REMARKS OR ADDITIONAL ROUTING

The attached looks all right on its face, but I found out that the additional lawyers (were 6, now 13) are going to be engaged in land acquisition (6) and court clerkship (1). This is not included in the old project description which is concerned largely with public defenders.

Also, this is included to us in ~~the~~ without any draft as required by para 1

22-430702

I brought this to their attention
in the first program description,
but to no avail. They
are always reluctant to
change things when it
comes through for the
first time on Aural.
