With baseball on tap for the Navy commands in the near future the newly formed Marbo casaba league will tend to keep basketball interest alive on the Island.

Sports Beat

by Bob Crossley

Wise money boys are passing the word around that Branch Rickey, called the smartest trader in baseball, may regret his swap with the Pittsburgh Pirates that sent Dixie Walker to the smokey city.. Even though Dixie was dubbed the "peepul's cherce," he didn't fit into Rickey's quest for youth and more youth....

The ex-Card boss made it clear when he left St. Louis in 1943 that the 32 year old Walker was just a fill in and would be dispensed with as soon as a capable rookie was found to take his place....In 1944 Walker crossed up the mastermind by leading the league in batting with a healthy .357, and the following year led the loop in runs batted in.....Even the fact that Dixie was an important morale factor in the bums not too steady pennant race last year, could not sway Rickey from his course.

More Reasons

There may have been a few more reasons....Firstly, being a local favorite, Dixie was in a position to demand a large salary; second, he had visions of Dixie Walker, the manager; and lastly he packed a lot of weight and influence inconsistent with the bushy-brow-Bum boss' plans.....

It may turn out that this deal will be, as have been a large majority of the Rickey barters, a wise one...But Dixie will be gunning for revenge, and if he puts on his best shows when the Bucs are showing at Ebbetts field, it will likely turn the customers against Branch instead of Walker.

It is a well known fact that the Bums have been almost single-handedly keeping the Bucs out of the cellar in the National League with their "give-away" deals.... Now the "peepul" are raising a hue and cry that Rickey has gone too far...Walker may not lead the Bucs to a National League flag in a blaze of glory, but it is very possible that he could be the guy to knock the Bums out of the pennant.

Bambino "Doing Fine"

NEW YORK, Jan. 14 —(UP)— Babe Ruth, still under observation at the Neurlogical Institute of the New Yory Medical Center, was reported "doing fine" tonight by his attending physician, Dr. Rollo Masselink.

Dr. Masselink said it has not yet been decided when the famed Bambino will be discharged.

During the epidemic months, consult your family doctor before having mouth and throat surgery. Avoid crowds and new contacts. Don't stay too long in cold water; chilling and extreme fatigue may make you an easier victim.

Colts, Dodgers Sign Grid Stars To AAC Contracts

BALTMORE, Jan. 14 —(UP)— Earl Maves, backfield star from the University of Wisconsin, today was the latest young collegian added to the Baltimore Colts' roster for 1948.

Maves, who was signed to a Colt contract yesterday, gave a fine performance for the East squad in its 40 to 9 trouncing of the West stars at San Francisco on New Year's Day.

He was the fourth new player to sign with the Colts, who were Eastern Division cellar-dwellers last year in the All-America Conference. The others were Tackle Jim Spruill and End Wedell Williams of Rice Institute and Jim Madison, a guard from Ohio Wesleyan.

Dodger Sign Three

NEW YORK, Jan. 13 —(UP)— Branch Rickey, who recently took over the direction of the Brooklyn football Dodgers of the All-America Conference said tonight that the club had signed three Southeastern conference college football players for the 1948 season.

The players were Dan Edwards, End Captain for the Georgia Bulldogs and his team mate, Guard Heab St. John, and another guard, John Wozniak of Albama's Sugar Bowl eleven.

The "Singin' Irishman"

SAM BREADON, rags to riches former owner of the St. Louis Cardinals, looked mighty happy last night as over 11,000 baseball notables and fans payed tribute to the man who started with popcorn and went on to build the Cardinals into world's champions. (AP Photo)

Virginia Loop Turns Pro

COLUMBUS, O., Jan. 14 —(UP) The Virginia League, a class"D" circuit, has been approved for membership in the National Association of Professional Baseball leagues, Association President George M. Trautman announced today.

Senator Asks Probe Into New York's Pro Boxing

ALBANY, N. Y., Jan. 14 —(UP) —State Sen. Isador Dolinger, a Democrat from Manhattan's 26th district tonight proposed a widespread legislation investigating into "unfair, unwholesome, and deplorable conditions" in professional boxing within the state.

Dolinger, introducing a resolution calling for a passage of a bill to appropriate $50,000 for investigation said that the conditions existed in connection "with the arranging, staging, and general supervision of boxing in New York state."

"The State Athletic Commission has failed to correct these abuses," he said. "As a result of these evils and corrupt practices, a very large number of boxing enthusiasts have been duped, fleeced and otherwise damaged."

Specifically, Dolinger said he would like to sponsor legislation calling for the establishment of a seven man committee of four senators and three representatives, who would report back to the legislature by March 1, 1948.

The committee under his proposal would be directed to investigate into the manner of appointment of judges and referees for boxing bouts.

The committee, he said, would have power to subpoena witnesses and documents and to go anywhere necessary to obtain evidence of fraud or corruption.

Dolinger, if the bill passed, would seek to be a member of the committee, he said, although he could not be chairman of it because he is a member of the minority party.

Legislative authorities said the bill had little chance of passage in the Republican controlled legislature. Both Chairman Eddie Eagan and Dr. Cilan B. Powell as members of the State Athletic Commission were appointees of Gov. Thomas E. Dewey.

Breadon Honored In St. Louis With Banquet

ST. LOUIS, Jan. 14 —(UP)— More than 11,000 baseball notables and fans packed the Jefferson Hotel's Gold Room tonight to pay tribute to Sam Breadon, the man who lifted the St. Louis Cardinals from the National League basement to a team of consistent championship contenders.

Breadon, the "singin' Irishman" who parlayed a few bags of popcorn into six world championships and then sold his baseball club for $3,500,000 was the guest of honor at a dinner staged by the people who paid at the ballpark gate.

Chief organizer and promoter of the $10-a-plate affair was Julie (Biggie) Garagani—restauranteur and sponsor of ballplayer's "days" for many years.

Spry and Peppery

Breadon, spry and peppery at 71, wanted the festivities called off after he liquidated his holdings in November. And he didn't want any gifts, either. But, for the first time in any matter concerning the Cardinals, his wishes were completely disregarded.

Among the presents was a lifetime gold pass to the Redbird's games a token from former Postmaster General Robert E. Hannegan, Breadon's successor and chief of the syndicate which purchased the Cardinals. National League President Ford Frick presented a watch on behalf of the circuit Breadon served as vice-president.

Gifts from the fans included a modernistic clock and an inscribed bronze plaque, presented by Garagnani.

Popcorn Profit

Breadon was surrounded by the men who played a part in his Horatio Alger career in baseball and business. His rise began at the 1904 World's Fair, when, practically flat, he borrowed money to buy 3,000 boxes of popcorn and cleared $35 on the gamble.

St. Louis Banker Joe Holland, who was a sports writer when Breadon's alchemy first changed the Cardinal's red ink to black, was the toastmaster.

Walker, Bednarik Win Maxwell Award

PHILADELPHIA, Jan. 14 —(UP) —Ewell Doak Walker, Jr., All-America halfback who led Southern Methodist University into the Cotton Bowl and a 13-13 tie with Fenn State, received the Maxwell Football Club award tonight as the 1947 college player of the year.

Walker, first sophomore to be honored in the 11-year history of the award, was presented with a large silver box and a gold miniature football by club president Bert Bell, commissioner of the National Football League. Duplicate awards were made to Charles (Chuck) Bednarik, Penn's All-America center, as the outstanding lineman of 1947.

Children are most likely to catch polio, but grown people get it, too. In 1946, studies of cases in a number of states indicated that about 75 per cent are under 15 years of age; 25 per cent are over 15 years of age.

U.S. Aid Nations Constitute Anti-Communist Bulwark

WASHINGTON, Jan. 15 —(UP)— An administration bill calling for a $40 "cost of living" tax credit for all taxpayers to be offset by a 75 per cent excess profits levy on big corporations was introduced in the House today as a counter proposal to Republican election-year tax plans.

The two-point plan was offered by Rep. John D. Dingell, (D-Mich.), a few hours after he and other top-ranking Democratic members of the House Ways and Means Committee conferred with Mr. Truman.

Republican leaders already have given notice that they want no part of this program, and will insist on going ahead with their own proposals for a general income tax cut costing $5,600,000,000 a year.

The President told Congress in his state of the union message last week that a $40 tax credit on 1948 taxes, to be granted all taxpayers and each of their dependents, would cost $3,200,000.

He suggested offsetting this through a corresponding increase in regular corporate taxes.

The Dingell bill, a substitute idea worked out after a series of conferences among administration tax experts, would recover the lost revenue through excess profits levies on the most wealthy corporations. He said the proposed 75 per cent tax would strike at fewer than 22,000 of the 360,000 corporations which pay all forms of taxes.

Task Force 38 Changes Route

A serious increase of infantile paralysis cases in New Zealand is the principal reason Task Force 38 is cancelled its tentative visit there next month.

This was disclosed last week by Vice Admiral Harold B. Sallada, USN, deputy CinCPac, who announced that the force will stop only at Sydney, Australia, and not at Auckland, N. Z. as previously announced. Task Force 38 is composed of one carrier and four destroyers.

Earlier in the week a CinCPac spokesman said the trip was cancelled for "operational considerations."

These operational considerations were said to include getting the Task Force ships in readiness and shortage of docking space in Auckland.

Court Rules, in Case Of 'Test Tube' Baby

NEW YORK, Jan. 15 —(UP)— A state supreme court justice ruled today that the husband of a woman who has had a baby by artificial insemination is entitled to the same rights as a foster parent who has formally adopted a child.

In a decision believed to be the first of its kind, Judge Henry C. Greenberg ruled that 42-year-old Antoine Strnad should be permitted to visit the "test tube" child born to Mrs. Julie Strnad from whom he was separated last October.

"I do not pass on the legal consequences in so far as property rights are concerned in a case where a woman has been artificially inseminated," he said.

Severe Typhoon Strikes Yap

COMMAR HILL— The fifth typhoon in three months struck the tiny island of Yap Wednesday causing severe damage with winds at 90 knots and gusts estimated at over a 100 knots.

A message from the island commander, Yap, said that early reports showed the destruction of one large supply warehouse, an island Trading Company warehouse and three small quonsets including one dependents' quarters.

It was estimated that 75 per cent of the roofing was off the remaining dependent housing and enlisted quarters.

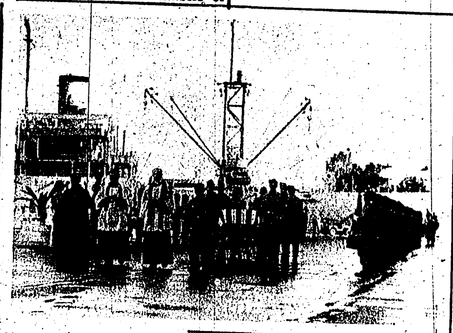
The report said that all quonsets were sprung and construction and roads were awash.

All power was out except emergency generators and all power lines were down, the report said.

There were no known Navy casualties, but a complete check had not been completed. The native status was not known.

The report set the first estimated cost of damage at $75,000.

This was the fifth typhoon to hit Yap in the past three months. The last typhoon struck Yap on December 23, causing considerable damage. The typhoon that hit Yap Wednesday was the same one that caused Commander Marianas to issue condition 2 warnings last Monday.



Shipside Services Held for First Of War Dead to Return to Guam

COMMANDER MARIANAS — A flag draped coffin swung over the side of the USAT General Pope yesterday morning amidst throngs of solemn onlookers to mark the first return of native war dead to Guam.

In an impressive shipside ceremony, Navy stewards mate Jose Sanchez Quinata, killed while serving aboard the USS Arizona when the Japanese made their sneak attack on Pearl Harbor, was returned from a Naval cemetery in Hawaii to his native soil, where he will be buried today with full Navy honors.

The deceased Quinata is believed to have been the first Guamanian serviceman to die in the struggle between axis and Allied powers.

Hundreds of people, heads bare, witnessed the homecoming of the war hero. As the coffin swang slowly over the side of the ship, a detachment of Army troops stood at right attention while an Army band played the mourning theme. All nearby ships in the harbor flew the Stars and Stripes at half mast in honor of the dead warrior.

As the coffin was brought to rest next to a white clothed tier on the dock, four members of the Catholic clergy conducted a Catholic ritual in the presence of hundreds of bowed heads. Cameras ground, and even nearby dock workers stood reverently as the ceremony reached its solemn climax. As the coffin was borne by six Army enlisted men between the long rows of Army troops to the waiting ambulance serving as a hearse, American and native women alike dabbed at tear filled eyes.

From there, a block long procession consisting of the hearse, honor guard, flag bearers, funeral band and numerous vehicles filled with relatives and friends of the deceased sailor crept slowly towards the main road. People remained transfixed with the awe of the occasion until the last vehicle was nearly out of sight. Governor Pownall and various other Island dignitaries covered their hitherto bared heads.

The body of Quinata remained in state last night and will be buried at 10:40 this morning in the Catholic cemetery in his own native village of Umatac. The funeral will be conducted with full Naval honors. Boyhood friends will act as pallbearers, while service buglers will play echo taps. The father and mother of the deceased sailor as well as his numerous brothers and sisters will watch his remains lowered to their final resting place.

—March of Dimes—

Stassen Charged With Secret Information

WASHINGTON, Jan. 15 —(UP)— Sen. Theodore F. Green (D-R.I.) charged last night that Republicans on the Senate speculation subcommittee had armed GOP presidential candidate Harold E. Stassen with secret information which he used against Brig. Gen. Wallace H. Graham, President Truman's doctor.

Chairman Homer Ferguson (R-Mich.) promptly denied the allegation with the emphatic reply: "It just isn't a fact."

The exchange took place shortly after Graham had admitted to the Senate investigators that he cleared $6,165.25 profit by speculating in the commodity markets last fall instead of having "lost my socks" as he previously insisted. The White House physician also revealed that he had substantial holdings of cotton and cottonseed oil futures as late as Dec. 18.

—March of Dimes—

Greek Workers Slain

ATHENS, Jan. 15 —(UP)— Guerillas slit the throats of three Greek workers on an American aid project which involves reopening the Brallo railroad tunnel near Lamia and warned that the same fate awaits any Greek working for the Americans, United States engineers reported today.

The engineers said the three Greeks were murdered in their sleep at a village near the tunnel project 95 miles northwest of Athens.

This was the opening of a guerilla campaign to frighten native labor away from American operations.

Kuter Declines CAB Chairmanship

WASHINGTON, Jan. 15 —(UP)— Maj. Gen. Laurence S. Kuter ruled himself out as possible chairman of the Civil Aeronautics Board yesterday after the Senate Armed Services Committee refused to let him keep his Air Force rank and pay.

The committee's decision was a setback for President Truman who had asked for a special legislation to permit the 42-year-old Air Force combat veteran to take over the CAB job without sacrificing his rank, pay or subsistence.

Kuter learned of the action in Montreal where he is attending, as the U. S. delegate, a meeting of the International Civil Air Organization.

"I have no intention of resigning from the Air Force," he said.

Unless Kuter changes his mind, Mr. Truman will have to find another candidate for the CAB job.

—March of Dimes—

A. F. to Reopen Tripoli

LONDON, Jan. 15 —(UP)— The United States Air Force disclosed today that it was reopening its long abandoned wartime air base near Tripoli, Libya, on the north African coast across the Mediterranean from Greece and Italy.

European headquarters at Wiesbaden announced that the Tripoli base was being re-established to service planes heading for the middle east. It was closed a year ago when the Air Transport Command cut down its flights to Karachi by way of North Africa.

Lt. Gen. Curtis Lemay, Commander of U.S. Air Forces in Europe, flew his own B-17 to North Africa two days ago to inspect the Tripoli field, Wiesbaden disclosed. He also was scheduled to pay a courtesy call on French Air Force officials in Morocco.

The Army said the base would supply fuel and overnight service for U. S. planes.

'Cost of Living' Tax Credit Bill Introduced in House

WASHINGTON, Jan. 15 —(UP)— The State Department warned Congress today that the 16 Marshall Plan nations of western Europe are America's bulwark against international Communism and that France is the key to the whole struggle.

That appraisal of western Europe's role in the cold war was contained in one of 17 volumes of additional data submitted to Congress by the department in a new bid for approval of the European reconstruction program.

The department's warning was pointed up sharply by Secretary of the Army Kenneth C. Royall, who told the Senate Foreign Relations Committee earlier that the Army and its budget would be to be increased "immediately and measureably" if the aid program is rejected.

Conversely, Royall said, approval of the plan would go far toward reducing the need for large-scale American armament.

He warned the Senators that without such a plan of aid to western Europe, the United States could expect "at least political aggression by totalitarian nations with ideas diametrically opposed to those of a free democracy."

He said the western half of Germany occupied by the United States, Britain and France should be made a "partner" in the recovery program because German industrial facilities are needed to insure its success.

—March of Dimes—

Petrillo Freed Of Charge in Lea Act Violation

CHICAGO, Jan. 15 —(UP)— James Caesar Petrillo, boss of the musicians union for 25 years, was found innocent by a federal judge today of violating the Lea Act which Congress passed in 1946 to curb his power as a union leader.

The chunky, 56-year-old musiczar roared with elation after Judge Walker J. Lindley announced his decision. He said the victory in his long battle against the act cleared the way for renewal of contracts, expiring Jan. 31, with the four major radio networks. He announced that he would meet with network representatives in New York tomorrow.

"Now," he said, "we can ask the networks to hire more men in good faith."

Petrillo, president of the American Federation of Musicians (AFL) was found innocent, in a final and binding decision, of having violated the Lea Act by calling a strike against Chicago radio station WAAF in May, 1946. He had been charged specifically with trying to force WAAF to hire more musicians than it needed, in violation of the law.

It was the second time Labuy had ruled in favor of Petrillo on the charge.

—March of Dimes—

U. S. Will Remain in Germany Says Clay

BERLIN, Jan. 15 —(UP)— Gen. Lucius D. Clay, U. S. Commander in Chief, said tonight that he was in Berlin as the agent of a country with "immeasurable strength" and that he intended to remain here "with no fears and no nerves" despite any Russian pressure to oust the western allies.

In a special statement to the United Press on recent affronts to Americans and the implied threat published in the Red Army official newspaper that Russia intended to force the western allies out of the capital, Clay said:

"We sit here as representatives of a country with immeasureable strength and as such we have no fears and no nerves.

"I am here and intend to stay here as long as decisions are in my hands."

Clay showed clearly that he will not be frightened by any threats. His calm confidence was reflected by all American military government officers, from the highest to the lowest.

Truman Calls for Enactment of 10-Point Program

WASHINGTON, Jan. 15 —(UP) President Truman called on Congress today to help achieve a "stabilized prosperity" by passing anti-inflation measures strong enough to remove the threat of a "severe" depression.

Appealing again for enactment of his 10-point anti-inflation program, Mr. Truman said the steady climb in prices, wages and profits already had caused "serious hardships and presents grave concern for the future."

The President's combined pleas and warnings come in his second annual economic report to Congress, a report required under the so-called Full Employment Act. The recommendations in his 35,000 word document were based largely on studies by the Council of Economic Advisers created by the same law.

Mr. Truman's report saw the bad and good in almost equal proportion, but his dominant points seemed to accent the bad prospects.

—March of Dimes—

Five Seized by FBI

NEW YORK, Jan. 15 —(UP)— Five men were arrested by the FBI today in connection with the attempted shipment of 60,000 pounds of TNT to Palestine for use by the Jewish underground forces in fighting the Arabs.

Among those arrested was the long-sought "mystery man" of the case, 23-year-old Philip Alder who, the FBI said, was the key man in the explosives' purchase.

Headline Highlights

HANKOW, China, Jan. 15 —(UP)— A Lutheran mission rescue plane evacuated 25 missionaries from the Communist-infested Yangtze river basin today, but it was feared a new Red offensive north of the river has trapped at least 100 more in the town of Laohokow.

SAN FRANCISCO, Jan. 15 —(UP)— Newly-elected city supervisor Chris J. Christensen, 46, leaped to his death today from Golden Gate bridge leaving behind a note that his nerves were shattered, the state highway patrol reported.

BILLINGS, Mont., Jan. 15 —(UP)— Fire started from an inner tube thrown onto a hot stove today suffocated six persons jammed into a small tarpaper and wood shack on Billing's south side.

ST. PAUL, Minn., Jan. 15 —(UP)— John Hurley, convicted swindler, admitted today that his recent boast of having 55 wives was not true. He said the real count was only 19 wives. Hurley was sentenced by federal judge Dennis Donovan this morning to eight years in Leavenworth prison on a plea of guilty to having swindled a St. Paul wi-

Doctor Speaks on Crime

CHICAGO —(UP)— A prominent psychiatrist suggests that law and psychiatry should pool their resources to combat crime.

Dr. Benjamin Karpman, chief psychotherapist at St. Elizabeth's hospital, Washington, D. C., said in an article in the Northwestern Journal of Criminal Law and Criminology that a new concept should be adopted. Emphasis would be laid "primarily on the doer rather than the criminal deed."

Karpman pointed out that crime shows no sign of decreasing. It is growing more every day despite all methods used to prevent it.

"One of the severest limitations that still exist in modern law," he said, "is the concept that so rigidly separates the deed from the doer; more specifically the crime forms the criminal.

"We pay little attention to the criminal as an individual. Why should we be at all concerned with the doer instead of merely taking care of the deed at its face value? After all, so it is maintained, society's prime concern is with results, with acts as they affect the life of the community, and the effect is the same whatever can may back the act.

During the polio season, be sure to: wash hands before eating. Keep flies and other insects away from food. Help keep your community clean. Waste and exposed garbage may be sources of infection. Don't swim in polluted waters.

For Sale — 1947 Ford tudor, Super deluxe 8, with Motorola radio. Excellent condition. BO 4252. 17

For Sale — Whizzer bike, new, 100 miles to gallon, 35 miles per hr., $210. Mullin, Hut E-7, Camp Pitt, BO 7275, days. 16

For Sale — One half ton Dodge recon 7 tires and spare parts. See McElroy FasRon 118 Agana, Hut 11 or metal shop. 16

For Sale — 1947 Indian motorcycle, 74 flat head. Call NOB RecSta MAA anytime between 1200-2200. BO 4159. 20

CIVILIAN DEPENDENTS ARRIVE—Hubert A. Behling, commissary and mess manager for Brown-Pacific-Maxon is shown at Pan American air station with his wife, their five children and his mother-in-law as they arrived from the states recently (Guam News Photo)

Congress Disposes of Loud Ties

WASHINGTON —(AP)— Congress in its wisdom has solved a problem that long has beset this troubled nation. It has figured out how to dispose of loud neckties.

The Congressional solution: give 'em to Percy.

Percy is Percy Degrange, a capitol elevator operator for 20 years.

It was about two years ago that some now forgotten Congressman, given a horror by his aunt Oleta, masterminded his way out of his difficulty by presenting it to Percy.

Percy wore it. Other Congressmen got the idea. He wore theirs, too. Now he has more than 100 ties, not counting the many he has passed on to his grandchildren.

"Congressmen even buy ties for me now," said Percy. "They see an extra loud one and they buy it for Percy."

Representative Clarence Brown (R-Ohio), got on the elevator. He looked tuckered out. Then he glanced at Percy's neck, which resembled a paint shot explosion.

Brown brightened.

"Look at Percy," he said. Brown put out his hand toward Percy's tie, then withdrew it hastily, as if in fear of being bitten.

"It's that way all the time," said Percy. "They give me these things and then they kid me about them."

Just Hate That Man

MOULTRIE, Ga. —(UP)— Santa Claus was passing out kind words in a local department store when a six-year-old boy stepped up.

"And what would you like, sonny?" Santa asked him.

Junior said nothing. Instead he socked Santa Claus on the jaw.

Then he piped up: "You promised me a train last Christmas and you never brought it."

North Air Base Uses Safety Line At Tarague Beach

Editors Note: This editorial was taken from the Brown-Pacific-Maxon "Constructionaire," edited by Tom Richards.

Sunday, Jan. 4, an enlisted man was drowned at Tarague Beach. There have been a number of deaths through drowning not only at Tarague but at a great many other points on the coast line of Guam. We feel that many of these deaths could have been avoided if dangerous waters were properly posted. The North Air Base Command has instigated a program designed to halt further deaths due to drowning on dangerous sections of Tarague Beach which is under their jurisdiction. Signs will be posted warning swimmers of dangerous places and reminding them of past deaths in these locations.

A safety line, attached at regular intervals to buoys, will be installed some 50 yards off shore restricting the bathers to safe waters. This program has been instigated and is under the direction of Col. Robert V. De Sharo, commanding officer, and under the supervision of Capt. S. F. Sulecki, provost marshal, of North Air Base Command.

We can't praise the North Air Base Command too much for their excellent work. We sincerely hope that all other bases who are responsible for dangerous sections of the coast line will cooperate in this drive to make the beaches of Guam safe.

MarBo Originates Speech Clinic

MARBO—If you see a lot of soldiers standing in front of mirrors making strange ejaculations at MarBo, don't think that Dale Carnegie is on the Island giving courses on how to influence people.

You will be wrong if you think so, because 3,600 Philippine Scouts are expected to enroll in the MarBo speech clinic starting on January 19.

A staff of 19 officers, seven enlisted men and one civilian have been selected to teach the course.

The scouts are enthusiastic about the program as they consider it a good way to increase their knowledge of the English language.

NOTICE

The regular monthly meeting of the executive committee of the Guam Chapter, American Red Cross originally scheduled for 1000 Sat., Jan. 17 has been postponed until Mon., Jan. 19, at 1000.

Court Rules on Oklahoma Race Issue

WASHINGTON —(UP)— The Supreme Court recently unanimously ordered Oklahoma to admit immediately to its state university a Negro girl who had been barred solely because of her race.

Handing down its decision only four days after it heard the arguments, the court ruled that Ada Lois Sipuel, is entitled to education in a state-supported institution and the state must provide it as speedily as it does for white applicants.

The court issued a forthwith mandate to the Oklahoma Supreme Court and, in effect, instructed it to issue a degree assuring the girl's admittance.

Oklahoma state attorneys admitted before the high tribunal last week that the state board of regents has authority to direct her admission to the university despite an Oklahoma law making it a crime for Negroes to attend white schools or vice versa.

In another major decision, the court:

Agreed to decide the constitutionality of the rent control law, which was declared unconstitutional last November by a federal district court at Cleveland, O., U. S. Solicitor General Phillip B. Perlman said the Cleveland ruling casts "grave doubt" on the validity of any rent control extension law which might be enacted by Congress.

'Divorce Not Granted'

LITTLE ROCK, Ark. —(UP)— The Arkansas Supreme Court today voided possibly 1,500 divorces granted in the last 10 months in Pulaski (Little Rock) county, the most populous area of this state where out-of-staters can get shorn of their mates more quickly than in Nevada.

Degrees Voided

The court set aside a 1947 legislative act which set up an auxiliary chancery court to handle the rush of business and in effect voided all the divorces passed on by its chancellor, Mrs. Ruth F. Hale.

The court ruled specifically on the divorces granted Mr. and Mrs. George Howell and Mr. and Mrs. Arthur G. Stevens, but Chief Justice Griffin Smith, who wrote the decision, said "I presume all such decrees would be affected—we held that there is no court."

Close Call Saves Woman's Faith in Banks

LOS ANGELES —(UP)— Mrs. Minnie Nerhood, of Altoona, Pa., who never used to trust banks, was first in line when they opened their doors today.

She clutched the life savings of $8,763 she lost Saturday when she left her battered purse on a street car.

The money was returned last night by Oscar V. Van Patten, 54, a vacationing tax assessor from Coldwater, Mich. Van Patten found the purse on the tram, and had it while Mrs. Nerhood was turning her house inside out trying to remember where she left it.

"I figured some lady had lost it," he said. "I thought there might be a thousand dollars or so."

Mrs. Nerhood, 54, wife of a Pennsylvania railroad employe, arrived Saturday to visit their son, Dr. Harry W. Nerhood, Whittier College history professor. She carried all their savings in cash in her purse.

"We were going to buy a home here so we could be near our boy," she said. "I don't trust banks."

March of Dimes

'Lights Out'

NEW YORK —(UP)— Jane Russell's motion picture, "The Outlaw," has been in and out of the courts since it was released by Howard Hughes, but it was only indirectly involved in a complaint filed with police here.

Stephen G. Kelley, a tenant in an apartment building near the Broadway Theater, filed the complaint, alleging that a large electric sign which flickers 24 hours a day on the theater to advertise the film is endangering the health of residents of his building.

Ink-Spots . . . . by Rode

"Looting is alright, Dutch, but after all isn't taking his savings bonds going too far??"

Soviet Magazine Criticizes Chaplin

MOSCOW —(UP)— Culture and Life, the Soviet literary magazine, complained today that Charlie Chaplin fell down badly as an "enemy of reaction" in "Monsieur Verdoux," his most recent motion picture.

"Monsieur Verdoux" has not been shown in Russia, but another magazine recently printed the scenario. This brought a flood of complaints from readers, which poet Nikolai Tikhonov summarized in Culture and Life.

Tikhonov even criticized the magazine for printing the scenario without explaining to the public that Chaplin had been forced to flee from American reaction.

Chaplin long has been a favorite of the Soviet public and artistic circles, which find deep social significance in his portrayals of the "little man." Tikhonov still recognized him as an "enemy of reaction," but said this was why the Soviet public had received "Monsieur Verdoux" with "surprise and grief."

"I doubt very much whether Chaplin himself likes the suffering of his M. Verdoux," Tikhonov wrote.

Sporting Views

by Joe Wieman

Football usually ends on New Year's Day but following its season-long form of upsets and surprises the 1947 campaign seems to be still clipping along in high gear. The Naval Academy let out the story of a panel studying athletic policies; the unsolved question of whether Michigan or Notre Dame was the better eleven stole headlines for nearly two weeks after the Rose Bowl clash and even the pros pitched in. Bert Bell announced that the National Football League would consider drastic rules changes when the rules committee held its meeting.

The NCAA popped up with the sanity code which should have appeared before the season but was put off until the January meeting. Occasionally an ex-college player was signed by a pro club. Just about the only thing that hasn't happened since the "season's end" is Admiral Ingram's sending the NFL another telegram offering to have a team of All-America Conference executives play that league's champs.

"Better team" arguments follow every season as do signing of players by the pros but it isn't every day that tradition is broken. Football packs a lot of tradition and few organizations have more customs than the Navy. When the announcement first was made that the NAA intended to revise the academy policies in hopes of fielding better Blue and Gold teams it was mentioned that whatever the "advisory panel" suggested, Captain Tom Hamilton would be retained as head football coach. In the scrapping of the graduate system, something went haywire and when news of the action taken came out there was in it a clause that a civilian would replace the sea-going mentor.

As Commander Oscar E. Hagberg's successor, Captain Hamilton had little success. In his two years at the helm, the Middies had their worst gridiron seasons in academy history. Commander Hagberg's wartime elevens lost only a few—among them two to the Army juggernauts. Unfortunately, the stars didn't remain in Crabtown long after the peace was won as lucrative offers began pouring in from old alma maters.

Captain Hamilton could have used a few more reserves but his teams were made up of ringwise gridders. Leon Bramlet and Art Markel could make end for just about any team in the nation. Pistol Pete Williams and Reeves Baysinger made football drilled into them from way back and Bill Hawkins and Dick Scott would have no trouble making starting line-ups for the country's top aggregations.

What Hamilton's team could do when things were going right was proven on that memorable day closing the 1946 season. They gave mighty Army the greatest scare in three years.

Whoever the civilian coach turns out to be, he'll need the breaks that Captain Tom Hamilton never got to stay on the academy payroll.

"Hot Stove" League Has Come a Long Way Since Baseball Bugs Gossiped

NEW YORK, —(UP)— The hot stove league has come a long, long way since its legendary beginnings in the old country store where the local baseball bugs sat on cracker barrels, spit at the pot belly stove and exchanged baseball gossip through the winter.

President Branch Rickey of the Dodgers gave it an official touch the other day by styling himself Brooklyn's "hot stove league manager." He does all the talking, or directs the talking, until his manager takes over on the opening day of the season.

The league has a similar rating in the richly furnished offices of New Yorks's two other major league clubs and presumably the offices of other clubs around the two circuits. Attendance is limited for the most part to baseball writers who'll keep a secret only by special request.

Conditions vary at the big town's "hot stove leagues."

At Brooklyn, Rickey nourishes each news tidbit for all it's worth. The New York Yankees deal only in bald fact and view rumors with such horror, in this post-MacPhail era, that denials reach the sports department almost as soon as the rumors themselves. Nothing much ever happens to the Giants and when it does a routine press conference settles the issue.

A sharp difference in front-of fice technique between the Dodgers and Yankees is the handling of the Durocher signing at Brooklyn and the salary negotiations between the Yankees and Joe DiMaggio, who is said to be asking a $31,500 increase to $75,000 for 1948.

When Durocher was returned to good standing by Happy Chandler, Rickey had the folks on pins and needles wondering whether he would reinstate Leo or carry on with Barney Shotton, the substitute manager who nursed the Bums into the dizzy world series with the Yankees. When the points on the pins and needles grew dull, Rickey signed Durocher, installed Shotton as supervisor of Brooklyn farms.

When MacPhail was bossing the Yankees, any printed word, good or bad, was welcome. But with George Weiss now running the show, the old Yankee conservation has returned. Both the Yankees and DiMaggio have been sworn to silence on their dickerings.

"When it's official, we'll announce it," read a Yankee statement.

Basketball to Return To Campus, Says Leib

NEW YORK, —(UP)— Heeding the scandalous rumblings attached to big-time basketball promotions by private interests, Dr. Carl Leib of Iowa, president of the N.C.A.A. today predicted that the sport would be "returned to the campus" in the near future.

Leib, in his annual address to the N.C.A.A., told delegates of the nation-wide collegiate group that the organization's heads have an "ardent desire to take basketball tournaments back to the campus of a member institution."

Currently, and approved for this year also, the NCAA regional tournaments are staged in Madison Square Garden, New York, and the Kansas City Municipal Auditorium, with the finals in the big Manhattan arena.

Games at those courts, and particularly in Madison Square Garden, have reached the status of a major sports promotion—with attendance as a result of control being in the hands of purely business interests.

It was not indicated whether the NCAA, under such a contemplated "return to the campus" program would ban member school participation in privately-promoted double-header programs such as those presented in New York, Philadelphia, Boston and Buffalo.

Lieb [illegible] that up to now off-campus [illegible] had been necessary for the collegiate [illegible].

But he [illegible] that as soon as some of the colleges completed new and larger field houses, now in the blue-print state, the games would be taken from the hands of private promotional outfits such as the Garden.

Hospital Benefit Fights on Tap Tonight; Former Maine Featherweight Champ Featured

One Ivan Jones, former featherweight champion of Maine, will make his first appearance in the local ring tonight at the Paseo Susana as Bill Lujan presents another six bout card for the benefit of the Guam Memorial Hospital fund.

Jones, who won decisions over such lunks as Leo Price and Doc (not the one you're thinking of) Blanchard, and kayoed Eddie Gibbs in his home state, will be slightly favored over Freddie. An eight rounder, the windup offers no such boxer as Gon Ladrazo or Little Campo, but is arousing considerable interest since Lujan's announcement that the winner would meet Campo in February for the Marianas bantamweight championship.

Bantam Battle

In the 5-round semifinal, Frankie Duran of the Luzon Stevedores will meet Melvin Sakata of MKK in a bantamweight battle.

The special event pits Harry Armstrong against Wildman Nick De Mike for four rounds. De Mike is a rough, tough middleweight who is drawing card enough in himself to insure a capacity crowd.

In the prelims, bantamweight Shorty Domingo goes four rounds with Enrique Sablan of Toto Village, Cappy Ricky, 147 pounds, meets Jimmy Kaup, and Joaquin Fenona and Joe Sharkey will stage a lightweight battle. Raymond Pangelinan of Barrigada Village is looking for a flyweight opponent to make a fourth preliminary tussle. Anyone interested should contact Bill Lujan as soon as possible.

The raffle of three new cars and several other desireable items has been postponed until it can be determined by Attorney General J. D. Davis whether the raffle will be permitted under the Guam law which prohibits lotteries. After the decision has been reached, which will probably take 30 days, the drawing will be held or the money will be refunded to ticket holders.

California Cager Sets League Mark

LOS ANGELES —(UP)— Forward Chuck Hanger established a new California scoring record of 27 points when his Golden Bears romped to a 53 to 40 win over the University of Southern California. It was the second game of a Southern Division basketball double-header before 7800 fans at Olympic Auditorium.

UCLA dumped Stanford 55 to 47 in the opener.

Great Rebounding

Hanger gave one of the greatest exhibitions ever displayed in Los Angeles college basketball competition, as he smothered both backboards for rebounds and shoveled in baskets at will.

The Bears held a 23 to 19 lead at the intermission.

In the opener, the Bruins unleashed their long range artillery to shoot over a tight Stanford zone defense and come from behind a nine point deficit.

Both teams roared down the court in a sizzling first half fast break duel, with Stanford going into an early 20 to 9 lead on the sensational shooting of Morley Thompson.

A flurry just before the half-time gun gave UCLA a 26 to 22 intermission lead.

Marchie Schwartz Next Irish Coach?

SAN FRANCISCO, —(UP)— The good people of South Bend, Ind., may not know it, but the next football coach at Notre Dame will be Marchie Schwartz of Stanford. It say here.

The handsome Mr. Schwartz right now is the possessor of one of the finest losing streaks in the country, nine straight compiled during the 1947 season.

So, what happens?

A flock of Notre Dame grads have been around to see Marchie about the possibility of returning to his old school in the event that Frank Leahy should move on to pro ranks—as seems likely.

Probably never in the history of the risky coaching profession has a head mentor enjoyed such popularity while being on the production end of such a miserable record as compiled at Stanford the past season.

The Indians started out the season by being upset by little Idaho and successively lost to Michigan, Santa Clara, UCLA, Washington, Oregon State, USC, Oregon and California.

After the California game, when the Stanfords nearly upset the touted Bears, an influential Notre Dame alumnus talked with Marchie about the possibility of returning to South Bend in the event Leahy leaves.

Every coach, player and fan in the West realizes that Schwartz did a standout job in the face of high obstacles. He had little talent to start with; then his two first string ends were killed in accidents; his whole starting backfield was laid up most of the season with injuries, etc.

In spite of all this, the Stanford team always looked good—even in defeat. And it showed improvement from week to week.

Stanford grads wanted to retain Schwartz so badly that they recently voted him a raise in salary that will make his pay check comparable with the mighty Lynn (Pappy) Waldorf across the bay at University of California.

It's probably the first time in history that any coach received a salary boost after losing all his games.

British Diet Big Olympic Problem

LONDON, —(UP)— The question whether Britain's present austerity diet will hamper the chances of the nation's athletics in the Olympics has resulted in more controversy than any other subject in the sports field, with most sports writers heading the crusade of "more food for Britain's athletes."

All angles of the controversy have been discussed in newspapers, in public speeches, in articles by leading medical authorities, and finally reached the floor of the House of Commons. But the government refused to be shaken from its belief that the current diet is sufficient to maintain the health of the people, a view which is held by many doctors.

One of these is Sir Adolphe Abrahams, medical officer of the British Olympic team and one of the nation's top ranking medical men. He believes that too many athletes have wrong conceptions on the subject, especially on calorie values. "If this were, in fact, the only criterion," Abrahams said, "there would be little if any basis for preferential treatment. For considered dynamometrically, the energy expenditure in even the most strenuous athletic exertion is comparatively trivial."

Marshall Defends Plan Before Congress

PITTSBURGH, Jan. 16 —(UP)— Secretary of State George C. Marshall took his fight for the European recovery program to the nation tonight, asserting in a radio address that Europe's survival and our own world position will be imperiled if Congress insists on major changes in the administration plan.

In a clear-cut bid for popular support against Republican foes of the aid project, Marshall said he was standing firm on the basic points of the program he and President Truman submitted to Congress last week.

His address was prepared for delivery before the Pittsburgh chamber of commerce, but was carried across the country by the American network.

Acknowledging the increasingly-bitter Republican attacks on the aid program, Marshall said emphatically that it represented the "combined judgment of a large number of the nation's best talent" and designed to serve the best interests of the United States and the 16 European nations involved.

"There may be flaws of omission or phrasing, and no doubt the proposal will be improved in some particulars in the light of Congressional hearings and debate, but the principal features have been shaped with utmost care, to meet my vital considerations affecting the national interest," he said.

But he added that the "fatal deterioration and collapse" of Europe economically and, therefore, politically would result in consequences of a most serious nature, not only for the country as a whole, but also businessmen.

The situation we then would face, he said, "would necessarily impose on us such burdens in the way of taxes, discomforts, sacrifices and imparments of the rights and privileges we now enjoy as to make those that now confront us seem trivial by comparison."

Britain, Iraq Sign 20-Year Alliance

LONDON, Jan. 16 —(UP)— Britain and Iraq signed a 20-year alliance today which provided for the immediate establishment of British military bases and the dispatch of British troops to the strategic middle eastern country should either become "involved in war or the menace of hostilities."

In signing the alliance for Britain at Portsmouth, Foreign Secretary Ernest Bevin described it as the "beginning of a new series of treaties regularizing and expressing the friendship between this country and the Arab world."

Premier Saleh Jabr initialed the document in behalf of the Iraq government and King Feisal II. "In a world fraught with trouble and anxiety," he said, "this treaty helps us to work together in the path of international peace and prosperity."

The treaty was regarded here as the first step in Britain's new drive to reconsolidate her position in the middle east and offset the explosive potential ties of her forthcoming withdrawal from Palestine.

Jose Quinata's Burial

UMATAC, Guam's first World War II dead, Steward's Mate Jose Sanchez Quinata, killed during the sneak attack on Pearl Harbor over 6 years ago, was laid to final rest yesterday morning with full Naval honors in his native village of Umatac.

The flag draped casket bearing his remains was slowly borne through the narrow winding street of the quaint foothill village of his childhood to awaiting priests at Saint Dionisios Catholic Church. After a high burial mass, the coffin headed a long procession of N.O.B. honor guards, clergy and devoted relatives and friends as it wound around the Bay of Magellan to the village Catholic cemetery. Amid a three gun salute, the echoing of taps and the sobs of bereaved loved ones, the remains of Quinata were restored to his native soil.

—March of Dimes—

Because of the March of Dimes, many polio patients have been spared unnecessary crippling; many lives have been saved. These things contribute to the nation's total health as well as to fight against polio.

Explosion Rips Chicago Store Kills Four

CHICAGO, Jan. 16 —(UP)— A gas explosion ripped apart a four-story furniture warehouse near Chicago's loop district today, killing at least one person and injuring four others, two of whom were trapped beneath tons of debris.

Firemen said that two other persons were unaccounted for and also might be buried in the debris.

Two men were found in the mass of rubble an hour after the blast shattered the building, hurling bricks, mortar, timbers and furniture into the street.

Workmen with two cranes and firemen were attempting to rescue the two men, both of whom were injured seriously. A health department crew administered hypodermics to the men. A fire department Chaplain talked to one of them.

Isidor Provos, identified by police as the owner of the Provos Bros. Furniture Company which used the building, died at Henrotin hospital of injuries suffered in the blast.

Gertrude Friedman, 46, a secretary, suffered a fractured skull, and Leonard Jacobson, a Provos company employe, suffered a broken arm.

Chinese Communists Move to Yangtze

SHANGHAI, China, Jan. 16 —(UP)— Chinese Communists have blasted open a 600-mile-long corridor from Peiping to the Yangtze river near Hankow, fleeing United States missionaries said today.

Refugee doctors, nurses and key government-held cities told tales of narrow escapes in Communist sieges, of Americans who refused to leave their posts, and of the Communist-spreading anti-United States propaganda in every town they entered.

Missionaries Evacuated

American missionaries in Shanghai and Hankow, evacuated from battle zones in planes, boats and jeeps, said large numbers of Communists troops were rolling toward the Yangtze from the north, threatening the government's hold on south China.

The Lutheran mission rescue plane "St. Paul" evacuated nine missionaries, including three Americans, from Chengchow, 36 miles north of Hankow. They were brought to Shanghai.

100 Still Trapped

More than 100 other still appeared trapped at Laohokow, 200 miles northwest of Hankow. R. A. Conrath, Hollywood, Cal., pilot of the "St. Paul," said Chinese military authorities had not yet given him clearance to fly to Laohokow, presumably because of Communist activity in the area. The Communists were reported attacking within 30 miles of Laohokow yesterday.

Indonesian UN Committee Scores Triumph

BATAVIA, Java, Jan. 16 —(UP) The United Nations three-power mission to Indonesia scored its first major triumph today with the disclosure that a new cease-fire agreement had been reached between the Indonesian republic and the Dutch.

It was reported from unimpeachable sources that Justice Richard Kirby, Australian delegate and current chairman of the mission, had notified the Netherlands delegation here that "at 11:45 a.m., Jan. 15, the republic formally accepts your truce and political proposals."

The negotiations took place at Jogjakarta, the republican capital.

Radio Jogjakarta announced unofficially that "both Indonesians and Dutch have accepted the United Nations' proposals for settlement of the conflict between the republic and the Netherlands."

Reports of the new cease-fire agreement spread rapidly through Batavia, the Dutch capital, and war tension that had built up during the past two critical weeks relaxed rapidly.

The UN good-offices committee, made up of representatives from the United States, Belgium and Australia, came here last year to supervise the security council's Nov. 1 cease-fire order. Both sides admitted violating the order since then and yesterday's emergency meeting was called to effect a last-minute agreement before full scale hostilities resumed.

It was reported that the Republicans accepted Dutch proposals for the new cease-fire agreement after heavy pressure had been exerted by the UN committee.

Taft Asks For Income Tax Cut

PROVIDENCE, R. I., Jan. 16 —(UP)— Sen. Robert A. Taft, (R—O.,) called on Congress tonight to give the people a "most substantial" income tax cut this year and help pay for it by slashing $3,000,000,000 from President Truman's new $39,700,000,000 federal budget.

In direct defiance of the President's broad domestic economic program, Taft in a speech prepared for delivery put his own policies before the Rhode Island Republican club in what was regarded as a major bid in his campaign for the GOP presidential nomination.

And he entered the foreign policy field with an assertion that Secretary of State George C. Marshall had taken an "indefensible" position on the European recovery program.

He demanded that Congress submit proposed Marshall plan spending—$6,800,000,000 for the first 15 months begining July 1—to critical review.

In an apparent reference to Secretary of State George C. Marshall's "all or nothing" request for a $6,800,000,00 appropriation for the first 15 months of the plan, the GOP presidential candidate said he thought Marshall had taken an "indefensible" position.

MINNEAPOLIS, Jan. 16—(UP) An explosion and fire destroyed a General Mills, Inc., pressure cook plant today and injured two men seriously.

About 100 employes in the three-story brick building fled to safety when the explosion occurred. Fire Chief Arthur Spottswood said the blast was believed to have originated in a liquid storage tank on the second floor of the building.

Weather Forecast

Partly cloudy. Few scattered light showers early morning and late afternoon. General southerly winds with occasional moderate gusts.

Yesterday's temperature: Max. 86; Min. 77.

Yesterday's Rainfall: 0.04.

Rainfall for month: 6.06.

Army Chief of Staff Confirms Ike's Position

BALTIMORE, Md., Jan. 16—(UP) A Baltimore war veteran received a letter from the office of the Army Chief of Staff today which said that Gen. Dwight D. Eisenhower is "completely sincere in stating that he has absolutely no political ambitions."

It was signed Lt. Col. J. H. Michelis, aide to Eisenhower, and it came in response to a one-man "Ike-for-President" boom organized by William D. Schofield, Jr., an ex-Coast Guardsman who pointed out that he once was a "draftee" himself.

Schofield sent a telegram to Eisenhower, saying that veterans "liked you as boss" and "if we made good draftees, what about you?"

Today, he got his reply—from Michelis. It said:

"Gen. Eisenhower appreciates the spirit in which your recent telegram was sent and deeply appreciates your interest. He has asked me to tell you, however, that he has been completely sincere in stating that he has absolutely no political ambitions.

State Dept. Warns of Possible Europe Revolt

WASHINGTON, Jan. 16 —(UP)— The State Department laid before Congress and the world today an unprecedented appraisal of the internal political situation of 17 western European countries and warned that some key countries face revolutions unless they get substantial U. S. economic aid.

The political analysis in effect predicted a crash of little and big "Greeces" all over Europe if the Marshall plan is not approved.

This was contained in 17 volumes of background material on each of the 16 western European countries involved in the Marshall plan and western Germany. Each volume contained a section on "political aspects."

Never before has the State Department made public so candid an analysis of the internal political situation in other countries. It usually has refrained from even the most guarded comments on such issues.

The political comment on some countries are routine, general statements. On Portugal, for example, the report does not mention that the present regime is generally recognized as a dictatorship which has maintained itself in power since 1926.

But the analysis on France was most comprehensive and even included statements of what "many Frenchmen" or "most Frenchmen" believe.

It offered the suggestion that Gen. Charles De Gaulle could take over the French government any time he wishes and already holds "something of a veto" over composition of the present French government and its policies.

De Gaulle was the man the State Department said less than six months ago didn't have a chance of reurning to power. That evaluation was made in a similar summary prepared for Congressmen who were going aboard last summer.

The State Department's reports predicted dire results if the Marshall plan failed.

—March of Dimes—

Union Leaders Threaten Strike In Rhur District

BERLIN, Jan. 16 —(UP)— German union leaders in the Rhur today threatened a general strike of 4,000,000 in protest against food shortages and British sources to place blame for the threat upon a Communist plot to ruin the Marshall Plan.

The British said their agents had started a manhunt throughout the Rhur in search of known Communist leaders believed to be linked with a mysterious document called "protocol M"—said by the British to be a Communist strike plan designed to paralyze the rich industries of the Rhur.

Frankfurt reports said U. S. Army forces had been alerted to meet the threat of German rail strike in the Western zones.

Despite British efforts to place blame for its difficulties on the alleged Communist document, it became apparent that a major crisis was in the making in the British zone.

Burgomasters of all important Rhur towns and members of the north Rhine state met with British officials in Duesseldorf to present their demands. These officials, almost 100 per cent non-Communist and anti-Communist, have threatened to instruct all workers in the Rhur to walk out if the demands are not met.

New Cold Wave Spreads Over Midwest States

CHICAGO, Jan. 16 —(UP)— Strong gales whiplashed a new sub-zero cold wave southeastward across the plains from Canada today on the heels of icy weather that already had spread over all of the nation east of the Rocky Mountains.

The new icy blasts, heading directly into the fuel-short midwest, will send temperatures to the lowest point this winter, U. S. weather forecasters said.

Biting cold which spread over most of the nation last night and today, extending even into southern Florida, caught thousands of families with insufficient fuel for heating their homes. It threatened Florida's $100,000,000 citrus fruit crop. It was blamed for a train wreck in Canada which killed nine persons.

Several deaths were reported. In Washington, D. C., a 55-year-old man froze to death while sleeping in a truck. In Fergus Falls, Minn., a mother and three children burned to death when an overheated stove exploded in their farm home.

Residents of many communities suffered more than usual because of short fuel oil supplies. At International Falls, Minn., more than 200 families were without fuel and hundreds of others were running short.

—March of Dimes—

Palestine Riots

JERUSALEM, Palestine, Jan. 16 —(UP)— Bloody Jewish-Arab fighting paralyzed the port city of Haifa today, while British planes, tanks and troops patrolled the Kefar Ezion sector south of Jerusalem to keep another big battle from starting there.

The British reported that a war plane believed to belong to the Jewish Haganah shot at one of their reconnaissance ships over the Kefar Ezion area.

At least two Jews were killed along with an Arab, and possibly a dozen Jews and Arabs were wounded as fighting surged back and forth across at dawn.

Two other Jews were killed and an undetermined number wounded when the Arabs attacked a convoy of 15 Jewish busses at Tireh, 10 miles south of Hafia.

Headline Highlights

DETROIT, Jan. 16 —(UP)— The CIO United Auto Workers, who often set the wage pattern followed by other unions across the country, will demand "close" to 30 cents and hour as their third-round pay boost this spring, a high union source revealed today.

ROME Jan. 16 —(UP— Police riding in jeeps and wielding riot sticks broke through human roadblocks of crippled veterans today during a demonstration by 500 pensioners demanding an immediate allotment increase to meet the high cost of living.

WASHINGTON, Jan. 16 —(UP)— Brig. Gen. Herbert C. Holdridge, retired, announced tonight that he will seek the Democratic nomination for president as an avowed foe of war, depression and capitalism.

Gold is Where You Find it!!

GREEN COVE SPRINGS, Fla. —(UP)— An 80-year-old divining rod jockey yesterday directed a steam shovel which dug 15 feet into this town's main street in search of a pirate chest said to contain $4,000,000 in gold coins.

C. B. Mobley, half-blind and hobbling on crutches but with sublime faith in the verdict of his home-made divining rod which said the gold was there, had a deal with the town government.

He's paying the cost of tearing up the street and the digging and he'll give the government 10 per cent of the $4,000,000 if and when he finds it. With $400.000 the municipality can retire its bonded indebtedness and have something to spare.

Nearly 3,000 spectators—local residents and tourists—watched all day while the steam shovel Mobley leased from a contractor, threw up a mountain of dirt. Town officials watched anxiously. There was a chance of misadventure. Walnut Street's buildings were only 15 feet away, the top soil is thin, and any caving of the hole could undermine them.

The shovel dug a hole 15 feet deep and 12 feet square when substrata water began seeping in. But an 80-foot crane hoisted the shovel out of the hole and the crane then was rigged to a pile driver which sank the walls of a coffer dam.

Mobley and T. J. Conway, the contractor, said the hole would be pumped out as soon as the dam was sunk and then the digging would continue.

—March of Dimes—

Year-round services paid by the national foundation chapters, working in cooperation with the local medical and health authorities, include hospitalization, professional services such as salaries of nurses, physical therapists, and other professional personnel, transportation, purchase of respirators (iron lungs), orthopedic appliances and other special equipment; also scholarships for local personnel and refresher courses for professional workers.

Recorded Concert Fifth in Series

NAVAL SUPPLY CENTER—The fifth in a series of recorded programs of concert music will be held Sunday, 18 January 1948 beginning at 7:30 p.m. at the Palm Beach Officer's club.

The program for the performance will include the Tannhaeuser Overture by Richard Wagner and the Violin Concerto in E Minor by Felix Mendelssohn.

"Artist's Life"

Following the intermission will be Artist's Life by Johann Strauss, Vienna Life by Strauss, Ave Maria by Franz Schubert with the vocal by Dorothy Manor, and Gaiete Parisienne by Offenbach.

All officers of the Navy, Marine Corps and Army, and other persons entitled to guest privileges are invited to attend this event. A special invitation is extended to civil service residents of Rocky Point for the program.

—March of Dimes—

Triplets Short Weight

BOSTON —(UP)— Triplets sons born to Mrs. Hyman Bilsky of Roxbury, a shoe salesman's wife, weighed a total of only six pounds and nine ounces. They were believed to be the tiniest triplets on record in New England.

MarBo Soldier Receives Award

Brig. General J. S. Bradley, commanding general of the Marianas Bonins Base Command presents watch to T-5 James Tuten. The watch was awarded to Tuten for his firstprize entry in the recent intercommand photo contest. His entry was in the "Missions of the Army," he is assigned to the Signal Corps Photo laboratory at MarBo. Colonel A. B. Cooper, signal officer, read the letter of commendation from the Tokyo special service division, sponsers of the event. The wining pictures have already been sent to Washington D. C. to compete in the Army wide competion. The showing is going on now in the states. T-5 Tuten is from Florida. (Signal Corps Photo)

Lana Turner Suspended at M-G-M

HOLLYWOOD —(UP)— Lana Turner, sweaters and all, was given the bounce right out of Metro-Goldwyn-Mayer studios yesterday.

The studio took pains to say the suspension had nothing to do with their blond star's highly-publicized romance. A spokesman said she went off the payroll for refusing a choice part in a multi-million dollar epic.

But no sooner had her suspension been announced than everybody in Hollywood began recalling the studio was supposed to have been very unhappy over Miss Turner's romantic escapades.

Only two weeks ago Miss Turner and Henry J. (Bob) Topping made the headlines with plans for a mammoth party he was to have held in her honor. The party supposedly was to announce their engagement, although Topping still is not divorced from actress Arline Judge. But the divorce is in the hopper.

Both Topping's and Miss Turner's name were signed to telegraphed invitations. Suddenly the affair was called off. Topping said it had received too much publicity. Others said Metro-Goldwyn exerted pressure.

Miss Turner had spent the Christmas holidays at Topping's Connecticut home as the guest of his family.

Europe May Have Hard Time This Winter

Greece tells a tragic story with its thousands of homeless crowding into anything that looks habitable for a winter's stay. Medical authorities fear typhus outbreak.

In Belgium, Finland, Holland, Sweden, Norway and Switzerland it is hoped to maintain existing rations, although stocks are running low. All staple foods are rationed; bread averages five pounds per person per week, but Sweden's ration is as low as two and one half pounds.

Meat Averages

Meat averages about nine to 12 ounces per week, with Belgium at two ounces and Finland unrationed but difficult to obtain.

Butter, margarine and fats average between three to 12 ounces, while milk is rationed at about six pints.

Severe electricity cuts will affect all Europe this coming winter. In most countries, shop and sign lighting is prohibited, and street lighting is cut. Coal and coke is strictly rationed; in Holland the ration is 17 hundredweight for the whole winter, while in Finland for instance, a consumption over 953 cubic feet of gas per household of five persons results in a fine and complete shutdown of supplies.

Witchcraft Promises Relief For Ills

ATLANTA, Ga. —(UP)— Do you have warts or asthma? Is that mad dog troubling you? Has someone bewitched your cream so that the butter won't come?

Relief can be yours, according to the believers, if you try witchcraft. The practice of its mysteries started with the Pharaohs, and today it still has thousands of devotees in Georgia.

For instance, in the piney woods of South Georgia, believers in witchcraft have just the thing to cure asthma.

Asthma Cure

The sufferer first bores a hole in the front door of his home and then stuffs a lock of hair in it. Someone else is called in to drive a stop in the hole, tightly binding the lock of hair. When the loose ends of hair are snipped off with scissors, asthma is supposed to disappear.

Warts, the witchcraftman says, will disappear if sprinkled with earth from a new made grave. And if that mad dog bite is getting bad, just rub it with a few sprouts of churchyard grass and you'll be fixed up.

Just as witchcraft can bless, so it can curse. Recently, police found fresh evidence that witchcraft still is practiced in Atlanta from a "cursed" merchant.

Every morning when he opened his shop, he told officers, he found a circle of salt before his door. The Egyptians originated the use of salt to bring on a curse. Strewn before a door, salt means that death will come to the house.

Harmon Field Has Polio Drive Planned

HARMON FIELD—Harmon Field has planned a series of events to solicit contributions for this years annual March of Dimes campaign.

The Officer's Club will be the scene of a March of Dimes dance to be held at 8:00 p.m., January 24. Admission fee will be $1.00 per person. The Zebra Cabana Club and the Rocker Club will each contribute one night's total receipts to the cause. The Harmon theatre, the finance office, and all squadrons will have a March of Dimes representative to accept contributions. All clubs (officers, EM, and civilians) will have receptacles for contributions in the form of glass jars with the appropiate labels, for large contributions it is recommended that Lt. Winfred Weigelt, Harmon Field welfare officer, be contacted at the Harmon Field Special Services Office.

Thousands of persons who have had infantile paralysis are back at work, school, and play, because they had prompt and thorough treatment with the skilled care made possible through the annual March of Dimes. "Your dime will help."

Italian Claims POW's Are Missing in Russia

ROME—(UP)—Marshal Giovanni Messe, who commanded Mussolini's legions in Russia in 1942, told the Italian press that 70,000 Italians still are "missing" in the U.S.S.R.

Despite reiterated Russian official denials that any Italian war prisoners remained in the Soviet, Marshal Messe said he believes many of the men who fought under him are still being used by the Russians in reconstruction work and other tasks.

Messe, a constant target for the Italian leftist press, caused a twelve-hour strike of all transportation in Rome when he held a meeting of Italian veterans of the Russian campaign.

During the meeting, a tram conductor shouted that Messe was a potential leader of resurgent facists. That led to the conductor's arrest and an immediate strike by all transportation workers to protest the police action.

In an article in the anti-Communist newspaper Il Tempo, Messe said Communists hostility toward him was caused by "their reluctance to admit the truth about the very grave responsibility of the Russians regarding the fate of Italian soldiers in Russia."

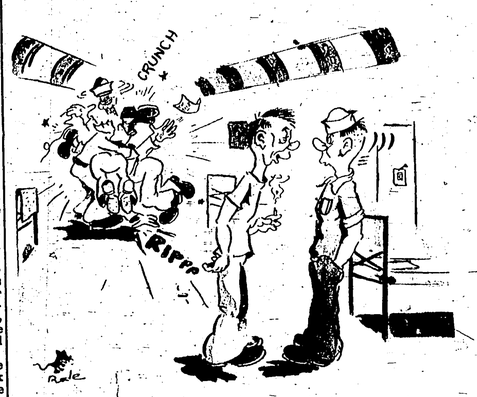
Bulk-Head by Rode



"Gosh, Merwin, you should have gotten here a minute sooner. You had a package from your girl."

Goldwyn Advocates More For Less

HOLLYWOOD —(UP)— Producer Samuel Goldwyn told his movie-making colleagues yesterday to make better pictures for half as much money or get ready to fold up.

The bald-headed pioneer said he lashed out at the movie business as a publicity gag, were "blind men who want to be blind."

"Nothing you can say will make them see," Goldwyn snorted. "They laughed at me last year when I said Hollywood was running dry of good ideas. I was a year ahead then.

"Well, when I say the industry is chaotic and facing disaster unless we give it an honest housecleaning, I'm speaking two years ahead of everybody else."

He says the movie business is tottering on its last legs, the customers aren't buying tickets like they used to, and the exhibition stranglehold held by a few companies on movie houses is stifling creative artists.

"We need greatness—not mediocrity—in production," Goldwyn went on. Instead of writing in a lot of fancy sets, we should write in a few inexpensive ones and concentrate on getting a good story. That's the only thing that counts" fellow producers who hinted that

Divorce Granted

SAN JOSE, CALIF.—(SEA)—"He just won't stay awake," won a divorce decree for Mrs. Gladys Ezell, after seven months of married life. "The only time that Harry emerged from dreamland was when he packed his bags and left me, bound for Oregon," she tearfully testified. The judge granted a divorce after observing that the groom has appeared "very inattentive."

by Bob Crossley

About this time each year people begin to wonder why they made that that fool New Year's resolution that they knew was impossible to keep and college football big shots all over the country observe their annual I've Been-Living-In-Sin-And-I'm-Sorry week.... They repent and send their most distinguished delegates—in some cases university presidents—to a revival known as the NCAA convention where plans are laid for the sure-fire salvation of the erring ones...."Things have come to a pretty pass in the Southeastern Conference" they say...."Why those nasty Southerners even admit that they pay their players"..."The rest of us don't do that (look out Simon, you'll get cigar ashes on my snowy white robe") "Our boys work at odd jobs for their spending money....Remember Izzie Goldfobber? He filled the coaches ball point fountain pen twice during his senior year."

Every year they congregate and set down a code guaranteed to put an end to the recruiting and subsidization and soft academic courses for the special muscle-bound student whose stupidity is exceeded only by his athletic ability....But by the time football season rolls around again in October, they hope the rest of the colleges have forgotten the code and it starts all over again.

These well-intentioned gentlemen—and most of them are—either do not want to purify football or they haven't stood up to the alumni who override them every year.

The main factor in the defeat of the past has been the hypocritical evasion and use of technicalities to find loopholes on the part of educators or their athletic directors....The University of Mississippi didn't offer Shorty McWilliams anything but a scholarship in the much publicized switch before the 1946 season, but the offer from a rich Mississippi alumnus of an automobile, $15,000 and a $300 a month job upon graduation was doubt had a little something to do with it.... And Perry Moss' switch from Tulsa to Illinois after his discharge was strictly on the up and up ...If you didn't look too close..... in order to be eligible, Moss had to complete a semester of work, so he took an eight week accelerated course in August....it was no snap either....In the college of physical cutture, he took; advanced football, one hour; camping and outdoor leadership, three hours; theory of coaching, two hours and baseball, two hours.

The new sanity code for '48 is more realistic and has a better approach than past efforts....It provides for a boycott of any college which carries recruiting and subisization too far....It could be a very potent weapon if it is enforced, but as usual, it remains to be seen whether the college heads are actually behind it.

Guam All-Star Basketballers Hold First Workout for Long Grind Ahead

Eleven all-stars comprising the major portion of Guam's hopes for the Western Pacific basketball crown, turned out for their first scrimmage together yesterday on the ComMar court.

Coached by the ComMar Mentor, Lt. R. W. O'Brien and managed by Chief H. W. Douglas, former NavBks-RecSta mentor, the aggregation went through light drills and scrimmage sessions in preparation for the long grind ahead which will include nightly practices on the ComMar court and occasional warm-up games with top Army teams on the Island.

Chief Douglas had Ken Fons and Buzzy Squires working at forwards as Lew Arey took charge of the pivot slot with Red Edwards and Cy Cassidy handling the guard spots. Another combination saw Pete Morgan and Gil Marlowe at guards, Earl Whiteley at center and Bob Huum and Jack Argotsinger, forwards with Herman Cook trading off with Whiteley at center.

Grinning from ear to ear, Chief Douglas was more than pleased as the first session ended and remarked that the "boys worked very well together for the first time out." He was praticularly pleased with the flashy ball-handling and smooth passing of his charges and expressed his desire to get the remainder of the squad together for continued workouts.

Due to arrive shortly from Marine Barracks are Tom McHale and Harry Horan and possibly Dan Davis from the Medical Center and Beal from NAS Orote.

Columbus Club Expects To Sign Godoy for Tiff

COLUMBUS, O., —(UP)— Columbus Quality Club officials recently said today they expected to sign Arturo Godoy, South American heavy-weight, to fight "Irish" Pat Richards, Columbus, at Memorial Hall here in mid-February.

The officials said Godoy's managers have tentatively agreed to a guaranteed offer for their fighter's appearance here. Godoy would have the privilege of taking 40 per cent of the gate in lieu of the guarantee.

They said the South American, who once lost a 15 round championship match against Champion Joe Louis, was currently trying to get consideration as an opponent for the winner of the contemplated Louis-Walcott fight in June.

Barbara Ann Scott Wins European Skating Title

PRAGUE, Czech., Jan. 15 —(UP) Georgeous Barbara Ann Scott, a honey-haired honey from Ottawa, Can., won the European figure skating championship today with a sigh-stirring performance that established her as the greatest woman performer since Sonja Henie.

The 18-year-old beauty, who already holds the world figure skating title, garnered the highest score for a performance ever awarded in a rink here.

She clinched the title with a near-perfect free/skating exhibition after winning the compulsory figures yesterday. One of the judges gave her a record two points out of a possible 6 in the free skating and the lowest total she received from any of the officials was 5.5.

More than 11,000 fans packed the winter stadium to capacity with Miss Scott by far the most popular performer.

—March of Dimes—

Films to Be Shown For 'Pic Winter Athletes

NEW YORK, Jan. 16 —(UP)— Suggestions that the U. S. Winter Olympics squad now at St. Moritz, Switzerland, is practically penniless echoed through New York and Washington today and one local sports group announced a benefit film program, proceeds of which would be used to help pay the expenses of the "fund-less" athletes.

The films, including "Olympic Preview," made by former Olympic star Dick Durrance and "Rhythm on Snow," which shows leading U.S. and Canadian skiers in action, will be shown tonight at Carnegie Hall.

In Washington yesterday Sen. Styles Bridges (R-N.H.) told the Senate that he had been informed the U.S. winter teams were not receiving the financial support necessary "to go through as America's representatives in the first post-war Olympic Games."

Bridges said that financial backing was "not the province of our government" and called for public support of the nation's winter Olympic squad.

$700,000 for a Horse

SAN FRANCISCO, Jan. 16—(UP) Sale of a two-year-old Australian thoroughbred named Scotwyn to Mrs. William Black of California for $700,000 was announced here today by the Australian consolate.

The horse was sold by O. R. Porter, noted Melbourne, Australia, sportsman after running in only three races.

Jones, Baby Freddie Draw In Hospital Benefit Bout

Ivan Jones, of Portland, Maine, and Baby Freddie, from the Philippines, alternately attacked and hung on for dear life through an eight round draw last night in the main event on a six bout card for the benefit of the Guam Memorial Hospital Fund before a near capacity crowd at the Paseo de Susana.

Jones, touted as the featherweight champion of Maine, did not look to be in top condition as he repeatedly ducked and then grabbed when Freddie came in with lefts to the head. His most potent weapon was a looping left hook which he used all too little, instead pawing with a fast and harmless jab.

Freddie, wearing pink trunks and looking sharper and fresher, carried the fight and Jones through the last three rounds. Jones' hanging on tactics were largely responsible for the in fighting which dominated the entire bout.

After a fast, and possibly overconfident start, Jones settled back and waited Freddie out for three rounds before he showed any signs of belligerency. After a short assault, Jones went back to his defensive method and Freddie took advantage of it and had him groggy on the ropes as the round ended.

Once again in the fifth round, Jones went after the Filipino and and when the bell rang it was Freddie who was hanging on the ropes. The battle reverted to dull in fighting after the sixth round, with both boys too tired to do much damage.

Of the three judges, Mr. Ellis McKenna voted the fight a draw, Ensign Bill Thompson gave it to Jones and Mr. V. Zafra gave the nod to Freddie.

In the semi final, Melvin Sakata won a TKO over Frankie Duran in the first round when Duran complained of a broken rib and had to quit.

It took Nick De Mike only 1:14 of the first round to nail Harry Armstrong with a left to the heart that floored the already weary Armstrong for the count in the scheduled 4 round special event.

Elderly Shorty Domingo, of the Philippines, took a close three round decision from Enrique Sablan in the third prelim. Ricky Turncap toyed with Jimmy Kaup for three rounds in the welterweight warmup and then took a unanimous verdict.

Lightweight Joe Sharkey found a quick opening in Joaquin Finona's defense and shot a sharp left to Finona's jaw and it was all over in only 40 seconds of the first round in the opener.

—March of Dimes—

Dutch Harrison Strokes 7-Under Par in Tourney

RICHMOND, Cal., Jan. 16 —(UP) Towering E. J. (Dutch) Harrison, the self-styled Arkansas hummingbird from Little Rock, knocked par for a loop today when he clipped seven strokes from regulation figures for a new course record of 65 and first-day leadership in the $10,000 Richmond Open Golf Tournament.

Terrific length and accuracy with his irons brought the slow-talking Southerner the leadership.

Despite his great round, Harrison failed to take much of an advantage over the field. He was only one stroke ahead of a pair of comparative unknowns: little Eric Monti of Los Angeles and veteran Jim Milward of Northernaire, Wis., each of whom checked in with 66's.

Most of golfdom's big name stars were under par for the afternoon touring the layout with comparative ease.

—March of Dimes—

Dick Button Nabs European Figure Skating Crown

PRAGUE, Czech., Jan. 16 —(UP) Dick Button, a kid who got his training on frozen New Jersey ponds, skated today to the European men's figure championship over older and more experienced artists, because of his especial talent—free skating.

Eleven Placings

Button, 18-year-old Englewood, N. J., skater, won the title with 11 placings and 187.9 points in the free skating today after he lost out yesterday in the compulsory events competition to Hans Gerschwiler of Switzerland.

Gerschwiler, the world champion figure skater, who narrowly nudged out Button for the title at Stockholm last year, finished an overall second with 18 placings and 184.42 points. Third place went to Edi Rada of Austria with 20 placings and 176.88 points. John Lettengarver of St. Paul, Minn., a member of the U. S. Olympic team was fifth with 174.02 points and 30 placings.

Easy Victory

Barbara Ann Scott, the beautiouis blonde from Ottawa, Can., scored an easy victory in her compulsory events competition to take a big lead for the women's title.

The remainder of the women's competition was postponed until tomorrow after it became too dark to continue further skating.

Lavern Roach May Face Tony Janiro At Even Money

NEW YORK, Jan. 16 —(UP)— Young Lavern Roach, "pride of the Marines," may go into the ring at even money tomorrow night for his Madison Square Garden debut in a significant 10-round bout with speedy Tony Janiro.

The betting price had shortened today to 6-5 favoring Janiro of Youngstown, O., to beat Middleweight Roach of Plainview, Tex. Earlier in the week baby-faced Janiro had been favored at 9-5.

Uncertainty about playboy Janiro's condition seemingly caused the price change.

This tilt between the 21-year-old scrappers will be the most important test yet taken by Roach. If the best boxer developed in the U. S. Marine Corps during the war can beat classy Janiro, the victory should clinch for Lavern an international encounter with Marcel Cerdan of Morrocco next spring.

The handsome, dark-haired ex-Marine has won 26 of his 27 professional bouts. But in Janiro, Roach is tackling a seasoned big-time performer, despite his youth. Youngstown Tony has won 63 out of 67 pro bouts.

Guam, Marianas Islands Sunday, January 18, 1948

Josephus Daniels, Former Secretary of Navy, Dies

COMMANDER MARIANAS—A communique from the office of the secretary of the Navy this morning reported that the honorable Josephus Daniels the esteemed secretary of the Navy under President Woodrow Wilson between March 5, 1913 and March 4, 1921, met death from natural causes.

The communique stated, "Daniels long and distinguished career as secretary of the Navy during World War One and his untiring interest in the service since relinquishing that office have contributed greatly to the growth and welfare of the Navy."

All Naval ships and stations were directed to half mast colors from 0800 January 16 to sunset January 17.

Daniels was born in 1862 and before entering the office of the secretary of the Navy, was an accomplished newspaper editor and statesman. First editor of the N. C. State Chronicle, he later consolidated three newspapers into the Raleigh News and Observer, which he has edited since.

He was in charge of W. C. Bryan's campaign in 1908 and Wilson's campaign in 1912 and was a prominent southerner in party councils. He was secretary of the Navy during both of Wilson's administrations.

Daniels was much criticized for pacifistic tendencies and administrative inefficiency before the United States entered the war, especially by strong Navy adherents, but his record in 1917 through 1918 rapidly quieted these charges. Naval administrators the world over have since recognized his administrative genius.

After leaving office he continued to be a force in both state and national politics. He was appointed by President Franklin D. Roosevelt in 1933 as ambassador to Mexico. He has been widely known through the publication of two of his own books, "Our Navy at War," and "A Life of Woodrow Wilson."

Three Key Ruhr Cities Paralyzed By Strike

DUESSELDORF, Germany, Jan. 17 —(UP)— A 24-hour strike by upwards of 155,000 workers paralyzed three key Ruhr cities today and labor union leaders warned that unless food conditions improved hungry city people might pour into the countryside to ravage farms.

Though the walk-outs were the result, on the surface, of an admittedly bad food situation, allied authorities believed that Communists were prime inspirers of the strikes and that they might be linked with the Communistic "protocol M" plot to sabotage the Marshall recovery plan.

About 110,000 workers walked out in the great inland port of Duisburg, at the junction of the Rhine and Ruhr rivers.

About 40,000 more struck in Muelheim.

About 5,000 struck at Dinslaken.

In addition several thousand walked out in small towns surrounding the capital of the Ruhr and it was afternoon before all of the 155,000 who struck at Oberhausen yesterday returned to their jobs.

—March of Dimes—

Vets Propose To Bar Communistic Vote

WASHINGTON, Jan. 17 —(UP)— A proposed bill to bar the Communist party from the ballot was endorsed by four leading veterans' organizations today. New York City's Communist Councilman Benjamin J. Davis, pinch-hitting for Communist Party Secretary Henry Winston, told a House elections subcommittee that he regarded the bill as "a Fascist-like invasion of the rights of the American people."

In an hour-long session on the witness stand, the husky, mustached Negro dismissed the pending ballot legislation as a move by the Democratic and Republican parties to keep any new political party from "challenging their bi-partisan rule of the United States."

"The whole bill is a reactionary mess which ought to be tossed out of the window," he snorted.

Davis was called to the stand after spokesman for the American Legion, the Veterans of Foreign Wars, the regular Veterans Association, and AmVets had endorsed the legislation. A representative of the Disabled American Veterans said his outfit was for the principle of the bill but thought it should be studied carefully to be sure it protected the civil rights of the average American.

Chinese Troops Reported to be Retreating

SHANGHAI, Jan. 17 —(UP)— The Communist radio claimed today that government troops were staging a "huge retreat" in the area between the Yellow and Yangtze rivers.

From such reports as were available, it appeared likely that the Communists were preparing or actually engaging in an offensive against south and west China.

This belief was given added support by developments in recent weeks. The Communists have been battling the Nationalists in a number of places in the Hankow region, forcing a disruption of Yangtze river traffic. The location of the fighting, plus the activities of Communist guerillas south of the Yangtze, indicated a future offensive on rice-rich Hunan province to the south, and on Szechwan province to the west.

Neutral military observers said the forced evacuation of missionaries over a widespread area disclosed an "enormous" Communist movement toward the Yangtze. The Communists were wrecking everything in their path and made no attempt to hold towns and villages.

Reports from Chungking said Szechwan authorities designated areas along the province's northeastern border as "precautionary."

A closely-knitted chain of blockhouses and highways were to be built immedately to help stave off possible Communist attacks.

400 Jews Attack Haifa

JERUSALEM, Palestine, Jan. 17 —(UP)— About 400 members of the Jewish Haganah stormed into Haifa today with automatic rifles, bombs, mortars and Molotov cocktails and reportedly killed or wounded 32 to 60 Arabs in "retaliation" for an Arab outbreak yesterday.

Haganah claimed the Arabs suffered 60 casualties, more than half of them killed. Arab sources said 32 Arabs were killed or wounded. Seven children, one to 12 years old and a woman were believed to be among the Arab dead.

The Jews came in through Wadi Rushmiyeh, a village named after a dry river bed (Wadi), that dominates the approaches to Haifa from the valley of Jezreel. House-to-house fighting developed and the Jews advanced along the slopes of the Wadi until they reached the heart of the village, where they blew up five houses.

—March of Dimes—

Snyder Threatens Veto

WASHINGTON, Jan. 17 —(UP)— Secretary of the Treasury John W. Snyder put a tax cut veto threat before Congress today, and the Republicans termed it an "insult."

The cabinet officer, plugging President Truman's plan for $40 "cost-of-living" tax credits, got into a free-swinging political row with the GOP members of the House Ways and Means Committee that left no doubt that the Republicans would try to enact a general income tax reduction early this year.

Chinese Burn British Consulate in Canton

HONGKONG, China, Jan. 17 —(UP)— Thousands of Chinese sacked and burned the British consulate in Canton today, and set upon British officials with clubs and stones in a three-hour rampage provoked by destruction of a Chinese squatter colony 95 miles away.

With loudspeaker trucks urging them on, they roamed Canton streets, burning, wrecking or damaging many other buildings. The Rev. John Williams, a British missionary, and his wife were missing. I. B. Wood and J. H. Carthouse, officials of the British shipping company, Butterfield and Swire, were slightly wounded.

Besides the consulate, the Butterfield and Swire building in Canton was burned to the ground. It rented office space to the British information service. The chartered bank of India, Australia and China and the headquarters of Jardine Metheson, another shipping firm, were damaged by fire. Windows were smashed in the branch office of the Hongkong and Shanghai bank.

The mob wrecked the home of J. L. Murray, the British press attache. Their homes inside the consulate compound area were damaged. Headquarters of the Texas (oil) Company was slightly damaged.

Flights Cancelled

Hongkong airways, a British line, cancelled all scheduled flights to Canton and put an emergency service into operation to evacuate 50 to 100 British women and children from Canton to Hongkong.

The Chinese Foreign Office, to which the British embassy in Nanking immediately protested, telegraphed orders to provincial and municipal officials to see to it that British consulate and individuals were protected and that all mobs were severely punished, according to law."

While the immediate reason for the riot was the British burning of a squatter colony in Kowloon, across the strait from Hongkong, as a threat to health, the underlying motive was resentment at the British holding on to Hongkong as a crown colony Kowloon, across the strait from Hongkong, is part of the crown colony and together they have an area of 391 square miles.

16-Year Old Boy Drowns in Reefs of Guam

CAMP ETHRIDGE—Treacherous currents surrounding the reefs of Guam claimed another life when 16 year old Paul Roberts, son of Lt. and Mrs. C. Roberts of NAS Orote, and M. Parker and T. Lowe, both 15 years old, decided to go in for an early morning swim.

Apparently the boys had wandered away from home, according to Capt. Colley, provost marshal, First Marine Brigade. They decided to go for an early plunge near here at about 8:30 Friday morning. At about ten o'clock they were caught by the strong current and carried out to sea.

Roberts struggled against the current for about two hours, but was finally overcome. His body was washed up on the beach near Camp Dealey Friday afternoon.

Both Parker and Lowe were able to regain the reef, but were unable to return to land. They were sighted clinging to the reef at 2:15 Friday afternoon and were rescued.

The two boys were taken to the First Marine Brigade hospital for treatment, where it was reported that neither was in serious condition. They were released in custody of their parents.

Tom Clark (AP Photo)

Immigration Controls Issued by Clark

WASHINGTON, Jan. 17 —(UP)— Attorney General Tom Clark today issued drastic new immigration controls to enable the government to keep a closer watch on foreign visitors.

His directive, expected to become effective within 60 days, sharply restricts the almost unbridled freedom of alien visitors—no matter what their policies—to roam this country and go as they please. It was one of the most far-reaching peacetime crackdowns on aliens in history.

The new regulations apply only to foreigners entering the country or visitors visas. Aliens with permanent or temporary residence permits are not effected.

Under the new rules, visits will be shortened drastically, unauthorized speech-making and propagandizing will be banned, visitors will be required to make periodic "check-ins" with immigration authorities and a constant watch will be kept on their activities by immigration agents throughout the nation.

Food Supply on Yap Destroyed By Typhoon

COMMAR HILL, Jan. 17—Reports from the natives of Yap Island indicate that all their food supply was destroyed except for a small amount of taro in the typhoon which hit there Wednesday, a message from the island commander, Yap, said today.

The message said that 95 per cent of the native housing was destroyed and nine schools were in ruins.

The full extent of the damage was not known, but early indications point out that no breadfruit trees were expected to bear for the next two or three years and coconut trees were not expected to bear for another year.

An eight foot tidal wave on the west coast line of Yap destroyed all pigs and chickens in that area. There were no known native casualties.

The Navy situation was considerably better and there was no loss of Navy food estimated.

Navy housing suffered heavily and the message said, "in view of the badly weakened condition of most of the quonsets, it considered that permanent repair would be futile."

The island commander strongly recommended that consideration be given for concrete structures for any new construction that is contemplated.

UAW Asks For 25 Cents an Hour Raise

DETROIT, Jan. 17 —(UP)— Leaders of 800,000 CIO United Auto Workers notified employers today they would ask a third-round cost-of-living pay boost of a flat 25 cents an hour, plus five cents for a health insurance program.

To the "30-cent package," the 22-man NAW executive board added a guaranteed 40-hour weekly wage and a three-week paid vacation for workers having five years seniority to set what may be the industrial wage demand pattern for 1948.

UAW President Walter P. Reuther announced the union's 1948 demands during the board's policy meeting. The board did not revive the question of pensions, which were part of the UAW's 1947 economic objectives. Pensions will be left to local UAW unions.

Reuther said "our union has expressed a preference for a price rollback rather than wage increases as a solution to the problem of inflation, but repeated appeals to government and industry have proven futile."

"The 25-cent wage increase is needed simply to re-establish the relationship between waves and living costs prevailing before Congress opened the way to an orgy profiteering by smashing the OPA," Reuther said.

Most Severe Cold Wave Sweeps Nation

CHICAGO, Jan. 17—(UP)— Icy, mile-a-minute gales whipped the winter's most severe cold wave across the nation today, disrupting industry and transportation, and increasing the hardships of hundreds of shivering families in fuel-short communities.

The biting cold, extending even into the deep south, caused a sharp increase in fires across the nation and hampered firemen in fighting them.

At least 12 persons died in fires caused by overheated stoves. Three other persons froze to death.

The cold was expected to continue through Sunday.

Hundreds of thousands were idle because of factory shutdowns.

Plants sent their employes home and closed because it was too cold to work or because their fuel and natural gas supplies were curtailed so there would be enough to heat homes.

Weather Forecast

Generally cloudy with scattered moderate showers. Winds moderate southerly with occasional frequent gusts during morning increasing to strong gusts during the afternoon.

Yesterday's temperature: Max. 86; Min. 76.

Yesterday's rainfall: None

Rainfall for month: 6.06

Headline Highlights

NEW DELHI, India, Jan. 17 —(UP)— Mohandas K. Gandhi, too weak from fasting to rise from his bed, gasped out a dramatic demand today that Moslem Pakistan now make a gesture of peace and friendship toward India. Speaking through a microphone held to his lips by one of his followers, Gandhi referred to the action of the Indian cabinet last night in resuming financial payments to Pakistan.

CHICAGO, Jan. 17 —(UP)— The National Railway Mediation Board announced today that it had filed to settle a wage dispute between the nation's railroads and three key operating brotherhoods and a spokesman for the unions said they would prepare for a walkout Feb. 6.

Taxpayer May Foot Late War Bill Until 2100

Revolutionary War, War of 1812 Written Off Tax Books

WASHINGTON —(UP)— Future American taxpayers probably will be footing the bill for World War II in the year 2100.

It is estimated that the last surviving veteran of the war will live until the year 2030. On that basis, some surviving dependents still will be living at the beginning of the 22nd century.

Veterans administration records now show that it wasn't until 1906 that the taxpayer finished paying off the last dependent of a Revolutionary War veteran. And although the treaty ending the Mexican War will have been signed 100 years ago next February, there are 45 dependents of disabled veterans of that war still collecting from the government.

Two War Off Books

Except for cemetery care and monuments, the only two wars completely written off the tax books are the Revolutionary War and the War of 1812.

The records show that the last Revolutionary War veteran, Daniel Frederick Bakeman, Freedonia, N. Y., died April 5, 1869 at the age of 109.

The last dependent to collect government compensation from that war was Mrs. Esther S. Damon, Plymouth Union, Vt., widow of a Revolutionary War veteran, who died Nov. 11, 1906 at the age of 92.

Hiram Cronk, Alva, N. Y., last veteran of the war of 1812, died May 13, 1905, and Mrs. Esther Ann Hill Morgan, daughter of a veteran died March 12, 1946, 130 years after the end of the war.

83 Civil War Survivors

Last veteran of the Mexican War, Owen, Thomas Edgar, Washington, D. C., died September 3, 1929—81 years after the war ended.

Although the Civil War ended 82 years ago, there still are 83 veterans and 17,895 dependents collecting pensions from the government.

Practical Joke

Actual estimates indicated that the last surviving Civil War veteran would be dead at the age of 99, but the Civil War veterans fooled them. The youngest survivor is now 99 and several are 105.

For the Indian wars stretching from 1790 to 1898, there are 797 veterans and 2,278 dependents on government rolls.

The Spanish-American War has 112,355 veterans and 80,679 dependents.

Dependent List grows

History shows that as the ranks of disabled veterans getting government help thin, the group of dependents grow.

There are 436,121 veterans and 389,232 dependents of World War I getting government aid and 1,-712,696 veterans and 416,370 dependents of the service-connected disability list of World War II.

Civil War Tops List

Thus far the post-war cost for payments to veterans and dependents of the Civil War—now about $8,200,000,000—tops the list. But World War I is catching up rapidly with about $5,800,000,000.

The Spanish-American War is way down about $2,200,000,000. World War II? It hasn't got a good start.

Naval Reserve Strength Shows Steady Increase

Naval Reserve personnel strength has reached 74 percent of planned requirements, with a number of reserve divisions having substantial waiting lists of applicants.

A total of 867,841 were enrolled in the Naval Reserve on October 1, 1947, representing a growth of 11,158 since September 1. Of the total, 277,808 are officers, and 509,-033 are enlisted personnel.

Complete Reserve

Personnel of the organized Reserve sea and air, totaled 17,270 officers and 133,453 enlisted on October 1; while the voluntary inactive and other elements of the Naval Reserve totaled 260,538 officers and 456,580 enlisted.

New Buildings

Currently, 312 buildings and ship armories are being utilized by reserve units in 300 cities of the United States. Some of the units are using school houses, courthouses, and various other public buildings for their meeting places until their permanent quarters are available.

Of 175 quonset type training centers now planned, contracts on 109 have been awarded, and work is underway on about 65 per cent of the contracts to alter existing buildings to make them suitable for Naval Reserve purposes.

The first of two ships incorporated into the Pacific Empire Line Inc. was christened last week by Mrs. C. A. Fownall at Apra Harbor. The ship, the "Nina," is a former Navy YF. Guests at the ceremonies were: Capt. C. M. Sullivan, chief of staff at NOB, Vincente P. Herrero, Mrs. Fownall, G. M. O'Keefe, Father Alvin, George Franquez and S. G. Velarde. (GUAM NEWS Photo)

Teen-Age Kids Taught Facts of Life Through Movies

Deligent Parents Raked Over Coals in Educational Films

by Virginia MacPherson
United Press Hollywood Correspondent

HOLLYWOOD —(UP)— Delinquent parents got raked over the coals recently by a young producer who said he decided to teach kids the facts of life through movies—because their families wouldn't tell 'em about the birds and bees.

"Children turn bad because they don't know the score—and the folks don't teach it to 'em," growled a serious-faced young man named Roger Babb.

He's co-owner of hygienic productions in Wilmington, O., and his answer to juvenile delinquency is to take the problem kids to the movies, his, preferably.

The movie trade classifies Babb's stuff as "educational films." But he guarantees you won't have to drag your youngsters up to the box office. His movies have sex appeal.

"Sure, I preach a moral," he says. "But I sugar-coat it with dramatic action and cool entertainment. And it comes out dignified and educational."

His first "Birds and Bees" picture was produced last year as "Mom and Dad." It was a well-ballyhooed sex film and it made more than $2,000,000 for Babbs and Company.

"Most people thought it would either be deadly dull or excitingly sexy," Babbs shrugged. Many of the eleven million who've seen it came expecting a lurid movie."

That wasn't exactly an accident. Babb's advertising signs ranted on about "unbridled passion," innocent young girls," etc. He put "adults only" plugs in the newspapers. He made the ladies come at 7 p.m. and the gents at 9.

Then he announced that each audience would have two registered nurses on duty to take care of anybody who fainted.

The results were sensational. Housewives rushed their families through dinner to make the early show. The men-folk came two hours later—and their lines stretched clear around the block.

It wasn't quite what they expected. Babb told a movie tale of what happened to an innocent young girl whose mother thought she shouldn't be told about life—until she discovered the girl was old enough to find out for herself.

During the intermission a lecturer spoke on the importance of raining, and followed it up with a series of films on the birth of a baby and the results of disease. Pretty gruesome fare for an evening's entertainment.

Shanghai, 'Most Incredible City,' Leaves Newcomer Open Mouthed

SHANGHAI —(UP)— I scarcely can believe it, but I like it.

That was my impression of Shanghai after my first five days of open-mouthed study of the most incredible city in the world.

Five days in Shanghai doesn't qualify anyone to "learn all about it," and my bet is five years would not provide a full story of this place. But in five days I saw things I have never seen before and do not expect to see in any other place in the world.

The things I have heard, seen and smelled!

City of Wonder

The vast mixture of races and peoples, natives and foreigners who are really qualified to speak about Shanghai, no longer see anything unusual about. To them it's routine.

But to a freshmen, green from the United States, Shanghai is something beyond description. There's nothing freakish about Shanghai to Shanghaiers, but to me it's a world of carnival and circus side-show talent.

There's a man with a bamboo pole across his shoulder, with a couple of hundred dead rats hanging by their tails. He is surrounded at his sidewalk stand by eager natives bidding for the plumpest, lushest rats of the lot. For skins and fur, that is, not the meat. They use them for glove-making.

There's a man, a hunter one supposes, who squats on the walkway across Garden Bridge, with a row of wild mallard ducks spread out before him.

Traveling Butcher

There's the traveling butcher shop, the man with two baskets of raw meat and his sidewalk customers picking them over for the choice cuts. At his side is the boy with the small iron stove slung from his shoulder pole, with a little fire going. He will reach into his basket slung from the other end of the pole, bring forth a hit of meat, cook it and hand you a hot sandwich if you want it. I didn't.

Then there is the unbelievable, crowded traffic of the streets, with thousands of thousands of rickshaw boys trotting along with their fares or more thousands on pedicabs, rickshaw boys who have advanced in the world to where they have bicycle-powered jobs. They jam the streets from curb to curb, prodded along by the chirruping, honking, clanking autos, taxicabs, buses, trucks and trams. The whole is welded into a slow-moving mass of legs and wheels.

Shanghai is quite a place.

Guam Construction Forces Receive Commendation for Outstanding Work

On January 5, 1948, the Commander in Chief of the Pacific Fleet issued the following commendation: "ComMarianas; OinCC, NOy contractors, Marianas, OinC 103rd NCB's and contract forces are commended for expeditious completion of interim POL facilities on Guam under adverse conditions."

Immediately following the recapture of Guam it was imperative that storage of various types of petroleum products in large quantities be provided with utmost speed. The only solution was the erection of tanks and installation of pipe lines which would, of necessity, have to be of the "advanced base" type.

Serious Shortage

Approximately nine months ago these temporary tanks and pipe lines, having been utilized far beyond the time anticipated originally, began to fail from progressive deterioration. About six months ago, the storage facilities had reached a point where it was considered extermely serious. As a result of this, a directive from the Commander in Chief, Pacific Fleet, immediately instituted an extensive rehabilitation program. This directive required that tanks, pipe lines and other storage facilities be rehabilitated and put in condition to operate economically until the permanent post-war facilities were built, and required that this work be completed by January 1, 1948.

New Projects

Under the general supervision of Capt. E. L. Hansen, CEC-USN, Officer in Charge of Construction, work was started immediately by construction forces of Brown-Pacific-Maxon and personnel of the 103rd and 109th Naval Construction Battalions. Included in this program was the erection of several large capacity riveted and welded steel storage tanks; replacing old steel bottoms of tanks with new ones; the conversion of tanks from storage of one petroleum product to another; the replacement of a large quantity of pipe lines, and replacement of numerous pump houses.

Rainfall Necessary For Fresh Water Supply

Severe Drought Recorded in 1947

by Stacey

Weather, or more precisely-rain, on Guam is always a good topic for conversation. It is one of the most unpredictable features of the Island. For instance, in 1946 the annual rainfall for Guam was 114.5 inches, while in 1947 only 79.96 inches fell.

Quite a contrast? Well, there are other good examples. The greatest amount of precipitation recorded on the Island during the past 30 years was 222.4 inches, while during another year in that same period only 30.3 inches of rain were recorded.

Thermometer Readings

The thermometer has also been known to make some drastic jumps for Guam. One year it jumped to ninety-four degrees, and in another dropped to sixty-four degrees. However, as a general rule, the weather does not go to such extremes. These figures are the exceptions and not the rule.

The mean annual precipitation for Guam is about ninety inches, the temperature generally hovers within a few points of eighty degrees and the average relative humidity is 74 per cent, only nine per cent above the generally accepted ideal condition.

There are only two distinct seasons on Guam. The rainy season which usually lasts from the latter part of June through October, and the dry season which encompasses the remainder of the year.

A large percentage of all the yearly rain falls during this season, with the month of August averaging more rain than any of the other months. The most rain recorded in a single month fell during October of 1924, however, when 44.5 inches of rain was recorded.

Typhoon Threat

Typhoons are also not an uncommon occurrence on Guam, but the greater portion of the tropical cyclones forming near the Marianas either die out quickly or are not fully developed until they pass further west. The maximum number of typoons recorded for the Marianas have occurred during the month of November—nine for a twenty-seven year period prior to the Japanese occupation of the Island. Two typhoons, one in March and one in September were recorded during 1946 however.

Because of the unpredictable nature of this tropical tempest it is impossible to predict a typhoon more than a few days in advance, and one may form and sweep the Island very unexpectedly.

The most severe storm on record occurred at Guam on November 3, 1940. Winds were recorded at the Agana Weather Station having a velocity of 100 knots, and gusts were estimated to exceed 150 knots by the Sumay Weather Station.

Rain, unpleasant as it is, also is of great value to Guam as the entire Island fresh water supply is derived either directly or indirectly from precipitation. Rain water filters through the soil and collects in a lens near sea level. From this lens it is either forced to the surface as springs by subterranean pressure or the lens is tapped by wells and the water pumped to the surface. When water is drawn off more rapidly than the supply is replenished by rains, there is a danger of sea water seeping into the lens and contaminating the Island fresh water supply.

Water Curtailment

A severe drought occurred during the early months of 1947, and consumption of water had to be drastically curtailed to prevent this contamination.

So you see, no matter how hard it may rain on this "Gem of the Ocean" it really isn't necessary to grumble. It would be a lot harder to get along without water than it is to get along with the rain.

New Radiophoto Transmission Record Set

Navy Unit Establishes 10,581 Mile Record

A new record of 10,581 statute miles for regularly scheduled long range direct radiophoto transmissions has been established by a Navy mobile radiophoto unit aboard the USS Burton Island, headquarters ship of the present Antarctic expedition.

The Burton Island, Navy icebreaker now operating in the Davis Sea off the western edge of the Shackleton ice shelf at approximately 65 degrees south latitude and 94 degrees east longitude, is maintaining a daily schedule of photograph and weather chart transmissions direct to Washington, D. C.

Old Record

The new Navy record of 10,581 miles betters the previous record of 8,592 miles established in 1940 by the New York Times-World Wide Photos, Inc., and Press Wireless. Transmitting from Little America to Baldwin, Long Island during the U. S. Antarctic service expeditions. Hydrographic office computations indicate the distance between Baldwin and Little America as 8,852 statute miles and the distance between Washington and the present location of the Burton Island is 10,581 statute miles.

With the daily receipt in the Navy Department of a weather chart of the Antarctic, the Navy is writing a new chapter in its efforts to track the weather of the world. The daily schedule, inaugurated December 15, marks the Navy's first attempt to send weather charts from the Antaictic, results have been satisfactory.

The charts are based on observations made by aerologists with the Navy expedition and on reports received from other vessels and stations in the region of the South Pole.

In addition to making weather charts of the Antarctic immediately available for analysis, the daily schedule of transmissions from the Navy mobile radiophoto unit is expected to augment a fund of valuable information on radio wave propagation characteristics in the Antarctic, and to provide a yardstick for determining the maximum effect range of transmission.

Mobile Unit Used

The mobile unit aboard the Burton Island greatly increases the area blanket by the Navy's radiophoto network, which includes long range transmission stations at Guam, Pearl Harbor, San Francisco and Washington, D. C. The system of radiophoto transmission of weather maps and charts is one of the Navy's contributions to a joint weather program carried on with the Air Force, the Army and the weather bureau.

"Weather Equator"

In general weather in the northern and southern hemispheres originates at the respective poles and interacts in a zone roughly corresponding to the thermal equator. The north or south movement of the "weather equator" determines the yearly changes in the midlatitudes. Systematic collection of weather data in the Antarctic will establish the value of an unknown in the equations of aerologists, and will do much to help refine solutions for the weather in any given year.

Two Way Receiver

Navy radiophoto facilities are adapted to receiving transmitted copy in two ways. In the first method, ordinary photographic film is used to record light signals sent by radio. The film is processed like any other film and a negative from which any number of prints can be made is obtained. In the second method, a positive, rather than a negative is obtained by using a specially developed paper which directly and visibly records the transmitted image. This second method permits almost instantaneous multiple duplication by standard gelatin methods.

Eskimo Eats Family to Survive

Doctor Tells of Grim Battle

SCHENECTADY, N.Y. —(UP)— Dr. Louis B. Amyot, dentist and Arctic traveler returned from his latest voyage with the story and pictures of an Eskimo cannibal woman.

The woman, A-Ta-Gutta-Lik, now 72 years old, ate her husband and three children 25 years ago in a grim battle for survival, Dr. Amyot said.

"Her cannibalism was a question of survival. She was isolated in the barrens with her husband and three children. The husband and children froze to death. She ate them."

The Canadian mounted police investigated and absolved the woman of blame, he added, pointing out that similar tales came out of the opening of our own west.

Dr. Amyot, who has been over the Arctic circle twice and once went for more than 300 miles north of the magnetic north pole, made his latest trip to fulfil a long-cherished dream. At Chesterfield, on Western Hudson Bay, he established a dental clinic for use by Eskimos, Canadian police, traders and missionaries.

As evidence of the need, he told the story of a missionary who traveled 1,000 miles by sled and plane and spent $2,500 to get rid of an aching tooth.

"The Eskimo today is almost without dental care," he explained, although the Canadian government is working to provide facilities. Most affected are those who have come into contact with the softer foods and living conditions of the white man.

In the extreme north, however, Dr. Amyot related, the Eskimo suffers practically no tooth decay or other trouble. The reason is that the women chew their husband's boots each morning to make them flexible, and the men use their teeth constantly, tugging and pulling at knots in dog sled thongs.

$4,500 Collected By Rotary Club Yule Carnival

The Rotary Club Christmas Carnival, for the benefit of the Guam Memorial Hospital fund, grossed approximately $4,500, Judge Jose C. Manibusan, chairman of the fund raising committee, said yesterday.

Manibusan estimated that about $3,000 would be turned over to the hospital fund after the expenses were all paid.

The original plans called for 80 per cent of the profits to be turned over to the Guam Memorial Hospital fund, 10 per cent to the library fund, and 10 per cent to the concessionaires.

The majority of the concessionaires turned their 10 per cent profit back to the fund, said Manibusan.

He urged all persons holding bills against the Christmas Carnival to turn them in immediately so that he could expedite turning the money over to the hospital fund.

—March of Dimes—

Because of the March of Dimes, our knowledge of polio, of viruses, of surgery, of muscles, of cells, has increased; many hospitals are better equipped; many health workers have had special training.

BUTLER'S INCORPORATED

Island Distributors for Nationally Advertised Merchandise

Miss Shirley Temple, or Mrs. John Agar, is one of Hollywood's leading preformers. She is a grown up lady now, but she still has a trace of the dimples that made her famous the world over when she first started on the screen. Those who remember such pictures as "Captain January" and "The Littlest Rebel" will notice that she is just as charming then as she is now. (Warner Bros. Photo)

Ya Don't Say . . . .

SMOKE THAT CIGARETTE

LINCOLN, Neb. —(UP)— Smokers' nerves caught up with an unidentified passenger on the city bus line and with driver Wayne Thompson.

The passenger boarded a bus with a lighted cigarette in his hand. Thompson called his attention to the no smoking rule.

The passenger brooded for a few blocks, then doubled up his fist, struck Thompson in the face, and jumped off the bus.

WOMEN??

MILWAUKEE —(UP)— Firemen who battled their way through an 11-inch snow to answer a fire alarm blew a little smoke of their own when they saw Elaine Tveter, 16, Elcho, Wis., standing by the alarm box—and heard what she had to say.

She didn't know the city very well, and she just wanted to mail a letter when she opened the box.

She hoped she hadn't caused too much trouble.

KEEP SMILING

Some men smile in the evening.
Some men smile at dawn.
But the man worth while
Is the man who can smile
When all of his teeth are gone.

Bees Make Whoopee But Little Honey

McALLEN, Tex. —(UP)— Bee keepers of the lower Rio Grande Valley in Texas are faced with a problem.

Their bees, instead of keeping their minds on honey-making are sipping too frequently of fermented dates and raising merry hallelujah.

The trouble starts when a bird pecks a date, puncturing the skin. The date ferments and the bees knock off work for a few quick ones.

Then they fall to the ground in a drunken daze. Often they don't get back to the hive at night, but spend the night underneath the tree in an intoxicated orgy.

NOTICE—Finally arrived, the first complete shipment of WILSON sporting goods, trophies, baseball equipment and miscellaneous athletic gear by the GUAM COMMERCIAL COMPANY, distributors of Wilson sporting goods throughout the Marianas Bonins islands. Ralph Morton, factory representative, is currently at Guam for the purpose of assisting the GUAM COMMERCIAL COMPANY in introducing the complete line. 19

"Yeah me and my girl broke up. I couldn't stand those silly long skirts she wears ! !"

