Before requesting an appointment thought I'd better talk further with the Trust Territories Office to make sure I understood...

It seems that the execution of these contracts is left up to the High Commissioner as much as possible - the Department interferes as little as possible.

Note: Mr. Godding - the High Commissioner will be here in the United States as week from Wednesday, i.e. May 26th - for two weeks (coming in connection with testimony on the Trusteeship Council of the UN) he'll be here in D. C. part of time and am assured by Mr. Mangan that the Commissioner would be glad to talk to these men....

They are also checking on the expiration date of this contract.
