MEMORANDUM FOR MR. BUNDY

SUBJECT: Solomon's Mission to Islands of the Pacific Trust  
Territories

Herewith a summary of Tony Solomon's report. If the President is doing any reflective reading this weekend, or while he is flying around next week, you might want to put it with his papers. I think it is worth reading and at some point we need to get a nod from the President.

Perhaps after he has looked at it, or in the event he doesn't have time to look at it, we might get Solomon a fifteen-minute appointment, possibly the week after next.