Music Spotlights by Ed Simmons

Top band polls underway, record ban on and on tight, disc jockeys still getting top money, these items all added together give us the music news and views in brief, now for an itemized study.

The biggest news of the week seems to be the various bands polls, organized by METRONOME magazine DOWNBEAT the music trade weekly, and last but by no means least, the greatest of all polls, the ESQUIRE magazine jazz poll.

One thing in common in all of the polls, is the evidence of public acceptance of modern music and its men, because the men of modern music all are coming in winners in the first stretch.

In the METRONOME poll, Charlie Parker, bebop altoist, led, with perennial winner, Johnny Hodges trailing; Benny Goodman ahead on clarinet, as usual, with Buddy DeFranco runner-up; tenor sax men, Charlie Ventura, Flip Phillips, Vido Musso and Lester Young battling for first place, with Ventura slightly in the lead, and Coleman Hawkins and Illinois Jacquet close behind; Harry Carney winner of every poll on baritone sax for a period of seven years, had only a few votes over Serge Chaloff. Dizzy Gilespie, greatest bebop trumpeter way out in front on his instrument, with no near rivals; last year trombone winner, Bill Harris, facing strong opposition from Kai Winding. Piano votes were very scattered with nimble fingered ivory herder, Nat "King" Cole ahead, Teddy Wilson second, and provocative pianist Lennie Tristano holding down the trey position. Buddy "Bernard" Rich far in front in the drum division, with Gene Krupa, a poor second, and Shelly Manne an even "poorer" third. Nancy's father Frankie, led the male vocalists, with Mel "Velvet Fog" Torme second, and Nat "King" Cole and Billy Eckstine crowding the third spot.

The new Stan Kenton agregation leading the big band division, with Dizzy "Bop" Gilespie, a surprise second, and Duke Ellington, another perennial winner, struggling for third place with Boyd Raeburn.

In the DOWNBEAT poll, Kenton, leads the big band division again, with Duke Ellington a very poor second, and Dizzy Gilespie a strong third. Frankie also holding the lead in the DOWNBEAT poll, with Frankie Laine in second place, and Bing Crosby in third. Sara Vaughn, not only holding the lead in both polls, for female vocalists, but fast becoming a close contender for top record honors.

In the ESQUIRE poll, the same names are in evidence among the contenders for top places.

Biggest surprise, of the year, was Perry Como, who came in first in the VARIETY magazine poll, and Bing Crosby who didn't even place. So goes the news from the polls.

MUSIC BRIEFS: Fred Robbins, one of the top ten, in the disc jockey field, has a 1280 club, on New York's WOV that boasts a membership of 34,000 . . . MBS airing of first battle of jazz styles, a big success. . . . Fats Navarro, the newest and biggest thing, in the in the jazz trumpet field. . . . Ella Fitzgerald, voted the first lady of song, by METRONOME magazine . . . Larry Clinton, former great band leader, striving to make a comeback . . . "King" Louis Armstrong, does it again, breaking all attendance records in the first San Francisco appearance in over a year . . hot quintet of the Club of France is once more organized and on the loose, their first concert was very poor, which makes them in this humble opinion as poor as they can get, to me they have always sounded like a sad imitation of Roy Acuff and his mountain boys. . . . Chubby Jackson, mad bass player, and Bop King, Diz Gilespie, get set for big European tour. . . . Woody Herman band makes poor showing in their first engagements, caused mainly by the fact that Woody is still under the impression that he can sing.

So with a load off of our mind, and good will toward all of you, we place a thirty at the end of this sentence. Till Sunday next, be good and have a good week. Ed.

SQUEEZE AHEAD

NEW YORK —(UP)— City officials decided that warning signs on parkways were to wordy.

They read: "Caution—Pavement Narrows," "Slow—Merging Traffic," "Drive Carefully—Narrow Bridge," and so forth.

All these signs were replaced by one. It reads: "Squeeze Ahead."

Letters to The Editor

WHY GIVE TO THE MARCH OF DIMES?????

This is why friends!!! You may have experienced this dreadful disease of infantile paralysis or you may have seen some one suffer. For those of you that have, please bear with me the unhappy memories inflicted upon you from "polio." For this article is for the ones that haven't really heard about the disease.

I was stricken with the disease in October of 1944 and for the first time, I found what pain was. I had appendicitis, also injuries from auto accidents, and such but really didn't know until 1945 what the word pain really meant. Not only did I feel the PAIN from my own paralysis but I also saw the young children in PAIN, trying to make their mothers who were miles away, hear them screaming. And there too, there were the serious cases in the iron lung, that would count the minutes and seconds that they could remain out of the lung on their own power. One day a nurse came into my room with tears in her eyes and told me that she had to deliver a message as much as she had hated to. It was from my best friend, Ralph Pratt, and she had the nurse tell me that he had played out of the lung for 3 minutes and 24 seconds without any help. We had already been told that there was no hope for his getting well and to start to see some one suffer like that in vain. It was then said, after he had passed away, that he may have lived if the iron lung had arrived a few days before it did. But with so many things to buy each year, the Foundation for Infantile Paralysis makes out a budget alloting so much money for each item which means only a certain amount of iron lungs can be bought each year. Then there was a boy that I became quite attached to, because of his courage and fight for life. It was his ambition to become a baseball player for the big league's and to see his hopes crumble when the disease hit him. But after a couple of months, he began to get well, and could walk 10 steps. Then the Bulbur, paralysis set in. This type of paralysis is quite serious and sets in the throat. It was November now and this young boy was beginning to lick the disease for the second time but a shortage of nurses followed about the middle of November and inexperienced girls were hired to take care of patients. One night this boy wanted a drink of water and the girl gave it to him. He started choking and the girl started to pat him on the back thinking it was an ordinary choking exercise but before we realized what had happened, the boy was dead. The girl that gave him a drink of water still feels as if it was her fault. Who do you think she was in fault? Wasn't it the people that passed the March of Dimes drive without contributing? Had they contributed, a few more nurses could have been hired and trained and been on hand. I have seen PAIN through experience and it hurts each year to see a March of Dimes jar and not be able to contribute as much as 100 times as much money as I've thrown away for foolishness in my childhood and high school days. It isn't too late for me to try and pay back what I received from the Foundation during my illness, but I would a lot rather have had some money in the Foundation before I had to use some. Remember the old saying—"save your money for a rainy day?" Well, I have made my saying on the same idea and I hope many of you will think it over.

"A DIME BEFORE IT IS TOO LATE; MAY SAVE YOU OR SOMEONE FROM FATE ! ! !

Dear Editor,

Above is a true story of my experience with infantile paralysis and I hope you can find a place in the GUAM NEWS for it. I think that if the people really came in contact with the disease by watching some of the people suffer with it, a March of Dimes campaign would be more successful than it is. If you can print this article, maybe it would give a true picture to the people on Guam how painful this disease is in many ways.

Sincerely,
Lawrence McMahon S1

History of War Crimes Trials

Ed. Note—This is the twentieth in a series of war crimes trials held in the Guam area since the termination of World War II as presented by George W. Wilbur, GUAM NEWS War Crimes correspondent.

Morale was one of the most important factors to be considered in any operational unit of any armed force during the recent war. Young men overseas continually fought the frustration of their confined, overrealistic lives. In the American armed forces, these problems were met in many ways. Movies, more mail from home, rest camps, or limited leaves did much to ease the tension. Those who were confined at the front lines of battle and unable to utilize most of these aids, were kept from mental disintegration by psycological combatants, such as religion.

Whatever the means were, it is a known fact that our troops had the best morale there was, bar none.

From the appearance of numerous war crimes records, it seems that Japanese military authorities lacked these normal, civilized means of boosting morale. They had their own unique methods of spiritually uplifting distraught overseas troops. Their favorite, it appears, was to capture an American prisoner and subject him to various degrees of torture and then let their men unleash their pent up fury by thrusting spears or bayonets through his helplessly trussed body.

For lack of a rational excuse, the stereotype reply to the question as to why American prisoners of war were treated with such barbaric ferocity was that at the particular location of the crime, morale was at a very low ebb due American bombings and the bad turn of the war. With these conditions existing, the Japanese seemed to feel it only right to use the grim death of an American prisoner as a tool to combat low morale.

It appeared to be the custom for Japanese officers to permit those men who had buddies killed in American bombing raids to satisfy their revengeful nature by perpetrating these inhumane crimes. For reasons seldom stated, the officers themselves would most always witness the execution.

Throughout the entire war crimes trial in which Kato was the lead defendant, no evidence was produced to show the Japanese had any rational excuse for the executions. Instead, the only statement offered was in keeping with what seems to be an unwritten tradition among Japanese war criminals, that the death of the American prisoners was a necessity for the preservation of morale among the troops. In spite of the efforts the defense council made to make this excuse appear valid, even in the eyes of high moral civilization which reigns today, the American tribunal adjudged all defendants guilty and sentenced each to spend a large share of his remaining life behind bars. Kato shall see those bars till death.

BLONDIE (Courtesy King Features via SEA) by CHIC YOUNG

History of The Guam Flag

by Agueda I. Johnson

The Guam flag was designed by Mrs. Helen L. Paul, beautiful and charming wife of Lcdr. C. E. Paul, USN, stationed on Guam from 1918 to 1920.

While Lcdr. Paul was carrying on his duties as civil engineer of the public works department, his artistic young wife busied herself in the interest and welfare of the people by teaching school, conducting shows and plays for benefits and recreation, and by reproducing the natural beauty of Guam by the many drawings and sketches she made of the different sceneries around the Island.

One of the most outstanding of these sceneries is that which is used as the central figure in the Guam Flag.

Flag Scenery

It portrays an ancient flying proa (canoe) about to make a landing on the beach near a lone coconut tree growing virorously by the seashore in spite of wind and waves. In the background at a distance is the "Two Lovers' Point" jutting majestically into the once peaceful waters of the Pacific Ocean.

The figure is also intended to bring out certain characteristics or traits. The canoe typifies the courage of the ancient Guamanians who skillfully and fearfully used the craft to span the Pacific. The coconut growing in the unfertile sand typifies determination. Although partly uprooted in a great typhoon, as if in utter defiance to all adversities, this tree with trunk partly kneeling, turned its open fronds toward the sky and continued its growth. And the "Two Lovers' Point" which represents romance, is a legend well-known by almost everyone.

School Held

The sketch was copied and made into flag by the home economics class under Mrs. Lillian A. Nagel, wife of a Marine sergeant bandmaster.

The colors of the flag are yellow which represents the sand; brow the tree trunk and canoe; gr the leaves; white, the sail; grey, the distant point; and red for the letters "G-U-A-M." These figures are centered in an oblong shape or frame (patterned after the shape of the ancient Guamanian sling stone) over a field of marine blue with a red border.

The flag was first officially used by the Guam militia at drills or on parades, and later, by the Boy and Girl Scouts. ?

The design became generally known as the "Guam seal," although the designer called it the "Guam Coat of Arms." The Governor's official car and barge were usually recognized by the "Guam Coat of Arms" painted on the doors and sides.

When Governor Willis Bradley, Jr., USN, (1929-1931) conceived the idea of using stars on letters delivered locally on the Island, he saw no other design more appropriate for the Guam guard mail stamps than the Guam Coat of Arms, the central figure in the Guam flag. The use of the stamps however, lasted only a short time due to some legal points raised by the United States Post Office Department.

Collector Item

mediately after the suppression the sale of the stamps, letters from philatelists in the states and other parts of the world came pouring into Guam asking for Guam guard mail stamps. Soon the few thousand prints became exhausted, and today, a one-cen or two-cent mail stamp will sell for fifteen or twenty dollars depending upon how anxious the collector is to obtain one of the rarest and most interesting stamps in the world.

At present, nearly everything symbolic of Guam is either decorated or marked with the Guam Coat of Arms design. Its usefullness as a decoration and as a suitable emblem for the "Gem of the Pacific," is undisputed.

Tribute to Designer

What a fine tribute it would be to the designer of the Guam flag and all others responsible in its making, if resolutions were made by the representatives of the people of Guam, to have the flag recognized as the official flag of the Island of Guam to be regarded in a similar manner as the state flags of the United States.

GUAM'S FUNCION

by Evelyn Perez

Leaving for the States to continue his schooling under the G. I. Bill of Rights is Mr. Juan Muna Torres. He will reside at the home of his brother, Mr. Francisco Muna Torress of San Francisco, California.

Mr. Jose Reyes Aguigui will soon leave for the mainland to visit his cousin, Mr. Joaquin C. Reyes of Vallejo, California, and to continue his schooling under the G. I. Bill of Rights.

Leaving for the States this month is Miss Carmen Salas Terlaje to attend school in Bakersfield, California. Miss Terlaje is a student of the George Washington High School.

Mr. Manuel S. Cepeda is soon to leave for Honolulu to arrange business matters with the Oceanic Traders Co. and later to the United States to arrange same with the Northern Consumers Bottling Company. He expects to return within six months.

The body of Foster D. Brunton a long resident of Guam, will be shipped to the States on the U.S.S. Butner. He will be buried at his native Spokane, Washington. His widow, Mrs. Maria G. Brunton of Agana Heights will also leave on the same ship.

Mrs. Milton Champion, former Miss Clara Mae Butler of Agana, is here visiting her parents, Mr. and Mrs. C. C. Butler of Coco Cola Heights. With her visiting, are her two daughters.

Among people leaving for the States to visit friends and relatives is Miss Emma S. N. Flores. She will reside at the home of her cousin, Mr. Pedro D. Perez of Vallejo, California.

Stork Notes

Born on January 16 to Captain Gapling of the 76th Fighter Squadron, a baby boy. The child has not been named as yet. Captain Gapling lives at North West Field.

It's a baby girl for Edward H. Deane. Karren Ann was born on January 13. He is a MoMM, lives at ComMar.

A baby boy, Richard Thomas Stone, was born on January 14. His father, Louis H. Stone, Warrent Radio Electrician, USN, lives at NSC.

Poet's Corner

SOMEWHERE ON GUAM

Down in the South Pacific
There's a land God forgot
And on the biggest maps you'll find
It's just a little dot.
It isn't fit for man or beast,
And all the birds fly blind
But on this God-forsaken spot,
Believe me friend, you'll find
Cattlemen from Arizona, miners from far off Butte,
Doctors, laywers, businessmen and gamblers seeking loot.
Movie ushers, soda jerks and bell hops from Dakota
Butchers, barbers, Irish cops and Swedes from Minnesota.
Sheep herders from Texas have.
The foreman's jobs corralled
A Powder River buckaroo came
Down here (fer to weld)
Pearl Harbor, Honolulu, from Greenland's icy coast.
From Newfoundland, Bermuda,
From round the world they boast.
The "real silk" salesman from the States
Are shovel runners here.
The noisy jerks, employed as clerks,
Come here for souveniers.
Rejects from the Army, from the Navy,
And Marines,
They squak about the meals they get—
At home they lived on BEANS.
They squak about the hundred bucks
They squak about the hundred bucks a week
They send their wife.
They never made that much a month before
In all their life.
Oakies, Arkies, native sons,
From every state they come—
Their romance and adventure
Would put Hollywood to shame.
They've roamed the land from coast to coast
And nailed the seven seas,
They've flown the sky and dug for gold.
And now they shoot the breeze.
They're rugged, rough and ready guys
Of fame and fortune bent. But
When it starts to rain a bit
They're headed for their hut.
If it's bigger jobs they're looking for,
We don't admire their taste.
It's a shame to see such talent
In this awful land of waste.
They can all go back to people
Who appreciate their worth
For ONLY MEN can take it
On this place of hell on earth.

Guam News
Sports

Sports Slants

by Joe Scarfo

With the 1948 baseball season still three long months away, many of the top sports writers have already committed themselves in picking the Boston Red Sox as an almost sure fire bet to cop the American League flag.

Since the close of the 1947 race, the BoSox have paid out a considerable amount of cash in swinging deals to obtain such stars as Vern Stephens, Jack Kramer, and Ellis Kinger from the St. Louis Browns and Stan Spence from the Washington Senators: The purchase of Stephens fills a gap that the Red Sox front office has been trying to plug for the past few years. During that time no less than seven men have taken a crack at the hot corner and the acquistion of the slugging Brownie seems to have finally solved the problem. With the third base position secured and the right field garden a fight between Spence and Sam Mele, the only weak spot in the lineup is behind the bat. The Red Hose need a second string receiver to back up the veteran Birddie Tebbetts and rumors have it that the Yawkeymen are interested in Gus Niarhos who comes up for another trial with the Yanks this Spring. The slender Niahos who was with the Yanks when marse Joe was at the helm, is being sought at the new Sox manager's request.

During the 1947 season the Red Hose pitching staff which was supposed to have carried them to the pennant, was riddled with injuries and sore arms and the Sox staggered to the finish behind New York and Detroit. This season the Sox do not expect fate to deal them another bad hand and McCarthy is counting on Right Handers Hughson, Dobson, Kramer and Kinder and Southpaws Johnson and Harris to carry the Sox through to the top. With such mound wealth it doesn't seem possible that the BoSox can up lower than the top rung of the ladder.

Back again and on whose hopes Boston rests, are the big boys with their war clubs. Triple batting crown winner Ted Williams, little Johnny Pesky and Bob Doerr, also Dom DiMaggio and Mural Jones Bombers of old.

O'Brien, Douglass Cooking Up Potent All-Star Five for WesPac Tourney

by Bill Jury

When you take the best players in a couple of leagues and mold them into one potent outfit you're bound to come up with an outstanding aggregation and you oughta see the party the O'Brien-Douglass company is cookin' up for the WesPac clambake!

Names like Fons, Edwards, Marlowe, Arey, Squires and Cook you've heard all through the past cage season. Then during the playoffs players like Buum, Argotsinger, Cassidy and Morgan broke into the spotlight because of their fine play during the crucial tournament series. Well, good people, now all those names can be found on the Guam All-Star roster.

With Larry Horan and Tom McHale due to report to the star-studded squad any hour now, the locals should present one of the strongest quintets ever to show in this neck of the woods.

At the end of the season some of the sports following were predicting near disaster for Guam's team when it was made known that the squad would be made up of outstanding players from different league teams. That last part about the "different teams" is what got the goat. There were cries of "breaking up a winning combination" and "they won't be able to work together as a team."

Sleepless Nights

This might be a good place to stick in a word about this to the fans who have spent sleepless nights worrying about the outcome of this "hasty decision."

The All-Stars look good. Very good. They went through the second day of practice yesterday morning and there weren't any traces of individuality that sometimes occurs when a group of hotshots get together and form a team. Ken Fons, often called a "one-man team" at ComMar looked as good working with Red Edwards, Lew Arey and Cy Cassidy as he did with ComMar during the regular season. Arey worked the center slot in great style while Cassidy and Edwards worked the ball into scoring position just like old times. Buzzy Squires worked with Fons at forward faultlessly and Jerked through a tight defense more than a couple of times to swish two points.

No Slouch

The other five was no slouch either as Earl Whiteley, Jack Argotsinger and Bob Buum teamed up downcourt with Gil Marlowe and Pete Morgan to match their opponents bucket for bucket in the scrimmage session.

From here it looks like the sharples from up Tokyo way and points east are going to have tough going when they meet the locals out here in the sticks next month.

—March of Dimes—

Pep to Defend Title

HARTFORD, Conn., Jan. 15 —(UP)— Featherweight Champion Willie Pep will defend his crown against Humberto Sierra of Cuba the week of February 16 at Miami Beach, Fla., according to an agreement reached tonight between Promoter Clarence (Kay) Kantrowitz and Pep's manager Lou Viscusi.

'Bullet Bill' Osmanski Appointed Head Grid Coach at Holy Cross

WORCESTER, Mass. —(UP)— William (Bullet Bill) Osmanski, a balding 31-year-old dentist who played on four championship Chicago Bears' teams, was appointed as head football coach at Holy Cross where he gained fame as the college's greatest fullback.

Appointment of Osmanski was doubly significant. It was the first time in 10 years Holy Cross had hired a graduate coach and also meant the college was scrapping its single-wing offense in favor of the T-formation.

The college revealed neither the terms nor the length of Osmanski's contract. Very Rev. William J. Healy, S. J., president, merely said that a contract had been mailed to Osmanski in Chicago.

Osmanski, a blond, likeable six-footer, succeeds John (Ox) Da Grosa, a Colgate product who resigned prior to Holy Cross' climatic victory over traditional rival Boston College last November.

It was believed the college had met Osmanski's reported demand for $25,000 a year for himself and three assistant coaches. Osmanski probably will get $10,000 and give his assistants $5,000 each.

Bill Osmanski

N. C. State Five Holds Best Offensive Record

NEW YORK, Jan. 16 —(UP)— The National Collegiate Athletic Bureau reported today that North Carolina State has compiled the best offensive record among the nation's major college basketball teams with an average of 74.4 points in 15 games.

Homer F. Cooke, Jr., the bureau's statistician, also disclosed that Oklahoma A and M, foremost exponent of possession-styled basketball, is the top defensive quintet, having yielded opponents an average of 33.6 points in 12 contests.

Bowling Green ranked second in team offense with an average of 73.1 points in 17 games, Western Kentucky was third with a 71.6 point average for 10 games, followed by Holy Cross with a 70.2 point mark in 10 contests and Kentucky with 70.1 in 13 games.

Seven-Man Syndicate Purchases Detroit Lions Football Team

Washington Signs Odell to Contract As Grid Mentor

SEATTLE, Jan. 17 —(UP)— The University of Washington today signed Howard (Howie) Odell, Yale's coach since 1942, to a one-year contract as a replacement for Ralph (Pest) Welch, who resigned.

Athletic Director Harvey Cassill said one of O'Dell's first moves would be to gather together as strong a coaching staff as possible. He said no new assistant coaches had yet been hired.

"We are happy to bring Howie to Washington," Cassill said. "I feel he is one of the outstanding young coaches in the country today, and I am certain he will contribute substantially to Washington's athletic program."

Odell, 37-year-old former University of Pittsburgh backfield star, was no less enthusiastic about his new position.

"I have felt my football future was at Washington since the first time I was approached about the position here," he said. "The opportunity to meet the teams on Washington's schedule is a challenge to any coach."

"I feel certain," Odell said, "We can field a representative Washington team in years to come with the top calibre high school material available throughout the Northwest."

Odell is the 17th head coach in Washington's football history and the third in the last 18 years. He succeeds Welch, who asked last Dec. 6 that he not be reconsidered for reemployment at the expiration of his one year-contract on April 1, 1948.

Odell is an exponent of the T-formation, although he played four years of single wing under Coach Jock Sutherland at Pittsburgh. He served as assistant to Sutherland for two years after his graduation in 1935 and then moved in to Harvard for two years, to Pennsylvania for four and to Wisconsin for one spring training period.

Fred Mandel Retains a Financial Interest

NEW YORK, Jan. 16 —(UP)— A seven-man syndicate headed by D. Lyle Fife, Detroit electrical magnate, today purchased the Detroit Lions of the National Professional Football League for an estimated $250,000.

The purchase was made from Fred L. Mandel, Jr., Chicago department store tycoon who had owned the club since January, 1940. Mandel retained an undisclosed financial interest for three years but will not have any interest in its management.

Fred Mandel
(AP Photo)

The seven man syndicate includes Fife, Edwin J. Anderson, William D. Downey, Charles T. Fisher, Jr., W. O. (Spike) Briggs, Jr., Arthur Hoffman and Radio Sportscaster Harry Wismer.

Fife was named president; Anderson, vice president; Downey, secretary; Fisher, treasurer, and Philip A. Hart, assistant secretary and treasurer.

Indicating that the Lions henceforth would become a civic promotion, Fife said that "others will be coming in until we have from 50 to 75 business leaders owning the club."

Meanwhile, it was reported that Dr. Eddie Anderson of Iowa, Wally Butts of Georgia and Frank Leahy of Notre Dame would be approached to take over head coaching duties of the club which has become a National League doormat since winning its one championship in 1935.

"We have not, however, contacted anyone as yet," Fife said.

Brundage Says Withdrawal of Both Hockey Entrants 'Best Solution'

NEW YORK, Jan. 17 —(UP)— President Avery Brundage of the United States Olympic Committee suggested today that the "best solution" of the current hockey controversy would be to bar both American teams from the winter games at St. Moritz.

He reiterated the Committee's in skiing, bob sledding and skating will be withdrawn from the games opening Jan. 30 unless the Amateur Hockey Association team is prohibited from competing in the Olympics.

Only the Amateur Athletic Union's team, which will sail for Europe Sunday, has the blessing of the Olympic Committee to be the U.S. representative in the games. The A. H. A. team already is in Europe.

Brundage disclosed that the committee's decision to withdraw all U. S. competitors from the games if the A. H. A. team is permitted to compete had been backed in a mail poll of all members.

"I hope I do not have to face the question, but if it comes down to brass tacks there is nothing we can do but withdraw from the games if the A. H. A. team is permitted to compete," Brundage said.

He said the whole question should be settled at a meeting of the international Olympic Body at St. Moritz, Jan. 27, three days before the winter games begin.

Agreement Made To Outlaw Grid 'Deadman' Play

EUREKA, Cal. —(UP)— The old be-whiskered "deadman" play has been outlawed from future Far Western Conference football play as the result of a "gentlemen's agreement" reached by conference officials in their annual meeting here last weekend.

The subject came before the coaches' and managers' meeting as a result of protest by Coach Dick Boyle of San Francisco State College, whose team was defeated 13-7 by Southern Oregon last season on the strength of a successful hide-out play.

Boyle said he was not protesting the outcome of the game, but merely the method by which it was won. He said he considered the deadman play "unethical" in the modern football.

Gamecocks Fill 1st Place

The 474th Signal Gamecocks took over first place in the round robin basketball tournament at 20th Air Force Headquarters court Friday night with a 39-33 victory over North Field. Hardy, of North Field was high man with 18, while Wiley had 14 for the Gamecocks.

In the first game of the twinbill, Northwest Field downed the 811th EAB, 43-39, as Jimmerson put in 19 for the Engineers.

Weekly Sports Roundup

by Bob Crossley

As the slackseason lull sets in, awards, announcements and preseason baseball swaps and squabbles were in the headlines.

Fritz Crisler, Michigan's wily mentor, was honored as coach of the year at a banquet given in New York by the World-Telegram and Associated Scripps-Howard newspapers.

The Island all star basketball team, which will carry Guam's colors into the All Navy WesPac tourney was chosen by a committee consisting of five athletic heads on the Island.

Lefty Joe Page, New York's top relief hurler in the 1947 World Series, signed his '48 contract within a week of the signing of Joe DiMaggio and Tommy Henrich.

To combat professionalism in college, the NCAA adopted a five point purity code at its annual convention. The code includes: measures to combat loose interpretation of the word "amateur"; a clause calling for institutional control of the conduct of athletes; more rigid academic standards for athletes; a strict limit on the amount of financial aid a muscle man may receive and limited recruiting of prospective gridders.

Dean Cromwell, Southern Cal's "maker of stars" was named head coach of the United States Olympic track and field team. As his assistants he will have Emil von Elling of NYU, Tom Jones of Wisconsin and Emmett Brunson of Rice Institute.

George Magerkurth, veteran major league umpire and one of the most colorful arbiters in the business announced that he will be forced to retire because of injuries received during the 1947 season.

Cleveland Indian Club President Bill Veeck announced this week that Bob Feller set a new top salary figure last year by receiving $87,000 for winning 20 games.

The Naval Academy at Annapolis ousted Captain Tom Hamilton as head football coach and at the same time announced that its outmoded coaching setup would be junked and that the academy is now in the market for a new grid mentor.

ComMar Cagers Honored as Guam Champs at Dinner

The ComMar basketball team, Guam's champions, was treated Thursday evening to a steak dinner, with Commander Marianas Chief of Staff Captain Edward N. Parker, USN, as guest of honor.

After the dinner including the rehashing of ComMar's wins and defeats, Capt. Parker presented the team members with jackets.

Lcdr. H. L. Carpenter, commanding officer and Lt. R. H. O'Brien, executive officer and coach, played host to the gala affair.

Capt. Parker, in presenting the jackets, complimented the team on its successful season and its fine sportsmanship displayed throughout the season.

The guests included an officer for each team member. The officers were picked as being the most ardent rooters for the team during the season and represented almost every division.

COMMAR BASKETBALL TEAM AT DINNER—The Island champion basketball team was honored Thursday night at a steak dinner by their commanding officer, Lcdr. H. L. Carpenter, and their coach, Lt. R. W. O'Brien. After the dinner, Capt. E. N. Parker, chief of staff, presented the team with jackets. (Guam News Photo)

West Coast Fives Hold Edge on East

SANTA CLARA, Calif. —(UP)— Coach Ray Pesco, bringing his barn-storming Santa Clara quintet home from an Atlantic seaboard invasion, claimed tonight that 1948 West Coast basketball is "noticeably stronger" than in the East.

"The average coast basketball team this year is better than the East's garden variety—Madison Square Garden, that is," Pesco declared.

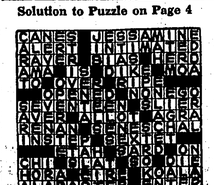
"If 10 Western teams played 10 Eastern teams on neutral courts, the Pacific Coast clubs would have a definite edge."

Pesco's Santa Clara Broncos, only an average quintet in their own ballwiwick, broke even on their 4-game junket to New York—trimming Temple, the East's No. 1 team and then defeated Georgetown. They lost to Duquesne and City College of New York—both among the East's finest.

"Considering that a traveling team from the West Coast gives away seven to 10 points by playing on Eastern courts," Pesco said, "that isn't a bad record. And another Western five, UCLA, won all its games back there at the same time we were playing in Madison Square Garden."

Pesco said Eastern quintets appeared to hawk the ball more than coast teams, played a more rugged game and "applied a steady pressure for the full 40 minutes—something that's rare in the West."

Solution to Puzzle on Page 4



PCL May Become Major in 1948

SAN FRANCISCO —(UP)— The Pacific Coast Baseball League may be a "major" league for 1948—regardless of their recent rebuff from the National and American leagues, it was indicated recently.

Plans completed for introduction of a resolution at the Los Angeles meeting late this month that would change the name of the 45-year-old Pacific Coast League to "The Pacific Coast Major League."

General Manager Charles Graham, Jr., of the San Francisco Seals, said that as far as he had been able to ascertain, there was no law against changing the name of any baseball league.

The Seal's office here bases its use of the word "major" on the fact that the PCL is the major and dominant league in the west—therefore it is a "major" league.

Yankees, Dodgers Might Get Hard Time in 1948 Pennant Race

by Milton Richman
United Press Sports Writer

NEW YORK —(UP)— This is an appropriate time to take a baseball inventory and a cursory check among the 16 big league clubs disclosed that the New York Yankees and Brooklyn Dodgers, current champions, might be hard-pressed to repeat in 1948.

Sizing up the individual clubs.

American League

Boston—The Red Sox can't help but be vastly improved from the 1947 edition. The trades with the Browns and Senators strengthened the club so much that it could waltz to a pennant even if all its star pitchers do not function up to par. Joe McCarthy at the helm isn't going to hurt, either.

New York—Manager Bucky Harris says that he doesn't fear either Boston or Detroit. That makes it mutual with the Red Sox because they've advanced to the point where they don't fear the Yankees. If Harris can produce a superior pitching staff, the Yankees should have little trouble beating Detroit for second place.

Detroit—Smiling Steve O'Neill, Bengal skipper, thinks this may be the Tigers' year. Maybe so, but in the face of so many past disappointments, Detroit rates no better than third.

Philadelphia—The Athletics just missed making the first division last year. Connie Mack now claims he has the best pitching staff in baseball. If what he says is true, the A's should edge Cleveland for fourth.

Cleveland—President Bill Veeck is aiming for the pennant but it appears as if he hasn't the necessary material. Many rival managers believe the Indians will be a strong contender for the flag soon but not in '48.

Washington—Manager Joe Kuhel, an accomplished magician, will have to produce plenty of new tricks to boost his Senators any higher than sixth.

St. Louis—Here's our sleeper. The Browns to outmaneuver the White Sox for seventh place. Some of the hustle the Browns claim they have should be enough to beat Chicago.

Chicago—Outside of Eddie Lopat and Taft Wright, there's little to recommend the White Sox. The Rookie Outfielder Jim Delsing may supply added punch.

National League

Boston—We see the Braves making it an all-Boston World Series. Take Warren Spahn and Johnny Sain, mix with Bob Elliott, Tommy Holmes and Earl Torgeson, and it should come out P-E-N-N-A-N-T.

Brooklyn—Even with Leo Durocher back again, the Dodgers don't look as strong as the Braves in our book. Dixie Walker and Vic Lombardi are bound to be missed.

Pittsburgh—The Pirates look ready for the biggest pole-vault since Cornelius Warmerdam last saw action. Manager Billy Meyer should bring out the best, and the best, we think, is third place.

St. Louis—New Owner Tom Hannegan should find that running a big league ball club has its drawbacks.

Cincinnati—Ewell Blackwell, Kent Peterson and Ev Lively plus the new hitters coming up totals fifth place.

New York—The Giants skid to sixth as Johnny Mize begins to show signs of wear and tear.

Philadelphia—The Phils say it'll be first division or bust in '48. Well, they won't finish in first division and probably won't bust, either.

Chicago—The crystal ball shows the bleakest season in years for Charlie Grimm's Cubs.

Athletic Leaders Predict Higher Class Competition in All Fields of Sport

New Champs Seen in Boxing, Tennis, Turfdom

NEW YORK, —(UP)— Sports fans will witness a much higher class of competition in 1948, leaders in the various fields predicted, with boxing, tennis and horse racing leading in the crowning of many new champions.

Out of the crystal ball comes the prophecy that Heavyweight Champion Joe Louis and Light Heavyweight Champion Gus Lesnevich will retire; interest will boom in baseball because of wide open pennant races caused by a classy rookie crop and track interest will hit fever pitch because of the Olympic Games.

Leaders in sports see it this way:

Will Harridge, American League president: "The best all around rookie crop since before the war should help every American League club. Winter trades should make for a hot first division battle. Prospects generally are bright for a fine year.

Ford Frick, National League president: "We should have much better baseball with the rookie crop catching up. We are not looking for 1948 attendance to equal that of 1947? which was phenomenal."

Abe J. Greene, National Boxing Association president: "There is an excellent chance we will have new champions in five divisions—heavyweight, light heavyweight, middleweight, welterweight and bantamweight. Louis and Lesnevich may retire and Joe's retirement would be a good thing for boxing. Because of his class he has stifled the ambition of young fighters."

Dan Ferris, National AAU secretary: "We should win the Olympics even though we are light in track talent. That is because we have great field event talent and great depth in runners."

Fred Corcoran, P. G. A. promotion director: "Tournament golf is in for one of its greatest years with its greatest international interest because of the invasion of South Africa's Bobby Locke, Australia's Norman von Nida and England's Henry Cotton."

Holcombe Ward, U.S.L.T.A. president: "Jack Kramer's retirement throws the field wide open. Australia will challenge for the Davis Cup and, while it will be close, we should win."

Jonas Ingram, AAC commissioner: "We just finished our best year and expect 1948 to be better. The public is tiring of the-NFL's lack of cooperation and we hope this coming year will be a milestone of cordial relations with the other league."

Bert Bell, NFL commissioner: "The fact that three clubs in the league which had not before participated in either playoff or championship game, rose to the top in the two divisions in 1947 presages a close race in 1948."

Spencer Drayton, Thoroughbred Racing Protective Bureau: "We had one of our smoothest years in 1947 and expect 1948 to be on an even higher plane. Racing must be honest and highly competitive and, under those standards, the sport should be at its all-time best."

Redskins Sign Harry Gilmer to $80,000 Contract

NEW YORK —(UP)— Harry Gilmer, Alabama's passing star, has signed a five year contract to play professional football with the Washington Redskins, the United Press has learned.

The contract calls for approximately $80,000, $20,000 less than Gilmer first demanded.

Gilmer was signed by Turk Edwards, Washington coach, shortly after the Sugar Bowl game in which his play was far overshadowed by that of Bobby Layne of Texas.

Edwards is now at Beverly Hills, Calif., where he is conferring with George Preston Marshall, owner of the Redskins.

As soon as Gilmer was signed the Redskins sold their draft rights to Charles Connerly, the Mississippi passing ace, to the New York Giants, the United Press learned. That gives the Giants the National League draft rights to the leading collegiate passing combination in the country last season, Connerly to Barney Poole. Poole was drafted by the Giants at the close of the 1946 season.

Aussie Paper Urges Davis Cuppers Be Sent to U. S.

SYDNEY, Australia —(UP)— In an editorial printed in the Sydney Daily Telegraph recently, Australian tennis authorities were urged to send a Davis Cup team to America "if only for the publicity."

"However critical the dollar shortage," the editorial said, "dollars can and must be found to send a team to America.

"From a publicity point alone, the team must go for it earned Australia publicity worth perhaps a million dollars in 1947," the newspaper said.

Australia lost the 1947 Davis Cup finals matches to the U. S. team at Forest Hills, four matches to one.

Bobby Riggs Evens Count With Kramer at Four All

ITHACA, N. Y. —(UP)— Bobby Riggs evened his trans-continental tennis series with his professional championship challenger, Jack Kramer, recently winning in straight sets, 6-1, 6-3.

17 Districts Set To Pick Games Wrestlers

CHICAGO—(UP)—B. R. Patterson, chairman of the Olympic Wrestling Committee, announced that 17 districts including Hawaii have been established to select candidates for the U. S. Olympic wrestling team.

Each district will hold tryouts between March 15 and April 15 to qualify two men in each of the eight weights, he said.

Agriculture Class Gaining in Popularity

A course in vocational agriculture is being offered in the George Washington High School this year. In succeeding years, the present course will be expanded to include a four-year course of study.

Thirteen students are enrolled in the introductory courses taught by Mr. Joaquin Guerrero, assistant director of the Department of Agriculture of the Naval Government, who is assisting the Department of Education in working out the course of study to be offered in vocational agriculture.

Thirty Years Service

Mr. Guerrero has been engaged in agricultural and educational work on Guam for more than thirty years. He is a graduate of the College of Agriculture and Forestry, University of the Philippines. He also specialized horticulture at the U. S. Experiment Station, Hawaii.

The beginning course includes a general survey of agriculture as a science and an introduction to the livestock production, with especial principles of successful crop and emphasis on crops and practices adapted to Guam. The course is offered as an elective to students enrolled in the high school.

Next year, a similar course will be offered to beginning students and a more advanced course will be added dealing with soils, conservation practices, crop production and insects. Poultry and animal husbandry will be emphasized the third year. In the fourth year, farm mechanics and applied agriculture will be featured.

A four-year course in agriculture has not been offered previously on Guam. Before the war the Root Agricultural School, organized in 1932, maintained in connection with the Agricultural Experiment Station at Piti offered a two-year course in vocational agriculture. Through the addition of agriculture to the curriculum of the George Washington High School, the students of Guam are being offered an opportunity comparable to that of many of the high schools in rural communities in the United States.

Short Class Periods

At present the short class periods, necessitated by the crowded conditions of the high school, do not afford sufficient time for desirable field trips and inspections for the agricultural students, but this need will be met by Saturday tours and inspections. At a future date, class periods will be increased to afford an opportunity for field and laboratory work.

AGRICULTURE CLASS—Mr. Joaquin Gurrero, (left) instructor, is explaining to the agriculture class at the George Washington high school some of the common types of foliage on a field trip around the school. This is the first year since the war that an agriculture class has been offered at the high school. (GUAM NEWS Photo)

French Girls All Right, American Girls - - Ooh, Lala!

HOLLYWOOD —(UP)— French girls are all right, a French actor said, but these American girls—ooh, lala.

"In America, girls have that talent to be more adorable," explained Roger Dann. Jaunty and well-built Parisan, who has a bit of the Maurice Chevalier about him.

"So sweet, so feminine, so shapely, such lovely legs," he rhapsodized about Americans.

"And so healthy," he added feelingly. "In France many girls try to look like the first strong hug will break every bone in their lovely bodies."

Dann came to Hollywood after a short session in New York bistros to play a romantic lead in Columbia's "The Crime Doctor's Gamble," opposite French Micheline Cheriel.

He learned the art of screen romancing in French pictures with Danielle Darrieux. It took constant practice, he added, on and off the screen.

The main difference between French and American girls is that the Americans are more forthright about love, he said.

"They don't waste time playing cat and mouse with a man like they do back in France," he said.

"This chasing after every good looking girl I don't like," he said. "It's not smart. You spend too much time chasing and too little time in knowing the girl."

"I used to miss the French girls, I'll admit, but the more I see of America the more I know that this is the land for a man with a discerning eye."

Streptomycim Valuable Ally Against T. B.

Rome, Ga. —(UP)— What is believed to be the first large-scale use of the earth mold drug streptomycin in the treatment of tubercular patients had proved successful and saved at least 33 persons who otherwise would have died, doctors reported here.

The physicians treated 435 patients at Battery State hospital here with the drug during a three-month "trial" period, there were no failures, according to hospital superintendent Dr. Rufus F. Payne.

First Treatment

"There were 40 patients considered far advanced cases—that is, utterly hopeless—when the treatment began."

Dr. Payne said the 33 "advanced" cases whose recovery was held hopeless before the drug was administered have "excellent" chances to get well. "That they are living today," he added, "is the greatest proof of the success of streptomycin."

He considers the wide-scale methods used here of great scientific as well as humanitarian value. For instance, Dr. Payne said Battery specialists have learned that the drug is of least value in chronic cases and that it is worthless in silicosis with tuberculosis complications.

Although he emphasized that results at Battery are not yet conclusive, Dr. Payne said best results so far have been obtained in bone tuberculosis, tuberculosis bronchitis, miningeal and military.

The wide-scale treatments at Battery were made possible through a fund-raising drive in which Georgians oversubscribed a $75,000 goal by $33,707.

Horn o' Plenty But Who Can Buy?

BRUSSELS —(UP)— Brussels would be one of the gayest and most prosperous cities in Europe today if it had not priced itself out of both. Its shops are as well stocked as those of any American city. Literally it is an oasis on a goods starved continent. But hordes of people do not come to shop. They can't afford it.

De Luxe Meals

Restaurants are serving de luxe meals. People can come here and gorge themselves on meat, butter, whipped cream and pastries—if they can afford it. An average meal for two in an average middle-class restaurant costs from $7 to $15, and in the better places from $20 to $35.

The reason is that all butter, fats and meat are rationed and to serve a decent meal, a restaurant owner had to go into the black market, paying about $3 a pound for butter and other foods accordingly. Rationed meals are at the subsistence level.

Cabarets Half Empty

The city is filled with cabarets. They provide champagne, floor shows and dancing. But they are half empty; even the smallest.

Champagne of good quality but ordinary vintage is more than $20 a bottle. Five bottles come to 5,000 francs—about $114. Scotch and cognac are $1.82 per 1½-ounce drink.

GUAM, M.I.—Corporal Gordon A. Hansen, of the 1st Provisional Marine Brigade's Combat Service Group, is caught by the cameraman kneeling beside his Dorberman-Pintzer Ming. The Pintzer, born of an American war dog in Chingwantao, China, will go to his new home in Racine, Wisconsin sometime in May after serving two and a half years in China and nearly a year on Guam as a Marine mascot. Ming was also trained to be a war dog, but the war ended before he could put his training in use. (USMC Photo)

He's 127 Years Old

CARROLTON, Ala. (UP)—Alfred Crimm, Pickens County Negro, doesn't know how old he is, but said his "white folks" told him he is 127.

He was a slave before the War Between the States. He recently broke into the news when a doctor was called for him for the first time in his life.

Crimm has a 78-year-old son. At the age of 80, Crimm cut three new teeth. Several years ago his eyesight became dim. Recently his sight returned. He threw away his glasses and said he could see as well as he could in his youth.

The greatest potential yield of low-grade copper in the United States has been discovered in the Seven Devils country of Idaho.

Higher Pay for Armed Forces?

WASHINGTON —(UP)— Defense Secretary James Forrestal has appointed a committee to study proposed pay increases and adjustments for the Armed Services.

Army records show that the last pay raise for the Armed Forces occurred in July, 1946. The raises ranged from 50 per cent for privates to 10 per cent for generals.

In June, 1942, the pay of a private was raised from $30 to $50, and there were corresponding increases up through the enlisted ranks.

There was a cost of living raise for the Armed Services in 1920, but it was revoked in 1922. The last permanent raise was a blanket 20 per cent raise for officers and enlisted men in 1908.

Army enlistments have fallen off steadily for the past year, and the Army is approximately 100,000 men below authorized strength. Personnel officers believe a pay raise would improve recruiting.

Volume Discount For Advertising

On 1 January, 1948, the following volume discount rates for advertising were effective:

Inches Per Month	Discount Deductible Per Inch
Under 50 in.	$.02
50	.04
100	.06
200	.07
300	.09
500	.10
750	.12
1000	.13
1250	.15
1500	.16
2000	.18

The volume discount is deductible if payment is made on or before the 10th of the month immediately following that in which the advertising ran, and if previous are paid.

Over The Joepot

by Bill Jury

They say the long-dormant Detroit Loins have been purchased for $250,000. That's a lot of crinkly stuff for a cellar-dwelling club and also a good indication of how far professional football has come since the early years of the game.

In 1920 the first professional loop in the nation came upon the sporting scene under the title "United States Professional Football Association." A year later the infant league took on a new name, the "National Football League," but that was about all they took on as they barely managed to keep the pro circuit going. A far cry from the $250,000 the Lions received a couple of days ago, franchises were selling for as low as 50 bucks in the staggering play-for-pay loop. Customers were about as scarce as outdoor hockey on the fourth of July.

As late as 1927 the progress of the pro game had been so feeble that there were only 80 paying customers at a New York Giants-Chi Bears contest. Barely enough to support the popcorn vendors.

A couple of years before, Tim Mara bought the Giants for a skimpy two and a half grand. Today his club is valued at a million bucks.

The difference was the acquisition of college players. After a time Pacific Coast and other far West players started to join to give "class" to the struggling circuit and eventually the Easterners hooked up with the pro football band wagon. College stars like Sammy Baugh, Don Hutson, Davey O'Brien, Whizzer White, Red Grange, Bronko Nagurski, Ernie Nevers and Cal Hubbard brought paying customers swarming to the gates on Sunday afternoons. The NFL was established.

That'll give you an inkling of why there is considerable hard feeling toward the newly formed All-America Conference. That was a tough climb for the old timers in the NFL. On the other hand the junior league, the upstart AAC, had an easy go of it ..... "Mickey" McBride, the Cleveland Browns' sugar daddy, scraped up around $280,000 for the Cleveland Browns' welfare before he even bought a season ticket.

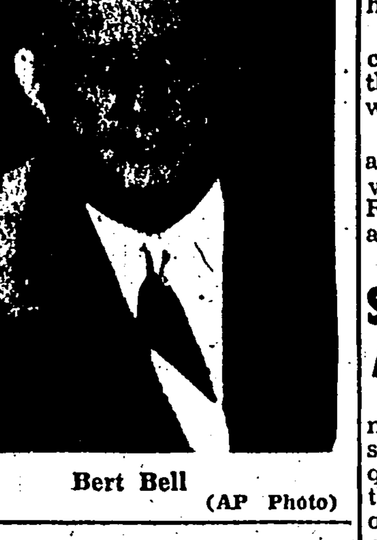
With a seemingly endless bank account the AAC has obtained the Otto Grahams, Buddy Youngs, Frankie Alberts and other cracker-box creams of the crop that might otherwise have gone toward building the NFL teams up. There's bitterness between the two loops. Especially with the long established National Football Leaguers. It would be to the AAC's advantage to get together with NFL in a championship playoff at the end of the season, but the old timers won't consider it. For a few more years, anyhow.

Dunno, maybe they've got a right to ride along solo for a while and enjoy the prestige that's coming there way after so long. That was quite a climb from 1920 to the prosperous "forties."

National Football League Settles Four Problems at New York Meeting

NEW YORK, Jan. 18 —(UP)— The National Football League today presented a common draft with the rival All-America Conference, tabled the franchise application of the San Francisco Clippers, adopted the the minor rule changes recommended by its coaches and empowered Commissioner Bert Bell to draw up the 1948 and subsequent schedules.

The club owners voted to open the 1948 season on Sept. 26 and close it with the championship game Dec. 19, but when they were unable to arrange the slate after 36 hours of wrangling, they voted Bell the power not only to draw up the schedule for the coming season but for subsequent years as long as he is commissioner.



Bert Bell (AP Photo)

The common draft proposal did not even come to a vote. General Manager Al Ennis of the Philadelphia Eagles, acting for Owner Alexis Thompson, who is bob-sledding in Europe, moved that the NFL constitution be amended to permit the common draft with the AAC, but there was no second, so the proposal lost out.

The Clipper bid will be given preference if the league decides to expand in 1949.

The owners unanimously adopted the eight minor rule changes suggested by the coaches. The most important of them outlawed the plastic headgear, clarified the clipping penalty violation, limited the height of artificial tees for kickoffs to three inches and retained the fifth official.

Bing to Hold Pro-Am Again This Year

DEL MONTE, Cal. —(UP)— Peter Hay, a giant Scotsman who as Pebble Beach pro serves as major-domo at all golf tournaments here, asked the assembled golfers if they wanted Bing Crosby to hold his popular pro-amateur tournament here again this year.

The crowd thundered a rioutous "Yes."

"Well," said Peter, "Bing hasn't said yet."

He turned to the singer, "what is it, Bing—Yes or No?"

Bing rolled his tongue around both cheeks, looked at the menacing array of links talent in the audience and said meekly:

"Yes."

Lavern Roach Wins By Unanimous Decision Over Tony Janiro in Garden Debut

NEW YORK, Jan. 17 —(UP)— Young Lavern Roach, ex-Marine from Plainview, Tex., smashed into the big time tonight by out-boxing and outpunching Tony Janiro, middleweight from Youngstown, O., to win the unanimous decision before 11,924 at Madison Square Garden.

Roach, "pride of the Marines" who was making his Garden debut, had gone into the ring an underdog at 5 to 6-½ in the betting because he was facing a supposedly faster, smarter and more experienced opponent.

But the fans were surprised to see the 21-year-old Texas kid show more skill, speed and punch than his baby-faced 21-year-old opponent from Youngstown.

Referee Arthur Donovan gave Janiro only one round and Roach nine. Judges Arthur Eusskind and Harold Barnes voted in unison, each scoring seven rounds for Roach and three for Tony.

The United Press scored eight for the Texan, one for Janiro and one even.

Roach's showing tonight demonstrated impressively that he is a candidate who must be reckoned with in the competition for Rocky Graziano's middleweight crown; for Lavern defeated a lad who was fighting his 10th Garden main event —a lad who has been fighting big-timers for the past three years.

The well-built, dark-haired handsome Texan tagged Janiro with his fifth defeat in 68 professional bouts and it was one of the most lopsided defeats in Tony's remarkable career.

From early in the first round when one of Lavern's solid left jabs brought a free flow of blood from Janiro's nose, it was apparent that the ex-Marine had "the situation well in hand."

Thompson Gym Condemned; Cage Game Postponed

RALEIGH, N. C., Jan. 18 —(UP) —The city building inspector today tacked a "condemned" sign on Frank Thompson Gymnasium at North Carolina State College and the high-flying Wolfpack postponed a scheduled Southern Conference basketball game with Duke tonight.

Coach Everett Case said he was "flabbergasted" by the comdemnation, which quickly followed a warning from State Insurance Commissioner William P. Hodges that the gym was a "fire hazard" for more than 1,200 spectators.

Case said some 4,000 tickets had been sold for tonight's game, fourth of eight home contests and State's first tussle this season against a "Big Four" foe.

John H. von Glahn, State College athletic director, said the game would be played later in the season and tonight's tickets would be honored then.

von Glahn said the school would try to provide more fire exits at the gym or move the remaining home games to Raleigh Memorial Auditorium, former site of the Southern Conference basketball tournament.

The Raleigh fire department cancelled a crucial game between North Carolina and State last year when students knocked down the doors, which had been closed to prevent overcrowding and packed the gym.

Lujack, Halas Deny Rumors Of Signing

SOUTH BEND, Ind., Jan. 18 —(UP)— Both Johnny Lujack, Notre Dame's All-America quarterback and George Halas, owner-coach of the Chicago Bears of the National Professional Football League, denied today that the 22-year-old star passer had signed a contract with the Bears.

Halas said that he would "get a great big bang out of it," if published reports of a three-year, $54,000 contract were true because he "knew nothing about it."

Lujack said that he had talked to Halas by telephone, "but we never had a real conference."

"We have an appointment for a conference Jan. 21 in Chicago," Lujack added.

Lujack said that he definitely would play professional football but had not decided on a team.

Draft rights to Lujack are held by the Bears in the National League and by the All-America Conference Chicago Rockets, which are now being reorganized.

Dixie Walker, Pirates Agree Quickly

PITTSBURGH, Jan. 18 —(UP)— Outfielder Dixie Walker took only two minutes today to come to terms with his new bosses, the Pittsburgh Pirates for a reported $25,000 a year salary, the highest ever paid the 37-year-old former Dodger.

Arriving in Pittsburgh this afternoon, Walker went into an immediate huddle with General manager Roy Hamey and emerged a full-fledged Pirate.

Fans' Favorite

Walker, for nine years a favorite of Ebbets Field fans, approached his age problem realistically.

"I know I'm not a fellow they can bank on for too long, but I think I have some baseball left and will give them my best."

Thus, Walker joined Brooklyn alumni on the Pittsburgh club which includes Kirby Higbe, Stan Rojek, Ed Stevens, Vic Lombardi and Hal Gregg.

Sports Eds Right About Backfield

NEW YORK —(UP)— P. T. Barnum must have had the nation's sports editors in mind when he quipped that you can fool some of the people some of the time, most of the people most of the time but can't fool all of the people all of the time.

About six weeks ago the sports editors picked the annual UP All America football team with a backfield composed of Johnny Lujack of Notre Dame, Michigan's Bob Chappuis, Bobby Layne of Texas and Doak Walker of SMU.

Some Discussion

There was some discussion about whether Alabama's Harry Gilmer shouldn't have had one of those four spots but the bowl games came up with a pretty conclusive answer. Layne put Gilmer in a deep shade as the big four were the day's standouts.

So when you kid your sports editors about being "experts," you better smile as you say it.

Faurot Possible Navy Coach

CLEVELAND, Jan. 18 —(UP)— The Cleveland Press said today that Don Faurot of the University of Missouri was in line for the head football coaching berth at the United States Naval Academy.

The Press said it learned that the Navy Athletic Board "definitely is interested" in Faurot. Faurot, however, said he had not been "officially approached" in connection with the berth.

Agree to Grid Game

RENO, Nev. —(UP)— University of Nevada Graduate Manager Joe T. McDonnell confirmed signing a contract with Santa Clara University officials to play a football game Nov. 7 in Charles C. Hughes Memorial Stadium at Sacramento.

$315,000 Suit Filed Against PGA, Golf Club

MARTINEZ, Calif., Jan. 18 —(UP)— Damage suits totaling $315,000 were filed today in Contra Costa Superior Court against the Professional Golfers' Association and the Richmond Golf Club by three Negro golfers who [illegible] mond Open Tournament.

The golfers' attorney, John Rowell of San Francisco, based his suit on a claim that the PGA is "closed shop," which under the Taft-Hartley law is illegal.

The golfers are Bill Spiller of Los Angeles, Joe Louis' golf instructor; Ted Rhodes, also of Los Angeles and Madison Gunter of San Francisco.

Each of the golfers sued the PGA for $100,000 and the Richmond Club for $5,000.

Chinese Demonstrate Before Americans, British Consulate

SHANGHAI, Jan. 18 —(UP)— A howling, jeering crowd of Chinese demonstrated for two and a half hours in front of the British consulate today in the second protest in 48 hours against evictions of Chinese at Kowloon, and was prevented from hauling down the British flag by 300 police armed with rifles, machine guns and bayonets.

A crowd of five thousand students, a few hundred workers and thousands of onlookers at first protested the evictions of Chinese residents from Kowloon City near Hongkong. As they milled about in front of the consulate, they also demanded the return of Hongkong and Kowloon to Chinese sovereignty, end of British imperialism and the withdrawal of American forces from China.

The crowd surged between the consulate and the Glenline building less than a block away, used as U. S. Navy headquarters. The demonstrators smeared the signs of British firms, and painted the sides of American Naval vessels with, "Go home, you dirty forces." Most of the emphasis, though, was directed against the consulate.

Navy to Hold Maneuvers In Atlantic, Caribbean

WASHINGTON, Jan. 18 —(UP)— The Navy was getting set tonight for one of its biggest shows of the year—six weeks of winter maneuvers in the western Atlantic and Caribbean.

The second task force of the Atlantic fleet is scheduled to arrive in the area Feb. 9 with 16,000 Navy men and Marines aboard 28 ships, plus smaller craft, and a contingent of more than 300 planes.

The maneuvers will feature an amphibious landing and "attack" in the Vieques-Culebra area, east of Puerto Rico, on Feb. 17.

Leading the task force will be two light aircraft carriers, the 27,000-ton Leyte and the Philippine Sea, with more than 80 planes each. They will be supported by three light cruisers, the Dayton, Fresno and Manchester; 15 destroyers, three submarines, three amphibious force flagships, several attack transports and numerous small craft, including landing craft.

The Navy and Marines will each have around 100 shore-based planes operating from bases as far away as Atlantic City, N. J. The Navy said around 1,000 Marines from the crack second division, Camp Lejeune, N. C., will board transports, the aircraft carriers and the cruisers to take part in the amphibious landing.

The Marines already have sent tanks, jeeps, bulldozers, and crates of mock ammunition to the area.

—March of Dimes—

Dewey Slated for Presidential Race

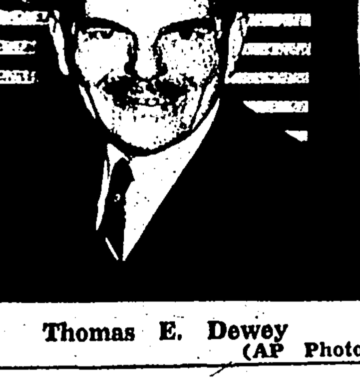
ALBANY, N. Y., Jan. 18 —(UP)— Gov. Thomas E. Dewey brought his candidacy for the 1948 Republican presidential nomination into the open yesterday. He authorized a statement that he would not conduct an active campaign just now but that, if nominated, he would accept.

Dewey, who polled more than 22,000,000 votes as the GOP candidate but lost to the late Franklin D. Roosevelt in 1944, long has been accepted as one of the top Republican presidential aspirants and the only surprise in the announcement was that he chose this time for announcement that he was definitely in the race.

Although he made an extensive trip through the West last summer in the apparent job of renewing Republican contacts, his strategy heretofore had been one of devoting himself entirely to his job as New York's chief executive and sidestepping a direct answer to questions as to whether he would seek the nomination again this year.

The tossing of Gov. Thomas E. Dewey's hat into the 1948 GOP presidential ring has cleared the way for a battle royal in the Republican national convention next June that might permit a dark horse candidate to win the nomination as Wendell Willkie did in 1940.

—Buy Savings Bonds—



Thomas E. Dewey (AP Photo)

HQ. 46TH FIGHTER WING — Memorial services were held Wednesday, Jan. 14, at 11 o'clock at the Northwest Air Base chapel for the late 1st Lt. Carl W. Clough. The deceased's craft crashed on the beach near Northwest Field, Jan. 8, as a forced landing was attempted which resulted in death to the pilot.

Bill Introduced To Prepare A.F. For Atomic War

WASHINGTON, Jan. 18 —(UP)— A bill authorizing $4,000,080,000 to prepare the U. S. Air Force for atomic war was introduced yesterday by Sen. Edwin C. Johnson (D-Col.) which would implement the recommendations of President Truman's Air Policy Commission which urged expansion of the Air Force from its present 55 groups to 70 by Jan. 1, 1950.

Johnson's bill, titled Air Force Development Act of 1948, would authorize $2,000,000,000 in each of the 1949 and 1950 fiscal years.

The Air Policy Commission recommended that expenditures be increased by $1,300,000,000 in calendar 1948 above the current rate and by 2,600,000,000 in, calendar 1949 above the current rate.

Borrowing from the commission's report, the preamble of Johnson's bill said it would "involve unreasonable risk and would recklessly imperil our national security" to assume that other nations will not have atomic weapons in quanity by the end of 1952.

Oregon to Place Ike's Name On Primary

PORTLAND, Jan. 18 —(UP)— —Gen. Dwight D. Eisenhower's name will be placed on the Oregon May Republican preferential primary ballot, an early proving ground in the west for presidential candidates.

Peter Alport, public relations director for the "Draft Eisenhower" organization in Oregon announced today that his group will "most certainly put the name of General Eisenhower on the ballot."

Oregon's preferential ballot on May 21 will be the earliest in the West. Already the name of Gov. Thomas E. Dewey, of New York has been filed. GOP supporters of Sen. Robert Taft, Ohio, Harold E. Stassen and possibly Arthur Vandenburg will file the names of their candidates before March 12, when the books close.

Truman Orders Fuel Consumption To Wartime Basis

WASHINGTON, Jan. 18 —(UP)— President Truman today ordered the government back on a wartime basis in its use of scarce fuel oil, gasoline and natural gas.

His action followed an administration plea earlier in the week for a 15 per cent reduction in fuel consumption by all Americans.

The President ordered every government department and agency to cut down "immediately" on the use of those fuels. He issued a set of rules comparable to the fuel conservation measures invoked by the government in a nationwide basis during the war.

For example, he ordered that government-owned office buildings and residential quarters, including the White House, shall not be heated above 68 degrees during the daytime and 60 degrees at night [illegible] tempt to cut down government use of petroleum products in the face of a critical shortage which threatened to become worse as winter tightened its grip on the nation.

—March of Dimes—

End of Hunger Strike Foreseen

BERLIN, Jan. 18 —(UP)— A 24-hour hunger protest strike of 150,000 German workers in the Ruhr was scheduled to end today but high American and British officials expected industrial unrest would continue.

Gen. Lucius D. Clay said that sabotage against the western allies can be expected to increase as part of Communist attempts to scuttle the Marshall Plan and prevent organization of a strong western Germany.

"There has been sabotage and it will probably increase, but it cannot stop us," Clay said.

He disclosed he will make a report on the new economic government of western Germany to the four-power control council in Berlin at its meeting next Tuesday and then make a flying trip to Washington.

—March of Dimes—

Arabs Stage Ambush

JERUSALEM, Palestine, Jan. 18 —(UP)— The British Army disclosed today that Arabs ambushed 35 Jewish Haganah "troops" on a camel trail southeast of Jerusalem last night and killed them to the last man.

Tonight, a large Haganah "punitive expedition" attacked three Arab villages in the Hebron region, and reports here said they had vowed to kill two Arabs for every one of the 35 dead Jews. Reports from the sector said the Jews had them surrounded and were attacking viciously. British officials said seven Arabs were killed and eight wounded yesterday below Jerusalem ner Kefar Ezion in a battle with the Jews.

Weather Forecast

Partly cloudy with scattered showers in the afternoon and evening. Gentle southerly winds.

Yesterday's temperatures: Max. 86, Min. 78

Yesterday's rainfall: 0.04 inches

Rainfall for month: 6.10 inches

Housing Expediter Seeks Probe of Vet Swindlers

WASHINGTON, Jan. 18 —(UP)— Congress will be asked to finance a criminal prosecution drive against get-rich-quick operators who have cheated on the Veterans' Housing Program it was learned today.

Deputy housing expediter Morris Verner said he would ask Congress to provide funds for a six-month campaign against builders and money lenders who, he said, have cheated veterans "from one end of the country to the other."

"Now the situation is snow-balling," Verner said in an interview. "If we had about 350 men for six months I think we'd be able to clean it up."

He estimated that about 1,000,000 homes were built under the program which provided federal priorities on scarce materials for houses which the builder promised to sell or rent only to veterans.

Presidential Action May Delay Rail Strike

CHICAGO, Jan. 18 —(UP)— Official postponement of a nationwide railroad strike scheduled for Feb. 1 tonight awaited only the President's action in appointing a fact-finding committee to investigate the dispute between the carriers and three key operating brotherhoods.

Frank P. Douglass, chairman of a mediation board which was unable to settle the wage and working condition disagreement, said he would notify Mr. Truman that a national emergency exists as soon as he receives official notice of the strike date. The President then will appoint his board and the strike will be postponed for 60 days from that date.

Nation Mourns Editor

RALEIGH, N. C., Jan. 18 —(UP) Josephus Daniels, 85-year-old editor, former Secretary of the Navy and "Shirtsleeve Diplomat" was buried today in the red North Carolina earth he loved.

Many of the nation's great stood in a cold rain as the red clay tumbled into the grave of the editor of the Raleigh News and Observer who guided the Navy through eight years and the first World War, and who represented his nation nearly nine years in Mexico.

Ghandi Begs For Reunion Of India

NEW DELHI, India, Jan.18 —(UP) —Mohandas K. Ghandi told his followers today that he is on his deathbed, and in a feeble, faltering voice begged for a reunion of the independent dominions of Hindu [illegible] Moslem Pakistan.

Weakening rapidly in the fifth day of his fast "unto glorious death" to bring peace in the turbulent subcontinent, he was barely able to speak over a microphone for a few moments at his evening prayer meeting.

In it, he pleaded that Pakistan give up her new status and join India in a single state.

"If the people of Pakistan or responsible authorities do not run the state properly, they may lose Pakistan," the wizened, 78-year-old Hindu spiritual leader said. "I have no hesitation in saying that Pakistan will have to atone for its sins."

Pauley Resigning Government Posts

WASHINGTON, Jan. 18 —(UP)— Edwin W. Pauley, who is resigning as special assistant to Secretary of Army Kenneth C. Royall "sometime this month," also has submitted his resignation as advisor on reparations matters to Secretary of State George C. Marshall.

His letter of resignation has been forwarded to Marshall, it was learned tonight. Pauley asked that his resignation be effective Feb. 15.

Pauley's reparation job was on a no-salary basis. He receives $9,975 a year as special assistant to Royall.

The reparations job is the only other government position Pauley holds. Until last March he had been President Truman's chief advisor on reparations since April 27, 1945 — shortly before the German surrender.

—March of Dimes—

He Wasn't Looking

NEW YORK, Jan. 18 —(UP)— A real-estate man reported a property loss today. His building, he said, is missing.

Harry Bonuck told city officials his vanished property was a tall building, as buildings go. It was last seen six weeks ago standing on the corner of 71st Street, east of Metropolitan Ave., Forest Hills.

But the building isn't standing any more.

So he went down to take a look. Just a bare plot.

When he recovered he hotfooted it over to the Department of Housing and Buildings. No record of it, they said.

Assembly Line Houses Urged

WASHINGTON, Jan. 18 —(UP)— Sen. Ralph E. Flanders (R—Vt.), tonight called for assembly line production of low price homes to lick the high cost of housing.

He urged Congress' joint housing committee to continue its investigation of high profits in the building industry and "consider action to reduce them."

Flanders criticized the building industry for "chronic inadequacy" and said the government should aid manufacturers in big-scale production of low price homes.

"The house-building industry needs to be reorganized and put on a modern industrial basis," he said. "If Detroit built automobiles the way homes are built, most of us could afford neither cars nor housing."

The Vermont Republican made his recommendations in a 185-page report to the housing committee. He was a one-man subcommittee on high housing costs.

Climate Extremes Harass Nation

by United Press

Tennessee was smothered today under a heavy blanket of snow, California suffered a serious water shortage from an intense heat wave, and the midwest was promised relief from a severe cold snap that was eating up the nation's critically short supply of heating gas and oil.

Memphis, where snow is a rare event, was buried today under a 12-inch fall, and rural areas of western Tennessee reported even more snow on the ground.

The Chicago weather bureau promised that temperatures would warm up throughout the midwest beginning tomorrow. Until then, however, the mercury was due to stay near zero with the intense cold continuing to eat up oil and gas which was being rationed in many communities.

A disastrous drought developed in southern California which has been burned by a mid-winter heat wave for the past week. Yesterday's 81 degrees in Los Angeles was the sixth straight day above 80. No rain has fallen this year.

NEW YORK, Jan. 18—(UP)— America's "task fleet" in the Mediterranean is now as large as it was during the war, it was revealed today by Adm. Richard L. Connolly, commander of the Eastern Atlantic and Mediterranean fleet.

Connolly arrived at La Guardia airport enroute to Washington where he will report to Adm. Louis E. Denfeld, Chief of Naval Operations.

"We have the same size task fleet as during the war," the Admiral said.

Chinese Report Sakhalin Militarized

SHANGHAI, Jan. 18 —(UP)— Chinese repatriates from Sakhalin Island said today the Russians have turned the former Japanese possession into a huge military base manned by 400,000 troops.

Sakhalin is across the Soya Strait from the northern Japanese home island of Hokkaido. The southern half formerly was Japanese and the northern half Russian.

The repatriates held high feelings against the Russians. They said they were forced to work in slave camps and that some of their number were executed for infractions of rigid behavior rules.

Ty-Annabella Split

HOLLYWOOD, Jan. 18 —(UP)— Annabella, blonde French-born movie star, today charged actor Tyrone Power with desertion and sued for divorce to end what once was believed one of Hollywood's happiest marriages.

The French actress said Power caused her "extreme mental anguish" with demands for freedom.

Guam Institutes 11 Postal Stations

AGANA—Post offices were established in 11 villages on Guam last Friday. These postal units will operate with facilities for the transaction of money orders, registry, parcel post business and the sale of postal supplies.

The Post Office Department, Washington, D.C., has designated the Guam Bus Lines as temporary messenger for the conveyance of the mails between the post office at Agana and these contracts stations. One round trip will be made daily except Sundays and holidays. Each station will promulgate its own regular business hours.

All residents in towns where such post office stations are located and all others living in nearby areas are urged to use the facilities that are now being offered.

Following are the villages where post offices were established and the person in charge of the station: AGAT, Jose S. Rivera; BARRIGADA, Vicente R. Palomo; DEDEDO, Manuel F. Ulloa; INARAJAN, Ana L.G. Quinata; MERIZO, Manuel T. Charfauros; SANTA RITA, Jose M. Cruz; SINAJANA, John Cepeda; TALOFOFO, Rosa A. Quitugua; UMATAC, Agnes S. Quinata; YIGO, Maria S. Calvo; and YONA, Mariana L.G. Lujan.

MarBo to Get Cars

MARBO—The Central Post Exchange announced today that 84 cars are due to arrive on Guam during February and 122 in March.

February shipments will include Buicks, Chevrolets, Pontiacs and Oldsmobiles. March will bring more of the same plus Fords and Mercuries.

Amateur Gardener Invents New Tree

TWIN FALLS, Idaho (U.P.)—Five different kinds of fruit grow on one tree in the back-yard orchard of a Twin Falls gardener, H. S. Post, whose hobby of amateur gardening and orchard work has led him to "invent" a new tree.

One tree produces peaches, apricots, prunes, plums and nectarines. Another supplies three different kinds of cherries and another bears six separate varieties of prunes.

Post says, "It's just simple grafting which anyone can do."

The Idaho farmer's ingenuity has transformed the few square yards in back of his house into an orchard bearing 30 different kinds of fruit plus a large assortment of flowers and vegetables.

Besides his "combination" trees, Post has succeeded in raising trees which ordinarily don't grow in Idaho. He has pecan, filbert, almond, English walnut and a persimmon tree.

It may take years for the person seriously crippled by polio to regain the greatest possible use of his body. Some times surgery is necessary. Local chapters often help pay the expenses for such cases for many year. Chapters cannot provide aid for crippling caused by anything but polio.

Marine Lt. Col. Theodore M. Sheffield, left, commanding officer of the 5th Marines, is shown congratulating Pfc. John G. Peterkin, center, after presenting him with the Purple Heart Medal in a recent ceremony held at the 1st Provisional Marine Brigade. The medal was presented to Peterkin for a wound received by him near Hsin-Ho, China, on April 5, 1947, when the Naval ammunition dump at Hsin-Ho was raided by dissident Chinese. Colonel Sheffield also presented Staff Sergeant Lawrence K. Sepolveda, right, with the warrent promoting him to that rank. (USMC Photo)

Modern Brass Hats Luxuriate in Air

BURBANK, Cal. (U.P.)—Many big business executives are using luxurious private planes now instead of the private railroad cars of other days.

A reasonable attempt has been made to transfer some of the comforts of the private car to its air successor.

Military aircraft which not many months ago were ferrying brass hats and bombs to the far corners of the Pacific are being converted at the Lockheed Aircraft Service base here into club cars for corporation officials. Bucket seats and bomb bays have given way to collapsible ottomans, bars and wardrobes. Interiors once stripped for action are now parallel in limed oak and furnished with curtains, upholstery and carpeting.

Plushiest of the sky offices converted to date is a Lodestar which boasts a stainless steel galley, swivel passenger chairs, collapsible ottomans, gold-plated ashtrays and glass holders, bar, folding tables, table lamps, cabinets, lavatory and wardrobe. The interior woodwork is all in limed oak and upholstery and carpets are of the finest quality.

Russia Makes Demands at Council Meeting

BERLIN, Jan. 21 —(UP)— Russian Marshal Vassily Solokovsky demanded at a meeting of the allied control council today that the United States and Great Britain cancel their agreement to set up a German governmental regime in their economically merged occupation zones.

But the Russians backed down from their implied threat to try to oust the United States and Great Britain from Berlin. They said that the threat was not officially inspired. As the result the western allies won a clear-cut victory in a 10-day nerve war which threatened to cause a crisis in Russian-American relations here.

Both Solokovsky's statement demanding cancellation of the merger and the disavowal of the ouster threat were belived to have been approved by the Kremlin in Moscow.

Today's developments eased political tension here for the moment but the strike situation in the western zones—where Communists seek to capitalize on unrest due to bad food conditions—grew steadily more serious.

Telephone communication of United States Army headquarters in Frankfurt was cut off today when 50 German telephone girls went on a one-hour sit-down strike.

Seven thousand workers walked out at Wiesbaden-Biebrich in the American zone, making a total of 9,000 idle there.

Weather Forecast

Partly cloudy with scattered moderate showers. Winds moderate easterly with occasional strong gusts.

Yesterday's temperatures: Max. 84; Min. 76.

Yesterday's rainfall: 0.06.

Rainfall for month: 7.31.

Third Cold Wave Sweeps Across Central States

CHICAGO, Jan. 21 —(UP)— The third cold wave in a week swept across the north central states today, ending hopes for respite from icy weather covering most of the nation.

The new cold front is less severe, forecasters, said, but it is accompanied by high winds and swirling snow which reached near blizzard conditions in eastern Minnesota.

It brought further hardships to communities trying to stretch dwindling fuel oil supplies and probably will boost to well over 100 the number of deaths attributed to the weather since the first of the cold fronts swept out of Canada last week.

Deaths attributed directly or indirectly to the cold totaled 87 today. Fifteen persons froze to death in eight states, two died of overexertion in sub-zero temperatures and another died of exposure. At least 69 died in fires caused by overheated stoves and furnaces.

The latest death was that of an infant born in an automobile at Cumberland, Md. Doctors said the child, son of Mr. and Mrs. Carl D. Bays, died of exposure to the cold a few minutes after he was born.

U. S. Weather Forecasters said that the new cold front, blowing across the Dakotas, Minnesota and Wisconsin, would hit Chicago during the night and send the temperature down to zero. They said it would move eastward tomorrow, fanning out over the Ohio river valley.

—March of Dimes—

Gen. Kuter Rejected

WASHINGTON, Jan. 21 —(UP)— Rejecting an extraordinary series of Presidential appeals, the Senate Armed Services Committee today refused for the second time to permit Maj. Gen. Laurence S. Kuter to become chairman of the Civil Aeronautics Board while keeping his Air Force rank and pay.

President Truman was handed the news shortly after he accepted the resignation of Harlee Branch, third member of the five-man aviation board to quit in recent weeks. None of the vacancies has been filled, and the President told the Senate committee at an annual House meeting yesterday that he has tried in vain to find qualified civilians for the posts.

The committee, however, voted unanimously to stand fast on its final decision which blocked the Kuter appointment on the grounds that too many military men already have been put in civilian posts.

House Republicans Endorse Knutson Income Tax Plan

WASHINGTON, Jan. 21 —(UP)— House Republican leaders today endorsed the $5,600,000,000 Knutson general income tax cut plan, and agreed to put it to a House vote as soon as possible.

The program, which Secretary of the Treasury John W. Snyder claims would cost $6,300,000,000 in federal revenue and pose a serious threat to the nation's "financial integrity," will be put in final form Thursday by the tax-drafting Ways and Means Committee.

Rep. Harold Knutson, (R-Minn.,) chairman of that group announced the decision of GOP leaders after a meeting of the house steering committee in the office of Speaker Joseph W. Martin, Jr., of Massachusetts.

The Republicans said flatly that there was no chance for approval of President Truman's counter proposal to grant $40 "cost-of-living" tax credits to everybody and offset the revenue loss with a 75 per cent excess profits tax on big corporations.

House Democratic Leader Sam Rayburn of Texas countered that the Republican bill "as it is, never will become law and I think the Republicans know it."

GOP leaders took up the cry of their party's national chairman, Carroll Reece, that Mr. Truman's plan "is as phony as a forty dollar bill."

Attempt to Kill Gandhi Fails

NEW DELHI, India, Jan. 21 —(UP)— A small bomb exploded on top of Mohandas Gandhi's garden wall today but the Hindu leader escaped unhurt in this apparent attempt on his life.

Nine persons were injured. Gandhi was conducting an evening prayer meeting at the time.

Police nabbed a young Hindu fanatic and began to question him. They believed he belonged to an extremist Hindu faith.

Gandhi probably owed his life to an old white-haired woman who began to scream when she saw the suspect light a fuse. Police said the assassin, frightened by the alarm, set off the bomb too soon. Also aroused, a burly houseguard and a Royal Air Force man seized the Hindu and turned him over to police.

Gandhi had just finished a brief speech when the explosion occurred. Smoke spiraled from the 15-foot wall surrounding Gandhi's villa. The frail spiritual leader exhorted his listeners to remain quiet.

Four Jewish Police Killed

JERUSALEM, Palestine, Jan. 21 —(UP)— Four Jewish settlement police were killed and six wounded today when Arabs coming from the direction of the Lebanese frontier ambushed an armored car near Yahiaam in northern Palestine, official advices said tonight.

Two British policemen who went to the aid of the Jewish police were slightly wounded.

The Arabs and the Jewish, then the Jewish and British police fought a brisk battle at the scene, where the Arabs had erected a road block.

Yahiaam is about 10 miles east of Acre and 12 and one half miles south of the Lebanese frontier, where both Palestine and other Arabs are in training to fight the partition of the Holy Land.

Advices said also that British troops dismantled the Jisr Banat Jacoub Bridge-the bridge of Jacob's daughter-on the Syria-Palestine frontier because of reports of continued Arab infiltration. Jews of the Haganah organization dynamited the bridge Jan. 12 after an attack by Palestine Arabs from across the border.

—Buy Savings Bonds—

Republican Rally

WASHINGTON, Jan. 21 —(UP)— The Republican party laid down a campaign today to raise $4,000,000 to defeat President Truman and all Democratic congressmen in November.

Even as the program was announced the Democrats countered with a news conference at which Railroad Labor Leader A. F. Whitney who threatened two years ago to "raise millions" to defeat the chief executive, predicted that "Mr. Truman will win."

Whitney, president of the Brotherhood of Railroad Trainmen, visited the President earlier in the day and completely "patched up" the feud that began in May, 1946, when Mr. Truman broke a nationwide railroad strike.

Commons Approves Royal Raise

LONDON, Jan. 21 —(UP)— Left-wing laborites rallied today against the government's plan to give Princess Elizabeth and her husband the Duke of Edinburgh an allowance of $200,000 a year but Commons approved the bill, 294 to 17.

The Labor rebels demanded that the royal newlyweds be put on an expense account and that Philip shift from the Royal Navy to a South Wales coal mine for pick and shovel work.

But only 15 laborites and two Communists voted against the bill, which would increase Elizabeth's allowance from $60,000 to $100,000 annually and allot Philip $40,000 a year.

This was the second reading and the bill passed on to the committee stage, where the rebels promised to continue a futile fight.

Three rebel laborites—Ronald Chamberlin, Emrys Hughes and John McGovern—led the assault.

"It's a bad thing to have both too much money and too much time on one's hands," McGovern said. "The government has a mandate to modify the effects of capitalism and the privileges of the privileged section of the community."

"The education of the Princess should give her better understanding of the lives of the common people of this country. There would be nothing undignified if she were to take her place in queues along with other people."

As for Philip, he would be better off in the coal mines, Hughes added.

Pauley Records Bared

WASHINGTON, Jan. 21 —(UP)— Records in which Edwin W. Pauley disclosed and defended heavy commodity trading after he became a government official were made public today by senate investigators. The investigators admitted that Pauley's chief critic, GOP presidential aspirant Harold E. Stassen, had already had a private peek at parts of the report.

Chairman Homer Ferguson, (R-Mich.,) of the Senate Appropriations subcommittee, released the detailed trading record and letter of explanation which Pauley, special assistant to the Secretary of Army, filed with the senators Jan. 3. It contained some data on which Stassen had based public charges that Pauley, as a government "insider," made almost a million in market trading.

Pauley said in the documents that he honestly and honorably "made" a profit of $832,703.10 in trading between July 17, 1944 and Dec. 31, 1947. He also revealed that he bought 250,000 bushels of wheat as well as the same amount of cotton, corn, oats, lard and hides after he got his Army job on Sept. 3.

Royall Says Western Europe in No Danger

WASHINGTON, Jan. 21 —(UP)— Secretary of the Army Kenneth C. Royall said there is no "imminent" danger of anyone launching a military attack on the western European nations that have agreed to cooperate with the United States in the Marshall plan, he said today.

He mentioned to the House Foreign Affairs Committee that someone—he refrained carefully from saying Communists or Russians—might try "political aggression" in western Europe. He predicted that Germany certainly would go Communist if American troops were withdrawn.

Kenneth C. Royall (AP Photo)

He testified in support of the Marshall plan after John Foster Dulles, Republican foreign policy expert, warned the Senate Foreign Relations Committee that the cost of rearming America for another war would make the $17,000,000,000 European aid program look like "a bag of peanuts."

Dulles said he was all for the Marshall plan, but it would fail unless accompanied by measures to rebuild western Germany.

Royall made his statement in response to a question by Rep. Frances E. Bolton, (R.—O.,) who said she had heard "distrubing reports" that Communists were planning something more than political action to block the Marshall plan.

"In my opinion, there is no imminence of military aggression in western Europe," he replied.

"My judgment is that there is no prospect of anything except political aggression in Europe."

Asked what would happen if the United States pulled out of Europe altogether, he said.

"It would at least move the political frontier from eastern Europe to the east coast of the United States or somewhere in the Atlantic ocean."

—March of Dimes—

Army Officers To Advise Units Of Greek Army

ATHENS, Greece, Jan. 21 —(UP) Nineteen U. S. Army officers left by air for Greece's northern battlefronts today and will advise units of the Greek army in their campaign against the guerrillas of Gen. Markos Vafiades.

The officers, whose scheduled departure yesterday was postponed by bad weather, left to join corps headquarters at Volos, Larissa and Salonika, key government centers in northern and eastern Greece. Five of the officers are expected to be sent on to divisional headquarters within a few days, but it may be as long as two weeks before transportation can be arranged.

Officials said communication between corps and division headquarters were very difficult at present because of winter weather.

The U. S. officers are the vanguard of about 80 Americans who will join Greek units as advisers. Twenty-three others arrived in Athens today.

A renewed outbreak of fighting in southern and central Greece was reported as the 19 officers departed to begin their field duties.

The south Greek fighting reportedly centered near Platanos, where more than 500 were said to have been killed yesterday, and at Lidoriki, west of Amphissa, where a force of 1,000 guerrillas reportedly was driven off after a three-hour battle with the town's defenders.

In central Greece, the ministry of public order said 300 guerrillas attacked Goura and three other villages near Corinth.

Security Council Sets up Three Nation Group

LAKE SUCCESS, N. Y., Jan. 21 —(UP)— The United Nations Security Council today set up a three-nation commission to mediate the Indian-Pakistan fight over the state of Kashmir.

The plan was adopted by a vote of 9 to 0, with Russia and the Ukraine abstaining but on technical grounds.

Action came less than three hours after the council was informed officially that India and Pakistan would accept mediation.

Another UN group, however, reportedly agreed informally that only force could keep peace in another part of the world—Palestine.

General Understanding

The UN Palestine Commission, meeting behind closed doors, was said to have reached a general understanding that some kind of international army would be desireable to enforce the partition of Palestine. Today's discussion concentrated on the basis on which the troops should be requested.

No member of the five-nation commission challenged the apparent feeling that armed backing should be asked. The commission decided to act tomorrow on a formal resolution that would open the way for the Security Council to try to mobilize troops to send to the Holy Land.

SANTIAGO, Chile, Jan. 21 —(UP)— The bodies of 48 shipwreck victims have been recovered from the swift waters of the Imperial river, leaving about 100 persons still unaccounted for in the wreck last night of the riverboat Cautin, the chief of rescue operations reported today.

Gov. Wright Criticizes

JACKSON, Miss., Jan. 21 —(UP) Gov. Fielding L. Wright criticized high-ranking national Democrats, including President Truman, for sponsoring "anti-southern" legislation today and said Mississippi Democrats might secede from the party.

Wright began a new term as governor with an inaugural speech devoted in large part to a sharp rebuke of the President, his special committee on civil liberties, and national Democratic leaders.

The governor singled out the "anti-southern" measures that were fought by the late Rep. Theodore G. Bilbo. They are, he said, "such infamous proposals as the anti-lynching legislation, anti-poll tax bills and now the anti-segregation proposals."

Southern Governors to Discuss Education Facilities for Negroes

NASHVILLE, Tenn. —(UP)— The governors of five southern states meet here Sunday to plan a possible middle course between mandates of the U.S. Supreme Court and southern tradition on the question of equal educational opportunities for Negroes.

The plan is to establish regional schools, supported jointly by all southern states which bar the doors of their white universities to Negroes. They would offer Negroes degrees in medicine, law, journalism and other professions.

The five governors are members of a special committee on regional education of the southern governor's conference. This group was formed last October after Gov. Jim McCord of Tennessee warned that southern states had three alternates under recent Supreme Court decisions—admit Negro students to their white schools, close their white schools or set up regional schools for Negroes.

McCord described the regional university plan as the only workable system for the South.

"If we adopt the alternative of admitting Negroes along with white students," he said, "existing facilities may as well be abandoned as it would effectively destroy the operation of our professional schools."

COLOR PRINT SERVICE
by KODAK

KODACOLOR PRINTS are snapshots in Full Color. They can be ordered only through your Kodak Dealer. Kodacolor Prints are usually ordered at the time the film is left with us to be sent in for developing. On "develop-and-print" orders, only those negatives are printed which, in the opinion of Kodak's operators, will yield prints that will be satisfactory to you.

Additional Kodacolor Prints from Kodacolor negatives may be ordered at any time from us. All Kodacolor Prints are made approximately 2-7/8 inches in width ... Kodacolor negative inches in width. The length being determined by the proportions of the Kodacolor negative. Black-and-White prints may be made from Kodacolor negatives by regular photographic printing methods.

KODACHROME PRINTS are full-color enlargements made from your original 35mm. (24x36mm) or Bantam (28x40mm) transparencies. They can be ordered ONLY through your Kodak dealer. If you should want Kodachrome Prints made at the time your Kodachrome Film is processed, bring the film to us and request that we send it to Rochester with a process and print order. On such orders, Kodak will print only those transparencies which, in their opinion, will yield prints that will be satisfactory to you. When you are selecting transparencies from which Kodachrome Prints will be made, check carefully for accurate color rendering, sharp definitions, correct exposure, and low contrast.

KODACHROME PRINTS are made in four standard sizes from original Kodachrome transparencies. These standard sizes of Kodachrome Prints utilize the full, uncropped picture area of the transparency. The 2X and 3X sizes are furnished unmounted and printed without margins. The 5X and 8X sizes are delivered in handsome oversize double mounts. The sizes and prices of standard Kodachrome Prints are as follows:

KODACHROME PRINTS (About 2¼ x 3½ in.), ea	$ .60
6 or more prints, each	.50
Kodachrome Prints 3X (about 3x4-3/8 in.), ea	.85
6 or more prints, each	.75
Kodachromé Prints 5X (5x7½ in.), each	2.75
3 or moret prints, each	2.35
Kodachrome Prints 8X (8x11 in.),each	5.80
3 or more prints, each	5.05
Kodacolor Prints (Any size negative)	.35

(Minimum charge, $1.) on all orders.

ELLIOTT'S
GUAM PHOTO SUPPLY

(Our store west of 5th Service Depot. Office, warehouse and plant at Agana Heights, near Chief Commissioner's residence)

DEPENDENTS ARRIVE—Major Frank A. Long, Transport Quartermaster Officer of the 1st Provisional Marine Brigade, is pictured greeting his wife, Helen, and their three-year-old daughter, Linda, shortly after their arrival at Guam aboard the Navy Transport USS GENERAL MANN today. The Major and his family will make their home in one of the newly constructed dependent houses located north of the 1st Brigade. (USMC Photo)

Col. Vogel Appointed Head of W.M.S.C.

MARBO——the appointment of Major Emma E. Vogel as chief of the newly organized Women's Medical Specialists Corps, with the rank of full colonel, was announced recently by Major Gen. Raymond W. Bliss, Surgeon General, Washington, D.C.

Colonel Vogel wil assume supervision of what has before constituted three separate sections of the Medical Department. These were the dietitian section, the physical therapist section, and the occupational therapist section.

This is the first time that a woman has held this high a rank in any of these specilized groups.

All You Can Eat For 50 Cents...

OZARK, Mo., —(UP)— Ozark has become a Sunday dinner mecca, an oasis in the desert of high prices.

It's because of Mr. and Mrs. Art Smith.

The Smiths serve all-you-can eat meals for 50 cents. Each Sunday they serve more than 800 guests at that price.

The menu? Let your mouth water over this: Chicken and dumplings, roast beef, dressing and gravy, peas, green beans, spinach, turnips, navy beans, sweet potatoes, Irish potatoes, carrots, cole slaw, white and corn bread, peaches for dessert and milk and coffee.

It's served family style in an attractive dining room paneled by Smith in native cedar.

"We started to feed the neighbors who came to the village to trade," Smith said. "They still bring their families to eat at our table but 80 percent of our customers are from Springfield, 20 miles away."

Managers for Springfield's eating places call to see how he does it and ask whether he is making money. To that, he replies: "Yes."

Notice—The Pacific Empire Line Inc., will display fresh fruits, and vegetables in the retail market for the public on 23 January, 1948, Friday 8:00 a.m. at the Marine Drive. 23

Birthday Party For MarBo Personnel

MARBO—Military personnel of the 516 Signal Battalion, 501 Engineer Group and special troops who have birthdays in December or January will be special guests at a huge birthday party on Thursday evening.

Chaplain Jenks, staff chaplain, announced today that in addition to having the largest birthday cake on the Island with candles enough for all ages present, there would be a solo by Colonel George Landoen and several numbers on the xylophone by Chaplain T.P. Ford, and by the choir from the 93rd Engineers and an orchestra from members of the 12th Army band.

The chaplin also announced that there would be several surprise events on the program.

Dependents of those who have birthdays will be permitted to attend the party.

Liquor Board Passes Rules

AGANA——At the last meeting of the Liquor Control Advisory Board it was recommended that the rule which requires that beer must be served only with meals be rescinded, and that beer be sold alone, except that any place selling beer must also have food available for customers if desired by them.

Copies of certain laws and regulations dealing with the sale and consumption of liquors on Guam were issued to all members and they were requested to familiarize themselves with the regulations and be prepared to make recommendations for changes or additions at the next meeting of the board.

Sales Regulated

The board agreed that the present hours for the sale of intoxicating liquors were satisfactory. (Bottled goods from 9:00 a.m. to 6:00 p.m. with no sales on Sundays and drinks over bars as provided by paragraph 6 C of Executive Order 19-47.)

Another recommendation was that the sale of beer, for on premises consumption, be made only between the hours of 9:00 a.m. to midnight.

With regard to the question of putting certain places "out-of-bounds" to civilians, the chairman, Col. W. C. Hall, USMC, stated that such a course was not practicable. He also pointed out that he believed that such places could be closed if they became public nuisances.

Package Stores

A motion was passed by the board that "retail liquor package stores outside of villages or towns be permitted only when more distant than one and one-half miles from any contractor's camp of over 500 men."

The chairmen noted that such places, if actually undesirable, could be reported to the Security Council with the recommendations that they be closed. Such reports would be investigated and appropriate recommendations made to the govenor.

"No thanks, I'll wait 'til the beer comes around!!!"

Soldier Sheds Uniform For Priesthood

TOYKO—Former Sergeant Francis Xavier Courtney has received permission from General Douglas MacArthur to shed his Army uniform for the robes of priesthood in Japan.

Courtney, whose home is Portland, Oregon, will be the first enlisted man to remain in Japan for work outside the occupation.

He joined the service 18 months ago with absolutely no intention of remaining in the far east after his tour of duty was completed. But now he says his mind is made up to begin eight years of study leading to ordination as a priest, after which he will serve as a missionary.

His decision stems from a casual remark made by a friendly priest in Japan regarding the need for missionaries.

He has received his final discharge and permission to study at the small Don Bosco Seminary at Itabashi, a suburb of Tokyo.

The National Foundation is always alert and ready to combat epidemics whenever and wherever they occur. It also evaluates new methods of treatment and makes such knowledge available to the public and the medical profession.

Tokyo USAFI Teacher At 20th Air Force

HQ. 20th AF—According to an announcement made here today, Miss Rosemary Page, USAFI teacher from Tokyo, has arrived to help prospective students start correspondence courses. She will be here for one month.

Sponsored by the Guam area school, the correspondent course program is designed for servicemen who cannot attend off-duty classes for any reason.

Lt. Frank M. Leese, Twentieth Air Force I & E officer, asks prospective students to phone Chicago 5176 for an appointment to enroll, get course selection advice, and for help if a course has meen dropped. Those men who have enrolled in USAFI in the last two weeks are advised that texts are now available in the Guam area school office.

Over The Joepot

by Bill Jury

Slingin' Sammy Baugh, generally regarded as one of the greatest passers of all time, is preparing to hang up his cleats and shelve one of the most colorful gridiron careers in the annals of the game.

Baugh played quite a bit of football with Texas Christain some 12 or 15 years ago and then signed up with the Washington Redskins of the National Football League to begin eleven years of professional football. Sammy set records and broke records while pacing the Redskins to nearly a half dozen division titles and two world championships, but now the old maestro is getting old and he's receiving the nod from the front office.

The back they're grooming to fill the big shoes of Slingin' Sam is none other than the "Arm" from Alabama, Harry Gilmer. Gilmer while gathering a lot of praise for his help in leading the Crimson Tide to a trip to the Rose Bowl in '44 and the Sugar Bowl in '45 and New Year's Day of this year, looked like a lemon against Texas' Bobby Layne. Gilmer was asking $100,000 for a five year contract with the 'Skins but after his poor showing in his last game he settled for $80,000. Apparently that 60 minutes in New Orleans on Hangover Day cost him some 20 G's.

Regardless, the Redskins saw clear to put out the money and at the same time sell draft rights to Chuckin' Charley Conerly to the New York Giants.

That little move drew a giggle of glee from Giant followers as it gives the New Yorkers just about the hottest collegiate passing combination in the game today....Barney Poole and Conerly.

The Redskins have big plans for the coming season—they recently lured Tiger Walton away from the Pittsburgh Steelers to strengthen their coaching department—and they apparently knew what they were doing when they signed Gilmer to the Washington T-formation in place of Conerly—a single wing halfback—but it's going to take a lot of football to come up to Sammy Baugh.

Civilian Recreational Heads Meet; Indicate Program Expansion

Civilian recreation heads of construction and contracting firms and Guamanian representatives met Tuesday night in the Chapel in the Palms and made plans for what may be the much needed energy outlet for civilians on the Island and gave indications that soon their recreation programs will compare to the service schedules.

Nearly a score of men, representing American companies, local religious groups and Guamanian businesses, gathered together and drafted definite plans for a softball league to begin early next month and appointed a committee to act as the guiding light.

Executive Committee

Mr. J. Lahoi of MKK, Mr. C. J. Cassell of Pomeroy and Mr. Bill Lipscomb of BPM, composing the "executive committee" will meet again on January 28 to make up the schedule for the softball league and to lay tentative plans for a baseball league to follow it.

Four diamonds, complete with lights, have already been prepared for league play and one more is under construction and is expected to be ready for baseball, which will get underway early in April.

More than a dozen entries are already in, with five days remaining in which teams can get their applications in to Mr. Lipscomb at BPM.

Dapper Dan Club To Hold Golf Tourney

PITTSBURGH, Jan. 20 —(UP)— The Dapper Dan Club of Pittsburgh will hold a $15,000 open golf tournament at Alcoma Golf Club July 15-16-17-18, it was announced today.

Most of the top names in professional golf were expected to enter the tournament which will fall between tournaments in Columbus, O., and Reading, Pa. It has the sanction of the Professional Golfers Association.

There will be 18 holes of medal play on each day of the tourney. The event will be sponsored jointly by the Dapper Dans, a charitable organization, and the Alcoma Golf Club. Profits will be turned over to the Tri-State Golfers Benevolent Association.

Browns' Outlook Mystery to New Pilot too

ST. LOUIS, Jan. 21 —(UP)— Zack Taylor, the new pilot of the St. Louis Browns, said today he doesn't have the faintest idea what his cellar-dwelling, trade-riddled club will do next season.

He said his starting lineup is a mystery—even to him.

"I don't even know some of the players by name," he explained "to say nothing of their playing ability."

Taylor Discouraged Too

The admission leaves Taylor on a par with most of the Browns followers—discouraged by the teams poor showing last summer and befuddled by the marketing of most of the star players to raise a little cash.

Taylor, coach of the Pittsburgh Pirates until he was named manager of the Browns late this year, came here to talk over the club's prospects with General Manager Bill Dewitt in advance of spring training which starts March 1.

Taylor said his one bright hope comes from a prediction by one of his baseball buddies, Al Evans of the Washington Senators. Evans, he said, believes the Browns will have the best defensive infield in the American League.

AHA Puck Chasers Score 4 to 3 Victory

PRAGUE, Jan. 20 —(UP)— The Amateur Hockey Association team from the United States, sparked by Bruce Cuncliffe's two goals, scored a 4 to 3 victory over a combined Slovak team today at Bratislava.

A crowd of 7,000 saw the AHA crew, which hopes to represent the U. S. in the winter Olympics, come from behind in the last period after trailing 3 to 1.

The Americans for the most part toyed with their Slovak opponents, trying out new shots and combinations during the course of the game.

The AHA sextet lost to the Czech Olympic team yesterday in its European debut.

Rammin' Ralph Signs

PITTSBURGH, Jan. 19 —(UP)— Rammin' Ralph Kiner today signed a one year contract to play with the Pittsburgh Pirates baseball team in 1948 for a reported salary of $30,000.

Walter Mulbry, Mexican Baseball Czar to Confer

MEXICO CITY, Jan. 21 —(UP)— Walter Mulbry, assistant to Baseball Commissioner Albert B. Chandler, and Mexican High Commissioner Alejandro Aguilar Reyes will confer here this week, Mexican League headquarters announced tonight.

It will be the first time that officials of organized baseball and the Mexican League have met since the peso circuit raided the big leagues for a dozen or more stars early in 1946. Chandler's office retaliated by suspending all such players for five years.

The brief announcement from Mexican League headquarters did not say what the two officials would discuss. Baseball quarters immediately speculated that their conferece might involve steps which the Mexicans might take to obtain recognition by organized baseball.

When Aguilar took office as Mexican high commissioner last October, he announced, "I am going to let the U.S. club owners know that we will not steal one single ball player from them." He said then the Mexican League "is ready for friendship" with organized baseball.

League President Jorge Pasquel, who instituted the famous player raid across the border two years ago, retained his office but was relegated to a secondary position when club owners named Aguilar high commissioner.

Willie Pep Gets Decision Over Angelo

BOSTON, Jan. 20 —(UP)— World's Featherweight Champion Willie Pep of Hartford, Conn., slower but certainly more savage than in World War II days, unanimously decisioned Joey Angelo of Providence, R. I., tonight in a 10-round non-title match before 8,705 Boston Garden fans.

From the opening bell to the final blow there was little doubt that Pep was master of the battle and already looking ahead to a defense of his crown at Miami Beach, Fla., Feb. 24 with Humberto Sierra, of Havana, Cuba.

Yet he was willing to wade in and swap punches with the aggressive Angelo who outweighed him by seven and a half pounds. It was in the sixth round that the lethal little leather tosser drew blood—a smashing right to Angelo's brow.

Cambria Named Cuban Head of Non-Pro Ball

ST. LOUIS, Jan. 20 —(UP)— Joe Cambria, veteran scout for the Washington Senators, today was named Cuban commissioner of non-professional baseball.

His appointment was confirmed by J. G. Taylor Spink, global commissioner of the National Baseball Congress and publisher of the Sporting News.

Cambria will represent Cuba as a member of the NBC board of directors at a meeting to be held in New York on Feb. 3.

Spink said that the four nations which now produce the best baseball, the United States, Canada, Mexico and Cuba will be represented at the initial meeting.

Spud Chandler 18th Yankee to Sign

NEW YORK, Jan. 20 —(UP)— Spurgeon (Spud) Chandler, who registered the best earned run average in the American League during 1947 and who was side-lined the last half of the season with an ailing right arm, today signed his 1948 contract with the New York Yankees.

Chandler, who had an earned run average of 2.46 last season, was the 18th Yankee player to agree to terms for 1948.

Northwest Field Trims HQ 20th In Skeet Match

HQ. 20TH AIR FORCE, Jan. 20 Northwest Field's big guns mowed down Headquarters Twentieth Air Force by a score of 226 to 220 in a skeet match between officers' teams Monday afternoon at the Headquarters range.

The fighter men took both ends of the double-header match. Winning the opening session by breaking 114 birds against 111, they came back to hit 112 in the final stanza against 109 for the losers.

Two men from Northwest, Lts. Wilkinson and Jordan, and one Headquarters sharpshooter, Capt. Foster, shared top honors with 47 apiece. Only one, Lt. Bean from Headquarters, fired a perfect but unavailing score of 25 out of 25 rounds.

The first match to be conducted, additional tourneys will include teams from North Field and MAKAMA.

Individual scores were:

Northwest Field	First	Sec.	Total
Wilkinson	23	24	47
Jordan	23	24	47
Lehman	24	22	46
Swanson	21	24	45
Tabak	21	20	41
Headquarters			
Foster	23	24	47
Bean	21	25	46
Mason	23	21	44
Razor	22	22	44
Palmer	20	19	39

Official Nazi Documents Published by State Dept.

Volume 4, No. 23 — Price 3 Cents

Guam News

Guam, Marianas Islands — Friday, January 23, 1948

WASHINGTON, Jan. 22 —(UP)— The State Department published 60 Nazi foreign office documents tonight which claimed that Soviet Russia agreed with Nazi Germany in 1940 that the United States had no business in Europe, in Africa, or in Asia."

The documents also included Nazi reports of Soviet-Nazi conversations in which the Soviet Union was said to have agreed in principle that she should act with the axis powers jointly to prevent Anglo-Saxon domination of Europe.

All of the documents came from the Nazi foreign office of Foreign Minister Joachim Von Ribbentrop who was hanged as a war criminal. The Nuhrenberg International Tribunal refused Ribbentrop permission to present them in his defense at the trial.

Nazi Versions

The documents are Nazi versions of relations between Russia and Germany during their short-lived reapproachment.

The heretofore top-secret papers said that Russia was ready to adhere to the axis tripartite pact envisaging a "new world order" but eventually demanded from Germany too high a price for participation—domination of the Balkans, the Dardenelles and the Baltic.

Adolf Hitler finally decided upon war against Stalin because "above all," Germany needed the Balkan peninsula which Russia also coveted.

The Nazi documents on Soviet-German relations before the Hitler invasion of Russia were made public by the State Department with little warning and without explanation except that "they were ready now."

