

UNITED STATES
DEPARTMENT OF THE INTERIOR
OFFICE OF TERRITORIES
WASHINGTON, D.C. 20240

July 20, 1965

Dear Wil,

It seems that when Congressman Denton visited the Trust Territory in 1964, he caught a fish of which he's very proud. I judge he brought it home with him, and someone has taken issue with the Congressman's statement that it's a Wahoo (sp?). I know only that he caught this thing while fishing off Saipan and it weighed about 30 pounds. Apparently relations between this Department and the Congressman would be vastly improved if someone could now identify what the fish is. Do you know? Were you there? Do you know anyone who was? And so goes life in the public service!

Ruth G. Van Cleve