Radm. Charles A. Pownall, USN, is shown in his office at Commander Marianas greeting Commodore J. E. Maher, USN, right, and Capt. C. G. Rucker, USN, who are part of the on-site survey board which arrived at NAS Agana yesterday afternoon. (Guam News Photo)

Weather Forecast

Partly cloudy. Scattered moderate showers. Winds moderate to fresh easterly with strong gusts.

Yesterday's temperatures: Max. 82.5; Min. 76.

Yesterday's rainfall: .28 inches.

Rainfall for month: 7.59 inches.

Secret Record Introduced At Trials

TOKYO, Jan. 22 —(UP)— Hiroshi Oshima, former Japanese ambassador to Berlin, "sincerely concurred" in statements by Adolph Hitler that Germany must sink every possible American merchant ship and slaughter its seamen, according to prosecution evidence accepted today in the war crimes trial.

Oshima was alleged to have told Hitler that "the Japanese, too, are forced to follow these methods."

The evidence, introduced at the trial of 24 top officials of wartime Japan, was a secret German record of the talk between Oshima and Hitler in Berlin Jan. 3, 1942. The meeting last nearly two hours and Hitler with the aid of a map of the Atlantic, said he considered it his "most important task to get the submarine war going full blast."

The same secret document, seized after V-E day by the United States, was produced as evidence during the Nuernberg trial of Hermann Goering.

Hitler told the Japanese ambassador now on trial—who was considered one of the strong proponents for axis military collaboration—that Germany was waging war for its survival and therefore could not permit itself to be restrained by humanitarian considerations.

It was pointed out that although the United States shipbuilding capacity was formidable, it would have difficulty overcoming the blow dealt by ruthless killing of seamen from ships torpedoed on the high seas.

"For this reason," the transcript quoted Hitler as telling Oshima, "merchant vessels are being sunk without warning with the idea that as large a part as possible of the crew should perish in consequence."

—March of Dimes—

Constellation Crash

BOSTON, Jan. 22 —(UP)— A four engined Eastern Airlines Constellation plane, with 25 persons aboard, skidded, crashed and burned on an ice-glazed runway at Logan Airport today, but all escaped with their lives.

Two passengers were hospitalized, five others were treated at a hospital and released. Six passengers were slightly hurt or shaken.

An airline official said the loss might be $1,500,000. Virtually all the passengers' baggage was burned.

Civil Aeronautics Board officials began an immediate investigation.

Bound from Miami, Fla., to Newark, N. J., the giant plane was unable to land at LaGuardia airport in New York because of poor visibility and continued here.

The pilot, Capt. Merrill E. Thayer of M[illegible] attempted to land by instruments. The plane swooped in at a normal speed between 120 and 150 miles per hour. It traveled a short distance on the ice-slick runway before skidding.

Republican Leaders Favor Tax Cut

WASHINGTON, Jan. 22 —(UP)— Senate Republican leaders were reported today to favor scaling down the $5,600,000,000 personal income tax reduction bill being pushed by House Republicans.

House approval of the measure seemed certain. But the sentiment of Senate leaders indicated that taxpayers would get somewhat less tax relief under the bill finally sent to the White House.

Chairman Harold Knutson, (R-Minn.), of the House Ways and Means Committee, called his group into a closed morning session to discuss the measure. The committee may give its formal approval today but Knutson said tomorrow seemed the more likely.

Scheduled for later today was a meeting of House and Senate GOP leaders at which tax reduction, as well as the legislative budget resolution, was to be discussed.

Hoover Says Recovery Program 'Unwise'

WASHINGTON. Jan. 22 —(UP)— Former president Herbert Hoover tonight condemned the administration's European recovery program as "unwise" and too costly for the American economy and the taxpayer to bear.

In a 3,500-word critique of the Marshall plan, he ripped up practically all of its major planks and offered substitutes which would, in effect, create an entirely new foreign aid structure.

His proposals would achieve most of that saving by persuading other western hemisphere nations to grant direct credits to Europe for $3,300,000,000 worth of farm products which the administration planned to buy from them and re-export to Europe.

They would broaden the scope of American aid to include western Germany, Japan, Korea, and China as well as the 16 western European states, and would impose on all of those countries strict conditions which the administration thus far has shied away from asking.

And he recommended that the United States for the present commit itself only to a 15-month program, instead of the four-year authorization urged as imperative by Mr. Truman.

Communist Party Munitions-Arms Found in Prague

PRAGUE, Czechoslovakia, Jan. 22 —(UP)— Minister of Justice Prokop Drtina told parliament today that "large illegal stores" of arms and munitions belonging to the Communist party had been discovered during an inquiry into the September bomb plot against three government leaders.

Drtina, a National Socialist, said the arms included tommy guns, machine guns, rifles, hand grenades and several thousand rounds of ammunition for each type of weapon.

He said they originally were stored in the building of the Communist secretariat at Olomouc, a city in Moravia, 130 miles east of Prague. Later on orders of Jura Sosnar, a Communist member of parliament, they were transferred in a secretariat truck to a more concealed spot, Drtina added.

—March of Dimes—

600 Arabs Attack Jewish Settlement

JERUSALEM, Palestine, Jan. 22 —(UP)— Between 600 and 700 Arabs today attacked the Jewish settlement of Yehiam in the Galilee hills of northern Palestine for the second straight day. They were beaten back toward the Lebanese border by British forces after several hours of furious fighting.

First reports indicated it was one of the largest and best-coordinated Arab forces thrown into the fight against partition. A spokesman for the Jewish underground Haganah army charged the Arabs were commanded by German officers.

As in yesterday's seige, the Arabs converged on Yehiam from the Lebanese border, 10 miles to the north. Today, however, they appeared to be divided into well-organized companies. Supported by mortars and heavy automatic weapons, they approached the settlement from the north, northeast and northwest.

A small Jewish garrison held back the attackers until units of the British Sixth Airborne Division and Middlesex Regiment rushed to the scene in armored cars from Acre and Naharlya, west coast towns respectively 10 and nine miles from Yehiam.

Jones Has Large Lead

NEW ORLEANS, Jan. 22 —(UP)— Sam H. Jones, former governor and favorite to be returned to office, took a 5,000 vote lead today as returns were counted from the most tumultuous Louisana primary since the days of Huey Long.

As reports dribbled in Jones was steadily adding to his lead over three other candidates in the bitterly contested race—the winner of which is conceded the governorship.

200,000 German Workers Strike in American Zone

NUERNBERG, Jan. 22 —(UP)— An estimated 200,000 German workers struck in the coal-rich Ruhr and in the American zone today in protest against food conditions.

More than 100,000 industrial and office workers walked out in the big rhineland city of Cologne and a similar hunger strike was reported to have brought out a number of workers in nearby Essen. The Cologne strike was expected to last throughout the day.

Thirty thousand metal workers struck for a half day in Nuernberg starting at noon and union leaders said the city's entire labor force with the exception of transport workers would join in.

There was no accurate estimate available of the number of Nuernberg strikers. The city's population is about 400,000.

The food shortage, according to allied officials, is the result of flaws in German food collections and distribution.

Food unrest originated in the Ruhr when the area's fat ration could not be fulfilled for three weeks recently. To mollify the industrial workers, food authorities reduced rations in the American zone in favor of the Ruhr. Strikes then began in the American zone.

At least 30,000 strikers are expected to demonstrate in Nuernberg's principal square, the Hauptmarkt, during the afternoon in protest against the state government's refusal to adopt the Bavarian union's seven-point food collection plan.

This program demands state confiscation of all food, closing of luxury restaurants and other austerity measures. The Bavarian government rejected it two days ago on grounds Bavaria enjoys the best food collection system in Germany.

—March of Dimes—

Taxpayers Support Royal Family On $2,000,000

LONDON, Jan. 22 —(UP)— British taxpayers will pay nearly $2,000,000 this year to support the royal family, it was estimated today.

That includes a $200,000 annual allowance for Princess Elizabeth and her husband, the Duke of Edinburgh which was virtually assured yesterday when a government bill providing "household expenses" for the newlyweds passed its second reading in Commons.

According to the best available information, less than $400,000 of the royal family's public income is returned to the treasury in income taxes. The net royal family public income of $1,600,000 will cost a little over three cents yearly for each of the United Kingdom's 47,890,479 inhabitants.

King George receives a personal allowance of $122,644 and expenses of $1,200,000 for a total of $1,322,644. Out of this sum, he must pay servants, maintain Buckingham Palace, Windsor Castle, Sandringham, Balmoral, meet the expenses of state visits and functions, and provide for Queen Elizabeth and Princess Margaret.

—March of Dimes—

Four Killed in Blasting Accident

COLTON, Cal., Jan. 22 —(UP)— A blasting crew of four men was blown to bits today in the apparently premature explosion of a charge they were setting off at a cement company's quarry here.

The explosion shattered nearly 20 plate glass windows in the business district, a mile from the scene of the blast. It also shattered windows in surrounding residential areas and was felt sharply in nearby San Bernardino, five miles away, where it broke a bank's plate glass window.

The four members of the blasting crews were the only casualties.

Officers said that had the explosion taken place in an inhabited area or in an enclosure it might have caused enormous damage.

Petrillo Predicts Peace

WASHINGTON. Jan. 22 —(UP)— James Caesar Petrillo predicted today that his American Federation of Musicians (AFL) and major broadcasting companies will settle amicably their long-standing dispute over FM and television broadcasts within the next few weeks.

He told the House Labor Committee that he was "very confident" of an agreement despite the "press campaign of vilification" against him and his union which, he said, was sponsored by the National Association of Broadcasters.

The voluble little union leader was called before the committee to explain his "forever and ever" ban on recordings, and his orders prohibiting musicians from appearing on television and FM network programs.

He dropped two surprises into the committee's proceedings

1. An offer to poll members of his union to see if they stand behind him on his perpetual ban on record-making.

2. An offer to let his musicians make recordings for home use "without charging a royalty" if Congress will pass a law preventing their use in juke boxes and canned radio programs.

Justice Dept. Asks For Movie Ruling

WASHINGTON, Jan. 22 —(UP) The Justice Department asked the Supreme Court today to rule flatly that a monopoly exists in the movie industry.

In a brief filed in the high court, the department said the ownership of movie theaters by motion picture producing firms constituted an illegal curb on competition and a direct violation of federal anti-trust laws.

It urged the court to compel the defendants—the major producers in the industry—to sell their interest in 3,137 theaters throughout the nation and to revise drastically their method of bringing their films before the public.

The government first filed its civil suit against the eight defendants in 1938, and the case has been before the courts ever since. The Supreme Court agreed last year to render final decision. Oral arguments will begin on Feb. 9.

Defendants in the case are Paramount Pictures, Loew's, Radio-Keith-Orpheum, Warner Brothers and Twentieth-Century-Fox. Columbia Pictures, Universal Corp. and United Artists. The three latter firms have no movie theaters under their control, but the government charges that they have participated in the alleged monopolistic conspiracy with the other five firms.

Tito Has A-Bomb Says Italian Paper

TRIESTE, Jan. 22 —(UP)— The Italian Nationalist newspaper Voce Libera yesterday republished an article, first printed by a French newspaper Dec. 15, quoting Marshal Tito of Yugoslavia as saying he had the atom bomb, jet planes and 150 divisions of troops ready to march into Paris.

The article, as originally published by the Paris newspaper Dissidence, supporter of Gen. Charles De Gaulle, and republished by Voce Libera, said Tito made his alleged statement at a secret Yugoslav Communist meeting in Zagreb Nov. 8. His theme was that his Communists could meet any threat, it was said. Both the newspapers which published his alleged statement are anti-Communist.

U.S. Viewed as UN Moral Leader

NEW YORK —(UP)— The United States must assume the moral leadership of the United Nations or face the prospect of that organization's failure and resultant atomic war, Brig. Gen. Carlos P. Romulo said recently.

Romulo, chief of the Philippine delegation to the UN and wartime advisor to Gen. Douglas MacArthur, addressed the Advertising club of New York.

"The United Nations today," he declared, "is the one hope of mankind—the only hope between the alternatives of peace and war."

Romulo cited the American record in the Philippines as reason why "one billion Asiatics look to the United States as the one nation they can trust."

He warned, however, that Greece, Babylon and Rome—"the most powerful countries of the world in their day, as is the United States today" declined because they failed to meet the challenge of responsibility in world leadership."

He cited the vast amount of "anonymous" progress made by UN groups and agencies. In particular recent meetings of the economic commission for Asia in Shanghai and in Baguio, Philippines, had brought hope to the "submerged millions" of the Orient.

"Refusal of discordants to abandon the UN," he said was proof of the organization's permancy."

—March of Dimes—

The national headquarters of the National Foundation for Infantile Paralysis receives half the money raised in the March of Dimes, using it for research, education and epidemic aid. The public gave nearly $16,000,000 in 1946.

EM Club to Get New Furnishings

HARMON FIELD —— Harmon Field Special Services has announced that furniture which was requested from deactivating units of the PhilRyCom some months ago is arriving. Seven truck-loads have been received so far and more is on the way. Included in the articles of furniture are several radios and radio-record playing combinations. Captain L. M. Shelton, Harmon Field Special Service officer, said that distribution of the furniture would refurnish existing enlisted men's clubs and equip all squadron day rooms. It is anticipated that all squadrons will receive a radio or combination radio-record player, and distribution of other articles will be made according to need.

Turkish Grain Rots

ISTANBUL, Turkey —(UP)— Qualified experts estimate that 30,000,000 bushels of grain are going to rot in Turkey.

It also is estimated that as high as 50 per cent of Turkey's crop is going to waste. Rivers and harbors have been observed full of floating apples.

Turkey has almost no highways. She is desperately short of rolling stock for the railroads and has almost no trucks. She has insufficient storage facilities for grain and hardly any canning plants to can the fruit.

Crisis Looms in Palestine Partition

LAKE SUCCESS, N.Y. —(UP)— The partition of Palestine into Jewish and Arab states probably will cause an economic as well as military crisis in the Holy Land.

The United Nations, during months of hectic debate on Palestine's future, gave little attention to economic problems, but officials are growing increasingly concerned as the hour for partition approaches.

Great Britain plans to give up control of Palestine about May 15, and have all of its troops out of the area by Aug. 1.

That will end the heavy British expenditure which began when Britain took over Palestine under a League of Nations mandate after World War I. British money has flowed steadily into Palestine without a corresponding outflow of Palestine goods.

A UN commission which studied the Palestine problem last summer estimated that British military expenditures there during the peacetime year of 1946 totaled $94,000,000—or 20 per cent of the national income of Palestine, which is no larger than Maryland.

The loss of the British money, UN officials believe, will be a severe blow to Palestine's economy. In addition, Palestine has a distressingly unfavorable balance of trade, and is plagued by fear that world conditions may lessen the demand for Palestine goods and cause unemployment in the Holy Land.

The situation may be complicated by temporary economic dislocation caused by partition, especially if fighting spreads. The Jewish area of partitioned Palestine will be surrounded by Arab states, and might suffer heavily if Arabs pressed a boycott against Palestine goods such as citrus fruit and light manufactured goods which Jews hope to export.

The first major epidemic of polio, as infantile paralysis, or poliomyelitis, is called, occured in 1916 when 27,363 cases were reported. In the past 30 years, 223,306 additional persons came down with the disease.

COLOR PRINT SERVICE

by KODAK

KODACOLOR PRINTS are snapshots in Full Color. They can be ordered only through your Kodak Dealer. Kodacolor Prints are usually ordered at the time the film is left with us to be sent in for developing. On "develop-and-print" orders, only those negatives are printed which, in the opinion of Kodak's operators, will yield prints that will be satisfactory to you.

Additional Kodacolor Prints from Kodacolor negatives may be ordered at any time from us. All Kodacolor Prints are made approximately 2-7/8 inches in width ..... Kodacolor negative inches in width ..... The length being determined by the proportions of the Kodacolor negative. Black-and-White prints may be made from Kodacolor negatives by regular photographic printing methods.

KODACHROME PRINTS are full-color enlargements made from your original 35mm. (24x36mm) or Bantam (28x40mm) transparencies. They can be ordered ONLY through your Kodak dealer. If you should want Kodachrome Prints made at the time your Kodachrome Film is processed, bring the film to us and request that we send it to Rochester with a process and print order. On such orders, Kodak will print only those transparencies which, in their opinion, will yield prints that will be satisfactory to you. When you are selecting transparencies from which Kodachrome Prints will be made, check carefully for accurate color rendering, sharp definitions, correct exposure, and low contrast.

KODACHROME PRINTS are made in four standard sizes from original Kodachrome transparencies. These standard sizes of Kodachrome Prints utilize the full, uncropped picture area of the transparency. The 2X and 3X sizes are furnished unmounted and printed without margins. The 5X and 8X sizes are delivered in handsome oversize double mounts. The sizes and prices of standard Kodachrome Prints are as follows:

KODACHROME PRINTS (About 2¼ x 3½ in.), ea ..... $ .60
6 or more prints, each ..... .50
Kodachrome Prints 3X (about 3x4-3/8 in.), ea ..... .85
6 or more prints, each ..... .75
Kodachrome Prints 5X (5x7½ in.), each 2.75
3 or more prints, each 2.35
Kodachrome Prints 8X (8x11 in.), each 5.80
3 or more prints, each 5.05
Kodacolor Prints (Any size negative) ..... .35
(Minimum charge, $1.) on all orders.

COLOR PRINT SERVICE is available ONLY through your Kodak Distributor or Dealer

Schools Produce Literacy, No Geniuses

HOLLYWOOD —(UP)— The American system produces literacy, but not genius Xavier Cugat believes.

"We have the best educated children in the world under the American school system," Cugat said, "but we don't have any geniuses like Caruso, Heifetz, Iturbi and Melchior."

"And we won't, he added, as long as children have to work so hard at school.

"The present system will kill any budding genius," Cugat said. "A boy or girl with a spark of talent has to squeeze in his musical or artistic practice in the evening.

"But it takes years and years of practicing and grinding 12 and 14 hours a day to perfect any artistic ability. American children are forbidden to spend their time that way."

The popular maestro is currently featured in Metro-Goldwyn-Mayer's "On an Island With You." A violin prodigy at the age of seven and concert master of the Cuba National Theater Symphony at the age of 12, he adds quickly that he does not consider himself an example of genius.

"Whatever success I have achieved, I owe to my father's foresightedness," Cugat said.

The father, a civil engineer in Barcelona, Spain, noticed young Xaviers knack with the family fiddle.

"You may quit school," he told him, "and concentrate on your music."

Where, Cugat sighed, was the American truant officer who would okay that arrangement?

Cugat's brothers also gave up formal education to concentrate on their artistic talents. So, he added, did Caruso, with whom Cugat toured Europe.

"Caruso never had time for school," he said. "He devoted all his time and energy to perfecting his marvelous voice."

Music Czar Invades Symphony Broadcasts

DETROIT —(UP)— The Detroit Symphony Orchestra Company said today it will cancel its national Sunday evening broadcasts after Jan. 25 because it does not want to "run the risk" of being ruled off the air by James Caesar Petrillo.

Fear of Ban

Henry H. Reichhold, millionaire chemical manufacturer and president of the symphony, announced he already had notified the American Broadcasting Company that a contract expiring Jan. 25 would not be renewed.

Reichhold said he took the action because of "uncertainty" over the plans of the AFL Musicians' Union boss, who he said made an implied threat to ban American Federation of Musicians from network shows after Jan. 31.

However, Reichhold said that if Petrillo relented and allowed "live" artists to play he would renew his network contract.

Balloons Used For Stratosphere Flights

(SEA) — Balloons capable of carrying instruments in unmanned flights to an altitude of 100,000 feet are being developed by the Navy. Each one can carry up to 70 pounds of scientific instruments and will be filled with helium gas.

The balloons will be released in clusters of two, three or possibly four in flights to be conducted in the vicinity of Minneapolis and possibly at NAS, Lakehurst, N. J. Made of plastic material and light in weight, these balloons are unusually strong.

Original plans called for a manned balloon flight this past summer. Because of operational difficulties and the need for more work on the balloon itself, the plan was cancelled.

Veteran Congressman Reminisces

WASHINGTON —(UP)— Rep. Adolph J. Sabath, (D-Ill.), who is starting his 42nd year in Congress, described his freshman colleagues as a bit more uppity than in his generation but "very helpful" just the same.

The National Foundation for Infantile Paralysis was founded in 1938, dedicated to the conquest of this disease. Before that, there was no national organization to fight infantile paralysis.

—March of Dimes—

The white-haired Sabath has served longer than any other member of either the House or the Senate. Asked how younger members of today differ from those of 40 years ago, Sabath said slowly:

Able Freshmen

"Well, many freshmen these days feel possessed of all knowledge and want to enlighten the older members. This makes some of them more objectionable than we were allowed to be. But it doesn't do any harm. Rather, it's helpful. Many of the younger ones have great ability."

Sabath, a former police magistrate in Chicago, was born in Czechoslovakia in 1866. He was elected to Congress from the fifth Illinois district.

"When I came to Washington 'Czar' Uncle Joe Cannon was presiding in the House." Sabath reminisced. Younger members didn't get the floor.

"There were no one-minute speeches then," he added, "and you couldn't have your remarks extended in the appendix to the congressional record. No, freshmen couldn't talk as much as they do today."

Brunswick CENTENNIAL CAROM TABLE IN 4' x 8' SIZE

Sports Beat

by Bob Crosley

Rocky Graziano aroused as one of the biggest and most widely discussed scandals in sports since the Chicago Black Sox controversy shook baseball, and though the heat has begun to die down, arguments are still raging as to whether Graziano is being given a square deal. . . . Does this kid from New York's tough East Side deserve to be allowed to defend his middleweight title, or should he be barred from the ring officially and permanently?

In the January issue of Sport magazine, an extensive discussion is presented with two famous and experienced sportswriters presenting opposite sides of the story . . . . Jimmy Powers, of the New York Daily News, puts himself in the market for a body by saying yes and the Herald Tribune's Red Smith states that the Rock was robbed.

Smith presents as part of his plea for Rocky the fact that the champ "didn't never have nuttin' " and that he should have more than one chance . . . . Powers countered that Al Smith and the late Cardinal Hayes grew up in the same place and with the same environment. . . . Smith then protested that Rocky only did what hundreds of other young men accomplished and has served his sentence. . . . Powers delves a little deeper and comes up with inside dope that the Rock was picked up at the age of 12 on a charge of delinquency, again at 18 for burglary and again in 1939 for a stickup with a gun, and then, as a grown man was arrested for allegedly committing a crime against a 15 year old girl. . . . Sez Powers, a 10 month sentence for desertion in time of war does not wipe the slate clean..... A dishonorable discharge was intended as a continuation of punishment, and if it is not, it is more a reward for Graziano than anything else. . . . Desertion in time of war is a serious crime, maintains Powers, and he's backed up by every professional military man and a great majority of citizens.

One of Powers' first points, and one that Smith does not mention, is the intangible power every sports figure maintains over the youth of the country..... Civic leaders, religious workers and experts in juvenile deliniquency back Powers in his contention that such an example should not be permitted to present himself as a sports hero. . . .

Smith passes off Rocky's failure to report the attempted bribe with a glib passage as follows: "....his license was lifted in New York because he neglected to report a bribe offer he probably never got from a man he didn't know for a fight that never came off." Powers points out that youngsters all over the country could be influenced to follow him.

What do you think? Has he paid, or should he be barred for life or a long period? Has he been treated fairly or has he been taken advantage of? It might be interesting during the inbetween lull to have the opinion of servicemen (and civilians) on Guam as to whether Graziano should be reinstated or at least forgiven for his Army record. Drop us a letter with your opinion and your reasons. . . . Some of the more interesting letters might be published.

Bombers Seek Practice Games

NORTH FIELD, Guam — The North Field Bombers are eager to schedule practice baseball games with any of the Island service mines, Lt. Jack Welch, athletic director, announced today. This year's aggregation should be one of the best ever to represent the Nineteenth Bomb Group in Island competition. The mound corps, headed by Red Lewis, a veteran chucker for the Air Force all-stars, has been augmented by the arrival of Harpo Titsworth who was a moundsman for VPI for three years.

The inner cordon has been strengthened by the appearance of Skeeter Hamilton who used to cavort around the keystone sack for Chattanooga in the Southern Association. The latter, together with Peele, Bailey and Quitaro enables the Bombers to present a veteran infield which backs plenty of power and fielding finesse. The only member of last year's garden patrol available for play this season is Babe Stokes. He has the center field job pretty well sewed up while the competition for the remaining two jobs is wide open at the present writing.

The club will be managed by Major Bill Barney, a veteran of the Kitty League where he played outfield for Caruthersville and later Paducah. Managers wishing to schedule practice games with the Bombers may do so by contacting Lt. Welch at Erie 209.

Peace Conference Planned for Latin Loop, Baseball

MEXICO CITY, Jan. 22 —(UP) Organized baseball and the outlaw Mexican League planned a peace conference today at which it was expected that preliminary arrangements would be made to certify the Latin loop into baseball's official family.

The peace conference, which was instigated by U. S. Commissioner A. B. (Happy) Chandler, will be held between Walter Mulbry, Chandler's number one lieutenant and Alejandro Aguilar Reyes, the commissioner of Mexican baseball.

Reyes revealed that Chandler had sent a telegram from his offices in Cincinnatti, O., requesting the conference.

Reyes replied that he would be glad to talk to Mulbry.

Few Complications Halting Halas

CHICAGO, Jan. 22 —(UP)— George Halas, owner-coach of the Chicago Bears Professional Football Team, said today "there are a few minor complications" preventing him from coming to an agreement with All-America Quarterback Johnny Lujack on a contract for next year.

Halas and the Notre Dame gridiron star were scheduled to meet here today and Lujack was expected to sign with the Bears at that time.

Halas talked to Lujack on the telephone "quite a while" last night, he said, and as a result, Lujack will stay at South Bend for the time being.

"There are a few complications," Halas said, "but nothing that can not be straightened out. It's a matter of time and consideration. I think we can iron them out satisfactorily."

MARBO ISLAND BASKETBALL LEAGUE CHAMPIONS—Members of the Hospital team (above) compiled a won 13-lost 1 average to take the championship in the MarBo Island Basketball League. Navy's Olympic Cage Hopes Bolstered by Smooth Quinte

ANNAPOLIS, Md —(UP)— (Special)—Navy's hope in the Olympic basketball picture has gained strength here the past few weeks i. the performance of the quint which is made up of officers and enlisted men from the entire Navy in an effort to mold a strong combination which will vie for the right to represent the United States in the Olympic Games.

Led by former Naval Academy graduates and bolstered by some outstanding enlisted men from the fleet, the Sailors are beginning to shape up as one of the strongest quints along the Eastern seaboard. To date they have copped five straight with a twenty point margin the closest yet. Johns Hopkins University, Naval Air Station Patuxent, Andrews Field in Washington and Crown, Cork and Seal, an amateur five in Baltimore, have been the victims, with the last named two taking two defeats.

Coached by Ben Carnevale, coach of the Naval Academy team, the Olympians floored a team which boasts big names from former years. Kenny Shugart, last year an All America with Navy, is the top notcher, and is teamed up with Ferry Nelson, star of the '45-'46 Navy team, Jack Carroll, captain of the '45-'46 Navy team and Dick Duden, All America end on the football team in 1945 as well as captain and regular on the '45-'46 cage team.

Cubs to Practice On Mainland

LOS ANGELES, Jan. 22 —(UP) Catalina Island, for years the spring training base of the Chicago Cubs was told today to depend on its bird farm to attract tourists. The Cubs will stay on the Mainland this year.

The National League club said they would remain at Wrigley Field because only five days practice could be held at Catalina before their first exhibition game March 6. Commissioner A. B. Chandler has banned spring training before March 1.

Chilly breezes and inclement weather on the island last spring added to the risk of sore arms and legs.

Top Island Fighters Slated for Duty at ComMar Tonight

In the ComMar ring tonight, fight fans will have an opportunity to witness some of the Island's top notch fighters in action on a nine bout card sponsored by Island welfare and recreation officials.

A good part of the fighters will be from Fifth Service where they have been trained in preparation for the fights under the watchful eye of Hiner Thomas, Golden Gloves middleweight champ, while the remainder of the boxers will be from various commands on the Island including MarBo.

Featured in the featherweight bracket will be popular Johnny Kamber who makes his comeback in local ring circles after losing a decision to George Crump in the back. Kamber is slated to tangle with Frank Banda, scrappy MarBo featherweight.

Always a big drawing card, Big Steeves will climb into the squared circle with Huebie Herbert, 103rd SeaBees representative, to highlight the heavyweight division.

James Thinisee, 162-pound apple of Trainer Hiner Thomas' eye, is matched against Dick Jennints while David Avery, Golden Gloves lightheavy champ, is on the books to meet Jim Lyons, 188-pounder.

With the fight scheduled for tomorrow night at 1900 in the ComMar ring, the complete card will be:

Thinisee, 162	vs.	Jennints, 168
Murphy, 148	vs.	Halvorson, 146
Lyons, 188	vs.	Avery, 175
Ellis, 132	vs.	Doyle, 125
Jones, 158	vs.	Inge, 153
Kamber, 124	vs.	Bunda, 127
Steeves, 210	vs.	Herbert, 218
Gatlin, 166	vs.	Jaramillo, 165

Communist Speaker Predicts Fate of U.S., Britain

LONDON, Jan. 23 —(UP)— A Communist party speaker at a Lenin memorial meeting in Moscow said tonight, in the presence of Premier Josef Stalin, that "British and American imperialism are rushing to share the same fate as Germany," a Moscow radio broadcast reported.

Moscow's mention of Stalin's presence at the meeting was the first by a Russian source of his appearance in public since last October, it was believed here. British newspapers reported late last month his attendance at a Bolshoi Theater performance.

The chief speaker at tonight's meeting was Mikhail A. Suslov, one of the secretaries to the all-powerful central Communist party committee and one of the rising young men of the Moscow hierarchy.

American imperialists, Suslov said, were "trying to take the place of Japan and Germany and start a new imperialist war."

"The adventurist policy of America is fraught with great danger," Suslov said. "It should have been thought that the downfall of Hitler would have taught American imperialism and its younger brother Great Britain something. But British and American imperialism are rushing to share the same fate as Germany."

CIO Executives Vote Against Third Party

WASHINGTON, Jan. 23 —(UP) The CIO executive board tonight voted, 33 to 11, to put the labor organization on record against a third political party, but Left-Wing union leaders promptly served notice that they will ignore it.

The board, which determines all CIO policies, decided after eight hours of stormy debate that a third party is "politically unwise" and would weaken rather than strengthen the CIO's chances of electing "a progressive Congress."

Henry A. Wallace's third party presidential candidacy was not mentioned by name, but the action was taken as a slap at him and also at the Communist party.

Harry Bridges, president of the International Longshoremen's and Warehousemen's Union, announced at a news conference that the 11 dissenting unions will ignore the policy declaration, but will not break away from the CIO.

The board's decision was a major victory for President H. Murray, but he admitted "there is absolutely nothing we can do" if the Left-Wing unions refuse to observe it.

Japanese Torture Told by Fliers

TOKYO, Jan. 23 —(UP)— Japanese torturing of three American flyers captured after the Doolittle raid on Tokyo was described in painful detail today before the Allied War Crimes Tribunal.

Aimed by the prosecutor at defendant Shunroku Hata, former commanding general of the Japanese Army in China, the evidence told the ordeals suffered by the pilots as they were given the "water cure," the leg-crippling "bamboo squat" and the "stretcher" treatment by enemy intelligence officers.

Ordered Torture

Hata is accused of ordering the torture of Capt. Chase J. Nielsen and Lts. Dean E. Hallmark and Robert J. Meder, all members of the 95th squadron, 17th U. S. Bomber Group, captured after the raid in China.

Charging Hata with direct responsibility, the prosecution read excerpts from the trial of Japanese officers who personally tortured the flyers and statements by Captain Nielsen who survived.

Describing the living nightmare, Nielsen said that guards had held him while water was poured on his face until he became nearly unconscious from strangulation. Bamboo poles were lashed behind the knee tendons of the flyers, Nielsen said, and they were forced to squat for hours in a rigid and excruciating position.

Republican Leaders Favor Hoover's Drastic Revision

WASHINGTON, Jan. 23 —(UP)— Sen. Robert A. Taft of Ohio and several other Republican leaders today rallied round former president Herbert Hoover's call for drastic revision of the Marshall plan.

The ex-president tore into almost every phase of the administration's program for European recovery. The revisions he proposed would slash more than $4,000,000,000 from President Truman's request for a $6,800,000,000 Marshall plan down payment.

Taking Stand

Mr. Hoover's views were set forth in a 3,500 word critique submitted the Senate Foreign Relations Committee. There were immediate indications that foes of the administration program would take their stand around a "Hoover plan."

Taft, chairman of the Senate GOP policy committee, told the United Press that Mr. Hoover's views were "right in line with what I've been saying."

And Republican Whip Kenneth S. Wherry, Neb., sparkplug of a 20-man GOP group to "revise" the Marshall plan, said Mr Hoover's views would be given "most thorough study." Wherry endorsed many of Mr. Hoover's conclusions.

Taft Favors Knutson's Income Tax Cut Bill

WASHINGTON, Jan. 23 —(UP) Robert A. Taft, (R-O.) said today he would favor the $5,600,000,000 Knutson income tax bill if government finances "will support it."

Taft and most Senate leaders withheld any rigid tax commitment, however, until they get a better idea on how much the government will spend in the next fiscal year. Taft, who heads the Senate GOP Policy Committee, told newsmen he doubted the Senate would take up tax legislation until after the Marshall plan is out of the way.

Up For Study

The entire question of government spending in the 1949 fiscal year came up for study today as the 102-member joint legislature budget committee met to start overhauling President Truman's $39,668,000,000 budget proposals.

Chairman John Taber, (R-N. Y.,) of the House Appropriation Committee sounded a budget slash of up to $5,000,000,000. He said this would enable Congress to approve the Knutson tax cut bill and still pare $4,800,000,000 off the national debt.

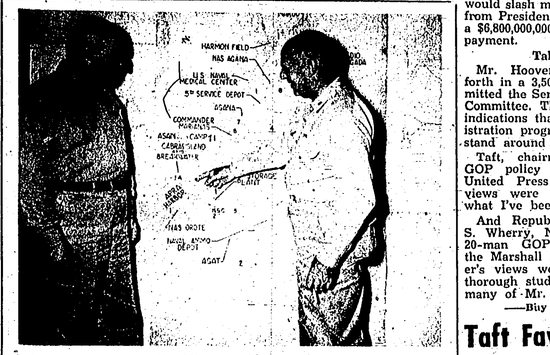
—March of Dimes—

Knutson Predicts Tax Cut Law by March

WASHINGTON, Jan. 23 —(UP) Rep. Harold Knutson, (R-Minn.,) predicted today that his "veto-proof" income tax cut plan will become law by March 15—the day most of the nation's taxpayers will be shelling out for what they earned in 1947.

He based this optimistic forecast on the response which Senate and House GOP leaders gave to former president Herbert Hoover's recommendations for drastic reductions in proposed spending under the Marshall recovery plan.

The 102-member joint legislative budget committee held an organization meeting this morning, elected Sen. Styles Bridges, (R-N. H.,) chairman, and named a 20-man subcommittee to tackle the preliminary job of overhauling Mr. Truman's new $39,700,000,000 federal budget.



Radm. E. L. Marshall, USN, special assistant to Commander Marianas, right, explains the port facilities of Apra harbor to Commodore J. E. Maher, USN, member of the ten-man on-site survey board, which is presently making a tour of the installations on Guam. (Guam News Photo)

Opening of Camp Asan Set For February First

COMMAR HILL, Jan. 23 — Commander Marianas today released information setting the target date for the opening of Camp Asan as February 1, 1948.

Prior to this date, the announcement said, the Commander, Naval Operating Base, Guam, will receive this camp together with all the permanent and movable equipment and an inventory thereof from the officer in charge of NOy contracts for the Navy and assume administrative control.

On this date the Island Public Works will commence to provide maintenance of buildings and services for this camp, the announcement said.

Commander, NOB, Guam, was instructed to provide Commander Marianas with a list of the request ratings for the operations of Camps Piti and Asan and to recommend an officer desired as officer in charge of camp Asan.

The announcement said the required Navy ratings will be assigned for the operation of these camps in proportion to a number of civil service employes.

Physicians Cleared Of Blame of Death

MINNEAPOLIS, Jan. 23 —(UP) Physicians at the city-owned general Hospital were absolved tonight of any blame in the death of a four-month old boy who died on the desk of Mayor Hubert Humphrey while his parents were waiting to protest the hospital's refusal to admit the ailing child.

The seven-member board of public welfare voted unanimously to clear the physicians after a 90-minute public hearing at which the baby's mother tearfully reported that she had pleaded for three hours for permission to leave the baby at the hospital overnight for treatment.

Four doctors who examined the baby when the parents brought it to the hospital Monday night, testified that they were unanimous in their opinion that the baby's condition was not serious enough to require hospitalization at the time. The baby died from tracheal bronchitus yesterday, 12 hours after it had been denied admission.

The board, headed by Mayor Humphrey, returned this verdict: "On the basis of testimony in today's hearing, the board finds no dereliction of duty on the part of attending physicians at General Hospital."

Pauley Asks Stassen to Show Specific Evidence

WASHINGTON, Jan. 23 —(UP) Edwin W. Pauley, asserting that he has suffered "irreparable harm" from Harold E. Stassen's grain gambling charges, asked today that Stassen be forced to produce specific evidence when the two meet face-to-face before Senate investigators on Friday.

Pauley fired the latest salvo in a bitter duel with Republican presidential aspirant Stassen in a letter to Chairman Homer Ferguson, (R-Mich.) of a Senate subcommittee, investigating commodity speculation by alleged government "insiders."

Pauley, who is quitting both his administration posts shortly, reiterated his charge that Stassen made "false statements" when he accused him of reaping huge profits through "inside information" on government commodity markets. "I will go further to say it has been irreparable because public opinion is never impressed by a reputation as strongly as it is by an accusation."

—March of Dimes—

Vets Don't Use Counseling Service

MINNEAPOLIS, Jan. 23 —(UP) Less than half of the veterans attending colleges and universities across the country have taken advantage of counselling services offered as an aid in the choice of careers, a survey indicated today.

A cross-section of college veterans polled indicated that only 40 per cent sought veterans administration counsel and 50 per cent counsel offered by the colleges.

The survey was conducted by interviewers of the American Council on Education and financed by the Disabled American Veterans. The results were released here through University of Minnesota Dean E. G. Williamson, survey chief.

Headline Highlights

WHITE SANDS, New Mexico, Jan. 23 —(UP)— A White Sands, New Mexico public relations officer said today that revised figures showed that a German V-2 rocket tested here today "fell short" of the 114 mile altitude record established Dec. 17, 1946.

ATHENS, Greece, Jan. 23 —(UP)— The government was reported to have executed five persons and arrested 60 others today in its drive to spamp out subversive elements.

WASHINGTON, Jan. 23 —(UP)— President Truman today spurned former president Herbert Hoover's proposal for drastic changes in the Marshall European recovery plan, and the political repercussions in Congress raised a threat to his bi-partisan foreign policy.

FRANKFURT, Germany, Jan. 23 —(UP)— Two million Bavarian workers were called out tonight on a 24-hour strike, effective at midnight, (6 p. m. EST) in protest against food conditions.

LAKE SUCCESS, N. Y., Jan. 23 —(UP)— Great Britain informed the United Nations today that for security reasons, Britain must continue to limit Jewish immigration into Palestine, and would refuse to open up an immigration port as the UN General Assembly requested.

Captain William H. Rafferty, Commander Marianas area chaplain, beginning this Sunday will conduct the 1030 Protestant Services of Divine Worship in the Headquarters Chapel.

Chaplain Henry H. Wells, assistant area chaplain will conduct the 1030 Protestant Services at the Chapel of the Palms.

Air, Ground Groups Search for C-47 Transport

DENVER, Jan. 23 —(UP)— Air and ground mountain disaster groups searched today for a C-47 two-engined transport plane, with three men aboard, believed down somewhere in the rugged, snow-covered Rocky Mountains west of Denver.

Terrific Downdraft

The airplane, enroute from Denver to Grand Junction, Colo., was last heard from by Denver and Cheyenne, Wyo., airports at 4:22 p.m. yesterday, 20 minutes after taking off. At that time the pilot, identified by the Civil Air Patrol as Fred Snavely of Kansas City, Mo., said the plane had just hit a "terrific downdraft."

The two other passengers in the plane were identified as Warren Lungstrom, also of Kansas City, and Ralph Brown, Denver. Snavely and Lungstrom were Civil Aeronautics Administration men on a business trip.

CAA officials at Stapleton Field, Denver, said their computations located the plane then somewhere near Berthoud Pass. The pass, more than 11,000 feet high, is about 60 miles west of Denver. Over it runs all-weather highway 40. Surrounding peaks tower more than 13,000 feet.

20 Killed in Riots Near Jaffa

JERUSALEM, Jan. 23 —(UP)— At least seven Jews and 13 Arabs were killed today in two battles on the outskirts of Jaffa when each side attacked a convoy belonging to the other.

10 Killed in Convoy

Official reports said seven Jews and three Arabs were killed when Arabs attacked a Jewish convoy bound for Jerusalem. The attack took place at the village of Yazour, four miles east of Jaffa.

Snipers killed seven Jews and wounded three out of 10 special Jewish policemen running interference in an open truck at the head of the convoy.

The Arab attack followed Jewish action yesterday in blowing up 10 Arab houses in the Manshieh sector of the border land between Jaffa and Tel Aviv.

In other actions yesterday, two Arabs were killed and a Pole and an Arab wounded by Jews at a Jewish roadblock near Jerusalem. Police said Jews opened fire on an Arab family which was evacuating its furniture by truck.

Weather Forecast

Partly cloudy. Occasional moderate showers. Moderate easterly winds with strong gusts.

Yesterday's temperature: Max. 85; Min. 76.

Yesterday's Rainfall: 0.15 inches

Rainfall for month: 7.74 inches

Russia Signs Agreement

MOSCOW, Jan. 23 —(UP)— Russia has signed a trade agreement with Belgium, the Netherlands and Luxembourg calling for exchanges of goods, a Belgian source said today.

The agreement, said to be the largest deal the Soviet Union has made outside eastern Europe since the war, was concluded after nearly eight weeks of negotiations in Moscow between Soviet trade officials and a delegation from the lowland nations.

Navy Medical Unit Bound for Africa

WASHINGTON—The Naval medical unit of the University of California's African expedition sailed for Egypt on January 14, 1948, to begin a years search for medical findings that will implement the prevention and cure of tropical diseases.

Heading the Navy unit is Commander H. M. Amberson, (MC), USN, of the Naval Medical school, Bethesda, Maryland. Others in the unit are Commander T. L. Ruebush, (MSC), USN, parasitologist; Dr. R. E. Schwarz, zoologist; D. K. Lawless, Chief Pharmacist's Mate, USN, parasitology technician; Harley S. Cope Jr. PHOM2, USN, all of the Naval Medical School; and Mr. Harry Hoogstrall, entomologist, of the Field Museum, Chicago. Chief Lawless is now in Cario, Egypt.

The expedition will leave Alexandria, Egypt, early in February, and will follow a southerly course through central Africa to the Cape of Good Hope.

The safari will go through the Nubian Desert, and explore an area in which major collections were made last in 1830 by Ruppell, Hemprich, and Ehrenberg. Dr. Amberson stated that "The Nubian desert, therefore, is almost virgin territory from the zoological point of view and quite unworked from a medical aspect."

—March of Dimes—

Little Red Schoolhouse

BROOKLINE, Vt. —(UP)— Still standing here is the only round red schoolhouse in America—and therein lies a tale.

In 1882, a tall, handsome man who identified himself as Dr. John Wilson appeared in this village and applied for a job as school teacher. Hired immediately, he soon arranged to have built the round red schoolhouse which, with five windows, commanded a view of approaches from all directions.

Not until Dr. Wilson died was it learned why he wanted to teach in a schoolhouse which provided such excellent visibility. Through certain physical defects and other clues, Dr. Wilson was identified in death as the notorious Capt. Thunderbolt, a criminal who had escaped from a British prison and sailed for New England.

Marines Feared Taken By Chinese Communists

WASHINGTON — Marine Corps headquarters recently announced the names of the five Marines in China who disappeared on Christmas Day, while on a hunting trip.

They are: Cpl. William L. Pollard, Fort Worth, Texas; Pfc. Carol W. Dickerson, Olathe, Kansas; Pvt. Robert Hart, Pittsburgh, Pa.; Pfc. Thomas Kapodistria, Buffalo, New York and Pfc. Charles J. Brayton, Jr., Fort Jay, Governors Island, N. Y.

Prisoner Quizzed

The five Marines, who last were seen in the vicinity of Wangtan Yeun on December 25, passed into Communist territory at 9:30 a.m. over the protests of two Nationalist guards on post at Lingchan.

Subsequent reports that one of the Marines was killed in a fight at Wangtan Yuen are still unconfirmed. However, Marine authorities in the area reported that intelligence officers have interrogated a Communist prisoner, held by the Nationalists, who states that one Marine was killed in an encounter with Communist forces. The four remaining Marines were taken prisoner, and were taken to Hisa Ko Chuang for transfer to higher Communist headquarters, according to the prisoner.

The application for bond allotment payroll deduction that appeared in GUAM NEWS is for service personnel only. Some misunderstanding has resulted in civilians trying to make bond allotments. A campaign for civilian bond allotment payroll deduction will be announced later.

The best buy every month is a U.S. savings bond. It's easy! It's wise. And profitable, too. Join the payroll savings plan.

HAPPY REUNION—First Lieutenant Stanley E. Kramik, 'S-4 officer of the 5th Marines, 1st Provisional Marine Brigade, is pictured greeting his wife shortly after her arrival on Guam aboard the Navy transport USS General Mann.

Wright Field Compiles Aeronautical Index

DAYTON, O. —(UP)— A standard aeronautical index embracing every known subject on the field of aviation is being compiled at Wright Field. The air documents division of the air material command's intelligence department is in charge of the work.

The index, a joint project of the Army, Navy and Institute of Aeronautical Sciences will provide the world with ready access to almost every topic in the history of aviation. The list also will include projects rejected as impractical or impossible.

Finished Soon

Col. H. M. McCoy, head of the intelligence department, estimated that the records division would be caught up with the tremendous task some time during the present fiscal year, probably before July 1.

Col. McCoy said the index is now the main occupation of the document division, which has just completed the job of cataloging the tons of German documents captured by Air Force intelligence during and after the war.

He pointed out the need for such an index had existed for a long time and was stressed recently by President Truman's air co-ordinating committee.

"This is the first time an index of this type had been attempted," Col. McCoy said. "It will be a continuous project aimed to provide a standard and centralized information service for all authorized military and civilian agencies."

Island Coral Club Opens

A club for men only, the beautiful and luxurious Coral Club located on the coral beach just a few feet from the surf and surrounded by jungle is one of Camp Ethridge's finest attractions.

The club has a long veranda overlooking the ocean, and dozens of little tables and also booths—total seating capacity, 150 persons. Sandwiches and hamburgers, beer and pop are served in this new club.

This club is to provide a place for the civilian construction workers to relax, undisturbed by members of the "fairer" sex sporting around in these modern "swimming" suits.

New 'Ape Man' For Moviegoers?

HOLLYWOOD—A local Tarzan club, which has been seething for five years over movie versions of their idol, came out in the open today and blasted all Hollywood Tarzans as "fumbling bums who run around naked, grunt, and chase scantily-clad females up trees."

They, growled the members, don't come anywhere near the "intelligent gentleman" Edgar Rice Burroughs had in mind when he created the jungle man.

"We started boycotting Tarzan movies back in 1942," president Thomas E. Abraham said.

Modern Tarzan

In fact, he said the boys were batting the subject around the other night. Even drew up a tentative list of "the men who most resemble the fictional character of the former ape-man."

Douglas Fairbanks, Jr., would make a fine "modern Tarzan," they decided. He's pretty good at flying through trees and he can express himself without grunting.

Notre Dame's football star, Johnny Lujack, was another. The engineers figured his "panther-like subtility and attack" would come in handy with lions and tigers.

If the movies could just find somebody like General Eisenhower, Abraham sighed. He's got plenty of strength—but it's controlled and dignified. I can't imagine him chasing some blonde up a tree."

Symphony Concert At Palm Beach

NSC——The sixth in a series of recorded programs of concert music will be held Sunday, 25 January 1948 beginning at 1930 at the Palm Beach Officer's Club.

The initial part of the program will consist of the "Overture to Carlos Bruegnon" by Kabalovsky, "Classical Symphony in "D" Major by Prokoffief and the reknown "Prelude to Act III of Lohengrin" by Richard Wagner.

To Play "Bolero"

Following the intermission will be heard Ravel's "Bolero," "Rosenkavalier Waltzes" by Richerd Strauss, and the "Russian Sailor's Dance" (from "The Red Poppy") by Gliere.

All officers of the Navy, Marine Corps and Army, and other persons entitled to guest privileges are invited to attend this event. A special invitation is extended to civil service residents of Rocky Point for the program.

Recordings used on these concerts are provided by Mr. Isherwood of the Luzon Stevedoring Company and the Radio Station WVTG.

—March of Dimes—

Frightened Team Bolts Smashes Automobile

ODESSA, Tex. —(UP)— Comparable to the "man bites dog" story was a freak accident in this west Texas city in which a horse-drawn wagon rammed an automobile.

A team of horses hitched to the wagon was frightened by a passing car while grazing on a vacant lot. The team bolted into the street.

The wagon tongue speared the hood of the auto, and as the horses continued to run, the car was pushed about 60 yards from its parking place.

Damage to the car, estimated at more than $200, included a broken radio, a smashed carburetor, shattered parking lights and a cracked windshield.

India Sets Air Record

NEW DELHI, India —(UP)— Indian air lines have established a new world safety record, according to statistics of the Civil Aviation Department of the Indian government.

Only two passenger fatalities occurred in nearly 5,000,000 miles of air travel.

The report showed an increase of 80 percent in passenger traffic, with 121,060 passengers carried during the first half of last year. During the last six months, nearly twice as much air freight was handled by India's air lines as was carried during the whole of 1946.

The majority of the commercial airplanes in use are twin-engined Douglas DC-3's, plus a few British Vikings.

India's air lines played an important part in evacuating the refugees from the riot-stricken areas. Schedules were tripled and quadrupled in many instances to handle the heavy increase in passengers, most of whom had never been inside an airplane before.

Navy Adopts Improved Parachute

WASHINGTON — A new nylon parachute, which is larger, safer and more efficient than the present Navy models, has been ordered to replace the standard parachute used in Naval aviation for 25 years.

Made of "rip-stop" nylon, a waffle-weave material fashioned with heavy cross threads at quarter-inch intervals to help prevent tearing, the new parachute has a 28-foot diameter, four feet more than the present model.

Tests have shown that the new parachute lessens the opening shock received by the pilot, provides a slower rate of descent, and gives added safety in high-speed bail-outs. Although larger, it is not appreciably heavier than the standard 24-foot parachute, and can be packed in the same container.

Ken Fons Leaves Guam for Olympic Tryouts

Over The Joepot

— by Bill Jury

One thing and Another....Football stars seem to make good material for movies....There was the cinema on the life of the great Irish mentor, Knute Rockne, then the flickers came up with follow-ups on Bruce Smith of Minnesota, Michigan's Tommy Harmon, Doc Blanchard and Glenn Davis of Army in the new release, "The Spirit of West Point" and now it's being whispered that the producers are hot after Johnny Lujack.

One Hollywood correspondent mentioned that a movie official had contacted the stellar Irish All America to ask him if he was interested in putting his life on film. 'Mr. Quarterback of 1947" is said to have replied, "Yeah, maybe, for $100.000." Whish!

After the bowl games were over and the football season had been officially ushered out the back door in preparation for basketball, grid fans popped up with one of the loudest controversies since some guy threw his overalls in Maw Murphy's chowder....Which is better, Michigan or Notre Dame?

Otto Schnering, Windy City candy manufacturer, offered to donate some $50,000 to charity if Notre Dame and Michigan would meet in a post season game to decide the mythical national football championship.

Unfortunately, the rules of the Western Conference, of which the Wolverines are a member, prohibit participation of post season games except for the Rose Bowl conflict. The Fighting Irish, likewise, have a similar policy toward post season games.

When Ken Fons, high scoring all-star forward, hopped over the horizon yesterday bound for Annapolis and the Olympic tryouts, he left the Guam cage stars in more or less a jumble.

Coaches O'Brien and Douglass mumbled a few unprintable words, shed a tear or two and then started to salvage the team with which they plan on winning the WesPac crown.

There's definitely a large empty looking hole up in the forward ranks that needs filling after the Fons-Annapolis-Toodle-oo deal. That's going to get top priority say the all-star tutors. A primary shuffling of the lineup yesterday saw Squires and Arey at forward, Horan at pivot and Cassidy and Edwards in their same guard positions. That might do it but tonight's meeting with North Field will have more to say about it than anyhing.

Johnny Kamber Pulls Quick Kayo Over Frank Bunda in ComMar Ring

Popular Johnny Kamber made his comeback bid last night in the ComMar ring by scoring a fast kayo in the first round over speedy little Frank Bunda.

The 127-pound Kamber made no mistakes in his first fight since his Golden Gloves defeat a couple of months ago and spent little time in feeling his opponent out. Bunda saw the sandman coming at 1:37 of the first round.

In the opener, Dick Jennings bored into Jimmy Phinisee for three circuits to take a unanimous decision. The first knockout of the six bout card came in the second fight of the evening as Ben Wiley recovered from Joe Murphy's attack to unleash one of his own to tuck Murphy away at 1:45 of the second round.

Fernandres Ellis, 132-pounder, kept Freddie Doyle on the defensive throughout the three rounds to take a unanimous decision from the game, but outclassed Doyle.

The fourth bout of the evening's activities saw David Avery win a shady split verdict over Jim Lyons while Willard Inge poured it on John Jones for three rounds only to break even on the judges' decision of a draw.

After the termination of the bouts each fighter was presented with invitational gloves as a prize for participating in the boxing event.

Frank Bunda, who lost to Johnny Kamber in the evening's top bout, broke his arm when he fell for the full count.

Sophomore Year Jinx Thing to Beat In Major Leagues

NEW YORK, —(UP)— The major leagues are counting on a great many rookies to make the grade next season but the pressure, come 1948, will be on those freshman phenoms of 1947 who come to grips with the much-feared sophomore jinx.

The second year hoodoo isn't to be taken lightly for down through the years it has tapped some of the best on the shoulder. Some came back and some never again made it.

Must Be On Lookout

Those who attained first year success and must be on the lookout include 13 National Leaguers, which may be a bit prophetic. They are Brooklyn's Jackie Robinson, Pittsburgh's Cully Richard, Cincinnati's Frank Baumholtz, Boston's Earl Torgeson, Dodger Spider Jorgensen, Pirate Wally Westake, Glant Lucky Lohrke, Cardinal Chuck Diering and among the pitchers, Giant Larry Jansen, Brooklyn's Harry Taylor, Cardinal Jim Hearn, Giant Ray Poat and Cincinnati's Ed Lively.

The risk is less in the American League because the junior circuit had fewer first year stars.

Among them were: Boston's Sam Mele, the A's Ferris Fai, Detroit's Vic Wertz, the Yankees' Yogi Berra and Ralph Houk, the Browns' Ray Coleman, Washington's Eddie Yost and among the pitchers, Vic Raschi and Karl Drews of the Yankees and Bill McCahan of the A's.

—March of Dimes—

Lujack to Meet Halas in Bear Office

CHICAGO, Jan. 23 —(UP)— Johnny Lujack meets George Halas, owner-coach of the Chicago Bears, in the Bear's office tomorrow, and it's better than an even bet that before dusk the star Notre Dame quarterback will agree to play for the National League club next fall.

According to Halas, only "minor complications" remained to be settled after a telephone conversation between the pro mogul and the 22-year-old Polish quarterback.

Western All-Stars Take 34-20 Win

LOS ANGELES, Jan. 21 —(UP) The Western All-Stars, eating up yardage with a passing team of Texas' Bobby Layne to Oregon's Jake Leicht, scored a 34 to 20 win over the Eastern All-Stars in a sparkling post season exhibition before a lonely 3,000 fans today.

The contest attracted some of the nation's outstanding grid stars of the 1947 season but cost private promoters an estimated $25,000 when it failed to draw.

The Layne Leicht combination scored one touchdown, set up another and contributed several other sizeable gains. Fullback Joe Perry of the Westerners turned in the outstanding running performance of the afternoon.

Local Cage Star Boards Plane for Annapolis

Guam's basketball stock took a sharp drop yesterday morning when Ken Fons boarded a plane for Annapolis at 1100, less than four hours after orders were received from BuPers to send the former ComMar forward there for a tryout with the Navy Olympic basketball team. A despatch received early yesterday morning by staff welfare stated that Fons should proceed to the academy as soon as possible, and the necessary arrangements were made in record time.

In response to a message from ComServPac in December, the names and records of five local players were sent to the Olympic committee at Annapolis for consideration. Of the five—only Fons was chosen.

His record in Island sports is impressive, to say the least. Last year, as sparkplug of the ComMar team, he averaged 18½ points for three fourths of the season, and when he left for a leave in the States, the undefeated Hilltoppers promptly tumbled down to fourth place. He pitched for the ComMar baseball squad, batting .350 and wound up with an earned run average of 2.4, the lowest in the league. Turning to softball, he played second base for ComMar, led them to the Island championship, and then batted .500 in the WesPac tourney, which Guam won.

This past year he has been even more spectacular on the basketball court, scoring 543 points in 23 games and pacing ComMar to the Island championship.

Fons was as amazing on the court as his record indicates, and for it was all but idolized by men at ComMar and was ridden unmercifully by followers of the opposing teams. He was greeted at every court except ComMar with jeers about his constant shooting. They were, more often than not, silenced when Fons' individual point total soared over 20, or in several cases, 30 for the night.

The loss of Fons to the Island all star team was a serious blow. Chief Douglass, all star mentor shook his head sadly and muttered, "It sure is an awfully tough blow." Douglass had been grooming the team as a speed concious outfit to combat the height of the China team, and Fons was an important cog, if not the hub, of the fast break. The Guam chances of winning the WesPac tourney and making the trip to Pearl Harbor were lessened considerably with Fons' departure, but they still have a potent club built around Lew Arey, Buzzy Squires, Larry Horan, Red Edwards and Cy Cassidy which will be very much in the running, and they still are confident of coming through.

(Guam News Photo)

All-Star Five To Meet North Field Tonight

Cage fans on the Island will get their first look at the Guam All-Stars in action tonight as they tangle with the North Field five in a kings-X affair on the ComMar court.

Nothing is at stake except prestige while it will offer both squads a good chance at some much needed practice.

First Practice Game

For the Guam All-Stars, the Navy team which will represent Guam in the WesPac tourney next month, it will be the first practice game since the team was formed some two weeks ago and will provide an opportunity to work the wrinkles out of their offense and defense as well as the kinks out of the lineup.

Meanwhile the Air Force quintet, one of the powerhouses at the Army end of the Island, will be prepping for their all-important tournament clash with other top Army teams.

Minus the talents of high scoring Ken Fons, the Navy crew will have a fight on its hands tonight. Tip-off time is scheduled for 1900.

Qualified wrestling referees are urgently needed for All Navy eliminations at NAS Orote. Any civilian or serviceman who has had experience and wishes to apply, call Lt. Sauter at Boston 8179.

Differences Ended Between U. S. Ball, Mexican League

MEXICO CITY, Jan. 23 —(UP)— Mexican High Commissioner of Baseball Alejandro Aguilar Reyes announced tonight that "all differences between the Mexican League and organized baseball in the United States have ended."

He predicted formal recognition of the outlaw Latin loop by organized baseball "in the near future" as a result of preliminary "peace talks" with Walter Mulbry, assistant to A. B. (Happy) Chandler, U. S. baseball commissioner.

"Mr. Mulbry told me that Commissioner Chandler is greatly interested in reaching an agreement respecting the sovereignty of Mexican baseball" Aguilar said in a formal statement.

He said he was optimistic that a formal agreement "pardoning" the Mexican League for its raids on major league stars in 1946 could be reached.

Aguilar said one of the bases of such an agreement which he would insist on would be that any players who left organized baseball to play in Mexico would regain their playing rights in the United States. He said this was the most important problem.

Earl M. Brown Named Head Coach at Auburn

AUBURN, Ala., Jan. 22 —(UP) Earl M. Brown, an end at Notre Dame nine years ago and recently acting head coach at Dartmouth, tonight was named head football coach at Auburn of the Southeastern Conference.

Acting President Ralph Draughn made the announcement, after several weeks of searching to find a successor to Carl Ceyes, who was appointed today to coach the Brooklyn Dodgers of the All-America Professional Conference.

COLOR PRINT SERVICE

by KODAK

KODACOLOR PRINTS are snapshots in Full Color. They can be ordered only through your Kodak Dealer. Kodacolor Prints are usually ordered at the time the film is left with us to be sent in for developing. On "develop-and-print" orders, only those negatives are printed which, in the opinion of Kodak's operators, will yield prints that will be satisfactory to you.

Additional Kodacolor Prints from Kodacolor negatives may be ordered at any time from us. All Kodacolor Prints are made approximately 2-7/8 inches in width.....Kodacolor negative inches in width.....The length being determined by the proportions of the Kodacolor negative. Black-and-White prints may be made from Kodacolor negatives by regular photographic printing methods.

KODACHROME PRINTS are full-color enlargements made from your original 35mm. (24x36mm) or Bantam (28x40mm) transparencies. They can be ordered ONLY through your Kodak dealer. If you should want Kodachrome Prints made of the time your Kodachrome Film is processed, bring the film to us and request that we send it to Rochester with a process and print order. On such orders, Kodak will print only those transparencies which, in their opinion, will yield prints that will be satisfactory to you. When you are selecting transparencies from which Kodachrome Prints will be made, check carefully for accurate color rendering, sharp definitions, correct exposure, and low contrast.

KODACHROME PRINTS are made in four standard sizes from original Kodachrome transparencies. These standard sizes of Kodachrome Prints utilize the full, uncropped picture area of the transparency. The 2X and 3X sizes are furnished unmounted and printed without margins. The 5X and 8X sizes are delivered in handsome oversize double mounts. The sizes and prices of standard Kodachrome Prints are as follows:

KODACHROME PRINTS (About 2½ x 3½ in.), ea.	$ .60
6 or more prints, each	.50
Kodachrome Prints 3X (about 3x4-3/8 in.), ea	.85
6 or more prints, each	.75
Kodachrome Prints 5X (5x7½ in.); each	2.75
3 or more prints, each	2.35
Kodachrome Prints 8X (8x11 in.),each	5.80
3 or more prints, each	5.05
Kodacolor Prints (Any size negative)	.35
(Minimum charge, $1.) on all orders.	

COLOR PRINT SERVICE is available ONLY through your Kodak Distributor or Dealer

Army Secretary Royall Spurns Engel's Advice

WASHINGTON, Jan. 24 —(UP)— Secretary of Army Kenneth C. Royall gave Rep. Albert J. Engel, (R-Mich.), a military brush-off today when the congressman filed a belated complaint about "dirty work" in the Army.

Engel told the House that when he was touring the China-India theater with other members of a military appropriations subcommittee shortly after V-J Day he discovered the Army was destroying all kinds of valuable supplies like gloves, flight jackets and airplane suits.

The Congressman said their official guide was Maj Gen. George C. Richards, the Army budget officer. He said Richards "did everything in his power to cover up and prevent our committee from obtaining information."

He reported the incident recently to Royall. And the secretary instead of reprimanding Richards has promoted him to the post of Army Comptroller.

The Congressman said Richards probably would be promoted to Lieutenant General. But he said Royall ought to give the General seven stars instead of three, inasmuch as he thinks the promotion is based on Richards' ability to "cover up Army dirt."

Asked for comment, Royall said he didn't think Engel was "a man to reply to," and anyway he hadn't read the Congressman's remarks.

'No Planting of Military Men' Says Forrestal

CHICAGO, Jan. 24 —(UP)— Secretary of Defense James V. Forrestal said today that there is "no conscious plan to plant military men throughout the government."

Forrestal, who flew here from Washington for an off-the-record talk before the Commercial Club of Chicago tonight, told newsmen that he believed "it is bad to plant men from any particular group throughout the government."

He made the statement in response to a query for his views on appointment of military personnel to government jobs in general.

Forrestal said that he had received a letter from Congress today for his comments about government appointments for military men. "I think," he said, "that our government needs the views of an accumulation of men from various groups."

Eisenhower On California Ballot

LOS ANGELES, Jan. 24 —(UP) Gen. Dwight D. Eisenhower's name will be placed on the California primary election ballot as a Republican presidential candidate, sponsors announced today.

An organization pledged to back the General has forwarded articles of incorporation to the state capital at Sacramento under the title of "Man of the Hour, Inc."

Organizers of the movement said they had not contacted Eisenhower for permission to work on his behalf as a candidate. Such permission is not required because the articles of incorporation did not carry Eisenhower's name.

Gen. Eisenhower can halt their efforts only by an outright repudiation, otherwise his name can be placed on the primary ballot without his committing himself.

—March of Dimes—

Russian Blocked From Canadian Camp Tour

OTTAWA, Jan. 24 —(UP)— The Soviet military attache was denied permission today to accompany other foreign observers on an inspection of the Canadian Army's newest long range guns at Camp Shilo, Man.

The National Defense Department announced that "in accordance with the principle of reciprocal treatment" Russia would not be allowed to visit Canadian military bases until Canadian attaches in Moscow were allowed to make similar inspections of Soviet army installations.

The Camp Shilo inspection party, which included military representatives of the United States and the United Kingdom was scheduled to leave here by air on Sunday and return Tuesday. The group will make a general tour of the camp and witness the firing of artillery weapons.

FRANKFURT, Jan. 24 —(UP) An estimated 2,000,000 German workers walked out on a 24-hour general strike to enforce approval of an emergency food program.

Dispatches from Munich, largest city in the American zone and third largest in Germany, said that life came to a virtual standstill. All streetcars halted and the only public services still going were gas, electricity and hospitals. The main railroad station was reported as quiet as a tomb.

102 Dead as Cold Wave Sweeps Nation

CHICAGO, Jan. 24 —(UP)— The most severe cold wave of the winter engulfed the nation from the Rocky Mountains to the Atlantic Coast today, a snow storm swirled across Dixie Land, and the mercury in the midwest skidded as low as 30 degrees.

The number of deaths attributed directly or indirectly to the 10-day siege of cold rose to 102 today. Eighty-two persons had died in fires or explosions caused by overheated stoves, 16 had frozen to death and two had died of overexertion in sub-zero weather. Two more, an elderly man and his wife, were asphyxiated by gas from a leak which authorities blamed on the cold wave.

The great mass of frigid air over the nation extended from the Canadian border southward 1,000 miles into Texas and Mississippi, and eastward from the Rockies into England.

Chili, Wis., had a temperature of 25 degrees below zero during the day.

Snow and sleet, which covered many sections of the nation, fell in southwest Louisiana and up through Mississippi and Alabama. It snowed all day at Birmingham, Ala., and more than an inch was recorded in the late afternoon. The temperature at Birmingham was expected to drop to zero during the night.

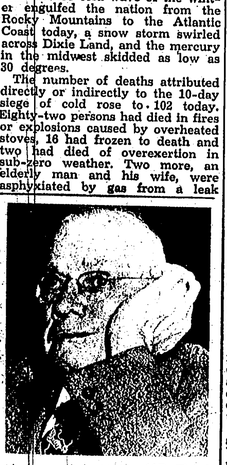
At Detroit, the cold weather threatened to idle 500,000 automobile workers. The industry shutdown would affect General Motors, Chrysler, Packard, Briggs, and other major plants. The shutdown would be felt for only one day, since the plants do not operate Saturday or Sunday.

At Memphis, a gas main broke, reducing the pressure for most consumers in the city, which has a population of 375,000. The forecast was for a temperature of five degrees below zero at Memphis tonight.

The steady stream of cold air sweeping down from the Canadian Yukon brought further hardship to more than 100 midwestern communities, most of them in Minnesota and Wisconsin, which have been stricken by a critical shortage of fuel and oil.

At Fairbury, Neb., some 200 families were without heat in sub-zero temperatures and hundreds of others ate cold meals after fire destroyed a natural gas station supplying the city. Officials promised resumption of service sometime tonight.

The U. S. Army engineers sent a diesel towboat down the Illinois river to break up a huge ice jam near Marseilles, Ill., and permit 16 barges of coal and oil to proceed to Chicago.



(AP Photo)

WASHINGTON, Jan. 24 —(UP) President William Green of the American Federation of Labor today proposed a longer work week with overtime tax to halt new wage demands and thus ease inflationary pressures.

He said he would be prepared to seek management-labor agreement on a longer work week if Congress strengthens rent controls, curbs installment buying and enacts other AFL-sponsored anti-inflation curbs.

Truman Blasts Third Party at Press Conference

WASHINGTON, Jan. 24 —(UP) President Truman tossed a verbal left hook at Henry A. Wallace's third party today without mentioning his former Secretary of Commerce by name. He dodged questions about his own candidacy.

Obviously enjoying himself, Mr. Truman left his news conference with the impression that he didn't think much of Wallace's presidential candidacy, even though most politicians view it as a serious threat to the Democratic Party in November.

With a broad smile, the President commented that everybody in the United States has a right to be a candidate for president on the ticket of either of the major parties —Democratic or Republican.

A reporter cut in to ask, "third party, too?"

Yes, said Mr. Truman, a third party, too.

He then volunteered the statement that, in his opinion, a candidate would have a better chance of being elected if he ran for one of the two major parties.

Woman Dies in Suicide Pact With Nip

YOKOHAMA, Japan, Jan. 24 —(UP)— A 40-year-old Army sergeant, informed that his school teacher wife had died in an apparent suicide pact with a Japanese artist, begged yesterday that news of the details be kept out of the newspapers, because it was "bad for the occupation."

As for himself, M-Sgt. Leonard Lorance, Portland, Ore., wanted to forget all about the tragedy, which authorities described as "an open-and-shut case."

Lorance's Australian wife, Sylvia, 30, and Rokuo Mitsuhashi, former art instructor at the Yokohama Girls School, were found huddled unconscious in a lonely Japanese railway station on the outskirts of Yokohama Tuesday.

They were rushed to a hospital here, but died without regaining consciousness. Hospital attendants said they had taken potassium cyanide, one of the deadliest of poisons.

Persons who knew Mrs. Lorance at the Yokohama American Army Dependents School, where she was a teacher, said that Mitsuhashi had been a frequent visitor to the Lorance home and that he and Mrs. Lorance had become fast friends as the result of a common interest in art.

Weather Forecast

Partly cloudy. Widely scattered showers. Moderate easterly winds with occasional strong gusts.

Yesterday's temperature: Max. 85; Min. 76.

Yesterday's rainfall: 0.02 inches.

Rainfall for month: 7.76 inches.

Greeks Fight Reds

ATHENS, Greece, Jan. 24 —(UP) Greek troops have opened an offensive against the Communist-led guerrillas on several northern and south-center sectors and have killed, wounded or captured 24 of them, news dispatches said today, quoting military sources.

Vradyni, a Royalist newspaper, said there were indications that the guerrillas were preparing to make a new attack on Konitsa and that guerrillas in the Grammos Mountain area were getting additional supplies from Albania.

The reports of a new offensive were not confirmed by official sources in Athens. But it appeared likely that what newspapers called an "offensive" actually was one of a series of jabs expected to be carried on all winter to keep the guerrillas off balance.

Bevin Claims Russia Leading World to War

LONDON, Jan. 24 —(UP)— Foreign Secretary Ernest Bevin told Commons today that Russia is trying to force its rule upon the whole of Europe and thus "inevitably" leading the world into another war.

In a historic 90-minute speech, he disclosed that Britain has approached Belgium, Holland and Luxembourg with the idea of bringing them into the 50-year alliance that exists between Britain and France.

Looking ahead, Bevin said, "I believe the time is ripe for consolidation of western-Europe."

As to Russian policy and war, Bevin said solemnly: "I am sure the House and the world realize that if the policy is pursued of trying to dominate Europe by any one power by whatever means, direct or indirect—one has to be frank—you are driven to the conclusion that it will inevitably lead to another war.

"I hope that idea will be discarded by all of us."

At another point, he said, referring to Greece:

"There is grave danger that the Soviet government may make a grave blunder in this business. I appeal for great tact. Problems like this sometimes lead to grave developments which we, and I, hope they are anxious to avoid."

Air Force, ATC NATS May Consolidate

WASHINGTON —(UP)— Secretary James Forrestal soon may offer a consolidation of the Air Force, Air Transport Command and the Naval Air Transport Service, aviation industry officials say.

These officials, who asked not to be quoted by name, told a reporter the Defense Chief has tired of waiting for agreement between the heads of the two military transport systems.

They say he is eager to show Congress some tangible results of the efficiency and savings possible in the unified defense establishment.

It was reported that Forrestal intends to name Vice-Admiral John W. Reeves, Jr., commander of NATS, as head of the combined organization, but to make him responsible to Gen. Spaatz, Air Force chief of staff.

A spokesman for the Defense Secretary said the transport merger order is still under consideration. Another military officer said the step appeared logical.

Rear Admiral Robert P. McConnell, USN, commander Fleet Air Wing One returned to Guam January 20 after several weeks operations in the western Pacific. During his operational tour he visited Okinawa, Tsingtao, Shanghai, Hongkong and Manila. Adm. McConnell departed Guam on 3 January and conducted advanced base sea-plane operations while in the various localities. He also conducted advance base exercises with ships and aircraft under his command. (U. S. Navy Photo)

War Trials Reveal Brutal Murders

TOKYO, Jan. 24 —(UP)— A Hawaiian Nisei witness at the war crimes trials today described how the crew of a Japanese submarine chopped, bludgeoned and shot to death 180 victims—including a woman Red Cross worker—they rescued from the sea after torpedoing two allied vessels.

Jiro Nakahara, a radio monitor aboard the submarine when the two mass slayings occurred, told the tale of horror on the submarine deck at the trial of former Adm. Shigetaro Shimada before the International Military Tribunal of the Far East.

Nakahara testified he heard the submarine commander order the crew to get guns, swords and clubs and seize survivors from lifeboats and rafts. The commander told other officers, Nakahara said, that "the naval general staff has ordered all survivors of sunken ships killed."

Under cross-examination, Nakahara admitted he never saw the written words.

Describing the sinking of the Dutch ship Tjisalak in March, 1944, and the SS Jean Nicolet on July 2, the same year, he said:

"As prisoners boarded the submarine their hands were tied behind their backs. After most of them had been seated on the forward deck, four members of the submarine crew brought the prisoners back one by one and they were killed. This kept on for about an hour." Among the 100 brief survivors of the Tjisalak, he said, was a woman who told the Japanese she had been a resident of Japan and was a Red Cross worker.

Churchill Says Seek Settlement

LONDON, Jan. 24 —(UP)— Winston Churchill warned Commons today that the international situation is deteriorating, and urged the western powers to seek a settlement with Russia before the Soviet Union gets the atom bomb.

Churchill spoke on the second day of foreign affairs debate in the House of Commons. Foreign Secretary Ernest Bevin had started it with a charge that Russia was pushing toward war by seeking to dominate all of Europe.

The invention of the atom bomb gave the west a "breathing space" of three or four years, Churchill said, and two years already have passed.

"The best chance of evading war is, in accord with other western democracies, to bring matters to a head with the Soviet government and to arrive at a lasting settlement," Churchill said.

—March of Dimes—

CIO All Out Against Third Party

WASHINGTON, Jan. 24 —(UP) The CIO political action committee tonight voted 7-2 to throw "all of its resources" against a third party movement.

This gave the CIO Right Wingers a clean sweep over Left Wing opposition in three days of policy meetings.

"We know that an untapped reservoir of votes rests within the ranks of our own movement which is greater than the vote of any third party," the committee said in a statement.

Then it called for the registration of 75,000,000 voters and 60,000,000 votes in November "to assure progressive government."

Heavy Bomber Base Taking Shape in Maine

U.S. OK But Tahiti Is Paradise, Says Visiting Islander

ST. LOUIS—(UP)—Tahiti is still the paradise it always has been, and Chief Charlie Maun of the Pacific island can't see why anyone would want to live in the United States.

"Politics? United Nations? We cannot worry about such things," the six-foot, two-inch islander said in halting English.

Philosophy For Happiness

Then he gave his philosophy for happiness. "Plant more, I tell my people, love more, and have more fun."

Swimming and outrigger canoeing and fishing. There is plenty for everybody," he said happily.

Charlie is a direct descendant of the Polynesians who ruled the island when the famed mutineers from the Bounty came ashore. He was in the United States and for the first time, visiting a friend, Cruvant Altman.

Native Dress

When asked if the Tahitian natives really wore sarongs, Charlie said, "Oh, I put on sandals and the women wear dresses when we go to the city of Papeete, but otherwise one wears only a sarong. Why more?

Charlie, whose real name is Arutaurira Terutahi, admitted he liked the United States. "I like your ice cream and your buildings. And your girls are very nice, even if some of them put too much paint on their faces. Dorothy Lamour is very nice, and Rita Hayworth—Ah!!"

Asked why he was so anxious to return home, he quoted a line from the island's ancient love song: "No matter how far you wander, you always think of Tahiti."

'I'm a Cook' Says Corporal

SCOTT FIELD, Ill., —(UP)— During a formal inspection of this Air Force installation, the commanding officer, Brig. Gen. Emil C. Kiel, halted before a WAC corporal.

"Do you get enough to eat?" he asked.

"Yes, sir," she replied.

After a moment's hesitation she added, "I'm a cook."

Planned For Attack, Defense If Enemy Strikes United States

by William F. McMenamin
United Press Staff Correspondent

WASHINGTON —(UP)— Army engineers have completed about 10 per cent of the new $35,000,000 limestone air base for extra heavy bombers in the northern tip of Maine.

The bases will be used for the B-35 and B-36 super-bombers, which must be ready to strike devastating air blows at any nation daring to make an air attack on the United States, Air Force officers said. Northern Maine is the nearest part of the United States to Europe and European Russia.

Well Planned

The engineers said the base should be completed by July 1, 1949. It will be equipped with the latest facilities for handling any existing heavy bombers and those planned in the future, the Air Force said.

The engineers said they were experiencing many problems in constructing the base in an area where the rocky soil makes the building of runways difficult.

The limestone base is part of a network of air installations on the north-east flank of America designed to protect the Eastern seaboard against air attack and serve as a springboard for counter-blows.

Huge Network

Other bases are located at Stephensville, Newfoundland, Goose Bay, Labrador and in Greenland.

These bases and others in Alaska fit into the Air Force polar concept of the defense of the United States. Air Force leaders have stated repeatedly that in the next war, enemy bombers will attempt to attack the United States across the polar ice cap.

Even Higher Prices Seen by Ecomomist During Early 1948

AMES, Ia. —(UP)— Strong demand and higher prices are in prospect for early 1948, in the opinion of Carl Malone, Iowa State College agricultural economist.

Malone, in his current "Economic Outlook," reported that there are more weak spots in the economy than a year ago but that no pressures strong enough to turn the present boom downward have appeared yet.

Future trends will hinge mainly on the size of exports, he said, as well as the amount of foreign loans and the viewpoint of business in this country. A pessimistic attitude by business could slow down production, he added and put a downward pressure on prices.

He said the grain outlook is such that livestock feeders should get their next summer's feed located now. Low corn supplies and strong demand for wheat indicate a danger spot that future feeding projects may outrun supplies.

High feed prices, coupled with stiff initial expenditures, probably will make cattle feeding profits narrow. Sheep numbers are at a 30-year low in the country as a whole, Malone said, adding that Iowa is a little better off than most areas, with more breeding sheep than three years ago.

He said milk and dairy products are in demand now and the long-range outlook is good. Egg prices are expected to be down to or near support levels by spring. Vegetables and fruits, with the exception of strawberries, are at about normal levels. He said strawberries are predicted to be scarce next summer.

Admiral Ramsey Changes Command

(EDITOR'S NOTE—The following are remarks made by Admiral D. C. Ramsey, USN, at relieving of command ceremonies held at Pearl Harbor, January 12, 1948)

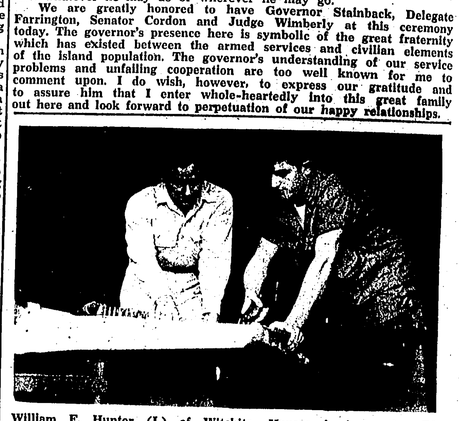
It is a particular pleasure to me to take over my new duties and break my flag in the VALLEY FORGE, as I participated in her commissioning ceremonies at the Philadelphia yard. It is a pleasure too, to find myself associated again with old friends and shipmates in the task of administering the Pacific and Pacific Fleet commands. I expect in the immediate future, additional duties as high commissioner of the Trust Territory.

As I have spent the last two years on duty in the office of chief of naval operations, I am conscious of the many problems in the Pacific ocean area which await solution. These problems, as particularly related to the Navy, in the main are generated by rapid personnel turnovers, overall personnel shortages, an unbalanced rank structure and limited funds to carry out our missions and tasks. We look to the headquarters of the various services in Washington to resolve many of these matters but within the limitation of the authority and responsibilities of this command, I am sure we will continue to make substantial contributions and will strive individually and collectively to insure a dollars worth of return for each dollars worth of effort expended.

I am especially happy to greet here my old friend of Washington days, General Hull. We went through heavy turburlence there together so I feel that we are conditioned for almost anything. I am happy too, to renew my close association with Admiral Hall, and in having General Wooten to head the Pacific Air Command and General Howland the Air Transport Command.

I deeply regret the forthcoming detachments of Admiral Sallada, Admiral Price, Admiral Hansen, and General Mitchell. We find some consolation in the thought that Admiral Sallada is not going very far away and I know you all join me in wishing him, Admiral Price, and Admiral Hansen every success in their new assignments. It is no comfort to me, however, to contemplate General Mitchell's retirement from active duty, but he can be sure that our good wishes will follow him whatever he may do or wherever he may go.

We are greatly honored to have Governor Stainback, Delegate Farrington, Senator Cordon and Judge Wimberly at this ceremony today. The governor's presence here is symbolic of the great fraternity which has existed between the armed services and civilian elements of the island population. The governor's understanding of our service problems and unfailing cooperation are too well known for me to comment upon. I do wish, however, to express our gratitude and to assure him that I enter whole-heartedly into this great family out here and look forward to perpetuation of our happy relationships.



William F. Hunter (L) of Witchita, Kansas is instructing Pfc Edward Lamperti of Quincy Mass. in the technique of repairing the outer surfaces of aircraft. (40th Fighter Wing Photo)

Personnel Shortage Hits Naval Government

Governor's Letter Calls on Local Personnel to Fill Vacant Positions

Personnel shortages in Naval Government departments were made known this week in a letter from Governor Pownall to the Guam Congress.

The letter said it is an important task of the rehabilitation of Guam to induce into government service local rather than stateside personnel in these administrative and clerical positions.

The governor's letter went on to explain that it was recognized that during periods of inflation and unusual business opportunities, the government cannot compete on a dollar-dollar basis. The government must gear its pay-roll expenditures on the basis of revenues.

However, the letter said, there are many incentive factors to a career of government service. During times of depression or normal business opportunities the government is in a favorable position in comparison to local businesses. There is a degree of security associated with government service, not usually encountered elsewhere. Briefly, it is more stable throughout the years.

While certain classification adjustments in civil employees are now under consideration, it is not contemplated that additional increases in salaries can be forthcoming for the present, the letter said. "It is hoped that through a more intensified interest in agriculture and fishing that the cost of living can be reduced to more normal levels.

"For very obvious reasons, it is highly desirable that most, if not all, of these positions be filled by qualified Guamanians."

Following is a list of vacancies:

PUBLIC WORKS carpenters, clerks.

BANK OF GUAM 1 bank clerk, 2 typists.

GUAM MEMORIAL HOSPITAL 3 telephone operators, 5 janitors, 10 laundresses, 21 corpsman junior, 2 seamstresses, 1 housekeeper, 5 maids, 1 superintendent of nurses, 1 head clerk, 19 graduate nurses, 14 corpsmen hospital, 1 cabinet maker, 1 carpenter, 2 electricians, 2 auto mechanics, 1 operator (heavy equipment), 4 operators (light automotive equipment). 2 plumbers, 1 painter, 1 welder, 4 attendants (auto service), 2 helpers (trainees), 1 helper (trade), 6 laborers.

OFFICE OF GOVERNOR 1 deputy commissioner for Agana, 1 file clerk, 1 messenger.

GUAM PLANNING COMMISSION 1 civil engineer, 1 administrative assistant, 2 draftsmen.

INTERNAL AFFAIRS 1 sr. administrative assistant (or lower grade), 1 clerk.

DEPT. OF PUBLIC HEALTH 2 graduate nurses.

POLICE DEPT. 83 patrolmen.

DEPT. OF AGRICULTURE 1 painter, 5 laborers, 3 attendents (livestock).

RECORDS & ACCOUNTS 8 jr. administrative assistant-passport, 8 jr. administrative-lb&d, 5 clerks-lb and d, 5 clerk-typists - archives, 10 hd. adm'nistrative assistant-int. rev., 9 sr. administrative asst. - tax comm., 8 jr. administrative asst. - fiscal sect., 5 accounting clerk- - fiscal sect., 5 storekeepers - procurement, 5 accounting clerk - acctg. sect., 3 jr. acctg. clerk - acctg. sect., 3 jr. acctg. clerk, 8 cashiers, 5 file clerks, 3 jr. clerk-typists, 8 jr. administrative assistant.

MEDICAL PRACTIONERS SCHOOL 9 laborers, 1 gardner

DEPT. OF EDUCATION 24 teachers, 1 jr. administrative assistant, 4 laborers, 10 carpenters.

Governor Preparing March of Dimes Drive

NORTH FIELD—The March of Dimes campaign at North Field was given a rousing send off when the officer's club presented Lt. Carll Harris, campaign director, a gift of one hundred and fifty dollars. The gift came as a surprise in that the sum represented the remaining in the Bingo jackpot kitty and was entirely separate from the organized effort to raise funds.

Special schedules in the campaign include a dance and raffle at the officer's club on 31 January. Prizes will include a beautiful clock and barometer set, a hand carved chest, and other valuable awards. The Rocker Club will present a spaghetti dinner on January 26 and a formal dance on January 31; all proceeds from these functions will go to the March of Dimes.

—March of Dimes—

RING THEM BELLS

DECATUR, GA. —(UP)— Safecrackers got confused when they broke into the Oakhurst Baptist church here.

What they thought were dials on a safe turned out to be dials controlling the church chimes, and they were frightened off by the unscheduled early-morning serenades.

Powder Puff Preview Press

by Betty Bianchetto

This week marks the beginning of POWDER PUFF PREVIEW of the air on press, and of course, pointed right at you, the ladies of Guam. To the novices of Powder Puff Previews, the conventional thing calls for a short introduction of myself, but then, even conventionalities can go too far. However, being a teacher what would be more appropriate than to tell you of my favorite and standard bit of living humor about a teacher's present?

One crisp autumn morning, after school had been in progress for month, Martha rang the second bell. As the coatroom underwent a full five minute rush, one little boy rather shyly approached his adored teacher. Carefully, he placed his gift on the edge of Martha's big desk alongside the two mellowed apples and a scrawny pear which had already reposed in full view as tokens of affection for "Teacher."

She reached out an affectionate arm toward small Jack, and with one eye on his paper-sacked gift, asked dutifully, "apple?" She tried to make a game of it even while she was certain she could correctly name any present in less than the three customary tries.

A suspicious wetness began to seep from the bottom of the sack. Despairing, she mentally saw, the offering being crushed in small, tight fists all the way to school. She touched the wet trickle statement than a question.

"No-OO-O!" Little Jack chortled gleefully. "It's a puppy!"

Yes, surprises like this do occur, and in a little stranger land, a number of even more surprising situations arise! A story such as this, with a change in environment, can be visualized very easily with, perhaps, the unsuspected surprise of a lively monsterous crab feeling at your leg! As children often say, teachers like to talk too much, which means I must get out of the schoolroom, and out in the open for a new environmental breath of fresh air....

For the housewife with a love of indoor gardening, there is a wealth of beauty hiding in some of the common foods right in your own kitchen. The many establishments of quonsets can be made attractive inside as well as outside as it has already been proven through the various attempts at landscaping.

The orange or lemon seed (the kitchen "regulars" available) can be developed into truly beautiful house plants that require little care, and last longer than many flowering plants. In attractive containers of metal, glass, or bamboo the plants will liven up that little home, the "quonset" with a variety of colors and will surprise curious friends who ask their origin.

Outside of keeping the soil fairly moist, these indoor plants require almost no care at all and are quite long-lived.

Polio Equipment Pools Aid Nation

Striking back at polio with life-saving implements of medical warfare, the March of Dimes has provided three strategically located "polio equipment pools" to help the nation beat the scourge of infantile paralysis.

The stockpiles are maintained at Des Moines, Ia., Boston, Mass., and Columbus, Ohio, by the National Foundation for Infantile Paralysis, which is now conducting its annual fund-raising appeal.

The important role played by the emergency supply depots in rushing respirators, hot pack machines and other essential technical equipment to epidemic-ravaged areas on spot notice can not be over emphasized.

During last summer's polio epidemics the National Foundation saved time and money—and lives—by anticipating hospital needs. Everything from respirators to pillow cases were stored at three central mobilization points. When polio struck, the Foundation was ready to answer every call with help and vital equipment.

At Akron, Ohio, where polio incidents exceeded any epidemic in the city's history, widely scattered chapters of the National Foundation cooperated in supplying the pressing demand for hospital supplies, with the Columbus pool serving as contact point in assembling material. The Columbus depot handled appeals within the six central states serving Indiana, Illinois, Michigan, Kentucky, and Wisconsin, in addition to Ohio.

West of the Mississippi, Des Moines pioneered the modern system of centralized supply depots when it served with dramitic success during the sweeping spread of infantile paralysis in 1946. More than 25,000 victims were claimed by that epidemic.

So effective was the work at Des Moines that March of Dimes funds were put to work in establishing two additional pools, each storing sufficient respirators and hot pack machines to meet any emergency.

Through the March of Dimes every call for assistance is being met. The Boston pool demonstrated the extent of the National Foundation's operations when last September it shipped four iron lungs and quantities of special equipment to Germany to protect our GI's during the devastating Berlin epidemic. The Foundation plans to set up other pools throughout the nation—but it costs money. This work can only be expanded if America contributes more generously than ever before to the March of Dimes.

Ya Don't Say . . . .

JACKPOT JACK

FRESNO, Cal. —(UP)— A man with a pistol walked into White House cafe and told the owner he wanted his money. He said he wanted it a bill at a time.

P.A. Fries, the proprietor, looked at the leveled weapon and started dishing it out just that way—a bill at a time.

When he reached $64, the man said, "stop! I'll take that."

A puzzled owner and several customers watched him walk calmly—if swiftly—from the cafe with his jackpot.

NO PROBLEM

TULSA, Okla. —(UP)— An annoyed Tulsa man had his own solution to the problem of what to do when seated behind an oversized woman's hat in the theater.

An embarrassed woman reported to police that the man had taken the hat off himself.

Detectives who answered her call said the male theater patron first asked the woman to remove her hat.

She refused. Whereupon, the man grabbed the hat, stomped it on the floor and stalked out.

GUAM FAIR ISLE

(A tribute to Guam)

Wonderful Island I've come to see
Claimed a gem on this western sea
From afar people come to thee
To you-fair Guam isle.
In white and blue you'll see
Sailors on liberty so gay.
In khakies-soldiers there maybe
On the streets of Guam fair isle.
Don't stay on your bunk fellows;
Put on your khakies-dress white when off,
Visit villages-wonders so wonderous,
You'll find the secrets of this isle marvelous.
Untouchable fair maidens abound
In villages they're to be found
In school-cottages all around
Smiling-singing-playing all year round.
In yonder hills you'll find
Animals-flowers-birds chirping chimes
In their songs you'll find rhyme
Echoing in your ear you'll surely mind.
Upon your shores-waves dashing mightily
Creating beautiful beaches so dear to see
And harbors so rare in beauty
With ships so weary on their journey.
When days-months-years roll by
We'll grow older and wonder why
Guam is and will always be
Guam fair isle.

OKLAHOMA CITY —(UP)— Stella Pajunas, Cleveland, O., holder of the 1946 world's speed typing record, put on an exhibition at the state capitol. Miss Pajunas typed 152 words per minute and carried on a conversation with capitol workers at the same time.

GUAM'S FUNCION

by Evelyn Perez

Born to Mr. and Mrs. Candido Damian on 23rd January was a baby girl.

A baby girl was born to Mr. and Mrs. Jose Calvo of Agana.

Raimundo D. Camacho, master desk sergeant of the Guam Police Department, returned recently from the United States following a visit to his sister-in-law Mrs. Ted Llanis nee Miss Isable Franquez, of Agana.

Misses Dolores and Lauraine L. Mese returned recently from Manila after visiting their aunt Mrs. Lourdes L. Ang there.

Another student of the George Washington High School is leaving to continue his schooling in the mainland. This time it's Mrs. Carlos E. Camacho of Agana and he is to reside at the home of his brother, Vicente D. Camacho of San Diego, California.

Leaving for the states to study courses in administrative work under the G.I. Bill of Rights is Mr. Antonio M. Manibusan of Mongmong. He is to reside at the home of his brother-in-law, Mr. Jesus B. Cruz of San Francisco, California.

Mr. and Mrs. James M. McGuire are soon to leave for Honolulu. Their mother, Josefa S. Camacho, brother, Pablo, sister, Ana C. Borja and her children Sylvia, Eleanor and Benny are going to join them. The children are going to continue their schooling in Honolulu.

Jose Leon Guerrero Castro is soon to leave for the United States to continue his schooling under the Bill of Rights. He is going to reside at the home of his nephew, Felix Leon Guerrero who is living at Quonset Point Air Base, Rhode Island.

Letters to The Editor

Dear Editor:

This letter is being submitted for publication in your paper, to enable your readers to view an injustice and a plain outright thievery," on the part of the powers-to-be of the recreation dept. of Morrison Knudson Co. Inc., and Peter Kiewit Sons' Inc., the resulting aftermath of a successful boxing show put on by Mr. Willis Sylva, and myself, Thomas Impelizino, alias Tommy Milton, on Dec. 26, 1947.

Representatives of your paper were led to believe that through the efforts of the recreation dept., this boxing show was made possible. On the contrary, the cooperation offered by the recreation dept., before and after the show, was anything but cooperative-ness. Prior to the show, we had requested some boxing equipment from this department but received none. Consequently, the expenses incurred in purchasing this equipment was borne by Mr. Sylva and myself. The sum approximately two hundred dollars was expended by my partner and myself, for this equipment and other incidentals to make the show the success it was, not mentioning the time and efforts necessary, on our parts, to handle all of the incidental "musts" that go with a boxing show.

After the show, I took all of the participants of the bouts to one of the company mess halls, as they had all gone without supper in preparation for the bouts. But here again, because of lack of foresight on the part of the recreation dept., my boys were not served a morsel of food, because the recreation dept., had not submitted any request to serve food after hours, to the participants of the boxing show.

And to add insult to injury, all of the participants of the boxing show, who had used the dressing room, were accused of stealing a wallet which was supposed to have been left there by Mr. Stan White, of the recreation dept. Each individual participant was searched, not respecting the man's integrity or word of honor that he did not steal a wallet, but searched like a common criminal.

For this personal insult to each individual participant of the boxing show, and considering the fact that no cooperation was given or shown to Mr. Sylva or myself, on the part of Mr. Stan White and Mr. Jack Le Hoy of the recreation dept., any credit assumed for the success of the boxing show by the recreation dept. is nothing short of plain "outright thievery."

Tommy Milton
Willy Sylva

Dear Editor,

In support to Hermoyenes B. Roten whose letter appeared in "Letters to the Editor" column of last Sunday, I want to say that as a Guamanian I am ashamed of most of these girls. Is it racial Prejudice? Color prejudice? Superiority complex? Ignorance? Whatever it may be, it's a shame. Anyone can detect this not only in the post office, but, in most stores. Due to the sour appearance of face the girls show reminds one that stores put up in Guam are just to show off and not intended for real business.

I really did not see such a thing in other countries.

The following sign over their doors is very appropriate—No Ugly Person Allowed!

Very respectfully yours
Antonio Chinada

Native Delicacies 'Hit The Spot'

(Ed. Note—The material used for the basis of this article was furnished by Mrs. Agueda Johnston, asst. superintendent of schools.)

by George W. Wilbur

Steak and mashed potatoes are a supreme pleasure, but not a rarity to most Americans. This combination is as U.S.A. as a George Washington four poster bed. When gorging these delicacies no doubt most Americans believe there is nothing better in the world, and will keep on believing such until they have a chance to taste the tidbits which grace the dining tables of other parts of the globe....Guam for instance.

Guamanians savor the best in eating pleasure like anyone else, and lacking steak and potatoes, they turn to the products of their land to supply them with what is considered by many, the most delicious consumptive pastimes known to man.

Non-Islanders survey the mention of such foods as coconut crabs, flying foxes, taro roots, pumpkin tips, breadfruit, mangoes and yams with passive intrigue but sheer ignorance. Like frog's legs and pig's feet, these names fail to make the mouth water. May we say, they don't know what they are missing!

Take flying foxes for instance. A vicious and unhealthy looking bat which inhabits the jungle tree tops, it is considered equal to a magnum of imported champaign on a native table. It is caught by hunters clinging precariously to fruit laden limbs of trees in the jungle at night. A pole and net, similar to a fish net, snags them from their erratic flight.

Flying foxes are one of the cleanest animals known, as they eat only fruit and rarely descend from their tree top homes. An average one weighs a pound, and, when fixed properly can supply a meal for four. Barbacued or boiled, they taste similar to frog's legs or the dark meat of a young chicken.

Coconut crabs are another rare but highly prized delicacy. Looking unlike any other crab, they inhabit the coral crevices along the beaches and leave them only at night to gorge on suspended coconuts. A stalking hunter can then surprise them before they can retreat to the safety of their hideouts. In the old days, coconut crabs on the Christmas table were as much a necessity as plum pudding in America. It was also a valuable asset to an ardent suitor in catching his heart's desire.

Extremely large crabs weigh as much as twenty pounds, while the average catch is half that much. Extremely meaty, they can be served like a tart, fixed with rice for gravy, or eaten right out of the shell. As rare as the flying fox nowadays due to the war, they still whet native appetites on special occasions.

Breadfruit is a prolific food that has been exploited in south seas fiction for many centuries, and therefore verbally known to nearly every American, though probably never eaten by any but a few. It has all the ingredients of a regular American potato, plus a few more, and like the potato, can be boiled, mashed, made into French fries, doughnuts, and used widely to make all kinds of pastry. It is usually blended with coconut milk, a substance which is acclaimed by many to be more delicious, wholesome and versatile than regular cow's milk. With a multitude of uses, breadfruit is a main vertebrae in the Guamanian consumptive backbone.

Taro, a species of the wild grown elephant ears, looks scomething like rhubarb and tastes similar to the sweet potato, except it is flatter in flavor. It's roots are used like potatoes, while its edible leaves take the place of spinach for the Island families. When boiled and mixed with coconut milk, onions, green peppers and lemon juice, it is said to be highly tasteful.

Though ordinary pumpkins are a part of every American Thanksgiving dinner in the form of pie, it is believed that another part of the plant is entirely ignored. Not on Guam, however. The green tips, or stems, of the pumpkins are cooked, and mixed with various meats, or practically anything for that matter, and have been declared extremely delicious.

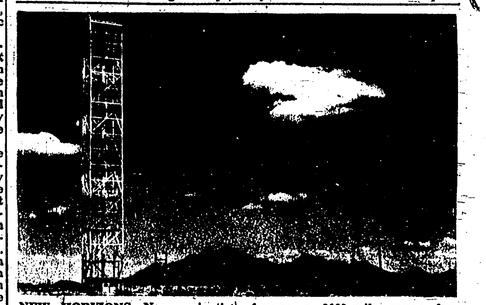
Other common foods which grow bountifully on Guam and play a major role in the native diet are native eggplants, tropical bananas, mangoes and yams. The eggplants, unlike the American variety, have no seeds. Bananas are utilized in many more ways than in the United States. Mangoes take the place of the traditional American "out of the hand" eating, and taste something like a firm, ripe peach.

The means by which these foods are grown and supplied to the populace are similar to the agricultural system in the United States. Few natives in Agana, for instance, have the space or the time to cultivate them, and must resort to buying from ranch owners in the interior. Flying foxes and coconut crabs were nearly obliterated by the war, and are still as rare to the Guamanians as caviar is to an American.

Few of these foods are obtainable in the United States. Yams of a different variety are popular of course, but the species on Guam cou'd not be produced. Taro might possibly be grown, but only the leaves could be utilized as the roots need a tropical climate to reach maturity.

The rest will remain exclusive on the south seas dining table, where, as the Americans say it, they will continue to "hit the spot."

BLONDIE (Courtesy King Features via SEA) by CHIC YOUNG



NEW HORIZONS—Navy scientists foresee a 2000-mile range for ultrashort wave radio, radar and television by studying the effects of weather changes on high frequency radio transmission at Gila Bend, Arizona. The increased range is hoped to prove a great aid in weather forecasting and testing the persistency of poison gases. (Official Navy Photo)

Music Spotlights -- by Ed Simmons -- Guest Column

Today MUSIC SPOTLIGHTS swings the spotlight in the direction of our initial guest columnist. I know you've heard of the expression "one in a lifetime," well he is THE once in a lifetime. I am willing to bet that there are no two people in the world, who bear even the remotest resemblance to our guest. The following brief biographic sketch should do much in acquainting you with him, and proving my point.

"Ed"

"I was born on 17 September 1925, of "good old New England stock," a fact that is continually being thrown up to me by my parents, and a fact that accounts largely for my revolutionary tendencies. As a child I was the neighborhood sissy, as well as a very apt student. I had ½ year of piano lessons, and spent eight years learning that I could not play the violin.

"When I got into high school, I developed my conceitedness to the full. I got all A's with the exception of U.S. history, I also developed muchly in music, learning the viola and the tuba, on which I made progress, becoming an apt soloist on same, and playing in a symphony orchestra while yet in high school. I did a lot of conducting and composing in high school, and was offered a full four year scholarship to the Juilliard School of Music, but I had to decline it."

This could probably go on for years and years, so how about giving our reading audience your name, and dashing off your column?

Starlight Symphony by Basil

"I" am habitually called "Basil" ("spelled like Rathbone, pronounced like Metabolism") because 'John' is too dignified.

Sit back; Relax. Enjoy the evening air, and smile back at the stars above. The tropic moon smiles benediction, while below, the swaying palms and rolling sea breathe, murmurs of contentment. In the sea, a phantom moon, a fugitive illusion, slides from wave to wave, now disappears, now tears itself in two, now mends itself again, to mock your disbelief. Afar, a lizard chuckles, evening breezes soothe your favored soul, and all is peace.

What better setting for the noble Bach, the genial Haydn, or the fervent Brahms? Where could Schubert better sing his lied, or Wagner better tell his Meistersingers fame? Hark, how the woodland choir blends with the whispering palms; the trombone's massive voice joins with the sea's, and throbbing viols lull the soul to rest.

Sounds idyllic doesn't it? And, even better, it is a fairly accurate picture of what is going on right here on Guam. Although the adjectives are perhaps a little too lush, and the lambics are a bit too obvious, the statements are fundamentally true. For at the Palm Beach Officer's Club there is a weekly concert of recorded symphonic music, given under the conditions described above.

Don't let that "symphonic" part scare you away; symphonic music is, in general, at least as easy to listen to, even for the uninitiated, as the current style of dance music—the only difference is that you are constantly trained from infancy to listen to the latter. If you don't believe me, come some Sunday evening, and find out for your self.

In order to make it even easier we have avoided, to date, the "heavier" classics, and have concentrated on more exoteric works and composers, getting no more formal than Tschaikovsky (whom even the dance bands have found to be popular), with a minute smattering of Beethoven and Co. Most of our selections have been from the pens of the more spectacular and easier-to-listen-to (to my word for it, or come next Sunday and find out for yourself) composers, who, although perhaps they are less famous, make up the majority of "Pops" programs—for instance, Glinka, Kreisler, Offenbach, Strauss, and Rimsky-Korsakov.

Unfortunately, the concerts are, so far, limited to officers of the armed services and others having guest privileges at the officers' club. However, I strongly suspect that those enlisted men who would like to have such a program inaugurated for them could talk their chaplain or welfare officer into something similar; I know that we here at NSC would be more than willing to give a weekly program for the men, if there seems to be enough interest in such a venture. If you live at Camp Bright, and are interested, see that your name gets to either of the officers mentioned above.

There is a catch to it all. The concerts are not free—despite all popular platitudes to the contary, nothing in life, of any value, is to be had merely for the wishing, or even for the asking. You have to bring, as the admission fee, an open mind, and an alert, absorptive soul—for music, like religion, love, or the stock market, will give to you only in the measure that you give to it.

So, if you are a longhair, a medium-longhair, or even just somebody with an active interest in the beautiful side of life, we'd like to se you next (or any) Sunday evening, at 1930, at the Palm Beach Officer's Club, for our "Starlight Symphony."

Thank you very much for some capable, and definitely appreciated pen wielding, "Basil." I am sure that our reader's know where to spend a very profitable Sunday evening.

Until Sunday next, this is Ed, saying take it slow, take it easy, and have a good week, wont you?

Guam News Sports

Sports Slants

by Joe Scarfo

Just recently Billy Southworth, erstwhile Boston Brave manager, startled baseball observers by predicting that Warren Spahn, ace southpaw moundsman would some day be a 30-game winner.

According to facts, the odds against the slender portsider winning 30 games are practically nill, in fact the odds are hopeless against any hurler winning 30 games.

Not since Bob (Lefty) Grove twirled the Philadelphia A's to the American League pennant with a remarkable 31 and 4 record in 1931 and Jerome (Dizzy) Dean compiled a 30 and 7 record with the Gashouse Gang in 1934 have the majors had another pitcher enter the select circle of 30-game winners.

Back in the old days when pitchers like Grover Alexander, Cy Young and Cristy Mathewson won 30 or more games, they appeared in as many as 45 and 50 games. To accomplish this task today, a pitcher would have to go to the hill about every fourth day and then would have to win about 20 per cent of his starts. In the last 25 years there have been very few instances of pitchers having 38 decisions, and no pitcher has totaled more than 41. According to these figures then, a pitcher who has lost his 8th game has thrown away all chances of becoming a 30-game winner. One of the few cases was in 1944, when Southpaw Hal Newhouser compiled a 29 and 9 record and teammate Dizzy Trout a 27 and 14 record for a combination of 79 decisions for Detroit, or more than half of the team's 154 games.

It doesn't seem very probable that the likeable Boston hurler will achieve this goal when such greats as Feller, Hubbell, Warneke, and Ferrell have failed, but when one of the games most reliable managers like Billy Southworth makes such a statement, it probably means that there is a good possibility that the slim Tribe hurler may some day turn the trick.

BEHIND THE BAT....General Manager Joe Cronin of the Boston Red Sox has recently denied reports that Dom DiMaggio will go to the Yanks in a trade for Johnny Lindell....Burt Shotton was honored by the Baseball Writers with a dinner on January 19....Doctors are still optimistic over the complete recovery of Charlie Keller, slugging Yankee outfielder who was operated on for a spinal injury last June.

Sportsmen's Treasure House at HQ. 20th Air Force Special Services

HQ 20TH AIR FORCE, Jan. 24— Set up to provide recreational programs and equipment for men in the unit, the Headquarters Twentieth Air Force station special service office is a veritable treasure house of items ranging from musical instruments to archery sets. Headed by First Lt. W. L. Garesche, the staff includes Staff Sgt. Paul A. Wright and Private First Class William H. Garrison.

Besides supplying sports and game equipment to teams, special service men issue items to individuals within the command.

Depending upon one's talents and intentions, he may draw out boxing gloves or a set of checkers. For water sports there are fishing rods, lines, tackle and underwater swimming goggles. For those wishing to stay on dry land the sky's the limit.

Not just a supply room, special services plans and operates features popular with servicemen during off duty periods. Weekly Island tours offer sightseers and photographers an excellent opportunity to visit scenes of interest. Setting out early Sundays, groups are escorted with lunch "on the house." Transportation to swimmers is available every afternoon in a truck which heads for the Tumon Bay area.

Another popular journey is a weekly visit to Saipan. So that every man will have a chance to make the trip, different sections are disignated each week to participate.

Budding photographers find enlargers and instructors at the Twentieth Air Force hobby shop. A turning lathe recently arrived for use by wood-working enthusiasts. Material is available for leathercraft, plastics for those who would design plexiglass articles and a sewing machine for the varied uses to which it is adaptable.

Athletics Emphasized

Athletics of all types are emphasized. Besides setting up schedules for league play in many sports, the staff continually strives to improve facilities. At the present time lights are being installed at the softball diamond so night games can be played.

The "Superfort" Theatre, running a nightly schedule, is another responsibility if the staff. Besides the completion of a new ticket booth with a ticket dispenser, the stage quonset recently has been repainted.

Of outstanding interest to enlisted men is the progress being made towards the completion of their club, "Parker Manor." Lt. Garesche reports that plans now in progress may result in its opening within the next 60 days. Soft drinks, pool tables, a lounge and writing tables and many other comforts of home will be featured in "Parker Manor."

No end is in sight to the special service staff. About the time the basketball season ends, baseball is about to begin. And always there will be calls at Twentieth's Sports Store" for the staff that's there for the asking.

NO SPORTING GOODS SHOP—This is the office of Twentieth Air Force's station special services. Its staff are (left to right) Private First Class William H. Garrison, First Lt. W. L. Garesche and Staff Sgt. Paul A. Wright. Besides issuing a wide variety of sports equipment to teams and individuals, these men plan and supervise an extensive recreational program. (20th Air Force Photo)

Baseball Executives Charged of Operating Blacklist for Testifying Ball Players

BOSTON, Jan. 23 —(UP)— Robert Murphy, self-styled champion of professional athletes, charged today at a legislative hearing that major league executives operated a "baseball blacklist" which prevented players from testifying there on behalf of a law to outlaw the sport's "reserve clause."

Murphy said that many players opposed the clause, which provides that at the duration of a contract with any club in organized baseball, they remain the property of that club until sold, traded, or signed to new terms.

Murphy, Harvard-educated lawyer who founded the ill-fated American Babseball Guild, an independent players' union, said he believed that the reserve clause was illegal and unconstitutional and advocates a law which automatically makes every player a free agent—free to bargain with any team in baseball at the expiration of his contract.

Murphy said he was acting at the request of ball players whose names he said he would not reveal for fear of having them placed on the "blacklist."

However, the only two spokesmen for organized baseball were both veteran major league players, selected as player representatives of the American and National leagues.

They said that if the reserve clause were outlawed, all star baseball players automatically would be bought up by the wealthier clubs.

All-Stars Whip North Field Quint, 39-26

Guam's All-Stars got their baptism of fire last night on the Com-Mar court by defeating the North Field five, 39 to 26, in the first of a series of practice tilts scheduled for the Navy team.

Looking weak under the backboards and shaky on passing, the Navy stars stumbled through three quarters in the inaugural before they caught fire in the last stanza to outplay and outscore the Army squad.

In the first period the sailors held a skimpy lead on contributions by Red Edwards, Lew Arey and Cy Cassidy as the whistle blew at 10 to 8 favoring the All-Stars.

Jim Hawkins and Jack Argotsinger, substitute forwards, teamed up with Cassidy to add some speed to the Navy quintet and pushed the score up, 17 to 8, until McCrun and Brewer hit for the Army to close it up at intermission, 18 to 14.

The third quarter was much the same story with the All-Stars connecting for three points and the North Fielders for four to round it out, 23 to 18.

In the last chapter Larry Christianson started a Navy rally off with a one-handed shot and the rest of the team went on from there. Buzzy Squires, Larry Horan, Argotsinger and Pete Morgan helped boost the count up, 39 to 26, with Craig, Hardy and Butler scoring for the Army as the battle ended.

Except for the blazing display of fast breaking in the last quarter Coach H. W. Douglass wasn't too pleased with the All Stars.

ATTENTION SIGMA CHI—There will be a meeting Wednesday, 7:30 p.m., at ComMar officers housing area, hut 25.

Veller New Florida State Mentor

TALLAHASSEE, Fla., Jan. 23 —(UP)— Don Veller, former University of Indiana football star resigned as assistant coach for the Hoosiers last night after being appointed head football coach at Florida State University.

In addition to his coaching duties, Veller, an Air Force veteran, will handle the physical education department. Williamson, head of the physical education setup resigned the coaching job after Florida State failed to win a single game in its first football season in history. Before last year, F.S.U. was a women's college.

Veller foremerly served as head football coach at Hanover College in Indiana before returning to his alma mater as an assistant to Bo McMillen.

Swiss Stars Take Two Events; Swede Cops Ski Jump in Olympic Preview

ST. MORITZ, Switzerland, Jan. 23 —(UP)— Swiss competitors swept the cresta and two-man bobsledding races and Wilhelm Hellmen of Sweden won the ski jumping contest today in three international pre-Olympic tests for the winter games which start here next week.

The U.S. failed to place a man among the first three finishers in the cresta event.

Hellmen, a 25-year-old Swedish Olympic star, edged Fredheim, 319.8 points to 316.4, in three jumps that were scored on the basis of distance and form exhibited. Hellmen's jumps were 63, 61.5 and 61.5 meters, while Fredheim compiled his score on leaps of 61, 63.5 and 65.5 meters.

The Swiss served further notice that they will be tough to beat in their own back yard in the winter Olympics when Willy Klopfenstein took third place in the jumping with 316.4 points. Gordon Wren of Winter Park Colo., outdistanced Hellmen on all three jumps but finished end only 37th because of poor form.

The U.S. took the next two places with Weightman Washbond of Keene Valley, N. Y., and Pat Martin of Massenan N. Y., third, and Tuffield Latour and Bill Dupree, both of Earanac Lake, N. Y., fourth.

Open Handicap

Christian Fischbacher of Switzerland won the cresta bobsled derby, an open handicap event in which six nations were represented. Fischbacher, the only rider who was not given a handicap, made three runs in a total of 1:45.1 to beat two Britons. Times for Fischbacher's individual runs were :48.0, :48.4 and :48.1. Jim Lawrence of Great Britain was second with a total of 1:45.7 and Richard Booth third in 1:45.9.

Lt. Tinker Williams of Ellendale, Wash., 25-year-old U.S. Olympic candidate, suffered his second accident within a week when his sled capsized in maneuvering the tricky "shuttle-rock" turn on a practice slide. He flew into a snowdrift, and was saved from serious injury.

—March of Dimes—

Five MarBo Pugilists Advance in Tourney

Five out of seven MarBo boxers advanced in the first round of the Army Inter-Command boxing tournament Thursday, Special Services at MarBo reported yesterday.

Minute Freddie Gemoya won a flyweight decision over Korea's Norton; Clarence Fentress won the lightweight decision over Peralta and Middleweight Oscar Hollin edged Broad of Japan.

David Stowe and Heavyweight Bill Burke moved into the second round of the event by default.

Perl Robinson, MarBo's substitute for ailing Nat Montgomery, was decisioned by Japan's Chili, and Jimmie Cooper lost the nod to Conrad.

—March of Dimes—

Dodds in First '48 Race

BOSTON, Jan. 23 —(UP)— Gil Dodds, unbeaten in his last 25 races, will make his first start of the 1948 season in the Knights of Columbus one mile run at the garden here tomorrow and the plank-pounding parson admits he is shooting for an Olympic berth.

Dodds, usually a super-conservative when appraising his potentialities, said he was in the top form of his career.

Weekly Sports Roundup

by Bob Crosley

In the first card at the Paseo since mid-November, Baby Freddie and Maine featherweight champ Lyan Jones battled to an eight round draw. Nick De' Mike scored a quick first round knockout over North Field's Harry Armstrong.

After speculation was considered officially closed several weeks ago, a seven man syndicate, including Walter O. (Spike) Briggs, Jr., son of Detroit Tiger owner, and Sportscaster Harry Wismer, bought the Detroit Lions professional football team for an undisclosed amount from Fred L. Mandel. The syndicate reported that there would be an effort to obtain either Eddie Anderson of Iowa, Wally Butts of Georgia, or Frank Leahy of Notre Dame to coach the Lions.

"Bullet Bill" Osmanski signed a contract for an undisclosed amount this week as coach of the Holy Cross Crusaders. Succeeding John "Ox" DaGrosa. Osmanski said he hoped to improve greatly on the poor showing the Crusaders made last year, and that one of his first moves would be to junk the singlewing formation for the model T.

Rumors were rife this week as regards the signing of Johnny Lujack with the Chicago Bears. George Halas, Bear's owner, had a lengthy telephone conversation with the Notre Dame flash and was reported as saying the only obstacle in the path of the signing to be "minor complications."

Dutch Harrison beat out stars like Jimmy Demaret, Skip Alexander, Sam Snead, and Bobby Locke to cop top money in the $10,000 Richmond Open golf tourney.

Lighthorse Harry Gilmer suffered a cut in salary, presumbaly because of his showing in the Sugar Bowl against Bobby Layne, and put his mark on a two year contract with the Washington Redskins.

Zack Taylor, pilot-elect of the sad St. Louis Browns, admitted that he was as much in the dark as everyone else about the Brownies' chances since the housecleaning in December.

Ken Fons, local basketball star, received orders from Washington to report for a tryout with the Navy Olympic team, and left via NATS Friday morning.

Baseball Enjoys Popularity in Japan

TOKYO —(UP)— Baseball enjoys greater popularity in Japan than in the United States, and sandlot games go on all winter—even in the cold and the snow.

Professional baseball is enjoying unprecedented popularity in Japan. Although the season officially closed in November, fans still are talking about the big games and the best plays. Children may not know the names of the nation's cabinet members, but they can name the players and substitutes on all the major baseball clubs.

But despite the popularity of baseball, the professional leagues are not making money. Every team is in the red. The high cost of baseball equipment is one reason for the failure of clubs to coin a profit.

A glove costs from 500 to 700 yen—$12 to $14. A catcher's mitt costs $49 to $60, a bat $6, and a pair of spiked shoes over $20. Even when a league produces on its own hide, a regulation baseball costs the equivalent of $4 in American money.

Infield tickets for the Korakuen Stadium in Tokyo, where professional games are held, sell for what amounts to 60 cents each in U. S. money. Outfield tickets are 30 cents, with special infield seats going for 90 cents each.

These prices include the 100 per cent admission tax, and from gross ticket sales 20 per cent must be paid to stadium owners for the use of the grounds.

Clean-up Boxing

NEW YORK —(UP)— District Attorney Frank S. Hogan told the annual boxing writers' dinner recently that "if boxing is to clean-up instead of closing up, the criminal element in the fight game must be removed."

Hogan said an investigation of boxing that was started by his office in 1946 had convinced him that "a major surgical operation is necessary if boxing is to survive as a clean sport."

As part of this operation, the District Attorney recommended first that public hearing be held by the New York Boxing Commission regarding disclosures made in 700 words testimony before the grand jury last year.

Hogan urged also that to keep boxing clean in the future the commission should have a staff of 12 investigators "to ferret out skullduggery wherever it occurs."

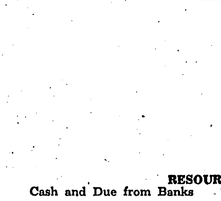
Solution to Puzzle



Football Has Changed Since The Old Days

NEW YORK, —(UP)— On the mezzanine floor of a midtown hotel where most of the nation's collegiate athletic leaders were meeting a while back is a vast manufacturer's display of the equipment the athletes wear and use.

Almost buried behind a stack of football shoulder pads and shiny new helmets at one of the booths sits white haired Jay Wyatt of Chicago who says if he lives 'til spring he'll be 40 years in the business of peddling the stuff.

"Times have changed, all right," said Jay. "Look at this football stuff. A player carries only nine pounds of protection these days. Used to be 15. When it got wet, felt more like 30."

The rules pretty well govern the type of equipment a football player may wear in this modern era but it wasn't always that way and Jay admits with a sheepish grin he wasn't above figuring out a few tricks for his special pals among his coaches.

"Back in '26, Jimmy Phelan was coaching down at Purdue," Wyatt said. "He had a date with Navy in the east and it looked like a rough game. We used light colored footballs in those days and Jimmy wanted some football pants to match the ball so it would be hard to spot.

"I tried every material we'd ever used and couldn't match it with a ball. A girl in my office suggested bed 36 pairs and when Knute Rockne heard about it a week later Rock ordered 36 more for Notre Dame."

That's how fancy football pants were born, Phelan reported. However, the ruse didn't work. Tom Hamilton, now coaching Navy, threw a touchdown pass that beat Purdue, 7 to 6.

Pop Warner specialized in the hidden ball trick when he had the Carlisle Indians.

"He always ordered shirts four sizes too big," laughed Wyatt. "Big enough to hide a football easy."

The rules have spoiled a lot of fun, Jay concedes. But it wasn't very clean fun, at that.

—March of Dimes—

St. Louis Browns Mystery to Manager

ST. LOUIS—(UP)—Zack Taylor, the new pilot of the St. Louis Browns, said today he doesn't have the faintest idea what his cellar-dwelling, trade-riddled club will do next season.

He said his starting lineup is a mystery—even to him.

"I don't even know some of the players by name," he explained "to say nothing of their playing ability."

The admission leaves Taylor on a par with most of the Browns followers—discouraged by the team's poor showing last summer and befuddled by the marketing of most of the star players to raise a little cash.

Taylor said his one bright hopes comes from a prediction by one of his baseball buddies, Al Evans of the Washington Senators. Evans, he said, believes the Browns will have the best defensive infield in the American League.

Braves, Team to Beat In 1948 Says Durocher

NEW YORK —(UP)— Lippy Leo Durocher, exhibiting the same characteristic buoyancy and bluster as always, said recently that "it's wonderful to be back with Brooklyn," and that the Boston Braves may prove "the team to beat" in 1948.

Durocher, appearing at his first formal Dodger press conference since the expiration of his one-year suspension from baseball, was officially welcomed back to the fold by Dodger President Branch Rickey and other officials of the club.

"I expect to be my natural self next season," Durocher, nattily-dressed in a gray pin-striped suit, replied to a question. Rickey laughingly interrupted to explain that nobody ever had devised a formula to "gag Leo."

Leo Durocher

Boston Extra Tough

Durocher refused to predict where Brooklyn would finish in 1948 but he was lavish in his respect for the Braves.

"Boston will be extra tough to beat," he said. "I understand the Braves have improved tremendously. The Cardinals are always tough, of course. All I know is that we will definitely finish in the first eight," he parried.

The Dodger pilot took time out from his sizing up of the respective clubs to pay defference to Burt Shotton, manager of Brooklyn's 1947 contingent, who Durocher said did a "marvelous job."

Questioned about the prospects of moving Jackie Robinson from first base to second, Lippy paused a moment and replied:

"It's difficult to say right now. That'll all be decided at San Domingo. After all, Eddie Stanky is a great second baseman and Stanky isn't going to lose his job on paper."

In the event Robinson is moved to second, however, Durocher said that the club has a promising first base recruit reporting in six-foot-four inch Preston Ward of the class A Pueblo club of the Western League.

'Frisco May Get New 100,000 - Seat Stadium

SAN FRANCISCO—(UP) Mayor-elect Elmer E. Robinson says that he is hopeful of being able to give San Francisco a new 100,000-seat stadium during his term.

Kezar stadium recently was criticized by William Coffman, director of the annual Shrine East-West game as being too small. Coffman said the Shrine game would have to be moved either to the California or Stanford stadium, which seats 20,000 to 30,000 more, unless the city of San Francisco increased the capacity of Kezar stadium.

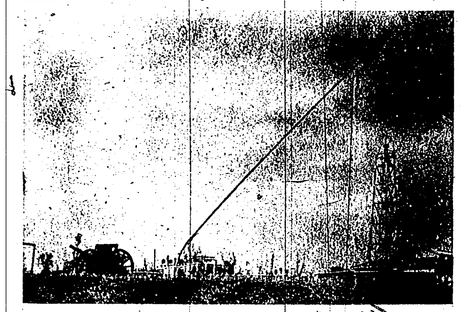
Yap Typhoon Recorded in Black and White



Old Glory still reigns despite bent steel flag pole caused by high winds. On right is wind sock tower for PBY airplanes. Sock was torn away.

A culvert washout between Yap Town and Nif village, caused by torrential rains.

Five Typhoons Hit Within Three Months

"What, not again?"

"Poor souls, how do they take it?"

No matter which way you look at it Yap is really taking a beating.

Take it or not, it's true and must be some sort of record—Yap Island, in the Palaus, was hit by five typhoons and two tidal waves in a period of less than three months.

Three of these typhoons were major intensity, and the last tidal wave, the largest, was estimated at eight feet.

Yap Island

Naval installations on Yap include a Civil Administration Unit under the Trust Territory of the Pacific Islands (former Japanese mandated Islands) and a branch office of the Island Trading Company of Micronesia, which is operated by the Trust Territory administration.

Conservative estimates are that only "about 50" native homes are habitable out of the original 1500. Sixty per cent of coconut palm buds were destroyed. And the Navy is providing relief food supplies for the coming four to six months.

Relief Supplies

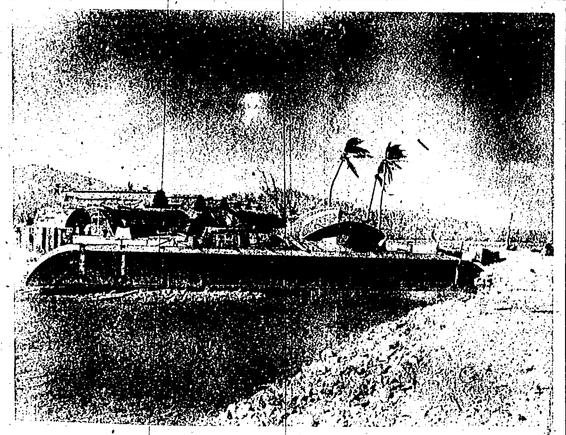
Already two ships have been despatched to Yap, ladened with relief supplies. But in the interim, Navy planes have been shuttling back and forth carrying priority essentials.

There were no casualties registered amongst Naval personnel, dependents or natives which is a commendation for the Navy's Fleet Weather Central, headquartered on ComMar Hill, Guam. The Navy weathermen, using information gleaned from Navy weather ships and planes in the area transmit warnings to endangered areas in the path of a tropical disturbance.

On this page is a pictorial review of the Yap typhoon damage as recorded by GUAM NEWS photographer, Bill Benton, S1, USN.

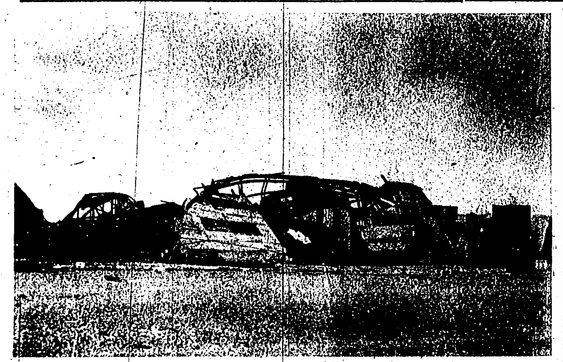
The causeway connecting the Naval installations to the native village of Balabad was severely damaged.

A scene in the Nif village vicinity. Damage was caused by a tidal wave. Salt-soaked sand deposits litter the ground.

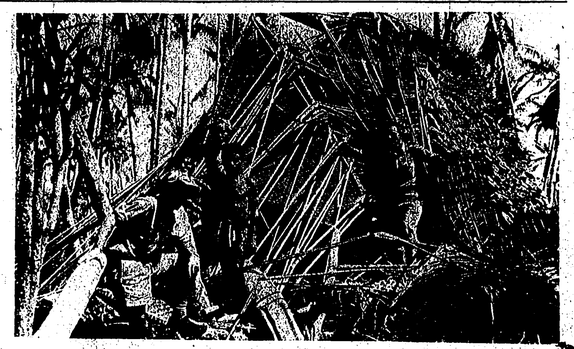


High typhoon winds overturned this steel barge. The boathouse in back ground was completely demolished. Coconut trees tail feathered to the leeward side.

This is what is left of the warehouse used by the Civil Administration Unit on Yap.



This was the warehouse employed by the Island Trading Company, a Navy enterprise.



Natives suffered almost 100 per cent destruction to their homes and property. This is an example of a Nif village home. (L-R) Litj Frink, of Civil Administration, three unidentified natives of Nif and Mr. Taggart of the Island Trading Company.

Pauley 'Going Right Back' to Speculating

WASHINGTON, Jan. 25 —(UP)— Edwin W. Pauley told Senate investigators today that when he leaves the government he is going right back into the commodity market speculation, an activity President Truman believes is "gambling in human misery."

Pauley's defiant announcement of his future plans was made to members of the Senate Appropriations Subcommittee investigating commodity speculation.

Earlier, with Harold E. Stassen seated close by, Pauley accused the Minnesota Republican presidential aspirant of combining "ignorance and falsehood to indict me solely in pursuit of his own selfish ambitions."

Stassen listened without showing emotion through Pauley's prepared statement defending his market operations, then rose to his feet and shouted that Pauley's "protestations of innocence" had proved the Stassen charges that he was guilty of using inside information to gain an admitted profit of nearly $1,000,000 in commodity speculations since the war ended.

At that point Ferguson recalled Mr. Truman's "gambling in human misery" statement and other denunciations of commodity speculations by Attorney General Tom C. Clark and Secretary of Agriculture Clinton P. Anderson.

"Did you know of these talks at that time, when you communicated with your broker, and did they have anything to do with your communication?" Ferguson asked.

"Absolutely not," Pauley said. Then he added:

"As a matter of fact, if Congress has not passed a price control act, as soon as I'm out of the Army job, I will be right back in the market."

——March of Dimes——

Marshall Plan Endorsed by Industry, Labor

WASHINGTON, Jan. 23—(UP)—The Marshall Plan for European recovery was endorsed by leaders of industry and labor today, but they disagreed sharply, whether the program should be run by the State Department or an independant government corporation.

President William Green of the American Federation of Labor, told the Senate Foreign Relations Committee that he was all for the plan and believed it should be controlled by a new agency directly answerable to President Truman and Secretary of State George C. Marshall.

Curtis E. Calder, Association of Manufacturers, and Paul G. Hoffman, President of the Studebaker Corporation, said they were for the aid program too, but not under State Department direction.

Calder suggested an administrative board made up of top-flight private citizens from various fields. Hoffman favored a single administrator with broad authority subject to the President's final decision on policy matters.

All three agreed that the aid plan would contribute to the inflationary measures on the American economy, but they said it looked like the best method of stopping Communism and restoring world stability.

——March of Dimes——

Teachers Strike at Large Chicago Schools

CHICAGO, Jan. 25—(UP)—Men teachers started a sitdown strike at two of Chicago's largest high schools today after the Council Finance Committee held up paychecks for the city's 14,000 public school teachers.

Meanwhile, the AFL Chicago Teachers Association representing 7,000 of the teachers, began taking a vote on whether to call a strike next week throughout the city's public school system.

Men teachers left classes at Lane and Tilden technical high schools this morning when schools opened. They held meetings for 30 minutes to an hour and then returned to their desks.

However, many students had gone home, telling them "if they won't pay you, we won't make you work." At both high schools, teachers participated in the meetings, sitting at their desks, retaining order among remaining students.

Ike's Speech Causes Political Stir

WASHINGTON, Jan. 25 —(UP)— The "Ike-for-President" boom was busted today by the longest statement of its kind in political history.

Chief of Staff Gen. Dwight D. Eisenhower used 804 words to remove himself.

The American who issued the shortest refusal to run was President Calvin Coolidge. In 1927 his secretary handed out small slips of paper on which were typed the following words:

"I do not choose to run for President in 1928."

"Silent Cal" used just 10 words.

When George C. Marshall became Secretary of State, he made an extemporaneous address to newsmen. He used 129 words.

But the most famous political renunciation was on June 5, 1884, when Gen. William Sherman, the North's civil war hero, refused to run for the presidency with these words:

"If nominated, I will not accept. If elected, I will not serve."

If President Truman and all the Republican candidates for this year's presidential nomination would confess, all hands would welcome Gen. Ike's announcement that he couldn't be had for politics.

"I would not accept the nomination," Gen. Eisenhower said yesterday in a statement which tipped his boomers back on their heels.

Some of them closed shop right away, but from Oregon to New Hampshire there were Ike-for-President operators who still thought the General could be drafted. They are expected to close shop pretty soon, too, because careful reading of Eisenhower's long statement does not disclose any qualification warranting him in accepting a nomination.

The White House apparently was pleased by Ike's statement because it seems a lot of Democrats agree the soldier with the big smile would have been a pretty sure bet to lick President Truman next November.

Republican regulars generally didn't want Ike in the first place. He was poison to the Dewey, Taft and Stassen people. Ike would have been tough for any of them to defeat if he really went after the GOP nomination.

Meanwhile in Tokyo, Gen. Douglas MacArthur told the United Press today he had "no comment" to make upon Gen. Dwight D. Eisenhower's announcement that he could not accept nomination as a presidential candidate.

Thus it appeared that the Eisenhower statement would have no immediate apparent effect on Gen. MacArthur's position which many observers believed to be one of "watching and waiting."

However, many MacArthur admirers among occupation personnel considered that Eisenhower had gone out of his way to block any possible MacArthur ambitions when he expressed his view that no professional military man should aspire to the presidency.

——March of Dimes——

U.S. Army To Sell Surplus Goods in Germany

FRANKFURT, Germany, Jan. 25 —(UP)— The United States Army announced today that it will sell $1,000,000,000 worth of its surplus—clothes, cloth, hardware, kitchen utensils, machinery, tents and communications equipment—in the combined American-British zones of Germany.

The surplus will be channeled into German retail markets and is expected to increase faith in the market as well as remove some of the material cause for the mass strikes that have been plaguing the bizonal area.

Food For Germans

While the surplus does not include food, Gen. Lucius D. Clay announced in Washington yesterday that he would ask Congress to appropriate $700,000,000 to buy food for the Germans during the next fiscal year. Clay hopes to increase the minimum German ration from 1,550 to 1,885 calories a day.

The Germans have claimed that hunger was the bottom of their strikes, such as the one in Bavaria that ended today, although there has been some suspicion that walkouts were agitated under the secret Communist "protocol M" to hamstring the Marshall Plan.

Earthquake Rocks Southwest Pacific

by United Press

A major earthquake somewhere in the southwest Pacific, described by one seismological station as the biggest since the disastrous Japanese quake of December, 1946, was recorded Saturday on seismographs in United States, England and Hawaii.

Recording instruments reported a temblor lasting approximately an hour and a half starting shortly after 10 a.m. (PST). The direction finders indicated it occured somewhere in the area of the Sula Sea, west of the Philippines, or in the New Hebrides Islands.

Geodetic survey seismologists favored the New Hebrides location on the basis of reports from instruments in California, Fordham University and in London.

The California Institute of Technology's recorder at Pasadena, Cal., traced a shock beginning at 10:00.58 a.m. (PST) located 6,000 to 7,000 miles distant in the direction of the southwest Pacific. It was listed as of nearly the same intensity as the Japanese temblor.

Prof. Perry Beyerly at the University of California, Berkeley, reported his seismograph recorded the same quake beginning at 10:00.46 a.m. with a duration of one and one-half hours and an epicenter 6,200 miles distant "in the area of the New Hebrides."

APPOINTED TO REAR ADMIRAL——Commodore J. E. Maher, USN, has been appointed by the President with the advice and consent of the Senate temporarily to Rear Admiral, a message received from BuFers said yesterday. Adm. Maher is head of a ten man on-site survey board which is presently making a tour of Navy installations on Guam. The message said formal appointment will be delivered to Adm. Maher upon his return to Washington. (Guam News Photo)

U. N. Commission Asks For Aid

LAKE SUCCESS, N.Y., Jan. 25 —(UP)— The United Nations Palestine Commission, it was disclosed today, will ask the Security Council to study urgently the need for an international aid in Palestine.

The Palestine commission will pose the problem in a special report to the council soon after Feb. 1, Commission Chairman Karel Lisicky told a news conference.

"The problem is so important that it will be treated in a special report," Lisicky said. "It can not be delayed for any great time."

Lisicky and the other four members of the Palestine commission gave the clear impression that they believed some armed force must be mobilized if Palestine is to be partitioned into Arab and Jewish states.

He emphasized, however, that the decision on the use of armed forces, or other action to balk Arab countries, must be made by the Security Council.

——March of Dimes——

Lend-Lease Proposal

MOSCOW, Jan. 25—(UP)—Russia has proposed that the United States take "full consideration" of the Soviet Army's contribution toward victory in rewriting the terms of settlement of the $20,000,000,000 wartime lend-lease program, a dispatch from Moscow said today.

The dispatch said Russia "again applied to the U. S. government on December 16" with a note in which it proposed conclusion of an agreement on lend-lease with due consideration of what was done by the Soviet Union and Soviet Army.

Weather Forecast

Partly cloudy with scattered moderate showers. Winds moderate easterly with occasional fresh gusts.

Yesterday's temperatures: Max. 85; Min. 75.

Yesterday's rainfall: 0.16 inches.

Rainfall for month: 7.92 inches.

Food Strike Ends In U.S. Occupied Bavaria

FRANKFURT, Germany, Jan. 24 —(UP)— The 24-hour, "we-want-food" strike of an estimated, 1,500,000 workers in U. S. occupied Bavaria ended on schedule at one minute after midnight today.

The first evidence that the strike had ended was the appearance of trainmen, who began resuming rail service between Munich, Nuernberg and other key cities of the stricken German state.

Trolley traffic resumed at 12:53 a.m.

Three-Day Holiday

Since few German factory workers work Saturdays, today will be the second day of a three-day holiday for most Bavarian workers. A noteable exception, are the coalminers who were expected to be on the job.

The strike passed without any reports of violence, but there were large rallies in Munich, Weurzberg and Regensburg.

The walkout was called to protest alleged bungling of food distribution by the German administration of Bavaria. Last night the German economic council of the Anglo-American "Bizonia" approved emergency measures calling for a house-to-house and farm-to-farm census of foods.

Robbery Foiled By Bank Guards

CHICAGO, Jan. 25 —(UP)— An alert teller and a team of guards foiled a one-man attempt to rob the crowded First National Bank here today in the closing minutes of the business day.

The bandit appeared at the cage of teller Elmer Larsen and brandishing a revolver ordered him to hand over the contents of his cash drawer.

While hundreds of last minute patrons went about their business in the huge marble banking room, Larsen stepped on an old alarm button and dropped to the floor, yelling at other tellers to close their wickets.

The bandit ran from Larsen's cage to another, and then a third before realizing that an alarm had been sounded.

——March of Dimes——

Joseph Dodge Resigns

WASHINGTON, Jan. 25 —(UP)— Secretary of State George C. Marshall today abandoned hope of obtaining an early peace treaty for Austria.

In accepting the resignation of Joseph M. Dodge, Detroit banker, as his deputy for negotiation of the Austrian treaty, he thanked Dodge for his work and said that he thought it laid the groundwork for a possible settlement but "at some future time."

Snow, Sleet Threaten New York

NEW YORK, Jan. 25 —(UP)— A blizzard-like storm blasted the eastern seaboard from Cape Hatteras to Massachusetts today, threatening Washington, New York, Philadelphia, Boston, and its other cities and towns with the worst storm of the winter.

At mid-afternoon, the New York Weather Bureau reported the storm centered about 50 miles east of Cape Hatteras, "attended by gale winds, snow, and sleet."

"This storm is expected to move northward about 30 miles per hour into the New York area," the bulletin continued. Conditions are not likely to subside until after midnight and light snow is probable throughout Sunday. Temperatures will remain between 10 and 15 degrees generally. Storms of this type have given as much as 14 inches of snow in the past.

In New York City, authorities were treating the storm as an emergency. Mayor William H. O'Dwyer authorized the hiring of up to 10,000 emergency workers to aid municipal employes in keeping the streets open for fire fighting and police equipment. The mayor's fuel emergency committee also met at City Hall although the new storm was not expected to worsen the tight fuel situation at once. The mayor appealed to motorists to get their cars off the streets and keep them off. Parked cars interfered with snow removal operations after the record snowfall here on Dec. 26 of 24 inches plus.

In Washington, where five inches had fallen by 3 p.m. Police Chief Robert J. Barrett declared a state of emergency and urged motorists to stay home. The snow still was coming down and was expected to reach eight inches before stopping around midnight. All transportation was off schedule and it was estimated that 2,500 cars were stalled.

——March of Dimes——

American Council Of Education Disapproves UMT

WASHINGTON, Jan. 25 —(UP)— The American Council of Education today reaffirmed its opposition to Universal Military Training and recommended that health and education be given a prior claim on "national security" spending.

A policy statement, approved by 42 of the Council's 51 member organizations, denounced UMT as "contrary to the basic tenet of peacetime democracy.

It argued that among other things adoption of Universal Training would create a "false sense of security" and jeopardize the nation's efforts to "secure peace through international cooperation."

The nine dissenting groups were not identified and no minority report was issued. It was reported however, that they included military schools and similar groups who believe that some form of universal training is an essential part of national defense.

The council first opposed UMT at a meeting held a year ago before President Truman appointed his special commission on universal training. It denounced the proposal at that time as a poor "peacetime policy."

——March of Dimes——

Senate Confirms Collins' Nomination

WASHINGTON, Jan. 25 —(UP)— The Senate today confirmed unanimously the nomination of Lt. Gen. Joseph L. (Lightning Joe) Collins to be deputy chief of staff of the Army with the rank of general.

Also confirmed was the nomination of Maj. Gen. Leslie R. Groves, wartime commander of the Manhattan project atomic development, to be Army member of the military liaison committee for the atomic energy commission with the rank of general.

Meanwhile, Sen. Claude Pepper, (D-Fla.) today urged a congressional investigation of the "the enormous increase in fuel oil prices by major companies in recent weeks."

The Florida Dmocrat said in a letter to chairman Robert A. Taft, (R-O.) that his joint congressional economic committee should "go thoroughly into this matter to determine whether excessive charges are being made by the oil companies in order that they might make unreasonable profits at the expense of the public need."

Smiled Her Way Into Cop's Heart

BOSTON —(UP)— A little girl who wanted to be pretty probably will get her wish because she has a charming smile.

It was the smile that attracted Patrolman William Hennessey when 8-year-old Mary Reid came dancing home each day and clasped his hands as she greeted him at the crossing.

She always had a smile for the officer despite her disfigured face. Hennessey watched for her every day and appointed himself her unofficial "Guardian Angel."

He learned that she had been burned four years ago in a fire which took the lives of her mother, two sisters and a brother. He wanted to help her but couldn't do much on a policeman's salary.

Finally, near Christmas he made a token gesture which snowballed into a promise that Mary might once again look like other girls.

Hennessey gave her a wristwatch.

Newspapers noted the unusualness of such a present and dug deeper to find the reason. Others wanted to help Hennessey and his "girl friend" and contributions started pouring in to finance plastic surgery for the girl.

A group of professional and business men set up an Ethel Mary Reid trust—and made it permanent to help not only Mary but other poor children in need of costly surgery.

The New England Deaconess Hospital offered the girl a free room during the period of her facial surgery. She soon will start a series of operations for the restoration to normal of her face, neck, arms and hands.

The fund got a further boost when Mary and her policeman friend went on a national radio network to tell their story. Mary giggled and performed like a veteran—even prompting Hennessey when he seemed about to miss his lines.

"She just smiled her way into my heart," Hennessey said.

"There are some fine people in the world, aren't there, Mary?" the announcer prompted.

"Yes," she said, "especially nice cops like Mr. Hennessey"

—March of Dimes—

Start School at Two?

NEW YORK —(UP)— Rose Schneiderman, President of the Women's Trade Union League, believes the day will come in this city when children will start to school at the age of two.

"It's no longer practical," she said, "to tell all mothers of small children that they should stay home with their babies. Working women have made tremendous progress in our time. Women have better pay than before, children have better care and living standards are higher."

The League, she said, is now taking a poll of women to determine how they feel about it.

INCREASE THEIR ODDS—These five children here at Agafo Gumas on Guam typify the healthful exuberance of American children. Their minds are happy and carefree, their bodies strong and alert. Perhaps they will always maintain that health, but statistics show that one out of every five children has a better than 50% chance of contracting infantile paralysis.' Your contributions to the March of Dimes campaign may lessen the odds; your continued aid may banish them completely. Children are: L to R, Kala Sack, John Sack, Barry Gaffney, Joan Sack and William Fassett. (U.S. Army Photo)

Disabled Veteran Masters Linotype

MONTEREY, Calif. —(UP)— A linotype operator who lost his left forearm in the battle for Brest in 1944 has mastered the tricky typesetting machine with one hand and now is working for his former commanding officer in the Army.

Marvin F. Roberts served in the 13th Infantry Regiment, Eighth Division, under Col. Allen Griffin, who was on leave as publisher of the Monterey Peninsula Herald.

On his discharge, Roberts returned to Topeka, Kan., where he finished a six-year apprenticeship in the composing room of the Capital 10 days before he entered the Army. Because of his disability he was put on the copy desk, a job that didn't suit him.

Roberts practiced on the linotype after hours with his one hand until he had gained enough proficiency to go back to his old profession in Chicago. Then Griffin hired him for the Peninsula Herald.

Roberts punches the linotype keys with his right hand and works the spacer with his left arm stump.

Higher Octane AvGas For Navy Aircraft

A new, super octane aviation gasoline which steps up aircraft engine power as much as 15 per cent is being used by Navy combat planes.

The more powerful fuel, technically designed grade 115-145 aviation gasoline, increases the performance of carrier-borne fighters and attack bombers, and improves the effectiveness of long-range patrol planes.

The power increase of as much as 15 per cent is gained by substituting the new fuel for the 100 octane, grade 100-130, gasoline which was used extensively in World War II. The power increase is shown in higher speeds, faster rates of climb, and ability to carry greater payloads longer distances. The effectiveness of the Navy's missions of attack, defense, transport, and patrol are increased accordingly.

ATTENTION EAGLES

There will be a get together meeting for all Eagles at Camp Ethridge on Thursday evening, January 29th at 7:30 p.m.

Seminoles Get Break On Auto Licenses

TALLAHASSEE, Fla. —(UP)— The dwindling band of Seminole Indians in Florida stays one up on the "Palefaces" every year when it comes to buying automobile license plates.

The redmen are the only Floridians who don't have to pay for their license plates.

The policy started about 17 years ago during the administration of Gov. David Sholtz, who wanted to help the Seminoles with their problems.

Sholtz took his entire cabinet of state officials down the Tamiami Trail to hold a pow-wow with the Indians, and explained through an interpreter that Florida wanted to assist the Indians in any way possible. But the Indians turned down his offers, and said they didn't want any help from the palefaces except free licenses to "dress up their cars and make them look pretty."

So when the black and yellow tags go on sale, the Seminoles will be about the only Floridians who won't be grumbling.

—March of Dimes—

McMorris Chairman Of General Board

WASHINGTON—Vice Admiral Charles H. McMorris, USN, has been named Chairman of the General Board of the Navy, succeeding Admiral John H. Towers, USN, who retired from active Naval service December 1, 1947.

A native of Wetumpka, Alabama, Vice Admiral McMorris has served as a member of the General Board since September, 1946. During World War II he served as chief of staff and aide to Fleet Admiral Chester W. Nimitz, USN, Commander in Chief, Pacific Fleet and Pacific Ocean areas, as commander of a cruiser task force in the north Pacific, and as commanding officer of the USS San Francisco.

As chairman of the General Board, Vice Admiral McMorris heads a group of officers of varied experience and specialties selected by the Secretary of the Navy to give him advice on such military problems as he may designate.

Other present members of the General Board are: Rear Admiral Charles B. Momsen, USN, Captain Leon J. Huffman, USN, Colonel Randolph M. Pate, USMC, and Captain Arleigh A. Burke, USN.

MarBo Has Housing Problem

MARBO—It was announced last week that there are 610 families occupying family type quarters in the Marianas Bonins area. Seventy-nine families are scheduled to arrive during the month of January, 120 during the month of February and eight during the month of March. All of the family type quarter now vacant or to be constructed by the 15th of March 1948 have been committed to the families which are to arrive during the months of January, February and March.

Have to Wait

Personnel who departed on their current overseas tour between March and November 1947 will have to wait approximately 15 months before dependents will be able to join them. Personnel presently starting their current overseas duty will have to wait approximately 16 months for their families.

It was also announced that all authorized interim housing will be completed by 15 February 1948. Three hundred forty-seven NCO permanent type quarters are authorized. Some of these will be completed in April, May and June 1948 and a greater number in July.

—March of Dimes—

Dependents Arrive

HQ. 20TH AIR FORCE—Eight dependents of Twentieth Air Force personnel reached Guam Thursday morning aboard the USAT General Hodges when it docked in Apra Harbor.

Newcomers to Harmon Field were Lt. Joseph W. Stephens' wife and son, Joseph, and T-Sgt. Charles N. Bray's wife and two sons, Charles N. and Marvin D.

Mrs. Archie C. Silverthorne joined her husband, Staff Sgt. Silverthorne, at North Field. The wives of Capt. Lester W. Morris and Master Sgt. Ollie T. Bullock, Northwest Field, were the other arrivals.

Notice—It is requested that all classified and display advertising be submitted to the Guam News advertising office, Agana, at least three days prior to the desired date of publication.

Guam Chapter Holds Meeting

COMMAR HILL—The January meeting of the Guam Chapter American Red Cross was called to order by Rear Admiral Charles A. Pownall in his office at 1000 Monday, 19 January 1948.

Miss Lagumas Leon Guerrero read the minutes of the last meeting. Following the approval of the minutes were reports from committee chairmen.

Mrs. M. H. Anderson, Chairman of the Home Service Committee, reported that Mrs. M.L.G. Rivera needing Red Cross assistance were referred to the Guam Chapter and had been acted upon during the month of December 1947.

Mrs. R. Langford, Chairman of the Home Nursing Committee, reported that new literature and posters had arrived for furthering the home nursing training program presently in progress throughout the villages of the Island.

Mrs. C. A. Pownall, Chairman of the Special Service Committee, reported that Mrs. M.L.G. Rivera had tended her resignation as chairman of the Junior Red Cross committee. Mrs. Remedios L. G. Perez was elected to fill this vacancy.

Mr. Norbert Tabery was elected chairman of the 1948 fund raising committee.

The meeting adjourned at 11:30 a.m.

Major Leonard S. Dysinger, recently assumed the duties of his new assignment as assistant chief of staff for procurement of supply and maintenance division of the 46th Fighter Wing at Northwest Air Base. His two previous assignments in this command were adjutant and commanding officer of the 23rd Fighter Group. (46th Fighter Wing Photo)

'Meanest Man'

BOISE, Ida. —(UP)— A thief broke into the Idaho office of the National Foundation for Infantile Paralysis and took $8.35 in small change donated by school children to fight Idaho's worst polio outbreak in history.

A United Press story dubbed the thief as another "meanest man."

Since then, people have been writing here from all over the nation enclosing money. Donations now total three times the amount stolen.

Bulk-Head by Rode

"Some guys just got to get reckless and try it without a mirror!!"

VA File System 'Tough Job'

WASHINGTON —(UP)— Estyleene Rued is one of the scores of government girls suffering from indixitis. It is an affliction that keeps her head buzzing with names—about 25,000,000 of them.

That's the number of names in this block-long master index file of the Veterans Administration where Estyleene and other clerks try to identify properly the millions of veterans who correspond monthly with the VA central office.

The name "John Smith" gives them their biggest headache.

If "John Smith" writes out a check for his National Service Life Insurance premium, but forgets to include his address or maybe gives the wrong one, then Estyleene's troubles start.

She starts fingering through the "John Smith" filing cards. There are 12,000 "John Smiths" in the VA files.

She soon reduces it to 800. That's the number of "John Smiths" who have no middle name or initial.

Estyleene's next move is to see if the postmark is legible. If it is mailed from Podunk, Ky., and there is only one "John Smith" in Podunk, her problem is probably solved. If it is mailed from a city where there are hundreds of Smith's, that's another problem.

There's usually some way, but it frequently takes several days to track down the right "John Smith."

Estyleene's life not only is complicated by the Smiths. She and her fellow-workers also have to worry about the 149,000 Johnsons, 121,000 Browns, and 109,000 Jonses in the VA files.

The man in the street may know of only one Eisenhower by name, but Estyleene has 102 Eisenhowers in her file.

—March of Dimes—

It may take years for the person seriously crippled by polio to regain the greatest possible use of his body. Sometimes surgery is necessary. Local chapters often help pay expenses for such cases for many years. Chapters cannot provide aid for crippling caused by anything but polio.

Homeward Bound

MARBO — Sgt. Harold L. Wellman, stationed on Iwo Jima, received a message from the Red Cross that his father had died of asphyxiation in Wayne, West Virginia.

He was immediately flown to Guam and on arriving here he received another message saying his mother and sister had died in the same accident.

Orders were quickly written; late at night so that Sgt. Wellman could take the first available plane back home to West Virginia. He departed by Naval Air Transport Service a few hours after arriving on Guam.

Gets New Orders

HQ. 20TH AF—Sgt. Casper J. Bondy, a member of Central Air Base Command on Iwo Jima, has been ordered to report to the United States Military Academy, West Point, N. Y., to attend a preparatory school where he will take his final entrance examinations before becoming a cadet, according to information received here recently.

Assigned to Iwo for the past eight months, he has been officers' records clerk in headquarters and also manager of the Air Forces theatre.

Sgt. Bondy's home is at 432 Continental, Detroit, Michigan.

COLOR PRINT SERVICE

by KODAK

KODACOLOR PRINTS are snapshots in Full Color. They can be ordered only through your Kodak Dealer. Kodacolor Prints are usually ordered at the time the film is left with us to be sent in for developing. On "develop-and-print" orders, only those negatives are printed which, in the opinion of Kodak's operators, will yield prints that will be satisfactory to you.

Additional Kodacolor Prints from Kodacolor negatives may be ordered at any time from us. All Kodacolor Prints are made approximately 2-7/8 inches in width...... Kodacolor negative inches in width .. The length being determined by the proportions of the Kodacolor negative. Black-and-White prints may be made from Kodacolor negatives by regular photographic printing methods.

KODACHROME PRINTS are full-color enlargements made from your original 35mm. (24x36mm) or Bantam (28x40mm) transparencies. They can be ordered ONLY through your Kodak dealer. If you should want Kodachrome Prints made at the time your Kodachrome Film is processed, bring the film to us and request that we send it to Rochester with a process and print order. On such orders, Kodak will print only those transparencies which, in their opinion, will yield prints that will be satisfactory to you. When you are selecting transparencies from which Kodachrome Prints will be made, check carefully for accurate color rendering, sharp definitions, correct exposure, and low contrast.

KODACHROME PRINTS are made in four standard sizes from original Kodachrome transparencies. These standard sizes of Kodachrome Prints utilize the full, uncropped picture area of the transparency. The 2X and 3X sizes are furnished unmounted and printed without margins. The 5X and 8X sizes are delivered in handsome oversize double mounts. The sizes and prices of standard Kodachrome Prints are as follows:

KODACHROME PRINTS (About 2¼ x 3½ in.), ea.	$ .60
6 or more prints, each	.50
Kodachrome Prints 3X (about 3x4-3/8 in.) ea	.85
6 or more prints, each	.75
Kodachrome Prints 5X (5x7½ in.), each	2.75
3 or more prints, each	2.35
Kodachrome Prints 8X (8x11 in.), each	5.80
3 or more prints, each	5.05
Kodacolor Prints (Any size negative)	.35

(Minimum charge, $1.) on all orders.

COLOR PRINT SERVICE is available ONLY through your Kodak Distributor or Dealer

Browns Regret Sending Stevens to Another Club

NEW YORK —(UP)— Don't breathe it to a soul, but the swapping St. Louis Browns finally confessed that they made a mistake by sending one of their players to another club.

Ironically enough the confession did not concern any of the individuals sent to the Boston Red Sox or Cleveland Indians. The player for whom the Brownies are apologizing is quiet and likeable Chuck Stevens, a first baseman by trade and a gentle man by nature.

Stevens, who played first for the Missourians during 1946, is excellent on defense but only so-so when the vaunted but vulnerable Jerry Witte came along last spring, tabbed as the greatest home run potential since Lou Gehrig and Hank Greenberg combined. Stevens eventually was thrust to the background and later, thrust even farther to Toledo of the American Association.

Witte started the 1947 season at first base for the Browns and gradually proved impotent at the plate.

The Brownie front office then went into a systematic dither until someone along the line remembered Stevens.

Stevens' name brought temporary exhiliration until someone else remembered that the blond first sacker had been sent back to the minors three times already and that St. Louis had exhausted its waivers on the hustling left-hander from Van Houten, N. M.

Now, Witte has been sent back to Toledo for what must surely be the 267th time, and Stevens, through some hidden hocuspocus, is once again a full-fledged member of the Browns.

Stevens is confident he can field in big league style and says he will try to measure up at bat.

It's been a "long way around the horn" for Chuck.

—March of Dimes—

NCAA to Review Promotion Setup Of Bowl Games

NEW YORK, —(UP)— The National Collegiate Athletic Association expects to take a long look at a report on what goes on in the promotional setup of those big New Year's Day football games.

Some of the so-called little schools, who haven't been getting their share of bowl bids for obvious reasons, are in favor of outlawing the whole bowl business.

They couldn't muster enough votes a year ago to force the entire NCAA membership to terminate its football schedules at the end of the regular season but to quiet the anti-bowl campaign a committee was formed to investigate the bowl setups.

Terrific Business

The bowls have become terrific business. Starting early in December, some 40 bowl games were played before approximately 575,000 fans who paid an estimated $2,000,000 at the box-office.

Clarence P. (Pops) Houston of Tufts, in charge of a bowl investigation committee, is scheduled to report on who, why and how the various bowl games are sponsored, where the money goes and whether the entire business is worth while to collegiate football.

A proposal to kill the bowls last January was treated more or less as a joke and maybe it will be again.

But delegates from bowl-minded schools were almost floored when Col. William Couper of Virginia Military Institute, during a debate over the NCAA's "sanity code," entered a motion to eliminate all post-season football.

—March of Dimes—

Turf Problems Now Same as in 1870's

NEW YORK —(UP)— The problems of the turf are timeless.

To commemorate its diamond jubilee, the Fair Grounds has published a handsome, gold-engraved booklet on the history of racing in New Orleans. And the 80-page illustrated document written by Louis J. Hennessey reveals that the third oldest track in America was faced with the same difficulties in its early history that racing has today.

Crooked jockeys, gambling cliques, drugged horses, tragic accidents, epidemics, battles for racing dates and the bad weather which has been man's problem since Noah climbed into his ark, all made Fair Grounds history a stormy one. But it spite of them, the track has held sway since April 13, 1873.

Big League Players Can Produce A Million Gripes

NEW YORK —(UP)— Complaints? Big league ballplayers have a million of 'em.

Players are unique in that they are not particular what they complain about or how frequently they beef about the same fancied injustice. Travel in their company for any length of time and you'll listen to a never-ending earful of gripes.

Specifically, the athletes' principal squawks are:

Official scoring—The various scorers, for the mysterious reason, come in for almost as much abuse as the umpires. Each hitter is sure that he's owed anywhere between 10 and 25 points on his batting average by the scorer, and the fielders kick about many errors charged against them.

Upper berths—Ballplayers, particularly veterans, insist on slumbering in lower berths while the club travels from city to city. An upper is most players is comparable to being benched for not hitting.

Salary—Undoubtedly, this item represents the majority of players' favorite complaint. Listen to them long enough and you'll gather the impression that they border on penury. Invariably, the highest-priced players complain the most.

Night ball—Practically nine out of every 10 big leaguers dislike playing under arcs and aren't hesitant about saying so or complaining about the increasing number of night games. Their dislike generally takes root in the minors where poor lighting systems make night games more hazardous than pitching to Ted Williams with the bases loaded.

—March of Dimes—

All Okay Between Chandler, MacPhail

ST. LOUIS —(UP)— Everything is all right between former New York Yankee President Larry MacPhail and Baseball Commissioner A. B Chandler, despite the much-publicized "showdown" meeting of the pair last May.

In a byline story, Spink said MacPhail claimed to have been instrumental in throttling talk by three big league owners of buying up Chandler's seven-year contract. Spink said that MacPhail told him in Los Angeles that proposals by National and two American League owners were quashed by the "red head's" pleadings and never got past the stage of informal discussion.

—March of Dimes—

Fireworks Expected At Hialeah Track

NEW YORK —(UP)— An impressive band of fillies and mares have gathered in Florida for winter racing and they should provide fireworks when they all swing into action at Hialeah Park.

Harmonica, the speedy daughter of Snark who has been surrounded by tragedy recently, stole a march on the field by winning the Hallandal Handicap at Gulfstream in track record time. Her owner, John J. Watts, died in New York and her trainer, Max Hirsch Jr., was killed in an automobile accident, both recently.

Qualified wrestling referees are urgently needed for All Navy eliminations at NAS Orote. Any civilian or serviceman who has had experience and wishes to apply, call Lt. Sauter at Boston 8179.

Sports Beat

by Bob Crossley

IS LOUIS THROUGH? — Boxing experts and fans alike have been wondering that since Jersey Joe Walcott came within that much of lifting the champ's crown.... A lot of people said he was washed up even before his second fight with Billy Conn....He promptly disproved that by disposing of Tami Mauriello....Now they are beginning to say it again.....And in no uncertain terms.

Those who believe that Joe's finished as a great fighter were backed up recently by Dr. Arthur H. Steinhaus, prominent physiologist at George Williams College in Chicago... Dr. Steinhaus contends that in the course of nearly 11 years of defending boxing's most coveted title, Louis has taken too many blows to the head.....The good doctor says that no boxer can escape the irreparable damage continued hard blows to the head can do.....Man's brain is fluid-packed in the cranium and any severe knock may jar it and in the movement, delicate nerves or blood vessels are likely to be injured....Brain tissues, unlike other parts of the body, do not mend, the damage is permanent.....Joe never was noted for his great defensive fighting, and he has received more than his share of blows....Particularly in the Walcott fight.

In a statement right after the Walcott affair, Louis admitted that he saw several openings he couldn't get to and numerous blows he could not duck.

Lujack Still Not Signed by Bear Coach George Halas

CHICAGO Jan. 24 —(UP)— Johnny Lujack, Notre Dame's star back and the prize objective of pro football owners for the 1948 season, has not reached an agreement with the Chicago Bears, the club revealed regretfully today, but they hope to settle contract terms Saturday morning.

The Bears announced a "press party" for Saturday afternoon, and said that Lujack was coming to Chicago to meet Owner-Coach George Halas in the morning.

The morning conference, he went on, "means that Halas hopes to sign him then. But the party goes anyway."

He said he didn't know whether Lujack would attend if he did not reach an agreement with the chief of the Bears, but interested observers were certain that the Notre Dame star would be offered whatever points prevented agreement and that he would come to terms readily.

Halas, who conferred with Lujack on the telephone late today, indicated earlier that there was only one "minor" point which prevented complete agreement. Today's telephone conference was the fourth of the week, and each time some progress was made toward settlement.

Yesterday the Bears' leader reported that Lujack wanted to confer with a friend about one section of the proposed pact. It was understood that the issue hinged on the length of the contract only and that the financial offer made by the Bears was satisfactory.

The tip-off on Halas' opinion of his chances to get Lujack was in the announcement of the "press party." The two competing National League football clubs in Chicago, the Cardinals and the Bears, inaugurated "parties" to celebrate acquisition of collegiate stars last year when the Cards signed Georgia's Charlie Trippi.

—March of Dimes—

20th Century Club Still After Return Louis-Walcott Tiff

NEW YORK —(UP)— The battle for promotional rights to the return fight between Joe Louis and Jersey Joe Walcott has not ended by any means.

Strauss, acting director of the 20th Century Sporting Club, announced that Louis had agreed to defend his title for 20th Century at New York in June "if certain minor details can be straightened out."

In the same breath, Strauss admitted that he had not come to terms with Challenger Walcott. In fact, he had not even done any direct negotiating with Walcott or his handlers. Optimistic Sol said he "took it for granted" that he would be able to sign Walcott for the fight.

Produce Walcott

He refused to disclose whether one of the "minor details" demanded by Louis was that Strauss produce Walcott for the fight in June. He declined also to disclose what course 20th Century would take in case it could not induce Walcott to meet Louis under the 20th Century's dollar-studded banner.

The announcement was designed to stop bidding for the fight by promoters in other cities. It is of utmost importance to 20th Century that no rival promoter snatch the Louis-Walcott bout, for such a grab would wrest from 20th Century the world heavyweight crown and without a control of the title is doubtful that 20th Century could exist long. Possession of the championship has been the basis of successful Madison Square Garden promotion for the past 25 years.

—March of Dimes—

West Point Relays To Army, Manhattan

WEST POINT, N. Y., Jan. 24 —(UP)— Four records were broken as Army and Manhattan shared top honors in the fifth annual West Point Relays today.

The Cadets started out early by winning the first heat of the 1,200 in the record breaking time of 2:-08.9, knocking off more than two seconds from the previous mark of 2:10.2 set by a Cadet quartet last year. The Army team which led all the way today consisted of Ed Wagner, Ed Mastaglio, Charlie Nasm and John Hammack.

As expected, they captured the final although in somewhat slower clocking.

—March of Dimes—

Three Top Golfers Tied in Phoenix Open

PHOENIX, Ariz., Jan. 24 —(UP)— Three of golf's more colorful winter circuit regulars P.G.A. Titlist Jim Ferrier, San Francisco, beknighted Bobby Locke, Johannesburg, South Africa and links stylist Jimmy Demaret, Ojai, Calif., were deadlocked for the lead with 65's today as firing opened in the second round of the $10,000 Phoenix Open.

Locke was constantly in trouble on the fairways, but made beautiful recoveries to use only 26 putts for the 18-hole route.

Every Phase Becomes A Statistic in Baseball

NEW YORK —(UP)— Baseball sometimes is just one big statistic after another.

Virtually every phase of the game becomes either an average or a percentage eventually. The assorted digits then furnish fodder for the fans and the basis for salary demands by the players.

The statisticians, who compile the figures, argue that the numerals are the very life-blood of the game.

"How would you know who the leading hitters and pitchers were without statistics?" they ask. "How, as a matter of fact, would you know which team was leading the league without some sort of compilation system?"

It might be that they have something there, but from our point of view, mathematics serve as little more than meringue on the baseball pie.

Gambling Charges Against Jr. Davis Cuppers Revealed

NEW YORK, Jan. 25 —(UP)— Charges that members of the Junior Davis Cup squad bet on matches, gambled among themselves and received lavish expense accounts for competing in various tournaments were revealed today at the annual meeting of the United States Lawn Tennis Association. The squad is made up of promising players under 18 years old.

The accusations were disclosed in a reoprt by Dr. S. Ellsworth Davenport Jr., of New York, chairman of the Junior Davis Cup Committee. He said that officials in various sections reported to him that in many instances the youngsters had been betting on matches other than the ones in which they competed and were gambling "beyond their means" among themselves.

He said the committee also has received unconfirmed reports that the outstanding youngsters were being offered sums in excess of actual expense money to compete in various tournaments. The offers were said to have come from the clubs staging the tournaments, but Davenport emphasized that efforts to obtain proof of the offers had been in vain.

Davenport cautioned against such practices.

The U. S. L. T. A. set Sept. 4, 5 and 6 for the Davis Cup challenge round and the week beginning Sept. 10 for the National Tennis championships. Both will be held at the West Side Tennis Club, Forest Hills, N. Y.

Guam News

Guam, Marianas Islands Tuesday, January 27, 1948

Oil Company Accused of Influencing Government

WASHINGTON, Jan. 26 —(UP)— Sen. Owen Brewster, (R—Me.,) today charged that an oil company "planted" a $37,000-a-year director in the State Department in 1941 to influence the government's policy on Arabian oil.

Brewster said Max W. Thornburg, special assistant to the under Secretary of State from 1941 to 1943, was guilty of "the most reprehensible conduct" by working for lend lease aid to Saudi Arabia so his company could obtain oil rights. Thornburg was a director of Standard Oil Company of California. He is no longer connected with the firm.

Former Secretary of Interior Harold L. Ickes, the wartime government petroleum administrator, said Thornburg's actions were "shocking."

Both of them agreed that Thornburg appeared to have put his business interests ahead of those of the government.

Ickes had testified that Standard Oil Co. of California and Texas Co. —parent concerns of Aramco—tried to get him to urge land lease aid for Saudi Arabia so American companies could beat the British to the oil fields. Ickes said he refused.

Thornburg's wartime government service entered into a hearing by Brewster's Senate War Investigating Committee into wartime government purchase of Arabian oil.

The committee is looking into charges that the government twice rejected chances to get Arabian oil at slightly above cost if Saudi Arabia were given land lease aid and later signed contracts to buy the oil at more than double the original offer.

Ickes said he had nothing to do with it because it was a "purely military" transaction over which his petroleum administration had no control. The contract for oil at the higher price was signed by the Navy.

Brewster said the Navy paid $1.08 a barrel for oil while the British were buying it a few hundred miles away for 40 cents a barrel.

Charles Evans Hughes, Jr., attorney for Arabian-American Oil Co., which sold the oil denied Brewster's suggestion that the firm had received "generous and solicitous treatment" from the government.

—March of Dimes—

Catholic Conference Denounces Document

WASHINGTON, Jan. 26 —(UP) The National Catholic Welfare Conference today denounced as anti-Catholic and unAmerican a manifesto issued recently by leading Protestant churchmen which called for separation of church and state.

Archbishop John T. McNicholas of Cincinnati, speaking for the conference and the Catholic hierarchy in the United States said the manifesto is "bound to arouse intolerance, suspicion, hatred and conflict between religious groups."

The Protestant document was released Jan. 11 and announced formation of "Protestants and other Americans united for the separation of church and state." It emphasized that "our controversy is not with any church, Roman Catholic or any other," but the sponsor demanded the immediate recall of Myron Taylor, President Truman's personal ambassador to the Vatican.

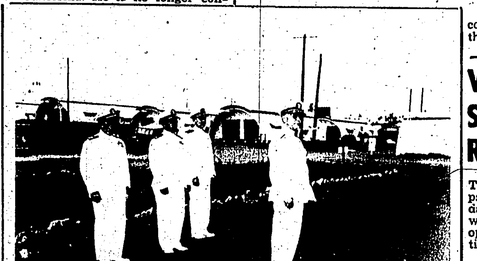
—March of Dimes—

Truman Asked For Aid

NEW YORK, Jan. 26 —(UP)— President Truman today was urged to intervene personally to aid Mrs. Ema Debeljak, an American citizen reported condemned to death in Yugoslavia, allegedly because she obtained a passport to the United States for herself and her two children.

James Donovan, attorney and former state senator, asked Truman to help "because I am convinced she is doomed unless the President of the United States personally intervenes."

Donovan said Mrs. Debeljak was arrested Dec. 12, 1947, and has not been heard from since.



COMFAIRWESPAC DISESTABLISHED—Radm. Robert P. McConnell, USN, (right) is shown addressing the officers and men as ComFairWesPac was disestablished yesterday. Capt. Fred C. Dickey, USN, (left) ComFairWesPac, turned over his command to Adm. McConnell. Shown (center) is Lcdr. G. E. Kemper and Cdr. H. E. Irons. (Guam News Photo)

ComFairWestPac Disestablished at Orote

OROTE — Commander Fleet Air Western Pacific one of the oldest commands in the area, was yesterday disestablished in full ceremony at their headquarters at NAS Orote.

Capt. Fred C. Dickey, USN, COMFAIRWESPAC since July 20, 1947 turned over the responsibilities and functions of his command to Radm. Robert P. McConnell, USN, Commander Fleet Air Wing One.

COMFAIRWESPAC was established to take the place of COMAIRFORCE, PACFLT, subbordinate command forward. Radm. E. L. Guther, USN, held this command until May 8, 1946 when he was relieved by Radm. H. S. Kendall, USN.

On May 10, 1947, Capt. D. E. Wilcox, USN, assumed command of COMFAIRWESPAC. Capt. Dickey relieved Capt. Wilcox on July 20, 1947 and yesterday Capt. Dickey turned his command over to Radm. McConnell.

Sangley Point CO

Capt. Dickey has been assigned duty as commanding officer, NAS Sangley Point, Philippine Islands. He came to COMFAIRWESPAC from a tour of duty at the Naval War College, Newport, R. I. He saw service during the war as executive officer of the USS Wasp and captain of the USS Hancock.

Adm. McConnell assumed command of Fleet Air Wing One on June 30, 1947 relieving Radm. A. Soucek, USN. Prior to this Adm. McConnell was Commander Carrier Division 15. Earlier he served with the Allied Joint Chiefs of Staff in Washington.

—March of Dimes—

Vatican Paper Says Russia Can't Refuse Opportunity

ROME, Italy, Jan. 26 —(UP)— The semi-official Vatican newspaper Osservatore Romano said today that if Russia really does not want war it cannot refuse the opportunity of immediate negotiations to avoid one

In a front page editorial on statements about uniting western Europe by British Foreign Secretary Ernest Bevin and opposition leader Winston Churchill, the newspaper said the latter's speech yesterday was "an act of faith—one of those which can remove mountains."

"In our case," it continued, "it can remove blocs."

"If it is true that they (the Russians) do not want war—which is regarded as characteristic of the Communist world in contra-distinction to the Capitalist world—an understanding cannot be excluded in advance," the newspaper said.

It explained that both blocs show they are based on the political and economic needs of various states but that they must free themselves of the "threat of war as a cohesive force" otherwise they will reach the point of believing reciprocally in the Latin axiom "your death is my life."

The Vatican organ said it was pessimistic about the co-existence of Russia and the western world if organized on the basis of a peaceful political and economic consolidation on both sides.

It called Churchill's acceptance of the two blocs and their possible agreement as "optimistic" and that this optimism was contradicted by his proclaimed intention of "not losing time" in organizing the European union.

WASHINGTON, Jan. 26 —(UP) President Truman today named Capt. Robert L. Dennison to succeed Rear Adm. James H. Foskett next week as his Naval aide.

Foskett, who has been Mr. Truman's Naval aide since June 27, 1946, will return to sea duty as commander of Cruiser Division 12, a unit of the Atlantic fleet. Dennison, 46, has been in command of the 45,000-ton battleship Missouri.

Captain Saves Girl From Drowning

A young Guamanian woman, Carmen Panglinan, of Barrigada, was saved from drowning Sunday afternoon by the quick action of Capt. G. E. Ferguson, USN, 1st Prov. Mar. Brig. surgeon, who rescued her and five companions from the reefs off the north end of Pago Bay, where they had been stranded by the incoming tide.

Capt. Ferguson had just completed a fishing expedition in his sailboat, the Alice-B, and had the boat on his trailer carrier, when a small boy ran up and informed him a woman was drowning.

Hurriedly re-launching the boat, Capt. Ferguson hastened to the reef and managed to get the woman aboard, with the help of her companions, who had been holding her as high above the water as their precarious position would permit.

Three men also taken aboad, and three youths, who were also stranded on the reef, clung to the side as Capt. Ferguson piloted the boat back to the beach.

Upon arriving at the beach, the woman was placed in an ambulance which had been summoned and rushed to the Brigade hospital, where Capt. Ferguson applied artificial respiration. After regaining consciousness, the woman was transferred to Guam Memorial Hospital.

Admiral Bagley Arrives on Guam

Among the passengers aboard the USS Gen. J. C. Breckenridge, which docked in Apra Harbor Sunday, were Vice Adm. D. W. Bagley, USN, (ret.), former commandant of the 14th Naval District, who is enroute to Manila to visit his son, stationed with the Navy here, and Rear Adm. H. R. Thurber, USN, former comamnder of the cruiser Honolulu. He is on his way to China to resume the new post as head of the Navy's advisory group there.

Week End Guests

Week end guests at Agafo Gumas were Brig. Gen. Laurence B. Kobler and his wife, who are returning to China aboard the USS Breckenridge after a brief visit in the States.

Maj. Gen. G. Barr, Col. G. W. Silney, Col. R. G. Richard, Lt. Col. H. D. Knight and wife, and Lt. R. R. Brown stopped briefly at Marpo yesterday before leaving by air for Nanking, China.

—March of Dimes—

Change of Command

Brig. Gen. Thomas J. Cushman USMC will assume command of Fleet Marine Force aircraft in the Pacific in early February, relieving Maj. Gen. Ralph J. Mitchell, USMC.

Same Headquarters

Headquarters of Gen. Cushman, who is presently chief of staff to Gen. Mitchell, will remain at the Marine Corps Air Station at Ewa, Oahu, T. H. included under the command are the bases of Ewa, Guam and Tsingtao, China.

Gen. Cushman, who worked his way up through the ranks from his private's rating as an aviator in World War I, commanded the Marine air station and air base at Cherry Point, N. C., before coming to the Ewa post in May, 1947, as chief of staff for Maj. Gen. W. J. Wallace, USMC, then commanding general.

Thirteen Killed in Philippine Earthquakes

MANILA, P.I., Jan. 26 —(UP)— Severe earthquakes shook the Philippines today. First official reports said at least 13 persons were killed and many were injured when a Roman Catholic church in which they had sought refuge collapsed at Jaro, second city of Panay Island, in the center of the Philippines.

Radio reports from Jaro to the central weather bureau in Manila said "huge cracks appeared in the earth." Three other islands reported one or more shocks.

The postmaster of occidental Negros Island, just south of Panay, said "sharp quakes" rocked the island at 1:50 a.m. and four milder tremors occurred between 2 a.m. and 5 a.m.

Buildings in Manila, 270 air miles north of Jaro, shook gently, but no damage was reported.

Iloilo Province, the war-scarred area in which Jaro is located, felt eight distinct shocks. The first occurred at 1:44 a.m., lasting for 70 seconds. Frenzied residents ran to the cathedral, already shaking.

Weather Forecast

Partly cloudy. Increasing cloudiness and shower activity. Moderate easterly winds with fresh gusts. Yesterday's tem.: Max. 85; Min. 77.5. Yesterday's rainfall: .10 Rainfall for month: 8.11.

France Cuts Value of Export Franc

PARIS, Jan. 26 —(UP)— The French government was reported reliably tonight to have informed Washington and London that the value of the export franc will be slashed at midnight Sunday, regardless of objections.

The French, insisting that the action was all-important to end France's economic crisis, reportedly took the action while Britain's economic czar Sir Stafford Cripps boarded a plane for home after nearly 24 hours of futile pleading that the plan be abandoned.

Imperil Western Europe

Cripps had argued that any cut in the value of the franc almost certainly would result in devaluation of the pound sterling. He also maintained that franc devaluation would imperil the organization of a new western European union, under British and French leadership, as proposed by British Foreign Minister Ernest Bevin Thursday.

The French cabinet awaited momentary word from the International Fund at Washington on its decision regarding the franc, but the French course apparently already had been set.

The French notices to London and Washington were reported to have announced creation of an export franc, pegged at 225 to the dollar effective at midnight Sunday, Paris time. The franc now is valued at about 119 to the dollar.

The colonial franc, which has a higher parity than the metropolitan currency, reportedly would be set at 135 to the dollar, compared with the previous rate of 70.

—March of Dimes—

15 Arrested in Prague

PRAGUE, Czechoslovakia, Jan. 26 —(UP)— An official communique today announced the arrest of 15 persons, including civilians, military personnel and several women, on charges of spying for "a certain western power."

The communique said the alleged spies were mostly Sudeten Germans who maintained contact with deported relatives and friends in Germany.

They were accused of giving information "of military importance" concerning the Czech army and Czech industrial firms to members of an alleged German espionage organization established by "a certain western power."

Additional News For Our Readers

Another stride will be made in the development of GUAM NEWS, tomorrow when the Wednesday "eight pager" hits the "streets." This is a step toward the goal of an eight page edition every day.

An eight page daily was one of the goals set for the year of 1948. Because of limited personnel and the gradual shift to a civilian staffed publication, the eight page daily move will have to be made gradually, one day at a time.

Newsprint is still a critical item in the states and it is another limiting factor in the desire for the enlarged tabloid.

No extra charge will be made for the Wednesday edition. The current three cents per daily copy will continue along with five cent Sunday supplement.

—March of Dimes—

Stassen Bucks Taft In Ohio Primaries

WASHINGTON, Jan. 26 —(UP) Harold E. Stassen announced today that he would challenge the presidential ambitions of Sen. Robert A. Taft of Ohio on his home grounds and drew from Taft a blistering statement that he was making a "great mistake" and endangering Republican party harmony.

Soon after the former Minnesota governor announced that he would enter Ohio's May 4 GOP presidential primary to test his own presidential aspirations against Taft's, Taft issued this statement:

"I believe that Mr. Stassen has made a great mistake from his own standpoint in filing in Ohio, contrary to the usual practice among those interested in maintaining Republican party harmony. Of course, he has every legal right to do so but if a primary battleground must be chosen I am delighted he has selected Ohio where he has no chance of success."

Commander Edward F. Ferguson, USN, has relieved Cdr. Edward R. Nelson, USN, as civil administrator, Kwajalein district, Marshall Islands and as commanding officer, Naval personnel of the Civil Administration Unit Kwajalein District.

Cdr. Ferguson, who formerly served at 1st Lt. and damage control officer aboard the USS Bon Homme Richard (CV-10), and commanding officer of the USS Farragut (DD-348), left his position as general manager of Guam Bus Lines to undertake his new appointment.

HQ. 46th FIGHTER WING, GUAM—Captain John L. Kindlesparger, who recently became base operations officer of Northwest Air Base, converses with men who are making an engine check at the 614th Air Engineer Squadron. He was formerly connected with the office of the Chief of Supply on this base. (46th Fighter Wing Photo)

Housewife Makes Lucky Find in Soap

NEW YORK—(UP)— A cake of soap which a housewife was about to use for her laundry, contained two wrist watches, a dollar bill, two gold coins and another coin of white metal.

Mrs. Marie Brown, a negro, was amazed. She started to cut the bar when her knife struck something hard. She broke it open saw the gleam of metal and decided it was a case for the police.

When the bar was fragmented at the police station, all the contents were found. The wrist watches were of foreign make, the coins also were of foreign origin but the dollar bill bore the ink-written notation: "Can Do Club. 7-13-43. Parriott, Lieut. Logan. Paul Miller."

Mrs. Brown said the soap, not a regular brand, was in a plain brown wrapper with no printing on it. She said it had been around the house for some time and she could not remember where it came from.

The contents of the soap bar were turned over to the police property clerk. If they are not claimed in 90 days, they will be returned to the Browns.

——March of Dimes——

If polio strikes, call your doctor at once if any of these symptoms apear. Call him even for a slight illness, expert medical care may help prevent crippling.

The following change in the Immigration Requirements for Guam is effective on receipt of this letter.

All returning residents of Guam are not required to secure permission to enter Guam from the Governor or any other authority.

Permanent residents of Guam may be identified as follows:

(A) On page two of the passport when the place of birth is shown as Guam.

(B) When the place of birth is shown as a place other than Guam by

1. An entry on page one following the name of the bearer of the passport stating that the bearer is an inhabitant of Guam or a citizen of Guam and the C. I. number.

2. Possession of a certificate of Identification issued by the Records and Accounts Section of the Naval Government of Guam. The old forms reading "Military Government of Guam" are valid. The Certificate of Identification on which the words "is a resident of Guam" are not struck out is the only valid proof of permanent residence that an "off Islander" may present. Nothing else is acceptable. Persons whose passports show they were not born on Guam or are inhabitants or citizens of Guam and the C. I. number who are not in possession of the certificate must obtain permission from the Governor to enter.

For Sale — Jeep in excellent condition. Interested parties call AT 3148. 31

Student Foresees Robot Control

CINCINNATI, O. —(UP)— Abraham Soble, a University of Cincinnati mathematics student working for his Ph.D. degree, believes he has worked out a theory which will speed the day when mechanical brains can take over factories and farms.

Soble, is 26. He taught physics at the University of Delaware after three years in the Navy working on automatic control of planes and ships. His theory established the reaction of automatic controls. Inability to determine the reaction time by theory forces scientists to test each control in the laboratory and establish individual figures for each.

"A robot has a reaction time just like a man," Soble says. "With mathematical equations and formulas for reaction periods, a manufacturer of automatic controls can calculate in advance the effect of this reaction time. He can compensate for it in the design. Hence, controllers can be made more precise and applied to more operations in industry and agriculture."

By applying the theory into the design of the machinery, Soble would compensate for the reaction time and eliminate the continual checking of instruments by humans.

MILWAUKEE —(UP)— Gabby the cat has overcome his curiosity.

When his mistress, Mrs. Kurt Wiener, left her automatic washing machine drying the clothes with the door open, Gabby jumped in to investigate.

He was discovered after the machine stopped automatically, some 200 turns later.

Gabby was a rather dizzy cat for several hours.

Experience Teaches

LOS ANGELES —(UP)— Next time Austin Rose plans a burglary, he'll try Grand Central Station.

Rose broke into the Venice apartment of Mrs. George Blackmer, police said, and tied her up.

Then two friends came to call, Laverne Thompson and Lawana Roe. He tied them up.

The doorbell rang again. It was Kenneth Thompson. Rose tied him up.

Another knock on the door. This was insurance salesman S. J. McClure. He was tied up.

Just then, there was another knock on the door. Rose burst through it, past the unidentified visitor and headed for the nearest bar. Tha's where police found him.

ELKS, SPECIAL NOTICE

Notice—Initiation will be held Wednesday evening January 28th at 7:30 sharp. All brothers are urged to be there, as well as the following list of applicants; H. E. Shoesmith, H. A. Howden, F. J. McGowan, A. J. Mojonnet, H. A. Stewart, L. E. Lanctot, B. Schandelmier, R. D. Unger, A. E. Osborn, A. L. Atkins, J. P. Wintz, W. F. Clarke, L. E. Black, H. G. Leng, O. A. Beason, C. W. Marsh, G. H. Out of the Headlines Into Breadlines

HOLLYWOOD—(UP)—MGM studio fired Tyrone Power's newest girl friend in what looked like a general notice that actresses who make headlines will be tossed in the breadlines.

Mr. L. B. Mayer and Co. gave the bounce to red-haired Linda Christian, the second headlining MGM glamour queen to get pulled off the pay roll in two weeks.

Both ladies, by coincidence, snared most of their headlines on the arm of handsome Mr. Power.

Miss Christian and Power have boiled up newsprint with their very-warm-for-January romance ever since he parted company with Lana Turner.

Lana therein began on her second set of headines with millionaire playboy Bob Topping. And was slapped down by the studio, pronto.

Being a big money-maker, whose current starring picture is "Green Dolphin Street," Miss T was only suspended. But Miss Christian only played an exotic native girl in "Green Dolphin Street." So she was out of a job, period.

MGM insisted Linda was sacked because the studio just didn't like the way she acted in their pictures.

Six months ago it was a different story. MGM hailed Linda Christian as a great new find because she was "sexilingual," that is, she could speak six languages.

The studio insisted the firing action was "routine." But folks remembered Linda's romance with Power, like Lanas made hot tabloid copy.

For Sale: Automobile, Cheap, $5,000

HOLLYWOOD—(UP)—Clifton Webb, actor, has put up for sale a custom-made Lincoln town car with French plush seats and inlaid mahogany trimmings. Preference will be given to rich old ladies.

"This is a car that only a dowager could love," Webb said sadly of the chariot which back in 1935 was his dream boat. "Who else would ever use a bus like this?"

Webb ordered the car when he was acting on the New York stage. He saw one a friend had custom-made by the Lincoln people. "I had to have it," even though it cost a fortune."

He ordered the car in August and it was ready in February. Meantime the company sent him samples of the material for approval and kept him constantly infomed on progess.

The car was driven down to him in Miami, Fa., and everybody took his picture in it.

He's willing to sacrifice this rattle-free jewel for a fraction of the original cost. Maybe $5,000.

"If I can't sell it," he sighed, "I'll have to hire an agent to peddle it for rent in the movies. For period pictures, I'm afraid.'

Paralysis Is On Increase In United States

Infantile paralysis in the United States in the past five years has increased 150 per cent over the previous five-year period, according to National Foundation for Infantile Paralysis, which discloses that some 80,000 people were stricken by polio from January 1943 through December 1947.

During the past seven years, the National Foundation points out the number of children and young people crippled by the disease has increased almost 45 per cent.

Dimes Help In Care

Contributions to the 1948 March of Dimes help guarantee that no infantile paralysis patient need go without care for lack of money, despite the rise in cases and the increasing costs of medical and hospital care which place a growing financial burden on the National Foundation.

Champagne – Sure Cure For Troubled World

BOSTON —(UP)— Champagne is the world's greatest leveler and there would be fewer wars, diplomatic deadlocks and internal dissensions if people drank more of the bubbling beverage and less whisky, according to Edgard du Prey, French champagne authority.

"You can always tell if champagne has been served at a gathering," he said on a visit here. "The most austere, the most snobbish, the most lofty giggle after drinking champagne. But after whiskey drinking, the offish ones become more offish and snooty and the noisy ones more noisy."

Du Prey said nothing about the cost of champagne.

Bishop Convicted Of Cruelty

GOSHEN, Ind. —(UP)— A stern, white-bearded bishop of the Amish church was sentenced today to six months at a state penal farm for keeping his daughter roped and chained to a cobweb-covered bed in an unlighted, unventilated room for 10 years.

Samuel D. Hochstettler, 75, a patriarch whose word is law among Amish members in this area, pleaded guilty to a charge of assault and battery which was filed against him yesterday after authorities had found the daughter, Lucy, chained to the bed in her father's farm home.

Hochstettler said he began confining his daughter, now 41, "when her mind went bad" 24 years ago. Neighbors said the girl had wanted to leave the Amish church when she was in her late teens. The church frowns on institutions for the insane.

Naval Government Notice

The below payroll checks are being held at the U. S. Navy Disbursing Office, Agana (located at Commander Marianas Hill main floor of the O.F.L.C. building), for a period of over six months. Owners are requested to call for them durnig office hours.

If these checks are not claimed during the month of January 1948, in accordance with current instructions, they will be forwarded to the General Accounting Office Washington, D. C. for disposition.

"Mid-Pacific Post Number 1 of the American Legion and the Ladies Auxiliary will hold a March of Dimes dance at the Fleet White Hats Club at Hoover Park at 1930, Saturday, January 31. for men's attendance will be strictly limited to members of the American Legion and Veterans of Foreign Wars. No other men are invited. Admission: $2.00. Ladies Free."

Atomic City Has Strange Graveyard

OAR RIDGE, Tenn.—(UP)—This "Atomic City" has one of the strangest "graveyards" in the world. It contains no human bodies.

It is a graveyard where "live stuff" is buried

The "live stuff" is machinery and materials contaminated by radiation, and the burying process is part of the program that has protected residents of Oak Ridge. No person here has been harmed by such radiation.

Occasionally, a red truck manned by specially protected workers wails through the city hauling some "hot" equipment to the graveyard. Everybody gives the truck a wide berth.

One whole building as big as a short city block is being dismantled for burial. The men taking it apart are allowed to work only brief periods at a time. Checkers and frifer counters—magic tubes that "bark" when radiation is present—test the workers frequently.

The people of peace-time Oak Ridge seem happy, content. City Manager L. Z. Dolan says they are. Perhaps one factor is the accent being placed on atomic research for peace-time uses, for medicine, agriculture and industry.

Five years ago the well-hidden city in the Cumberland Mountains was just a "rabbit-run." It grew to 75,000 war-time population. Last Oct. 1, the population was 35,000.

Because of security, a certain amount of regimentation must apply to the lives of Oak Ridgers.

——March of Dimes——

Brunette Gets 15th Divorce

BROOKS, Ore. —(UP)— A comely 40-year-old brunette stashed the papers for her 15th divorce into her dresser drawer and announced that she was through with romance —"maybe."

Betty Lamar, a restaurant operator in this town of less than 500 population, had her maiden name back along with a divorce from Jack S. Dunlavy, spouse number 15.

Since her first marriage at the age of 17, she has answered a. Mrs. Leidgh, Clarijve, Manrx, Graham, Ruwilliams, Schools, Pyper, Trail, Ott, Krebbs and Dunlavy.

Most of her mates were dismissed via the "cruel and inhuman" route, but Miss Lamar said she still thinks "men are all right."

"I just got the wrong ones," she blinked.

"Men are all different," mused the well-dressed proprietor of the Brook Nook Cafe. "Someday, the perfect one for me might come along."

"After all, life does begin at 40.

Looking for a Job? Come to Ohio

COLUMBUS, O. —(UP)— Unemployment Compensation Bureau figures reveal that fewer people are looking for jobs now in Ohio than at any time since World War II ended.

Culminating a steadily declining unemployment trend over a three month period, job-seekers numbered only 95,000 on October 1.

Meanwhile the State employment Service has 68,000 job vacancies listed including several paying more than $400 a month.

German Majority Not Convinced of War Crime Guilt

CHICAGO —(UP)— The majority of the German people are not convinced that their nation committed any crime during World War II, in the opinion of the noted French author, Paul Reuter.

Reuter expressed his views in an article in the law review of Notre Dame University.

Reuter said the war criminal trials failed to impress the German people with the possible exception of the recitation of horrors found in concentration camps.

Reuter said the trials had a negative effect on German opinion, and that only great strides in German politics and international organization will bring home to the people the truth.

——March of Dimes——

Hay Fever Drug Found

INDIANAPOLIS —(UP)— A new drug compound which gave "complete relief" to 15 of 21 hay fever sufferers has been developed, a scientist told the Indiana section of the American Chemical Society recently.

The drug, called Histadyl, will apparently be most useful, however, in combating allergic reactions which limit the usefulness of many potent drugs, Dr. M. H. Mothersill of Eli Lilly Research Laboratories said.

——March of Dimes——

It may take years for the person serouisly crippled by polio to regain the greatest possible use of his body. Sometimes surgery is necessary. Local chapters often help pay expenses for such cases for many years. Chapters cannot provide aid for crippling caused by anything but polio.

COLOR PRINT SERVICE

by KODAK

KODACOLOR PRINTS are snapshots in Full Color. They can be ordered only through your Kodak Dealer. Kodacolor Prints are usually ordered at the time the film is left with us to be sent in for developing. On "develop-and-print" orders, only those negatives are printed which, in the opinion of Kodak's operators, will yield prints that will be satisfactory to you.

Additional Kodacolor Prints from Kodacolor negatives may be ordered at any time from us. All Kodacolor Prints are made approximately 2-7/8 inches in width .... Kodacolor negative inches in width .... The length being determined by the proportions of the Kodacolor negative. Black-and-White prints may be made from Kodacolor negatives by regular photographic printing methods.

KODACHROME PRINTS are full-color enlargements made from your original 35mm. (24x36mm) or Bantam (28x40mm) transparencies. They can be ordered ONLY through your Kodak dealer. If you should want Kodachrome Prints made at the time your Kodachrome Film is processed, bring the film to us and request that we send it to Rochester with a process and print order. On such orders, Kodak will print only those transparencies which, in their opinion, will yield prints that will be satisfactory to you. When you are selecting transparencies from which Kodachrome Prints will be made, check carefully for accurate color rendering, sharp definitions, correct exposure, and low contrast.

KODACHROME PRINTS are made in four standard sizes from original Kodachrome transparencies. These standard sizes of Kodachrome Prints utilize the full, uncropped picture area of the transparency. The 2X and 3X sizes are furnished unmounted and printed without margins. The 5X and 8X sizes are delivered in handsome oversize double mounts. The sizes and prices of standard Kodachrome Prints are as follows:

KODACHROME PRINTS (About 2¼ x 3½ in.), ea .... $ .60
6 or more prints, each .... .50
Kodachrome Prints 3X (about 3x4-3/8 in.), ea .... .85
6 or more prints, each .... .75
Kodachrome Prints 5X (5x7½ in.), each 2.75
3 or more prints, each 2.35
Kodachrome Prints 8X (8x11 in.), each 5.80
3 or more prints, each 5.05
Kodacolor Prints (Any size negative) .... .35
(Minimum charge, $1.) on all orders.

COLOR PRINT SERVICE is available ONLY through your Kodak Distributor or Dealer

Over The Joepot

by Bill Jury

In recent articles pertaining to Michigan's great '47 football eleven, considerable mention has been made concerning other Wolverine powerhouses....The invincible 1901-1905 crews under the tutoring of Fielding H. "Hurry-up" Yost.

Sometimes referred to as the greatest succession of football combinations ever put together, the Wolverines of old compiled a record unequaled by any major team in the history of the game.

Check this record with any others:

Year	G	W	L	Tie	Pts.	Opp'n
1901	11	11	0	0	550	0
1902	11	11	0	0	644	12
1903	12	11	0	1	585	6
1904	10	10	0	0	567	20
1905	13	12	1	0	495	2
	57	55	1	1	2,821	40

Michigan's lone defeat through that five year span came in 1905 when one of its halfbacks was pushed across a goalline by a Chicago player for a saftey—2 points—and the winning margin. Chicago 2, Michigan 0. The Wolverines' first defeat in five years.

Michigan's present-day squad is some punkins too. Chappuis and company won great acclaim in taking the Big Nine crown and winning the Pasadena affair they rolled up 49 points against Troy in the Battle of the Roses on New Year's Day and in doing so placed right alongside of Notre Dame for the mythical national football championship. Is Michigan's '47 team as strong as those point-a-minute squads under Yost?

Probably so. Maybe even stronger. They equaled the 49 to 0 score the 1902 edition totaled against Stanford in the Rose Bowl some 46 years ago. Southern California was undoubtedly as tough as the Standford Indians back in '02.

You can't do much but speculate on the strengths of both teams; but it would be interesting to see how they would make out against each other on the playing field today.....Hurry-up" Yost's point-a-minute champions against Chisler's magicians.

Guam Grapplers Tussle for Pacific All Navy Title Tonight at FASron 13

Guam's wrestling team which has already taken the Guam-Marianas WesPac championship will meet a six-man team from Pearl Harbor tonight at 1900 in the FASron 13 arena for the All Navy championship of the Pacific.

If the Guam team comes out on top in tonight's matches, not only will it own the Pacific title, but will fly to Annapolis for the All Navy Wrestling tourney there and will have several months' training under the Navy varsity coaches in preparation for Olympic tryouts.

Three of the eight men on the Guam team, Sandy Sangalis, Ken Albertson and Manuel Macias, all of the First Marine Brigade represent the largest showing from a single outfit on the Island.

Takes Bye

Sangalis, who defeated Snell of WesPac on Saturday, will take a bye in the matches tomorrow night due to the fact that the Com 14 team carries no grunter in the 123 pound class. Likewise with sailor Jack Sutton, 114-pounder who has yet to be called upon to meet a contender in that class. Both boys automatically take the Pacific championship and are assured of the trip to the Academy.

Sangalis and Sutton will oppose each other in an exhibition match tonight.

The card for tonight:

134—Jim Sellers vs. J. L. Harr
145—Dan Goyeau vs. A. A. Pisasole
154—K. Albertson vs F. L. Hoffman
165—M. Macias vs. T. B. Wilson
191—H. L. Schiller vs. A. Dobback
Heavy—Bill Norris vs C. Stoud

Mize to be Feted By N.Y. Writers

NEW YORK Jan. 25 —(UP)— Big Johnny Mize, the Georgia jolter who led the New York Giants on the most spectacular spree of home run hitting in big league history, was named "Player of the Year" today by the New York chapter of the Baseball Writers.

Mize, who will receive the Sid Mercer Memorial Award at the annual dinner of the Writers on Feb. 1 will be honored along with Bucky Harris, manager of the New York Yankees, who will get the Bill Slocums Award for "long and meritorious service to baseball."

It was Mize with 51 homers, an all-time top for a left-handed batter in the National League, who set the pace for the Giants as they delivered 221 for an all-time major league top.

PCL Club Owners Meeting May Result In Baseball Breach

LOS ANGELES, Jan. 26 —(UP) Club owners of the Pacific Coast League gathered here today for a session that may issue a defiance to the major leagues and cause the first big breach in baseball in a quarter of a century.

Major item on the agenda when the gathering opens tomorrow will be a proposal of Charlie H. Graham president of the San Francisco Seals, that the Coast League demand an "arbitrated price" on every player drafted by the majors from the PCL.

Graham suggests adoption of such a clause in the PCL by-laws without notice to, or approval by, the major league. He proposes that the major league, the commissioner's office and a representative from the PCL get together on the price of each player drafted from the league every year.

——March of Dimes——

Pitting Dodds, Karver 'Promoter's Dream'

NEW YORK, Jan. 25 —(UP)— A promoter's dream pitting Gil Dodds against Gerald Karver was the Wanamaker Mile's fate today as the indoor track season hit its peak.

Karver, the Penn State National Intercollegiate champ, won the Philadelphia Inquirer meet Friday.

Dodds, the wing-footed parson won the mile in the Knights of Columbus meet at Boston Saturday.

So it was only natural that the two should clash in the Millrose Games at Madison Square Garden this Saturday.

Karver, by virtue of his victory with a last lap spurt at Philadelphia, established himself as the top threat to Dodds' supremacy on the boards, a supremacy remindful of the days Glenn Cunningham was bowling 'em over with his smooth-striding finishes.

The Guam All-Stars basketball team is looking for practice games with any quintet on the Island in preparation for the coming WesPac tourney. Any team desiring to accept this challenge may do so by contacting Lt. R. W. O'Brien at AT. 5219.

Gil Dodds Grabs 29th Straight Win In K of C Mile

BOSTON, Jan. 25 —(UP)— World's indoor mile king Gil Dodds galloped to his 29th straight victory tonight when he won the Knights of Columbus mile by 60 yards in 4:08.4 to shatter the Boston Indoor record.

The fleet parson breezed to the tape at least 60 yards in front of Bill Hulse of the New York AC, who finished second and Bill Mack of Michigan, who edged out Larry Ellis of New York University for third place.

Dodd's performance was one of the four meet records smashed at the 22nd K of C meet at Boston Garden. He shared honors with another ordained minister, Big Nine pole-vaulting Champion Bob Richards, who broke the meet record with a jump of 14 feet 6 inches.

Broken Records

The other meet records broken were for the collegiate mile relay and the collegiate two-mile relay. Seton Hall College won the former in 3:23.2, defeating New York University and Manhattan. The former record was 3:23.6.

In the two-mile relay, Fordham clipped seven seconds off the old time of 7:51.8 to defeat Manhattan and New York University.

Never pressed, Dodds jogged along in fourth place for one lap and then moved smoothly to the front. He finished the first quarter in 60.2 and by that time had a 50 yard lead over Hulse. He was clocked at the half in a sensational 1:59.

By the three quarters mark, Dodds had a 75-yard margin and went into the last 440 yards with a clocking of 3:03. When he roared into the finish, running his typical "mechanical man" style of race, Dodds was within 10 yards of Tarver Perkins, the Cherokee Indian from Illinois who was running last.

——March of Dimes——

Winter Games To Open Friday

ST. MORITZ, Jan. 25 —(UP)— The world's amateur champions in 23 sports events will decided in the winter Olympic Games which open here next Friday and continue through Feb. 8.

There will be competition in six sports—skiing, skating, bob sledding, hockey, military patrol and and pentathlon. Only the first four are listed in the category of major Olympic events, however, with the military patrol and pentathlon considered only partly lifter sports.

While there will be individual or group championships in each of the 23 events on the program, there is no recognized team championship as such. However the nation which receives the most points on the basis of 10 points for a first place, five for second, four for a third, three for a fourth, two for a fifth and one for a sixth is unofficially designed as the champion.

It is the same system which is is followed in the summer Olympics which are to be held at London.

There will be 10 events in skiing, and seven in skating.

——March of Dimes——

Chesnes Turns Down Offer

SAN FRANCISCO, Jan. 26—(UP) Bob Chesnes, the San Francisco rookie with the $100,000 pitching arm, today said he had rejected his first major league contract offer by the Pittsburgh Pirates.

Chesnes, who compiled a 22-8 hurling record with the San Francisco Seals said he was "dissatisfied" with the Pirates' salary offer.

Lujack, Connor Sign Bear Contracts; Amounts Withheld

CHICAGO, Jan. 25 —(UP) —Johnny Lujack and George Connor, a pair of Notre Dame All Americas, turned pro today by signing contracts for the 1948 season with the Chicago Bears. For Lujack, a star quarterback, it may be the first step toward a $50,000 income for the year.

It was the first personal conference for Connor, and the second for Lujack.

Lujack soon scrawled his signature to a paper calling for a bonus and four years service with the Bears.

Connor's pact also called for a bonus, but it covered only three years with the Bears. However, the contract stated that Connor and Lujack would stick with the club as long as they stay in pro football, or until Halas might decide to trade them to another National League entrant. The latter possibility was remote.

Johnny Lujack

There was no announcement of what money would be paid either player. But speculation was that over $5,000 for coming to terms and about $78,000 per year, while Connor's bonus was estimated at $3,000 and an annual payment of about $78,800.

Big Step

For Lujack the bonus and the guaranteed $18,000 for the 1948 season was the big step toward a $50,000 income. Earlier he had signed to endorse products for a sporting goods house for a flat payment believed to be $3,000, and royalties. The royalties, a spokesman for the first estimated, would run well over the first payment.

Also the 23-year-old Connellsville, Pa., Polish lad is a popular banquet spokesman and he drags down more than $100 per night for this work. Other endorsements are pending.

Halas said that Lujack's position with the Bears for the 1948 season was still a trifle uncertain. At Notre Dame Lujack played quarterback, was the passing star, and did some running. For the Bears, he will certainly understudy Sid Luckman at quarterback, and he'll get in some time at left halfback, a position from which he can run.

Lujack was a unanimous All America in both 1946 and 1947 and he received plenty of mention for the job in 1943, his first season with the Irish. His passing record for his three years at Notre Dame was excellent. He completed 51 per cent of his passes for 19 touchdowns and 2,080 yards.

——March of Dimes——

McKeever Quits As Grid Coach At U. of 'Frisco

SAN FRANCISCO, Jan. 25 —(UP)— Smilin' Ed McKeever, Notre Dame's war-time football coach, resigned as gridiron mentor at the University of San Francisco today, reportedly to become head coach of the Chicago Rockets of the All-America Professional Conference.

The resignation, which was accepted immediately, was announced by the Rev. William Dunne, S. J., president of the university, without comment.

A member of the athletic board of control charged, however, that McKeever violated the terms of his contract by negotiating with another team in the last two weeks.

'Talked Contract'

At Chicago, General Manager R. E. Garn of the Rockets said he had "talked contract" with McKeever and hoped to meet him about Feb. 1 or before.

"I think there is some chance of McKeever's coming here," Garn, who is seeking backers to keep the Rockets in the conference, added.

McKeever, who came here last February following the resignation of Maurice (Clipper) Smith, was said to be receiving $8,500 a year at U.S.F.

A graduate of Texas Tech where he was a star fullback, the stocky McKeever served as backfield coach at Tech after his graduation in 1935. When Frank Leahy left Fordham to go to Boston College in 1939, McKeever went along as his backfield coach. Then when Leahy moved to Notre Dame in 1941, he again took McKeever with him.

In 1944 when Leahy went into the Navy, McKeever took over as head coach at Notre Dame and his team won eight out of 10 games, losing only to Army and Navy.

——March of Dimes——

Sooner Coach to Fly To Annapolis

NORMAN, Okla., Jan. 26 —(UP) Bud Wilkinson, University of Oklahoma head football coach, will fly to Annapolis, Md., tomorrow to confer with Naval Academy officials, a reliable source said tonight.

The source, who declined to be indentified, said Wilkinson was going East at the invitation of Annapolis officials. He said he did not know whether the meeting was concerned with filling the head coaching spot at the Naval Academy.

Wilkinson, who guided the Sooners to a seven-won, two-lost and one-tied season in his first year as head coach, cancelled a speaking engagement to make the trip.

——March of Dimes——

Three More Pirates Sign

PITTSBRUGH, Jan. 24 —(UP)— Infielder Frank Gustine and rookie Pitchers Stan Ferez and Dick Piatnek returned their signed contracts for 1948 to the Pittsburgh Pirates today.

Demaret Leads Field At Phoenix Open By Three Strokes

PHOENIX, Ariz., Jan. 25 —(UP) The man who introduced the new look to golf, Jimmy Demaret of Ojai, Calif., was three full strokes ahead of the field at the end of the second round of the $10,000 Phoenix Open today.

Demaret's sensational 36-hole score of 131 never was in danger after he posted a 66 to go alongside his 65 of yesterday. The final 36 holes are scheduled for tomorrow.

If Demaret can continue his torrid pace, the colorful former Texan stands well to better the 72-hole course record of 270 held by defending Champion Ben Hogan, Hershey, Pa.

Three strokes behind him were Bobby Locke of Johannesburg, South Africa, who was tied with Demaret and P. G. A. Titlist Jim Ferrier of San Francisco at the end of the first round, and Lloyd Mangrum of Chicago, with a 134.

In with a 135 was the Arkansas traveler, E. J. (Dutch) Harrison, Little Rock, who put together a 67 yesterday and a 68 today.

Trailing at 136 were South American Champion Roberto De Vincenzo, who led the field until Demaret came in late in the afternoon, and Leland Gibson, longtime Kansas City, Mo., professional.

At 137 were the tournament Chairman George Schnelter, Salt Lake City and Johnny Palmer, Young Baden, N. C., linksman.

Locke, who was two under going into the 6th today, experienced trouble with his pet putter on the 7th and 8th greens to take the turn at even par 36. On the back nine two birdies brought him home with a two under 33 for a 69 total.

——March of Dimes——

Tokle, Uuland Tied

DUBUQUE, Ia., Jan. 26 —(UP) Art Tokle and Arne Uuland tied for first place today in the class A section of the Longview Ski Tournament here.

Tokle, younger brother of the late National Champion Sgt. Torger Tokle, had the best jumps of 102 feet on both tries. Uuland, who leaped 102 feet on the first try and 184 on the second, gained a first place tie on form. Both cracked the jump record of 177 feet as did three other competitors.

Volume 4, No. 28 Price: 3 cents

Guam, Marianas Islands Wednesday, January 28, 1948

Reduction of Franc Brings Varied Changes

PARIS, Jan. 27 —(UP)— The fall of the franc echoed throughout the world today.

Premier Robert Schuman told the Assembly that he had had to engineer the drastic devaluation program or see factories shut down and workers in breadlines. But fears of equally serious reperoussions from the plan itself were expressed on both sides of the Atlantic.

The United States warned that the drastic 44.4 per cent devaluation, effective last midnight, might endanger the Marshall plan.

Britain's fears were two-fold—that the cut would send the pound sterling tumbling, and that Britain would lose foreign trade as the result of sharp reductions in the price of French exports, made possible by the "bargain" franc.

The price of gold stock spurted upward on three continents—in New York, London, Paris, and Johannesburg, South Africa.

Stocks Broke

British government stocks broke on the London stock exchange, as Britain hastily prepared emergency measures to bolster the pound sterling. In New York, however, the stock market remained generally stable.

Trading in france was halted in New York, pending clarification of the move. Some nominal quotations were available on the pound sterling, but no transactions were made.

Announcement of the project brought brisk trading in gold shares on the Paris Bourse—the Wall Street of France—but the French generally were more puzzled than pleased about the devalued franc.

Uncertainty and confusion were reflected in the National Assembly, where Premier Schuman defended his program.

——March of Dimes——

Volcano Erupts on Isabellu Island

SAN FRANCISCO, Jan. 27 —(UP)— A 5,000-foot volcano at the north end of Isabella Island, the largest of the Galapagos group, erupted Saturday after 23 years of inactivity, a message from a tuna fishing boat said today.

According to Frank Adams, radio operator aboard the motor vessel Endeavor, the volcano "issued a minature Bikini-like smoke mushroom in mid-morning."

"Observation was restricted by smoke and haze in the daytime," Adams unleased the United Press, "but flaming lava shooting and flowing in an easterly direction outlined the whole mountainside after dark."

Toward the Sea

The eruption was centered below the east lip of the volcano. The lava flow was toward Cape Marshall and the sea. The glow was visible to most of the islands in the group."

The last confirmed eruption of the volcano was believed to have taken place in 1925. Isabellu Island is 72 miles long and has five huge craters on it. The Galapagos are off the coast of Equador.

Adams said that activity was "not diminishing." A fish scouting plane from a companion tuna boat flew yesterday at 6,200 feet at the edge of the huge cloud thrown up by the volcano.

"The heat was intense and the air pockets were terrific," Adams said. The plane reported a thick cherry-red mass was flowing in two separate streams southeast down the slope, one of which was within a quarter mile of the sea south of Cape Marshall.

——March of Dimes——

150 Die From Cold

SHANGHAI, China, Jan. 27 —(UP)— The frozen bodies of 150 children were placed in an improvised morgue today. They were victims of sub-freezing weather which officials expected would claim more than 200 lives by the end of the month.

The bodies of the children, ranging in age from 6 to 13 years, were found huddled in doorways and against buildings, where they had sought shelter from icy winds and snow flurries Saturday night and Sunday, when the temperature dipped to 24.2 degrees.

The sun appeared today, but the weather bureau predicted cold and snow until the first week in February.

Senator Tobey Proposes Cut Of Gasoline

WASHINGTON, Jan. 27 —(UP)— Sen. Charles W. Tobey, (R-N.H.,) proposed today that all state governors order reduced speed on highways to save gasoline and thus ease the petroleum shortage.

Tobey is chairman of a Senate Commerce Subcommittee investigating the shortage. He asked Max W. Ball, director of the Interior Department's oil and gas division, to request the governors to carry out his idea.

Fighting Shortage

A ban on all petroleum exports and prompt construction of a $9,000,000,000 synthetic fuel industry were proposed meanwhile as other ways of fighting the shortage.

The House Committee demanded that shipments abroad "be stopped completely" until Congress has a chance to study the shortage situation. It recommended creation of a joint Congressional committee to develop a long-range program for increasing the total fuel supply.

Embargo Shipments

Sen. Styles Bridges, (R-N.H.,) introduced a bill to embargo all shipments except those used by U. S. armed forces abroad.

Secretary of the Interior J. A. Krug meanwhile laid such a program before Congress in a report urging the "earliest possible construction" of enough plants to turn out 2,000,000 barrels of synthetic oil a day.

De Gasperi Blames Reds For Unrest

ROME, Italy, Jan. 27 —(UP)— Premier Alcide De Gasperi today accused the Communists of stirring up agitation and unrest in Italy and France on direct orders from the Russian sponsored Cominform to wreck the Marshall plan and seize the governments of the two countries.

He was interviewed by the newspaper Il Messagero, whose reporter asked him who was responsible for the increasing agitation in Italy. Il Messagero said he replied:

"It is clear to all that agitation, whatever are the given economic reasons and pretexts, responds to a Comform directive sent to Communists in Italy and France for the purpose of preventing the Marshall plan taking over the government in the two countries."

De Gasperi's statement was the most forthwright yet from a high government official in Italy on the plans of the Communists and their direction from abroad.

Rear Admiral Oscar C. Badger, USN, is in line to succeed Admiral Charles M. Cooke, Jr., USN, as commander of the U. S. Naval Forces Western Pacific, according to a brief United Press dispatch.

The dispatch said that President Truman nominated Rear Adm. Oscar C. Badger, USN, to hold the rank of Vice Admiral while serving as commander of Naval forces in the Western Pacific.

No details were released about the new commander, whose headquarters will remain at Tsingtao, China.

Admiral Cooke, who is expected to retire when he reaches 62, will leave Tsingtao in early February.

(U.S. Navy Photo)

Weapons Carrier Kills Soldier At Harmon Field

HARMON FIELD—An Air Force weapons carrier overturned at 7:40 p.m. last Saturday killing one enlisted man and injuring PFC William Hester and PFC Arnold Hagemann, both of the 1537th AFBU (ATS). Two other enlisted men PFC Otis Hull, driver, and PFC Robert Sanderson, both of the 147th air communication squadron, escaped without injury.

The accident occurred while the men were traveling north on the jungle road between King George tower and Yona village near Harmon Field. They were engaged in a routine check of signal transmitters.

Two Found Guilty in War Trials

COMMANDER MARIANAS—The third in a series of war crimes trials involving Palau Island atrocities ended abruptly yesterday afternoon with two defendents being found guilty of all charges and sentenced to hang.

A third defendent was aquitted by the military commission.

Former first lieutenant Kazuo Nakamura, IJA, and former sergeant major Chihiro Kokubo, IJA, were both found guilty of murdering three unarmed American prisoners of war on Babelthuap island in the Palau group in late 1944.

Extra Murder

In addition to the guilty count on the first charge, Nakamura was also found guilty of the murder of an unarmed British national, Charlie Smith, alias James, on Babelthuap approximately two months after the death of the three Americans.

Lead defendent among the group, Nakamura will walk to the gallows in the future unless his sentence is commuted by the reviewing authority.

Corporal Yoshimori Negatome, IJA, was aquitted of the charge of murder involving the three Yank Naval men. He will be repatriated to his home country as soon as possible.

Presiding over the five man military commission was Rear Admiral Arthur G. Robinson, USN. Judge advocates in the trial were Lcdr. Joseph A. Regan, USN, and Lt. James P. Kenny, USN. Heading the defense counsil was Commander Martin E. Carlson, USNR.

Headline Highlights

LAKE SUCCESS, N. Y., Jan. 27 —(UP)— The United Nations Palestine Commission has agreed that the situation in Palestine is steadily worsening and will verge on chaos when the British give up control of the Holy Land about May 15, it was disclosed tonight.

NEW YORK, Jan 27 —(UP)— Martin J. Monti, 27, of St. Louis, Mo., was arrested on a charge of treason today by the Federal Bureau on Investigation which said he had stolen a plane during the war, flew into German-held territory and then made propaganda broadcasts for the enemy.

PANAMA CITY, Panama, Jan. 27 —(UP)— Congressman J. Parnell Thomas (R.,—N. J.,) was reported in "very good" condition in Maragarita hospital, Canal Zone, tonight after a two-day battle at sea to save his life.

PARIS, Jn. 27 —(UP)— A four-engined Air France Transport Plane crashed into a woodwork factory in a Paris suburb late today, killing eight persons, setting off an inferno and breaking all electric lines to the suburb. Four workers in the factory were injured. The transport, believed to be a Languedoc 161, was on a test flight carrying seven crew members.

Republicans Refuse to Endorse Knutson Plan

WASHINGTON, Jan. 27 —(UP)— Senate Republicans lined up solidly today behind a drive to cut income taxes this year, but refused to endorse the $6,000,000,000 Knutson Plan which House GOP leaders hope to pass by next Monday.

Chairman Eugene D. Millikin, (R-Colo.,) announced after a two-hour GOP Senate conference that it was the unanimous opinion that we should go ahead with a tax reduction bill but it would be premature to fix the size of the cut now.

Nevertheless, Chairman Harold Knutson (R.—Minn.,) of the House Ways and Means Committee is going ahead with his bill with the blessings of the House Republican leadership. He said the committee will give it a final approval tomorrow, and floor debate will start Thursday.

Another Democratic recommendation, by Rep. Robert L. Foushton of North Carolina, would cut the cost of Knutson's bill to about $4,000,000,000.

The Senate GOP conference went on record as convinced that a final agreement on the amount of personal tax reduction can not be reached until we get a better idea on federal budget and Marshall European recovery plan costs.

——March of Dimes——

Parnell Thomas Stricken With Hemorrhages

WASHINGTON, Jan. 27 —(UP) Robert E. Stripling, clerk of the House UnAmerican Activities Committee said tonight that Rep J. Parnell Thomas was stricken with acute gastric hemorrhages aboard the S.S. Ancon last night and that blood plasma had been administered to him.

He said the latest word was that Thomas' condition was "serious."

Thomas is en route to Panama to investigate alleged Communistic activities in the vicinity of the Panama Canal. His ship, which left New York last Wednesday, is due at Cristobal tomorrow.

At the Congressman's home in Allendale, N. J., his son, Stiles Thomas, said a wireless from Mrs. Thomas confirmed his father's condition as serious. He said the attack was a recurrence of an ailment which hospitalized Thomas in Washington seven years ago.

——March of Dimes——

AVC Asks For Non-Segregation

WASHINGTON, Jan. 27 —(UP)— The American Veterans Committee today called on Secretary of Defense James Forrestal to eliminate racial discrimination and segregation from the nation's armed forces.

Chat Paterson, AVC national chairman, released the texts of letters from Army, Navy and Air Force heads which he said show the Navy "is the only branch which is committed to a policy of non-segregation."

"While Secretary of the Navy," he told Forrestal in a letter transmitting the statements of the three services. "You were directly responsible for the adoption of the present non-segregation policy because of your recognition of the waste and demoralization which segregation entails.

"We feel it is incumbent upon you, as Secretary of National Defense, to require every component of our armed services to adopt and practice a policy of non-segregation and non-discrimination in the recruitment, or training, utilization and handling of personnel."

Paterson said he wrote to the Army, Navy and Air Force asking them to abolish segregation in line with the recommendations of President Truman's Committee on Civil Rights.

COMMAR HILL—George W. Bicknell, manager of the Veterans Administration Office in Honolulu recently requested permission of Commander Marianas to open a VA office on Guam.

"Personnel for the office will consist of a VA representative and an assistant," Mr. Bicknell said, "possibly a man and a woman."

If necessary arrangements as to office space and housing facilities can be completed, the VA representatives will depart for Guam within the next few weeks to open the office.

Workers Laid Off As Cold Wave Continues

CHICAGO, Jan. 27 —(UP)— Hundreds of thousands of workers in six states were laid off today as prolonged cold cut deeper into fuel supplies and forced industries to curtail production or shut down.

Meanwhile, the fifth great cold wave in 13 days pushed southeastward into the midwest and the weatherman issued a gloomy forecast that sub-normal temperatures would cover most of the nation for at least another week. The new frigid mass of air will fan out over the east and south later this week, but will moderate slightly as it spreads, the U.S. Weather Bureau said.

The death toll from the long siege of icy weather rose to 156 today. The toll included 107 dead in fires caused by overheated stoves and furnaces; 22 frozen to death; and 27 deaths in miscellaneous weather accidents. In addition, there were uncounted fatalities in auto accidents on icy highways.

The largest industrial shutdowns were in the automobile manufacturing center in the Detroit area and the steel plants of Pittsburgh. States affected by natural gas shortages and shutdowns included Michigan, Indiana, Pennsylvania, Ohio, West Virginia and New York.

The shortages resulted from a heavy drain for heating homes and the effect of the cold on gas, which reduces pressure in pipes and causes the gas to move sluggishly.

Nation Can Use Third Party; Wheeler

WASHINGTON, Jan. 27 —(UP)— Former Sen. Burton K. Wheeler of Montana one-time "third party" vice-presidential candidate, said today the nation could use a third party now but he does not think Henry A. Wallace's independent movement is it.

Wheeler, who ran with the late Robert H. LaFollette, Sr., on a Progressive party ticket in 1924 and returned to the Democratic fold after defeat, said a realignment of the two major parties—Republican and Democratic—is a pressing necessity.

"There are conservatives in the Democratic party just as conservative or more so, than conservative Republicans," he said in an interview in his oak-paneled office here. "And there are Republicans who are just as liberal as any New Deal Democrat.

"There is more and more recognition that there is little difference between the two parties."

He theorized that a third party might force a regrouping of the two parties so the voters could have "clear-cut issues" in elections. Under the "right leadership," he added, this type of third party could either force the conservative Democrats into the Republican party or make for a permanent, new liberal party.

Amazon Valley Called Civilizations Birthplace

Spread Overseas to Asia, Europe, Scientist Holds

BERKELEY, Cal. —(UP)— Modern civilization organized in the Amazon Valley of South America and not in Egypt and the Near East, is the revolutionary theory advanced by a University of California scientist in a paper written shortly before his death.

Prof. G. N. Lewis, noted chemist, supported his contention that the New World is actually the Old World with substantial arguments based on anthropological discoveries and know history.

Probably Erroneous

His theory, published in the current issue of the American Anthropologist, was described by the editor, D. J. Alden Mason, as "probably erroneous, but stimulating." The magazine received the article shortly before Lewis' death.

Anthropologists generally believe that civilization probably originated in Egypt, Mesopotamia and other parts of the Near East and that pre-Columbian American civilizations, including the great Mayan and Inca cultures, developed independently in America.

Lewis contended that actually, organized human society first existed in the Amazon Valley and that there was a substantial contact between America and the southeastern tip of Asia, which permitted the spread of new knowledge across the Orient. He believed the contact between America and Asia was broken some time before 3,000 B.C., since the wheel became common in the Old World at that time, but remained unknown in America until the white man arrived.

Supported Theory

The California chemist argued that his theory is amply supported by evidence and in his opinion opposed by no known fact.

Included among his salient points were:

1. A comparison of the Mayan and Egyptian calendars indicated greater antiquity for the Mayan.

2. All the attributes of the Old World Bronze Age are to be found in pre-Columbian America, and in some respects American merallurgy and agriculture were superior.

3. Botanists attribute great antiquity to American agriculture. Of the agricultural annovations attributable to America, the Amazon Valley can claim more than a chance share.

4. Because the chances are 1,000 to one against simultaneous inventions in the Old and New Worlds, there must have been prehistoric commerce between America and Asia.

5. Considerable evidence exists against the theory of migration of high culture across the Berring Strait because of lack of evidence in North America that a civilization had passed through that area to reach the lands of the Mayans and Incas.

6. Similarities exist between the musical instruments, sailing craft and religious worship of the Indians in South America and those of Oceania.

Theory Summarized

In summarizing his theory, Lewis wrote:

"At a time when no other part of the world had passed beyond the simple Mesthollc Age of (Middle Stone Age), a tribe of Indians in some valley of the Amazon changed from food gathering to food production. Also, animals were domesticated . . . with the increase in the food supply the population increased prodigiously, with profound effects upon the human society.

"When this great and growing culture reached the sea it was more rapidly spread by boats, and ultimately some intrepid navigators who had already learned the essentials of naurdidal atsronomy pushed on to the islands of the South Pacific; from which they, or others who had been taught their arts, reached Asia, not much later than 6,000 B.C."

Lewis contended that the new civilization, once it had reached Asia spread rapidly as explorers sought out the "fertile soils," they found in the great river valleys of the Indus, the Tigris-Euphrates and later the Nile. From these centers spread sometimes by land, but probably still chiefly by water, the great neolithic revolution.

Unknown Reason

Lewis argued that ideas and products continued to flow between America and the Near East until the discovery of bronze, "when for some unknown reason it was discontinued."

"Thereafter, no significant contact was made until the Atlantic was crossed, and all its ancient contributions to civilization being forgotten, America became the New World," he concluded.

Juke Box Craze Spreads

NORTH TONAWANDA, N. Y., —(UP)— The blessings (or evils, if you prefer) of juke boxes are being bestowed upon our foreign neighbors the rate of hundreds a month, according to the Foreign Sales Department of the Rudolph Wurlitzer Co. here.

The company said its foreign juke box sales were an all-time high and still climbing.

But, the report added, the job of supplying the foreign equivalent of the corner "coke" joint with juke boxes has its problems. The biggest one is that of designing coin boxes to fit the currency in each country.

Thrift Just So-So To Student Body Survey Shows

FALLS CITY, Neb.—(UP)—Fifty per cent of the students at Falls City high school are putting away nothing for a rainy day, a survey by the Home Economics Department showed.

The canvas also showed that approximately 60 per cent of the students have allowances and about 33 per cent have side jobs.

Of the 146 who received allowances, 124 stay within them and 22 do not. Forty-six of the students are saving 10 cents to $1 a week, whereas 160 spending everything they get.

Among remarks made during the survey:

"I don't want an allowance—I get more by yelling for handouts."

"I wish I had an allowance—then I wouldn't have to beg money every few days."

"Allowances aren't much fun—you have to keep track just the same."

"My dad gives me more than my mother—so I always hit him first."

"What I get all depends—pay day is a good day to ask."

"Allowances won't work because my brother thinks he should have more than I get, and I disagree."

Inauguration of Air Parcel Post Service Between U. S., World Announced by Post Office Department

Postmaster General Jesse M. Donaldson has announced that plans have been completed by the Post Office Department for the early inauguration of air parcel post service between the United States and those countries in Europe, the Middle East, Africa and the Near East where agreements can be worked out for the placing of such a service.

The points it is anticipated agreements for this new service can be jointly agreed upon are the United Kingdom, Continental Europe, Bermuda, Newfoundland, Azores, Iceland, Senegal, Gold Coast, Belgian Congo, Union of South Africa, Algeria, Tunisia, Egypt, Palestine, Saudi Arabia, Syria and India.

Ratification of the agreements with the respective foreign countries instituting the new service and effective dates will be announced as soon as they are worked out and accepted between the United States and the individual nation involved. These announcements will include the rates of postage to be charged, and weight and size limitations and any other details necessary to send air parcel post overseas.

"In establishing air parcel post overseas", Mr. Donaldson, stated, "The postal service is not only inaugurating a service which the American people want and need, but it is furthering a broad concept of service which has always been foremost in postal service policy—moving the mails by the most expeditious means available. At the same time and equally important, we are helping to make more secure the position of the United States in international air transport."

In making this announcements, Postmaster General Donaldson said that inauguration of the new foreign air parcel post service had been strongly recommended by second assistant Postmaster General Paul Aiken, who has direct supervision of all postal transport, including that of the international mails.

Aiken pointed out that when the new service is inaugurated, parcels will be accepted at any post office for shipment by air to those countries where air parcel post will be put into effect. In addition to transmission by air overseas, such parcels will also receive all available service by air in the United States from the place of mailing to the airport of embarkation.

U.S., British Chief of Staff Still Confer on Joint War Strategy

by William F. McMonamin—United Press Staff Correspondent

WASHINGTON —(UP)— The British-American combined chiefs of staff set up during World War II to co-ordinate the armed forces of the two countries still are functioning today in a quiet corner of the Pentagon building.

Defense Secretary James Forrestal's staff reports they will continue to function "as long as necessary."

The combined chiefs were established in February, 1942, to co-ordinate "all the factors of military intelligence, transporation, munitions, staff planning, meteorology and communications" of the two nations.

With every element of global combat at their fingertips, the combined chiefs were the nerve center of the allied war effort.

Section Roped Off

That co-ordination of the war effort never has been dropped. A special section of the Pentagon is roped off against the curious, with war-time secrecy still set aside for the combined chiefs.

They function as a unit directly under the President of the United States and the Prime Minister of Great Britain.

That authority for the combined chiefs of staff came from an executive order issued by President Roosevelt. It resulted from joint Roosevelt-Churchill conversations.

May Cease to Function

The combined chiefs, appointed in a war emergency, may cease to function with the termination of the President's emergency war-time powers. The arrangement is not supported by any official treaty or pact between the two nations.

There have been reports, all unconfirmed, that the combined chiefs work on the joint improvement and exchange of newly developed weapons of war and on Arctic defenses for the joint defense of Canada and the United States.

Board Lacks Head

The combined chiefs do not have a combined staff as such. They get together parts of each staff to form a special body to investigate special problems as they come up.

There is no head. They simply nominate someone to preside when they meet.

Navajo bridge in northern Arizona is the only highway bridge crossing the turbulent Colorado River for approximately 1,000 miles from Boulder Dam to Moab, Utah.

North Field Flyers Prepare For Battle With Aero Pest

NORTH FIELD—The North Field Rodent Control Board scored an initial victory against their four-footed enemy, Lt. Thompson, officer-in-charge of the campaign, announced recently. To date, over 4,000 rats and mice have succumbed to the lure of succulent but deadly bait and have gone to meet their ancestors—wherever that may be.

Although well pleased with the results of the active campaign, Lt. Thompson will continue to lead a constant barrying action against our disease bearing enemy. It is hoped that by close supervision of garbage disposal and food storage, supplemented by constant booby-trapping and poisoning (we have been released from the terms of the Geneva Convention for this battle), the enemy will be completely anihilated.

Flushed with the success of his initial victory, Lt. Thompson has announced that the common, ordinary fly will be the next disease-bearing pest that h will engage in battle. He is amassing supplies of DDT, aerosol, fly-swatters, sticky-paper and oil; he has his intelligence section preparing reports on garbage and waste disposal methods for the strategic warfare; and on "D" Day he expects to work terrible destruction on the airborne pests.

PHILIPPINE "NAVY" TRAINED BY U. S. NAVY PERSONNEL—Advance trainees of the Philippine's "Off Shore Patrol" man their battle stations aboard the USS QUEST (AM-281), now being used as a training ship working out of Subic Bay, P. I. (U.S. Navy Photo)

Ignore Possibility of Mal de Mer When Traveling Says Coast Doctor

SAN FRANCISCO —(UP)— So you never get seasick?

A San Francisco doctor, William O'Brien, believes that you should not brag too loudly. Medical research into the problem discloses that you may not get that certain feeling the next time you are aboard a ship, no matter how long you have been immune.

Dr. O'Brien says that seasickness, air-sickness and car-sickness are caused by disturbance in the balance control mechanism of the head. Disturbance of vision and lack of emotional control also complicate the situation for the traveler.

If you lie down in the center of a ship, keep perfectly quite and eat only lightly during a voyage, you probably will not get seasick. But staterooms and cabins are usually doubled——on one side of the ship or the other. So unless you can find a nice central point, you might as well try something else.

So Dr. O'Brien says the best thing to do is ignore the possibility of being sick——especially is this true of children on a trip. Suggestion is one of the psychological factors liable to upset you and the whole schedule.

Reading fine print on a train or in a car has a tiring effect on eye muscles, and may lead to nausea and so forth. The eyes should be closed and rested from time to time.

The symptoms of mal de mer or its inland forms of sickness may come on suddenly or slowly, depending upon the victim. The skin turns pale and he breaks out in a cold sweat. Dizziness is rare, although many of the signs of sickness resemble those of shock.

ASK YOURSELF THESE QUESTIONS

When you are disabled, will your expenses increase?

Who will pay your bills?

Will times be harder for you and your family?

Will you be forced to borrow money?

If it is difficult to spare a few Dollars for protection now, how will you be able to meet your expenses when doctor and hospital bills cut in on them?

Can you afford to worry about such bills when the Company will pay for you?

Prepare Now for Tomorrow.

Do you know that there are eight times as many people killed and injured by accident each year as die from natural causes?

5-Cent Candy Bar May Come Back

HERSHEY, Pa. —(UP)— Maybe the five-cent candy bar will come back. The chocolate industry is installing new labor-saving machinery which might do the trick.

When costs began to skyrocket, particularly in the cocoa-bean market, the industry was faced with the alternatives of seeing the price of popular brand candy jump to as high as 10 cents—or find easier and more economical production methods.

They started switching to new machinery, and here, in this "chocolate city" the results were beyond expectation. An official of the Hershey Chocolate Corporation said the changeover, besides overcoming increased costs, definitely will help the return of the nickel bar of candy.

Five of the Hershey's corporation's 35 bar-making units have been replaced with the new devices and more will be installed when the equipment is available.

The company is anxious to move in the rest of the needed streamlined machinery because (1) it produces 30 per cent more bars on 20 per cent less floor space and (2) cuts each units labor requirements from nine workers to three.

Pre-Marital Male Behavior Study Made

Survey Shows Most Men Have Early Relationship

by Paul F. Ellis
United Press Science Writer

NEW YORK —(UP)— A survey by Dr. Alfred C. Kinsey of Indiana University showed recently that most men have had sex experience before marriage, and that the greater incidence is among those who are not college men.

Dr. Kinsey, professor of zoology, and two research associates, presented their findings in the book, "Sexual Behavior in the Human Male," based on interviews with 12,000 persons.

The Indiana investigators reported that they found 22 per cent of all pre-adolescent males attempt such experience, chiefly between the age of 10 and adolescence.

Educational Levels

"Having once begun," Dr. Kinsey reported, "the childhood activity carries over into adolescence in more than half of all the cases—among three-quarters of all the boys of the lower educational levels."

He said that the accumulative incidence figures vary considerably for different educational levels. Among the males who go to college, he said, the incidence of pre-marital sex experience is about 67 per cent; among those who go into high school, but not beyond, the percentage is about 84; and among those boys who never go beyond grade school the figure is 98 per cent.

"There are even some groups among the lower social levels," he said, "where it appears to be impossible to find a single male who had not had experience by the time he reached his middle teens."

The interviews disclosed, Dr. Kinsey said, that at all social levels, pre-marital sex experience "occurs much less frequently among males who are devoutly religious, whether they be Prostestant or Catholic."

"Conversely," he said, "it occurs most frequently among the males who are least concerned with the church. The frequencies are low for all Jewish groups, but interestingly enough, the incidences and frequencies seem to be higher for Orthodox Jews than for inactive Jews."

The survey further showed, Dr. Kinsey said, that pre-marital sex experience occurs more often among boys who live in cities and towns, less often among farm boys.

"This is true at all social levels, and it is particularly true in the earlier adolescent years," he said. "This may be a product of the generally stricter religious attitudes in rural communities, and, or, of the reduced opportunity which the farm boy has to date girls and meet them in any sort of social relation."

Dr. Kinsey found conditions today no different than they were 22 years ago, despite previous surveys indicating the incidence of pre-marital experience was increasing.

Sex Experience

The survey showed, he said, that some males—particularly those of the upper social level—confine their experience to a single girl, usually their finances. In other cases, young men had dozens or scores of partners, and in some cases, a hundred or even a thousand, he said.

"There are quite a few individuals," he said, "especially of the grade school and high school levels, who find more interest in the pursuit and conquest, and in a variety of partners, than they do in developing long-time relations with a single girl."

Registration For Classes at Guam Area School Now Open to Servicemen

HQ. 20th AIR FORCE—All servicemen on Guam were advised in an announcement made here recently that another opportunity to improve their education is opened with registration for new classes at the Guam Area School beginning next week. The new term begins on February 2.

All officers, soldiers, sailors, marines and government employed civilians are eligible to enroll in these classes. Registration of military personnel for the new term opened last Monday and will continue through Wednesday, January 26, 27 and 28, between 1900 and 2100 hours at the school's administration building in the Headquarters Twentieth Air Force area. Government employees registration is scheduled for 1900 to 2030 on Thursday, January 29.

Two Hour Classes

Classes are held on Mondays and Wednesdays and on Tuesdays and Thursdays at 1840 and 2030. Each student may enroll for two subjects and arrange to take subjects which are taught on the same subject. Classes last for two hours.

USAFI courses are available which provide an end-of-course examination. Successful completion of the course and test brings the student a USAFI certificate and registration of credits at USAFI Headquarters, Madison, Wis.

Completion of other courses taught at the school will bring the student an Army education certificate for the total number of hours completed.

Courses are divided into blocks of 20 hours each, requiring five weeks to complete.

Many new courses are being offered this term with most of them open to new students. Some are of high school level with others equivalent to junior college or college courses.

Information regarding the school may be obtained by calling CH 5176 from Mr. G. E. Rainge, civilian director.

Available Courses

The table below lists courses available in the new term. Besides listing the subject and number of hours, the chart indicates whether the subject is of high school, junior college or college level by the respective symbols "H", "JC", and "C." The last column indicates the number of credits as approved by the American Council on Education.

Shell Collecting Popularity on Guam Increasing

by Joe Kerrell

The popularity of shell collecting on Guam seems to be increasing. There is scarcely a home or office on Guam today that does not have at least one species of "Mollusk" as an ornamental piece some place in the home.

The uses to which Mollusk is put to has always been varied. In the states they are used for making knife handles, umbrella grips, etc. On Guam, these shells are made into attractive ladies handbags, necklaces, earrings, lightshades and at least one Guamanian is making children toys from them.

Nautilus Macromphalus

Excluding the pearl, one of the most beautiful shells is that of the Nautilus Macromphalus or "Chambered Nautilus." The genus Nautilus has only a half dozen living species which are confined to the Western Pacific, where they live at considerable depth. They represent the last remnant of a remarkable and ancient group.

The admiration for the Nautilus was best described by the well known poet Oliver Wendell Holmes when he wrote, "The Chambered Nautilus."

The Chambered Nautilus

by Oliver Wendell Holmes

This is the ship of pearl, which, poets feign,
Sails the unshadowed main—
The venturous bark that flings
On the sweet summer wind its purpled wings
In gulfs enchanted, where the siren sings,
And coral reefs lie bare,
Where the cold sea-maids rise to sun their streaming hair.
Its webs of living gauze no more unfurl;
Wrecked is the ship of pearl!
And every chambered cell,
Where its dim dreaming life was wont to dwell,
As the frail tenant shaped his growing shell,
Before thee lies revealed—
Its irised ceiling rent, its sunless crypt unsealed!
Year after year the silent toil
That spread his lustrous coil;
Still, as the spiral grew,
He left the past year's dwelling for the new,
Stole with soft step its shining archway through,
Built up its idle door,
Stretched in his last-found home, and knew the old no more.
Thanks for the heavenly message brought by thee,
Child of the wandering sea,
Cast from her lap, forlorn!
From thy dead lips a clearer note is born!
Than ever triton blew from wreathed horn!
While on mine ear it rings,
Through the deep caves of thought I hear a voice that sings:
Build thee more stately mansions, O my soul,
As the swift seasons roll!
Leave thy low-vaulted past!
Let each new temple, nobler than the last,
Shut thee from heaven with a dome more vast,
Till thou at length are free,
Leaving thine outgrown shell by life's unresting sea!

"Mid-Pacific Post Number 1 of the American Legion and the Ladies Auxiliary will hold a March of Dimes dance at the Fleet White Hats Club at Hoover Park at 1930, Saturday, January 31. for men's attendance will be strictly limited to members of the American Legion and Veterans of Foreign Wars. No other men are invited. Admission: $2.00. Ladies Free." 31

"Come now, really!"

Soldier Gains Diploma Through USAFI

HARMON FIELD—As an added incentive to those of the armed forces here and else where who are currently enrolled in the United States Armed Forces Institute program and specially to those who are working toward their high school diploma, "proof positive" that it can be done is in the personage of M-Sgt. Veron E. Perry of the 19th Air Supply Squadron on Harmon Field.

Sgt. Perry, Sgt-Maj. of the Marianas Air Material Area is a veteran of 21 years service and his decorations include the Army commendation ribbon, which was awarded in recognition of his superior performance of duty in the A1 section of the strategic air command with headquartors at Bolling Field, Washington, D. C.

Sgt. Maj. Vernon E. Perry

The sergeant received his high school diploma from the state of Colorado as a result of successful completion of several USAFI courses and the general educational development test.

Normally a conservative man, the sergeant is an avid rooter for the United States Armed Forces Institute program and advices all service personnel to take advantage of the opportunities afforded by the institute.

Bacteria? Asks Cowboy How Big Are They

HOUSTON, Tex. —(UP)— A worldly-wise waitress in a new Houston cafe thought she had heard everything until a lanky cowboy asked for a drink of water.

"I'm sorry, but we can't serve water yet," she said. "The Health Department says there's bacteria in it."

The cowboy, who was chewing on a plug of Old Mule, found it necessary at this point to head for the door where he showered the outside with tobacco juice.

He ambled back to the cafe counter and asked: "How big are they?"

—March of Dimes—

Over 55,000 volunteers helped in the 1946 March of Dimes. More than 13,000 theatres participated in the collections. The press, radio, the sports world, industry and labor solidly backed the campaign.

Co-Eds Dislike Unpopular Dance Partners

Are You a Limp Larry, Weary Walker, Bone Crusher or Smooth?

MEMPHIS, Tenn. —(UP)— Are you a Limp Larry of a Weary Walker?

Or are you a whistling William or a Bonebreaker?

All four are dance floor types and high on the pet-peeve list of southwestern college co-eds.

Here's the list of unpopular dance-floor types:

The Ear Bender, whose line of patter is so fast and consistent that his partner can't hear the music.

The Fag Fiend, who clutches a cigarette in his hand while he dances, menacing all other couples and his partner's dress.

The Weary Walker, whose weariness brings about a rythmless stroll around the floor.

The Whistler

The Whistling William, who whistles in his partner's ear throughout a popular number.

The Crooning Carl, who insists on singing the lyrics of every song played by the band.

The Startling Stepper, who throws in weird steps, surprising his partner.

The Ground Gainer, who takes such long steps his girl is in constant fear of a split skirt.

The Bone Breaker, who puts on the tight squeeze to the sound of cracking bones.

The Limp Larry, a victorian type who dances two feet from his partner.

Slinging Sammy, the hepcat who stands still while his girl is spun out and around endlessly.

The Whirling Dervish, who spins until his partner is dizzy.

The Pump Handle, who pumps his partner's arm in time with the music.

—March of Dimes—

Because of the March of Dimes, many polio patients have been spared unnecessary crippling: many lives have been saved. These things contribute to the nation's total health as well as to fight against polio.

War Crimes Series

Japanese Kill Two Priest

Ed. Note—This is the twenty-first in a series of war crimes trials convened in the Guam area since the termination of World War II, as presented by George W. Wilbur, GUAM NEWS War Crimes Correspondent.

During World War II, many innocent people were killed. Some were victims of bombing attacks others were caught between the tides of onrushing armies. Whatever the case, these people were for the large part, victims of circumstance, . . . lacking the means to escape, but not the will. Their only crime for which death was payment was possibly being in the wrong place at the wrong time, in the place where bombs fell or armies clashed. They had no choice when the inevitable happened, they were merely sacrificed as part of war's price, that tremendous price which heeds no circumstance nor garnishes any forgivings.

George Wilbur

There is one minority group, however, which suffered death in its ranks time and time again, and could have prevented it, but did not wish to. These few were disciples of religion, men who would rather administer comfort to a last few and risk death rather than retreat to saftey. Tales of these men's heroic deeds stemmed from all areas of conflict during the war . . . .Poland, China, France, the Pacific. In Europe it was the Jewish priests which irked the wrath of the Axis powers; in the Pacific it was anyone professing Christianity. Non conformists to the new ideologies brought in by the invader were dealt with simiarly everywhere.

An example of this occured right here on Guam, when Father Jesus Basa Duenas was beheaded by the Japanese for supposedly withholding evidence. Other examples are numerous in the area. Take the case of Father Louis Durand, a Catholic priest from France, and Father Leo Marquis, a Catholicist from Switzerland.

These two men were the guardians of a group of sixteen Marshallese natives who were shipwrecked on Mille atoll in the Marshalls when their sail canoe lost course. Both of these men had been missionaries in the South Pacific for a long time, and stuck by their native companions through thick and thin.

By the Japanese forces on Mille this entire group was confined for about two months. One day a group of armed Nips came through their tent and asked for the two fathers. Though no testimony in the later trial concerning this incident showed exactly what happened, numerous circumstances give what might be assumed to be a fairly accurate account of what followed. Two of the Japanese had blindfolds, supposedly for the two priests, and all were armed.

Neither of these men were seen by any of the natives until a week later when two of them were summoned by the Japanese and taken to a lonely beach. Here they found the naked bodies of their protectors lying in the sand, shot through the heart. They were forced to bury them.

In November, 1946 a trial was convened at Commander Marianas, Guam, with relation to this incident. The name of the defendent we shall not mention, for he was aquitted of his alleged crime. He was one of the few men who became almost hopelessly entangled in a web of circumstance, and it was only through lack of consistency in the trial testimony, that finally proved his innocence. His integrity was upheld, however, and he was repatriated to Japan immediately after the trial to assume normal life after tumultous war experiences. This was an example of the justice practiced in American war crimes tribunals.

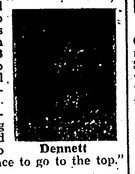
Sports

Sports Beat

by Bob Crossley

When the USS Breckinridge pulls away from Guam next time it will have on it one of the most prominent figures in local sports since the war.....Commander Earle V. Dennett, NOB athletic officer and a member of the athletic advisory committee which has been largely responsible for the success of the Navy sports program for the last year and a half.....Cdr. Dennett arrived on Guam in June 1946 and was immediately appointed head of recreation at the Operating Base....He took over as coach of the NOB cage team in 1946 and piloted them to the Island championship, only to have them lose in the tournament to NSC....This year, still as athletic head, he acted only in an advisory capacity to the NavBks-RecSta since NOB fielded five different teams.... Cdr. Dennett, who was assistant varsity basketball coach at the Naval Academy at Annapolis in '29-'30, will go to Bridgeport, Conn., where he will be an inspector-instructor in the Naval Reserve....As regards a farewell speech, Dennett uttered as follows: "During this year and a half I've seen some mighty good athletes come and go. I wish I could be here to see the All-Star team develop—they have a good chance to go to the top." Good luck on your next assignment.



Dennett

TENNIS NOTES — A slight Filipino who has been on the Island for only three months has brought a record with him into the GUAM NEWS Tennis Tournament that speaks for him and puts him close to the top of the list of contenders for Lcdr. Smith's title when play begins February 7. He's working for the Luzon Stevedores right now and though he hasn't played since he's been on the Island, he has a formula for keeping on his game which consists of running five miles each morning, using a racket all the while..... Mauricio M. Madrigal is his name and back in the early thirties, he was terrorizing the Philippines and copped several titles, among them the Metropolitan Championship in 1923, the Iloilo Open in 1931, and the Philippine Inter-Scholastic crown in 1932.... Now nearly 35, Madrigal started playing more than 20 years ago and picked some pointers from Mr. Andres Fajar, University of Illinois grad, in the four years he was Fajar's pupil.... Claiming more than 140 tournaments, Mauricio will likely have an edge in experience on all other entrants. His age and infrequency of practice may slow him down some, but he'll be tough to beat.

Bill Norris, Pacific heavyweight champion, seems amused as he squats in the center of the NAS Orote arena mat and looks for a hold on voluminous Charles Stroud, whom he bested for the title last night. (Guam News Photo)

Guam Representatives Place in Five of Eight Pacific Wrestling Title Matches

Guam's wrestlers split with the champs from Com 14 of Honolulu in the six Pacific championship bouts at the NAS Orote arena last night and coupled those three victories with two defaults to cop five out of eight places on Pacific team which will go to Annapolis for the All-Navy matches next month.

The local team took the first two weight classes when the Hawaii team failed to present a flyweight or bantweight and Jack Sutton and Sandy Sangalis walked into the trip without a match last night. Jimmy Sellers took the first title match of the evening, Hawaii took Guam wound up activities by copping the lightheavy and unlimited heavyweight classes.

Sangalis edged Sutton in a preliminary exhibition match with neither boy able to get a fall, and Sellers had 16 points to Sutton's 13.

After an even first period Sellers used a bar arm half Nelson to pin J. L. Harr of NAS Barber's Point in 2:37 of the second period and then took only five seconds to nail him the second time in the third period for the first victory of the night.

Al Pinasole outmaneuvered Dennis Goyeau and won a fall and the bout in 2:59 of the first period with a reverse Nelson and a bar arm.

F. L. Hoffman grabbed the second victory for the visitors as he knocked off Ken Albertson from the First Marine Brigade in the third period of their 154-pound class battle.

Paul Wilson made short work of Manuel Maclas for Hawaii's third and last win of the meet with a half Nelson and one-leg grapevine that brought about a fall in 2:52 of the first period.

Big Howard Schiller, fair haired boy of the local mat crowd, took less than three minutes to finagle a reverse Nelson and body lock on Al Dobback and trimmed the barrel chested Hawaii lightheavy in the first period.

In the windup, Wee Willie Norris toyed with 246 pound Charles Stroud for the first period, pinned him in 1:35 of the second, and then repeated in only 45 seconds of the finale to take the unlimited class championship.

Grade School Softball

Softball has been introduced to the grammar schools on Guam and the battle for the Guam school championship has already begun. Both boys' and girls' teams are in the competition.

The Island has been divided into four sections, five schools in each section. Early in April, the four divisional winners will playoff for the Island title.

Scores of the first games:

Boys

Piti 10	Adelup 1

Girls

Adelup 28	Piti 5

MarBo Boxers Still Hopeful In Army Tourney in Hawaii

MarBo's part in the Army Inter-Command boxing tournament, now nearing completion at the vast Schofield Barracks in Honolulu, was lessened somewhat according to the results of the quarter finals received by special services yesterday, but there is still hope in five of the nine classes.

Local chances are particularly good in the featherweight and lightweight divisions as MarBo's pride and joy, George Crump, the joy, advanced to the semi-finals and David Dorsey, No. 2 MarBo 127-pounder also won in the quarters.

Little Fred Gemoya, No. 1 MarBo flyweight and Western Pacific Golden Gloves titlist was eliminated by Hawaii's Leo Lebnng on a decision. Nester Sola, erstwhile bantamweight, now is MarBo's white hope for 112-pound honors.

Mike Karvasales' charges were knocked completely out of the running for the bantamweight crown when Hugh Bradley from Japan kayoed Roger Silva. Nat Montgomery, MarBo champ, was unable to fight at all in the meet because of a tooth infection. Roy Higa, defending champion from Hawaii is favored to retain his title in that class.

Fentress

Crump

George Crump, MarBo's grinning devil featherweight king and Western Pacific Golden Gloves titleholder, moved one step closer to the Inter-Command title. Local fans are confident he will win by taking the nod over Ed Johnson from Phil-RyCom. There's a possibility of an all MarBo featherweight finals as David Dorsey also advanced to the semis by defeating Bob Groce on a second round KO.

Goodwin Advanced

Lawrence Goodwin advanced in the senior welterweight class by scoring a TKO over Leroy Cash of Japan, while David Stowe, who beat Goodwin in the MarBo tourney Christmas night, lost in the first round of bouts.

Ossie Hollin remained the last MarBo entrant in the light heavyweight class as he decisioned Fred Adler, and Nap Washington of MarBo lost to Japan's Arnold Aiken.

A gas tank too small to carry enough fuel for three full rounds and Edward Howlitt from Japan caught up with big Bill Burke simultaneously and the 200-pound MarBo heavyweight lost a first round kayo. John Meatoga performed well before the homefolks and the big Hawaiian decisioned Bernard Parcys of Korea to advance to the semi-finals.

Matthew Corbin, Gillis Williams and Bob Ellerbie, all of MarBo lost in the quarter final bouts.

—March of Dimes—

Brundage, Mayer In Hockey Tiff

ST. MORITZ, Switzerland, Jan. 27 —(UP)— Avery Brundage, chairman of the U. S. Olympic Committee, and Albert Mayer, a representative of the Swiss Organizing Committee, battled a verbal deadlock tonight over the controversial issue of which American hockey team would represent the U. S. in the coming winter Olympics.

In a heated two-hour conference on the eve of tomorrow's meeting of the International Olympic Committee, at which a decision will be made on the issue, Brundage charged that the Amateur Hockey Association team, selected last month as the U. S. entry by the Swiss Organizing Committee, "represented Madison Square Garden and not the United States."

—March of Dimes—

Ruth to be Discharged From Hospital

NEW YORK, Jan. 27 —(UP)— Babe Ruth, beloved idol of millions, will be discharged from Presbyterian Hospital tomorrow after a confinement of 17 days for what medical authorities described as a "routine checkup."

The Babe will go to his home on Riverside Drive and proceed with plans for a vacation at Miami Beach, starting Tuesday.

Hospital authorities said the former New York Yankee star was in "very good condition and in excellent spirits." He entered the hospital on Jan. 10th. He received an average of 50 fan letters a day.

—March of Dimes—

Louise Cops Medal

MIAMI, Fla., Jan. 27 —(UP)— Little Louise Suggs, two-time titleholder but never the medalist, won the medal today in qualifying for the Helen Lee Doherty Women's Golf Tournament with a three-under-par 72.

The National Amateur Women's Champion from Lithia Springs, Ga., almost set a new record for women's play, but missed her chance by twice taking two putts on home nine greens.

Return Bout Stymied

MIAMI BEACH, Fla., Jan. 27 —(UP)— Mike Jacobs, Sol Strauss and Felix Boccicchio wound up in a bitter stalemate today in their efforts to fix purse arrangements for the proposed return match between Champion Joe Louis and Joe Walcott for the heavyweight title.

In the first conference at Jacob's, winter home on Normandy Isle, Boccicchio, who has an exclusive promoter's contract for Walcott's services, reportedly offered to accept 25 per cent of the net receipts, rather than the 30 per cent he asked for originally.

—March of Dimes—

Rockets Get McKeever

CHICAGO, Jan. 26 —(UP)— Ed McKeever, who resigned yesterday as University of San Francisco coach, has signed a three-year contract to coach the Chicago Rockets of the All-America Conference, it was announced today.

'48 Inter-Command Softball League Opens Next Month

Search For Lightweight To Fight Ike Williams

NEW YORK —(UP)— Chickie Bogad, matchmaker for the 20th Century Club, told reporters that one of his biz jobs this year would be the attempted revival of interest in the lightweight division.

The 135-pound class has an excellent champion in Ike Williams of Trenton, N. J., but below him there seems to be an unprecedented lack of talent.

This situation is unusual indeed; for since the turn of the century lightweights have been regarded as the second "money class" in boxing, ranking next to the heavyweights at the box office.

The division produced some of the ring's greatest fighting men—Joe Gans, Battling Nelson, Willie Ritchie, Freddy Welsh, Benny Leonard, Tony Canzoneri, Barney Ross, and Henry Armstrong. Moreover, during the regimes of most of those champions nearly every large city had at least a couple of contenders capable of giving the champ stiff competition.

Plight Accentuated

For Bogad and other matchmakers, the divisions plight was accentuated by the recent retirement of Bob Montgomery, the exchampion who had been matched for a return title bout with Williams at Madison Square Garden on Feb. 20.

Montgomery hung up his gloves after losing three of nine bouts during 1947. One of those defeats occurred on the night of Aug. 4 at Philadelphia's Municipal Stadium. That night Williams, recognized as champion by the National Boxing Association, settled his title dispute with Montgomery recognized as titleholder in New York and Pennsylvania. Williams became undisputed world champion by knocking out the Philadelphia "bob-cat" in the sixth round. They were rematched later for a February return bout at New York.

The big question now is this: What contender can be thrown into the Garden ring with Williams for a title bout in February or later? Williams is under contract to make his first defense of the undisputed crown for the Garden.

—March of Dimes—

NEW YORK —(UP)— The choir of the little Norweigian Gospel Church in Brooklyn gathered to rehearse Christmas carols and found they would have to sing without music. Someone had stolen the church's $450 accordian.

Jacobs Recovers From Illness

MIAMI BEACH, Fla., —(UP)— Mike Jacobs, venerable promoter of boxing bouts, said recently his health had improved during his Florida vacation and that he plans to continue in the fight game definitely.

"I am not going to retire," the 20th Century Sporting Club chieftain said.

Jacobs admitted that "I haven't got any plans" other than the proposed Louis-Walcott return match, but, he added, "you have to have fights to stay in the business."

Feeling Much Better

The 67-year-old promoter, who has been at the top of the boxing business for more than two decades, said he had been feeling much better since he began resting at his winter home on Normandy Isle here.

"I've decided I can go along this way," he said, outlining a health plan of plenty of fresh air and sunshine in the warm Florida climate.

Jacobs said he would continue to control 20th Century although he intends to spend "as much time as possible" here.

He plans to return to New York in the spring when Joe Louis is expected to defend his heavyweight title again against Jersey Joe Walcott.

—March of Dimes—

NEW YORK —(UP)— Delegates from 60 nations have been invited to exchange information about Infantile paralysis at a poliomyelitis conference to be held here July 12 through 17. First meeting of its kind, the conference is sponsored by the National Foundation for Infantile Paralysis.

EWELL BLACKWELL — Cincinnati Red's strikeout artist and candidate for no-hit no-runs honors was picked by the Baseball Writers Association of America for a berth on the 1947 All-Star team. (AP Photo)

Tribe Places Four On Writers' Team

ST. LOUIS, —(UP)— The Cleveland Indians, who finished in fourth place in the American League last season, placed three men on the 1947 all-star team selected by members of the Baseball Writers Association of America, the Sporting News Weekly announced recently.

Players named included: Outfielders Ted Williams of the Boston Red Sox, Joe DiMaggio of the New York Yankees and Ralph Kiner of the Pittsburgh Pirates, First Baseman Johnny Mize of the New York Giants, Second Baseman Joe Gordon of the Indians, Third Baseman George Kell of the Detroit Tigers, Shortstop Lou Boudreau, player-manager of the Indians, Catcher Walker Cooper of the Giants and Pitchers Ewell Blackwell of the Cincinnati Reds, Bob Feller of the Indians and Ralph Branca of the Brooklyn Dodgers.

Boudreau, Kiner, Blackwell and Branca were newcomers on the team, and DiMaggio appeared for the seventh time. Williams, Feller and Kell were the only holdovers from the 1946 all-star team.

Blackwell was the most popular choice of the baseball writers and appeared on 281 of 292 ballots.

Fourteen Teams to see Action in Loop

Guam will get the jump on the Stateside softball season next month when the 1948 Inter-Command Softball League gets rolling on seven different diamonds on the Island.

Smaller than the basketball league, the softball loop is composed of only 14 teams, but the schedule, which matches each of the 14 teams twice, will run up through the 13th of June—two months longer than the court season—and will overlap the baseball season.

The team which cops the "pennant" will be the Guam champions and members of the team will be awarded individual trophies or jackets.

The Guam representatives in the Western Pacific tourney will be composed of All Stars selected on a basis of team value and performance throughout the season.

Of the 14 teams entered in the league, nine are representing Naval establishments, four are Marine Corps entries, and Pan American Airways is the lone civilian squad.

For the first month of the 26 game schedule, each team will play three games, one on Saturday, Sunday, and Wednesday. After March 14th, all games will be played on Sundays. The frequency of games in the early part of the season is necessary in order that the season will not interfere too much with the baseball league, which will get underway about April 1.

Last year ComMar took the Island title and went on to the Pacific tourney where they lost out on four one run games in the round robin. Saipan's Leo Nosalik created somewhat of a sensation with his sparkling pitching, and if he is around for this year's WesPac meet, which will be held on Guam, the locals can look for a good deal of trouble from him.

A list of the outfits entering team follows:

1. Com Marianas
2. 1st AAA
3. NavCommSta
4. Pan American
5. Medical Center
6. Utility Sqdn 9
7. NSC
8. 103rd NCB
9. MAG 24
10. 1st Marine Brigade
11. NAS Agana
12. 5th Service Depot
13. NATS Asia
14. NavBks-RecSta

—March of Dimes—

Ma Says 'No' To Son's Contract

CHICAGO, —(UP)— Earl "Jug" Girard, former Wisconsin football star who signed a contract to play for the Green Bay Packers in 1948 for $8,000, is in a position now to sell his grid ability again for a larger sum.

Girard, it developed, signed his Packer contract before he was 21 years old, and his mother, Mrs. Ann Girard, refused to approve it.

The New York Yankees, of the rival All-America Conference, bid $10,000 for him, and Curly Lambeau, Mrs. Girard announced, met that figure in a telephone call from the West Coast.

It was likely that Girard would hold off signing another contract until he is 21, and then accept the best offer. However, if the offers of the two clubs are the same, he probably will sign with the Packers.

—March of Dimes—

Wedemeyer Will Not Play Baseball -- Dons

OAKLAND, Calif., —(UP)— Former All-America football star Herman Wedemeyer learned recently the Los Angeles Dons will not permit him to play baseball as a sideline to his gridiron activities.

Wedemeyer, under contract to the Dons of the All-America Football Conference, had sought to sign for the 1948 baseball season with the Oakland club of the Pacific Coast League.

Harry Thayer, general manager of the Dons, advised the Oak's management, however, that he "did not consider it was in Wedemeyer's best interest to play baseball."

The St. Mary's college halfback sensation was considered an outstanding hitting and fielding prospect by the Oaks.

COINCIDENCE STRIKES

HOLLYWOOD —(UP)— As Mason Nurick drove to report the theft of his automobile his borrowed car was rammed from behind. Indignant, Nurick got out to survey the damage and discovered the car that hit the one in which he was riding was his own.

PROLIFERATING PETS

PEEVE PAPA

CHAMPAIGN, Ill. —(UP)—When Richard Brown told his son he could take his pets home on a return trip from Springfield, Ill., he got more than he bargained for.

While they were preparing to return to Champaign the pet dog had five pups, a pet rabbit had seven offspring, and pet chicks which Brown's parents had been keeping had become grown chickens.

Brown said it was the largest number of "passengers" he had ever had in the car.

Legal Notice

In order to expedite the construction of streets, utilities and the subdivision of the new lots in Agana, Part I, it is requested that the following property owners or the administrators of their estates, contact the Guam Planning Commission for the purpose of signing a petition to the Governor of Guam to re-plan Agana in accordance with the Lot and Block layout in Part I, New Agana. To date, approximately 70 per cent of the property owners have signed this petition. The signatures of the remaining property owners are needed before work can proceed and the private building of homes and business establishments can be started. It is important that property owners bring with them a certificate of title, tax certificate or other documents indicating land ownership. Models and plans of New Agana can be seen at the Planning Commission and any information concerning these plans will be gladly furnished.

By direction of the Governor
James T. Drought
Guam Planning Commissioner

The red, white and blue March of Dimes insigne heralding the 1948 fund-raising appeal of the National Foundation for Infantile Paralysis, is an inspirational guidon in the fight against polio.

The red lane piercing the dark blue background signifies the courageous, never-tiring work of scientists seeking to conquer infantile paralysis forever. The dark blue background, rather than black, symbolizes the advances science has already made in unraveling many of the mysteries of this crippling disease.

Ship Movements

Applicable to ships under Navy control: Outgoing cargo B/L with eight copies must be delivered to freight transportation branch of Naval Supply Center 48 hours prior to arrival of ship (telephone BO 6264).

Passengers or their representatives must deliver to Port Director their authorization for travel or travel orders 48 hours prior to departure of vessel (Telephone BO 6143).

U.S., Russia Accused Of Exerting Pressure

TORONTO, Jan. 28 —(UP)— The United States and Soviet Russia were accused tonight by Canada's Undersecretary of State for External Affairs, L. B. Pearson, of exerting "pressure" on smaller nations of the United Nations.

He said this pressure was being exerted at a time when there was danger of one of the "two world's" led by the United States and Russia becoming "an aggressor, overrunning the other and bombing and blasting all peoples into submission."

Pearson attacked Russia more strongly, however, charging it with "the prostitution of our United Nations organization to an ignoble and aggressive purpose." He proposed the creation of an association of democratic nations, within the United Nations, which would have "such a terrific preponderance of power that no one would dare to commit aggression."

The United Nations organization, he said, is powerless to "guarantee peace and security" in the present "political climate" of suspicion and mistrust between the two "super powers." The establishment of a "collective security agency within the United Nations could prove both its good-will and power," he stated, would at last give "some reason to hope that peace might be preserved and that life on this planet might continue to exist."

—March of Dimes—

Knutson Bill Passed by House Committee

WASHINGTON, Jan. 28 —(UP)— The Knutson bill to take a $6,000,000,000 load off the nation's taxpayers was started on its way to passage today when the Republicans rammed it through the House Ways and Means Committee by a straight party vote of 15 to 9.

The measure, granting a $100 increase in personal tax exemptions and direct cuts of from 10 to 30 per cent for all taxpayers, faces a presidential veto unless it is modified drastically by the Senate.

It is expected to be brought up for debate in the House Thursday and GOP leaders predict it will pass by an overwhelming majority by next Monday.

The 15 Republicans on Ways and Means crushed a series of Democratic attempts to rewrite the bill. And they asked Democrats to join them in snowing under, 19 to 5, President Truman's plan for $40 "cost of living" tax cut.

—March of Dimes—

German Military Govt. Under State Department

WASHINGTON, Jan. 28 —(UP) Secretary of the Army Kenneth C. Royall announced tonight that on or about July 1" the Army will turn over the military government of Germany to the State Department.

The decision was reached after recent conferences here attended by Royall, Secretary of State George C. Marshall and Gen. Lucius D. Clay, U.S. military governor in Germany.

It came after 2 and one half years of strenuous efforts by the Army to get rid of the responsibility for military government in Germany especially, and in all occupied areas generally. But no plans are yet formulated for changes in military governments in Korea and Japan.

The announcement by Royall came about two weeks after Marshall told Congress that the new "target date" for the transfer of Germany was June 30. Marshall emphasized then that it was merely a target date.

—March of Dimes—

Griswold May Quit

ATHENS, Greece, Jan. 28 —(UP) Dwight Griswold, head of the American Aid Mission, and a number of his top officials will quit their jobs next summer and decline to stay here to administer the Greek part of the Marshall plan, reliable sources said today.

Griswold himself may be willing to remain for only one or—at the most—two months after the present $300,000,000 aid program is fulfilled June 30, these sources said. Other key officials want to return to the United States right after June 30 for what they described as "family or personal reasons," it was said.

Wallace's Third Party Underway in Thirteen States

WASHINGTON, Jan. 28 —(UP)— A United Press survey today disclosed 13 states in which substantial efforts already are underway to place Henry A. Wallace on the November ballot as a third party presidential candidate. So far he is assured of ballot position only in New York.

Politically powerful Pennsylvania, California and Illinois are among these 13 states.

The Communist-infiltrated American Labor Party has endorsed him as its presidential candidate in New York. There he had a ready-made third party to adopt him although the endorsement split the ALP wide open.

The ALP has been a balance-of-power in New York politics without which President Roosevelt and other Democratic candidates would have lost the state more than one occasion. It is expected to poll fewer than its usual 500,000 votes this year because of the split over Wallace, but it still might siphon off enough support for Wallace to make a present of New York to the Republican presidential candidate. Wallace's candidacy similarly is a menace to President Truman's chances in other states outside the South where the election may be expected to be close.

Henry A. Wallace (AP Photo)

In states where real efforts apparently already are being made to get Wallace before the electorate in one way or another include Maine, New Hampshire, Massachusetts, Rhode Island, Vermont, Connecticut, Minnesota, Nevada, Oklahoma and Wisconsin. This does not assure Wallace that he will be on the ballot, of course, but it indicates the extent of the movement in his behalf nine months before the election.

Some of Wallace's Progressive Citizens of America supporters believe they will have their man on the ballot in 40 states. In Michigan and Indiana, for instance, the Wallace organization is just being set up. A Detroit group plans a meeting for next month to see what can be done. Indiana third party organizers also plan a February meeting.

U.S. Motorists May be Asked To 'Slow Down'

WASHINGTON, Jan. 28 —(UP)— The White House is considering an appeal to American motorists to drive no faster than 35 miles an hour as a move to ease the petroleum shortage, it was learned today.

An informed source said the appeal would make gasoline and oil saving a "conscience matter" for the individual motorist. It would be on a voluntary basis.

Reduce Speeds

This source said substantial savings in gasoline could be affected if highway speeds were reduced and this, in turn, would help the heating oil situation.

Meanwhile, coal industry representatives and government officials met to work out a long-range program to safeguard against a possible coal shortage.

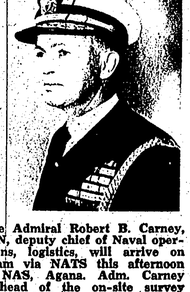
Interior Department officials pointed out that the heating oil shortage has created an abnormal dependency on coal and they emphasized that there is not too much coal.

March of Dimes

COMMAR HILL—All contributions to the March of Dimes made by Naval Personnel in the Pacific will be collected by the Commander Service Force, Pacific Fleet, in Pearl Harbor and donated in a lump sum to the National Foundation for Infantile Paralysis, it was announced recently.

The families of many Navy men have already benefited from the research made possible through contributions to this worthy cause, and all hands are reminded that all contributions must be made by January 30, 1948.

If you have not already made your contribution, do it today!



Vice Admiral Robert B. Carney, USN, deputy chief of Naval operations, logistics, will arrive on Guam via NATS this afternoon at NAS, Agana. Adm. Carney is head of the on-site survey board which is studying Naval installations here. (U. S. Navy Photo)

Headline Highlights

LOS ANGELES, Jan. 28 —(UP)— A nationwide poll to see if the public wants to draft Gen. Dwight Eisenhower for president was planned today by his California booster club.

CHICAGO, Jan. 28 —(UP)— Public school teachers who had threatened a city-wide strike got a salary increase today, but their starting pay still was below that of the school janitor.

PARIS, Jan. 28 —(UP)— The finance committee of the National Assembly rejected Premier Robert Schuman's proposal to legalize trading in gold and forgive Frenchmen who have been hiding foreign assets. It brought Schuman's government to a crisis that could result in its falling.

BELLAIRE, O., Jan. 28 —(UP)— Fireman battled a smouldering fire at the bottom of an airshaft in the Willow Grove coal mine for four hours tonight after 156 coal miners were quietly evacuated in the mine elevator.

LISBON, Portugal, Jan. 28 —(UP)— A Portugese airliner crashed tonight near the village of Alcanica, 12 miles from Lisbon, killing the pilot, navigator and radio operator.

Weather Forecast

Partly cloudy. Few scattered showers. Moderate easterly winds with scattered strong gusts.

Yesterday's temperatures: Max. 84; Min. 77.

Yesterday's rainfall: .32 inches.

Rainfall for month: 8.55 inches.

Truman Forces Postponement of Railroad Strike

WASHINGTON, Jan. 28 —(UP)— President Truman today forced a 60-day postponement of a threatened nationwide strike by 248,000 railroad workers by creating a fact-finding board to investigate the dispute.

His executive order said the strike, scheduled for Feb. 1, would interfere with interstate commerce.

Three powerful unions—the Independent Brotherhoods of Locomotive Engineers and Locomotive Firemen and Engineermen, and the Switchmen's Union (AFL)—claim that 97 per cent of their members have voted to strike for wage increases and other concessions.

Under the railway labor act, creation of an emergency fact-finding board automatically postpones walkout for at least 60 days. The board has 30 days in which to hold hearings and report back to the President, and another 30 days are required before a strike can be called.

Mr. Truman merely announced that he was appointing a three-member emergency board to investigate the dispute. Names of its members will be announced within a few days.

Negotiations have been underway since Oct. 7. The unions are demanding pay hikes above the pattern setting 15-1/1 cents an hour increase granted 1,250,000 members of the 17 non-operating brotherhoods. They argue that the extra pay is required for jobs which are filled only by members of their unions.

Auto Workers Face Layoff For 2nd Time

DETROIT, Jan. 28 —(UP)— Some 200,000 Detroit auto workers faced layoffs for the second time in a week today as the Michigan Consolidated Gas Company asked industrial users in the area to halt operations tomorrow night until next Tuesday morning.

3 Day Suspension

The gas company request will be observed by scores of small and major plants. Production will be suspended for three days—Thursday Friday and Monday. Auto industry employes do not work Saturdays.

The 200,000 workers returned to their jobs today after a one-day layoff yesterday.

Henry Fink, company president, said he was forced to make the second request in a week to make certain that domestic consumers were protected during the bitter cold siege.

McCabe Chairman of Reserve Board

WASHINGTON, Jan. 28 —(UP)— Chairman Marriner S. Eccles of the Federal Reserve Board, whose rugged anti-inflation proposals have irked the nation's bankers and stock exchanges, was notified by President Truman today that Thomas B. McCabe will take over the chairmanship on Feb. 1.

Eccles will stay on as board vice chairman, a demotion he accepted amicably after conferences with the President.

McCabe, Chester, Pa., paper manufacturer and chairman of the Philadelphia Federal Reserve Bank, nominated yesterday to a board vacancy caused by the death of Vice Chairman Ronald Ranson, and still must be confirmed by the Senate.

Mr. Truman's surprise move was carried out in the most friendly atmosphere. He and Eccles, one-team Utah banker and New Deal head of the reserve system for 12 years, exchanged felicitous letters.

On the other side of the ledger, Eccles has clashed repeatedly with the conservative banking fraternity, heads of the stock markets and Congressional advocates of free enterprise.

In addition, the outspoken Federal Reserve chief recently collided with Secretary of the Treasury John W. Snyder over anti-inflation measures. Eccles, ever on the alert against inflationary credit, urged Congress to require banks to set aside special reserve funds to dry up some of the ready money available for lending.

—March of Dimes—

Submarine Fox to Aid Stranded Ship

COMMAR HILL—It was announced recently by Pacific Fleet Headquarters that the submarine USS SEA FOX was proceeding to the aid of the SS TURKSHEAD, of Philippine registry, which was reported stranded in Tensin Gulf off the island of Hainan.

The Navy submarine commander reported that his ship would stand by to render such assistance as was necessary until the arrival of a salvage tug. Preliminary reports from the stricken vessel stated that there were no United States nationals on board and that the grounded ship could probably be refloated in about six days.

Cold Wave Threatens Industrial Production

CHICAGO, Jan. 28 —(UP)— The longest siege of cold in 12 years cut fuel supplies to the danger point in many areas today, disrupting vital industrial production and leaving thousands idle in five states.

The bitter cold caused natural gas and oil shortages, affecting the steel, automobile and coal mining industries. Thousands of families in scattered areas were without heating oil. Many schools across the nation were forced to close.

Dust storms, a cold snap and the worst state-wide drought in 70 years scattered a freakish weather pattern in California. The drought threatened the state with water and power shortages and damage to its multi-million dollar citrus crop.

It was colder in the midwest today than in parts of Alaska, which the Army had selected for its "operation frostbite" to test equipment and men. Western sections of Alaska were having a winter "heat wave."

Sub-zero weather extended today all the way from Montana to Michigan, and temperatures in Atlantic coast states were scheduled to drop as the fifth cold wave in two weeks fanned out over the east and south. The first frigid air mass rolled into the United States the night of Jan. 13.

The longest previous cold wave was in 1936 when the siege continued for a month.

—March of Dimes—

Pound Stays Firm

LONDON, Jan. 28 —(UP)— Britain's firm stand against devaluation of the pound sterling checked "jittery" selling of government securities on the London exchange today, although the financial district was still buzzing with rumors that the pound would soon fall.

Government issues rose on the exchange as gold mining stocks fell, reversing the rush to sell sterling short touched off yesterday by devaluation of the French franc.

News of the French Assembly's opposition to Premier Robert Schuman's financial program, received too late to affect today's trading, created some cautious hope that the situation might improve.

NEVADA CITY, Cal. —(UP)— A superior court jury late today found Joseph L. Hardy, Jr., guilty of the "kiss of death" slaying of J. W. McLain but saved the youthful army deserter from the gas chamber by ordering him sentenced to life imprisonment.

Restaurant Owners Say Food Cheap

SACRAMENTO, Calif. —(UP)— California menus don't indicate it but restaurants claim they can serve three full meals for less than $1.35 a day—wholesale.

In a petition to the State Employment Stabilization Commission, the Sacramento Restaurant Association and 11 other restaurant groups declared that $1.35 set by the commission as the value of meals served to employes in lieu of wages was excessive and unreasonable."

Sample menus offered by the restaurants showed a breakfast of two soft-boiled eggs, toast, butter and coffee could be served for 18 cents.

A typical lunch of salad, beef stew, bread, butter and coffee was valued at 21.7 cents.

Dinner—without steak—but including soup, roast beef, potatoes, bread, butter, pie and milk, was said to be worth only 48.6 cents.

——March of Dimes——

Many Fires For '48

BOSTON —(UP)— Fires, starting at the rate of one every 20 seconds, will break out in 300,000 American dwellings in 1948.

That's the "reluctant" prediction of Percy Bugbee, general manager of the National Fire Protection Association. He characterizes the fires as needless.

Bugbee says that motor vehicles will run second in the smoke and flame derby with 56,000 fires in 1948, followed by shops and stores with 50,000 blazes.

Other '48 fire totals, he says, will be: factories, 28,500; hotels and boarding houses, 8,000; theaters and amusement places, 4,000; and schools and churches, 2,000.

He thinks the lighted cigarette will continue to be the nation's No. 1 fire threat.

——March of Dimes——

MARINE BRIGADE——A Solemn High Memorial Mass was held for the late Marine Private William A. Pollard, of Newark, New Jersey, at 10:30 a.m. Saturday, January 24 at the Brigade chapel.

Pvt. Pollard, attached to the 5th Marines since November 1, 1946, died last Monday at the 103rd Naval Hospital after an illness of several days.

RECEIVE AWARDS—Lcdr. Charles C. Aikins, USN, and Gail E. McCallen, SI, USN, received an award and a commendation at the disestablishing ceremony of ComFairWesPac. Lcdr. G. E. Kemper, USN, is reading the citations and Capt. F.C. Dickey, USN, (right) is Commander, Fleet Air Western Pacific. (Guam News Photo)

Awards Made, ComFAirWesPac Closes

Two men attached to COMFAIRWESPAC Monday received awards and commendations at the disestablishing ceremony of that unit.

Lcdr. Charles Aikins, USN, was awarded the air medal, a gold star in lieu of the second air medal and a second gold star in lieu of a third air medal for "participating in aerial flights in combat area where enemy anti-aircraft fire was expected to be effective or where enemy aircraft patrols usually occurred."

Gail E. McCallen, SI, USN, was commended by the chief of naval personnel for the rescue of a shipmate on the night of March 19, 1947, off the USS Rochester moored at the Naval Operating Base, Norfolk, Va.

The commendation said McCallen jumped from the pier, without regard for personal safety, and grabbed hold of a man who had fallen overboard and held him until a line was secured and the man hauled to safety.

"The quick thinking and prompt action exhibited by McCallen on the above occasion reflects great credit upon himself and the United States Naval Service," the commendation said.

Dependents Arrive At Harmon Field

Hq. 20th A. F.—Eleven dependents of Twentieth Air Force personnel arrived on Guam Monday night when they landed at Harmon Field at 11:30. They had traveled from the United States aboard an Air Transport Command airplane.

Six Families

Seven will live at Northwest Field. First Lt. Herman H. Williams was joined by Mrs. Williams, son, Stacy C. and daughter, Janice. Master Sgt. Donald O. Dodd by Mrs. Dodd and son, Donald O.; and Staff Sgt. Marion P. Holliman by Mrs. Holliman and son, Dennis D.

Headed for North Field were Mrs. Winifred A. Dorsey, wife of Staff Sgt. Dorsey and Mrs. Willie Gardner, wife, and Shirley A., niece of Staff Sgt. Gardner.

Mrs. Manse R. Sharpe, Jr., wife of Second Lt. Sharpe, will make her home in the Twentieth Air Force-Harmon Field housing area.

——March of Dimes——

ST. LOUIS —(UP)— Miss Margaret Schonoff's door bell had an "out of order" sign on it for almost a year.

Then lightning struck the house. She had to cut the wire to stop the bell's continuous ringing.

Ice, Snow Mark Student's Grave

OTTAWA, Ont. —(UP)— The wind swirls the snow from low, gray clouds across the grave of Charles Shiversik II, 22, of Cleveland, O. The grave is hewn in the 500-foot thick ice near the summit of Mt. Waddington.

The grave marks another chapter in the battle between man and the mountain. Mt. Waddington towers 13,260 feet in the British Columbia coastal range, a perennial challenge to man.

Shiverick, a Harvard University student, was caught beneath an avalanche that tumbled down on a group of university students who had climbed almost to the top of the peak.

His parents arranged with Dr. Neal M. Carter, head of the Canadian government fisheries experimental station in Vancouver and a veteran mountain climber, to try to recover the body.

Carter returned to Ottawa and announced that he had found the body, but had hacked a grave in the ice.

The party headed by Carter searched the peak from a U.S. Army bomber and a light plane for three days. After locating the general area of the slide, they examined it at close range from a helicopter for five days.

The helicopter finally landed on the glacier and Carter spotted the body, but found it impossible either to take it aboard the plane or down the mountainside.

Carter is one of the few men who have mastered Mt. Waddington, the tallest peak in Canada. Many men have tried, and several have died.

The peak was named after Alfred Waddington, who in 1869 led a party into the wilderness to map a route from the interior of British Columbia to the coast. The entire party was killed by Indians.

No further attempt was made to explore the area until in 1926, when Mr. and Mrs. Don Munday of Vancouver set out to try to climb the peak, which had been inspected from the air. They climbed within 350 feet of the top the following year, but had to give up.

Veterans on Move Survey Reveals

CHICAGO —(UP)— Former servicemen have become the "movingest" people in the nation, the American Society of Planning officials reports.

Nearly 12 per cent of all male veterans have moved at least once since the war ended, the society says. Despite the housing shortage, some 11,000,000 Americans have found different homes since V-J Day.

A slightly larger percentage of women were on the move compared with men. About 8.1 per cent of the total female population moved, compared with .4 per cent of the men.

Six million of the post-war migrants moved to find or take new jobs, according to the society. Another two million changed locations in search of adequate housing. Other major reasons included school attendance, health and marriage.

From an occupational standpoint, professional and semi-professional workers were the most mobile groups, with farmers and service workers othr than domestics at the opposite ends of the scale.

Lcdr. and Mrs. Randolph N. Crane and family

Farewell Party Held For Lcdr. Crane

AGANA—On Friday, January 23, a farewell party, sponsored by the employees of the Public Works Department was held in honor of Lcdr. Randolph N. Crane, (CEC), USNR, and family at the Naval Government Enlisted Men's Club.

Lcdr. Crane arrived on Guam in September of 1946. He was assigned, first as assistant Public Works officer and later as Public Works officer relieving Cdr. William Vansteenberg, (CEC), USNR, in January 1947.

During his stay on Guam he was active in the rehabilitation program of the Guamanian communities. The New Agat school, the first modern school building of its kind to be constructed after the reoccupation, was begun under his supervision.

Among the guests were Governor and Mrs. C. A. Pownall, Rear Admiral and Mrs. E. L. Marshall, (CEC), USN, Captain and Mrs. M. H. Anderson, USNR, and civilian dignitaries.

Lcdr. Crane will be relieved by Cdr. S. K. Wilson, (CEC), USN, who was formerly assistant to Admiral Marshall.

New Local Radio Show Over WVTG

COMMANDER MARIANAS—Your Armed Forces Radio Station, WVTG, serving the services on Guam, has added another fine show to its fast growing list of local programs.

This new entry has the title "Saturday Date." The primary objective of this show is to supply vocal, instrumental and orchestral entertainment which you, the listening audience, selects as tops for the week.

Other local shows now being heard at the 1380 spot on your radio dial are; "Powder Puff Preview," a show that caters to the fairer sex; "Especially For You," a record request program; and "Thought For Today," a religious feature with subject matter supplied by the MARBO chaplain's organization.

"Saturday Date" master of ceremonies chores are divided between lovely Joyce Shorts, MARBO Army hostess hailing from the District of Columbia, and Ed Simmons, Guam News music columnist. The program will be heard from 3 o'clock to 4 o'clock on Saturday afternoons. Use the convenient ballot below and have a "Saturday Date" with your favorite band, vocalist and instrumentalist. Ballots should be mailed as soon as possible

Pick-up Technique Corrected in Court

MIKWAUKEE —(UP)— It almost cost Wenceslaus Blaha $25 to learn not to invite a lady for a ride unless properly introduced.

Mrs. Marcilla Breitzman, 35, testified in court that Blaha tried to pick her up. When Judge Harvey L. Neelen imposed a $25 fine, Mrs. Breitzman said:

"Go easy on him, judge. Lots of men try to pick me up. I think he's learned his lesson. Besides, he's got a wife and four children."

Blaha commented that Mrs. Breitzman had looked familiar and he was only trying to be friendly. He added that he had told his wife about the incident.

——March of Dimes——

NEW YORK —(UP)— The east side chamber of commerce offered a prize for the best letter written by bums on "How and Why I Came to the Bowery."

Among the winners was a man who signed himself C. L. Bunton. his essay: "I came to see the sights. Now I am one."

LITTLE MISS SHERYL VAIL, age 3½ years, and the youngest worker in the March of Dimes, was declared the winner of the March of Dimes Queen selection contest. Due to the age of the new queen, there will not be any formal crowning. She is the daughter of Capt. and Mrs. Robert Vail, of Agafo Gumas. (Signal Corps Photo)

Civilians Take Over Harmon Fire Dept.

HARMON FIELD—First Lt. Robert L. Allard, Harmon Field Fire Marshal, has announced the change of the Harmon Field fire department from military to civilian. The civilian unit will be headed by Walter Schultz, Fire Chief, of the Harmon Field civilian personnel.

Military personnel presently assigned are under the direction of Sgt. Floyd Dixon, of the 1952nd Avn. Eng, Utilities Company.

The fire prevention section headed by Sgt. Manuel Alonzo, of the 1952nd Avn. Eng. Utilities Company, states that the month of December 1947 had the least number of fires and false alarms. This fact was made known because holiday seasons usually have the highest fire percentage.

With the addition of six new pieces of fire fighting equipment, and two 750 gal. per minute pumpers, it is anticipated that more adequate protection will be available in the event of fire at Harmon Field. The Harmon Field fire department telephone number is CHicago 2222.

'Treasure Hunt' Lucrative

RICHMOND, Cal. —(UP)— A 20-months "treasure hunt" by heirs of the late Carl H. Nealis, reputed Contra Costa county slot machine king, unearthed nearly half a million dollars in cash, stashed away in various hiding places about the bay area, it was revealed recently.

Final accounting of the estate, revealed that investigators virtually combed the bay area, uncovering one "treasure trove" after another.

A suitcase containing $149,990 was found in Nealis' El Cerrito home; $130,000 was buried in the back yard of the Nealis residence. $40,080 was found in a San Francisco hotel.

New Recreation Program for MarBo

MARBO—A full program, styled to please any recreation seeker is planned for the men of MarBo over the weekend, and many special features will highlight the activities in the various clubs.

Among the activities planned for Thursday are: coffee hour in the MarBo HQ. Club at 1000, and at 2000, numbers will be called for bingo; at the Palm Terrace 1900 is "Dedicated to You"; "Tramp Night" will be featured at the Alligator Rendezvous at 1930; pinochle lessons in the Aero Club at 1700 and at 1930 an identification quiz; and in the Pacific Paradise a dart derby will be held at 1800, crafts at 1900, and the best dressed soldier of the night will be awarded a prize at 1915.

Friday's program includes your chance to celebrate your January birthday at 1900 at the Palm Terrace; coffee hour in the MarBo HQ. Club at 1000, a beginners dancing class at 1930 followed by a card party and advanced dancing also at MarBo HQ. Club; fashion review, complete with orchestra, in the Alligator Rendezous at 1930; a ping pong tournament at the ATC Service Club; the Aero Club will provide a chance to write a letter home at 1930 with plenty of "candelite" music; and the Pacific Paradise will hold a free bingo party at 1800, and honor the best dressed soldier of the night at 1915.

Featured Saturday will be smoker's gamble at 1900 in the Palm Terrace; coffee hour in the MarBo HQ. Club at 100, and "gala" carnival night at 2000; the order for 1930 at the Alligator Rendezous will be community singing; members of the Topper Club on Saipan will play bingo at 1930; Featured at the Aero Club will be a camera and shopping tour at 1330; followed by a work shop party at 1400 and "Monte Carlo" night at 1930.

The roving reporter will be at the Pacific Paradise at 1800, the best dressed soldier of the night will be honored at 1915, and a musical quiz will be held at 1930.

Storm Spares Tents

COMMAR HILL—Although concrete buildings, large warehouses and quonset huts were leveled during the last typhoon which ravaged tiny Yap Island, three tents withstood the 100-miles per hour winds.

The frail shelters, set up to house temporarily a contingent of newly arrived Filipino laborers, were found intact by their battered inhabitants when they returned from the "safety" of the island's permanent shelters.

Sports Beat

by Bob Crosley

Big time boxing promoters and managers are generally regarded as a bunch of shrewd operators and crafty inveiglers, but a recent merry-go-round involving Joey Maxim, Olle Tandberg and Joe Baksi made them look like a bunch of amateurs....Tandberg's trip to the promised land of sports was a direct result of the first of a series of bungles that will stand for years to come as the epitome of handling ignorance.

It all started last April when Joe Baksi kayoed England's Bruce Woodcock, and broke the kid's jaw doing it....This, combined with several other victories, gave the 20th Century Sporting Club the impression that the calf had been fatted enough to put him on the altar before Joe Louis....Refusing a Louis bout in June, Baksi instead went to Stockholm in July and lost a decision to Olle Tandberg....This, of course, immediately changed the minds of Sol Strauss and cronies, and they scratched Baksi's name off the Garden invitation and substituted Olle's....When Olle arrived in New York in December, Strauss decided that if the big Swede bofted Baksi for the benefit of the homefolks just for good measure before the Louis match, it would increase the gate....Those who knew advised Olle and his manager, Leo Holmstedt, that Baksi had been living a life conducive to a soft paunch and slow reflexes and he would be a cinch if the fight were held in January.

Instead Tandberg was signed to a quickie contract to meet Joey Maxim....This was supposed to be a tune-up bout for Tandberg.... He hoped to make $15,000 out of a bout with the light punching Clevelander....Maxim hadn't heard that he was supposed to play a minor role, and he made a fool of the Swede and thus ruined his attraction and his fight with Louis.

It was a double blunder this time because both fighters suffered from the fiasco....Tandberg got his 15 G's, but the gate was far below the expected $65,000, and Maxim got away with less than $5,000—hardly enough to pay for his training expenses....Part of the blunder was a faux pas committed by the 20th Century Sporting Club. They came up with two big announcements concerning Joe Louis at a time when they should have been boosting the Tandberg-Maxim bout....As a result, the battle was looked upon as strictly second rate, which it was.

The fight itself was dull and the whole affair left a bad taste in everyone's mouth....No, kiddies, boxing bosses aren't all past masters at the art subterfuge or even keen business minds.

Sad Tale of Saipan Quintet's Hopes In WesPac Tourney Related by Jury

by Bill Jury

SAIPAN—Next week this island's basketball squad will arrive on Guam to participate in the Western Pacific cage tournament against China, Japan, Kwajalein, the Philippines and Guam.

According to A. A. Sereno, welfare and recreation officer and coach of the Saipan quintet, they will be lucky to get through the first night without being defeated It's as bad as that.

His story is enough to make a strong man weak. The first blow to Saipan's chances came when four of the starting five players were transferred.

Four players from a team that had defeated the best on the island during the season. Following on the heels of that major catastrophe, competition began to fall off. To date they have only been able to scrape up an occasional game with the local stevedore company for practice. A Filipino team that can boast of nothing but its shortage of height.

Coach Sereno's boys have developed their attack around husky Center Bob Manning, sole survivor of the former powerful Saipan team. They have been employing a zone defense recently and with this they hope to check Guam's fast-breaking All Stars.

Moreover, a shortage of capable reserves has hit the squad where it hurts, and at last night's practice they had to fill in the GUAM NEWS reporter at a forward position to round out two teams for a scrimmage session.

It's a sad tale they are telling up here on Saipan, but they may surprise next week and come up with a tourney darkhorse. But don't count on it.

Baseballers-Great Alibi Producers

NEW YORK —(UP)— Give a ballplayer a little time and the chances are he'll find an alibi for all faults in the world, particularly his own.

Two outstanding exceptions during the past season were Jim (Mickey) Vernon of the Washington Senators and Bill (Swish) Nicholson of the Chicago Cubs. Both experienced miserable years at the plate and required no one to point out the fact. For Vernon, who had won the American League batting championship with a lofty .353 percentage, it was particularly painful.

Yet, whenever scribes queried about his steep decline, he'd answer frankly:

"I just don't seem to have "it" this season. It's one of those things that neither I nor anybody else can explain."

Nicholson, likewise disdained to hide behind an alibi. Experiencing his third successive poor year at the plate, the burly outfielder explained:

"Ive tried everything to snap out of the slump but nothing helps. The fault must be with me."

—March of Dimes—

Quist, Land Sign

SAN FRANCISCO, —(UP)— George Quist, Stanford fullback, and Fred Land, Louisiana State tackle, were signed to professional football contracts with the San Francisco Forty-Niners of the All-America Conference.

Contract Extended

FAYETTEVILLE, Ark., —(UP)— Coach John Barnhill's tenure as director of athletics and football coach at the University of Arkansas has been extended eight years with a salary increase from $10,000 to $12,000.

After two successful seasons on a five-year contract, Barnhill signed a new agreement extending his tenure to ten years from the date he signed the first two years ago.

—March of Dimes—

Kramer Leads, 11-9

MADISON, Wis., Jan. 26 —(UP) Jack Kramer took an 11 to 9 lead in his national professional tennis junket with Bobby Riggs here today, winning a 6-4, 6-0 victory before 4,175 fans.

Kramer controlled the play throughout with a cannonball service and alert defensive play. His 6-0 victory in the second set was the first love set victory by either player in their 20-match series.

In the preliminaries, Dinny Pails won a 7-5, 6-3 victory over Pancho Segura.

VR-6 Zoomies Vie With Island Cage Stars Tonight

Guam's All Star hopes in the coming WesPac basketball tourney will engage the VR-6 Zoomies tonight in the first of three practice games this week end on the ComMar court.

Still in need of games to develop team work, the team has lined up games with the 474th Signal Gamecocks and the North Field Bombers for Friday and Saturday nights.

The VR-6 team is made up of players from the NATS Asia squad of the Inter-Command cage league with a few additions from other teams. John Eaton and Dick Sampson, the backbone of the NATS quint during the recent season, are both on the squad and joining them are Chuck Lewandowski, who played for ComNavPhil last year in the WesPac tourney, and Joe Sancelli, a former semi-pro, Baldy Matz, Dick Fuller and Pete Peterson.

The opponent for Friday night is the same Gamecock team which bested ComMar in a practice game during the lull between the season's end and the tourney. The Bombers were beaten handily by the All Stars last Saturday night in the Navy team's first practice tilt.

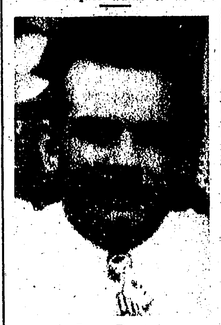
All games will get started at 1900.

Reyes Bows Out of Mexican Baseball; Pasquel Blamed

MEXICO CITY, Jan. 28 —(UP)— Alejandro Aguilar Reyes, who as Mexican League Baseball commissioner, worked out a peace treaty with America's big leagues, walked off his job in a huff today because "Jorge Pasquel, my predecessor, still wants to be the big boss."

Reyes told the United Press that he had submitted his resignation when he was informed of a statement made by Pasquel in New York suggesting that he and not Reyes still was the big power of Mexican baseball.

"If Pasquel wants to be the boss of the league he can be the boss and have his league for all the foolishness he wants to do with it," Reyes said.



Jorge Pasquel

"I will bow out and go my own way."

Reyes said that he agreed to take the post only when club owners came to him and asked him to do so.

Pasquel, who was in New York with Miguel Aleman Jr., son of the Mexican president, said he was not on a baseball mission, "but I am much willing to talk about baseball."

Asked there regarding Reyes' recent peace talks with Walter Mulbry, assistant to U. S. Baseball Commissioner A. B. (Happy) Chandler, Pasquel replied:

"Jorge Pasquel is the head man of Mexican baseball. Not a leaf falls from a tree in Mexico but Jorge Pasquel knows about it."

Pasquel admitted that he had to curtail his baseball activities last season because of pre-occupation with a newspaper he had published. But he made it plain he was not out for any peace with the major leagues' players' talent.

Pasquel said he thought the peace talks between Mulbry and Reyes were "inconsequential."

"If Chandler wants to do something he must talk to me, personally," Pasquel said. "Nothing can be done by a tourist. Mulbry was a tourist."

—March of Dimes—

Sports Writer Jack Cuddy Hands Out Well-Founded Baseball Predictions

by Jack Cuddy
United Press Sports Writer

NEW YORK, Jan. 28 —(UP)— After weeks of lip maneuvers with the sitting army of off-season baseball enthusiasts, I conclude that standouts of the 1948 major league season will be:

Most improved team—Boston Red Sox.

No. 1 Individual come-back—Stan Musial of the Cardinals, who was handicaped last season by a touch of appendicitis and too much blubber.

Best rookie—Alvin Dark, the Braves' shortstop candidate who performed brilliantly with Milwaukee last season.

Best darkhorse pitcher—Bob Lemon of the Indians, a good bet to win 20 games. The reformed infielder-outfielder pitched excellently for Cleveland after his first starting assignment last July 31.

Best darkhorse National League team—Pittsburgh which with top-grade talent brought from the Dodgers, and with Pitcher Bob Chesnes and Catcher Eddie Fitzgerald from the Pacific Coast, will provide good material for its promising new manager, Billi Meyer. Meyer, with Kansas City last year, was the best pilot in the minors.

Best darkhorse American League team—Cleveland, Which has the young players and perhaps the pitchers to go with Bobby Feller.

National League most valuable player—Ewell Blackwell, the "miracle whip" of Cincinnati, who could win 30 games if his team gave him hitting support.

American League most valuable player—Manager Lou Boudreau of Cleveland, who already has succeeded Marty Marion of the Cardinals as "Mr. Shortstop" of baseball.

Most squarely on the spot—Marse Joe McCarthy, coming out of retirement to manage Boston's Red Sox, the team regarded by most experts as the American League flag winner.

Manager of the year—Eddie Dyer of the Cardinals, who has an excellent squad and a chance to sneak in for the National pennant while the emphasis will be on Brooklyn and the Braves.

Branch Rickey, the Dodger boss who last winter predicted flatly that his club would win the National pennant in '48 and who was delightedly surprised when it won instead in '47. Now, with Dixie Walker gone and with no improvement apparent in a wild, young pitching staff, the Dodgers are not a good bet to repeat.

Most inappropriate nickname—"Jolly Cholly" Grimm, the Cubs manager, who won't be happy until his club returns to first division.

Safest record on the books—Babe Ruth's all-time home run figure of 60, which even Johnny Mize and Ralph Kiner couldn't equal though they hit 51 apiece last season. If history repeats, they'll both drop off in the four-bagger department this year.

A two-man pistol team composed of one officer and one enlisted man at the NOA Training Unit, Camp Sumay desires matches with any two-man team on the Island. Call Webber at BO 6166.

Babe's Appearance Belies Reports

NEW YORK, Jan. 28 —(UP)— Babe Ruth, still suffering from an undisclosed ailment that has left him feeble and drawn, left the Neurological Institute of Presbyterian Hospital today after 17 days of confinement for what he said was a "relapse."

Hospital attendants said the all-time home run king was "feeling fine," but Babe's general appearance belied those words.

He had to be assisted through the lobby. When the door was opened leading to a limousine, which was to take him to his Riverside Drive apartment, the rush of cold air hit him full force and the once mighty Ruth drew back as if smitten.

Guam News

Guam, Marianas Islands Friday, January. 30, 1948

Marshall Accepts Changes to Aid Program

WASHINGTON, Jan. 29 —(UP)— Secretary of State George C. Marshall, bowing to Congressional criticism of his European recovery plan, indicated today he would accept some major administrative changes to dilute the State Department's control of the aid project.

But he balanced off that concession with the statement that he is still firmly opposed to any cut in the $6,800,000,000 fund requested by the Administration to carry out the program for the first 15 months beginning April 1.

Marshall said he had no particular objection to the recommendations of the Brookings Institution for appointment of a European recovery administrator with cabinet status and broad powers over the operation of the program.

The institution's proposals, made at the request of Chairman Arthur H. Vandenberg, (R-Mich.) of the Senate Foreign Relations Committee, would give the State Department jurisdiction in all foreign policy matters arising from the aid program, with President Truman as "umpire" in the event of dispute.

Marshall's original proposal which aroused hot criticism in both the Senate and House, called for a separate administrator to handle the program under direction of the State Department.

Iraq's Premier Saleh Jabr, Cabinet Resign

BAGHDAD, Iraq, Jan. 29 —(UP) Premier Saleh Jabr and his cabinet resigned tonight amid rioting and massive Nationalist demonstrations against a British-Iraq treaty of alliance which Jabr signed recently.

Police fired rifles and machine guns into excited crowds which pushed all traffic off Baghdad's ancient streets, the casualty toll, expected to run high, was not known.

After Regent and Crown Prince Emir Abdul-Ilah stepped to a radio microphone and announced Jabr's resignation, the demonstrators surged through the capital shouting, "long live the regent."

The regent had refused to recognize the military alliance, signed by Jabr at Portsmouth, Eng., Jan. 15. He said it "does not recognize the national aims of Iraq" and called Jabr home.

The demonstrations started last night when Jabr arrived, insisting that the treaty was satisfactory.

Today, as the demonstrations continued, he went to the palace and issued a statement, which was broadcast, warning that the government would use all means to restore law and order.

—March of Dimes—

MacArthur Only Man To Rid Government

CHICAGO, Jan. 29 —(UP)— General Douglas MacArthur, as a lifelong soldier, is the only person with sufficient knowledge of Army practices to rid the government of "military despotism," according to Lansing Hoyt, acting national chairman of the MacArthur-for-President clubs.

Hoyt charged in a radio address last night that the administration of President Truman has "built up a military junta appaling proportions."

"Its tentacles reach into all departments of government, especially the State Department," he said. "Congress passes any and all money bills this military clique wants enacted.

"They cannot be denied, even by Mr. Truman, but if MacArthur displaces Truman as president, we will have in the White House a military man who knows the Army from top to bottom."

PCL Starting Deal Of Uniform Operations

LOS ANGELES, Jan. 28 —(UP) The Pacific Coast League today prepared to embark on a uniform operations program that it hopes will some day lead it into major league status.

The league executives, in annual mid-winter sessions here, yesterday voted approval of Paul Fagan's 10-point program that calls for uniform operation and handling of all baseball clubs in the circuit and that points toward major league ball parks and personnel for every team in the circuit.

Today it is expected that the calm in the banks of the PCL moguls may be shattered as an attempt is made to take an additional step toward full manhood in the loop as the Charley Graham proposal asking for an "arbitrated" price on stars drafted for the majors comes up for discussion.

Graham seeks support on a plan that will have a committee including one man from the major leagues, one from Commissioner A. B. (Happy) Chandler's office, and another from the PCL decide on the final draft price for a player from the coast circuit.

—March of Dimes—

Niland Coach at Alma Mater

BUFFALO, N. Y., —(UP)— Joe Niland, former Canisius College basketball star and assistant cage mentor, tonight was named head basketball coach of his alma mater for the duration of the present season following his resignation as athletic director and basketball coach at Cannon College in Erie, Pennsylvania.

Churchill Asks For Big Three Conference

LONDON, Jan. 29 —(UP)— Winston Churchill wants the Big Three to sit down at a conference table and hammer out a realistic agreement that will bring an "understanding" with Russia and guarantee peace to the world, a source close to the wartime prime minister said today.

Demands Showdown

This highly authoritative source said Churchill's demand in his Commons speech last Friday for a showdown with Russia was, in effect, a call for another meeting of the Big Three—Premier Stalin of Russia, Prime Minister Atlee of Great Britain and President Truman of the United States.

It was disclosed that Churchill told a group of conservative party leaders after the speech that what he really wanted was a round-table bargaining session with Stalin.

He also wanted, the source said:

1. A definite "yes" or "no" from Stalin on whether Soviet satellites intend to cut off their aid to Greek guerrillas and quit fomenting unrest along Greece's borders.

2. A positive assurance that the Cominform—the Communist International Information Bureau—will not extend beyond its "legitimate" sphere in Red-dominated eastern Europe.

3. A clear-cut "understanding" with Stalin—a flat statement of intentions by east and west that will permit construction of a stable world peace.

Martial Law Declared in Bolivia

LA PAZ, Bolivia, Jan. 29 —(UP) Martial law has been declared throughout Bolivia as a result of the "revolutionary plot" discovered by the government four days ago, President Enrique Hertzog said tonight.

Hertzog said that, although there have been no violent outbreaks anywhere in the country since police overwhelmed the Revolutionists last Friday night, the government considered martial law necessary to safeguard democratic institutions.

The President promised that there would be no censorship either of newspapers or the radio. He said that foreign correspondents would be given complete freedom to report developments.

A government communique said that martial law had been declared to prevent development of "the dark plot against the security of the state," (hatched) by Nazi-fascist elements."

Hertzog charged Saturday that the Fascist National Revolutionary Movement (MNR) was responsible for the plot. The following day, Victor Paz Estensoro, exiled leader of the MNC, denied in Buenos Aires that his organization had plotted to overthrow the government.

American Ship Blocked From Tel Aviv

JERUSALEM, Palestine, Jan. 29 —(UP)— British authorities tonight ordered an American ship anchored off all-Jewish Tel Aviv to sail to Haifa for a thorough search of its 600-ton general cargo, which was suspected of including war materials for the Jewish Haganah army.

The ship, the American Export Lines freighter "Exford," sailed into Tel Aviv harbor this afternoon.

Mayor Eliezer Perelson of Tel Aviv protested to British authorities and was informed all American ships would be diverted to Haifa from now on.

The Exford's master refused to whether he was aware the ship carried contraband arms and ammunition.

A reliable source said the British inspection order was based on an agreement with American officials, presumable negotiated after United States authorities discovered 65,000 pounds of TNT on a Jersey City dock just as it was about to be loaded into the hold of another ship of the American Export Lines.

COMMAR HILL—Majuro atoll was hit by excessive tide action, heavy swells and high winds during the last four days causing considerable damage, according to word received here yesterday from the Atoll Commander, Majuro.

Two dependent houses and one barracks were reported completely destroyed and severe damage was reported to several other buildings. All four road causeways on Majuro were completely gone, the report said.

A request for urgent assistance was sent to CinCPacFlt by the Atoll Commander.

'Beaver State' Brisbane Bound

HARMON FIELD—Departing last Thursday was the aircraft "Beaver State," under the command of Lt. Col. William R. Calhoun, of the 6th Troop Carrier Squadron, pilot, and Capt. Woodrow W Yarborough, of the 374th T.C. Group. HQ., copilot, with approximately 24 Australian nationals bound for Brisbane, Australia.

Leaving Saturday under the command of Col. Ralph C. Rockwood, chief of staff MARAMA, pilot, and 1st Lt. Frank Pugliese Jr., of the 374th T.C. Group, on the second flight to Australia will be approximately 46 persons, 34 of which will be Australians.

The third and final flight will be made at some time in the near future. The first flight will consist of personnel who have served only six months at Harmon Field, while the later flights will include personnel who have served as long as twenty months.

Weather Forecast

Partly cloudy with scattered moderate showers. Winds, moderate easterly with occasional strong gusts.

Yesterday's temperatures: Max. 85; Min. 77.

Yesterday's rainfall: 0.06 inches. Rainfall for month: 8.61 inches

Congress Has Failed to Act Says AFL

MIAMI, Fla., Jan. 29 —(UP)— Leaders of the American Federation of Labor today demanded that Congress immediately grant President Truman authority to control prices and warned that it already was to late to prevent a country-wide demand for wages increases in the spring.

William Green (AP Photo)

AFL President William Green said the federation leadership would prefer an immediate roll back in prices to a general wage rise but predicted "a demand for wage increases across the country" because Congress has failed to act against the rising cost of living.

The 15-member executive council in its annual winter meeting here, unanimously approved a statement declaring that "the American people cannot endure this cruel economic squeeze indefinitely," and urging a four-point program of immediate action:

1. Grant of authority to the President to impose rationing and selective price controls on vital necessities which threaten to fall into short supply.

2. Enactment of an excess profits tax to discourage "indiscriminate profiteering."

3. A sweeping Congressional investigation into the "vast and unjustified spread between the price the farmers receive for the product and the prices consumers are forced to pay." This spread frequently ranges from 100 to 200 per cent, the statement said.

4. Extension of rent control "under terms which will permit fair returns to owners of homes and buildings."

—March of Dimes—

Premier Schuman Calls For National Assembly Debate

PARIS, Jan. 29 —(UP)— Premier Robert Schuman, with his government in the balance, called tonight for a full-dress debate in the National Assembly on his new monetary program which devalued the franc, and proposes to legalize trading in gold and forgive Frenchmen who are hiding their foreign assets.

Schuman cut the value of the export franc nearly in half by decree yesterday, but the rest of the program, which had to go before the Assembly, met a wave of determined opposition.

Legalization of gold trading and the "amnesty" to assets hinders were cornerstones of the entire devaluation, anti-inflation scheme. But the finance committee of the Assembly, rejected them 21 to 14, with one abstention.

The Socialists, who have always supported the popular Republican premier before, deserted him today. They joined the Communists in the committee in voting "no."

—March of Dimes—

Attempt to Kidnap Jewish Cop Foiled

JERUSALEM, Palestine, Jan. 29 —(UP)— A daring attempt by 20 masked members of the Extremist Stern Gang to kidnap the popular Jewish police superintendent of Tel Aviv was foiled today by his neighbors.

The Sternists stormed into superintendent Shlomo Rozenstein's home, prodded him with pistols and ushered him to a waiting truck.

Just as he was being forced into the truck, Jewish neighbors, shouting, "if he goes, you can take us, too," rushed out and clung to the gunmen. Other neighbors, meanwhile, telephoned police.

As several armed cars rushed toward the scene, the Sternists scattered, abandoning their truck. Reliable sources said they planned to abduct Rozenstein because they believed he was connected with the British criminal investigation division.

Rozenstein, highest police official in Tel Aviv, was appointed when British police were withdrawn from the coastal area.

Headline Highlights

FRANKURT, Germany, Jan. 29 —(UP)— A C-47 transport plane is missing between Marseille, France, and Trieste with 12 persons aboard, including three American women and five children, the U.S. Air Force announced today.

WASHINGTON, Jan. 29 —(UP)— House Republicans set up machinery today for quick passage of their $600,000,000 income tax cut bill, and left the Democrats with only one long-shot chance of killing it.

WASHINGTON, Jan. 29 —(UP)— Some 738 government employes were identified by Secretary of Agriculture Clinton P. Anderson today as traders on the commodity markets. They included one Senator, the secretary of another, the U.S. ambassador to Argentina and an economist on President Truman's council of economic advisers.

COALINGA, Calif., Jan. 29 —(UP)— A twin-engined DC-3, chartered to carry deported Mexican workers back to their homeland, lost a wing in mid-air today and crashed and exploded near here, killing all 32 persons aboard—including 28 Mexicans, an American crew of two men and a stewardess and a U.S. Immigration Inspector.

NABLUS, Palestine, Jan. 29 —(UP)— Suleiman Abul Bey Taukann portly mayor of this Arab resistance capital, predicted today that Arab-Jewish clashes would lead to a third World War, with Russia possibly allying herself with the Zionists.

3,000,000 on Food Strike In Germany

BERLIN, Jan. 29 —(UP)— The American-British zones of Germany were confronted tonight by strike threats of an estimated 190,000 German workers, potentially the most serious labor trouble since the occupation began.

Some 3,000,000 Germans in the Ruhr, the heartland of industrial Europe, have threatened to strike on Feb. 2. Their leaders will meet Saturday to decide whether the strike will be carried out. The reason for all threatened strikes is the same—lack of food.

A strike of about 1,000,000 workers has been tentatively scheduled for Friday night in the American-zone state of Wuertemberg-Baden. German labor leaders called a general strike of 190,000 engineering transport and textile workers for Feb. 3 in Hannover to protest a cut in the fat and bread ration in the Niedersachen District.

The official Soviet Army newspaper Taeglihe Rundschau in Berlin announced that the "Soviet military government is now beginning control accomplishment of (Marshal Vassily) Sokolovsky's order 234." That order raises all production levels in the Soviet zone.

—March of Dimes—

Greek Guerrillas Using Submarines

ATHENS, Greece, Jan. 29 —(UP) Minister of public order Costas Centis said today that his department had received information that guerrillas were using two submarines to transport personnel and to help exiled Communist leaders escape from remote island prisons.

Centis said he believed that the submarines aided in the recent escape of two exiled Communist leaders from Mikaria Island, 130 miles east of Athens in the Aegean Sea. One of the escapees was identified as Dimitri Partsalides, former secretary-general of the outlawed National Liberation Front.

Deputy Prime Minister Constan-"foreign powers" had supplied Greek guerrillas with two submarines which were being used to transport Communist leaders from southwest Greece to Adriatic ports via the Ionian sea.

Teachers' School Opens on Majuro

MAJURO —— Monday, January 12, marked the opening of the 1948 term at the Marshallese Teacher Training School, which had been founded with the establishment of the Military Government Unit, Majuro, in December, 1946.

With Mr. Ben Kesler as new Educational Administrator, the faculty is composed of former M.T.T.S. board members, consisting of Dwight Heine, Supt. of Schools, Majuro District; Maas Hone, Principal, M. T. T. S.; Ajildrik, storekeeper; and Barimeus, superintendent of buildings and grounds. Mrs. Herrick, Mrs. Pararo and Mrs. Smith shall also take an active part in the school's administration as teachers and school office manager, respectively.

Morning classes are held six days a week, with four days a week devoted to afternoon classes.

Not all new term students have yet arrived, and Kwajalein District has been asked to send twenty candidates to fill vacancies. Of the 57 faculty members and students at the school, several are slated for teaching positions in outlying islands as soon as adequate transportation is available.

Harmon Post Exchange

HARMON FIELD—Capt. Harold N. Borger, newly appointed officer in charge of the Harmon Field Post Exchange, says, "The exchange personnel are working towards making the branch number two, one of the finest in the locality."

Despite their acute lack of personell, 1st. Lt. William E. McManus, former officer in charge, has supervised the Harmon exchange staff in many noticeable improvements. In an interview Capt. Borger stated "with the anticipated increase in staff allotment, added storage space, and improved exterior furnishings and parking facilities, an increase in exchange patronage may be expected." He adds, "The installation of soft drink machines in squadron dayrooms, and popcorn machines in the Harmon Oasis Club, will make more refreshments available to all personnel."

THANK YOU ADMIRAL—Pat Powell, civilian employee of the 14th Naval District Training Aids, Office receives the contribution of Admiral D.C. Ramsey, USN, Commander in Chief Pacific and US Pacific Fleet to the "March of Dimes" infantile paralysis fund at his headquarters. Miss Powell is a recent newconer to the Island from Overton, Texas. Science Steps Up War on Insects

LONDON —(UP)— The dinosaurs had their day, 60,000,000 years ago, and fishes theirs, millions of years before that. Mammals had a golden age and today is the age of man, the highest mammal.

Many seers, professional and otherwise, have predicted that the next form of life to take over will be the insects. Only man's intelligence, so entomologists believe, stands between the decline and fall of mankind and the rise of bugs.

Dr. V. B. Wigglesworth of Cambridge University, one of Britain's outstanding entomologists, told a BBC science survey audience, reassuringly, that scientists are doing their best to provide more efficient weapons in the struggle against insects. The basic element for eventual success, he warned, is knowledge.

"In the practical art of killing insects," he said, "there comes a time when we find that our basic capital of knowledge is exhausted. It is the pure sciences which provide that working capital."

New fields of inquiry are being opened up, Wigglesworth said.

"How does DDT kill? Why does it lose its action if there is a very slight change in its molecule? Can we devise insecticides that kill our insect enemies, but spare our friends? Are there any insidious changes in the balance between friends and foes as the result of using insecticides over a period of years."

——March of Dimes——

HARRISBURG, Pa.—(UP)—Adm. Oliver H. Perry's flagship, the Niagara, has her champions.

A dozen old salts along the Atlantic seaboard offered to do the job after word got around that the Pennsylvania Historical and Museum Commission lacked bidders for a contract to rig the ancient warship that made naval history in the battle of Lake Erie, War of 1812.

The ship, being restored at Erie, Pa., is awaiting finishing touches to its superstructure.

Harmon Women Meet

HARMON FIELD—The Harmon Field Women's Club held its frist meeting 20 Jan. 1948 at the Harmon Field Officers Club.

During the meeting the election of officers was made with the following results: Mrs. R. C. Stephany, president Mrs. R. E. Morrison. 1st vice president Mrs. L. E. Alexander, 2nd vice president; Mrs. T. B. Hoxie, recording secretary; Mrs. D. Blae, corresponding secretary; Mrs. R. L. Janes, treasurer; Mrs. R. L. Livingston, vice treasurer.

Mrs. E. L. Worley, former president of the Air Force Women's Club of Guam, presided over the business session of the meeting. She was assisted by Mrs. R. E.

Doctor Transplants Human Teeth

SAN FRANCISCO —(UP)— Transplantation of human teeth from one jaw socket to another has been acomplished for the first time in recorded medical history, a California dentist said recently.

Dr. Harold Apfel of San Pedro said he had transplanted teeth of 33 patients—with only two failures.

Six of the patients have solid, newly grown teeth on which they have been chewing for more than a year, Dr. Apfel said. Twenty five others have transplanted teeth in various stages of growth with *every hope that they will be entirely successful.*

"Buds" of Wisdom Teeth Used

Dr. Apfel told the second annual meeting of the University of California dental college alumni association that his process consists of transplanting the "buds" of wisdom teeth to fill the gaps left by the loss of regular first molars. At present it is successful only on patients between 12 and 19 years of age.

He said although these are the first recorded cases of human transplantation, other experimenters have succeeded in transferring tooth buds from one animal to another. In most cases, however, the teeth failed to take root.

The tooth buds are "seeds" about the size of a match head. They are dug out from deep down in the jaw socket and then placed in the socket from which a first molar has been extracted. This makes the new tooth part of the same living system.

Benefactor Brings Lovers Together

NEW YORK —(UP)— Pvt. Harold Sims of Decatur, Ill., finally got his Italian fiancee off the Ellis Island immigration station and made plans for a wedding.

The girl, Renato Lenardo, had been held on Ellis Island since she arrived by boat December 23 because her visa had expired. Sims had spent all his money to pay her passage here, and was unable to raise the $500 bond so that she could be released and married.

An anonymous businessman in Decatur heard of Sims' plight and put up the bond sending it to New York through the Red Cross. Sims furnished the bond and the girl was released.

HQ. 20th AIR FORCE—Conducting a routine inspection of Air Transport Command Activities, Brig. Gen. Bob Nowland (right) Commanding the Pacific Division of ATC, was met by Brig. Gen. Ivan L. Farman, commander of ATC's Western Pacific wing, General Nowland has just arrived at Harmon Field, Guam, (20th Air Force Photo)

Two Circusmen Mauled By 'Killer' Lion

MACON, Ga. —(UP)— A lion attacked a tamer and another circus man who entered his cage recently and the two men were saved from death only when another employee killed the lion with a shotgun.

Condition Serious

Hospitalized and in reported serious condition from the mauling were lion tamer Joe Cook, of Cincinnati, and Stéve Fanning, circusman, of Milton, Wis., both employed by King Brothers Circus which is in winter quarters here.

The two men had entered the lion's cage to exercise the animal when it attacked them.

Enoch Bradford, of Gastonia, N. C., who was standing nearby grabbed a shotgun and killed the lion.

Floyd King, owner of the circus said the lion had previously killed two of its trainers and was regarded as a "killer."

When Salesmen Meet, Somebody Gets Sold

DUCAN, Okla. —(UP)— When two salesmen meet, let every fast word look out for itself.

Citizens are telling the story of a pot and pan salesman who called on a former Duncan resident in Vallejo, Calif., to sell her some aluminum ware and ended up in the Army Aid Force.

The woman's husband, M-sgt. Gilbert Gallagher, an Air Force recruiter at Hamilton, Field, led the pan salesman off to a uniform.

Betty Grable Has 'Most Perfect Feet'

HOLLYWOOD —(UP)— Betty Grable has movietown's most glamorous legs, but she also has its most perfect feet.

Bunny Gardel, who makes up all of Miss Grable below the neck that isn't governed by her gown, says it's a shame that nobody has ever looked that far.

"I've made up hundreds of pairs of feet in my time, but I've never seen a pair as perfect, as cute and pretty as Betty's," Miss Gardel said.

"They're perfectly shaped and so flexible she can spread her toes as freely as her fingers."

In these days of corns, callouses and bunions, Miss Grable's feet are as flawless as her face. Miss Gardel found no blemish when she primped Miss Grable's feet for the scenes in 20th Century-Fox's "The Lady in Ermine," in which she dances barefoot.

The body mukeup girl's praise of Miss Grable's tootsies is echoed by the artist Christian von Schneiday, who was commissioned to paint two life-size portraits of Miss Grable, ermine-coated and barefooted.

Von Schneiday has won 35 first prizes and gold medals for his portraits and is listed in "Who's Who in American Art" and "Who's who in International Art.'

"The Grable feet have no distortion; they are perfect in line, form, strength, spring, gracefulness a character," he announced.

They sure are, Miss Gardel said.

"Chiropodists ought to get wise to themselves," she said. They're always naming 'perfect' feet but they've never mentioned Mis Grable's.

"I guess it's either because she never needs their services, or because the chiropodists are too busy admiring her legs to look at her feet."

New Officers Arrive At MarBo Command

MARBO——Ten officers of the Adjutant General's Department arrived at MarBo during the past week.

A reception and dinner were given in their honor by the Adjutant General Department officers on duty at MarBo.

Lt. Col. R. H. Morris, assistant adjutant general, acted as the master of ceremonies.

In this picture Lt. Col. N. J. Safourek is shown with Capt. H. S. Janowiak and Capt. Arthur Greenberg and Lt. Col. Morris.

BARRIGADA —— Mr. and Mrs. B. P. Carbullido of Barrigada Village announced that their daughter, Miss Defina B. Carbullido is to become the bride of of Ensign William E. Luck (SC) USN, *tomorrow, January 31, 1948.*

The wedding will be solemnized in the San Vicente Church, Barrigada, by Father Raymond at 10:00 a.m.

Miss Defina Carbullido was selected "Miss Guam" last summer in an Island wide beauty contest. Delfina is a senior at the George Washington high school. Her father, B. P. Carbullido, is a member of the Guam Congress and principal of Barrigada school.

Ensign Luck is the son of Mr. and Mrs. W. E. Luck of 708 Hillsboro Street, Raleigh, North Carolina. He is a graduate of the Needham B. Broughton high school of Raleigh and studied at the University of Virginia, University of Pennsylvania, and at Harvard University, where he majored in business administration.

Higher Education For Masses

CLEVELAND —(UP)— Contrary to popular belief, government subsidy of veterans is not the main cause of high college enrollment, but only a contributing factor, a memorandum prepared by the late president of Fenn College two days before his death said.

Surveys show the average veteran would have entered college anyway, Dr. C. V. Thomas said. He pointed out that going to college is becoming part of the social pattern, becoming contagious and likely to be as common as secondary education once was.

"For the first time in history, the world is witnessing the beginnings of an experiment in higher education for the masses. It behooves educators then to guard zealously the great experiment that somehow has fallen abruptly into their hands, because only America will have this opportunity," Dr. Thomas said.

Hollywood to Aid Philippine Producers

MANILA —(UP)— Establishment of United Philippine Artists (UPA), Inc., which plans to produce motion pictures in the Philippines with the aid of experts from Hollywood, was announced by Frank J. Courtney former United States Naval officer.

Courtney, vice president in charge of public relations of the new firm, announced that the chairman of the board is Judge Mamerto Roxas, brother of the president, while the vice president is Marcial Lichauco, government corporate counsel. The president is Herman Yaras, head of two film comapnies.

Production is scheduled to begin early next year, according to Courtney, who said the company's plans called for the production of at least 28 pictures annually. The films will be distributed both locally and abroad.

The company's vice president in charge of production is Sidney Salkow, writer-director from Hollywood.

Inflight Kitchen For Harmon Field

HARMON FIELD — Air Transport Service, 1537th AFBU, at Harmon Field has a new structure of which they may be very proud. Nearing completion is the new inflight kitchen which will prepare all the food served in flight by transient aircraft and all assigned aircraft using Harmon Field and ATS terminal.

Equipped with the latest messing facilities the kitchen will be able to prepare the variety of food required by traveling civilian and military personnel alike.

The inflight kitchen is located on Harmon Field flight line near the ATS terminal and is easily accessible to the servicing crews when making ready for flight.

Capt. Erwin H. Arthur, of Ft. Worth, Tex., the ATS food service supervisor, is confident that with the addition of the inflight kitchen, air travel will be more comfortable for all personnel. This is especially true of dependents who might consider air lift.

"Mid-Pacific Post Number 1 of the American Legion and the Ladies Auxiliary will hold a March of Dimes dance at the Fleet White Hats Club at Hoover Park at 1930, Saturday, January 31, for men's attendance will be strictly limited to members of the American Legion and Veterans of Foreign Wars. No other men are invited. Admission: $2.00. Ladies Free." 31

Sports Beat

by Bob Crosley

There is a short subject showing at the Navy theatres around the Island that should be of great interest to all sports fans.... It's a round by round movie of the All Navy boxing finals held last June in San Diego....Two local boys, Johnny Kamber and William "cookie" Cook, are in it....It will give ring addicts here an idea why everyone said Kamber got a raw deal in the bantamweight finals and why George Dissinger, NEWS correspondent, wrote the columns he did after he got back....It will show at the Medical Center tonight, Yards and Docks Saturday night and Sunday at Marine Barracks.

Still on boxing. . . .It certainly was a surprise to us and no doubt to everyone else who has seen him fight when word came back from Hawaii yesterday that George Crump had been defeated in the semi-final round of the Army tourney in Honolulu. . . .After seeing him fight in the Golden Gloves here and in Tsingtao in December, we were confident that he would win the featherweight title in Honolulu. . .Even though it is a tough break for George, it may be a boon for local fans in the form of a return match between Crump and Johnny Kamber. . . . You remember Crump scored something of an upset by winning over Kamber in the semi-finals of the Golden Gloves. . . . . .Kamber has been wanting a rematch ever since, but almost as soon as the Golden Gloves team returned from China, MarBo's squad shoved off for Hawaii. . .Had Crump won the Army meet, he would have gone on to Chicago for the Army finals, and in that case would not have been back to Guam for several months. . . .As it stands now, there is a good chance that he will be here in time for the February 18th smoker at ComMar. . . . .Johnny has already agreed to fight Crump then if the MarBo squad returns in time. . . . .It will have to come off soon, the All Navy eliminations will be under way late in March.

Three letters have come in so far with opinions on the Rocky Graziano case. . . .One from Chief Jack Degman blasting the Rock and two from civilian workers on the Island making light of his misdeeds. . . . Let us know how you feel about the case. . . .We'll publish the best letters for both sides and see whether the majority of fans is for or against him.

Back again to the ComMar smoker. . . .It looks like the long-awaited fight between Hiner Thomas and Leo Mathews might be on the card the 18th. . . . .If the MarBo squad get here in time there might also be a rematch between Huchie Herbert and Bill Burke—depending on what kind of shape Burke is in.

Cromwell's Life Governed by Love Of Speed

LOS ANGELES, —(UP)— A love of speed dominates the life of Dean Bartlett Cromwell, the new head coach of America's track and field team in the 1948 Olympic Games.

After 39 years as head track coach at University of Southern California, Cromwell is just as appreciative today of a record-breaking performance in any field of athletics as he was back in 1895 when he first participated in competitive sports.

Always grinning enthusiastically over what he sees, he may be found at an air race, a high school track meet or at Santa Anita Race Track praising a fast performance.

His love of speed in the past found expression in the owning of a garage back in the days when automobiles were curiosities rather than means of transportation. He was a bicycle-riding champion himself and his cronies included auto race drivers, motorcycle pilots, airmen and thoroughbred trainers.

Cromwell, usually wearing a bow tie, is a congenial spectator at sports events of every description, drawn by his love of athletics. His spry actions lead many to believe him far younger than his 68 years.

As a coach he is not of the slave-driver type. He prefers to let his proteges develop their natural abilities with a minimum of whiplashing. He says a coach is wrong when he tries to change an athlete's form; he should help the boy improve the form that comes natural to him.

The key to Cromwell's success as a coach, he says, is encouragement.

"You're good," he tells his students. "You're competing on a great team, so let's have a championship peformance."

And Cromwell, after using that system for 39 years, has no intenand field coach of the Olympic tion of changing it as head track team.

Little Approached by Yale

NEW YORK, Jan. 28 —(UP)— Lou Little, Columbia's distinguished football coach, revealed today that he had been approached by Yale authorities as a likely successor to Howie Odell, who quit last week to become head coach at the University of Washington.

Another smoker is being arranged for ComMar, for the 18th of February. Any fighter interested in fighting contact Lt. Borcykowski at ATlantic 3149. These smokers are intended as tuneup fights for the All Navy eliminations coming up in March.

More MarBo Fighters Out Of Army Tourney

MarBo ring fans received bad news yesterday that three more of their fighters had been eliminated from the Army Inter-command tournament in Honolulu, among them George Crump, the boy tabbed most likely to succeed in the Pacific-wide meet.

Only the barest facts were received and all that is known is that Bussle of Hawaii decisioned Crump in the featherweight semi-finals.

Oscar Hollin, MarBo lightheavy champ lost a decision to Nelson of PhilRyCom and John Meatoga lost by default to Williams of Japan.

Outlaw Players Willing To Return Conditionally

HAVANA, Cuba, Jan. 28 —(UP) Tomas De La Cruz, president of the Latin-American Baseball Players Association and former Cincinnati Reds pitcher, said today that "outlaw players are willing to return to organized baseball" provided that American clubs respect their original contracts.

Players who had "jumped" to the Mexican and Cuban "outlaw leagues" had been suspended for five years organized baseball by Commissioner A. B. Chandler.

De La Cruz, a Cuban, said that the players were very thankful to the Mexican and Cuban leagues which granted them a haven.

PITTSBURGH, Jan. 28 —(UP)— The Pittsburgh Steelers of the National Football League today announced the signing of Steve (Chop) Suhey, outstanding guard of Penn State's unbeaten 1947 grid squad.

All Star Quint Takes Easy Cage Victory, 63 to 24

After a slow start, Guam's All Stars breezed to a surprisingly easy 63-24 victory over the 22nd Station Hospital team last night on the ComMar court.

The All-Stars, prepping for the coming Western Pacific cage tourney, used all of the 15 players on their roster in the rout of the MarBo Interim League champs, experimenting with several combinations, and, despite the impressiveness of the score, failed to find a group that worked as well as Navy fans had hoped.

Dead Eye

It was the dead eye and flawless rebounding of Marine Barracks Larry Horan that turned the game into a rout. The speed that the locals are planning to use to combat the tall China team was anything but blinding. Horan racked up 26 points in sparking the attack.

The first quarter was a nip and tuck battle with both teams scoring only nine points over the entire ten minute period. A new team, composed of Horan, Squires, Morgan, Marlowe and Cook, started the second period for the Navy and within a matter of minutes doubled the score and made it plain that the outcome was not in doubt. Horan was the boy who started things off; Squires added a couple and from there on it was strictly no contest.

The hospital lads gave a good account of themselves early in the game, but their squad of only nine players was soon too tired to keep up the pace set by the constantly fresh Navy teams.

Boxing in America Doing Its Part For Food Shortage in Europe

NEW YORK, Jan. 29 —(UP)— American boxing is doing its bit to lessen hunger and poverty in foreign countries by importing big bozos with terrific appetites and empty pocketbooks to fight over here—or try to.

The current meat shortage in this land may have been caused partially by the inroads made upon steaks and chops by the heavyweights who were herded to this country during the last six months.

Take for example Gino Buovino of Bri, Italy.

Official Heavyweight

When Gino, the official heavyweight champion of Italy, landed at New York five months ago, he scaled a meager 194 pounds and he was famished. Buovino went to work seriously with knife and fork, and within eight weeks he had bloated up to 220 pounds.

Manager Charley Johnston was horrified, not only at the butcher bills, but at Gino's appearance and condition. His heavyweight contender looked like a porker, and when he waddled into the ring one night against Herbie Katz at Coney Island, he fought like a pork-and-beaner.

Katz, fighting in his own backyard, held Bouvino to a draw.

This was too much for Johnston. Although Charley is president of the Boxing Manager's Guild, and although any statement he makes is regarded at least as semi-official, he screamed, "Marshall plan or no Marshall plan, Buovino must diet!"

Johnston cracked down among various curtailments was the edict that Gino must limit himself to one chicken at a sitting, instead of two—or three. Johnston's action was one of the severest blows Gino had received in or out of the ring.

A two-man pistol team composed of one officer and one enlisted man at the NOA Training Unit, Camp Sumay desires matches with any two-man team on the Island. Call Webber at BO 0166.

Seven Skiers Named For Competition Opener

ST. MORITZ, Switzerland, Jan. 28 —(UP)— Seven U.S. Olympic skiers, led by Captain Barney McLean of Denver, Colo., were selected today by Coach Walter Prager to carry America's hopes in the downhill and slalom competition of the 1948 winter games which start here on Friday.

Besides McLean, 30-year-old winner of the 1947 American Ski Trophy, the athletes chosen by Prager to compete in the downhill, slalom and Alpine events were: Bob Blatt of Palo Alto, Calif.; Dev Jennings, Dick Movitz and Jack Reddish, all of Salt Lake City, Utah; Steve Knowlton of Aspen, Colo.; and Colin Stewart of Hanover, N. H.

Gene Gillis of Bend, Ore., and Don Amick of Seattle, Wash., the remaining two members of the ski squad, were omitted from the competing teams because of injuries.

Settlement of Hockey Dispute Seen; Other Teams to Compete

ST. MORITZ, Jan. 28 —(UP)— Reliable U.S. Olympic sources predicted tonight that a settlement will be reached in the dispute over the American Hockey representative which will permit all the other U.S. teams to complete in the winter Olympics which open here Friday.

The prediction, the first hopeful sign that a solution to the controversy was being worked out, followed day-long conferences which left Avery Brundage, chairman of the U.S. Olympic committee, "optimistic" as to the outcome.

Brundage is striving to reverse the Swiss Organizing Committee's acceptance of the Amateur Hockey Association team as the official U.S. representative, and have the U.S.-O.C.'s team substituted. Failing in that, Brundage wants both teams barred.

The U.S. Olympic head remained adamant, however, in his position that if the AHA team is permitted to complete all other American athletes will be withdrawn from the games.

The American sources were confident that the full International Executive Committee would resolve the hockey dispute in a manner satisfactory to both the factions—the U.S.O.C. and the A. H. A.

—March of Dimes—

U.S. Ski Team Gets Break In Starting

ST. MORITZ, Jan. 29 —(UP)— The U.S. skiing team got an encouraging break in the draw for starting positions in the Olympic games 18-kilometer (11.2 miles) cross-country race today even though another two-foot snow prevented badly-needed practice sessions for the American athletes.

The earliest starting position drawn by a U.S. entry in the race was sixth, the spot drawn by Ralph Townsend of Lebanon, N. H.

24th Slot

The next American position was the 24th slot drawn by Gordon Wren of Winter Park, Colo. Don Johnson of Salt Lake City drew 32nd and Corey Engen of Huntsville, Utah, 79th.

The skiers, in the draw, wanted to avoid early starting positions.

Assuming the nightly snows continue, the first starters will be forced to cut a new track on the cross-country course.

Most of the favored Scandinavian countries ran into trouble in the draw.

Russian Magazine Criticizes Sullivan Trophy Awarding

MOSCOW, Jan. 28 —(UP)— The Russian magazine, Soviet Sports, today condemned America's 1947 James E. Sullivan Trophy award to Jack Kelly Jr., world champion sculler from Philadelphia, as "another example of racial oppression in the United States."

Soviet Sports said that the trophy, awarded annually by the Amateur Athletic Union to America's outstanding amateur athlete, should have gone to Harrison Dillard, Baldwin-Wallace Negro track star, whom the publication termed "perhaps the best hurdler in the world."

How can the preference given Kelly by the Sullivan committee be explained?" queried Soviet Sports. "The answer is very simple—Dillard is a Negro and Kelly is white."

—March of Dimes—

Two Unknowns Upset Riley, Kirk in Tourney First-Round Matches

MIAMI, Fla., Jan. 28 —(UP)— rose from a field of 120 golfers to Two little-known amateurs today knock Curtis Cup team members Polly Riley and Peggy Kirk from championship ranks in first-round matches of the 16th annual Helen Lee Doherty tournament.

Evelyn Odom of Miami defeated Miss Riley, third ranking medalist, one-up on the 22nd hole with a 15-foot putt.

Mrs. Eddie Bush of Wilmington, Del., downed Miss Kirk, twice a finalist in this star-studded tourney, one-up on the 19th hole.

The major upsets left little Louise Suggs of Lithia Springs, Ga., this year's medalist, a solid favorite for her third Doherty title. National Women's amateur champion, she easily handed a 7 and 6 defeat to Lee Bongart of Orlando, Fla., with steady par golf.

20,000 Chinese Reds Meet at Tsingtao Port

TSINGTAO, China, Jan. 30 —(UP)— More than 20,000 Communist troops reportedly were massed around this Shantung port and the U. S. Naval base today for an attack that might begin any time.

Intelligence reports to Chinese army headquarters said the attack was expected to develop before the Chinese new year, Feb. 10.

Unofficial sources speculated that the threatened Communist attack was one of the reasons Adm. Charles M. Cooke, commander of the U. S. fleet in the western Pacific, postponed his departure from Tsingtao until March 1.

Chinese observers claimed the Communists showed increasing signs of deploying for an all-out attack on important government positions in the entire Shantung peninsula, all considerably weakened by the transfer of large government forces to north China and Manchuria.

Government sources said the Communists already had opened probing attacks on the Tsingtao-Tsinan railway 35 miles west of Tsingtao. Fighting also was reported in the outskirts of Chefoo, once the most important Communist port and base on the peninsula.

A Communist siege was causing a serious food shortage in another government held north Shantung port, Lungkow, 25 miles west of Chefoo.

"Mysterious ships" flying between Ltaokeh and Dairen are running supplies into Communist areas, dispatches said. One Chinese paper, The Peoples Herald, claimed these ships were Russian and were running ammunition from the Soviet-held port of Dairen to the Shantung Communists.

U.N. Palestine Commission To Form Jewish Militia

LAKE SUCCESS, N. Y., Jan. 30 —(UP)— The United Nations Palestine commission agreed today to try to form a Jewish militia in Palestine "at the earliest possible date."

The militia, intended to maintain internal law and order, should be set up even before the British mandate in Palestine ends, the commission decided.

It appointed Vicente J. Francisco of the Philippines as a one-man subcommittee to carry on detailed negotiations with Great Britain and the Jewish agency, which already has promised the fullest cooperation in speedy mobilization of a militia of 30,000 to 35,000 men.

International Army

The commission also agreed to start discussing tomorrow the apparent need for an international army in Palestine. This international force would be in addition to the Jewish militia.

The commission completed today its first report to the council. Although it was not made public immediately, it was known to warn of approaching chaos in Palestine.

The UN General Assembly, in voting to partition Palestine into Arab and Jewish states provided that each of the new states would have a local militia.

Labor Leaders Call 24-Hour Food Strike

BERLIN, Jan. 30 —(UP)— Labor leaders of Wurttemberg-Baden state in the American occupation zone today called a 24-hour general strike for Tuesday to protest unjust distribution of food and clothing by the German administration.

All industry would be affected by the strike which was scheduled to begin shortly after midnight Feb. 3. Public utilities, vital communications, food suppliers and hospitals were exempted.

500,000 to Take Part

Labor leaders said that 500,000 workers would take part. Added to other strikes scheduled in the American-British occupation zones for the next week, Germany faced its most serious labor trouble with more than 3,500,000 workers scheduled to walk out in one-day demonstrations.

Labor leaders for most of the groups threatening walkouts emphasized that the strikers were not against the British and American occupation authorities but against German state administrations.

End of Nation-Wide Cold Wave Seen

CHICAGO, Jan. 30 —(UP)— The longest siege of cold since 1936 began breaking up today, easing slightly the heating fuel crisis in the north central states and brightening hopes for an end to natural gas shortages which idled thousands in heavy industries.

Gas shortages were reported in at least 16 states and parts of Canada. In many cities the gas heating situation still was critical.

Still Cold

Although relief was on the way, it was bitterly cold in many sections of the nation, and cold weather was expected tonight in eastern states, the Ohio Valley, Texas and Oklahoma. There was heavy snow in New Mexico, freezing weather in the Gulf states, a heat wave in Alaska, and drought and windstorms in California.

But a great mass of warm air—the first in two weeks was moving over the midwest and the U. S. forecaster here said the cold siege was broken. The "warm wave" will bring relief to southern and eastern states tomorrow, he said.

The mercury shot up by leaps and bounds in the midwest. It rose 50 degrees in 24 hours at Bismarck, N. D. from -25 degrees to 25 above.

It was estimated that shutdowns and layoffs in Detroit would cost production of 15,000 passenger cars and trucks this week.

Truman Asks Congress to Extend Rationing Powers

WASHINGTON, Jan. 30 —(UP) President Truman asked Congress today to extend at least until Oct. 31 his present temporary power to ration grain supplies to the distilling industry.

In a special message to the House and Senate, he warned that the United States may not meet its famine-export goal of 500,000,000 bushels of wheat this year without drastic conservation measures such as a compulsory cut in use of grains by the whisky-makers.

Expire at Midnight

His temporary allocation powers are scheduled to expire at midnight Saturday, unless extended by Congress, and the President said every effort to get the distillers to agree on a voluntary conservation program has failed.

The distillers shut down completely for 60 days ending Dec. 25, and have been operating under government allocation since then, but at several industry meetings they were unable to agree on a voluntary conservation program satisfactory to them and the government.

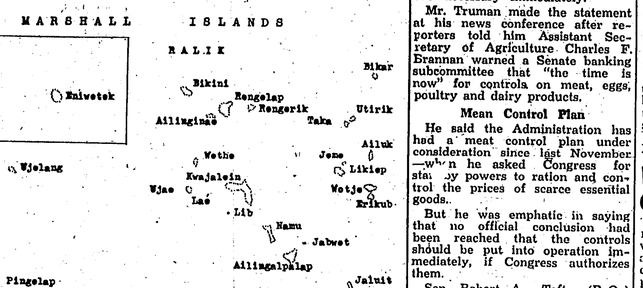
HQ 20th AIR FORCE, Guam, Jan. 30, 1948.—Arriving at Harmon Field at 1235 today aboard one of the 4th Emergency Rescue Squadron's B-17s, were two patients from the 338th Reconnaissance Squadron on Manus Island who required hospitalization and treatment in the 22nd Station Hospital here. One of the patients, Pvt. Donald MacDonald, of 5 Kensington Park in Roxbury, Massachusettes, was flown here for observation and treatment for an injury of the neck which he suffered yesterday afternoon when he fell from the cab of a truck, and the other, Cpl. William Runner, of 498 Chestnut Street in Philippi, West Virginia, is to be treated for an acute stroke of colitis which he contracted while serving on Manus. Neither of the patient's condition is critical, it was reported by authorities of the 22nd Station Hospital shortly after their arrival here. (AF Photo)

Weather Forecast

Partly cloudy with scattered light showers. Moderate easterly winds with occasional strong gusts.

Yesterday's temperatures: Max. 84; Min. 76.

Yesterday's rainfall: .09 inches. Rainfall for month: 8.70 inches.



The Atomic Energy Commission has requested notification of all activities of hazards in a danger area in the vicinity of Eniwetok Atoll, described by the boxed figure on the above chart. The length of this area extends from 160 degrees, 35 minutes east longitude to 163 degrees, 55 minutes east longitude, and the width from 10 degrees, 15 minutes north latitude to 12 degrees, 45 minutes north latitude. The area described in reference to radio communication will be considered by all far east command forces as a closed area, effective January 31, 1948 and continuing throughout the calendar year of 1948.

Navy Irked by Air Commission Report

WASHINGTON, —(UP)— The Navy is fighting mad about the treatment given its air arm in the report of President Truman's Air Policy Commission.

The Commission ratified to the last trainer plane the U.S. Air Force's proposals for peacetime strength. But it said the Navy is big enough and needs only modernizing.

Navy officers, reportedly do not like either the proposals regarding their air arm's size or the Commissions evaluation of their role in national defense. And they are be against proposed merger of the Air Transport Command and the Naval Air Transport Service.

They are likely to make their views known to Defense Secretary James Forrestal, who endorsed the report generally at a recent press conference, but indicated he had some reservations.

The Air Policy Commission, headed by Thomas K. Finletter, New York attorney, urged a five-year multi-million dollar build-up for the Air Force, a program which might well make that service the dominant branch of the national military establishment by 1953.

The Air Force then would have 12,400 modern planes, 8,100 more stored in reserve for an emergency and 401,000 men in uniform. The program would cost $3,900,000,000 more over the next two years than the Air Force now is getting in appropriations.

Despite the commission's recommendations, however, any request for increased appropriations appeared certain to collide with the Republican economy move in Congress. Because of the GOP pledge to trim President Truman's budget estimate, it was said, the Joint Congressional Aviation Committee may not go so far as did the Finletter commission in urging a larger Air Force immediately.

Administration Undecided On Rationing

WASHINGTON, Jan. 30 —(UP) President Truman, disagreeing with the stand taken by a high Agriculture Department official, said today the Administration has not yet come to the conclusion that rationing and price control of meat are necessary immediately.

Mr. Truman made the statement at his news conference after reporters told him Assistant Secretary of Agriculture Charles F. Brannan warned a Senate banking subcommittee that "the time is now" for controls on meat, eggs, poultry and dairy products.

Mean Control Plan

He said the Administration has had a meat control plan under consideration since last November —when he asked Congress for standby powers to ration and control the prices of scarce essential goods.

But he was emphatic in saying that no official conclusion had been reached that the controls should be put into operation immediately, if Congress authorizes them.

Sen. Robert A. Taft, (R-O.) chairman of the Senate GOP policy committee meanwhile revealed that the tentative calendar of legislative business for the next few weeks had no place for consideration of Mr. Truman's rationing and price control requests.

The Commanding Officer, Naval Operating Base, Guam, who will operate Asan Camp for civilian employes of the Navy announced that due to the shortage of operating personnel the camp will not open until about 20 February.

Headline Highlights

WASHINGTON, Jan. 30 —(UP)— The petroleum industry, acting swiftly on the heels of Justice Department approval, today called on its members to put into effect a 60-day outback in gasoline production and other conservation measures to meet the critical fuel oil shortage.

LONDON, Jan. 30 —(UP)— Pravda, official organ of the Russian Communist party, soundly rebuked Bulgarian Premier Georgi Dimitrov, one of the leading Communists of the world, today by criticizing a statement he made in favor of a federation linking satellite eastern European countries.

WASHINGTON, Jan. 30 —(UP)— House Republicans brought out their steamroller today to start the Knutson tax reduction bill on its way to the White House.

PHILADELPHIA, Jan. 30 —(UP)— Two well-dressed bandits, gaining entrance by a ruse, ransacked the second-floor apartment of Mrs. K. G. Lewis tonight and escaped with jewelry valued at $40,000 and $700 in cash.

Reopening Of U.S. Air Base Protested

LONDON, Jan. 30 —(UP)— The Soviet Union has formally protested to U.S. Secretary of State George C. Marshall the American plan to reopen the wartime airbase at Mellaha, Libya, as a violation of the Italian peace treaty, Radio Moscow said today.

The broadcast quoted a New York dispatch of the official Soviet news agency Tass which said the protest was lodged Jan. 21 in Washington by the new Soviet Ambassador, Alexander S. Panyushkin.

The Soviet Union pointed out that establishment of an American airbase in a former Italian colony, tempo under British jurisdiction, ected the peace terms, Tass ...

Russia claimed that the decision to reopen the airfield was reached by a joint Anglo-American agreement which the Soviet Union considered unlawful.

A similar note was sent to the British, Tass said.

War Criminal Commits Suicide

COMMAR HILL—Former Warrant Officer UA Misao Ajioka, convicted approximately a month ago and sentenced by a war crimes commission to twenty five years in prison for the atrocity murder of an British national in the Palau island group during the war, died Thursday afternoon at the U.S. Naval hospital here on Guam as a result of self inflicted throat lacerations.

He was a patient at the hospital prior to his suicide.

Ajioka was tried with former sergeant, Kiyoshi Yamada for the death of a British national, Charlie Smith, alias James Sally, on Babelthaup island in the Palau group. His was the second in a series of war crimes trials involving Palau island war atrocities.

His sentence would have been served in a Tokyo prison.

No Pink Tub For MacDonald Carey

HOLLYWOOD—(UP)—Paramount Pictures has finally made a movie in which Paulette Goddard gives, not gets, a bath.

The bath, trademark of a Paramount Pictures, this time goes to knobby-kneed MacDonald Carey.

A bath for a man was such a rare event that almost everybody in Hollywood came out to the "hazard" location to see it. There was Carey, wearing gray flannels and blue wool shirt, shivering on the banks of an icy mountain stream.

Miss Goddard stood by. She was the star of Paramount's last bath scene, peeking out from behind a blanket of bubbles in a pink-tinted tub equipped with telephone and radio.

Cold Dunking

Careys bath bore as little resemblance as a scouring powder does to scented toilet water. No telephone, no radio, no bubbles. The water, instead of being tenderly warmed, was freezing cold. Carey was holding two trout, ready for cleaning, while Miss Goddard stood behind him. She had welched on a bet; he is a private detective dispatched to collect the debt.

"Let's have some weeds," said George Marshall, the director. A workman ran in with tall shrubs and spotted them along the bank: Other men switched on some lights to help out the sun.

Marshall called for a take and while the cameras turned, Carey stooped over the bank with his trout. Miss Goddard took careful aim and knocked him right into the creek.

He came up bathed in weeds and soaked to the skin.

"Was it okay?" he asked between chattering teeth.

After showering in "Suddenly Its Spring," dunking in a barrel in "Unconquered," and bubble-tubbing in "Variety Girl," she said, it was high time somebody else around the lot was all wet.

Harmon Field Begins Ministry Class

HARMON FIELD — A preparatory class for several Protestant churches has commenced at the Harmon Field chapel to prepare young men for the ministry.

Preparing these men for entrance into college and seminary upon discharge from the service, the present instruction includes United States Armed Forces Institute (USAFI) courses in public speaking, psychology, and with individual speech practices and criticisms. Guest speakers will provide extra course material in Bible study and church history.

Currently participating in these activities are Sgt. Albert Morrow, of Hdqs and Base Service Sqdn; Sgt. Eugene A. Hetzer, of the 7th Signal Sqdn; Cpl. Leonard W. McKenzie, of 385th Avn. Sqdn; Cpl. William J. McCormik, of the 19th Air Repair Sqdn; Pfc. Fredrick Severin, of Hdqs. and Base Service Sqdn; and James R. Crouch of 1537th AF (ATS).

Chaplain John P. Fellows, with the aid of 20th Air Force and MarBo chaplains is urging all officers and enlisted men in this vicinity who are interested in the ministry, to apply now, by calling Chicago-2115.

The employees of the District Engineers Office at Guam will sponsor a March of Dimmes dance tonight.

This is a formal dance to be held at the Coral Castle Club at Camp Edusa. From the advance sale of tickets for the dance, the largest crowd of any dance on the Island may be expected.

BUSSES DELIVER MAIL—Another service recently added to those offered by the Guam Bus Line, is that of delivering the mail from the post office in Agana to the 16 sub stations in the various villages. Here the mail is loaded aboard the busses at Agana.

Cancer Takes Life of Experimenter

OMAHA, Neb.—Dr. Albert M. Harris, 35, who developed a simple and inexpensive test for discovering cancer, died of the disease recently without knowing that his own body had given a postive reaction to the test.

The test was announced last week in the South Dakota Journal of Medicine and Pharmacy. At the time of the announcement Harris was suffering from a magiignant brain tumor. He was brought to Clarkson hospital here from his home in Sioux Falls, S. D.

Used Test On Self

Dr. J. Keegan performed a minor operation on Harris for diagnosis purposes. He died a few days later. His friend and former teacher at the University of Nebrasa College of Medicine, Dr. J. P. Tollman, said Harris had been ill of the fast-acting cancer since the first of the year.

A month ago Harris used the test on himself. The result was negative. However, when he became ill and was admitted to Sioux Valley hospital at Sioux Falls, where he practiced, the test was made again. This time it was positive, indicating the possibility of cancer.

Associates at the Sioux Valley hospital said Harris never inquired about the outcome of the test and died without knowing it had proved sucessful in his own body.

Divorce Recommended

CAMDEN, N. J. —(UP)— Mrs. Ruth Doyle's husband was insulted when she served him with a steak less than an inch and a half thick, she testified in a Camden divorce court recently.

"He scrubbed my face and hair with the hot steak," she told Judge William R. Burton. "He said I should know better."

Burton recommended a divorce for the Gloucester, N. J., woman.

Navy Authorizes Civilian Award

A new civilian award for distinguished public service has been approved by Sceatry of the Navy John L. Sullivan for presentation to non-Navy employes.

Designated the Navy Distinguished Public Service Award, it will rank above Navy Bureau certificates and letters of commendation, but below the President's Medal for Merit and President's Certificate of Merit.

The new award will be made only to individual citizens who are not employees of the Navy, or who were not employed by the Navy during the period for which they are cited. To be eligible, a candidate must have demonstrated that his personal and direct contribution to the Navy produced tangible results which improved, expedited or clarified administrative procedure, scientific progress, work methods, manufacturing techniques, personnel problems or other factors implementing Navy policies and programs.

Chief of bureaus and offices of the Navy Department, the commandant of the Marine Corps and the commandants of Naval districts may nominate candidates for the award. Recommendations will be made by the Civilian awards board and approved by the Secretary of the Navy.

The award consists of a certificate, signed by the Secretary of the Navy and a lapel pin bearing the inscription, "Distinguished Public Service, United States Navy." The pin is blue and gold and the inscription borders a fouled anchor.

Oil Tank Theft

NORTH JUDSON, Ind. —(UP)— Max Bunn is stil wondering how anyone could have stolen a 550-gallon oil tank that he had to leave along a highway.

The tank worked loose from bunn's truck and he left it to go into town to get some help. When he returned with help, the tank was gone.

"Mid-Pacific Post Number 1 of the American Legion and the Ladies Auxiliary will hold a March of Dimes dance at the Fleet White Hats Club at Hoover Park at 1930, Saturday, January 31. for men's attendance will be strictly limited to members of the American Legion and Veterans of Foreign Wars. No other men are invited. Admission: $2.00. Ladies Free." 31

VALE, Ore. —(UP)— Mr. and Mrs. James Hawley have no worries about how to heat their home during cold eastern Oregon winters. A natural hot water flow near the Hawley home has been harnessed to pipe heat into the house.

Vicente T. Cruz

AGANA — Vicente T. Cruz announced yesterday that the Naval Government had issued him a license to operate a building and construction company.

This new company will be known as the Guam-Saipan Construction and Building Company, said Cruz.

Cruz, a member of the Guam Chamber of Commerce, a Rotarian and a member of the Guam Boy Scout organization committee, will maintain his offices in the Philippine Airline Building, Agana.

Cruz is widely known on Guam and since his return to the Island on Sept. 2, 1947, has been associated with the Pan-Asiatic Exporting Company as area sales representative.

Harmon Library Has Record Lending Section

HARMON FIELD — Under the direction of Miss Gloria Pearson, librarian, of Minneapolis, Minn.; Cpl. Ivy Barr, of New Orleans, La.; and Pfc. John J. Millard, of Germantown, Pa., the Harmon Field library offers literary recreation in the form of interesting publications of all types.

A feature attraction of the library is the record lending section stocked with recordings of many descriptions. The record section has approximately 2400 recordings which may be obtained in album form.

Equipped with a recording machine for playing records to prospective listeners, the library gives each person a chance to review the recording of their choice.

The book section of the library has been recently rearranged and decorated to present a very pleasing atmosphere. Rattan furnishings make the reading room a comfortable place.

Gaum BSA Discuss 1948 Activities

The Guam Council Executive Board, Boy Scouts of America, met at the scout office in Sinajana last Wednesday night, discussing important business connected with operation of the Scout Council for 1948.

The following committees were appointed by the president: Monsignor Oscar L. Calvo, to serve for the next twelve months, finance, Frank D. Perez, Chairman, Jose C. Manibusan, James B. Butler, Charles J. Elliott, Jesus Marcinus; Organization and Extension, Vicente T. Cruz, Chairman, Manuel A. Calvo, Joaquin C. Perez, Alfred W. C. Sablan, and Vicente C. Reyes; Advancement, Simon A. Sanchez, Chairman, A. T. Bordallo, Joaquin Torres, Marcial A. Sablan, and Pedro C. Santos; Leadership Training, Judge Francisco Lujan, Chairman, Enzrique L. G. Untalan, Cayetano Quinata, Manuel Lujan, John Taitano, Sr., and Major W. F. Stoll, USMC; Camping and Activities; Jose Guzman, Chairman, Alfred Flores, Andriano Calvo, Jose C. Aguon (Talofofo, John Martinez, John Taitano, Jr., George Franquez, and Bernardo Puzalan; Health and Safety, Fredrico T. Gutierrez, Chairman, Innocentio Afaguie, Rev. Paul Toschick, and Vicente P. Garrido.

Longe range planning of the council was indicated by the board's instruction to the Scout Executive to initiate contacts leading eventually to the appointment of a Guamanian to the office of Scout Executive of the Guam Council, upon the departure of the incumbent who will remain in his present capacity until January 1, 1950. The board's plan is to begin search for a suitable successor, and make arrangements for his training in the States, and for an opportunity to put in an apprenticeship first with a scout council in the United States and second as assistant executive to the prsent executive, Mr. E. C. Krapf, for at least a year.

Guam Girls Defy 'New Look' Craze

"Navy men don't like 'em long."

So says Phyllis Harvie, a civil service worker on Guam, with reference to the long "new look" skirts, which have the American women in a ditter.

"I see that the women are objecting, but still wearing those dresses," she relates in a letter home. However, "We girls on Guam have our own way of combating that," she said. "The new arrivals land and are met by girls in short dresses. We all go down to see a ship come in, just so we can laugh at the length of some of them.

"Fashion does not dictate on Guam," she concluded, but "the weather and men do do.

"We are going to stay on Guam until the hemline has gone back up."

A March of Dimes benofit dance will be held at Marine Barracks Commissioned Officer's Club tonight from 2000 to 2400. Dress; ladies optional; men, khaki or khaki with sport shirts. All officers and their guests are cordially in-

Enough's Enough

NEW YORK —(UP)— Mrs. Sophie Dobbs came up in traffic court three times on charges of impeding snow removal by parking her car near her home. She paid fines of $15, $10 and $4, respectively.

Last time up she said:

"This ends it. We've sold our car."

There's a select circle in baseball entitled the "exclusive 400." Don't know whether that's a secret organization among diamond greats or whether it's just a Thursday afternoon bridge club, but it's interesting to note that only a very few of the all-time baseball "greats" hold membership to the society.

In order to belong to his fraternity a big league ball player has to be mighty good with the swatter. It's not enough that he lead the loop in home runs; he has to account for 400 bases or more during the season. A round-tripper would account for four bases, a triple for three, etc. Such distinguished clouters as Mel Ott and Hank Greenberg never cracked the 400 figure, although both were always among the leaders in the home run department.

Two factors must be kept in mind in figuring the chance of a hitter reaching the elite circle. The aspiring batsman must not be hampered by receiving too many bases on balls, which rob him of opportunities to make hits. This item all but ruins Ted Williams' chances. It also hurt Ott and Greenberg. Babe Ruth, some punkins with the club, set the all time home run mark in 1927 but that year he too failed to reach the 400 total-base mark.

The other factor is that the batter must be at least a .300 hitter and preferably a .350 to .375 batsman. This means he must make 200 or more hits. No batter ever reached the 400-mark in total bases without making 200 hits. Williams never made 200. Neither did Ott. Ruth did only twice because, like the others, pitchers preferred to walk him rather than have the hide peeled off the ball.

The Ol' Iron Horse, Lou Gehrig, high priest of the "400 lodge," holds the major league record. Lou hit for 400 total bases in five different campaigns. In each he made more than 200 hits, walloped approximately 20 triples, and between 40 and 50 round-trippers and the same number of doubles. In other words, half of his total number of hits went for extra bases in each of those seasons.

The all-time total-bases record of 457 was established by Gerhig's fat brother, Babe Ruth, in 1921, the year he lifted 59 homers over the wall. Yet, in 1927, when he hit 60 home runs, he failed to make it.

How can it be? The difference was that in 1921, the Babe belted more than 45 doubles and ten triples. In 1927 these figures were very much less.

The most recent batsmen to crack the select 400 total-base circle have been Joe DiMaggio and Joe Medwick. Each did it in 1937.

Cards, Browns Already on Different Levels for Respective Flag Chases

NEW YORK, —(UP)— The St. Louis Cardinals and Browns, who probably will travel in opposite directions in their respective pennant races next season, were on different levels already in getting players signed up for the 1948 campaign.

The Cardinals, who usually had a bumper crop of holdouts under the regime of signin' Sam Breadon, were coming into line nicely under their new head man, ex-Postmaster General Bob Hannegan, who had signed seven of them in two days of negotiations.

Hannegan revealed that three regulars, Infielder Al (Red) Schoendienst, Catcher Joe Garagiola and lefty Pitcher Alpha Brazle, had signed up along with a rookie infielder, Tommy Glaviano.

Brazle won 14 games and lost eight last year with his "crawl ball," a slow pitch that maddens opposing batters, while Schoendienst batted .253 and Garagiola hit .257.

On the previous day, Hannegan signed up what may be his starting outfield for 1948, Terry Moore in center, Enos Slaughter in left and Charley Diering in right. The Cardinals still have to hear from such key men as Stan Musial, Marty Marion and George Kurowski, their other first string infielders, and from Pitchers Ken Burkhart, Howie Pollet, Murry Dickson and Harry Brecheen, but Hannegan indicated he expected no difficulty.

One big and wild rumor circulated all over town yesterday in which it was stated that Dickson and Burkhart had been sold to the New York Giants, but it was denied both here and in St. Louis

The Browns had a first class holdout on their hands in sad Sam Zoldak, who returned his 1948 contract unsigned from his home in Brooklyn "because those guys expect me to work for the same dough I made last year." He won nine games and lost ten last season for the highest percentage posted by any regular Brownie pitcher.

The Browns during the recent major league meetings admitted they had turned down an offer of $100,000 for Zoldak and Outfielder Paul Lehner, a hot rookie of 1947. Zoldak reportedly received $6,000 last year.

A despatch received from the USS Duluth CL-87 reveals that the Duluth basketball team has been chosen to represent China in the coming Western Pacific tournament on Guam next month. Fourteen men from the Duluth will leave Shanghai 13 February and will arrive on Guam shortly afterwards.

Buum Rallies All Stars to 34-32 Victory

Playing against their toughest competition in their practice games so far, the Guam All-Stars had to come from behind in the closing minutes to eke out a 34 to 32 decision over the towering 474th Signal Gamecocks last night on the ComMar court.

It was Bob Buum, reserve guard, who got up off the bench in the dying seconds of the contest to pull the Navy squad out of the hole with five quick points when the outcome looked the darkest.

Looking their best since they were organized, the All-Stars took the lead, 7 to 5, in the first quarter, held it at the intermission period 18 to 17, and then relinquished it to the hustling Army squad at the end of the third quarter, 26 to 28.

Ease Ahead

Starting the last chapter Larry Horan, who played outstanding ball at the pivot spot, dumped in a field goal to tie it up at 28 all as Red Edwards sank a gift toss for the Navy to ease ahead, 29 to 28. Then the Gamecocks came back with two buckets to move ahead, 32 to 29, at the four minute mark to apparently salt the game away.

Then Buum came into the fracas and was fouled twice by the hard-driving Soldiers. He made three out of four charity throws good and tossed in a field goal for good measure to move the Navy crew in front, 34 to 32.

With 59 seconds remaining the All-Stars froze the ball and coasted in on their two point margin to give them their third victory in as many starts.

Bambino Puts Off Miami Beach Vacation

NEW YORK, Jan. 29 —(UP)— Babe Ruth, just returned from a 17-day confinement at Presbyterian Hospital, today postponed a scheduled vacation trip to Miami Beach, Fla., tomorrow because he developed a slight cold.

Ruth's cold, according to Charles Schwefel, a close friend, is not serious and he said that the Babe probably would start his Florida vacation "sometime next week."

St. Moritz in Chaotic State On Eve of Games' Opening

ST. MORITZ, Jan. 30 —(UP)— As snow pelted down on this picturesque little valley town nestled in the Swiss Alps, both the local citizenry and the athletes of 27 nations were disturbed and annoyed tonight by the chaotic state of affairs on the eve of the opening of the fifth winter Olympaid.

For they were in direct contrast to the purpose of the Olympics —to strenghen the bonds of world amity.

Athletes, officials and citizens alike felt that the United States should have settled its internal hockey dispute long ago and that the present situation is airing dirty laundry in the public. Moreover, they were alarmed at the possible prospect of no winter games.

The American fracas was catching.

Swedes charged the games were being run for the benefit of St. Moritz hotels and shops. The British complained the emphasis here was on afternoon teas, cocktail dances and the like rather than sports. The press radio, television and newsreel delegations voiced their dissatisfaction with facilities.

Television and newsreel threatened to boycott the games unless certain "basic and essential" arrangements were made.

And finally, the sunless snowy weather added its dull harsh blanket to the discordant scene.

The only "good sportsmanship" visible tonight was limited to a dozen or so skiers who tracked to St. Moritz's two hospitals to cheer six athletes from five nations who tried too hard during pre-Olympic training and suffered injuries which sidelined them for the games.

The only ones in this picture postcard Alpine town who seemed confident everything will go off according to plan tomorrow were the men whose job it is to keep ski runs and rinks in top-flight shape. With snow plopping steadily, they combed brooms and polished their shovels tonight in preparation for tomorrow morning's hard task of clearing the mile-long bobsled run in time for the only definite event.

Montoto Follows Reyes; Resigns as Puebla Executive

MEXICO CITY, Jan. 29 —(UP)— Castor Montoto, owner and president of the Puebla team in the Mexican League, formally quit the league today because of the resignation of Alejandro Aguilar Reyes as Mexican high commissioner of baseball.

He announced his team's withdrawal in a letter to Reyes in which he said without Reyes as high commissioner "I don't see any future for the league."

Reyes described the Puebla club as the "only independent team in the league." He said the rest are controlled by Jorge Pasquel, the league's multi-millionaire "angel" whose recent statement that he was still boss of the league led to Reyes' resignation.

Mrs. Bush Upsets Margaret Gunther

MIAMI, Fla., Jan. 29 —(UP)— Mrs. Eddie Bush of Wilmington, Del., capitalizing on golf instructions she received from her husband, scored a second round upset victory today in the Helen Lee Doherty Women's Amateur Tournament, defeating Margaret Gunther, last-year's finalist, 1-up on the 18th green.

Mrs. Bush, plump wife of a Wilmington pro, played steady par golf all the way to register the third major upset of the meet thus far.

With favorities falling out early in the week-long contest, Medalist Louise Suggs of Lithia Springs, Ga., remained an odds-on choice for the title. Miss Suggs, the national amateur women's champion, easily defeated Mary Agnes Wall of Menominee, Mich., 6 and 4. Miss Suggs was 5-up at the turn with a 37, and coasted the rest of the way.

46TH FIGHTER WING—The local skeet team defeated the Headquarters, 20th Air Force again Wednesday 226-208 in the second match played by the two teams this year. The match was held at Northwest Air Base range. Slight winds held down the scores.

Harmon Quint Wins

HARMON FIELD—In a game on the 20th Air Force court last Wednesday night, spectators viewed what proved to be a battle for Northwest Field and the Harmon Field All Stars. Both teams showed splendid sportsmanship as the Harmon All Stars again drubbed its opponent by a score of 34-32. The Northwest team showed sharp competition throughout the game, with the decision made in the last minutes of play.

Pro Football to Honor Founder

NEW YORK —(UP)— Fifty-three years ago in a scenic hamlet in the Pennsylvania hills the game of professional football was born when a capable young quarterback agreed to play a game for "$10 and cakes."

As the years rolled by the sport shed its swaddling clothes and grew to full stature. And now, at an all-time peak, it is preparing today to honor the man and the miracle.

Outside of Latrobe, Pa., which also has outgrown its early infancy, few people recognize the name of that professional pioneer. But soon that city, the state and the nation will recognize the pathfinding performed by Dr. John K. Brallier.

Septuagenarian Now

He's a septuagenarian now, this genial, middle-sized man with the thinning gray hair; a retired dentist who well remembers Sept. 3, 1895 when he signed a contract with the Latrobe YMCA for "$10 and cakes."

But soon that almost forgotten deed will be etched indelibly in a professional football hall of fame comparable—and even superior—to the baseball gallery at Cooperstown, N. Y.

Latrobe started the ball rolling with a living memorial composed of a stadium, baseball field and tennis courts. The National Football League now will join in by helping to finance the pro gridiron hall of fame situated ideally at one end of the gridiron.

Brallier is the man who made all this possible.

History is behind him now, but he was a youngster attending Indiana, Pa., normal school when he became the first professional player back in the gay 90's.

Latrobe had an important game approaching against the Jeannette, Pa., A. C. and the home team's quarterback was on the injury list. The coach of the team was an astute fellow named Dave Berry and it gave him the opportunity of becoming the first pro owner.

For Berry, sizing up the situation, approached Brallier and convinced him he should be the quarterback for the previously mentioned remuneration.

Latrobe won this first pro game, 12 to 0, as Brallier ran the team flawlessly and kicked two field goals to boot.

After that the embryo dentist, who was to go a half century unrecognized as the first play-for-pay player, transferred to West Virginia and the following half season directed the Latrobe team for a then spectacular $150.

Two years later the idea really had impressed Berry and he began importing such outstanding players as Fielding (Hurry Up) Yost, Walter Okeson and Doggy Trenchard and later some of the Carlisle Indians.

"Once we imported Yost for a game against Greenburg and they heard of it and decided to kidnap him off the train when it stopped there," Brallier chuckles as he looks into the past. "But we heard of it and met the train a station earlier and took him to Latrobe in a horse and buggy.

"Yost played a big part as we won."

Which proves that even the skullduggery in pro football isn't new. So it's well nigh time the money men of the gridiron got around to giving the game a bit of dignity by admitting it has a storied past.

Mohandas K. Gandhi Assassinated

Volume 4, No. 32 Price: 5 cents

Guam News

Guam, Marianas Islands Sunday, February 1, 1948

May Mean War With Pakistan

NEW DELHI, India, Jan. 31 —(UP)— Mohandas Karamchand Gandhi, India's apostle of peace, was assassinated last evening. Within a few minutes, in ominous portent of catastrophe, the first serious Hindu-Moslem rioting in weeks broke out in Bombay. The riot death toll early today reached six, with an additional wounded.

Gandhi's murder at the hands of a fanatic, threatened not only a resurgence of religious rioting in this new dominion but a political crisis which may bring a showdown between those leaders who want war with Moslem Pakistan and those who seek peace.

The assassin fired three shots into the emaciated body of India's 78 year old "great soul" as he hobbled across the lawn of his villa to address the evening prayer meeting of his followers.

The murderer was fully indentified late last night as Narayan Vinayak Gadse, a member of the Mahratta race of Indians. They are extreme Nationalists and almost all are Hindus like Gandhi himself. They object to Gandhi's creed of peace among all religious sects.

Premier Jawaharlal Nehru announced to the nation, that Gandhi would be cremated on the bank of the Holy Jumna river today after a funeral procession which leaves the villa at 11 a. m. (12:30 p. m. EST). It was 5:15 p. m. yesterday when the three shots ripped into Gandhi's body. As he collapsed on the green lawn, he feebly raised his hand to his forehead in the Hindu gesture of forgiveness to his assassin. He was carried into the village where he died at 5:45.

It was revealed today that he had had a premonition of death. Retiring Thursday night, Gandhi said to his 18-year old granddaughter Manu:

"This is a strange world. How long can one be at the game?"

Rising early yesterday, Gandhi said to his personal attendant:

"Bring me all my important papers. I must reply today. Tomorrow may never be."

Foresees Death

At the villa last night, while the lights blazed on Gandhi's face and his weeping followers grouped about his bed, little Manu told me how she saw death come to Gandhi:

"The Mahatma was ascending the steps leading to his prayer platform in the garden when a man suddenly broke through the rows of the congregation and bent before him. Assuming that he was trying to wipe the dust from the Bapu's (fathers) face, I tried to get him to go away because Gandhi might trip. I caught his left hand.

"The man pushed me aside and started shooting. The first shot hit Gandhi in the abdomen. Gandhi chanted:

"Ram! Ram!, (oh God! oh God,)

"Two more shots followed quickly. They went straight through his heart.

"Gandhi fell back. His spectacles dangled and his sandals fell off. His spectacles and sandals have not since been found.

Occupation Troops Face Ever-Present War Danger

NEW YORK, Jan. 30 —(UP)— Greatly outnumbered American occupation troops in Europe face the "ever-present danger" of being trapped as were U. S. troops on Bataan, in event of another war, W. Stuart Symington, secretary of the Air Force, said today.

Symington, writing in the American Magazine, pleaded for building up America's Air Force, pointing out that one of its main jobs would be to support an evacuation of Europe in case of war and implying that the present "green" Air Force was not capable of handling that job.

The Air Force, too, he said, must be capable of protecting this nation and of striking effectively at the enemy's war machine. Push-button warfare is at least 10 to 15 years away, he said, and if World War III comes it will be fought with improved versions of the weapons now on hand and not with atomic, radar-guided rockets launched by scientists in underground shelters.

Einstein Sends Letter to Soviets

WASHINGTON, Jan. 30 —(UP) Dr. Albert Einstein said today in an open letter to four noted Soviet scientists that Russia's "desire for isolation" may be understandable but that "it remains disastrous to Russia and to all other nations."

The letter, politely but sharply criticizing the Soviet Union for its "partly negative and partly dilatory" stand on international control of atomic energy, was printed in the bulletin of the atomic scientists.

Merely Reply

It was merely a reply to an article printed in the Moscow magazine New Times last fall, in which the Russian savants denounced Einstein's plea for a strong world government.

The Russians had asserted that "monoply capitalists" were pushing the world government plan as a scheme to gain domination of foreign markets.

"Such arguments impress me as a kind of mythology," Einstein wrote. "They are not convincing."

He added that Russia's attitude on atomic control "had made it so difficult for well-meaning people in this country to use their political influence... to oppose the 'war-mongers.'"

Northwest Field Flier Missing

46TH FIGHTER WING, Jan. 31— A 46th Fighter Wing pilot who took off from Northwest Air Base in a P-47 Friday morning at 8:30 has not yet returned from a routine mission. Fourth Emergency Recsue Squadron was alerted at noon and a B-17, carrying a drop-able A-1 Higgins lifeboat was dispatched to search for the missing pilot.

Approximately ten other aircraft from Northwest Air Base searched yesterday afternoon. A physical check of all airfields on Guam has produced negative results as did air search sorties.

Today 4th ERS continued a search extending up to the island of Rota and adjacent waters.

Russia Preparing For War Says AFL

MIAMI, Fla., Jan. 31 —(UP)— Russia is preparing for war against the United States and this country must revise its normal peace policies to meet the threat, top leaders of the American Federation of Labor said tonight.

A statement issued by the AFL executive council declaring that American policies will have to be revised "in accordance with common sense national defense" was taken as an indication that AFL might reverse its stand on the issue of Universal Military Training, which it has opposed.

The council, representing 7,200,000 mmbers of unions affiliated with the AFL, said that "the Soviet government is concentrating on the manufacture of atomic bombs" and that all of her economic and industrial resources are being feverishly mobilized for the forging of new military striking power.

The council statement, strongest yet made by AFL leaders on the possibility of war with Russia, was issued after the 15-member body had spent its afternoon meeting hearing Maj. Gen. O. P. Weyland, chief of plans and operations of the U.S. Air Forces.

"We are convinced," said AFL President William Green after the meeting, "that we must maintain an adequate Air Force. In any clash with Russia success, that is, war success, will depend on our Air Force."

Pershing Still Ill

WASHINGTON, Jan. 31 —(UP)— The Army said tonight that the physical condition of general of the Armies John K. (Black Jack) Pershing, is unchanged.

His personal physician, Maj. Gen. S. M. Marietta, said he had visited the general at his Walter Reed hospital apartment and his health is the same as usual.

House Debate Begins on Tax Reduction Plan

WASHINGTON, Jan. 31 —(UP)— A prominent Democrat today called on his party members in the House to admit they are licked on the hot election-year income tax cut issue.

The House began debate on the Republican reduction plan which would be a $6,500,000,000 windfall for both and little taxpayers, after giving voice vote approval to a "gag " barring any chances. Passage is due on Monday.

Chairman John Taber, (R—N. Y.,) of the appropriations committee said the GOP could guarantee the financial su s of the program by lopping "a ast $4,500,000,000" off the administration's new $39,661,000,000 federal bud t.

Unworkable

The Democrats retorted that this could not be done without endangering national defense, and scoffed at the whole scheme as being unworkable and a step toward "deficit financing."

Rep E. E. Cox, (D—Ga.,) told the disgruntled Democrats at the out-set that it would be "no more than a piece of foolishness" for them to put up a fight for President Truman's twin-edged proposal for $40 "cost of living" tax credits for everybody and a 75 per cent excess profits tax on wealthy corporations.

Tax Relief

Cox said government revenues are high enough to permit general tax relief this year. And he hoped that if his fellow-Democrats decide to give battle to the GOP, they will plug a tax cut along the lines of the pending bill sponsored by Chairman Harold Knutson, (R-Minn.,) of the Ways and Means Committee.

It would increase personal tax exemptions by $100, slash everyone's taxes by 10 to 30 per cent, and extend to all states the community property system of permitting married couples to split their income for tax purposes.

President Sides With Marshall On Recovery Plan

WASHINGTON, Jan. 31 —(UP)— President Truman aligned himself beside Secretary of State George C. Marshall today in demanding that Congress undertake his European recovery program on an all-or-nothing basis.

The President's voice shook angrily as he faced the newsmen and stated emphatically the same all-or-nothing demand which Marshall put to Congress earlier this month at the opening of legislative hearings on the aid plan.

Peace at Stake

Like Marshall, he said that world peace is the stake.

He said the continuing 51-month program, which will cost an estimated $17,000,000,000, must be adopted in its entirety to assure recovery in western Europe.

Speaking loudly and with unusual gravity, he said the $6,800,000,000 appropriation he asked Congress to vote is absolutely essential to start the tools and materials of recovery flowing to the 16 Marshall plan nations.

Senator Ball Says Treasury Aiding Reds

WASHINGTON, Jan. 31 —(UP) Sen. Joseph H. Ball complained today that the Treasury is helping to finance the Communist party's efforts to overthrow the U.S. government.

He filed his protest as a House subcommittee on unAmerican activities heard testimony that some 80,000 aliens, including Communists, Nazis and "criminals," have slipped into the country illegally.

Stricter Laws

Chairman John McDowell, (R-Pa.,) of the committee, said that in his opinion the immigration service is responsible and that he will demand an investigation which may lead to "new and stricter laws."

Ball said in a letter to his constituents that the Treasury has given eight "Communist front" organizations privileged tax status by listing them as "charitable, religious, scientific, literary or educational" groups.

He said this makes it fairly easy for the organizations to solicit funds, since such contributions are deductible from income taxes, and that a good portion of the money is "siphoned off" to finance Communist party work.

Sub-Zero Cold Wave Threatens Shutdowns

CHICAGO, Jan. 30 —(UP)— A sub-zero cold wave bore down on the northeastern states tonight, threatening further shutdowns in heavy industries, but there was a break in the frigid weather which has crippled large sections of the midwest and north central regions.

Below Zero

The cold, sweeping down from Ontario, sent temperatures plunging in Michigan's upper peninsula and was moving ahead into the New England states. The mercury was due to drop below zero by morning in Maine, New Hampshire and Vermont.

The great eastern industrial area, including Pennsylvania, Michigan and New York, braced itself for for possible new shutdowns in vital industries which already had laid off 252,000 workers because of the fuel shortage. New York City expected temperatures between 10 and 15 above.

Strikes Will Paralyze U.S. Industry; AFL

MIAMI, Fla., Jan. 31 —(UP)— The worst wave of strikes and labor strife in history will paralyze American industry in seven months unless the Taft-Hartley act is repealed, the American Federation of Labor said today.

A statement issued by the AFL executive council meeting here said the nation now is "experiencing a lull before the storm." When present collective bargaining contracts expire, the most difficult period in the history of labor relations in this country threatens to ensue," it warned.

AFL President William Green said first effects of the law will be felt in the spring when workers demand new cost-of-living wage increases and its "real evils will be demonstrated next August when present AFL contracts expire."

He said it would be impossible for his AFL unions, with a total membership of 7,200,000, to comply with the "harsh provisions" of the act when these contracts come up for re-negotiation in August. Strikes and conflict will follow, he said.

2nd Soviet Protest on Italian Treaty

LONDON Jan. 30 —(UP)— Russia has formally protested the stay of an American Naval squadron in Italian ports as a violation of the Italian peace treaty, the official Soviet News Agency Tass said today.

The agency said that the protest was lodged Wednesday with U.S. Secretary of State George C. Marshall by Soviet Ambassador to Washington Alexander S. Panyushkin.

It was the second Russian protest to the United States announced by Tass within 24 hours. Yesterday the agency disclosed that the Soviet Union had protested Jan. 21 to the Anglo—American decision to reopen the wartime airbase at Mallaha, outside Tripoli, as a violation of the Italian treaty.

U. S. War Vessels

"The Paris press reports," Tass said, "that American war vessels have reappeared in the Italian ports of Naples, Taranto, Leghorn, Genoa and others, and have continued to remain for along time already.

"This fact is explained by the desire of the United States to render political support to the government of (Premier Alcide De) Gasperi, which enjoys little prestige among the Italian people.

'Hap' Arnold Ill

SONOMA, Cal., Jan. 31 —(UP) Gen. H. H. (Hap) Arnold, wartime Air Force commander, tonight was reported recovering from "an acute illness" that physicians said would keep him bed-ridden for several weeks.

Quite Ill

Dr. Russell V. Lee said Arnold had been "quite ill during the past week, suffering from a recurrance of circulatory disturbances and exhaustion, but now is improving rapidly."

The General recently returned from Washington, where he attended a meeting of the National Air Policy Committee. Dr. Lee said Arnold "did a great deal too much" and paid for it with an acute chest congestion and fever.

Weather Forecast

Partly cloudy with scattered light showers. Moderate easterly winds with occasional strong gusts.

Yesterday's Temperature: Max. 82; Min. 76.

Yesterday's rainfall: 0.05 inches.

Rainfall for month: 8.75 inches.

British Plane Missing Over Azores

NEW YORK, Jan. 31 —(UP)— The Civil Aeronautics Administration announced today that a four-engine British Overseas Airways passenger transport was missing on a flight from the Azores to Bermuda.

Biggin Hill airport officials insisted that they saw the plane circle the field and later heard it crash. Croydon and Northolt airports near London also reported that they had heard a plane in trouble over their areas.

One of the "eyewitnesses," Miss G. M. Fletcher said, "about 7 o'clock I heard a bang and saw tremendous flames coming from about three miles away."

The officer-in-charge of 20 fire engines which searched Kent's muddy lanes for three hours said, "although nearly everyone we spoke to said they had seen the flash and heard the rumble in the sky, none could give any definite description."

The plane, due to arrive at Hamilton, Bermuda, at midnight, was three hours overdue and presumed down at sea, the CAA said.

The transport last radioed at 11 p.m. last night that it was 300 miles east of Bermuda and on schedule, but has not been heard from since.

Miss Guam Weds Naval Officer

Throngs See Guam's Royal Wedding

BARRIGADA—England had its royal wedding a few months ago, Guam had her's yesterday in the personage of "Miss Guam," Miss Delfina Carbullido being wedded at the San Vincente church in Barrigada to Ensign William E. Luck (SC), USN.

The bride, gowned in a magnificent creation of white silk lace of floor length peplin style, trimmed with tiny exquisite pearls, was given away by her father, Mr. Baltasar P. Carbullido.

Bridesmaids

Attending bridesmaids were Miss Barbara Bordallo, Miss Lourdes Martinez, Miss Tomasa Santos and Miss Isabel Perez, all gowned in alternate old rose and chartruse lace.

Flower girls were both the tiny sisters of the bride, Misses Zita and Josephine Carbullido. The little white-bow-tied ring bearer was Ivan Carbullido, brother of the bride.

Standing for Ens. Luck as best man was Mr. A. L. Temple.

Officiating the Catholic wedding ceremony at San Vincente church was Father Raymond, parish priest of the church, and Father Cusex.

Church Filled

The church was filled to near-overflowing as the Lohengren wedding march ushered the beautiful bride, with her long train extending concavely behind her, down between the aisles of eager onlookers. Rice showered the happily married couple as they left the church after the ceremony.

Throughout the afternoon a reception held the attention of all the guests at the Barrigada Elementary school, where the ex-Miss Guam, now Mrs. William E. Luck, familiarly posed with her wedding group for rabid camera fans. Refreshments were served and music was supplied for dancing.

The couple expect to make their temporary home here on Guam. With this marriage, one of the highlights in Guam's social calendar for this year comes to a close.

LOTS OF LUCK! — Mr. and Mrs. William E. Luck, the bride who was the former Miss Delfina Carbullido (Miss Guam), duck through a shower of rice as they descend the steps of the San Vicente Church in Barrigada after their wedding ceremony yesterday morning. The new Mrs. Luck has been a prominent social figure on Guam as embodied in her well deserved beauty title "Miss Guam." Ensign Luck is employed by the Bank of Guam. (Guam News Photo)

Oldest Man in World Lives in Mountains; Walks Eight Hours a Day

ISTANBUL —(UP)— If you want to live to be 140, never have any heavy thoughts and take long walks in the mountains.

The authority for this latest old age prescripion is "the oldest man in the world," Saip Ogiu Veli, according to the newspaper Vatan. Vatan sent a correspondent to the mountain village of Manfaneura in east Turkey to interview the man who claims to have passed 140 "several years ago."

"I walk in the mountains eight hours every day," this "mountain Methuselah" told his interviewers. When asked the secret of his old age and when his young interviewer turned down an invitation to accompany him he said, "I think you must be getting old if you can't walk eight hours."

Fought at Nizip

Veli claims to have lived under six Sultans and two presidents in Turkey and to have fought in the Napoleonic war at Nizip against the Egyptians in 1839, in addition to a campaign to lift the seige of Scarphanto in 1853. E. D. Allen, British press attache in Istanbul, who first discovered the grizzled ancient, told press correspondents he was first skeptical of the old man's claims of life but after questioning him about history of the period, believes it true.

"I have only milk and Yogurt to eat and only a goat to look after me so if I can find a woman who can take care of me I'll get married again," explained the old man in answer to questions about his two marriages.

"And if you want to be happy in marriage do like I did," the ancient man told Vantan. "I got married and took my wife into the mountains for a 15-year-long honeymoon. We were very happy."

"The Bernard Shaw of the mountains," he was dubbed by Allen, who visited Veli while on a trip into Eastern provinces. But Veli was paging Mae West and not Shaw when Vatan's reporter climbed on his motorcycle and said farewell before his descent by the narrow mountain trail from the village.

Driller Hopeful

BOULDER CITY, Nev. —(UP)— If you're digging an oil well, you might just as well keep your eyes open while you're at it.

That's the philosophy of Ark Klinger, a veteran driller who has just started sinking a well in the railroad pass area south of here.

Geologists have told him that the land on which he is drilling lies on a fault and there is a good possibility of oil being somewhere underneath.

However, Klinger is taking no chances.

"If I don't get oil," he says, "I might get water, and I intend to pan the drillings and look for minerals, including gold."

Marine Division Celebrates Birthday

NEW YORK —(UP)— The Second Marine Division—the leatherneck unit which has just supplied troops, and replacements to the aircraft carrier MIDWAY and the cruisers PORTSMOUTH, PROVIDENCE and LITTLE ROCK in the Mediterranean, is celebrating its seventh birthday today.

Officially activated in 1941, this Marine division was given the mission of defending the California coast from Oceanside to the Mexican border, while training for Pacific combat.

Fought as Unit

It was not until the battle for Tarawa, Nov. 20, 1944, that the division fought as a unit, although small numbers of the division fought earlier on Guadalcanal, Saipan, June 14, and Tinian. July 24, 1944, were next for the Second division. Then came the landing on Okinawa in April of 1945, and finally the occupation of Japan, beginning Aug. 29 of that same year.

Today, with an eye for possibility of atomic warfare, the division has assumed a complete new formation. It is a more mobile and flexible fighting force. With the elimination of the old infantry regiments and the addition of more infantry battalions, each capable of independent action, the organization has a much greater dispersion and still can operate efficiently with decentralized control.

1,000 Enrollment At Guam School

HQ. 20TH AIR FORCE—Over 500 officers and enlisted men of the Army, Navy, Marine Corps, Coast Guard and Air Force have enrolled in the Guam Area school for the new block beginning tomorrow. These new students bring the total enrollment in the school to over 1,000.

All service personnel and government employed civilians who failed to register during registration week will be given an opportunity to register during the first two nights of new block, it was announced by school director, Mr. G. E. Rainge. Classes which will accept enrollments Monday and Tuesday (Feb. 2 and 3) include: English literature. American literature, news reporting, radio dramatics, beginners French, advanced Spanish and German, music appreciation, American history, American government, world history, sociology, philosophy, advanced physics, biology, plane geometry, analytical geometry, calculus, bookkeeping II, the Small business, business law, advanced radio code, radio theory, meteorology, slide rule, surveying, aeronautics, blue print reading, refrigeration, and salesmanship.

Needs More Women

The class in radio dramatics needs more women to play feminine roles when they produce shows over WVTG. The class in refrigeration is a new class devoted to the principles of electrical and gas refrigeration.

Another new class, news reporting, is particulary slanted for persons working in public information or desirous of studying journalism or working on a newspaper. The small business course is designed for those interested in going into business for themselves and deals with small business problems.

Other new courses not previously offered in the school include philosophy, aeronautics, meteorology, music appreciation and surveying.

PRETTY PENNY Perry, vocalist with Fred Waring's Pennsylvanians, strikes a demure pose which offers evidence that a remarkable voice is not her only appreciative attribute. Hailing from Minneapolis, she is just starting her second year with the reknown vocal chorals which you readers hear every week day morning at 11:00 over WVTG. This is one penny we'd all like to pinch!

(NBC Photo)

Courtesy, Key to Safe Driving

ATLANTA, Ga. —(UP)— An Atlantan who decided to do something about his city's traffic problems has returned from a personal survey of once-congested cities across the country convinced that motorist "courtesy" is the no. 1 solution.

L. L. Collier went to St. Louis, Mo., Oklahoma City, Okla., and Memphis and Nashvill, Tenn. He found traffic officials in all cities agreed that traffic flow is expendited by putting each motorist on his own.

This, according to Collier, is how courtesy" works:

First motorist to the intersection has the crossing right-of-way. This means that the second motorist to the intersection must extend the courtesy and not try to race him across.

During the rush hours, St. Louis policemen are stationed at the intersections. They let traffic flow in one direction as long as it seems feasible and are not hampered by lights.

Mass Migration Wrecks Cities

CHICAGO —(UP)— Mass migration to suburban areas wrecks great cities, in the opinion of Svend Riemer, visiting professor of sociology at the University of Chicago.

Decentralization of population and business are no answer to the problems of city planning, he told the institute of the society for social research.

Desirable living conditions in the suberbs which draw people from the heart of cities bring about "urban blight—a condition of earlier and now self-defeated centralization," Riemer said.

Riemer said the basic task of housing, neighborhood and city planning is to provide lives most conveniently and efficiently.

Better residential districts at the edge of cities must be bought at the cost of long commuting distances, Riemer said.

New Soda Fountain, Milk Bar Welcomed

BARRIGADA —— A new and much desired innovation hit Guam last Saturday with momentous and pleasant repercussions with the opening of Mr. Ben Paloma's soda fountain and milk bar in Barrigada village.

Possibly one of the major gripes of servicemen serving duty here on Guam is the lack of a place where one can guzzle down a chocolate malt or nibble on an ice cream sundae. This is one complaint, however, that need no longer go without solution.

Hordes of tiny Guamanians, never before big enough or having the opportunity to crawl up on a stool in front of a soda fountain, greeted the opening with signs of happy glee, and, of course, chocolate from ear to ear. Numerous servicemen also brought back fond memories of home when they poured into the new store to see what was in the offering. As a special opening feature, Mr. Paloma let the cash register remain idle, saying everything was "on the house."

Believe it or not, this is Guam!

LOOK WHAT'S HERE!—Yes, its a real live soda fountain and milk bar, recently opened in Barrigada village by Mr. Ben Paloma. Complete with chocolate malts and ice cream sundaes, it will no doubt be one of the Island's major attractions for Guamanians and servicemen alike.. (Guam News Photo)

'Little Mother of Guam' Grows Up

Dolores Mesa Recalls Painful Memories of Japanese Occupation

Back in 1945, shortly after the American reoccupation of Guam, a popular stateside magazine featured a picture of a shabily dressed little twelve year old girl surrounded by four toddling infants, all kneeling amid war's devestating ruins. The picture was called, "Little Mother of Guam" in honor of the fact that this little girl had safely carried her four brothers and sisters through the rest of the Japanese occupation after her mother had been brutally decapitated. An interview with this same girl recently proved that the "little mother" has grown up.

Now fifteen, but with the poise of an adult, pretty little Dolores Lukban Mesa quietly and unswervingly related the horrors she went through under the Japanese rule. Never before has this author heard of a twelve year old girl having to go through so much deprivation, suffer so much physical torture and mental anguish, and still be able to face life and war's aftermath with such hope, such brightness in her serious brown eyes.

Dolores is a native Guamanian, partly Filipino. At the outbreak of the war she was here on the Island with her mother and four brothers and sisters. Her father and three other children were in Manila and unable to reach Guam. Throughout the war Dolores and her Mother daily risked their lives to supply the American prisoners in Agana with fresh food, bedding, mosquito nets and blankets, by bribing the Japanese guards with cigarettes this feat was accomplished, but not always without rebuke. Delores's mother was taken prisoner numerous times and always came home naked and bruised. Dolores herself was struck on occasions when the Japanese guard would change and she could not bribe him to let her deliver the supplies of mercy.

On one occasion, Dolores, then only twelve, had to fight for her honor against a Japanese naval officer. For her unwillingness to submit to his demands, she was tied to a coconut tree in the hot sun for a full day without food or water, and while there, threatened with stabbing or decapitation with a bayonet.

Just a few weeks before the American invasion, Dolores' mother was taken prisoner by the Japanese and accused of spying. She had always been disliked by the terrorists because of her unwillingness to show them any friendliness or offer them aid. She was subsequently put into a large shell hole with 20 other Chamorros, and twelve hand grenades exploded in their midst. She was not killed, and crawled from the blood red tomb to plead with the Japanese guards for her life, so that she may protect her five children. She was decapitated on the spot.

"LITTLE MOTHER OF GUAM" Grows up, as is evidenced by her comely appearance in this picture. Dolores Lukban Mesa gained stateside literary recognition for her amazing wartime feats such as taking care of numerous children, among them her four brothers and sisters, after her mother was brutally killed by the Japanese in the latter part of their occupation of Guam. She was only twelve at the time. (Guam News Photo)

From then on, Dolores became the "Little Mother of Guam." She took the four younger ones into the jungle, secured for food to feed them, elusively escaped Japanese patrols, and succeeded in safely harboring them until the American forces came. At one time she went for three days without a bite to eat. Her exploits, in view of her age, are astounding.

Today Dolores is a happy teenager on Guam. Her father is Dr. Temas R. Mesa, Guam's only commercial dental practitioner. She is with all her brothers and sisters now and shows no sign of her harrowing past, with the exception of a sharp, serious and overly-adult expression in her eyes. She is comely in every way and her subued smile seems to indicate youthful shyness. Dolores returned from a visit to Manila recently and intends to enroll in classes at the George Washington high school soon. When asked what she had planned for the future, Dolores thought a moment, and as if recalling a bit of the past with painful nostalgia, she very quietly replied, "the future with decide itself."

Heavy Book

NEW YORK —(UP)— Telephone workers have started distribution of 1,200,000 new Manhattan telephone directories, each weighing four pounds.

The new directory, delayed for five months, has 1,413 pages, 59 more than the last, and has 585,000 listings, an increase of 3,000. Although it is big, it does not exceed the Chicago directory, which has 1,736 pages.

Over-all errors, according to Lee J. Jordan, have been shaved down to 0.15 per cent——not one in each 16,000 listings.

Needed a Bath Anyway

NUKULAU ISLAND, South Pacific —(UP)— It's a merry old custom when a big party is given in the Tonga islands, and goes like this:

The firm of W. R. Carpenter (Fiji), LTD., honorary agents in Suva, Fiji, for the Tongan government, entertained the visiting Tongan rugby team at a picnic on Nukulau island.

It was a good party, at the conclusion of which the massive Tongans, courteously explaining this was an old Tongan custom, graciously heaved their two principal hosts into the sea, clothes and all.

Pacific Princess College Graduate

MANILA —(UP)— The first deputy governor of the Turtle islands is a 40-year-old, light-skinned princess who was educated at the University of Illinois.

Princess Tarhata Kiram, niece of the former Sultan of Sulu, has just been appointed by Gov. Harolas Tulawi of Jolo.

Sultan Kiram once was absolute ruler of a kingdom which embraced all the islands from Sulu to North Borneo. He ceded the Turtle islands to the British some 70 years ago in return for a monthly pension of $2,000. The islands recently were turned over to the Philippines by Great Britain.

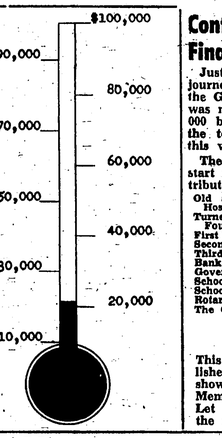
The round-eyed Tarhata Kiram inherited from her uncle....last potentate of the once powerful Sulu sultantate..... the title "Putalli," or princess. She studied, as a government pensionada, at Illinois, but returned home in 1922 without obtaining a degree.

After her return from the United States, she was confronted with the problem of making a marital choice between a Filipino Christian and a Filipino Moslem. She chose neither. Foreseeing her future role in the sultanate, she married a distant relative, Datu Tahil, then a member of the Sulu provincial board.

Soon after their marriage, the Datu was sentenced to seven years imprisonment after a fight with Gov. Carl B. Moore which resulted in several of Tahil's men being killed.

The princess did not wait for her husband to finish his sentence. She divorced him and married another distant relative, Datu Yudih.

Guam Memorial Fund



Contributions Bring Final Goal Nearer

Just as the proverbial longest journey starts with the first step, the Guam Memorial Hospital Fund was nearer to its goal of $10,000,000 by the initial computation of the total thus far contributed to this worthy cause.

The campaign was off to a good start with a total of $20,767 contributed by the following groups:

Old account (prewar) Susana Hospital	$7512.26
Turned over by Russel Sage Foundation for war years	1687.68
First customs sale	1528.29
Second customs sale	1544.22
Third customs sale	163.50
Bank jar	95.28
Governor Powmail donation	100.00
School children's fund	622.10
School children's fund	100.00
Rotary bingo game	143.67
The Catholic church of Guam	5000.00
Total	$20767.000

This thermometer will be published weekly in the GUAM NEWS showing the progress of the Guam Memorial Hospital Fund campaign. Let your warm generosity raise the mercury to the peak.

Ship Movements

Applicable to ships under Navy control: Outgoing cargo B/L with eight copies must be delivered to freight transportation branch of Naval Supply Center 48 hours prior to arrival of ship (telephone BO 6264).

Passengers or their representatives must deliver to Port Director their authorization for travel or travel orders 48 hours prior to departure of vessel. (Telephone BO 6143).

Hollywood Highlights.....

by Patrica Clary
United Press Staff Correspondent

HOLLYWOOD —(UP)— "Everbody wants ta get into da act," with Jimmy Durante.

The reasons are his helpfulness, consideration, sense of timing, experience and genuine love of people—even thongh he complains when they horn in.

For those reasons, Durante headed a list of 10 ideal life partners, chosen by the nation's dancing teachers.

"Humph, they're not content just to get inta da act," Durante growled, "now they wanna step all over my feet, too."

A check with Bing Crosby, Frank Sinatra and other stars who have appeared with him in movies and on the radio would reveal this universal urge to be part of "the act."

"Jimmy is more fun to work with than 10 barrels of monkeys," they declare.

Many Admirers

His most ardent admirers are people with whom he has worked. His friends range from Greer Garson and Lauritz Melchior to the office boy for whom he quietly got a job and to the highest executives of Metro-Goldwyn-Mayer. (He'll be in their "act" for another seven years under his new contract.

Melchior gets in Durante's act for the second time in the technicolor musical "This Time For Keeps," starring swimmer Esther Williams.

Other stars at M-G-M hankering for a repeat performance with Durante are Peter Lawford, June Allyson, Kathryn Grayson and little Margaret O'Brien.

"Jimmy is the finest teacher in show business," says Lawford.

His familiar ad lib about his "act" was delivered during his piano pounding days in New York nighteries when he suddenly found himself accompanied on the drums by a previously silent partner, Jack Roth, it is still true.

"Everybody wants to get inta da act," Durante complains, "except Lassie. Our profiles conflict."

At the prsent time, there is almost as much discussion in feminine circles about the new hair style as there is about the "new look," meaning of course, the long hemline. The long glamour bob is definitely out, and taking it's place is a sculptured coiffure, which hugs the head just as the new fall styles hug your waistline. As you know, hat styles are determined by the styles in clothes, therefore, hair styles must follow along with the hats. Since, milliners have decreed small hats for the most most part, the hair must be dressed to closely follow the contour of the head.

One way of doing this is to have the hair shingled in the back and the sides left about six inches long. The sides are then done into shadow waves and flat curls. The back, if not cut short, may be swept to the sides and held with a comb. However, as experts will warn, it takes a well-shaped head, and almost perfect features to wear this particular head dress. It means that the average woman will have to adapt her face and features to the hair-do, and to do that an expert should be consulted.

According to the famous style director of all the Charles of the Ritz salons, Mr. Paul....women are actually taking this new weird hair style seriously. At least that is the case in the East for the most part. He states, that the hairstyles of the 20's and early 30's were the most unattractive of any period....and to prove it, just compare pictures of some of our present day stars with photos of them taken during that time.

Mr. Paul, who doesn't banty words, but speaks his mind forcefully and directly, says the new hooded hairdo makes a woman look like a pinhead, especially with rounded curves, small waists, and the longer hemline. The new muffing coifs look harsh and ugly, and it's not just because your eye is unaccustomed to them. He continues with his comments by saying that women never have to be talked into looking pretty, but it takes a lot of propaganda to persuade them to look ugly. Of course, it does seem that subtle propaganda comes into the picture quite clearly, and Mr. Paul sounds perfectly justified in his comments. Unfortunately, however, many women tend to follow fads blindly for fear of being thought old fashioned and reactionary.

Like the "new look," it also appears that men don't like the new hairstyles. There is a story of a group of models who were forced to wear this new hairstyle, had to change their hair as soon as they returned home, because their husbands thought they were wearing wigs. It is true, that if a woman looks good in the new severe helmet shaped coiffure....she looks pretty in spite of it....and not because of it.

What Mr. Paul forgot, however, is that for those who can not wear the head hugging hair-do there is help in the use of false hair. Yes, the braids and coils, which were popular just about the same time that these nipped-in-waists and longer skirts were in vogue, will see a return to popularity, too. They can give the close-to-the-head effect, and yet will prevent the pin-head appearance. However, Mr. Paul is absolutely correct in suggesting that a woman select a coffiure to suit her own personality, and which looks the best on her. However, the general effect must be dignified, feminine, romantic, and a woman should never adopt a hair-do fad wholesale....that is, if she wants to be an individual.

As for hair tints, the bleached blonde is as out of style as the short skirt. The soft ash blonde shades are replacing the brassy and platinum shades as well as the red tones, which had been such a popular fad during the last year or so. The new styles may not be followed by everyone, but every woman at least knows them, which may tend to get a woman away from that harsh and hard-look, which so many have thought of as "glamour." Who doesn't like a natural?.

Society Notes....

MRS. E. L. WORLEY, Jr., the retiring president of the Air Forces Women's club of Guam, held a tea in her quarters last Wednesday at 3 p. m. in honor of the new officers of the Harmon Field Women's club.

Present were Mrs. Francis H. Griswold, Mrs. H. S. Monroe, Mrs. R. C. Stephany, Mrs. R. E. Morrison, Mrs. L. E. Alexander, Mrs. T. B. Hoxie, Mrs. D. Blake, Mrs. R. L. Jones, Mrs. R. L. Livingston, and Mrs. Willian Charleson.

THE HARMON FIELD WOMEN'S CINB will meet next Tuesday, February 3rd at 1:30 p. m. at the Harmon Field Officer's club.

Bridge, rummy and other games will be played. There will be tables for beginners at bridge. Prizes will be awarded and refreshments served.

THE ROTARY CLUB held its regular weekly luncheon Thursday at the Coconut Grove restaurant.

Guest speakers were Felicisimo Lauzon and Cicilio I. Lim, officials of the Philippine government.

A rotary club picnic was announced by Simmon Sanchez, president of the club. The picnic will be held for all members and their friends at Camp Dealy Sunday, 3 January, at 10:00.

Thumbnail Sketches

Ed. Note—This is the first in a forthcoming series of Sunday "Thumbnail Sketches" portraying briefly the highlights in the lives of Island personalities. Text by George Wilbur, GUAM NEWS staff writer, illustrations by Mr. J. C. Johnston.

Unpretentious, completely delightful, petite, cosmopolitan, tolerant, intelligent and with a versitle charm....all words which fail to really paint an accurate picture of our first lady of Guam, Mrs. Agueda Johnston. Her attributes are endless, and far beyond justifiable description.

A self-characterized "city slicker", Mrs. Johnston was born in the transplanted Spanish town of Agana here on Guam. After falling in love with the American ex-Marine schoolteacher from Tennessee, William Gautier Johnston, she married and settled down to raise seven healthy children and become one of the, Island's most progressive

Mrs. Agueda Johnston

school moms and leading social figure. Teaching, without a doubt, was her greatest interest. Before World War II, the attractive woman with the dancing smile was an integral part of every movement that led to the growth and development of the community, and better conditions for her people.

Days of grief and terror, but always bravery, harrassed Mrs. Johnston during the war. Her husband was captured by the Japanese and subsequently died in their hands. She continually fought for the honor and safety of her attractive daughters, and in every way possible kept a habitual thorn in the backs of her oppressors, even at the cost of being tortured.

Mrs. Johnston is now Asst. Superintendent of Schools, never having lost the love of teaching, and is, with all who know Guam, synonous with the charm and warm heartedness of this Island. She truly merits in the eyes of all who know and love her, the title, "The First Lady of Guam."

CRUZ TRAVEL SERVICE, U.S. Life Insurance co., have moved to Route 4, opposite the Department of Health. Telephone. AT 981, Ext. 316.

GUAM'S FUNCION

by Evelyn Perez

Mrs. Isabel Perez Aflague, former resident of Mongmong is soon to leave for her home in Pleasanton, California. Joining her is Mr. Enrique S. Gongue who will continue his schooling and will remain at Mrs. Aflague's place till he finishes his studies.

Mr. Juan L. Duenas will leave for Honolulu to visit his son Segundo. Following the visit he will take his son to the mainland where he will place him in one of the trade schools there. He will also visit his brother-in-law, Mr. Gregorio C. Perez of Brooklyn, N.Y.

Among the people leaving for the states is Mr. Mariano L.G. Castro and son Florencio. Mr. Castro is going to arrange business matters with Atkins Kroll and co., in San Francisco, California and to place his son in Saint Mary's College of that city.

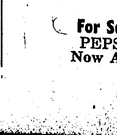
The marriage of Miss Antonia Pangelinan Mendiola, daughter of the late Mariano Borja Mendiola and Mrs. Antonia Pangelinan Mendiola of Sinajana to Mr. Ramon Mafnas Blas, son of the late Jesus Tejeran Blas and Mrs. Trinidad Mafnas Blas of Canada, Barrigada place yesterday morning at Sinajana Village Chapel.

Another bride of the month was Miss Clotilde S.N. Naputi daughter of Mr. and Mrs. Manuel P. Naputi. She was married to Mr. Edward G. Castro of Mongmong village.

Another student of the George Washington High School is leaving soon to continue his schooling in the mainland. The student is James Earl Nelson who will reside at the home of his uncle Mr. Henry Lujan of Los Angeles, California.

Music Spotlights

News and views in the world of music today, are varied, important and not so important. Before we turn to our music briefs, we wish to climb aboard our soap box. With the assistance of the greatest living jazz critic, Paul Eduard Miller, we wish to send you a solid symposium of fact. To do so, we are going to quote a few paragraphs and phrases from Miller's latest article.



"Ed"

"The best jazz is an important cultural contribution to the music of our times. Have jazz concerts fostered and nourished this belief? Have concerts helped to win over new advocates of the jazz art?

They have not! More than 10 years of jazz concerts have failed to bring to jazz the prestige even equal to that accorded third-rate concerts in the classical field.

Why do critics of the so-called serious music continue to relegate jazz to a position beneath their dignity?....Why is there a general fondness to insinuate that jazz is raceous and lowbrow, that the jitterbug and hepcat are the ultimate personification of jazz?....I'll tell you why. Jazz has failed to gain respect among the music-minded public primarily because it has failed to retain the respect of those who profess to love it most—the jazz musicians themselves and the jazz fans.!

Plenty of people are interested in jazz and want to understand it, but they must be given the true jazz, and not the raucous noise that so many people try to pass off as jazz."

Miller went on to accuse the jazzmen and second rate musicians, who tried to pass their mediocre accomplishments off as jazz. I want to go further and accuse the jitterbugs and hepcats, who have given jazz such a bad name.

Those poor benighted individuals with their phoney language, their psuedo-intellect, and their wild gyrations on a dance floor, are a sad and sorry commentary on the music they claim as their own.

Its about time, you hepcats and jitterbugs wised up. Speak understandable english, shave off those insipid little "behop beards," get a haircut or a dog license and start to act like human beings again.

MUSIC BRIEFS: The world famed Duke of Ellington has finally been signed to do a transcribed disc jockey show, for a five year term....Dizzy Gillespie is finally off on his continental "concert tour".....Stan Kenton wins the big band award, in both the DOWNBEAT and METRONOME band polls....Woody Herman's new band comes out of the slump, by presenting more 'bop' and bums...Jimmy Dorsey and Glen Gray have disbanded their musical organizations....Eddie Heywood has junked his band, and is now doing a single with a small rythm section....Ella Fitzgerald and Illinois Jacquet team up for a concert tour that shows great promise....Sarj Vaughn takes top honors in ALL band polls as top unattached female vocalist, beating Peggy Lee by some 3,500 votes....time marches on and so does GOOD bebop.

TOP BAND TUNE:....A re-issue of a true Ellington classic, "Diminuendo and Crescendo in Blue." These two sides feature, Taft Jordan's trumpet, Browns trombone, Al Sears' tenor sax, and Hodges' altoing. A really fine piece of work.

TOP VOCAL: That fine new song from the hit show "Allegro." We place Perry Como in a world of his own for his rendition of "So Far." Its tender, lovely and just about every other adjective that this person has at his command.

With tears in our eyes, and good bebop in our hearts, we bring this "Spotlight" to a close. Take it slow and easy, and have a good week won't you. ED

Letters to The Editor

My Home Town
"Smells to the nigh heavens"

Yes sir, my old home town, Peoria, Ill., in national magazines, news dispatches, wherever you go from Australia to Alaska, is more in evidence than Hollywood, New York or London. Those magazine stories and news dispatches tell about gangsters killed and railroad presidents ambushed, but the real Peoria, the Peoria you see, hear, taste and smell, is on hand to meet and greet you, wherever you go throughout the world.

High in the heavens as you wing along in a trans-ocean air liner, its mellow fragrance in the form of a tasty bracer proffered by a fellow traveler comes to remind you, Hiram Walker's, the world's finest distillery, made famous by the purest of water, Peoria's own.

Be it Honolulu, Rio or Singapore, as your plane gracefully glides in to land, you feel safe and secure in the knowledge that caterpillars and turnapulls have been there, finished and fashioned a runway, safe and true, insuring you a happy landing. Yes sir, Peoria is everywhere. Deep in the jungle on any south sea Island, while hunting coconut crabs, your flashlight on a dark night will shine on cans, tin cans whose tangy contents quenched the thirst of hitch hiking G.I.'s on their way to Tokyo, you guessed it brother, it was "Fabst Blue Ribbon" from Peoria, not beans from Boston.

Yes sir, Peoria like Kilroy is there ahead of you, and perhaps who knows, those Japs hung here on Guam last month dangled from a rope cut off this coil I'm sitting on. I just now see a tag marked Peoria Cordage Co. If I spot you a main line railroad can you say as much for your old home town?

Apparently all Texas lacks is Peoria
——The Editor

Coral Cliff

Capes of branches shower from the coral edges of the cliff
As though to shield her curving shoulders from the rain.
And while the tassels of the shawl cling to her arms,
The sea plays in the green, then leaves the fringe to trail along the sand.

Bette Cole

Color Tests Reveal Personalities

NEW YORK —(UP)— An experiment in personalities here has shown that persons preferring full color have more interest in the outside world than those indlviduals who prefer lighter colors or tints.

Results of the experiment were disclosed by Drs. Dorothy M. Marrett and Elizabeth B. Eaton, who based their findings on studies of 60 or more students at Hunter College.

Writing in the Journal of Personality, the experiments said the students were put through several tests to reveal their personalities. The examinations included testing their response to annoyance, their morals and interest in life generally.

The authors found that those who "like to live alone with their thoughts" usually prefer tints, and that those who respond to external environment preferred the full colors.

The tests also showed that those who preferred full colors usually had a lower morale, became annoyed more easily and had less speed in making decisions.

Furthermore, the tests showed that "those subjects who preferred colors reported more often than the tint people that they believed their emotions were recognized by their friends and acquaintances," the authors reported.

——March of Dimes——

Now Its Wholeburgers

WASHINGTON—(UP)— "Wholeburgers" may not be on tomorrow's menu but they are getting the same frozen treatment that the hamburger receives.

The new factory whaling ships which roam Antarctic waters now have refrigerator compartments to freeze the catch and preserve its flavor, the National Geographic society reported.

The flavor it preserves is "mild and beef-like," a welcome food in many old world lands, the statement said. The secret in cooking the whale meat, whether it's "wholeburgers," steak or stew, is to add onions and peppers.

Food isn't the only result of a good catch of whale. Whale oil is used in soaps, in making glycerine, for munitions and, in processing leather.

The oil is used also in preparing face cream and ointments. The rarest and most valuable of whale products is ambergris, used in fine perfumes.

——March of Dimes——

WORMS STUMP EXPERTS

MACON, Ga., —(UP)— Bureau of entomology officials had red faces over green worms recently. The specialists frankly admitted that they couldn't identify the millions of small green worms which invaded yards and lawns in Macon. They seemed to be harmless enough, as no damage to gardens or crops was reported.

Navy Band Schedules Spring Concert Tour

WASHINGTON — The United States Navy band, under the direction of Lieutenant Commander Charles Brendler, USN, will tour 13 states in the East and middle West during the spring months of 1948.

This will be the second concert tour of the Navy band since 1941.

The band is composed of fifty members, plus the leader.

The tour will be made at no expense to the federal government. Any profit realized by the concerts will be given to a charitable or public purpose within the local area.

Ya Don't Say....

CRIME DOESN'T PAY

MEMPHIS, TENN. —(UP)— The sheriff received a postcard from Parkdale, Ark., addressed in his care to a prisoner whose arrest had been reported by newspapers. "Have just caught up with you," the postcard read "Appreciate it if you will send me the little account due me."

ITS ALL LIQUID

BRUNSWICK, ME. —(UP)— Here is the latest breakfast table delicacy—blueberry-applejulce. The Maine Development commission says the appetizing product of the pine tree state soon will be on America's markets.

FREE HEAT

VALE, ORE. —(UP)— Mr. and Mrs. James Hawley have no worries about how to heat their home during cold eastern Oregon winters. A natural hot water fall near the Hawley home has been harnessed to pipe heat into the house.

Guam News
Sports

Sports Beat...

by Bob Crossley

SUNDAY HASH....One of the most widely heralded minor leaguers on the way up this year will be a large fellow named Honk Sauer who has had previous major league experience... A former Southern Leaguer who was up with the Cincinnati Reds before the war and two or three times since, Sauer last year was voted the International League's most valuable player, and was honored by Sporting News as the Minor League Player of the Year....He terrorized pitchers last year, and though he lost the batting title by a single point, he poked across 141 runs, got 182 hits and was second in the loop in home runs with 50 and had a batting average for 146 games of .336....He led the Syracuse Chiefs to the playoff title last year with an average of .413, setting a new record with 37 total bases.

Big Bowser Chest, one of the most colorful referees in the country and certainly the noisiest in the South, advanced his philosophy on the big row over whistle-happy officials and their effect on the quality of the game now being shown all over the country....Said booming Bowser: "I used to call them pretty close to the vest. I remember seven years back in the Sugar Bowl basketball game between Tennessee and LIU. A Vol and an LIU player crashed and the Tennessee boy sailed over two rows of benches. I called a foul on the LIU man and, as we walked over to the foul line, he said: 'Gosh, ref, let us play ball.' I did quite a bit of thinking on that.

"Ask those kids. They want to play basketball. The fans don't like to hear the whistle all the time. You'll admit that it's practically impossible to have 10 men milling about on the floor without contact. Let 'em go, I say. I don't mean an offical can countenance any flagrant elbow-waving and deliberate contact. If he lets them get away from him, he has a responsibility on his hands, because excessive contact becomes a personal issue to those kids.

"It's a funny thing, but a referee can play a rather large part in contributing to a fine basketball game and still be inconspicuous, as he should be. He can relax the players, control them and set a pleasing tempo for the crowd—and the players."

Guam News Tennis Tourney to Surpass Last Year

The second annual GUAM NEWS Island-wide tennis tournament will get rolling next weekend on the ComMar flag courts with more than 50 entries already in, and there's more days remaining before the deadline.

Last year's tourney, with less than 40 entries, was a rousing success with Lcdr. J. D. Smith hosting Captain A. P. Kohlhas for the title.

This year, the tourney will be run differently in order to give the more inexperienced players a chance to compete in their own class. A novice class was established for those who have never played in a tournament. In addition, last year there was no ladies' division. This year several calls from feminine players on the Island promoted the inclusion of a distaff division, but to date only four entries have been received. Lack of interest made it necessary to drop the mixed doubles cuss.

The tournament will likely extend over a period of a month since all matches will be held on weekends, when servicemen are able to get away from military duties. Civilian entries, which, incidentally constitute nearly one third of the totaled number, also have mentioned the fact that it would be nearly impossible for them to get away during the week.

Seven handsome trophies have been ordered and will be ready for presentation at the finals.

Anyone who has not entered the tourney has until next Wednesday to fill out the blank on this page and get it to the Guam News office.

A list of entries to date, arranged by classes, follows:

OPEN SINGLES — Ltjg. Louis Battey, Bill Hastings, J. S. Marsh, George Slusser, CRM Chris Meyer, Capt. A. P. Kohlhas, Lcdr. R. C. Spears, Lt. Homer Pettit, T-Sgt. O. W. Stoll, PFC James Manning, M-Sgt. Arthur Lovering, Oliver Townsend, Capt. Bob McBride Lt. John Tobin, George Hullsiek, Major A. K. Lyman, Ltjg. Mort Hanson, Lcdr. J. D. Smith, Larry Cook, Mauricio Madrigal, Lt. Vernon Brown, Ltjg. Frank Kriz, E. Navarez, Lt. Austin Parker and Lt. Walter Honour.

NOVICE SINGLES — Gordon Smith, Tonie Derose, Sgt. James Holsey, Capt. R. E. Morrison, Lt. M. J. Fazlollah, Cleo Desbein, Leo Polvorosa, Harold Munnings, Capt. N. G. Cottle, CPL Jerry Cates, CPL Carlos Cochrane, Lt. D. M. Barnett, Lt. Bill Clark, Major J. S. Skoczlas, Bob Duarte, D. D. Stubbs, CY Bernard Lahay, Severino Bravo, Pedro Bonderil, Fred Chase and C. H. Neill.

OPEN DOUBLES—Parker-Pettit, Kriz-Hanson, Smith-Dunn, Lyman-Kohlhas, Hullsiek-Hastings, Tobin-McBride, Munnings-Townsend, Battey-Hull and Lewis-Honour.

NOVICE DOUBLES—Chase-Duke, Bonderil-Balahay, Bravo-Roldan, Stubbs-McElveen, Duarte-Haney, Clark-Barnett, Cochrane-Morrison, Cottle-Thomure, Polvorosa-Reclozado and Derose-Smith.

LADIES' SINGLES—Delilah Emory, Wanda Murphy, Betty Marble and Nora Riley.

Fist Fights, Protests Turn Winter Games Opening Into Mockery of Olympic Code

ST. MORITZ, Jan. 31 —(UP)— The fifth winter Olympiad opens today as a "symbol of good will" but soon developed into the wildest day in bobsleds, fist fights and new protests against official decisions.

Tonight, the tension had mounted to such a pitch that even the future on the Olympics themselves appeared at stake.

The situation was such that it wasn't even certain whether hockey, which started the games off today, would be played tomorrow. The events that took place off the athletic fields far overshadowed the good start which two teams of the host country, Switzerland, made in the opening day's events. The U. S. representatives did not fare too well.

The ill-will created by the internal dispute between two U. S. hockey organizations now has grown to such an extent that the two members of the American two-man bobsled race found that two of their three sleds had been tampered with during the night although they were housed in the official Olympic bobshed.

Then came the following:

1—Kurt Stevens, manager of the U.S. bobsled teams, posted a two-man guard to protect their equipment.

2—Hockey players from Canada and Sweden engaged in a free-for-all fist fight.

3—The International Olympic Committee ruled that the hockey competition could not be recognized as an Olympic event. And that the international ice hockey federation —the Ligue International De Sur Glace—no longer was qualified to represent world amateur hockey.

4—The Swiss Organizing Committee again defied the IOC.

5—The speed skaters of the non-Scandinavian nations voted to protest the ruling of the international skating union on a complicated system of pairing for successive events.

6—The Amateur Hockey Association team of the U.S. was booed by a crowd which included 200 Americans.

Games Overshadowed

These events shoved in the background the actual athletic competition of the day which in hockey saw Switzerland defeat the A.H.A. 5 to 4, Sweden beat Canada 3 to 1, Czechoslovakia overwhelm Italy 22 to 3, Poland triumph over Austria 7 to 5 and the Swiss team of Felix Endrich and Friedrich Waller pile up a commanding lead in the two-man bobsled competition, one of the two American teams whose sled were sabotaged was in a tie for fourth place while the other was in sixth position.

All Stars Again Come From Behind To Win, 38 - 32

Still bothered by first period fumbles, the Navy's All Stars came from behind in the second half to score a 38-32 victory over a combination of the North Field and 674th Signal Company teams last night on the ComMar court.

The All-Stars, using Larry Horan at forward instead of center, were outplayed through most of the first half—at one time trailing, 13-5. The North Field-Gamecock combine threw up a tight defense that stymied the Navy's offense limiting them to set shots for the most part.

They also put on a fast break display that would have put them far out in front if they had made their shots consistently, Sam Hardy and Clarence Washington paced the Army quint as they went on from a 13-10 first quarter lead to a three point, 19-16, halftime advantage.

Small Buzzy Squires personally sparked a Navy rally as the second half started, pumping in three baskets as the All Stars jumped out in front, 26-19. From there they went on with Squires and Horan leading the way to their fourth triumph in pre-tourney practice games.

Pennock Collapses In Waldorf Lobby; Succumbs Later

NEW YORK, Jan. 31 —(UP)— Herb Pennock, 53, celebrated for his non-chalance on the pitching mound with the New York Yankees and for his business acumen in the Philadelphia Phillies' front office, died today of a cerebral hemorrhage.

Pennock, general manager of the Phillies since 1944, collapsed in the lobby of the Waldorf-Astoria at 11 a.m. and was pronounced dead by Dr. Caesar Abrou two hours later after being removed by ambulance to nearby Midtown Hospital.

Appeared in Good Health

The slender Philadelphia official, who appeared in good health up to the time of his collapse, was stricken as he prepared to attend a routine National League meeting between club officials and League President Ford C. Frick. Frick, in the hotel at the time, was one of the first to his side when he learned that Pennock had fallen unconscious near the hotel entrance.

At Kennett Square, Pa., Pennock's family was stunned. Mrs. Pennock made no comment and her son, Joseph, said that the family had no time to plan whether they would leave for New York.

In addition to his wife and son, Pennock is survived by a daughter, Jane, wife of Eddie Collins Jr., who once played for the Philadelphia Athletics.

Cage Twin-Bill Tonight

A double-header, offering Guam fans their first look at the Saipan and Kwajalein basketball squads, will be played tonight under the ComMar lights beginning at 1900.

Saipan's cagers vie in their first practice game with Brown Pacific Maxon in the opener while the Kwajalein team takes on North Field in a warm-up contest in the nightcap.

Skip Alexander Leads Field at Tuscon

TUSCON, Ariz., Jan. 31 —(UP) Drawlin' Skip Alexander of Midpines, N. C., ripped up the course with a seven-under-par 63 today to take the lead with a 130 after the second round of the $10,000 Tuscon open.

That was 10 strokes under par for the first 36 holes of the 72-hole tournament on the short El Rio Country Club course.

Alexander shot a seven under regulation 63 with 33 on the outgoing nine and a near-perfect 30 on the home side.

He carded a 67 yesterday.

One stroke behind Alexander was portly Jimmy Hines of Tuscon, with a 65-66-131.

Clay Institutes Security Program

BERLIN —(UP)— General Lucius D. Clay, American military governor of Germany, has ordered an intricate and far-reaching security program for his sprawling Army and military government organization.

In a nine-page order, Clay called for the utmost caution and adherence to the letter of the rule-book in handling secret military information.

Intelligence officers denied that the clamp-down was inspired by leaks or other breaches of security. They referred to the new order as "routine, wrapping up a lot of previous regulations." The new document referred to 12 earlier orders on the same subject issued within the past year.

This single sentence of the bulky mimeographed order was highlighted by being printed in capital letters: "Classified military subjects will not be discussed in public, nor disclosed privately to anyone in the military service not entitled and not required to receive such information."

The new Clay security system is virtually identical with that enforced by the Army during wartime.

Cherry Signs New Pact

AUSTIN, Texas, Jan. 28 —(UP) Head Football Coach Blair Cherry of the University of Texas has signed a new three-year contract through the season of 1950, Athletic Director Dana Bible announced today.

THE UNEXPECTED BLOW

That is what an accident is. It prevents you from working and it plays havoc with all your present and future plans!

The ability to earn an income today is your capital. It should be insured against loss through death or disability by accident.

The circumstances that bring about an accident must be left to chance. You cannot foresee when, where or how an accident will happen. These circumstances must be left to chance. But the financial loss and consequent worry can and should be anticipated.

You cannot afford to leave your welfare and that of your family to chance. Be ready for the UNEXPECTED BLOW. Enjoy the peace of mind that comes with the knowledge of security.

Weekly Sports Roundup

by Bob Crossley

During this part of the year, football post-mortems mingle with baseball spring notes while basketball shares the spotlight with the winter golf circuit, indoor track and tennis.

This week has been no exception.

Johnny Lujack and George Connor, both two time All-Americas at Notre Dame, made the headlines when they signed long term pro contracts with the Chicago Bears of the National Football League. The signing brought to a close more than a week of wrangling with head man George Halas concerning salaries and bonuses. Just what the Bears will do with Lujack remained a question mark, what with Sid Luckman still going strong as the Bears' T-master, but it was assumed Lujack would under-study Luckman at quarter as well as in the left-half spot.

Jack Kramer switched from his smashing offensive style of play which stood him in such good stead in amateur ranks to a defensive game and took an 11-9 advantage over even more defensively-minded Bobby Riggs in their 65-match cross-country tour.

Leo Durocher, not quite so loquacious as before, opened up long enough to say the Boston Braves looked like the team to beat this year in the National League, with the St. Louis Cards looming up threateningly.

Johnny Mize, New York Giant first sacker, was honored by the New York Chapter of the Baseball Writers Association with the Sid Mercer Memorial Award for being voted the "Player of the Year."

Smilin' Ed McKeever, Notre Dame's wartime mentor, resigned as head coach of the University of San Francisco Dons to sign as top man of the reorganizing Chicago Rockets of the AAC.

Alejandro Reyes got steamed up over his feud with Jorge Pasquel and walked odt as czar of the Mexican Baseball League. Said the commissioner, "I'm leaving because Pasquel wanted to be the big boss."

On the local scene, Guam's grunt and groaners copped five out of eight places in the Pacific wrestling finals to win berths on the Annapolis team.

The Guam All-Star quintet, prepping for the Western Pacific playoffs next month, scheduled practice tilts right and left and went on to rack up impressive scores despite the fact they have yet to find a smooth working combination.

PACIFIC TITLISTS—These eight wrestlers won the Pacific championships last Tuesday night at the NAS Orote arena and will leave shortly for Annapolis for the All-Navy finals. Left to right, they are: Paul Wilson, F. L. Hoffman, Al Pisasole, Bill Norris, Howard Schiller, Jack Sutton, Sandy Sangalis and Jimmy Sellers.

Television Brings Sports and Business To New York Tavern Proprietors

NEW YORK —(UP)— Nothing will be done unless there is a slump in attendance but major league officals nevertheless were concerned today over television competition whereby a thrifty fan can watch the Dodgers play and enjoy an eight-course free lunch with saloon music all for a 10 cent beer.

Up to now the three major league clubs in New York and in most of the other cities where there are television transmitting facilities have adopted the same tolerant attitude as they have toward radio broadcasting—reasoning that it has stimulated interest among fans.

Unquestionaby that is true and there is no doubt that many a tavern patron, heretofore has been more concerned with bending his own elbow than in watching Joe DiMaggio bend his while whaling a home run into the upper deck at Yankee Stadium.

Radio and television sampling polls indicate that many persons have been converted into fans, perhaps in self defense, while listening to games or watching the ball and bat movies at their neighborhood tippling station.

Tavern owners in all sections of the metropolitain area reported an unprecedented increase in business last season during hours when television transmission of baseball games was in progress. Similarly big increases are enjoyed for the transmission of other sports, particularly boxing.

The NOB Industrial baseball team is interested in arranging a practice game with any ball club on the Island in the near future. Any team interested contact Cdr. Chaffin at BO 4257.

PHILADELPHIA —(UP)— Villanova's baseball team will make another attempt to meet a big league club next spring when it plans to meet the Philadelphia Phillies in an exhibition game. The scheduled 1946 contest was rained out.

Feller Hopes to Pitch In World Series

CLEVELAND —(UP)— Bobby Feller of the Cleveland Indians, the greatest pitcher in modern times, confided recently that his one major remaining ambition was to pitch in a World Series "and I think I've got a good chance of doing it this year."

"I want to be in a world Series before I go to coaching after my playing days are over," Feller said.

AGANA HURLER—On the slim shoulders of Bob Granger will rest a large part of the load when the NAS Agana team begins play in the Inter-Command Softball League this month. "Pappy" was the top pitcher for NAS last year and Coach C. H. Nunnally says he will be an important cog during the coming campaign.

Graziano-Zale Fight Site Remains Problem

by Jack Cuddy

United Press Sports Writer

NEW YORK, —(UP)— Now that Joe Louis has signed to defend his title at New York in June, the next hot question in boxing is this: When and where will Rocky Graziano defend his middleweight crown?

Rocky, who hasn't fought since he wrested the 160-pound championship from Tony Zale at Chicago Stadium last July 16, began training this week at Stillman's gym for his 1948 campaign.

Rocky Blubbery

The Brooklyn slugger, who weighed 155 and one quarter pounds for Zale, has blown up to 172—heaviest of his career. He appears blubbery, and he doubtless will have difficulties paring down to the 160-pound limit for a defense.

It is not likely that he will be able to defend in New York state, where his license was revoked last February because of his failure to report three offers of bribes to throw a fight that never was held.

And it's practically certain that he will be unable to put his title on the line in any of the several states where commissions or legislatures have barred fighters who received dishonorable discharges from the armed services. Those bars were put up after the War Department disclosed that Graziano had received a dishonorable discharge from the Army because of prolonged absence without leave.

Ugly But Popular

ATLANTA, Ga. (UP) James M. Galey, a Georgia Tech senior from Pensacola, Fla., is president of the student chapter of the American Society of Civil Engineers, president of the Chi Epsilon honorary fraternity, business manager of the Georgia Tech Engineer, treasurer of the Bulldog Club and president of the Kappa sigmas. He also was voted another title—Ugliest Man on the Campus.

NAS Agana Looms as Strong Contender for Softball Title

Last Sunday afternoon slight Bob "Pappy" Granger set down the First Marine Brigade softball team without a single bingle in a practice game that may well be a preview of what NAS Agana's foes will be up against throughout the entire season coming up.

Coach C. H. Nunnally's charges, 23 strong, with only two holdovers from last year's squad will be counting heavily on the pitching of Granger, Durl Wilson and D. O. Abernathy to pull them through the 26-game schedule. Last year Granger had a perfect record of 11 victories and no losses until the elimination playoffs, when he lost two games—both of them to the champion ComMar team.

In the month the squad has been working out, Nunnally, in his first year as coach of the Agana team, has picked out the nine men who likely will start for the air station. He has a double-barreled weapon in Granger, a smooth all-around player who has doubled at first and second base. Shortstop is all but sewed up by Rocky Aldea, a Brooklyn lad playing his first year of local softball. Shorty Collins, another New Yorker who pitched for the USS Hinsdale last year, looks like a sure bet for third base with a few pitching chores thrown in on the side.

Norman—Williams, a veteran of last year's squad will probably get the nod again for center field, with G. E. Pierce and S. L. Alexander battling all comers for the other two garden spots. Roy Dumas looks like the man who will start behind the plate. The other infield spots stack up as an even battle between W. G. Hardy, E. J. Johnson, W. A. Greene and S. W Smith.

It will be hard to tell just what sort of team the Airedales will have until they open the season February 15 on their home field against the Fifth Service Leathernecks.

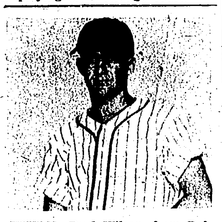
Garden Gambling Nullifies New York Cagers Advantages

NEW YORK, —(UP)— Madison Square Garden's basketball department holds all sorts of records it can be proud of but its long fight against gambling apparently is a losing proposition.

The kids playing the game are exposed to tremendous pressure from certain fans whose cheers or boos are regulated entirely by the odds or point spread offered by the bookies.

Not so long ago, teams from other sections felt they were at a great disadvantage playing on the Garden court under conditions unlike any other spot in the country. If the story of N.Y.U.'s Don Forman is an example, the disadvantage is with New York teams.

Forman was quoted as saying the bookie rumors had made him sick with worry and that he had considered quitting school. All the outside teams have to worry about is playing on a strange court.



TEXAN—Durl Wilson, from Dallas, will be called upon to carry his share of the load when NAS Agana gets the season going against 5th Service.
(Guam News Photo)

Players Sign Contracts

NEW YORK, —(UP)— The New York Yankees have announced the receipt of a signed contract from Right-handed Pitcher Vic Raschi, who beame the 22nd player to agree to terms for the 1948 season.

* * *

CINCINNATI, O., —(UP)— Ray Mueller, who shares first string catching duties with Ray Lamanno, and three promising rookies signed their 1948 contracts with the Cincinnati Reds recently.

* * *

ST LOUIS, —(UP)— The St. Louis Cardinals reported the signing of Infielder Al (Red) Schoendienst, Pitcher Al Brazle, Catcher Joe Garagiola and Rookie Infielder Tommy Glaviano.

BPM Camps Bring 'Stateside' Living to Guam

by Stacey

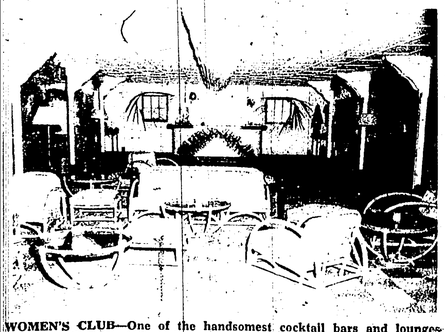
Among the civilian construction camps on the Island, the Brown-Pacific-Maxon camps are perhaps the best developed. The B.F. Brown company which has contracted with BPM to provide a 'home away from home,' including living quarters, meals and recreational facilities, for the civilian workers employed there, is constantly improving and enlarging the camp.

There are three Brown-Pacific-Maxon camps on the Island at present. Camp One, the main site is located near Barrigada Village, Camp Two near Apra Harbor and Camp Quezon or Camp Three near the Guam Memorial Hospital, for Filipino workers. Of these, Camp One is the oldest and consequently the better developed, but construction is already underway to bring all three camps to a level which would compare favorably with a small town in the States.

RECREATION CENTER FOR BPM—The recreation office and library for BPM Camp One is shown across the basketball, tennis and badminton courts. This office is the center of the extensive recreational organization of the BPM camps. (Guam News Photo)

SMALL MODERN HOSPITAL—Dr. I. A. Darling, assisted by Nurse Ruby Cox examines one of BPM's employes in the well equipped Camp One hospital. The hospital staff includes two doctors, two dentists, an optometrist and several nurses. (Guam News Photo)

LIBRARY AND READING ROOM—This library has a small, but select store of books ranging from mysteries to classics to tempt any appetite in reading material. The books are purposefully mixed on the shelves so that you may run across several interesting books before you come to the one you are looking for. (Guam News Photo)



WOMEN'S CLUB—One of the handsomest cocktail bars and lounges on Guam, this beautiful club is devoted entirely to the women employed on Guam and their dates. (Guam News Photo)

Small City

In fact, Camp One might already be classed as a small city. It has it's own well stocked grocery store; a small hospital with a staff of two doctors, two dentists, an optometerist and several nurses; a post office which has a second class rating of the United States Post Office Department; a small but select library; the beautiful "Chapel in the Palms," where both Catholic and Protestant services are observed each Sunday; a movie theatre; night clubs and a soda fountain.

There are many types of recreational facilities among those now in use are basketball, tennis, volley ball and badminton courts, probably the finest pool parlor on Guam and reading and writing rooms. Also available to the BPM workers is Camp Ethridge, one of the best developed beaches on the island. Camp Ethridge features Guam's only concrete swimming pool, the luxurious Coral Club, a "for men only" club located just a few feet from the surf and surrounded by the jungle, and will soon have a steak house to furnish sandwiches and refreshments to picnickers.

Not Satisfied

Recreational directors are by no means satisfied as yet, however, and plan to add a twelve line bowling alley, an archery range, a small gymnasium, a hobby shop and a boxing arena in the near future. Construction is already underway on the boxing arena and bowling alley. They are expected to be ready for use within the next two months.

This program has already proved itself to be a great boon to the civilian workers on Guam. After the American reoccupation of Guam there was practically no recreation for a worker. Every effort was being turned toward rebuilding vital installations and at that time it was impossible to furnish recreational facilities for the men doing the job. As a consequence, some men turned to the beer halls to help while away leisure hours. The inevitable happened, and several men were killed or badly injured in fights and knifings.

Recreation for Men

Later more pressing jobs had been attended to and it was possible to devote a little time to provide more satisfying recreation for the men. A recreational department was set up by the B. F. Brown Co., with equal importance to other departments.

Every effort was made to put the recreation program across, and in a short time it bgan to pay dividends. Interest spread rapidly, until today it is estimated that at least 75 per cent of all BPM's employees take part in recreational activities of one form or another.

No Injuries

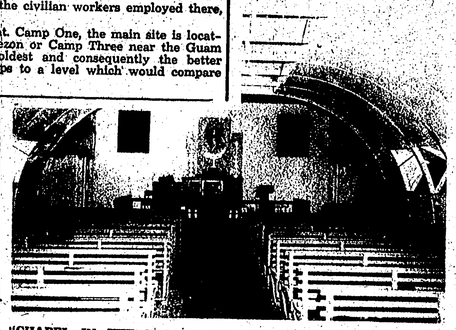
The program also paid handsome dividends in another form. It has been several months since there has been a report of a man injured in a brawl.

Contract employees coming to Guam are more often than not agreeably surprised by the many facilities conducive to comfortable living offered them. Prior to hiring prospective workers, all BPM applicants are fully informed concerning Guam's disadvantages. Inclement weather, irregular mail service, rugged jobs, isolation and dangers of intoxication, and construction camp living conditions. Most employees find life on Guam more pleasant than it was orginally presented.

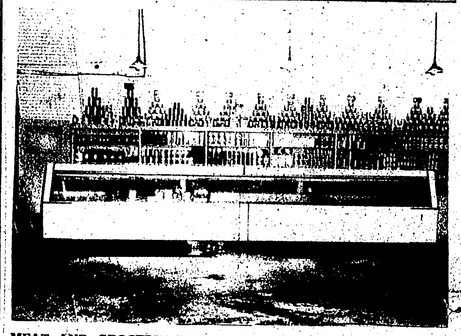
Premium Wages

Guam also offers premium wages for employment, inexpensive living and an excellent opportunity for saving money. Lodging, meals and incidentals such as laundry service are provided for only $6.30 per week and it is estimated that, depending upon job classification, an employe may save three to five thousand dollars during one year's service.

(Guam News Photos by Gilbert)

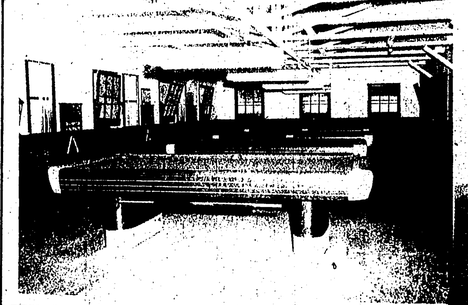


"CHAPEL IN THE PALMS"—This chapel for the BPM workers is one of the most beautiful on the Island. Both Protestant and Catholic services are held here each Sunday for the stateside worker on Guam. (Guam News Photo)



MEAT AND GROCERY COUNTER of the small but well stocked store maintained at Camp One for dependents of BPM. Besides selling groceries, this store carries a complete stock of dry goods, hardware, notions and magazines. (Guam News Photo)

MEN'S CLUB—Catering to the male employes, this club is the ideal place to spend an evening. All types of mixed drinks and snacks are cold, and the club will easily accomodate 250 persons. (Guam News Photo)



BEST POOL HALL ON THE ISLAND—This strictly modern eight table pool parlor is entirely equipped with the best stateside equipment available and is probably the finest on the Island. The hall features both pool and snooker tables. (Guam News Photo)

House Democrat Leaders Agree on Tax Bill

WASHINGTON, Feb 1 —(UP)— House Democrat leaders agreed today on a bill to reduce individual income taxes and raise corporation taxes as a substitute for the $6,500,000,000 Republican tax cut measure.

The Democrat bill will be offered in the House Monday. But the Republican bill is virtually certain to win House approval. It will then go to the Senate where chances reducing the amount of tax cut are likely.

Meanwhile, it was learned that Senate and House Republican leaders on appropriations matters have agreed tentatively to try to cut $3,000,000,000 off President Truman's $39,668,000,000 spending budget for fiscal 1949.

They planed to submit these recommendations to the joint legislative budget committee and then to both houses of Congress. Democrat substitution aimed at providing individual income tax relief without impairing federal revenue, was worked out in a long meeting in the office of House Democrat Leader Sam Rayburn of Texas.

It would:

1. Raise the individual income tax exemptions of the present $500 to $700—cutting federal revenue an estimated $3,200,000,000.

2. Extend the community property "split income" principle to all states—cutting federal revenues an estimated $803,000,000.

Russia's 1948 Armed Forces Budget Less

MOSCOW, Feb. 1 —(UP)— Russia's armed forces budget for 1948 will total $13,188,600,000, slightly less than last year, but funds for "big-scale" scientific research have been increased seven per cent to an undisclosed total, Finance Minister Arseni Zverev announced today.

(President Truman has requested $10,746,000,000 for U.S. National defense expenditures for the 1948-49 fiscal year but this includes military research.)

Zverev told the supreme Soviet that total expenditures for the year had been set at 378,900,000,000 rubles ($75,780,000,000), against income estimated at 429,000,000,000 rubles (about $85,600,000,000).

The balance between revenue and expenditures would leave a surplus of 40,100,000,000 rubles (about $8,020,000,000).

The proposed arms expenditures would be 17 per cent of the total budget, Zverev said. He pointed out that the 1948 military budget was 1,057,000,000 rubles (about $211,400,000) less than last year, when it represented 18 per cent of the total.

Wiley Reports Of Decentralization

WASHINGTON, Feb. 1 —(UP)— Sen. Alexander Wiley, (R—Wis.,) reported tonight that Defense Secretary James Forrestal and the joint chiefs of staff are studying decentralization of the armed forces and the federal government for security against war.

Writing in "The Reserve Officer" Wiley said atomic war with Russia could turn this capital instantly into a death trap for American liberty." Asserting that "we are now living in a fool's paradise of apathy and inertia," Wiley added:

"We must decentralize or risk a destiny of national extinction."

He also wrote to Forrestal, he disclosed in the official publication of the Reserve Officers Association, "urging him to influence his colleagues in the cabinet to make the necessary plans for decentralization for purposes of national security."

He said Forrestal replied:

"I heartily agree with you that decentralization of federal activities is advantageous from the viewpoint of national defense."

Trains Pans Young

CHICAGO, Feb. 1 —(UP)— Robert R. Young, railroad financier who has taken his fight for "railroad improvements" to the public through newspaper advertisements, was accused today of working up "public enthusiasm" about side issues.

The editors of Trains Magazine suggested that Young turn his "exceptional gifts of persuasion" to an "Aggressive, positive program on big things, not little."

They challenged him to develop and publicize a fundamental program to correct the "earnings plight of the roads."

Orville Wright, Co-Inventor of Airplane, Dies

DAYTON, O., Jan. 31 —(UP)— Orville Wright, 76-year-old co-inventor of the airplane died at 10:40 p. m. tonight at Miami Valley hospital.

Wright was taken to the hospital Tuesday after he collapsed at his office here. He had been suffering from a lung congestion and coronary arteriosclerosis, hardening of the arteries.

His physican, Dr. A. B. Brower, said he was very serious earlier in the evening and at 10:40 p. m. he stepped out of Wright's room at the hospital to announce that he died.

Wright, who, with his brother, flew the first heavier-than-air craft at Kittyhawk, N. C., Dec. 17, 1903 collapsed in his laboratory office here Tuesday afternoon. It was his second collapse in four months, but Dr. Brower at first did not believe it as serious as the one on last Oct. 10.

At Bedside

Horace A. Wright of Dayton, a nephew, and his wife, and a niece, Mrs. H. S. Miller, also of Dayton, were at the famed inventor's bedside when he died.

Although living in semi-retirement for several years, Wright had been an almost daily visitor to his laboratory. He seldom attended public affairs, but two or three times a year visited the Air Force's Wright Field, just east of here. When he did accept an invitation to a civic event, the silver-haired air pioneer would not speak.

Weather Forecast

Partly cloudy. Widely scattered showers. Moderate easterly winds with occasional fresh gusts.

Yesterday's temperature: Max. 84; Min. 73.5.

Yesterday's rainfall: Trace.

Rainfall for month: Trace.

Massachusetts Has State of Emergency

BOSTON, Feb. 1 —(UP)— Gov. Robert F. Bradford of Massachusetts decl·red a state of emergency today and seized the Everett plant of the Eastern Gas and Fuel Associates to prevent a strike that would have cut off service to nearly 1,500,000 greater Boston residents.

At the same time, Atty. Gen. Clarence A. Barnes obtained a temporary injunction in superior court restraining employes from "engaging in or aiding or encouraging any concerted cessation of work."

Forbids Interference

The injunction issued by Superior Judge Frank G. Donahue also forbade employes from "any other concerted activity interfering, or threatening to interfere, with the operation of any of the plants and facilities of the Eastern Gas and Fuel Associates."

Immediately after seizing the plant, Gov. Bradford named Brig. Gen. Ralph G. Boyd of Newton to act as administrator of the plant as long as it remains under state control.

The governor's seizure followed his statement that it would be "the worst disaster in the history of New England" if the union members walked out over company refusal to grant a 15-cent hourly wage increase.

"A strike at this plant would be a calamity," the governor said. "Hospitals would be without means of serving meals and sterilizing instruments. Hotels, restaurants, private houses would be cut off from the necessary means of preparing meals; many manufacturing plants would be obliged to close and many houses, now heated by gas, would have no heat.

He said that if the strike had once begun, it would have taken three months before gas could be safely turned on again in the buildings which now use it.

Italy Warns U.S.S.R. Against Protests

ROME, Feb. 1 —(UP)— The Italian government, aroused by Soviet protest about the presence of American warships in Italian waters bluntly told the Russians to mind their own business.

In a terse communique, the Italian government warned Russia that "sovereign" Italy "is the only one to judge if there is any reason to raise objections or take protests" concerning United States ships in Italian ports.

The Soviets had protested to Washington that the presence of the warships was a violation of the Italian peace treaty. Announcement of the complaint was made in a Moscow broadcast, and the Italians said they never had been informed formally of the move.

New York Rations Oil

NEW YORK, Feb. 1 —(UP)— Mayor William O'Dwyer announced today a priority system for the distribution of fuel oil which may force non-essential industries in the nation's largest city to close.

Following a meeting at city hall with representatives of eight major oil companies, O'Dwyer announced: "There is not enough oil in the city, or available to the city to supply every user."

Therefore, he added, oil will go only to dwellings, hospitals, institutions, public utilities, transportation and communications, food and restaurant stores, school and health facilities.

Republicans Seek to Change Marshall Plan

WASHINGTON, Feb. 1 —(UP)— A group of Republican Senators, seeking major revisions in the Marshall plan agreed at a "strategy meeting" tonight to fight for an "entirely different approach" on European aid.

Sen. Joseph H. Ball, (R-Minn.) spokesman for 18 GOP Senators who met in the downtown apartment of Sen. Clyde M. Reed, (R-Kan.) told reporters the group would seek to re-write the administration bill completely.

U.S. Controlled Program

Instead of putting up American funds to "underwrite the trade deficits" of the 16 western European democracies, he said, his group favored "an American directed and controlled program to break production bottlenecks."

He said there was "general agreement" among the 18 Senators that foreign aid should be handled by an independent administrator, who would report at frequent intervals to a special "watchdog" committee of the House and Senate.

The State Department would be relegated to the role of negotiating agreements with recipient countries "under the direction of the administrator."

Ex-GI Foresees Possible Civil War

NEW YORK, Feb. 1 —(UP)— Russel Haight, adventure-seeking ex-GI just returned from fighting with the Moslems against Hindus, said today the assassination of Mohandas Gandhi could well touch off a full-scale civil war in India.

Bedecked in a baggy jungle uniform and a turban, Haight, 26, of Denver, Colo., arrived by plane from India today to learn that the country had been thrown into even greater turmoil by the slaying of the revered Hindu leader.

Close Call

Haight was carrying his Stetson hat and displayed a hole in the crown which, he said was made by a bullet. Although he "took care" of his would-be killers, he said, that incident persuaded him he should get out of India and return to his wife and 15-month-old daughter in Denver.

Haight said he got into the Moslem-Hindu fighting "just for the hell of it," he thought Americans should stay out of the fracas and, as for the principles involved, "I couldn't care less."

He said he was persuaded to help the Moslems of Sadar Ibrahim Khan, president of the Azad Kashmire government, who "cried on my shoulder," and asked Haight to help and promised him a good job when the war was over.

Brigadier General

While he was fighting with the Moslems, his company "knocked off a hundered Sikh and Hindu outposts," he said. Then he had an argument with the commander about strategy and Ibrahim then made him a brigadier general, commanding more than 2,000 men.

"My men were all good soldiers but they had no imagination," he said. "If I had two bazookas and 10 American army men I could take all India."

The war is certain to spread, Haight said.

"They're all trigger happy," he said. "They are slaughtering each other and having fun so let them alone."

War Committee Out

WASHINGTON, Feb. 1 —(UP)— The Senate War Investigating Committee which started seven years ago under the chairmanship of President Truman loses its investigating powers at midnight.

The last public hearing was held yesterday. It was dull and quiet in contrast to the klieg lights, crowds of spectators and other fanfare which highlighted many of its previous sessions.

Truman Asks For Aid on Grain Conservation

WASHINGTON, Feb. 1 —(UP)— President Truman asked the nation's whiskey-makers today to go along voluntarily for a while with the government grain-use restrictions, even though his power to enforce the curbs expires at midnight.

In an unusual action—but about the only one left to him under the circumstances—Mr. Truman appealed to distillers not to increase their use of grain for whiskey even though they are legally free to do so beginning tomorrow.

Mr. Truman acted in the face of congressional refusal to extend the government's limitation controls beyond tonight's expiration deadline. The Senate has passed a resolution to extend the controls for one month, but it is locked-up in the House Banking Committee.

Under the allocation program in effect during January, the distillers got 2,500,000 bushels of grain.

Union Pacific Streamliner Derailed

NORTH PLATTE, Neb., Feb. 1 —(UP)— A trainload of 214 persons escaped death yesterday when the Union Pacific's City of San Francisco streamliner, traveling at 78 miles an hour was derailed on the Nebraska plains 28 miles west of here.

Wreckage of 15 cars was strewn on both sides of the right-of-way.

Union Pacific headquarters said only 18 persons were injured, none seriously. Seven others were examined but were released after no apparent injuries were discovered.

Aboard the train were Roy W. Howard of Scripps-Howard newspapers; Mrs. Howard; Ben Foster, Howard's Secretary; Babe Pinnelli, Major League umpire enroute to New York for a staff conference and Charles J. Graham, Pittsburg, President of the Pittsburg and West Virginia Railroad. None were injured.

Public Workers Union Calls Off Strike

ROCHESTER, Minn., Feb. 1 —(UP)— The CIO Public Workers' Union today called off a strike which would have curtailed operations of the famed Mayo Clinic.

The union had set midnight Sunday for a walkout at four hospitals, three hotels, a cafeteria and a laundry operated by the Kahler Corporation.

The Mayo Clinic, which has no hospital facilities of its own, sends many cases to the Kahler hospitals. Had the strike materialized, the clinic would have been forced to curtail sharply its examination schedule.

However, union and corporation officials met through the night with state labor mediators and early today announced agreement on a seven-cent hourly pay boost for the nearly 700 union members involved.

Secretary of Commerce W. Averell Harriman today slashed petroleum export quotas by 18 1-2 per cent for the first three months of this year and said he will ban all oil exports from areas where supplies are scarce.

State Department To Reject Soviet Protests

WASHINGTON, Feb. 1 —(UP)— State Department sources indicated today that Russia's two protests against American Naval and air activities in the Mediterranean will be rejected.

The Soviets protested in separate notes, the latest of which was received here yesterday, that the American operations violated the Italian peace treaty terms.

Early Next Week

The American replies probably will be delivered to the Soviet government early next week, these informants said.

The first note protested the reopening of the wartime American air base at Mellaha, Tripoli, near Libya.

The second complained against the continued presence of American warships in Italian waters.

The Soviets charged that both actions were in direct violation of the Italian peace treaty—a version the United States is expected to deny emphatically.

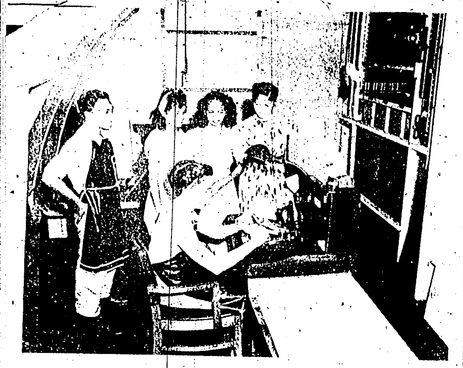
Diplomatic sources believed the protests were part of the over-all Soviet propaganda pressure being applied to the Mediterranean area. They said that one Russian objective, apparently is the defeat of Italian Premier Alcide De Gasperi's anti-Communist government in the elections scheduled for March.

British Troops to Protect Palestine

LAKE SUCCESS, N. Y., Feb. 1 —(UP)— Great Britain's opposition to early formation of a Jewish Holy Land militia stopped cold today the first effort of the United Nations Palestine Commission to protect the partition program against militant Arab opposition.

British Delegate Sir Alexander Cadogan advised the commission that British troops and influence will be used to protect it only for a two-week period—a short interval between the commission's arrival in Palestine and the termination of the Palestine mandate on or about May 15. Cadogan said his government would not relent in its refusal to admit the commission to Palestine any more than two weeks before the mandate ends.

H added that Britain would not permit formation of a Jewish militia in the projected Jewish state of Palestine in advance of the mandates end. This was a sharp blow to the UN commission, which only two days ago decided to go ahead with formation of a Jewish militia as steps towards nullifying the violent Arab fight against the UN plan.



HIRAM ELLIOTT illustrates the mechanism with which the Elliott's Photo Supply store turns out three hundred rolls of processed film in one hour. The store opened formally last Saturday, and in view of the fact that it is the only one of its kind on Guam, should do a bang-up business (Guam News Photo)

AGANA—The formal opening of the Elliott's Guam Photo Supply store in Agana Heights to the people of Guam and the Trust Territories last Saturday marked the first time since the war that photographic supplies have been readily available to the general public.

Prior to the recently world conflict, Mr. Hiram Elliott, owner and proprietor of the store, held a similar establishment, but it was completely demolished during the reoccupation.

Much new modern equipment graces the new store, and with a staff of competent personnel, Mr. Elliott says they can completely process three hundred rolls of film per hour.

It was also announced that sub photo service stations will be forthcoming at various points around the Island for the convenience of the customers

Old Look Challenges New Look

SWEET HOME, Ore. —(UP)— The "old look" challenged the "new look" in Sweet Home, where 76 bearded men have renewed their pledge of "no shave until St. Patrick's Day."

The men decided it was high time to do something about the long skirts and padded hips worn by their wives. They said their ultimatum was ignored.

"Well, if the women folks can dig up the kind of clothes that were popular a long time ago, we can do the same," one of the men suggested.

And others agreed with him. They started growing beards.

The group didn't pick a fancy title. It merely referred to itself as "mere males." But they set up a brief rule:

Any member who shaves before March 17, St. Patrick's Day, will be fined $30.

Nobody broke the rule. Not yet. The result is a crop of beards which would please the pioneers who long ago lived in this western Oregon sawmill town. (Sweet Home's present population is 1,000.)

Navy Enlistments Near Quotas

Navy enlistments and reenlistments for December, 1947, totaled 14,309, which was more than 95 per cent of the monthly quota of 15,000. It was the fourth consecutive month the total has been more than 95 per cent of the quota.

Worst in December

New recruitments in December, a month traditionally is the worst in the year for recruiting, were 6,272, and reenlistments were 8,037. November enlistments and reenlistments equalled 98 per cent of quota; while both the October and September totals were above the 99 per cent of the figure sought during the respective months.

"Last July and August we were farther below our monthly quotas," Rear Admiral T. L. Sprague, USN, Chief of Naval Personnel, said. "Now we find we have recruited and reenlisted 83,398 men during the first half of the fiscal year. This represents over 92 per cent of the cumulative quota for the six months.

Shipbuilder Cited

Mr. John Green, President of the Industrial Union of Marine and Shipbuilding Workers of America, today was presented the President's Certificate of Merit for his outstanding contribution to the shipbuilding programs of the Navy and the Maritime Commission during World War II.

Presentation Made

Secretary of the Navy John L. Sullivan made the presentation at a ceremony in the Navy Department.

Mr. Green, who served on the Shipbuilding Stabilization Committee, organized under the War Production Board and later transferred to the Department of Labor, was largely responsible for the recruiting and stabilization of skilled labor for Naval and Merchant shipbuilding and ship repair industries, particularly in shipyards along the Atlantic and Gulf coasts and in the Great Lakes area.

Police Seize Nude

SAN JOSE, Calif. —(UP)— The nude nymph who swam solo in the YMCA pool was caught by police recently—again in the nude, this time in the powder room of the Greyhound Bus Depot.

Police booked Violet Boonici, 25, a plump brunette, on charges of vagrancy and indecent exposure after an excited bus patron called and said "There's a naked woman in the bus depot."

Police matron Ida May Gregory helped Miss Boonici into her clothing for the trip to the station.

The matron said Miss Boonici told her she went to the YMCA plunge—usually the exclusive sanctuary of males—just because she "liked to swim."

The door was open, no one was around, so she walked in, shed her fur coat and other clothes and took a dip, she reportedly said. An attendant, hearing noises at a time the pool was supposed closed, investigated and was spotted by Miss Boonici, who immediately fled.

"I just like to take my clothes off," she explained.

Municipal Workers Get Wage Boost

Municipal employes in scores of cities are getting wage increases, according to the Municipal Finance Officers Association.

Pay rises for 1948 have been granted workers in Chicago, Denver, Omaha, Milwaukee, New York and other cities, the association said.

Cleveland is granting wage boosts which will cost the city $2,100,000 this year. Firemen and policemen got a $240 yearly raise plus six new holidays to be added to annual furloughs.

Cleveland's white collar employes will get a $180 annual rise if they make less than $3,000 per year. If they make more than that, the increase will be 6.5 per cent.

Pittsburgh's city councilmen earmarked $1,200,000 for municipal pay rises effective in January. The biggest rises went to employes getting $2,000 a year or less. Those receiving $3,000 or more get a flat $150 annual increase.

Omaha has given all city employes a flat $15 monthly rise. The increase will affect about 1,260 workers—civilian, police and fire personnel. The total cost to the city is estimated at $250,000 his year.

Shirley Temple Becomes Mother

HOLLYWOOD —(UP)— Shirley Temple, the movies' most famous childstar, reminded th world Saturday it wasn't getting any younger. She had a little girl of her own.

The "Little Miss Marker" of the 1933 screen gave birth to a junior edition and mother and daughter are doing fine, doctors reported.

Shirley's growing up to motherhood caught movie stars around town feeling like doddering hasbeens. It seemed like only a week before last the be-dimpled Shirley was bouncing on their knees.

Miss Temple, still be-dimpled but a grown up 19, began the current episode of her real life story long before dawn this morning.

At 2:30 a.m., Shirley's husband, actor John Agar, sped her to the hospital. He paced the floor until the baby—Shirley's mother says she'll be named Linda Susan—arrived. His mother and both parents were on hand, too.

As the nurse wheeled Shirley out of the delivery room, she murmured "What is it?"

"It's a little girl, honey," Agar whispered.

"Is she cute?" Shirley asked.

"She sure is!" Agar grinned. "Looks just like you."

Adm. McCrea Arrives At Pearl Harbor

Vice Admiral John L. McCrea, USN, the new deputy Commander in Chief of the United States Pacific Fleet, accompanied by his wife and two daughters, Meridith and Ann, arrived in Pearl Harbor Wednesday aboard the Navy transport, USS General Randall.

The Admiral will assume the position formerly held by Vice Admiral Harold B. Sallada, USN, who is now the Commander Airforce, U. S. Pacific Fleet.

Task Force 38 On Pacific Cruise

Six ships of Task Force 38 led by the carrier Valley Forge, left Pearl Harbor Jan. 16 on a 30 week cruise to the Antipodes islands and ports in the Orient, and are scheduled to arrive at Guam March 12.

Besides the carrier, the force is made up of the destroyers W. C. Lawe, Lloyd Thomas Keppler, and William M. Wood, and the fleet tanker Mispillion.

First stop of the itinerary is Sydney, where the task force arrived on Jan. 30. It will leave Sydney on Feb. 4, arriving at Hongkong Feb. 16.

The group will leave Hongkong three days later and will arrive at Tsingtao on Feb. 26.

Their last port of call before calling for Guam on March 8 will be Yokosuka, where they are due to arrive on March 4.

They will leave Guam March 16, and return to Pearl Harbor March 24.

Court to be Moved

CHICAGO —(UP)— Chicago's "cafeteria" traffic court is being moved to huge Soldier Field to handle an expected 1,000,000 traffic violators who will be arrested in 1948 under a stepped-up enforcement program.

The decision to use the entire west wing of the stadium came after municipal judges protested that police headquarters was inadequate to house the court under the unprecedented traffic program.

MarBo Chaplains Hold Conference

MARBO—A conference of MarBo Base Command chaplains will be held February 2nd to the 5th to consider all the far-flung activities of morale and morals pertaining to that command at the V.I.P. house in Agafo Gumas.

Among other things to be considered at this conference, according to Chaplain Loron Jenks, chief of chaplains, is the relationship of religion in its application to the problems of our personnel; to consider old techniques, to seek new techniques and methods to reach and teach the power of living good in individual and personal life, and to improve the quality of content and vehicle of persuasion.

Brig. Gen. J. S. Bradley, commanding general, base command, will speak to the group on Wednesday, February 4 as will the chief of staff and the director of personnel.

Special time has been set aside to consider personnel problems, questions of administration, religious coverage and public relations, plans and training, and supply, funds and property.

A picnic trip to the village of Umatac will be made on Thursday, February 5 with plans to include a discussion after a picnic lunch there.

The operations of the post exchange will be a topic of discussion and a visit to the post exchange will be made. The new commissary sales store and the officers sales store will also be visited by the chaplains.

Miss Vera Vincent, command hostess, will explain the operations of the service clubs to the group. Visits will be made to the Allegator Rendezvous, Aero Club, Pacific Paradise, Palm Terrace and the MarBo Club. The visitors will see portions of the planned programs in progress.

Chaplains from Iwo Jima and Saipan as well as the other chaplains from the MarBo Base Command will be in attendance.

LT. COLONEL JASPER L. SEARLES, Palo Alto, California attorney, has been named Staff Judge Advocate at MarBo. This is not the first assignment of the Colonel to the Pacific area. He served as director of port operation with the 53rd Medium Port T. C. in the Okinawa campaign. He also had service at Fort Mason, California. He is a former member of the Board of Governors of the San Francisco Bar Association. (Signal Corps Photo)

MR. J. W. DAVIS, Attorney General of Guam, greets his wife who arrived on Guam Thursday from the States on the USS Gen. Mitchell. (Guam New Photo)

MarBo VD Control Council Meets

MARBO — The monthly meeting of the MarBo Venereal Disease Control Council met in the office of the council president, Colonel Broadus McAfee, headquarters at MarBo.

The surgeon's office at MarBo reported a decrease in VD rate from the previous reported period in November. The Venereal rate dropped to 27 per thousand annum from 32.97 cases per annum for the previous period.

Representatives of the Department of Public Health, Air Force, contractors and the Army were present at the meeting.

Earth Slowing Up, But Very Slowly

SCHENECTADY, N. Y. —(UP)— The earth is slowing its rotation and the day eventually will be 48 hours long.

The process is a slow one, however, increasing the length of the day about a thousandth of a second very century, General Electric scientists have concluded. It is caused by the braking action of the waters of the earth as they flow by tidal movements over shallow areas.

The same effect causes the moon to recede from the earth and thus makes the month longer as well. The maximum effect will come millions of years hence when, the day and the month will be the same, equal to about 47 days of our present days.

HAWAIIAN SOLDIERS LEAVE HOME—A final or farewell song to their friends in the 501st Engineers was given by the Hawaiian soldiers before their departure today for their native land. "Aloha Oe" sounded pretty fine when sung by these young soldiers. Some of them are leaving the service for the university. Others went home for reassignment. Standing are (L to R) T-4 T. Kidlo, T-4 H. Ono, T-5 G. Abalos and seated, T-5 K. Togame. (Signal Corps Photo)

Harmon Field Conducts Emergency Air Service

HARMON FIELD—The emergency flight evacuation service in operation at Harmon Field is under the direction of 1st Lt. Roy Wiggins, flight surgeon for the Marianas Air Materiel Area Headquarters.

In co-ordination with Air Transport Command, Marianas Airways, and the 374th Troop Carrier Group, the patients are transported by air to Harmon Field, then by ambulance to the 22nd Station Hospital for treatment. Persons needing medical attention and located on Saipan, Tinian, Rota, Momote and other outlying islands in the Marianas Air Materiel Area are evacuated at the request of the local medical authorities.

Personnel actively engaged in medical flight evacuation duty are: 1st Lt. Mamie Sanders, flight nurse; T-Sgt. Edward C. Elsworth, T-Sgt. Alston Kitchen, Cpl. James Price, and Pfc. Ancil May, all of the 239th Medical Dispensary Unit.

U.S.-British Combined Chiefs Function 'as Long as Necessary'

by William F. McMenamin—United State Staff Corresponden

WASHINGTON —(UP)— The British-American combined chiefs of staff set up during World War II to co-ordinate the armed forces of the two countries still are functioning today in a quiet corner of the Pentagon building.

Defense Secretary James Forrestal's staff reports they will continue to function "as long as necessary."

The combined chiefs were established in February, 1942, to co-ordinate "all the factors of military intelligence, transportation, munitions, staff planning, meteorology and communications" of the two nations.

With every element of global combat at their fingertips, the combined chiefs were the nerve center of the allied war effort.

Section Roped

That co-ordination of the war effort never has been dropped. A special section of the Pentagon is roped off against the curious, with war-time secrecy still set aside for the combined chief.

They function as a unit directly under the President of the United States and the Prime Minister of Great Britain.

That authority for the combined chiefs of staff came from an executive order issued by President Roosevelt. It resulted from joint Roosevelt-Churchill conversations.

May Cease

The combined chiefs, appointed in war emergency, may cease to function with the termination of the President's emergency war-time powers. The arrangement is not supported by any official treaty or pact between the two nations.

There have been reports, all unconfirmed, that the combined chiefs work on the joint improvement and exchange of newly developed weapons of war and on Arctic defenses for the joint defense of Canada and the United States.

Board Lacks Head

The combined chiefs do not have a combined staff as such. They get together parts of each staff to form a special body to investigate special problems as they come up.

There is no head. They simply nominate someone to preside when they meet.

Customs, Immigration Made Separate Unit

AGANA — The Department of Customs and Immigration which has been, during the period of organization, a section of the Department of Records and Accounts is now fully organized and is made a separate department as provided by the codes of Guam.

Lt. Comdr. A. H. Gabriels will continue to act as collector of Customs and Commissioner of Immigration, with Mr. Horace A. Brown as Assistant Collector of Customs and Commissioner of Immigration with offices in the Custom House at Piti.

Marshallese Receive Business Training

An opportunity to become more proficient in modern business dealings and to acquire the ability to take care of heir own affairs was offered recentlv to the people of Majuro, with the announcement by Lcdr. C. E. Herrick, USN, Civil Administrator of Majuro District, of the opening of a bookkeeping class for the Islanders.

A sound knowledge of bookkeeping and business affairs is essential to the Marshallese as they assume more and more the responsibilities of the business activities of the Island.

Already, the activities of the Island Trading Company of Micronesia have given the people a slight insight into the mechanics of business tranactions and procedure, but the number of persons gaining the necessary experience is not great enough to cope with the situation when the Marshallese shall have to carry on their own affairs.

The class, which convenes twice weekly on Tuesdays and Fridays, will be taught by Lcdr. Herrick. Knowledge and experience gained through the attendance of these classes will be put to use in the organization and management of small stores, restaurants and other school projects.

The Office of the Foreign Liquidation Commissioner is offering the following maritime items for sale: Four LCTS, Nos. 1324, 493, 1140 and 1157, and one concrete barge No. 1X-149, in poor condition, located at Apra Harbor. Diesel engines including 41 Gray Marine, 1 Hercules, 1 Chrysler, 2 Hall Scott, and 2 Hudson, located at SSD, NSC and Piti small craft yard.

Arrangements for inspection trips may be made through the Maritime Director, OFLC, AT 8201.

We are the distributors of WILSON'S complete line of Sporting Goods for the Marianas-Bonin Command.

Over The Joepot

by Bill Jury

Baseball's bible, the "Sporting News," has come up with another article on St. Louis' two ball clubs, the Cards and the Browns. This time the speaker is none other than former Redbird pilot, Sam Breadon.

The "Smilin' Irishman," who recently sold his interest in the Cardinals for a reported $4,000,000 has decided that St. Louis cannot support two major league teams. "In fact," says the man who started as a popcorn vendor and wound up with the Cardinal empire in his mitt, "Without lights at Sportsman Park even one club would have a difficulty in keeping out of the red ink in St. Louis.

It has long been a topic of conversation among diamond fans that one of the two St. Louis teams should go. Which one? It's a good bet that it wouldn't be the Cards. So then what happens to the Brownies?

Baltimore or Detroit have been mentioned from time to time. Detroit was brought up once and immediately squelched. It happened a number of years ago when Breadon was with the Redbirds. He tried to move the Cardinals to Detroit, but Frank Navin, then owner of the Tigers, refused so emphatically that Breadon shelved the idea then and there.

That leaves Baltimore.....A city that has gone all out for professional football in a big way. They leaped into the hole left in the All-America Conference when Miami dropped out and there is little reason to believe they wouldn't jump at the chance of supporting a major league baseball team. Even the Browns, as bad off as they are now, might be easily rejuvenated with a little ready cash and new surroundings that Baltimore could provide.

At any rate things are unsettled back in the mound city and it wouldn't be too surprising to see the Browns' franchise shipped out to the Atlantic Coast in not too long a time, or maybe even the Pacific Coast.

It has been whispered that the St. Louis American League franchise would be out on the Pacific slope today if it could have been arranged. The former owner, Don Barnes, was willing. That would really be something.

One syndicate got the idea of moving the Brownies to Queens, Long Island, N. Y., to give greater New York another American League club to offset the two National League clubs, the Giants and Dodgers, now operating in that territory. That little scheme would probably raise a loud cry from the other cities throughout the East and probably won't get much further than the idea stage.

Bobby Locke Takes Lead in $10,000 Tucson Golf Open

TUCSON, Ariz., Feb. 1 —(UP)— Deliberate, methodical Bobby Locke of Johannesburg, South Africa, birdied the 18th hole today for a 66 which gave him the lead with a 199 after the third round of the $10,000 Tucson Open.

One stroke behind were Ed Furgol of Pontiac, Mich., who shot a —67 today, portly Jimmy Hines of Tucson, who had a 69, and amateur Frank Stranahan of Toledo, who shot a 66. Each totaled 200 for the three rounds.

In at 201 were Vic Ghezzi, Kansas City, Kans., pro, and Western Open Champion Johnny Palmer, Badin, N. C., who shot the day's and tournament's low round of 62.

Palmer's competitive course tieing score was fashioned with nine birdies, eight pars and one bogie.

Only a strayed tee shot, which landed in a hedge bordering a fairway, kept Palmer from shattering the course record set last year by Herman Keiser, Akron, O.

Locke, who last week came from behind to take first in the $10,000 Phoenix Open, played precision golf.

His deliberate performance virtually caused a course traffic jam. The Locke-Hines-Furgol threesome was three holes behind the previous threesome at the 16th tee.

Four Rules Changes Given Tryout at Columbia-Manhattan Basketball Scrimmage

NEW YORK, Feb. 1 —(UP)— Four proposed changes in collegiate basketball rules, designed to slow the game down and to eliminate unnecessary "whistle tooting," were tested today in a scrimmage between Columbia University and Manhattan College.

The clinic was held under the supervision of the Eastern College Athletic Conference, which will make a report to the next meeting of the National Rules Committee.

Referee Matty Begovich, who suggested the changes, thought "they worked out all right" but the coaches, officials and writers who sat in on the closed clinic weren't so sure. There was little doubt that the game was slowed down, but there were mixed emotions as to whether that was good or bad.

No official score was kept but after 35 minutes of play, Columbia, one of the only three major college teams still unbeaten, led 24 to 19.

The rules changes proposed by Begovich, who is coach of the John Marshall College team as well as a referee at Madison Square Garden, were:

1. When a free throw was tried, the ball was out of play. Play was resumed with the offended (instead of the offending) team in possession.

2. After each field goal, the referee handled the ball and did not put it back in play until the defending captain signified he was ready.

3. Field goals made on tap-ins of a rebound were scored as one point instead of two.

4. When an attacking team was fouled in forecourt, the whistle was delayed until the goal had been made or missed. If the goal was scored, the foul was not called; if the shot missed, the referee called the foul.

Most significant result of the scrimmage was the fact that rule change 1 enabled a team to sustain a freeze almost indefinitely. At one point Manhattan held a 15-12 lead, but Columbia scored 10 straight points, aided a great deal by keeping possession after converting free throws.

"Why, a team could hang onto the ball all night under that rule," commented Ken (Red) Norton, coach of Manhattan, and Columbia Coach Gordon Ridings nodded assent.

As for the other changes, Norton said. "Sure, they slow the game down, but is that what the people want to see?"

Degroot West Virginia Coach

MORGANTOWN, W. Va., Feb. 1 —(UP)— West Virginia University tonight announced the appointment of Dudley Degroot as head football coach. The Los Angeles Pro Dons pilot succeeds Bill Kern who resigned effective July 1.

United States in the Running but not A Winner as Games Return to Athletes

BPM, North Field Defeat Visitors In Cage Twin-Bill

Two local quintets, Brown Pacific Maxon and the North Field Bombers, came up with victories in both of last night's practice games with WesPac teams.

In the opener on the ComMar court BPM edged Saipan's crew in a 29 to 28 thriller after trailing for three quarters.

Paced by Max Lopez, Saipan started fast and jumped into an early 12 to 8 first quarter lead and held it to 15 to 10 at the intermission by completely outplaying the civilian five.

The BPM club caught fire in the third stanza and closed the gap on Lizen's field goal to edge ahead 23 to 22 as the whistle blew. With the lead changing hands with every shot, BPM outpaced the visitors in the closing minutes to win 29 to 28.

In the nightcap Butler and Hardy went on a scoring spree to lead a 58 to 36 rout of Kwajalein's cagers and hand the Southerners their first defeat since they arrived on the Island.

Never seriously threatened throughout the contest, the Army squad worked their fast break to perfection and pulled into a 7 to 6 first period lead, moved ahead 18 to 13 at the end of the first half and came back in the third and fourth quarters to run away.

In tonight's games the Guam All-Stars are slated to meet the VR-6 Zoomies while Kwajalein takes on BPM in the nightcap. The first battle will start at 1900.

Nothing Definite But Return Bout Appears Imminent

MIAMI BEACH, Fla. —(UP)— Final settlement of negotiations for the return heavyweight title bout between Joe Louis and Joe Walcott appeared imminent although the rival promoters met again without reaching any definite decision.

"I think the fight's coming off," Mike Jacobs, ailing head of the 20th Century Sporting Club, said.

Lions' Office Counting On Large Stock Sale

DETROIT —(UP)— The new owners of the Detroit Lions said that the $500,000 worth of stock needed to finance the National League football club next season probably will be sold within the next month.

Pittsburgh Steelers Sign Two Quarterbacks

PITTSBURGH, Feb. 1 —(UP)— The Pittsburgh Steelers of the National Football League today announced the signing of Quarterbacks Bob Ramsey of Southern Methodist and Joe Gasperella, who understudied both Johnny Lujack and Angelo Bertelli at Notre Dame.

Minimum of Bickering; Hockey Team Triumphs

ST MORITZ, Feb. 1 —(UP)— The fifth winter Olympic Games settled down to athletic competition today and that form of strife found the United States, the instigator of most of the bitterness which has marked the international meet, a power but not champion among the 28 competing nations.

There was minimum of bickering as the first three Olympic championships decided went to Sweden, Switzerland and Norway, but the U. S. scored points in two of the three events to stay in the running for the unofficial team championship and its controversial hockey sextet scored its initial victory, an impressive 23 to 4 triumph over Poland.

As the Olympiad went in for contests instead of controversies, Sweden's aces made the rest of the world look like nursery slope sports by taking the first three places in the 18-kilometer (11.2 miles) cross country ski race with Martin Lundstroem the individual winner. Just as a sideline, Sweden took the first four places in the 10-kilometer (6.2 miles) crosscountry race which is the first of five events comprising the pentathlon. U. S. entrants finished far out of the running in these difficult events.

Finn Helgesen, a 27-year-old steel worker from Norway, won the 500-meter (546.8 yards) speed skating championship in record breaking time. He was clocked in 43.1, three-tenths of a second better than the old Olympiad record.

Although they failed to win the title, the event found the Americans making their best showing of the day in the official events. Kenneth Bartholomew and Robert Fitzgerald, both of Minneapolis, tied for second place with Thomas Byberg of Norway; Kenneth Henry of Chicago was fifth.

Louise Suggs Captures Third Doherty Tourney

MIAMI, Fla. —(UP)— National Amateur Women's Champion Louise Suggs of Lithia Springs, Ga., won her third title in the Helen Lee Doherty Women's Golf Tournament today by defeating Dorothy Kirby of Atlanta, 5 and 4 in the 36-hole final round.

Following early major upsets, little Louise was an odds-on favorite to cop the tourney after already winning the medal.

George Sauer Quits at Kansas To Become Navy Football Mentor

LAWRENCE, Kans., Feb. 1 —(UP)— George Sauer today resigned from the University of Kansas to become head football coach at Navy.

Sauer's resignation followed a meeting this afternoon with University Chancellor Deane W. Malott and Athletic Director E. C. Quigley.

Sauer said he would take two of his assistants—Backfield Coach Vic Bradford and Line Coach Robert Ingalls—with him to Annapolis.

He fixed no date for moving to the academy, but said he would be "going there soon."

Quigley said he was "hurt" by Sauer's decision to leave and Malott issued a statement saying "we are most disappointed in Mr Sauer's breaking his contract because his every stipulation was met."

Sauer, a onetime All-America back at the University of Nebraska, jerked Kansas up from the mire of midlands football. Both his 1946 and 1947 teams, sparked by the great Ray Evans, tied Oklahoma for half of the Big Six title. His 1946 team went to the Orange Bowl at Miami, losing a 20-14 decision to Georgia. Before he moved to Kansas, Sauer had served as coach at New Hampshire University for five years.

Flabby Louis Takes Easy Exhibition Bout

CHICAGO, Jan. 30 —(UP)— Joe Louis, as fat and flabby as any boxing champion has ever been, overpowered Bob Foxworth, an east St. Louis, Ill., light-heavyweight, in the Chicago Coliseum tonight to win a newspapermen's decision in a four-round exhibition bout.

Louis, massive as a mountain at 220 pounds, was soft, and his back quivered with excess poundage when he punched. To Foxworth, who weighed a mere 177 pounds, 43 pounds lighter, he must have looked like a moving tower.

Record Indoor Mile Run by Gil Dodds

NEW YORK, Feb. 1 —(UP)— Gil Dodds, the parson from Boston, ran the greatest race of his career tonight when he set a new world's indoor record of 4 minutes, 5.3 seconds in winning the Wanamaker Mile at the Millrose Track Meet in Madison Square Garden.

Leading from start to finish as he always does, the miling minister won by 88 yards from five rivals as he eclipsed his own board track mark of 4 minutes, 6.4 seconds set in Chicago in 1944. A crowd of about 15,000 urged Dodds onward to his 20th straight win, and the greatest ever, in indoor miles.

In Front Fast

The ordained minister from the Boston A. M., who runs "for the glory of the Lord," zipped out in front of the pack as soon as the gun banged. Then he set a pace that no other miler in the United States has matched.

Gerry Karver of Penn State, the National Intercollegiate champion, made a game try to follow the parson, but the effort so wearied him that he dropped back to finish last, almost a lap behind at the tape.

Mack passed Karver at the half-mile pole and ran the rest of the way alone, finishing in 4 minutes, 15.7 seconds. Leslie MacMitchell of the New York A. C., was third in 4:20.2. Browning Ross of Villanova was fourth in 4:22.2, and Quetin Brelsford of Ohio Wesleyan was fifth ahead of Karver, who wound up jogging.

Secret Service Uncovers Hindu Assassination Plot

NEW DELHI, India, Feb. 2 —(UP)— Secret service agents have uncovered evidence of a nationwide conspiracy by Hindu Extremists to assassinate Premier Jawaharlal Nehru and other leading members of the Congress party including cabinet ministers, reliable police sources said tonight.

Police and secret service squads searched in New Delhi and other great cities for extremist leaders, believing that the assassination of Mohandas K. Gandhi was only the first move in a plot to liquidate all opponents of the Extremist demand for Hindu rule of the entire sub-continent. Violent mobs of Hindus, their sorrow over the death of Gandhi turned to rage, surged through the streets of the capital wrecking homes and business establishments of known Extremists.

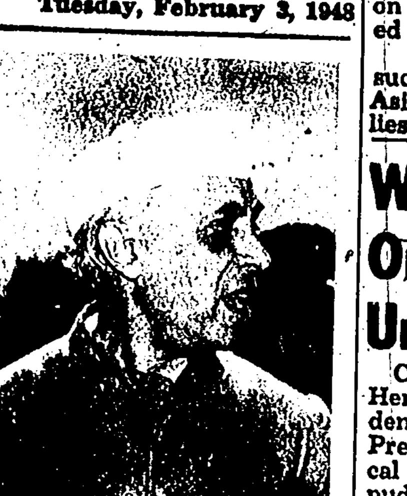
Fatal rioting continued for the third day in Bombay bringing the death toll to 23 and mob vengeance was reported from other towns.

One of the first Extremists arrested here in the search for those behind the plot to kill Nehru and other leaders, as well as Gandhi, was C. V. Deshpandes, general secretary of the Mahasabha organization, largest of those militant groups which demand overall Hindu rule.

Involved in the plot also, according to police, is the Rashtriya Sewak Sangha Extremist organization to which Narayan Vinayak Gadse, Gandhi's assassin, belonged.

Police and secret service agents streamed in from other towns as reports reached the capital of spreading riots in Bombay, Kopahpur, Bezwaba and Miraj.

Police are now understood to be convinced that there was a close connection between Gandhi's assassination, an unsuccessful attempt to bomb him Jan. 20, and the arrest at Amcitsar last Thursday of two Hindus were carrying hand grenades near the spot where Premier Nehru was making a speech.



Jawaharlal Nehru —(AP Photo)

SAN FRANCISCO —(UP)— Dr. J. C. Geiger, San Francisco Director of Public Health, said last week that he will leave in the near future for Guam to help develop a public health program.

He and several other health officials have been asked by the Navy to assist in such programs in foreign possessions and occupied lands.

Dr. Geiger said he would remain on Guam about a month on a leave of absence from his job in San Francisco.

Bomb Destroys 5-Story Building In Palestine

JERUSALEM, Palestine, Feb. 2 —(UP)— An explosion believed to have been caused by an Arab barrel bomb destroyed the five-story building of the Palestine Post and an adjoining structure in the heart of downtown Jerusalem last night.

Flames from both buildings raged fiercely still in the early hours of this morning. Police estimated damage to the Post building at more than $600,000.

The Post building, which houses the offices of the Palestine censor, the bureau of the United Press and the Jerusalem offices of several newspapers, was set afire by a blast so powerful that it wrecked two ambulances at the Jewish Hadassah clinic nearby.

Cease Publication

Presumably by coincidence, a few hours earlier the Arab newspaper Haab had announced it was ceasing publication. The newspaper's license had been suspended temporarily by Palestine authorities for publishing a seven-column account of Arab guerrilla infiltrations into Palestine. Censors demanded that a seven-column denial of the story be published. The editors refused.

It was feared at first that several persons had been buried in the debris of the Palestine Post building but police said that casualties were confined to injuries to about 20 persons, none serious.

U.S. Still in Grip Of Cold Wave

CHICAGO, Feb. 1 —(UP)— Temperatures ranging from far below zero to only slightly above continued to plague the eastern half of the United States tonight with hardships affecting homeowners, industries and travelers.

The northeastern section of the country, from Maine as far south as the Carolinas, was the hardest hit. Weather forecasters saw little substantial relief until the middle of next week.

Here is the way the picture shaped up:

Temperatures—Unofficial readings of 21 degrees below zero were recorded at Warren, Pa., Bennington, Vt., reported 33 below and Albany, N.Y., 26 below, the lowest since they began keeping records in 1795. West of Pennsylvania temperature readings were slightly higher, most of them above zero.

Fuel—The fuel oil and natural gas shortages extended from the Rocky Mountains to the eastern seaboard. Every homeowner heating with fuel oil either found himself completely out of fuel, or his supplies drastically curtailed. Natural gas customers were in an equally bad position.

Marshall to Give Congress New Bill

WASHINGTON, Feb. 2 —(UP)— Barring unforeseen developments, Secretary of State George C. Marshall tomorrow will hand Congress a new bill for foreign air spending, including funds for China, Greece and the occupied areas.

Added to initial costs of the European recovery program, it will raise the estimate for the next fiscal year's relief and reconstruction planning to about $8,000,000,000 and may touch off a new storm among strong Republican forces who think the administration is spending too fast and too freely abroad.

GOP Leaders Predict Favored Tax Reduction

WASHINGTON, Feb. 2 —(UP)— The House votes tomorrow to give the nation's big and little taxpayers a $6,500,000,000 income tax cut, but the Senate may sidetrack it in favor of a less costly plan.

House Republican leaders today predicted a two-to-one majority for the election-year general tax reduction sponsored by Chairman Harold Knutson, (R-Minn.,) of the Ways and Means Committee. He was confident it would survive a threatened presidential veto.

The Knutson bill would give the taxpayers a $100 increase in personal tax exemptions, reduce their taxes by from 10 to 30 per cent, and give all of them the privilege of using the community property system of splitting income for tax purposes.

Democrats plan one attempt to scuttle the plan. They will ask the House to return it to Knutson's committee for rewriting. They want to keep the community property idea, but eliminate the percentage cuts in favor of a $200 increase in personal exemptions. And the hope to make up the lost revenue through an excess profits tax on wealthy corporations.

The Democratic counter proposal has no chance of getting House approval, and stands little likelihood of attracting Senate support.

U.S. Inspection Flights Protested by U.S.S.R.

LONDON, Feb. 2 —(UP)— Russia has protested to the United States against alleged "inspection" flights by American aircraft in the Yellow Sea and the Sea of Japan, charging that the planes dived on Soviet ships and circle them at mast-top, Moscow Radio reported today.

The protest note demanded that American commanders forbid such flights in the future. The Sea of Japan separates Japan from the Asiatic mainland. Vladivostok is the principle port. The Yellow Sea lies between Korea and China.

The broadcast, quoting a Tass News agency dispatch charged the actions were in disregard of legitimate merchant shipping of other countries and an infringement on the freedom of merchant shipping

Military planes in the area are under the command of Gen. Douglas MacArthur, who's direction of the occupation of Japan has long been a source of annoyance to the Kremlin. Russian authorities have wanted a stronger voice in occupation policies

The protest said flying fortresses had been among the planes joining in the inspection flights which it described as a "rude attempt" by Americans to gain control of shipping in the Yellow Sea and the Sea of Japan.

"The Soviet Ministry of Foreign Affairs on Jan. 30 handed the U. S. ambassador in Moscow a note protesting against actions of U. S. flying fortresses in the Yellow Sea and the Sea of Japan in making observations of Soviet shipping," the broadcast said.

"According to available reports in recent months American aircraft, including flying fortress bombers, have been subjecting Soviet merchant ships in the Yellow Sea and the Sea of Japan to importunate inspection by air by circling over the ships, flying over them at mast-top altitude and even diving on them.

"These actions of American aircraft naturally evoke legitimate resentment on the part of crews and passengers of Soviet steamers.

"The rude attempts of American authorities at establishing their control of shipping in the Yellow Sea and the Sea of Japan for beyond territorial waters can be regarded only as manifestations of their utter unwillingless to reckon with the legitimate interests of the merchant shipping of other countries.

Wallace Calls On Truman For UnAmerican Pledge

COLUMBUS, O., Feb. 2 —(UP) Henry A. Wallace, left wing presidential candidate today called upon President Truman and other political candidates to take a pledge repudiating the support of any un-American group or individual.

Wallace told about 1,000 supporters at a "Wallace for President" state-wide organization rally that he would accept the support of American Communists, however, because he saw "nothing criminal" in the advocacy of different economic and social ideas.

"The most frequent charge made against the American Communists is that they advocate the violent overthrow of the government of the United States," the Democratic party maverick said. "I have not seen evidence to substantiate the charge, and I do find a supreme court decision that this conclusion is unwarranted."

Three groups of candidates could not take the proposed pledge, Wallace said. He said they were candidates who support the Taft-Hartley law; those who believe in "white supremacy," and those who would limit the free flow of ideas in this country.

Two Killed at Nimitz Beach

46th FIGHTER WING, Feb. 2 — At approximately 11 p.m. Sunday a weapons carrier with five enlisted men from Northwest Air Base went over an embankment in the Nimitz Beach dependent housing area after failing to negotiate a sharp turn, resulting in the death of two passengers.

Their names will be released after notification of next of kin. The driver, PFC Martin F. Horton of the 1938th Engineer Aviation Utilities Company, is confined to the hospital with internal injuries.

PFC James F. Fielding, student at the 46th Fighter Wing Aircraft Welding School and PFC Willey T. Baker, student at the Aircraft Sheetmetal School, received only slight injuries and were released from the hospital after examination.

Weather Forecast

Partly cloudy with scattered moderate showers. Winds moderate easterly with occasional strong gusts.

Yesterday's temperatures: Max. 83; Min. 75.

Yesterday's rainfall: 0.27 inches

Rainfall for month: 0.27 inches.

MacArthur Good Man For Job; Zimmerman

MADISON, Wis., Feb. 2 —(UP) Fred Zimmerman, Wisconsin Secretary of State, said today that Gen. Douglas MacArthur's military service makes him a desirable candidate for president.

Zimmerman, a leader in the MacArthur-for-President movement, scoffed at the idea that a military man should not be elected president. He said that there is no reason to lump all military men together and say they are all unfit for the nation's top job.

Zimmerman, in a radio address, claimed that MacArthur's military service has given him an edge over other potential Republican candidates because he is better acquainted with dealing with the Russians and with far eastern problems.

Zimmerman's broadcast was the second in a campaign to win Wisconsin's 27 Republican votes for MacArthur.

A dispatch from Yap late yesterday afternoon reported the LST 1130 aground on a reef at the port entrance to Tomil Harbor at Yap. The report said the vessel was not under power as her engine rooms were flooded with water, but that she still maintained an even keel. The report stated further that an LCVP had come to the stricken vessel's assistance but a larger craft will be needed to loosen the LST from her perilous position and tow it on to Guam.

Headline Highlights

ELKINS, W. Va., Feb. 2 —(UP)— State police, aided by a state road commission crew, brought two fellow officers from a 4,000-foot snowbound peak near here early this morning after they had been trapped for 15 hours.

NEW YORK, Feb. 2 —(UP)— The Honduran freighter Norlandia is leaking and probably sinking in heavy mid-Atlantic seas, the Coast Guard reported tonight.

WASHINGTON, Feb. 2 —(UP)— A high state department official said tonight this country would make no comment on Russian charges that American B-17's have been flying over Soviet shipping in the far east until the formal Russian protest is recieved here.

TOKYO, Feb. 2 —(UP)— The atom-bombed port of Hiroshima was re-opened for trade today. Before it was bombed Hiroshima was one of the Japanese army's most important ports.

WASHINGTON, Feb. 2 —(UP)— The Veterans Administration reported tonight that 540,000 home loans were made to veterans under the GI Bill of Rights last year.

OKLAHOMA CITY, Feb. 2 —(UP)— Globe-circler Bill Odom lifted his modified Navy transport airplane from the runway at Municipal Airport today and headed for Dayton, O., next-to-last stop on his mountain-charting flight to China.

Two Dead, Four Injured Over Weekend

Island traffic fatalities took a sharp upward curve over the weekend, with five accidents, resulting in two deaths and four injuries. Carelessness and driving under the influence of liquor were listed as chief causes of these mishaps.

The Island Command Provost Marshal's office reports that undue carelessness, especially in passing another vehicle on the road, is one of the most common causes of highway accidents. Most drivers do not display enough caution in passing, but swerve into the middle passing lanes without first ascertaining whether the road ahead is clear of oncoming traffic.

Alcoholism still remains as one of the prime factors in highway accidents. The number of drivers who speed along the highway, with liquor-dulled minds, constitutes one of the greatest hazards confronting the motorist. Not only do they endanger their own lives, but also jeopardize the safety of careful drivers.

Only one solution exists, which can be used to combat the rising rate of fatalities --DRIVE SAFELY!!

All Navy collectors for the March of Dimes will forward their checks to the Welfare and Recreation office at Commander Marianas immediately so that a "lump-sum" check may be sent on to the National Foundation.

Arrest Made on Suspicion of Murder

NAS AGANA—Otho R. Tomlinson, Jr., SIGMCBP, USN, 20, of San Francisco, California, was taken into custody on January 25th on the charge of suspicion of murder in the death of Cecil Roy Hays, CWT, USN, attached to the Naval Air Station, Agana.

Hays' body was found a week ago Sunday on the Apra Harbor breakwater. Hays had multiple head wounds indicating murder.

Following a closed investigation by the Guam Police Force Tomlinson was arrested and at [illegible] mast on Friday morning [illegible] submitting a formal con[illegible], was charged with manslaug[illegible] and recommended for trial [illegible] general court martial.

Next of kin of the [illegible]ty year old Navy chief pett[illegible]er, Mrs. Alice Hays, his mo[illegible] has been notified.

Memorial services were conducted at NAS Agana on Wednesday by Chaplain C. W. Ackley.

Mail Worker Embezzles

AGANA, Feb. 2 —(UP)— On January 23, 1948, it was reported that post office station number 15 located at North Field had been robbed of $4,034.37.

Coordinated investigation by the Guam Police Force and the Guam engineering district security agents revealed that the whole affair was fixed to cover embezzlement by an employee who was arrested today and is confined in the jail on charge of embezzlement.

Approximately $400 of the amount embezzled has been recovered, and the balance is alleged to have been lost by the embezzler by gambling.

Seafarers Haunted by Mystery of 'Mary Celeste' for Past 75 Years

(SEA) —— To the clip-clop of the heels of horses pulling hansom cabs and the flickering lights of the gas lamps, the seven man crew of the trim, two-masted sailing schooner, Mary Celeste made ready to leave New York for Genoa. In her hold was a cargo of alcohol.

Skipper of the sleek, 282-ton brig was Captain Benjamin Briggs. On the trip, also, were going his wife Sarah, and their two-year-old daughter Sophy.

The next morning, November 7, 1872, she hoisted full sail before a freshening wind and sailed out of the harbor in the morning haze. She disappeared over the horizon—and none of her crew or passengers was ever heard of again.

What happened to the seafarers can only remain conjecture and this mystery has haunted three generations of those who go down to the sea in ships. In the 75 years since her disappearance, no new clues have been found.

About a month after she left the harbor, she was sighted by the British bark, Del Gratia, drifting aimlessly 300 miles west of Gibraltar, near the Azores. Boarding the ship, the Del Gratia crew found a bewildering scene.

Still partly under sail, the Mary Celeste was in every way seaworthy, and her storerooms were well stocked with provisions and water. A half-eaten meal was in the galley. In the forecastle, the crew's wash was hanging—still wet. Money, razors, pipes were in their accustomed places. In Captain Brigg's quarters, his watch was still ticking. None of his possessions, including a cash box, were touched.

On the first mate's desk lay a half-written letter. In the child's room the pillow still retained the imprint of the baby's head.

But there was not a single person alive aboard the ship.

The log book showed the weather to be normal until the final entry was made—throwing out the possibility of a storm. The ship couldn't have been becalmed because the sails were furled. There was no evidence of an explosion of the alcohol, nor foul play, collision bad weather or any other emergency.

What, then, became of the people aboard the Mary Celeste?

It is probable that no one will ever know, for the mystery of the Mary Celeste must be written in the "Fate Unknown" category along with the other ships that sailed over the sea's mysterious horizon, never to be seen or heard from again.

Cats For Europe

NEW YORK—(UP)—A cats to Europe plan was in the making recently as the American Feline Society laid plans to comb 39 states, Canada and Costa Rica for Europe.

The program was set in motion after the London Daily Mirror ran a front-page editorial stressing the need for a million cats to catch rats stealing precious grain from hungry Europeans.

Robert L. Kindell, persident of the society, emphasized this was no job for bluebloods. "What we want is just cats—alley cats," he said.

But he pleaded with cat owners not to send a barrage of cats on his office yet. He explained that the State Department and foreign governments are being asked first to approve the plan.

Italian Producers Denounce Censorship

ROME—(UP)—Italy's motion picture producers have opened war against "creeping censorship." They charge it would make impossible the future filming of such outstanding Italian pictures as "Open City" and "Shoeshine."

Thirty-five Italian film executives signed an open letter of protest against the "impending and actual censorship" of films. They included such well-known figures as Robert Rossellini, director of "Open City," Vittorio De Sica, of "Shoeshine," and Luigi Zampa, "Vivere in Pace." ("Live in Peace.").

Approaching Danger

"For some time" their protests said, "we have had the feeling of approaching danger. In the ministerial offices a tendency has begun to be shown toward renewal of the fascist practice of controlling film production. It is true and real censorship of an ideological and political character, the Philistine nature of which we all recognize and remember very well."

The film executives said that post-war Italian pictures—which have won acclaim in the United States as the best being produced in the world because of their air of sincerity—would be rendered impossible if present trends continue.

Out-of-Season Duel Cancelled in Paris

PARIS —(UP)— Certain Paris social circles say the 1948 dueling season does not open until Feb. 15.

"It's much to early to duel," said Michael de la Confrevon, a young industriailist who claims to be an authority on such matters.

Breach of Form

At any rate, the first duel of 1948, scheduled this month between Jacques Herbert, Paris theater manager, and Herve Lauwick, drama writer for a Paris weekly, was called off. Lauwich had written that Herbertot's latest play "stinks."

Their seconds met in a court of honor and decided, rather than to authorize a duel out of season—"a grave breach of form," according to Confrevon—that "the challenge and acceptance form a misunderstanding, not an affront."

SINAJANA—The FLAG OF GUAM was raised for the first time since it was accepted as the official flag of Guam. A brief, but colorful ceremony was held at George Washington High School in Sinajana to commemorate this eventful occasion. The flag was designed by Mrs. Helen L. Paul, wife of Lcdr. C. E. Paul, USN, stationed on Guam from 1918 to 1920. It has already been flown from the mast at Adelup Point school, and was used by the Guam Boy and Girls Scouts, but only in an unofficial manner. (Guam News Photo)

Noah's Job Easy, Says Keeper

PHILADELPHIA —(UP)— Noah marched the animals into the ark two by two and brought them out the same way. But things are different at the Philadelphia zoo these days.

It's counting time and the harried keepers and attendants have double trouble taking the annual mid-winter count of specimens. Each time a count is completed a different total is arrived at, animals and nature being what they are.

It isn't so hard to tabulate the big boys. Counting noses is all right as far as the hippos, elephants, chimps and the rhinoceroces are concerned. That goes, too, for the tigers, lions, Shetland ponies, and the bears.

But the monkeys won't hold still. Since most monkeys look like other monkeys the adding machines is attempted. Some of the prairie dogs are contentedly asleep, but underground.

Turtles have dug themselves deep in the rocks of their tank. The waterfowl are coming and going with hardly a fare-thee-well, lending themelves to the census puzzle.

Then there's a Starling which sneaked into the bird cage and has no business there. And there's the Australian black swans building a nest, because it's spring in Australia and they're used to it.

By the time it's all over, zoo officials hope to have some 2,000 guests accounted for.

HQ. 46th Fighter Wing, Guam—Major Wallace Wall Jr., (left), recently assigned as commanding officer of the 614, Air Engineering Squadron shown with his executive officer, Captain Gardner E. Cole (center) and 1st Sergeant Lars Zuelke. The 614th is responsible for servicing and maintaining the fighter type aircraft at Northwest Air Base. (46th Fighter Wing Photo)

Pastor Continues Fishermen's Festival

SEATTLE—(UP)—The Rev. O. L. Haavik has ended more than 26 years in the pastorate of the Ballard Lutheran church here.

The nationally known Fishermen's Festival—in which fishermen moving out to the banks from the port of Seattle were blessed and prayers said for their safety and a good catch—which was instituted by the Rev. Mr. Haavik in 1929.

Haavik said although he will no longer step up to the pulpit, he will continue to officiate at the Fisherman's Festival.

Editor Debunks Jap 'Super Race'

TOKYO —(UP)— The Japanese face "ranks second or third ugliest among the races of the world," according to the Tokyo magazine Van.

The magazine didn't bother to name its candidates for the No. 1 and No. 2 positions.

It was more concerned with outdoing its competitors in the currently popular literary sport here of debunking every element of Japanese life which until V-J Day fitted into Nipponese propaganda on the "Japanese super race."

"Who are the Japanese?" the editor asked. "You could have answered this qestion satisfactorily up to 1946 by saying they are the stainless People of the Land of the Gods or the Sovereigns of Greater East Asia."

Into Wastebasket

"Such conceptions now have been thrown into the wastebasket of the eternal past, together with the old constitution and military shoulder straps."

Today, the magazine informed its readers, it would be more accurate to call the Japanese "The Stainless people of the Land of Poverty" or the "Parlahs of Greater East Asia."

What's more, the Japanese people today "are filthy people of the world, with 90 per cent of them blighted by parasites and tuberculous bacilli," the editor told his fellow countrymen.

"Neither superficial repentance, nor the nursing of the absurd idea that they are 'descendants of the Sun God,' will do to despel the fleas and lice and suddenly transform the Pariahs into a well behaved people," he counselled.

"ASAN POINT CIVIL SERVICE CLUB"

ANNOUNCEMENT

Elrod (rear) recently united in matrimony Andrew Souza Carvelro (left center) of Hawaii and Eulalia Jean Guerrero (right center) of Barrigada Village, Guam. The best man was (left) Antone J Fernandes and matron of honor (right) Maria Jean Guerrero.. This was the first wedding in the 46th Fighter Wing chapel at Northwest Air Base since Chaplain Elrod was assigned here approximately seven months ago. (46th Fighter Wing Photo)

Movie Boners Would Make Good Film

HOLLYWOOD —(UP)— Nearly every director has tucked away on his office shelf enough film for a full-length movie compiled from unintentional boners on his pictures.

Leslie Fenton, for instance has collected 6,000 feet of blow-ups in recent years, enough for a B picture. The latest addition to his unique movie are shots from "Lulu Belle," Benedict Bogeaus' Columbia production.

First of Fenton's "Lulu Belle" excerpts is a lone scene between Miss Lamour and George Montgomery. Suddenly Mongomery sneezed. He looked directly at the camera and said.

"I'm allergic to Dottie's fur coat. Wait until the man sprays it with something and I'll be right back."

"I'd love to leave that one in the picture," Fenton sighed. "But it doesn't fit the script."

Next came a solo shot of Miss Lamour trying to ring a ship's bell in her nautical living room. She gave the rope a healthy pull and the whole thing—bell, support and rope crashed down on her feet.

"At last," she ad-libbed, looking down at the wreckage, "I've got bells on my toes."

The next scene on Fenton's screen goes back to the two lovers. Miss Lamour and Montgomery are nestled cozily in her apartment talking about the theater.

"I made you a singer and now I'm going to make you an actress," Montgomery declared to the glamourous Lulu Belle. I'm going to make you the most famous woman in America."

There is a long pause. You can almost hear the script girl frowning and the director fidgeting.

Then Miss Lamour looked out into space and announced:

"You made me forget my lines, anyway."

Preacher Learns New Trade

McPHERSON, Kan. —(UP)— Tired of twiddling his thumbs after retirement from the Brothren ministry at the age of 75, the Rev. E. E. John learned a new trade,—violin making. Today, John now 91, still at it. Before becoming a minister he had been a blacksmith and before that a farmer.

'Lettuce Box' Saves Finance Worries

COLUMBUS, Ohio. O.—(UP)—"The Lettuce Box" sprouts the long green for hard-pressed Ohio State University students.

In the entrance of Hennick's Restaurant, across from the campus gates, hangs a glass-paneled frame marked "The Lettuce Box." In it are perhaps a dozen five-dollar bills, each suspended by a metal clip.

When a student finds himself temporarily "embarrassed." He informs the restaurant cashier. After identifying himself as an OSU student in good standing, he fills out what looks like a library card—name on one side, date he'll return the five-spot on the other. And with that he becomes solvent again.

A bill is taken from the case and in its place goes the card, date side out. After a maximum of five days, the student returns the mony and the card gos back to the files. Should he fail to make payments as due, the card is reversed so his name is "posted" as delquent in the case.

"The plan has been in operation for more than two months, and to dat we've had no trouble with anyone defaulting on payment," says W. T. Parker, the restaurant owner and proprietor, who developed the idea. He was a student himslf once and understands.

French Resort Hurt By Lack of Cold

MEGEVE, France—(UP)—While most of France complains of insufficient heat, this winter resort is depressed over the lack of cold and snow.

Because of mild temperatures and steady rains, ski resort towns like Megeve are having a bad season. The French government had counted on millions of francs in foreign exchange from winter sports enthuasists coming to the Alps from abroad. They have failed to materalize.

Megeve has cancelled its famous skiing Grand Prix after days of heavy rain. Over the holidays hotels expected about 3,000 foreign guests—American, Canadians, Chileans and Egyptians. About 50 visitors arrived, mostly Belgians and Swiss.

The shop windows are full of good, things which recall prewar days. There are few buyers. Russian caviar, pate de fois gras and luxurious furs remain in the shop windows day after day.

Even the usual wealthy French are absent this year. With the cost of living nearly 60 pr cent higher than this time last season, they are staying away in droves.

Oak Ridge First In Fire Prevention

BOSTON—(UP)—The home of the atom bomb, Oak Ridge, Tenn., has been named the winner among the nation's cities in the 25th fire prevention week competition sponsored by the National Fire Protection Association.

Runner-up was Chicago, the association said, with New York third. Others in the first 10 finished in this order:

Jersey City, N. J.; Memphis, Tenn.; Louisville, Ky.; Fort Collings, Colo.; Cincinati, O.; Atlanta, Ga., and Anderson, Ind.

"No, Swartz, we're not unwrapping it here!!"

Hunter Contends Bears Do Hibernate

CHEYENNE, WYO. —(UP)— A Wyoming bear hunter who has spent 50 years tramping western hunting country guffawed at a Harvard University expert's claim that bears do not hibernate.

Bear-hunter L. C. Bishop scoffed:

He just doesn't now what he's talking about. Certainly bears hibernate. They crawl into a cave or some warm spot and stay there until it gets warm."

Bishop thought a statement today by Dr. Charles P. Lyman, assistant curator of the Harvard Museum of Comparative Zoology, that "a bear can't hibernate if he wants to" downright laughable.

Bishop, Wyoming's state engineer, spends much of his time in the wide-open spaces with a shoulder-ed gun. Hunting in his main hobby.

"A bear," he said, "hibernates for four or five months each year. He stuffs himself with food when the weather gets cold and finds a cave or a hole or something like that, crawls into it and doesn't come out until it's warm again.

Wyoming game officials backed Bishop up solidly. They pointed out that there's no track or sign of bears in the state after late Ocober or early November.

HQ. 46th Fighter Wing, Guam—They call themselves "Four Nights and Mellow Notes." (Left to right) Red Keith, Jimmy Silvia, Charlie Long and Frank Carl were first on the program of "Rock Happy Review," recently shown at Northwest Air Base. The show was produced by Doc Wyman, civilian director of Mar-Bo special service entertainment section.

Experience Costly

CREWE, England —(UP)— Hilda Thorndyke was a Cheshire school teacher who wanted to know how the other half lived. She found out by teaching a year in Chicago but the experience cost her her life's savings.

Life Savings Gone

Miss Thorndyke, a comely, 32-year-old schoolmarm, went to Chicago under a teacher's exchange plan. For a year she taught in Chicago, receiving the same salary as she did at her job in Crewe.

The Cheshire Education Committee has reaffirmed its decision not to make a grant toward the $2,000 of her own money which Miss Thorndyke spent to make ends meet in Chicago.

The Crewe Education Committee, knowing that the $2,000 she spent was Miss Thorndyke's savings of a lifetime, had appealed to the county authorities on her behalf.

Scientist Speculates On 'Lost' Planet

COLUMBUS, O.—(UP)—The solar system once may have had 10 principal planets instead of the presently known nine.

That is the theory of Dr. Carl A. Bauer of the University of Michigan Observatory.

Dr. Bauer told a meeting of the American Astronomical Society that his theory is based on a long-standing hypothesis. The belief is that such a planet was the parent of the thousands of asteroids or minor planets which inhabit the portion of the solar systm between the orbits of Mars and Jupiter.

The supposed planet, Dr. Bauer said, would have had a make-up similar to that of the earth: nickel-iron core intermediate shell of stony-metallic material and an outer mantle of rock. The planet probably was, smaller than the earth and therefore solidified earlier, he added. Dr. Bauer estimated that the planet exploded several hundred million years ago.

Chicago Plans to Cut Loop Smoke Nuisance

CHICAGO—(UP)—Chicago aldermen are considering a plan for central heating, air conditioning and electrical systems for the Loop which sponsors claim would cut smoke volume in the area 50 per cent.

Cost of the project is estimated at $45,000,000 and plans call for completion two to three years after it is authorized.

The Chicago Loop Co-operative Association, backer of the plan, estimates that 80 per cent of all Loop buildings could be served.

Sleepy Holdup Men Land in 'Hoosegow'

INDIANAPOLIS —(UP)— Roy Eply, a taxicab driver, deposited his assailants at the police station.

He told the officers the two men stuck a pistol in his back and ordered him to drive to nearby Mooresville. En route, Eplex said, they talked of "bumping this guy off."

Things suddenly quited down in the cab and Eply looked into the rear view mirror. The holdup men were asleep. Epley swung his cab around and headed for the police station.

Police said the weapon with which Eply was threatened was a tcy water pistol.

CLEVELAND —(UP)— Every American worker by 1950 will have the productive power of 750 manual laborers, according to A. C. Monteith, Westinghouse Electric engineer.

For Sale—1941 Plymouth de luxe four door sedan. Excellent condition. May be seen at Quarters Building Three, Agafo Gumas. Phone Agafo Gumas 55.

Sports Beat

by Bob Crosley

Rollicking Rollie Hemsley, the catcher who had such a big part in the success of Bob Feller back in '39 and '40 but who never could control his impulses enough to stay in big time ball, was recently signed as manager of the Yaquis baseball team... Yaquis is currently defending the cellar of the Mexician Pacific Coast Baseball League against all comers.

The big dispute last month about the several merits of Notre Dame and Michigan football teams got a lot of people to wondering whether the two had ever played before....The records show that they've played ten times, the Wolverines winning eight and the Irish two—surprised?

Mr. Roy Del Ruth right now is faced with a tough problem.... No matter what his decision, he will be besieged by letters from sports fans telling him what a bum choice he made. Mr. Del Ruth is the casting director for a movie studio in Hollywood and his problem is to choose someone to play the part of Babe Ruth in a proposed movie of his life.... To get someone to play the part of the Babe is a big job considering his very unaverage build and features....Orson Welles for his paunch and great acting has been mentioned, but Del Ruth pooh-poohed that....They are also talking about Jack Carson....Someone ought to suggest Don Ameche....He's played nearly everyone else.

They say that a contract has been let to line the walls of Ebbets Field with foam rubber to protect such eager characters as Pete Reiser, who dented the wall several times last year....The Cubs made a move in that direction several years ago by planting shrubs near the fence, and the Tigers' boss Walt Briggs had a dirt path constructed around the outfield to warn the fielders....The rubber will, if it catches on, make a bit of difference in the way long balls are fielded ...Cookie Lavagetto's famous hit in the series in the ninth inning likely would have been held to a single if the foam rubber had been there.... Rubber of that type makes the ball drop right at the fence instead of rebounding....Tommy Henrich's misjudgement of the carom is what turned the single into a double....A single would have meant only one run and a tie that the Yanks might have broken... Who knows?

American Soccer Football Hopes Dim But Opponents Will Earn Victories

NEW YORK, Feb. 2 —(UP)— America has no hope of winning the Olympic soccer football championship, but plans to make its conqueror work hard for its victory.

"I don't think the U. S. A. will go very far in Olympic soccer," said Joseph Barriskill, chairman of the U.S. Olympic Soccer Committee and executive secretary of the U. S. Soccer Football Association. "We can't match European cleverness of play, so we'll try to make up for it with speed and endurance.

Young Players

"The Olympic Committee will stress selection of young players, 19 to 22 years of age, who can run and run and run for the full 90 minutes. We'll probably be beaten, but our opponent won't think it's been an easy game."

Barriskill said he thinks the Russians "probably will knock the stuffing out of all comers" at the London games, but he also rates the Swedes very highly and would make Sweden the favorite if Russia does not compete.

MarBo Places Fourth in Army Boxing Tourney

Clarence Fentress and Nestor Sola, MarBo's last two remaining boxers in the Army Inter-Command tournament, were eliminated in the finals of the meet, thus leaving MarBo without a single champion and a lowly fourth out of the five Army commands entered.

Reports from special services yesterday revealed that Fentress, MarBo's top lightweight, was decisioned by Clayton of Hawaii. Nestor Sola, former bantamweight who moved to flyweight after Freddie Gemoya was eliminated, was kayoed by Lebang of Hawaii.

Hawaii won the meet with 35 points, Japan was runner up with 21, PhilRyCom's 14 points took third place, MarBo mustered up 11 for fourth spot and Korea brought up the rear with four.

PCL May Revolt Against NFL Soon

NEW YORK, —(UP)— J. Rufus Klawans, president of the Pacific Coast Football League, indirectly confirmed rumors that his organization may revolt next month against the National Football League.

Under questioning, Klawans admitted reluctantly that a minor-major contract between the Pacific and National Leagues may be scrapped at a San Francisco meeting of the coast directors, Feb. 7 and 8.

Such a break-off would permit individual P.C.L. owners to begin making deals with clubs in the All-America Conference—major rival of the National League.

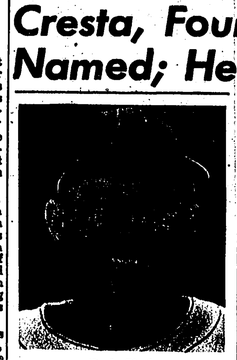
Cresta, Four-Man Bobsled Teams Named; Heaton Likely Champ



Rudy York

ST. MORITZ, Feb. 2 —(UP)— The United States today named its cresta and four-man bobsled teams.

Named to the cresta team were two veteran runners, Jack R. Heaton of New Haven, Conn., and Fairchilds MacCarthy of Belmont, Mass., and two novices, Corp. Lee Martin of Kalispell, Mont., and Lt. Bill Johnson of Minneapolis.

Heaton, holder of the cresta run record from both the top and the "junction" until 12 years ago, was in excellent racing form. Despite inadequate training this season, he was looked upon as the probable winner of the event.

Acting team Manager MacCarthy, who serves with Heaton as co-coach of the five-man G. I. cresta squad, is an old cresta runner from 1923 but has been off the run for seven years.

Wonder Boy

Youthful Martin has been the wonder boy of the mile-a-minute cresta run and will make a strong bid against Britain, Austria Switzerland and France.

Johnson is not regarded as up to Martin, but should make good times in the three runs from the "junction point" about a quarter of the way from the top of the mile course.

The Olympic event includes three runs from the junction Tuesday and three runs from the top Wednesday.

Bobsled Coach Donna Fox selected sleds driven by James Bickford of Saranac Lake, N. Y., and Francis Tyler, of Lake Placid, N. Y., to represent the U. S. in the four-man competitions Friday and Saturday.

Release of York By White Sox Complete Surprise

CARTERSVILLE, Ga., Feb. 2 —(UP)— Rudy York, American League first baseman for 10 years, said today he was surprised that he had been released by the Chicago White Sox because, although he had no immediate plans for the future, he felt he could "still play baseball."

York said he had not been informed of his unconditional release by the White Sox and added that he had not asked for a release.

York went to the Chicago Club in May of last year from the Boston Red Sox in a trade for First Baseman Murrell Jones. He hit only .233 with the White Sox but led the club in home runs with 21. He also had four triples and 25 doubles.

Twentieth Air Force Skeet Squad Rallies to Whip Okinawa, 462-461

HQ. 20TH AIR FORCE, Feb. 2 —(UP)— Ending the first round with a six-bird deficit; the Twentieth Air Force skeet team rallied in later stanzas to whip an Okinawa aggregation by a slender 462-461 count Saturday afternoon on the Headquarters range. The Okinawans represented the First Air Division.

An exciting fourth period saw two Okinawa men, Bockmuehl and Boone, fired perfect scores of 25 as their quintette made a desperate final bid for the decision

Foster for Twentieth and Bockmuehl led the shooting with 96 birds apiece. Starting out with a weak 22, Foster dropped only one point in the last three rounds for an almost perfect 74 out of 75.

Individual scores were:

Headquarters Twentieth	
Foster	96
Broussard	94
Mason	92
Bean	90
Rasor	90
Total	462
Okinawa	
Bockmuehl	96
Gauch	92
Olson	92
King	91
Boone	90
Total	461

Three Athletic Awards To be Made at Dinner

PHILADELPHIA, Feb. 2 —(UP) Three awards for outstanding athlete of the year, lineman of the year, and the most courageous athlete will be presented at the 44th annual Philadelphia Sports Writers Dinner here tomorrow night, it was announced today.

More than 7,880 sports figures from all parts of the country are expected to attend the affair.

Zoomies Scare All Star Five In 36-34 Tilt

Navy's All Stars snapped out of their lethargy long enough to squeeze the VR-6 Zoomies last night on the ComMar court, 36-34, and though tournament time is only one day away, they still did not look like the team to beat.

Lt. R.W. O'Brien, coach of the team, was as dissatisfied as were the fans, and commented that the team looked "terrible." "They were clean on their feet, and then, too, the Zoomies are much better than earlier in the season."

The first half, especially the first quarter, was very slow, neither team showing anything. After six and one half minutes of play had elapsed, the Zoomies led 3-2. The first quarter score was 5-5. A new team for the All Stars began clicking and fired up the visitors too, and the score was 20-14 in favor of the All Stars at the half.

The third quarter was nip and tuck as the All Stars increased the lead by only one point by the time the last period got going.

Big Dick Sampson and Little Dick Eaton sparked a Zoomie rally, and with four minutes remaining, they led, 36-33. Cy Cassidy and Red Edwards, neither of whom had done anything noteworthy to that point, saved the game with two quick buckets.

Al Weill Drops Out Of Fight Promoting Organization

NEW YORK, Feb. 2 —(UP)— Al Weill, veteran New York fight manager and promoter, announced tonight that he had severed his connections with "Tournament of Champions, Inc.," a group of New York business men who had been planning to stage a Rocky Graziano -Tony Zale middleweight title fight at Atlantic City in May.

Would Not Agree

"Whether they will go through with that fight and with others they were planning, I do not know," he said. "We would not agree to terms for my serving as their promoter, so I terminated my association with them."

Weill said he would continue to be associated with Promoter Goldy Ahearn at Washington, D.C., and that Ahearn plans to use Middleweight Champion Graziano in a non-title fight at the Capital on or about April 5.

Tucson Open To Alexander

TUCSON, Ariz., Feb. 2 —(UP)— Skip Alexander, a drawling Southerner from Mid-Pines, N. C., came from behind today with a sensational 62, eight under par, to win the $10,000 Tucson Open Golf Tournament with a record-equalling 72-hole score of 264.

Alexander eagled the par-5 18th hole to edge out Johnny Palmer, Badin, N.C., the Western Open Champion, who had finished with a 265 in the threesome just ahead of him.

Led Field

The Mid-Pines pro, who led the field at the halfway mark in the four-day tournament, equalled the tournament record set last year by Jimmy Demaret, Ojai, Cal., his score of 29 on the front nine today also set a new competitive record, and his 62 equalled the competitive 18-hole mark.

Bobby Locke, the Johannesburg, South Africa, stylist who started the final round with a one-stroke grip on the $2,000 first prize, ran into putter trouble and finished in a third-place tie with the low amateur, Frank Stranahan, Toledo, O., and Vic Ghezzi, Kansas City, Kans., at 268.

Alexander put together rounds of 67-63-72-62 for his record performance and carded a 29-33 on today's chips-down performance. He capped his play with a 12-foot putt that gave him his needed eagle on the 18th.

Gil Dodds Man to Bring Home Crown

NEW YORK, Feb. 2 —(UP)— It was an easy matter to imagine the Olympic mile-run championship in American hands today, with Parson Gil Dodds as the man to bring the crown to the U.S.A.

Dodds, who rapidly is making the mile a sprint event, sent the U.S. Olympic stock zooming in his event last night when he set a new world's indoor mile record of 4:05.3.

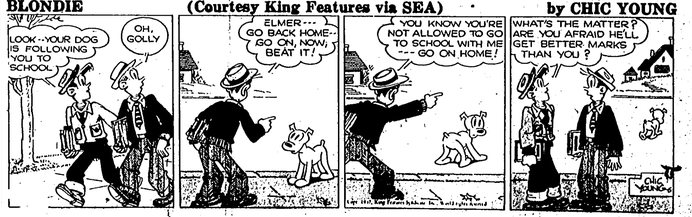
Once Surpassed

Only one American has ever run the distance faster, and that was Glenn Cunningham's unofficial 4:04.4 stint on a non-regulation track.

Before Dodds starts concentrating on the Olympics in this, his last season on the boards, he must think about next week-end—and his Boston A.A. alma mater.

Dodds is scheduled to seek his third victory in as many weeks this season in the Hunter Mile. He debuted with a victory in the Knights of Columbus meet in the Hub last week, and then last night he followed through by winning the Wanamaker Mile at Madison Square Garden.

BLONDIE (Courtesy King Features via SEA) by CHIC YOUNG



Nehru Has Faith in Government's Ability

NEW DELHI, India, Feb. 3 —(UP)— Prime Minister Jawaharlal Nehru today staked the life of his dominion government on its ability to stamp out lawlessness by the Hindu Extremists blamed for the assassination of Mohandas K. Gandhi.

First at a dramatic meeting of the National Assembly, then at a gigantic mass meeting, Nehru challenged the Extremists to a show down.

"We do not deserve to be in the government if we can not put an end to this lawlessness and violence by act, speech or other means," Nehru told the assembly.

"We are determined to deal with all people who stand for racial hatred or a hindu state," he said to the mass meeting. He dared the Extremists to "come forth and face the public."

As police and secret service squads raided Extremist headquarters in all big cities, seeking suspects in a plot to assassinate Nehru and other leaders as well as Gandhi, the government took its first specific step against the Hindu militants by banning all "private armies" maintained by any religious group.

"Gandhi's death is a reminder that the forces of hate and violence are at work in our country which imperil the freedom of the nation and darken her fair name," a communique announcing the ban said.

Gandhi's sons and grandchildren spent two hours on the bank of the Holy Jumna River ceremoniously separating his cremated ashes and bone fragments on his funeral pyre. With the aid of a priest they combed the remains with their hands. The priest found one of the bullets with which Gandhi was killed.

The ashes were packed in bags of hand woven cotton. They are to be thrown into the Ganges. On Feb. 10 an annual religious gathering attracts at least 1,000,000 persons to Allahabad to bathe in the river.

Gerhart Eisler Arrested by Federal Agents

NEW YORK, Feb. 3 —(UP)— Gerhart Eisler, labelled the No. 1 Communist in the United States, was arrested today by federal agents at his home on a deportation warrant and taken to the Ellis Island immigration station for detention.

Eisler has been convicted on two criminal charges, contempt of Congress and passport fraud, and it was probable that he would not be deported but, instead, sentenced on those counts.

Federal District Judge James Morris earlier today in Washington had turned down his appeal for a new trial on the passport fraud conviction which carries a possible maximum sentence of five years in prison and $5,000 fine.

His attorney, Mrs. Carol King, said she would appear in federal court tomorrow to seek a writ of habeas corpus to secure his release on bail.

Gerhart Eisler entered the United States in 1941 and, in that year he was ordered expelled because his entrance papers were not valid. But after lengthy court maneuvers the government did not carry through the deportation.

The regular session of the Guam Congress will be called to order at 8:30 a.m. Saturday, February 7, 1948. It is requested that all members be present to take care of the pressing business.

India Mourns At Gandhi's Burial

NEW DELHI, —(UP)— The body of India's Saint, Mohandas K. Gandhi, was borne today on its final earthly journey beside the sacred Jumna river as the flames of communal warfare flared ominously in the background.

In Delhi, India's capital, all was grief and mourning for the leader who dedicated his life to peace and non-violence only to be struck down by the violent hand of an irreconcilable member of his own creed and race.

But in teeming Bombay the adherents of Gandhi's assassin, the fanatic Hindu Mahasbaha organization, were already striking savagely at the moderate Hindus for whom Gandhi was the spokesman and idol.

And today Gandhi's adherents in Bombay struck back at the Hindu factionalists. Police opened fire in an effort to halt attacks by Gandhi's enraged followers upon the officers of Mahasabha organization. Looting was spreading and there was every sign of grave trouble immediately in the offspring.

General Groves; Russia is Using U.S. Communists

WASHINGTON, Feb. 3 —(UP)— Gen. Leslie R. Groves, wartime director of the Army's atom bomb project, said today that Russia is using American Communists and "those on the third party ticket" to try to learn U.S. atomic secrets.

He also told a news conference called to announce his retirement from the Army that the United States wants an international agreement banning the use of atomic weapons, but that the Russians have blocked action on it.

"Everybody in the United States realizes that but Henry Wallace," he said.

The Atomic Energy Commission, which took over the Manhattan project after the war, disclosed meanwhile that it is working on a new process which it hopes will supply more nuclear fuel for bomb production and industrial use.

It explained in its third report to Congress that this fuel is manufactured from the raw materials of atomic energy—natural uranium and thorium. But, it said, there are not enough of these available to supply all the fissionable material needed for bombs and other purposes.

The commission also reported that it is expanding its atom bomb production and is working on "new design" atomic weapons.

Groves, who is now chief of the Armed Forces Special Weapons Project, said he would enter private industry about Feb. 29. He said his civilian employer will be announced soon.

Army to Have Exercise Snowdrop

PINE CAMP, N. Y., Feb. 3 —(UP)— Five hundred Army paratchutists with 110 pounds of equipment each will make a mass jump tomorrow into three feet of snow and near zero temperatures. It is the first such operation in U. S. Army history.

Climaxing three months of training for "exercise snowdrop," the men of the 505th Airborne Battalion combat team will start a 72 hour combat problem with a mass jump with 18 Fairchild C-82's (flying boxcars) and an attempt to take two hills near the camp.

The paratroopers, now detained in quarters, are unaware of the details of their tactical problem which involves the mass jump, an eight mile forced march and an attack by two of the three companies making up the battalion to secure nearby Barr and Ney hills against theoretical enemy attack.

Prices for commodities in the New York market as of 30 January, unless otherwise noted, were:

Copra	$305.00 per ton
Sugar	.510 per pound
Coffee	.237 per pound
Cocoa	.4525 per pound

Prices subject to change daily.

McCormick Speaks Before Economic Club

Col. Robert McCormick, editor and publisher of the Chicago Tribune, who recently completed a tour of Pacific bases and Japan, called Guam the most powerful Naval base in the world, in a speech before the Economic Club of Chicago.

He said, "I have seen Gibraltar. I have seen Manila. I have seen Pearl Harbor. I thought I knew what Naval bases were, but Guam is greater than all of them combined."

The outer harbor at Apra, enclosed by a breakwater, he said, is greater than all of the breakwater ports of the Great Lakes combined.

"The inner harbor makes you think of New York's East River. It can handle all of the supplies for the control of the Pacific," he said.

Orville Wright Burial

DAYTON, O., Feb. 3 —(UP)— Orville Wright, 76 co-inventor of the airplane, was buried today in Woodland Cemetery beside the grave of his brother, Wilbur.

Notables from Washington, including several from the National Advisory Committee on Aeronautics, attended the funeral. Wright was a member of the NACA group for many years.

Knutson Bill Passed by House

WASHINGTON, Feb. 3 —(UP)— The House today voted overwhelmingly in favor of a Republican plan to cut everybody's 1948 income taxes by $6,500,000,000, but the Democrats stoutly insisted that it will never become law.

The vote was 290 to 110, which was 19 more votes than would be required to override a veto.

Sixty three Democrats teamed up with an almost solid GOP majority to ram the bill through its first Congressional test. Only one Republican—Rep. H. Carl Anderson of Minnesota—voted against it. He was joined by 118 Democrats and Rep. Vito Marcantonio, American Labor Party, of New York.

The bill was sent to the Senate amid predictions that GOP leaders there would scale the reduction to $4,500,000,000 and thus strengthen their chances of overriding a presidential veto.

It may be six weeks before the Senate acts.

Fulfilling a promise to make good on a general tax cut in this election year, House Republicans ignored Democratic shouts of "politics" and voted by a top heavy margin of 258 to 150, against a move to rewrite the bill to conform with President Truman's plea for a new excess profits tax on wealthy corporations to offset any losses in personal revenue.

Relief for Taxpayers

The GOP measure would give relief to all taxpayers by increasing personal exemptions from $500 to $600, granting outright cuts of from 30 per cent for low income groups to 10 per cent for big taxpayers, and by giving all married couples the privilege of splitting their income for tax reporting purposes.

Rep. Harold Knutson, (R-Minn.), chairman of the tax-drafting Ways and Means Committee and sponsor of the plan, estimated that it would result in a 100 per cent tax slash for 7,400,000 small wage earners who would be removed from the tax polls altogether.

Lewis Says Coal Industry May Cease Production

WASHINGTON, Feb. 3 —(UP)— President John L. Lewis of the United Mine Workers served notice on the soft coal industry today that he may call his 400,000 miners out of the pits at any time because the operators have failed to live up to their 1947 contract.

Pension Fund

In a letter to the producers, Lewis charged that the industry member on the union's health and welfare had thwarted establishment of a pension fund for the miners.

He said the 1947 coal wage agreement provided that a pension fund would be set up out of the health and welfare fund.

"On this date, seven months after the effective date of the agreement, your representative trustee, Ezra Van Horn....continues to thwart the fulfillment of that contractual obligation," Lewis wrote.

He said the failure to set up a pension fund constituted "an outstanding, unresolved dispute, national in scope and character."

His present contract with the industry does not expire until next June 30, but Lewis's contention is that the operators have failed to live up to their part of the present contract.

Weather Forecast

Partly cloudy with scattered light showers. Moderate easterly winds with fresh gusts during the day.

Yesterday's temperatures: Max. 84; Min. 78.

Yesterday's rainfall: none.

Rainfall for month: .27 inches.

Treasury to Expose Wealthy Europeans

WASHINGTON, Feb. 3 —(UP)— Treasury Secretary John W. Snyder promised today to expose wealthy Europeans who hold $1,100,000,000 worth of secret assets in this country which could and may be used to help finance the European recovery program.

He informed the Senate Foreign Relations Committee in a detailed memorandum that this hidden hoard, whose owners have kept their wealth a secret from their own dollar-starved governments, is safely tied up in "blocked" accounts here.

He said a substantial part of the assets are owned by Frenchmen.

None of them can be removed or sold until the owners identify themselves and prove their holdings are not enemy property.

But, by doing so, they will expose themselves to their governments, many of which have foreign exchange laws forbidding such financial maneuverings.

Snyder said the foreigners will be instructed "shortly" to claim their property. They will be given three months after that to prove their blocked assets are not enemy-owned. If they fail to do so within that time, the assets will be seized by the United States for eventual re-distribution among the 16 Marshall plan states of western Europe.

CIO Workers Have Strike Vote

CHICAGO, Feb. 3 —(UP)— The CIO United Packinghouse Workers announced today that a strike vote is being taken among its 100,000 members as a result of deadlocked negotiations with the nation's major meat companies.

Union officials said they would not follow a pattern of a nine-cent hourly increase accepted by the AFL Amalgamated Meat Cutters, and Butcher Workers' Union with the "big four" packers. The CIO union has asked for a 29-cent hourly pay boost.

The CIO union's executive board called the nine-cent increase accepted by the AFL "totally inadequate, completely unrealistic and in flagrant disregard of the real needs of the packing house workers."

Headline Highlights

PARIS —(UP)— Premier Robert Schuman's government, its monetary reform program squeezed through the National Assembly by a narrow margin, announced that free trading in American dollars and Portuguese escudos will begin at the bourse (stock exchange) Monday.

JERUSALEM, Palestine —(UP)— The U. S. State Department has ordered that all American citizens taking an active part in the Jewish-Arab fighting in Palestine be deprived of their U. S. Passports, the consulate announced recently.

CHATEAU GARNIER, France —(UP)— The bodies of 10 American victims of a dual Alpine air disaster which took at least 21 lives were taken to the chapel of this Alpine village to lie in state under the flags of the two nations.

NORFOLK, Va. —(UP)— One thousand Marines who will relieve an equal force in the Mediterrean began embarking on the aircraft carrier Philippine Sea, Fifth Naval District headquarters announced. The carrier will sail at noon Sunday, the Navy said.

AFL to Oppose Henry Wallace, Third Party

MIAMI, Fla., Feb. 3 —(UP)— The executive council of the American Federation of Labor tonight announced its opposition to the third party presidential candidacy of Henry A. Wallace.

It urged the 7,200,000 members of the AFL unions not to be "misled by the false liberalism of Mr. Wallace and his so-called third party organization."

Lock Stock and Barrel

The 15-member council said the Wallace third party was directed by the Communists "who have taken him in lock, stock and barrel.

"He has become their front, their spokesman, their apologist."

The executive council of the committee for industrial organization and the CIO's political action committee 2 weeks ago announced their opposition to the Wallace candidacy on the high policy level but the CIO action was not unanimous.

The AFL to date has announced its opposition to the candidacies of Wallace and Sen. Robert A. Taft, (R-O.,) but AFL President William Green repeated today that neither announcement could be interpreted as supporting any other candidate.

Palestine Commission Asks For UN Aid

LAKE SUCCESS, N.Y., Feb. 3 —(UP)— The United Nations Palestine Commission today asked UN for an "adequate means" to enforce the partition of Palestine and disclosed that British troops in the Holy Land already have begun to leave.

British Testimony

The British also are removing some of their Army stores from Palestine, the Commission revealed on the basis of a secret British testimony.

The Commission, in its first monthly report to the UN Security Council, warned that when the British yield all authority in Palestine about May 15, law and order may collapse completely.

In any event, the Commission said, the already-grave situation in Palestine probably will become worse.

Majuro Completing Repairs

COMMAR HILL—Storm damage to buildings on Majuro was not considered as serious as first expected and necessary repairs were expected to be completed by February 15, a dispatch from Commander Marshalls, Sub Area, said yesterday.

The dispatch said a "SeaBee" working party had been assigned to assist in making the repairs and required materials had been shipped to Majuro.

Temporary repair of the causeways was expected to get underway in the near future.

Rising Auto Costs Hamper Motorists

Pleasure Driving Drastically Reduced

by Roy J. Forrest
United Press Staff Correspondent

DETROIT —(UP)— Automobile operation costs are reaching a point where the average motorist will have to think twice before taking his family on the usual Sunday drive into the country.

Doubled up to keep costs and increases averaging more than 40 per cent in auto purchase, gasoline and oil prices since 1941 are beginning to put a crimp in much pleasure and other unnecessary driving.

Economy Cars

The auto inflation is getting more and more attention. When the price situation gets critical, auto manufacturers may be forced to turn out new cars featuring economy in operation.

So far, only the nation's motor clubs have protested publicly to the petroleum and auto industries and the government.

Recent increases in fuel prices have stimulated motorists to think about mileage more than ever before.

In 50 cities over the country, the price of regular gasoline has climbed steadily from an 18.7-cent average to about 26.9-cents a gallon in two years. It is 30 cents and higher in some places.

Auto makers, taking their cue from oil scarcity talk by the refiners, speculate about 50-cent gasoline and 60-cent motor oil. There have been four general increases this year.

Taxes Rise

Tax collections on motor vehicles also have risen from $2,147,000,000 in 1941 to an estimated $2,914,000,000 in 1947. Auto repair, storage and parking bills have soared.

The automobile industry has been able thus far to ignore the small demand for a light car because the limit has not been reached in the public's ability to pay higher prices. The situation could change almost overnight.

Refiners, in announcing price hikes, cite higher prices for crude oil, increased labor costs and the unbalance between the supply of petroleum and a record demand for fuel.

Strong Barriers

If the fuel situation gets out of hand, the alternative to light car production would be the marketing of more effecient engines and better fuels for present full-sized cars, but there are strong barriers.

Recently, C. F. Kettering, former chief of research for General Motors Corporation, announced successful tests of a new high-compression engine which requires one-third less fuel than the current conventional engine.

Kettering said the engine promises to conserve fuel and save the motoring public upwards of $1,000,000,000 a year in gasoline costs.

But the engine requires a special kind of fuel called triptane, available now only in experimental quantities. Its commercial manufacture would entail expenditure of billions of dollars for new refining plants and distribution outlets.

Triptane has a far greater engine anti-knock rating than 100-octane, the expensive warplane fuel of World War II. An idea of costs can be gained from the fact that one plant, which has made 40,000 barrels of 100-octane gasoline daily during the war, cost $100,000,000.

Governor's Letter to Guam Congress

This is a letter from Governor Charles Alan Pownall to the Guam Congress concerning policy statements in reference to public and national interest vs. private interest on Guam.

Recently, there has developed some misunderstanding regarding the interrelationship and inter-dependence of the subject interests on Guam. Certain liquor stores and certain restaurants have been closed predicated upon complaints, petition from:

(a) Building contractors under contract with the Federal government.
(b) Police department.
(c) Health department.

In each instance an investigation was conducted to determine the accuracy or inaccuracy of the petition. Owners and operators of some of these closed establishments have submitted counter-petitions for reconsideration, urging as argument that it was not the, but their customers (a large percentage of which are personnel of the armed service or contractors personnel) who are to blame; that it is the responsibility of the government to preserve law and order everywhere, and not the dealers; that technically, they have violated no existing laws and the closing of their establishment causes unwarranted hardships to the dealers and constitutes a deprivation of civil rights without just cause. Each such counter-petition has or will receive the individual attention it deserves by the government.

In view of the foregoing conflict between public or national interests on the one hand, and private interests on the other, it is appropriate that the Governor express an opinion on this general subject for the information and guidance of all concerned. First ; it is generally known and appreciated that the local government is charged with certain specific duties, such as:

The maintenance of law and order,
The health and sanitation of civil population,
The full-out support of the U. S. National Defense,
The enhancing of the free enterprise and non-exploitation policy of the Secretary of the Navy.
The protection and security of the lives, property and legitimate interests of the civil population of Guam.

The above duties are fundamental and are not subject to compromise. Every franchise operator or restaurant owner, who deals with the public is considered to have certain moral obligations to his customers, to the community and to the government. The foregoing moral responsibility is recognized in democratic systems of society and government. Such acceptance of moral obligation is conducive to good and sound business. A business that does not have the support of public opinion is a bad risk in the long run. One of the best asset for any business is a good reputation.

In connection with this subject, let us attempt to be realistic, practical and fair! Take for example, the case of Mr. "A" or perhaps it is Mrs. "B," who is a widow, and who with her claim money sets up a small restaurant, on Guam. Despite shortage of material, light, power and labor, Mrs. "A" has a very presentable establishment. It is clean and tidy; so is her surrounding property. There is a "homey" atmosphere about the place. Mrs. "A" is quite conscientious about fulfilling the health and police regulations. Her clientele knows and appreciates this fact. There is no record of crime or riots linked with her establishment on the police records. The Public Health department speaks well of her place of business. She is fulfilling her moral obligation as well as her precise civil duties under the law. Naturally, men are not inclined to roudyism in her establishment any more than they would be in their own homes. She has catered to the class which appreciates these factors. She is not particularly rich, because first, she has sought reputation and is putting her profits back into her business to make it still more attractive. Mrs. "A" and her establishment are an asset to Guam and we wish her well. Fortunately, we have many Mrs. "A's" on Guam!

Take now Mr. "B" or say the "B" family who also operate a restaurant and dispense beer. The police record indicates several crimes and riots in or adjacent to this establishment. The general reputation of the place, including its environment is bad. Sanitary conditions are on the ragged edge. Outwardly and inwardly the place has the appearance and the atmosphere of a "joint;" no more, no less! The "B's" do a big business and are making a lot of money. The police department is required to detail extra patrolmen to the vicinity thereof. Many men have emerged therefrom fighting drunk. The police suspect that stronger stuff than beer may be consumed by "B's" customers. The police have remonstrated with the "B's" and have recommended to the governor that the place be closed.

The "B's" maintain that they technically violated no law, but the situation has become a case of "hide and seek," between them and the law enforcing agencies. The "B's" are too busy making money to be overly concerned about their moral obligations to the community or to the government.

Here we have described party "A" and party "B" on Guam. There are many "A's" and "B's" hereabouts, because of the "B's" and others like them, the Liquor Control Advisory board suggests further restrictions by denying the dispensing of beer with food at restaurants. Such a restriction, if imposed would severly affect Mrs. "A's" business and her clientele. In order to permit "B" to carry on as at present, special policemen are required to handle the rioters and drunken element as some emerge full of beer or liquor with empty pockets from "B" establishment. Shall we continue on a policy of more and more restrictions or less and less restrictions? Shall we make the "A's" suffer for the "B's"? Would not the Governor be remiss if he permitted such things to happen?

The government will afford police protection to business activities on Guam without discrimination. It will not disperse its law enforcing personnel to support one establishment or a condition which is conducive to further crime and disorder at the expense to other places or localities, in order to permit the offending establishment to remain in business. The logical action in such cases is to close "B" without further ado.

Take the case of "C" family, who operate a liqour store adjacent to a construction camp. The contractor's firm affected, presented postive evidence to prove that absentism and drunknness are retarding seriously, the production and cost of federal work, necessary for our national defense, due to the presence of said liquor store or stores nearby. One serious crime took place there following a drunken brawl. Whatever the cause of such a condition which tends to defeat the national defense purposes of the United States Government, that cause must remedied immediately! Theoretically we say, we must place a guard around such an establishment day and night and issue an order that no man of such and such company is allowed to buy therefrom. We must enlarge our law enforcing agencies with the attended added cost thereto in order to permit the "C" family to engage in the liquor business at this specific locality. Is that the correct solution to this problem? If "C's" business is a menace to the well-being of the men of the camp and their essential mission to Guam it follows as the only practical solution that "C" move their store to a more acceptable location, or resort to other means of livelihood which does not menace the national interests, on the grounds of hardship, "C" petitions for reopening of their business, notwithstanding the foregoing. In answer to this contention, the Governor submits the following comments:

(a) While sympathetic understanding and consideration of personal hardship is fundamental in democratic governments, it does not follow that personal hardship can be used as justification to circumvent the laws, their enforcement or the public or national welfare. Hence, other means must be found to assuage actual hardship, where actual hardship exists.

(b) On Guam there exist adequate opportunities for employment and business enterprise in other more suitable localities.

(c) It is reasonable to estimate that "C" store has contributed unwittingly to more lasting hardships to others than has been entailed by "C" themselves.

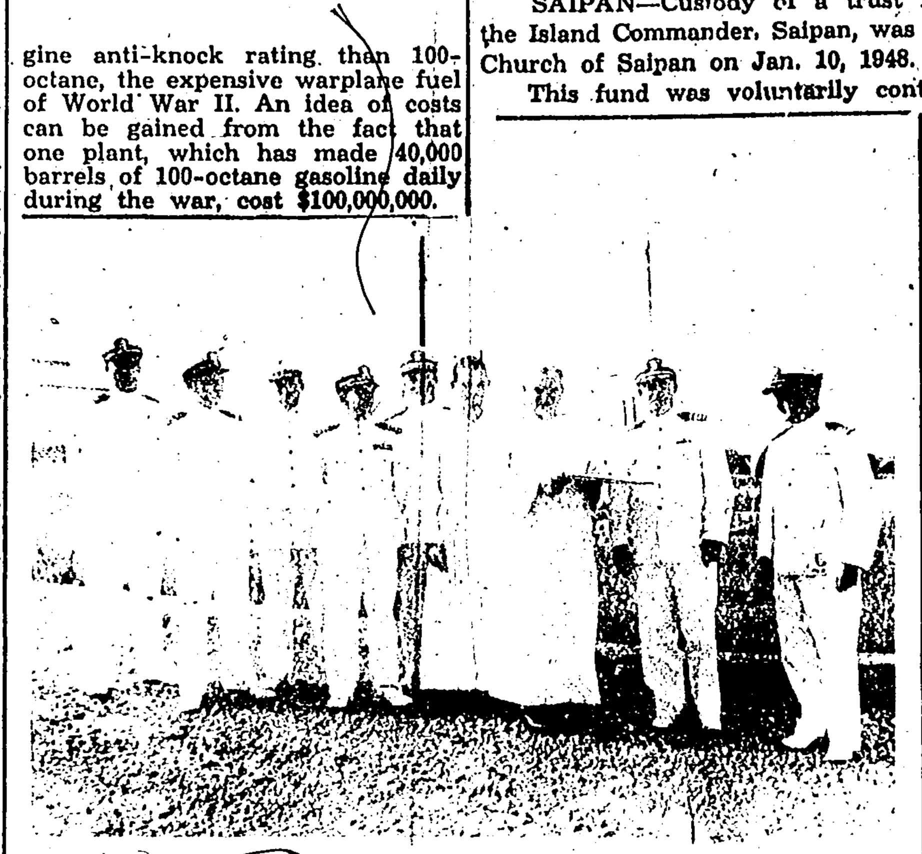
(d) The government stands ready to cooperate fully with free, legitimate enterprise, which contributes to rather than detracts from, the public and national interests.

Business establishments which work good and lasting reputations, which fulfill their moral obligations as well as their civil duties to the public and to the law and health enforcing agencies of the government, will have no cause for concern.

Catholic Church of Saipan Receives U.S. Armies Trust Fund

SAIPAN—Custody of a trust fund of more than $3,000 held by the Island Commander, Saipan, was officially transferred to the Catholic Church of Saipan on Jan. 10, 1948.

This fund was voluntarily contributed by American armed forces personnel on Saipan, orginally to repair damages to the Garapan Catholic Church building roof at Chalan Kanoa, Saipan, damaged during the war.



TRUST FUND TRANSFERRED— Captain G. L. Compo, USN, Island commander Saipan, (second from right) is shown transferring the bank account-books of a trust fund of over $6,000, which was voluntarily contributed by American armed forces personnel on Saipan, to the Reverend Ferdinand Stippich, O. P. M. Cap, pastor of Saipan and Pro Vican of Guam. (Official Navy Photo)

After the landing of American invasion and occupation forces sympathetic friends among the American troops, principally the U. S. Marine Corps and the U. S. Navy, voluntarily contributed sums of money to repair the church building.

As the idea spread, interest grew and contributions increased to the extent that even after the church roof was temporarily repaired, the church funds still showed a balance.

During the ensuing months church officials and military authorities conferred from time to time with the result that the scope of his worthy endeavor was enlarged to include not only repairs to the damaged church building, but also the eventual reconstruction and rebuilding of a new church, subject, of course, to the financial limits of the fund and to what ever additional revenues might be forthcoming from other sources.

The donations and contributions, amounting to $6,634.15, were turned over to the Island Commander, Saipan. This sum was deposited as a trust fund in the Bank of Guam with the Island Commander acting as custodian.

On Saturday, Jan. 10, 1948, at a formal inspection, custody of the trust fund held by the Island Commander, Capt. G. L. Compo, USN, was officially transferred to the Reverend Ferdinand Stippich, O.P.M., Cap, pastor of Saipan and Pro Vican of Guam, representing the Catholic Church of Saipan.

Lt. Col. Simmons Returns Stateside After Early Guam Pioneering

NORTH FIELD—Lt. Colonel Harry D. Simmons, a veteran of World War I and II and one of the few men still on active duty on Guam who remembers when the VHB base at North Field was nothing but a jungle, is leaving for a well earned rest and a new assignment in the states.

Lt. Col. Simmons began his tour on Guam in November 1944 as CO of the headquarters Squadron of the 69th ASG. When his organization arrived and was assigned to the area that is now North Army air base, there was nothing but jungle on the site of our present modern installations. He was present when the late General Harmon accepted the field from the engineers on February 2, 1945. He also had the good fortune of witnessing the arrival of ever increasing numbers of superforts as the air offensive against Japan mounted in fury. Upon the cessation of hostilities, the 69th ASG was deactivated and he was transferred to the 31st as CO of the Headquarters squadron.

Ex-Navy Man

Lt. Col Simmons served as an enlisted man in the Navy in World War 1 seeing service aboard both the USS New Mexico and the USS Montana. Upon his release from active duty, he became actively engaged in athletics, playing professional football with the Gary Elks. He accredits Jim Thorpe with being the finest football player he has ever played against. He was also an outstanding amateur boxer, garnering the national amateur 147 pound title in 1922.

After two years of private employment as a sporting goods salesman in Chicago, he served as an officer in the Civilian Conservation Corps program. In 1940 he was called to extend active duty with with the Army with the rank of captain.

Promoted

In 1943 he was promoted to the rank of Major and in June of the same year was transferred to the air corps and assigned with the 31st air service group with headquarters at Biggs field, El Paso, Texas. He went to Camp Campell, Ky. with this organization while it was engaged in the Tennessee maneuvers. In May of 1944, 31st was broken down into two components, the 31st and the 69th ASG. Lt. Col Simmons was appointed CO of the Headquarters squadron of the latter organization.

In July of 1944, the groups were sent to Harvard, Neb. for B-29 training and in November of the same year, was shipped overseas, landing at Guam. On April 10, 1946 he was promoted to the rank of Lt. Colonel.

Lt. Col Simmons is married and has one child, Harry D. Jr. His family is with him here and they expect to return to their home at 4300 Brexel Blvd., Chicago for a well earned rest.

OLD TIMER—Colonel Robert V. De Shazo, commanding officer of the famouse 19th Bomb Group, left, is shown as he bids farewell to Lt. Col. Harry D. Simmons who is returning to the states for a well earned rest and reassignment. Lt. Col. Simmons was on Guam when North field was little more than a jungle. (Air Corps Photo)

Vets Prevalent

DETROIT —(UP)— The employment rolls of automotive plants in the Detroit area are taking on a strongly GI flavor, according to a survey by the Michigan Employment service.

Nearly one-fourth of the employes in automotive factories in and around Detroit, Flint, Pontiac and Ypsilanti are ex-service men and women. Officials expect the percentage to increase as the industry expands, because at many plants more than 50 per cent of recent hirings have been veterans. The newest automotive company in the Detroit area, Kaiser-Frazer, has provided employment for 2,900 veterans.

Love Conquers Everthing on Time

ALFRED, N. Y. —(UP)— It was old fashioned good neighbor spirit that enabled two Alfred University students to start the second semester this year as man and wife in their own apartment.

When Mr. and Mrs. Lawrence P. McCarthy tried to complete their wedding plans, they ran almost overwhelming streak of hard luck. An important partition was missing from their partly completed apartment; furniture and equipment were lacking; McCarthy found he was scheduled to take a final examination just an hour before the wedding time, and the maid honor swallowed a bobby pin, which landed her in the hospital.

But fellow students, painters, movers, faculty members and the medical profession co-operated to make the nuptials possible.

Men students helped McCarthy finish the partition. Women students sewed slip covers and aided in the painting. The maid of honor was released from the hospital. A professor agreed to postpone the bridegroom's examination until after the ceremony. The wedding came off as scheduled.

Guam News

Published daily and Sunday for personnel of the Army, Air Force, Marine Corps, Coast Guard, Navy and civilians of the Western Pacific islands. United Press services received through special arrangements made by Ship's Editorial Association of the Bureau of Personnel, Navy Department.

The Navy Department does not necessarily endorse products herewith advertised.

Price per issue, three cents daily within radius of seven miles of Production Plant, Agana, five cents outside: five cents on Sunday.

Ya Don't Say . . . .

PITTSBURGH —(UP)— Dave Harvey, a man who doesn't like to be disturbed, got rough with firemen when they broke into his home to put out a mattress fire.

They woke Harvey out of a sound sleep.

"Don't squirt water in here," he yelled, rushing the firemen.

Magistrate Robert Williams sentenced Harvey to 60 days in the workhouse "to catch up on his sleep."

NORMAN, Okla. —(UP)— Dr. Gilbert C. Fite, assistant professor of history at the University of

When he didn't receive his "brief" report on the Pearl Harbor investigation within three years after requesting it, Fite forgot the matter.

He has just received his inside information—34 volumes of it.

INDIANAPOLIS —(UP)— Night policeman Charley Ford of the Indianapolis Methodist hospital had to help unload both of his sons at the clinic as patients.

Twelve-year-old Charles, Jr., broke his left arm trying out a pair of roller skates.

An hour later the wagon brought in another son, Walter, who was injured in an automobile accident. He broke his right arm.

Vet's Organization Exposes Termal Leave Bond Racket

(SEA)—Here's the way the latest racket works, according to a statement by a major veteran's organization:

A loan shark comes in contact with a veteran who is short on cash. He suggests that the ex-GI can realize some ready cash for his "worthless" terminal leave bond which will not mature in most cases until well after 1 April 1948.

The speculator agrees to give the veteran 50 per cent of the face value of the bond immediately, hold the bond as security and pay another 25 per cent when the bond comes due and the veteran signs it.

Under this arrangement, the loan shark realizes a profit of 25 per cent of the bond's face value, plus interest computed at the rate of 2 and one half per cent annually. Thus, on a $500 bond for which he invests $250, he stands to make as much as $168.50. And the worst part of it is that he cannot be prosecuted because he is entirely within the limits of the law, though the veterans organization termed the scheme "nothing short of robbery."

Veterans were urged to report the operations of such loan sharks to their veterans organizations or to the public press. A bill is before Congress to permit immediate cash payment on terminal leave bonds.

Personality Favored, But, What is it?

LAWRENCE, Kans. —(UP)— Two summer vacation students at the University of Kansas made a survey on what is the most dangerous trait in choosing a mate.

William Wilson and Sherman Steinzeig questioned 200 guys and girls at the school and learned that personality was the heavy favorite. However, they say they are still in the dark.

First preference of 68 of the 100 men was personality. Twenty-seven of the women listed it as their first choice.

So Wilson and Steinzeig rechecked the 95 who preferred personality to get a good definition of the trait.

They got 95 different definitions.

Tuberculosis Tots Undergo Schooling

Although they are victims of tuberculosis, these children who are patients at the Guam Memorial Hospital still attend school. Some like little Elaine Leon Guerrero and Juan Pablo have been sick for more than five years and have been in the hospital most of that time. Others like Rita Lizama have been on the ward since their first year of life only seeing their parents and visiting home on weekends. Yet in spite of their lengthy tenure in the hospital these children have a good chance to recover.

Classes lasting two to three hours are held each day by Miss Hedeliza Camacho of Agana who is herself a patient. Miss Camacho has sympathetic understanding of the problems of the children as her own illness was discovered while she was still a student in high school. Subjects taught encompass those usually included in the first to the fifth grades. After class the children in the pictures, starting that is necessary for their restoration to health. They will be useful citizens when they are ready to be discharged.

Dorothy Wolford, Ava Paogilinan, Conception Manabusan, Juana Manglona, Atalig Stanislau, Ernesto Tajalle, Catherine Hudson, Maria Ajaisen, Elaine Leon Guerrero, Roman Bitanga, Pedro Solas.

For Sale — Nearly half price complete wardrobe. Dresses, playsuits etc. Some never worn. Also Winter clothes for cold weather wear. Quarters 1608, North West Field. 6

TALENT PLUS BEAUTY—Warner Bros. starlet Joan Winfield is not only a capable and beautiful actress, but a proficient musician as well. After her graduation from the Royal Academy of dramatic art in London, she became one of the most promising concert violinists in Europe, giving recitals in nearly every country on that continent. (Warner Bros. Photo)

New Pipeline to Increase Iraq Petroleum Exports

BAGDAD, Iraq —(UP)— Petroleum exports from Iraq oilfields will be raised to 25,000,000 tons a year when the full pipelines scheme is completed.

The figures were disclosed in a statement by Dr. Nadim Al Pachachi, director general of the Ministry of Economics.

"The scheme," Pachachi said, "involves the construction of two new pipelines from the Kirkuk to Haifa and Tripoli."

"The first of them already is in hand. It is a 16-inch pipeline running parallel to the existing 12-inch line from Kirkuk to Haifa and Tripoli."

"About 70 per cent of the new Kirkuk-Haifa section now is built. It will be finished next year. The Trippli section is scheduled for completion in 1950."

The present scheme, originally planned before the war, was started only last year because of the lack of materials during the hostilities.

"When this project is completed," Pachachi stated, "it will operate concurrently with the old pipeline, raising Iraq's petroleum exports from their present maximum of 4,000,000 tons a year to more than 12,000,000 tons.

"Yet a bigger pipeline forms part of the future plans of the Iraq Petroleum company Running from Kirkuk to the Mediterranean, this projected 30-inch line when realized, will step up Iraq's p troleum exports of 25,000 tons a ye.r.

"Kirkuk's oil structure is one of the biggest in the world. The efficient handling of production by the company contributes to prolonging the life of the field and conserving its energy."

Oil activity also is in progress in other parts of Iraq. Preparations for drilling in two locations in the Basrah area, operated by the Basrah Petroleum company, are in progress.

BIRMINGHAM, England —(UP)— Women prisoners in Birmingham jail are passing up their recently granted privilege of buying makeup. A prison report said 99 out of every 100 women prisoners prefer to spend their pocket money on cigarettes instead.

Harvard Plans Legal Memorial

CAMBRIDGE, Mass. —(UP)— A "treasure house" of historical legal documents will be established at Harvard as a memorial to graduates of Harvard law schools who died in World Wars I and II.

The room will be air-conditioned and dust-free so that the rare collection can be brought out of vaults and be used as well as seen.

The collection includes the session laws and statues of the 13 original colonies and manuscripts and printed books in which the common law can be traced back to the earliest records.

There are 16 different early printings of the Magna Charta and an almost complete collection of all editions of Blackstone's famous commentaries.

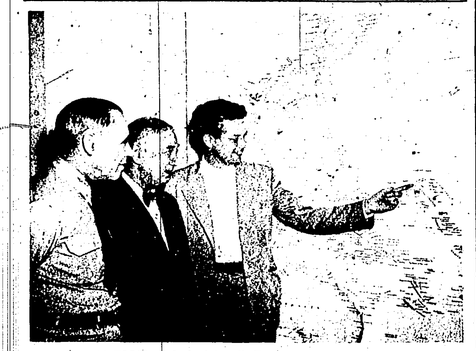
The library also contains a practically complete collection of early Canadian and Australian laws and nine volumes of French negotiations leading to the peace of Westphalia in 1648. Most modern item in the collection is the official mimeographed record of the Nurnberg trial of Nazi leaders.

And No Tax Either

TOPEKA, Kan. —(UP)— In these days of increasingly higher wages few workers can top the record of a buffalo hunter, Tom Nickerson, who made $7.50 a minute during a summer three-quarters of a century ago.

Kansas State Historical society records show that the dead-shot buffalo slayer averaged one animal every twenty seconds during his working hours.

Sales of hides during the 1872 era brought Nickerson's wages to the fancy level of $450 an hour.



BIKINI SOLUTION—Admiral D. C. Ramsey USN, CincPac, Dr. Peter Buck and Professor Leonard Mason confer at Pacific fleet headquarters on solution of the problem of establishing the Bikini people on a self sustaining economic basis. Professor Mason and Dr. Buck have agreed to serve as advisors to the Navy on the question. (US Navy Photo)

Marbo Civilians Spend Sundays Seeing Guam

LOUISVILLE, Ky. —(UP)— An ex-soldier who filed suit for divorce in Jefferson circuit court used love notes on staid Army inter-office memo forms as evidence against his wife.

One note, from another man to the veteran's wife, read: "Subject: my love for you." Beside the printed word, "To," were the pencilled words, "You, my darling."

Divorce granted.

Stowaway Racket

(SEA) —— Revival of the "stowaway racket" is causing immigration authorities no little worry. About 700 stowaways have arrived in New York in the past year-and-a-half, the Immigration and Naturalization service estimates.

The tip-off to the "racket" was given by a man who said three officers of a ship offered for $1,200 to aid him in getting his brother off the vessel he had supposedly stowed away on in Trieste. The man's brother was not on the vessel, however.

Ship masters and steamship lines were asked to be more diligent in keeping unauthorized persons off ships in foreign ports.

Special Trips To Interesting Places

MARBO—Something new has been added to the routine of civilian workers at MarBo. Special trips to places of interest on Guam have been arranged for civilian personnel who may be interested. No longer will the week ends drag or leisure time prove too much to endure.

Special trips have been planned every Sunday for civilians now on duty at MarBo. These trips are carefully planned and in many cases the tour leader is a Guamanian who is familiar with all parts of the Island.

The director of civilian personnel, Headquarters MarBo has taken a personal interest in this new project and has designated Miss Edith Hodgkins of the employes utilization section to take care of these trips. Miss Hodgkins will plan trips and make schedules. She has had considerable experience in this type of work. Before joining the command, she served as a recreational worker in the Red Cross in the Philippines and Japan.

Huge Success

When this idea was first conceived there was a bit of skepticism as to how they would be accepted. Now any doubt of the interest has been removed. The highest expectations of those in charge of the tours has been exceeded. More than 100 applications are received each week.

The trips are taken each Sunday, rain or shine. Three tours have already been made to the cave of George Tweed. Tweed was the Navy enlisted man who held out against the Japanese during their occupation of Guam. Jose Artero, a personal friend of Tweed, has gone along and explained the various phases of Tweed's existence while a hideaway from the Japs. This is a difficult trip to make but most all are able to make it. Other trips have been made to Talofofo cave, Mt. Santa Rosa, Tarrague Beach.

Beach parties are also held on weekday afternoons.

Truck transportation is provided for the sightseers. A small charge is made to cover cost of sandwiches and soft drinks provided during rest periods.

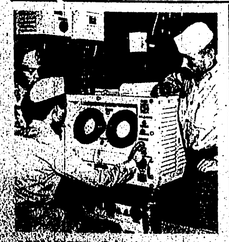
U. S. Navy Trains Philippine Patrol

BREATHING APPARATUS is explained to a group of 32 Filipino officers undergoing training with the Philippine army's new naval counterpart, the "Off-Shore Patrol," at their basic training base at Cavite, the stronghold which made banner headlines in newspapers during the war with its gallant stand against the Japanese assault. (Official Navy Photo)



ADVANCED RADAR instruction is given to one of the Filipino trainees of the Philippine's "Off-Shore Patrol," aboard the USS Quest, a minesweeper at Subic Bay, P. I. This is part of the large-scale program to acquaint the personnel of the Philippine navy with the latest equipment and methods of handling such equipment. (Official Navy Photo)

THE PHILIPPINE ARMY'S baby brother outfit, the "Off-Shore Patrol," run through a drill in the wheel house of the USS Quest (AM-281) now used for advance instruction for the trainees at Subic Bay. Two officers and 28 men of the Commander U. S. Naval Forces, Philippine training unit are acting as an advisory group in the training of the unique military unit which is to become the Philippine navy. (Official Navy Photo)

BLONDIE (Courtesy King Features via SEA) by CHIC YOUNG

Hormones Lose Control

NEW YORK —(UP)— A Yale psychologist, basing his findings on a ten-year research program, believes that harmone activity no longer controls the courtship and mating behavior of men and women.

The expert, Mr. Frank A. Beach, reports on the survey in a book, "Hormones and Behavior," published by Harper brothers.

Hormones, he finds, still are the active agents, influencing the mating behavior among all types of lower animals. In man, however, the forebrain and particularly the cerebral cortex have reached a significant role in controlling his courtship and mating responses. The cerebral cortex is the outer covering of the brain.

Dr. Beach's book, in which he reveals much of the literature on the subject, also points out that the male in the lower type animal is influenced in his sexual behavior more by higher brain processes than is the female.

Among rats and meat-eating animals, he says, the male can be inhibited or stimulated by a familiar or unfamiliar enviroment, the female does not seem to be affected by such factors.

While hormones do not affect man's sexual behavior, Dr. Beach points out, he reports one castrated patient who was treated with male hormones, and for the first time in his life he summoned enough courage to talk back to a cab driver.

Starlet Rates Crosby Tops

HOLLYWOOD —(UP)— Bing Crosby's newest leading lady has become his newest and strongest fan. Red-haired Rhonda Fleming voted herself the luckiest girl in Hollywood when she won out over a dozen red-hot competitors for the prize role opposite Crosby in Paramount's "A Connecticut Yankee in King Arthur's Court"—a picture sure to cop an award for the longest title of the year.

Now, after working with Crosby for a few weeks, Miss Fleming is voting him the nicest actor in Hollywood.

"Working with him has been a revelation to put it mildly. For instance, I half believed those stories that he was lazy. Well, he isn't. Hes just casual. But he knows everything that goes on That man must have eyes in the back of his head."

"He doesn't strain himself during a rehearsal, but when the camera is turning he gives everything," she said. "In that way he's fresh and relaxed for the real work. I used to rehearse so hard that by the time we were ready to shoot I was all worn out. I think Bing's got the right idea."

Miss Fleming found that you can't be a shrinking violet or a prima donna when you sing with Bing. A Crosby set without visitors is an unheard of as a Crosby horse coming in first.

Better Than Pig-Latin?

ALBUQUERQUE, N. M. —(UP)— Basic English may be the coming thing, but according to Dr. T. M. Pearce, head of the Department of English at the University of New Mexico, tomorrow's English will be filled with acronyms and abbreviations.

An acronym, Dr. Pearce explained, is a word formed from the initial letters of other words, such as O. K., SNAFU, and DDT. The war has speeded up the use of acronyms with such expressions as PX and GI, among others.

"This is precision English suited to military needs, but as we enter the age of the A-bomb," Dr. Pearce concluded, "Tomorrow's English may contain more and more of acronym and abbreviation."

Over The Joepot

by Bill Jury

Basketball has come a long way since the early peach basket days of slow, methodical low scoring games. The modern fast breaking, high scoring contest reign now and it's getting to be a pain in the neck to a lot of people.

The fans get a kick out of seeing the teams race up and down the court fullblast for forty minutes scoring almost at will, but they dislike the official whistle-tooting that goes with it. They maintain that the refrees are taking the game away from the players and the whistle-tooters come right back and claim that it takes a lot of calling to keep the game in hand. Coaches have their troubles too. Dr. Forrest (Phog) Allen, self-styled voice of basketball, and coach of the University of Kansas cage squad, had this to say.

"There is too much of this race-horse basketball for the good of the game. It is my belief that the ball should be declared dead after every free throw attempt—missed or made, just as we do on a technical foul or double foul. Then put the ball in play from the center from the center sideline. That would slow it down and stop a lot of this race-horse business."

Just like other day four proposed changes in the rules were tried out in a scrimmage session between Columbia University and Manhatten College in an effort to slow the game down. It slowed it down, alright, but in doing so most of the spectators were agreed that it spoiled the contest from the fans' viewpoint.

Something will undobtedly be done about the house-afire style of basketball before another season goes by, but it's a safe bet that they'll leave it fast enough to keep the paying customers happy.

A couple of years ago when Bob Kurland and George Mikan were controling backboards with their tremendous height some officials were quick to propose that the baskets be raised a couple of feet higher. That idea didn't get far, although the rule makers compromised on a rule outlawing goal tending, and it turned out for the betterment of all concerned.

ISLAND CAGE NOTES.... The Guam All-Stars haven't lost a game in five starts, but they've come mighty close on occasions. Three times they've had to come from behind to win by a small margin. Needless to say it's hard on the tickers of Coaches R. W. O'Brien and H. W. Douglas....They throw just about every conceivable combination into a game until they hit the right one....Fortunately they've had good luck up until now. The oth r night it was Bob Buum who pulled the game out of the fire. In the next scrap Red Edwards and Cy Cassidy came up with the goods just as the time was running out. Maybe they can do that in the WesPac clambake, but the All-Stars headmen aren't counting on it....They're still looking around for a winning combination.

So far the other entrants in the Marianas tourney, Saipain and Kwaj, hav n't shown enough to cause any high degree of consternation to Guam followers. Sunday night Saipan bowed to BPM by a one point margin and Monday night Kwajalein lost a three pointer to the same construction crew.

Button Clinches First Win For U.S. in Winter Games

ST. MORITZ, Feb. 3 —(UP)— Eighteen year old Richard Button of Englewood, N. J., a slender figure clad in black, virtually clinched the first gold medal for the United States in the fifth winter Olympic games today with a dazzling performance in compulsory figure skating as Norway, Switzerland, France produced champions in three other events on the fourth day of the Olympiad.

Barring a sharp reversal of form in Wednesday's competition at free skating, an art at which Button is the acknowledged master of the amateurs, the graceful New Jersey youngster will become an Olympic champion.

His precise skating through the five compulsory figures netted a point total of 594.7 compared to 96.1 for his nearest rival, Hans Chwiler of Switzerland, world champion whose forte had been the compulsory figures.

New Record

But on this warm Olympic day, other Americans fared badly as Serre Farstadgn 28-year-old ice rink attendant from Trondheim, Norway, set a new Olympic record of 2:17.6 for the 1,500-meter speed skating test, Lanky Henri Oreillergn a wide-running French farmer, scored a smashing victory in men's downhill skiing. Hedy Schlunegger from Switzerland won the women's downhill event.

The unofficial point total reflected the U. S. shortcomings after four days of competition as Norway, Sweden and Switzerland fought neck and neck for the lead with the U. S. sixth.

Farstad's victory in the 1,500 meters gave Norway a total of 44½ points, Sweden was second with 39, Switzerland third with 37½, Finland fourth with 24, Austria fifth with 16, the U. S. sixth with 15¼. Other scoring nations included France 11, Italy 4¼, Holland and Belgium 3, Great Britain 2, Canada ¼.

Well off Farstad's record pace, Little Dick Werket of Minneapolis was the leading U S competitor in the three championships decided today with sixth place in the 1,500 meters. He toured the three and three quarters laps of the arena in 2:12.2.

Jack Reddish of Salt Lake City finished 26th in the men's downhill, Dick Movitz of Salt Lake City was 42nd, Steve Knowlton of Aspen, Colo., was 43rd, Bobby Blatt of Palo Alto, Calif., finished 44 and Dev Jennings of Salt Lake City finished 45th.

Cubs Sell Dewey Williams to Cincy Reds

CHICAGO, Feb. 3 —(UP)— The Chicago Cubs today announced the sale of Catcher Dewey Williams to the Cincinnati Reds.

It was a straight cash deal, and the purchase price was not announced.

Williams, 32, came to the Cubs midway through the 1944 season. In 1945 he was farmed out to Toronto and in 1946, after playing four games with the Cubs, he was shipped to Los Angeles.

Riggs Closes Gap With Florida Win

MIAMI BEACH, Fla., Feb 3 —(UP)— Bobby Riggs found the clay courts here much to his liking today and outstroked his professional tennis rival Jack Kramer 6-4, 1-6, 6-2 before 1,800 fans.

Kramer had trouble getting his smash-game working properly on the clay where Riggs, the veteran retriever, was right at home. The match left Kramer leading 12-11 in their winter exhibition series.

'Most Courageous Athlete of Year' Awards Presented by Philly Sports Scribes

PHILADELPHIA, Feb. 3 —(UP)— Joint "most courageous athlete of the year" awards were presented tonight to James E. (Conny) Fraser, president of the Alantic City, (N. Y.,) country club, and Leland Victor Brissie, young Philadelphia Athletics pitcher.

The awards were made by the Philadelphia Sports Writers Association at its 44th annual dinner, attended by more than 1,100 persons.

The Association also presented the outstanding athlete of the year award to Joe Fulks, who set an all-time professional basketball scoring record last season, Charles (Chuck) Bednarik, University of Pennsylvnia center, who was unable to attend because of illness, was awarded the Lineman of the Year trophy.

Brissie, 23-year-old left hander whom Connie Mack calls a "greater propect than Lefty Grove," suffered serious wounds of the left leg while fighting with the Army in Italy.

24 Operations

It required 24 operations over a long period of time to save the leg and permit Brissie to walk again. He wears a shin guard while on the diamond to protect exposed nerves.

While at Savannah in the South Atlantic League last yeal, Brissie won 5 and lost five and set a new league strikeout record. He currently is studying at Presbyterian College (Clinton, S. C.,) until the start of the spring training season.

Fraser suffered from Hodgins disease for the past eight years. Although he was paralyzed for three months last year, he and his brother Leo, reached the semi-finals in the National Po-o-Amateur Golf tournament at Atlantic City. Later, he won an 187 hole singles tournament.

When notified he was a winner of the award, Fraser seemed considerably surprised "I thought everyone would fight to live," he said.

Ziggy Czarobski (AP Photo)

Ziggy Czarobski May Sign With Chicago Rockets

CEDAR RAPIDS, Ia., Feb. 3 —(UP)— Ziggy Czarobski, tackle of Notre Dame's 1947 national football championship team, said today he will confer with officials of the Chicago Rockets Friday on a 1948 contract.

Czarobski declined to say whether he would sign a contract.

"All I can say now," he said, "is that I plan to play professional football in Chicago this year."

Czarobski spoke to students of the Immaculate Conception high school here.

All-Stars Smother USS Chicot in Cage Tilt, 106-22

Coconut Willie Kaopau, decked out in trunks resembling skivvie shorts, a dungaree shirt, and oversized shoes, was the feature attraction last night on the ComMar court, and on the side the Guam All-Stars racked up a marathonish 106-22 victory over the USS Chicot.

Willie, undoubtedly on a basketball court for the first time in his life, put on an exhibition of shooting during the halftime period that stole the show and left the crowd in stitches.

The All-Stars, playing their last practice game before the Marianas tournament, set a new Island scoring mark for the season, besting by five points the mark set by Naval Barracks-Receiving Station against 8th Ammo.

Larry Horan, of Marine Baracks, hogged the spotlight and had the honor of scoring the 100th point as he put in a total of 32 points for the evening. H. Z. (Harry) Smith was the brightest spot for the previously unbeaten Chicot team as he dumped in 11 points.

Subpoenas Issued In Boxing Probe

NEW YORK, Feb. 3 —(UP)— Several new subpoenas were issued by the District Attorney's office today and an important "break" was expected in connection with its current investigation of alleged corruption in the fight game.

Adopting a "hush-hush" attitude, the District Attorney's office said it had "no comment" regarding reports that certain fight managers would be indicted shortly.

"Published stories of that nature," a spokesman said, "are merely speculative and this office has no comment to make on them at this time."

The spokesman did admit, however, that several new subpoenas had been issued in connection with the investigation.

Indians Sign Former Sox, Two Rookies

CLEVELAND, Feb. 3 —(UP)— The Cleveland Indians today received signed contracts from Thurman Tucker, outfielder obtained from the Chicago White Sox and two rookies, Ray Boone, catcher from Oklahoma City and Ken Garcia, Wilkes-Barre, Pa., pitcher.

Tucker, was recently obtained in a trade from Catcher Rudy Yelgel. Out of action most of last year with the White Sox he batted .236.

Boone, 24, hit .264 for the Texas League team in 1947, and Garcia, 24, was the top right-hander in the Eastern League last year.

Playing his first season of Class A Baseball, Garcia racked up 17 wins against ten losses and made the Eastern circuit's all-star team.

Both rookies were with the Tribe in spring training last year at Tucson, Ariz.

Anybody's Race For Cage Crowns

NEW YORK, Feb. 3 —(UP)— The basketball season moved into its climatic month today without a hint of who'll hold the conference championships in any except three leagues.

Texas seemed a shoo-in cinch in the Southwest, Columbia had the Ivy League in tow and Kansas State appeared unbeatable in the Big Six.

But elsewhere it was anybody's race. In some cases, four and five teams were listed as serious contenders.

The Southern Conference might be able to break its deadlock between North Carolina and North Carolina State when the two teams meet Wednesday night.

St. Louis and Oklahoma A and M were locked in a top battle for the Missouri Valley crown. The Aggies lost their second game of the season last week.

The Big Nine race, which is a short course in how to scramble eggs four different ways at one time, took a new twist today when Michigan moved into the lead following its 53-37 conquest of Northwestern last night. Illinois, Iowa and Wisconsin are right behind.

The Pacific Coast Conference is wide-open a struggle as in the Big Nine. California had a season's record of 16 and 6 in the Southern Division, while Washington, Oregon and Oregon State were having a gay time in the North.

Kwajalein, Saipan in Series Opener Tonight

by Bill Jury

CAGEY SAIPAN'S HOPES—Slated to battle in the Marianas series for a berth in the coming WesPac tournament are these cagers from Saipan (Top row L-R): Joe Hamryszak, Jess Jesse, Bob Manning, Lloyd Lenzen, Bob Critchfield. (Bottom row L-R: Earl McConaha, Larry Eagleman, Earnest Reynold, and Lopez. (Official U. S. Navy Photo)

Three folded pieces of paper, a hat, the drawing, and it'll be Saipan and Kwajalein in the first game of the Marianas playoffs tonight.

Monday morning representatives of the Saipan, Kwajalein, and Guam basketball teams met to draw lots to decide the order of teams in the playoffs for the WesPac cage tourney later this month and as a result the Guam All Stars gain a bye in the initial contest.

All-Stars Meet Winners

The All-Stars will meet the winner of tonight's battle tomorrow night, Friday the loser of the first game will tangle with the loser of tomorrow night's game. The victor in that scrap will meet the winner of the second game for the Marianas championship. The quintet that comes out on top in that game will go on to play teams from Japan, China, and the Philippines.

Saipan's crew surprised local fans in their encounter with BPM the other night by leading throughout the first three quarters of the game only to lose the decision by a single point. They established themselves as one of the fastest teams on the Island in the game with the civilians by breaking through the BPM defense to break up more than a few plays. Not a tall squad, by any means, they still managed to control the boards during most of the game.

Kwaj's Bow in Opener

Kwajalein's quintet bowed to a powerful North Field team in their opener on the Island by a lopsided 58 to 36 count, but still looked good despite the lacing they took. Basically a fast breaking team, Kwaj's ball club boasts a group of smooth ball handlers that may well prove to be a dark horse in the Marianas series.

Handicapped by a lack of reserves, Kwajalein will employ a zone defense to save wear and tear on their nine man traveling squad. With this defense and an occasional shift to man to man checking they hope to keep Saipan's and Guam's offense in check.

Ken Scott, capable forward, is their main scoring threat and will team up with the rest of the well-balanced squad to give plenty of trouble to their opponents.

KWAJALEIN CHAMPS—After bowling over all opposition on Kwajalein these cagers will battle for a berth in the WesPac tourney. They are (Top row L-R): Lt. Bob Boesch, Gerald Gunderson, Emery Henry, Garcia, V. E. Mourey, and Al Ring. (Guam News Photo)

KEN SCOTT, captain of the Kwajalein quintet, is one of the team's leading scorers. This speedy forward will have to be checked closely by any opposing team. (Guam News Photo)

Recommend Ban On Unyeilding Grid Equipment

NEW YORK, —(UP)— Football fatalities in 1947 reached the highest peak in 11 years and coaches, manufacturers and medical research experts joined forces recently in a campaign to reduce the death toll.

Last season 23 players and one official received football injuries resulting directly in death.

Although collegiate football had only one fatality, the American Football Coaches Association recommended an immediate ban on certain types of "unyielding" protective equipment and a clean sweep of dangerously hard shoulder, hip and thigh pads by 1950.

"We'll make and sell whatever the coaches agree 'on,'" said one prominent equipment dealer. "I think we will be ready to supply the recommended pads any time the coaches want it."

As for science, a full study of the chief causes of football fatalities has been made for the National Collegiate Athletic Association by Dr. Floyd Eastwood of Los Angeles University, who has been tabulating fatalities since 1931.

Additional research proposed a year ago has been pigeon-holed because of lack of funds. Eastwood urged both the Coaches Association and N.C.A.A. to appropriate more money and both groups are considering his request.

As long as funds aren't available for full research, Eastwood proposed that knee padding be required on all football uniforms for 1948, and that headgear and equipment for tackling and blocking practice be re-designed.

'Major' Magerkurth Resigns as N.L. Umpire

NEW YORK —(UP)— Missing from the major league scene for the first time in 19 years next season will be familar large George Magerkurth—a man of might from Moline.

Magerkurth, who has been umpiring in the National League since 1929, has submitted his resignation to league president Ford Frick and it was accepted with "much regret."

A knee injury suffered in line of duty last summer was perhaps the principal factor in the Major's decision.

Magerkurth, a broth of a lad at 6 feet 4 inches and 200 pounds, prided himself particularly on two counts, first, that he always had full control of a baseball game and its participants, and second, that he never had been bullied by any player in the game.

Seals Get Players From Pirates

SAN FRANCISCO —(UP)— Pitcher Manny Perez and Catcher Homer F. (Dixie) Howell have been traded by the Pittsburgh Pirates to San Francisco's Seals of the Pacific Coast League.

Charles Graham, Seals' general manager, said the pair had been assigned here as two of the players due in the sale of San Francisco's 1947 rookies pitching sensation, Bob Chesnes, to the Pirates.

BOB MANNING will work from the pivot slot for Saipan's cagers in the series opener tonight. The big center is the only player left from the original Saipan squad. (Official U. S. Navy Photo)

Giants, Tigers Close Deals With Players

NEW YORK —(UP)— The New York Giants have purchased Utility Infielder Jack Conway from the Cleveland Indians for a sum believed to be a little in excess of the $10,000 waiver price.

At the same time the Giants announced that they had sold Second Baseman Dick Lajeskie to the San Francisco club of the Pacific Coast League. Lajeskie played with the Giants farm club at Jacksonville in the South Atlantic League last year.

DETROIT —(UP)— Lanky Johnny McHale, who is considered the leading candidate for the first base job with the Detroit Tigers next season, signed his 1948 contract today, becoming the fourth member of the club to agree to terms.

Georgia Tech Coach Sums Up Recent Sanity Code

NEW YORK, —(UP)— After the National Collegiate Athletic Association had wrestled for a week with the controversial "Sanity Code," old Bill Alexander of Georgia Tech summed it up the best.

"A feller asked me on the way to New York what we were gonna do at this big meeting," Alex related at a coaches luncheon. "I told him I didn't know for sure but it wouldn't be simple. There's gonna by too many PHD's around and they can't do anything simple."

Bill was right on that. Everything the N.C.A.A. brought out was phrased in complex legal terminology that threw most observers for a complete loss.

The retired Georgia Tech coach proposed at a get-together of story-telling coaches that he be allowed to run the whole shebang for just one year "to straighten 'em out" with nobody to help him but Gus Welch, onetime quarterback for the carefree Carlisle Indians in the days when Jim Thorpe was the bright star.

"We've got some mighty unusual ideas," Alexander chuckled.

Gus, he said, would handle the problem of eligibility so that all the kids could play football as long as they wanted to.

"Out at Carlisle, they used to play eight, 10 or 12 years," Alex related. "They had a system."

"Sure, our boys used to go to court and get their names changed," Welch said. "Once we had a boy whose Indian name meant 'under the tree' and he played for us five, six years. Then he changed it to Jim Under and came back for four more."

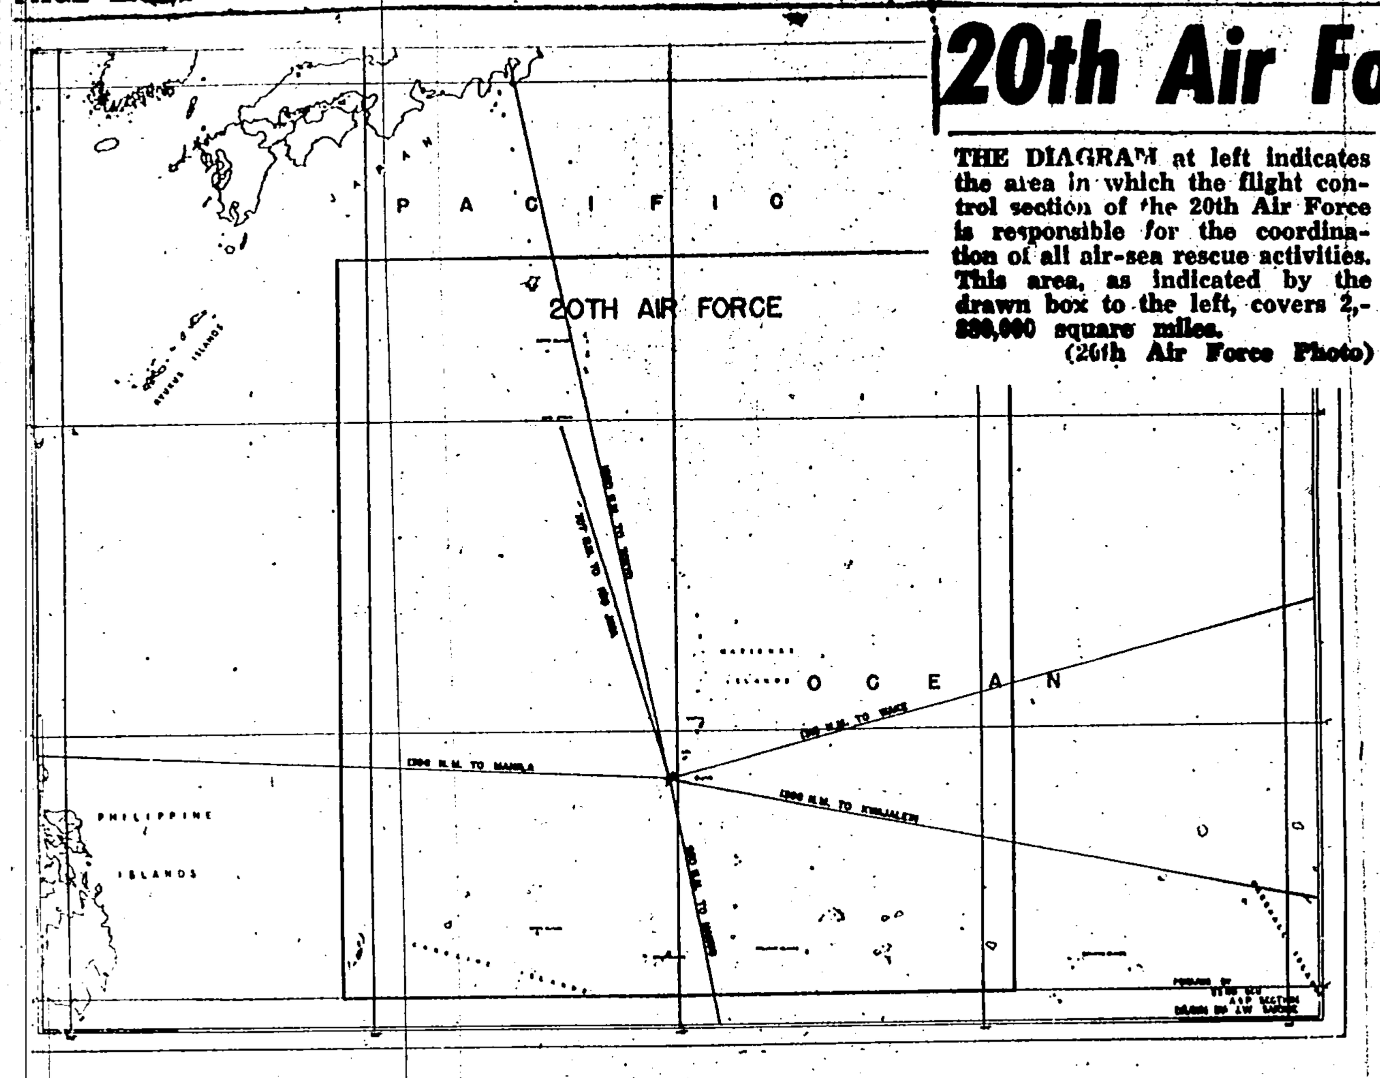
20th Air Force Air-Sea Rescue



THE DIAGRAM at left indicates the area in which the flight control section of the 20th Air Force is responsible for the coordination of all air-sea rescue activities. This area, as indicated by the drawn box to the left, covers 2,-800,000 square miles. (20th Air Force Photo)

HQ. 20TH AIR FORCE —Directly responsible for the coordination of all air-sea rescue efforts throughout a 1,600 by 1,800 mile area surrounding Guam, is the Staff Flight Control section of the 20th Air Force under the supervision of Major Earl G. Hunt. From amidst a maze of maps, charts, and other plotting devices, and a cordon of telephones, Major Hunt, with the assistance of one other officer, Captain Robert E. Morrison, and five enlisted men, maintains a 24-hour vigil for any trouble involving aircraft accidents that may arise.

Under a verbal agreement between the Army, Navy, and Air Force, the facilities of every unit stationed within the Marianas-Bonins islands area are available for use by the flight control section in the search for lost aircraft. To any point between Iwo Jima, 800 miles to the northwest, and Manus island, 1,000 miles to the south, and extending approximately 800 miles on either side of the imaginary line between these two points, search planes and or rescue boats can be dispatched within a matter of minutes simply upon a few rapid-fire instructions from this coordination center. Also commanding the efforts of this intricate nerve-center, but primarily involving local facilities only, is the search for and rescue of individuals who fall victim to the treacherous water surrounding the island. Because of the irregular coral floor of the ocean just off Guam's beaches, and the strong undertow in the waters, emergency calls for the rescue of venturesome swimmers being swept out to sea are not at all uncommon.

Upon receipt of an emergency call from aircraft flying within this area, or when notification is received that individuals are in distress off the surrounding coral reefs, the personnel of the flight control section go into action to effect a speedy rescue. Through direct telephone lines to the 4th Emergency Rescue Squadron, stationed at Northwest Field, and the 8056 Rescue Boat Detachment at Apra Harbor, contact is established and all known details consolidated. From these details, plottings are made and a plan of action quickly formed. In the case of individuals who are in trobule off the beaches, the various fields are contacted to determine whether they have any aircraft already airborn within the vicinity—if so, these planes are directed to the scene of the trouble and instructed to maintain visual contact if possible. When such contact can be established, the planes assist the rescue boats, which have been dispatched from Apra Harbor, in locating the unfortunate individuals.

Planes Carry Craft

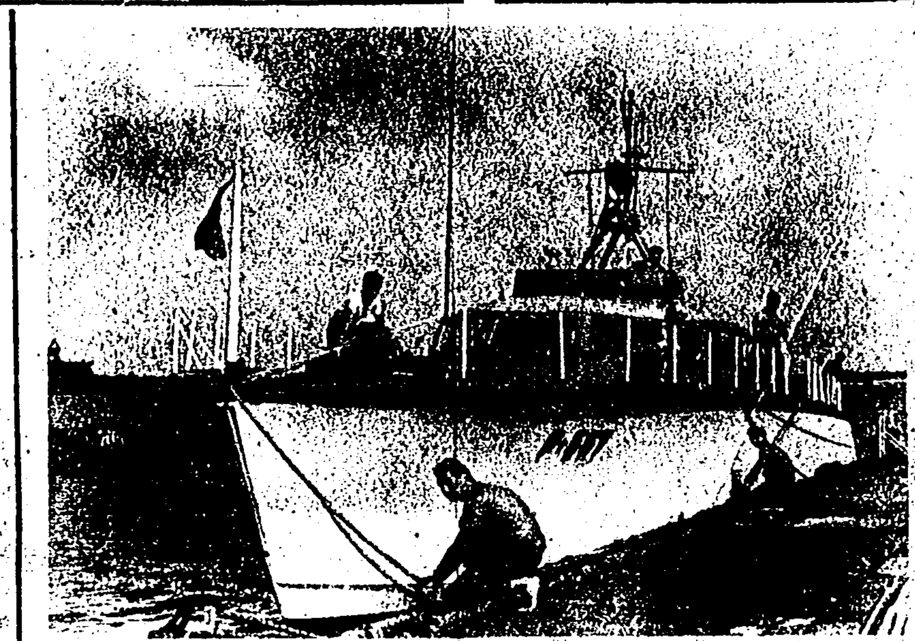
If the emrgency involves aircraft within the domain of this section, the search and rescue plans are necessarily more extensive and quite often involve the use of outlying facilities. In any case, planes are sent out from the 4th Emergency Rescue squadron, which has detachments stationed on outlying island, to conduct a systematic search over the area where the crash or ditching may have occured. In most cases, one or more rescue boats immediately move out from the 8056th Rescue Boat Detachment toward the vicinity of the accident, so that they can be in readiness to render medical treatment when necessary and in general effect a more speedy rescue of survivors after they have been spotted.

If for any reason, the rescue boats cannot participate in the activities, an effective rescue, though somewhat less rapid, can be made through one of the 27-foot boats carried by each rescue plane. The life boats, when dropped from underneath the fuselage of the planes, are each capable of carrying at least 12 passengers and of cruising for a range of 1,500 miles.

Source of Comfort

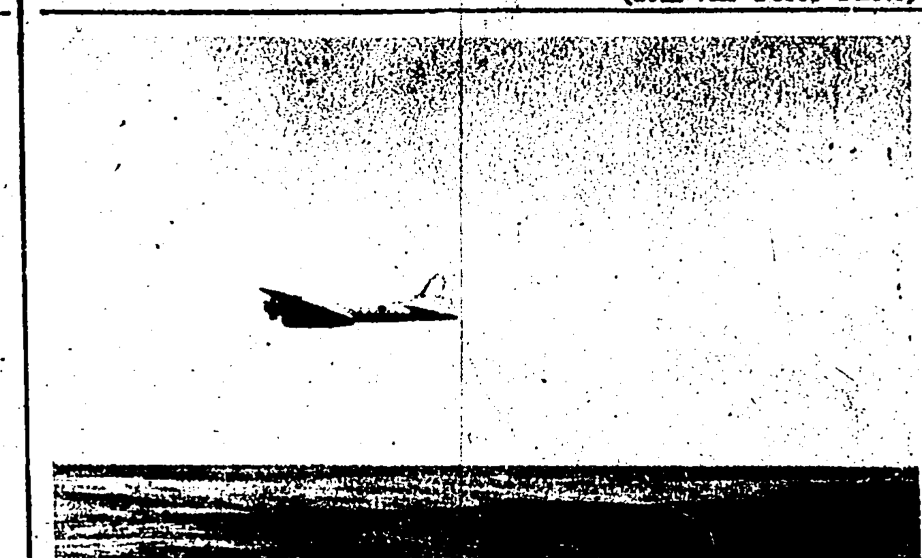
Aside from the air-sea rescue work, the Flight Control section has the routine responsibility of controlling the flights of all 20th Air Force planes departing and arriving the Marianas Island area. But, however routine this function may seem to the personnel of flight control, it is a constant source of comfort at least, to those who fly the watery stretches of the Central Pacific. If a close tab were not kept on the whereabouts of these planes, there would be few means of knowing where to look for them if trouble should develop to force them down.

A RADIO OPERATOR aboard each rescue boat maintains contact with the rescue boat detachment at Apra harbor for instructions which are telephoned from the 20th Air Force flight control section. The instructions are relayed to the boat's "skipper" where they are used in conducting a systematic search for lost airmen or others in distress. (20th Air Force Photo)

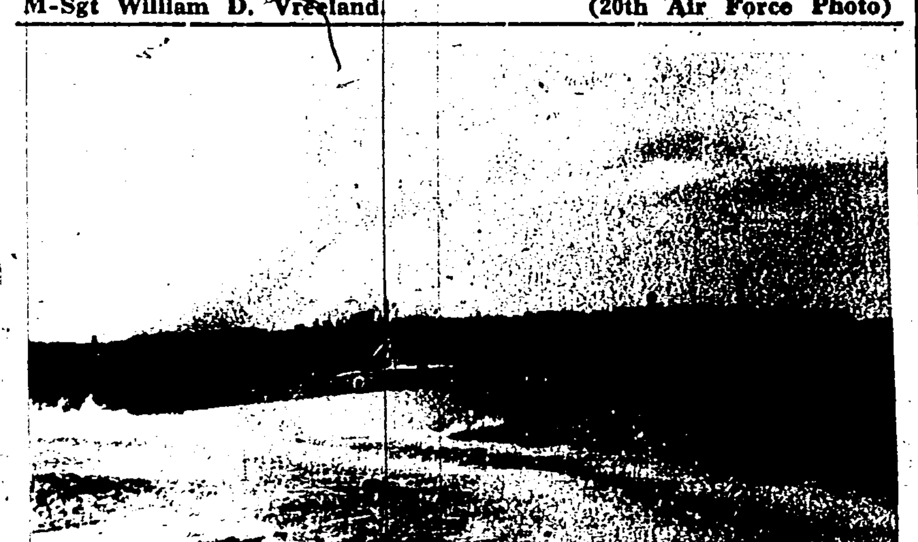


WITHIN FIVE MINUTES from the time an emergency call is received by the 8056th Rescue Boat Detachment, located at Apra Harbor, one of the four boats maintained by the unit can be free and on its way to pick up survivors of the mishap. (20th Air Force Photo)

THE FIVE ENLISTED MEN of the flight control section pictured above work on split shifts to maintain a 24-hour vigil for any air-sea disaster that may develop within the far-reaching expanse of Guam. They are L to R: T-Sgt George T. Blackwell, Cpl Harold F. Jacobs, Jr., PFC Billy M. Sutton, PFC Charles A. McGinnins, and M-Sgt William D. Vreeland. (20th Air Force Photo)

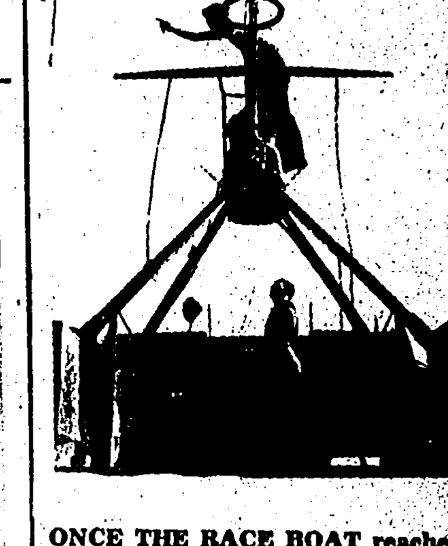


ONLY TWENTY MINUTES go by after receipt of an emergency call that this B-17 from the 4th Emergency Rescue squadron is airborne and on its way to the scene of the accident. The 27-foot life boat, riding under the fuselage, is released while the plane is in flight and lowered to the survivors below by three 48-foot parachutes. (20th Air Force Photo)



THE 85-FOOT BOAT, "BUTCH", speeding on its way to pick up survivors of a downed aircraft. "Butch", who successfully rescued survivors on four different occasions since last July, is commanded by M-Sgt William O. Harrelson, of the 8056th Rescue Boat Detachment. (20th Air Force Photo)

MAJOR EARL G. HUNT, (right), flight control officer, coordinates air-sea rescue activities from this intricate nerve-center located at Headquarters 20th Air Force. Seated at left is M-Sgt William D. Vreeland, chief clerk of the section. (20th Air Force Photo)



ONCE THE RACE BOAT reaches the vicinity where an accident has occured, the crew resorts to vigil aids in trying to locate survivors. Here a crew member atop the "crow's nest" has spotted a life raft of survivors and is relaying the information on to the master of the rescue boat "Butch." (20th Air Force Photo)

300 Hindu Extremists Arrested

NEW DELHI, India, Feb. 4 —(UP)— Police and secret service operatives have arrested more than 300 Hindu Extremists, including the chief organizer of the militant Rashtriya Sewak Sangha Society, in a dominion-wide sweep aimed at stamping out terrorism, it was made known today.

The Rashtriya leader was arrested at Nagpur, capital of the central provinces. Dispatches named him only as Golwalker.

Rashtriya Sewak Sangha, which he represents, is the semi-military Hindu Extremist youth group which is the striking arm of the all India Hindus Mahasabha Extremist organization. The government yesterday outlawed all "private armies" of which Rashtriya is one. Mohandas K. Gandhi's assassin, Narayan Vinayak Gadse, is a member of the Mahasabha.

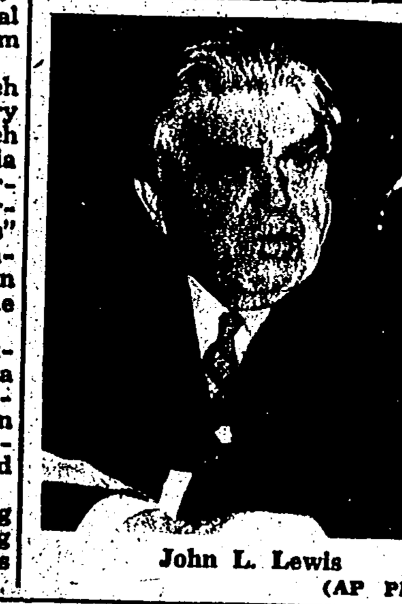
Nagpur dispatches said Golwalker's arrest was in the nature of a rescue. Police who raided the Rashtriya headquarters there found an enraged mob besieging the building, trying to set it afire amid shouts of "Avenge Gandhi."

Mobs ranged the streets of big cities for the fourth day, seeking to attack headquarters and homes of Extremists.

1,000,000 Germans Strike For Food

FRANKFURT, Feb. 4 —(UP) — Nearly 1,000,00 Germans in the Anglo-American zone went on a 24-hour strike today in protest against what they charged was unequal distribution of food by German agencies.

The strike started at one minute past midnight in hundreds of scattered points throughout both zones but its full effect was not noticed until after 8 a. m., the start of the working day.



John L. Lewis (AP Photo)

The main center of the strike was in Stuttgart captial of the American zone state of Wuerttemberg-Baden. Strikers included 450,-000 industrul workers in the state and 50,000 other employes such as school teachers, hospital employes and utility workers.

In the British zone, 160,800 struck in Hannover. These included industrial workers and some state employes, but skeleton state staffs continued working.

In Hamburg, 170,000 members of the German office employes union were called out and Walter Doerr, union president, said many non-union members were expected to join.

Stay on Jobs

Railroad workers in both zones were ordered to stay on the job. No demonstrations were scheduled. Both British and American officials said the protest strike was considered no danger to security and no action would be taken.

The strike brought to about 3,-500,000 the number of Germans who have walked out in the past two weeks in protest against German agencies responsible for the collection and distribution of Germany's food supply.

Charles Fotlette, military governor of Wuerttemberg-Baden, said he did not think that Communists were responsible for the strike.

Sen. Jenner Criticizes Foreign Aid

WASHINGTON, Feb. 4 —(UP)— Sen. William E. Jenner, (R-Ind.), criticized the European recovery program today as a short-cut to American bankruptcy, and suggested that Soviet Premier Josef Stalin is talking against it only to "insure" its passage by Congress.

The hoosier, one of a bloc of Republicans bent on cutting the project to the bone, said in a Senate speech that the Marshall plan could not turn western Europe from Communism and state Socialism.

His attack came soon after Secretary of State George C. Marshall appealed to Congress for the third time against any reduction in the $6,800,000,000 appropriation asked for the first 15 months of the program, beginning April 1.

The Secretary said $6,000,000,000 of the initial appropriation would be sent overseas in the form of relief and recovery supplies during the 15-month period.

His figures were challenged immediately by Chairman Styles Bridges, (R-N.H.), of the Senate Appropriations Committee, who told a reporter it was "ridiculous" for anyone to try to forecast foreign spending that far in advance.

Lewis Threatens Soft Coal Strike

WASHINGTON, Feb. 4 —(UP)— John L. Lewis today posed the threat of a sudden soft coal strike to a nation already in the grip of one of its worst fuel crisis in history.

The unpredictable boss of the United Mine Workers (Ind.) charged that the soft coal industry has failed to live up to its contract by refusing to establish a pension fund for his 400,000 soft coal diggers.

Any Action Necessary

For that reason, Lewis said in a letter to the operators late yesterday, the union now "reserves the right at will to take any independent action necessary to the enforcement of the contract."

Coal industry spokesmen admitted that Lewis' "independent action" could mean a sudden strike by his soft coal miners. However, one industry official said the owners inclined to believe Lewis was "just putting on the pressure for acceptance of his $100 a month pension plan for miners over 60."

The mine chieftain, as usual, declined to comment.

The present agreement between Lewis and the operators runs until June 30. It provides that either party may terminate the contract earlier by giving at least 30 days' notice.

20 More Americans Assigned to Greek Army

ATHENS, Feb. 4 —(UP)— Twenty more American soldiers arrived here today for assignment to posts with the Greek army, making a total of 39 United States Army and field observers now in Greece.

The new contingent, three officers and 17 enlisted men, will attend indoctrination conferences before going into the field.

Nineteen American field officers —five colonels, nine lieutenant colonels and five majors—already have gone to Greek army posts in the northern battle zone.

Signal and Clerical

The enlisted men in the group which arrived today will be assigned largely to signal and clerical work.

The government-sponsored english language weekly, Athens Gazette, quoted meanwhile what it described as "unconfirmed information from Belgrade," that the Yugoslav army has been reinforced in recent weeks and that Yugoslavia now can muster 1,500,000 men in 12 hours.

Arkansas Law School Has 1st Negro Student

FAYETTEVILLE, Ark., Feb. 4 —(UP)— Silas Hunt, 24-year-old World War II combat infantryman, formally enrolled today as the University of Arkansas Law School's first Negro student but he will study and go to class separately from white students.

Arkansas Traveler

The University newspaper, the Arkansas Traveler, published an extra edition carrying an editorial which endorsed the University's decision to admit qualified Negroes as graduate students.

Dean Robert A. Leklar of the law school said arrangements were being made to provide separate classes and study facilities for the Texarkana, Ark. Negro.

Hunt becomes the first Negro admitted to a traditionally all-white southern university under the recent supreme court decision granting members of all races equal education facilities.

Weather Forecast

Partly cloudy with scattered light showers. Moderate easterly winds with occasional fresh gusts.

Yesterday's temperatures: Max. 84; Min. 75.

Yesterday's rainfall: 0.14 inches.

Rainfall for month: 0.41 inches.

War Vets Get Subsistence Raise

WASHINGTON, Feb. 4 —(UP)— The House voted overwhelmingly today to boost federal payments to career-seeking war veterans.

It approved 370 to 6, a Senate bill hiking subsistence benefits for veterans enrolled in schools and colleges under the GI bill of rights. The measure now goes to the White House for President Truman's signature.

$10 Boost

Single veterans will get $75 a month from the government, instead of the present $65, during educational training. Veterans with one dependent will get $105, and those with more than one dependent will be allowed $120.

Six Republicans voted against the bill—Reps. Charles A. Eaton, N.J., Robert W. Kean, N.J., William J. Miller, Conn., Daniel A. Reed, N. Y., Horace Seelh-Brown, Conn., and John Taber, N.Y.

Rent Control Law

WASHINGTON, Feb. 4 —(UP)— Housing expediter Tighe E. Woods asked Congress today to authorize the government to take critical action against landlords who violate the present rent control law.

He made the appeal to the House Banking Committee and asked the group to extend and straighten the rent control law for two years beyond its Feb. 29 expiration date.

Chairman Jesse P. Wolcott, (R-N.C.), has indicated that he is unwilling to extend the law more than 14 months.

An article published in yesterday's GUAM NEWS concerning the exposition of a racket dealing with terminal leave bonds gave impetus to an erroneous interpretation of the terminal leave bond act. It was stated in the article that a bill was before Congress to make terminal leave bonds payable immediately, instead of having to wait a full year. This bill was passed approximately four months ago and therefore decrees, the article, circulated in the January issue of the Ship's Editorial Association clipsheet, pointless.

FBI Investigates Illegal Flights

WASHINGTON, Feb. 4 —(UP)— The FBI and the State Department were alerted today to reports that two surplus B-24 bombers have been illegally flown out of this country for an attempt to bomb the Venezuelan capital of Caracas.

One report, which lacked official confirmation, said the two privately owned liberators were piloted by Americans but carried agents of a group of Venezuelan exiles who allegedly engineered the bomb plot.

The FBI, it was learned here, has been investigating the disappearance of the two planes for more than a week. One was flown away from Bush Field, Augusta, Ga., on Jan. 26 and the other left Daytona Beach, Fla., the following day.

The State Department was said to be investigating the case along with the FBI.

Subcommittee Rejects Bill

WASHINGTON, Feb. 4 —(UP)— A Senate banking subcommittee early today killed nearly all chances for early Congressional action on meat rationing when it rejected, 3 to 2, the Flanders get-ready rationing bill.

Chairman Ralph E. Flanders, (R-Vt.,) said regretfully that his measure would be reported unfavorably to the full banking committee which could reverse the vote. But the chairman of that group, Sen. Charles E. Tobey, (R-N.H.), doubted such action would be taken.

Flanders' committee now will try to work out a "voluntary approach" to rationing. He hoped that something like that could be done to reduce meat consumption.

AFL Elects Wheeler to Head Drive

MIAMI, Fla., Feb. 4 —(UP)— Leaders of the American Federation of Labor today elected Burton K. Wheeler, former Montana Senator and Isolationist, to head its $8,000,000 drive for repeal of the Taft-Hartley labor law, and "for political education" among union members.

Wheeler said in Washington that he had not yet accepted the AFL job and his mind was not yet made up. AFL President William Green, said Wheeler had accepted informally.

$20,000 a Year

Ending their annual policy-making meeting, the AFL leaders chose Wheeler for the $20,000 a year job and reached a series of other high-policy decisions which included:

1. Full support of the Marshall plan for European recovery and a warning that Soviet Russia is planning "offensive warfare" against the United States.

2. Opposition to the presidential candidacy of Henry A. Wallace on the grounds that his third party is a "Communist front."

3. A warning that new wage increases will be demanded in the spring because Congress has failed to act on the high cost of living and that the nation faces the worst wave of strikes and labor strife in its history unless the Taft-Hartley act is repealed.

U.S. Correspondents May Keep Credentials

WASHINGTON, Feb. 4 —(UP)— Secretary of the Army Kenneth C. Royall ruled today that news correspondents assigned to U. S. occupation zones abroad may leave on temporary assignments and return without forfeiting their credentials.

His order was addressed to Gens. Douglas MacArthur in Japan, Lucius D. Clay in Germany and Geoffrey Keyes in Austria.

But it is believed to have been directed primarily at MacArthur.

Several correspondents at MacArthur's headquarters who applied for permission to leave Japan on temporary news coverage trips to other far eastern points recently, were informed that they would lose their accredited status if they left. The correspondents also were warned that their families, living in Army quarters in Japan, would be required to move out.

Palestine Post Blast

JERUSALEM, Palestine, Feb. 4 —(UP)— Abdul Kader Husseini, commander in chief of Arab underground forces in Jerusalem, said tonight that his men were responsible for the blast that wrecked the Palestine Post plant and an adjoining building Sunday night.

"The Palestine Post building was destroyed by members of my forces," Husseini said.

"The purpose of the operation was to destroy the Palestine Post which poisons the public opinion of Palestine."

Soviet Industry, Government Criticized

MOSCOW, Feb. 4 —(UP)— The Budget committees of the Supreme Soviet (parliament) sharply criticized inefficiency in Soviet government and industry today, charging that costs were far above planned levels, while housing construction was lagging behind.

Financial experts in the Council of Nationalities (lower house) focused their attack on uneconomical methods in industry.

Housing Failure

The Budget committee of the Council of the Union (upper house) emphasized the failure of key industries and government ministries to complete their housing quotas.

A Moscow deputy charged that housing construction in the Soviet capital was "developing very slowly," and a delegate from the great Baltic port of Leningrad said that building there was "unsatisfactory."

C. S. Khokhlov, chairman of the Council of Nationalities, committee on expenditures, cited the coal and railway industries as specific examples of extravagance.

U.S. Should Show Its Objective

NEW YORK, Feb. 4 —(UP)— There is no more vital expenditure in the field of American foreign policy than in making known to Europe the truth about the United States and its objectives under the Marshall plan, Secretary of Commerce W. Averell Harriman said tonight.

Trim The Totals

In a speech prepared for delivery at the annual dinner of the National Association of Public Relations Council, Harriman also said to trim the totals requested by the Administration for European aid—$6,000,-000,000 the first year and $17,000,-000,000 for the overall four-year program.

One of the most important phases of carrying out European recovery is in "presenting factual information about America" to combat the Soviet propaganda which has bombarded Europe since the end of the war, he said, and which has now come to open opposition to the Marshall plan.

Prices for commodities in the New York market as of 30 January, unless otherwise noted, were:

Copra	$350.00 per ton
Sugar	.510 per pound
Coffee	.237 per pound
Cocoa	.4525 per pound

Prices subject to change daily.

Rats to Aid in Tooth Decay Research

NEW YORK --(UP)— The lowly rat is going to be a friend of man again—this time in an experiment designed to furnish information on what causes tooth decay.

The tests will include the use of certain chemicals to determine whether such agents added to sugar will retard the production of acid in the mouth Such acids generally are blamed for tooth decay.

The new experiments were announced by Dr. Robert C. Hockett, scientific director of the Sugar Research Foundation. He said a special standardized colony of cotton rats at Harvard School of Dental Medicine, Cambridge, Mass.. will be used.

Preliminary results should be known by May, Dr. Hockett said.

Rare Sugar Used

Dr. Hockett recalled that in test tube experiments, recently published by Dr. Leonard S. Fosdick of Northwestern University, a rare sugar, known as glyceric aldehyde, inhibited the fermentation of common sugar by bacteria normally present in the mouth.

The Harvard rat colony, he said, will tell whether the inhibitor or glyceric aldehyde—works under conditions in the animal mouth. There is reason to believe, Dr. Hokett said, that if the rare sugar and other substances work in the case of the rat, they should be effective in the human mouth.

He said, however that addition of such substances to sugar would not stop tooth decay entirely.

"Even if the action of mouth acid on teeth is a cardinal factor in decay," he said, "the rate of acid production from such different carbohydrates as potatoes, flour, dark bread, honey and sugar has been observed to be almost identical.

"The problem of incorporating such an inhibitor with other carbohydrate foods would be more formidable than adding it to sugar."

"The possible effects of a glyceric aldehyde-sugar mixture on other ingredients in commercial baking, ice cream manufacture, canning and frozen fruit preservation, and other applications where a pure uniform sugar is demanded, would have to be observed," he said.

Opportunity Knocks

There is no profession more honorable or respectable than that of journalism. A "newspaper man" has long been accepted as a respected citizen in any community.

There is today a golden opportunity for a number of congenial Guamanian men and women to learn the newspaper business while being paid by GUAM NEWS.

Working conditions are pleasant and work is sometimes exciting. There will be ample opportunity for those who apply themselves to advance up the ladder of success.

For additional information, call the Publisher, GUAM NEWS, AT 7157.

Navy Hunts Shrew To Combat Malaria

WASHINGTON —(UP)— The Navy is sending scientists to Africa in an attempt to find a giant jumping shrew. It wants to test the shrew as a laboratory aid in the quest to conquer malaria.

This rare denizen of Africa has a body somewhat resembling a rat's—but it also has a long tail and a snout and can hop around like a kangaroo.

Its body is about six inches long and unlike most shrews this one has enlongated hind feet, which enables it to hop.

The scientists want to investigate a long standing report that this mammal has malaria naturally. If that is so, the jumping shrew would be one of the few mammals, other than man, subject to the disease.

NORTH FIELD, GUAM—Col. Robert V. DeShazo of the North Army Air Base Command, (left), is shown receiving checks from Capt. James E. Graham, club officer, and First Lt. Carl L. Harris, officer in charge of the March of Dimes drive which totaled $3,500 This was was North Field's contribution, which marked the close of the recent drive for funds to fight intantile paralysis. North Field Photo)

Success Climaxes March of Dimes

NORTH FIELD, GUAM — Success was the keynote of the March of Dimes drive at North Field which closed Sat. night, Jan. 31, climaxed by a gala dance at the Officer's Club netting over $2,000 it was reported by Col. Robert V. DeShazo, commanding officer of the base.

Total contributions for the drive amounted to over $3,500 according to Lt. Carl L. Harris, officer in charge of the drive. Each organization spearheaded its own drive with the 1946th Avn. Eng. Utilities Co. in the lead on a man per dollar ratio and the 514th Reconnaissance Squadron (VLR) Weather led with a total of $170.

Task Force 38 at Sydney

SAN FRANCISCO —(UP)— Australia received a windfall of $250,000 Friday when the United States Task Force 38 arrived in Sydney for a five day visit, Radio Australia reported.

The broadcast said arrangements had been made for that amount to be drawn as leave pay for 3,000 men and officers before they went ashore.

The Task Force is composed of the aircraft carrier Valley Forge, four destroyers and one tanker.

ALBION, Ind. —(UP)— County Clerk Porter Black issued a marriage license to Mary M. Veal and Merle R. Lamb.

Farm Wife Opens Heart to Europe
