Mr. Morris said that the

## 9,600 Families in Chihuahua Granted 2.5 Million Acres Under Reform Program

**By HENRY GINGER**  
Special to The New York Times  
CHIHUAHUA, Mexico, Oct.  
29—The Mexican Revolution of  
1910, with its promise of agrar-  
ian reform, came belatedly to  
Mexico's biggest state today.

In a movie theater in this  
capital of Chihuahua State,  
President Gustavo Diaz Ordaz  
gave land titles for more than  
2.5 million acres to 9,600 peas-  
ant families. It was officially  
described as the biggest single  
distribution of land in Mexico,  
which has been the pioneer in  
land reform in Latin America.  
The slight, bespectacled Pres-  
ident came here with the pre-  
stige of having recovered, in  
just 24 hours before, 437 acres  
of territory from the United  
States that Mexico had claimed  
for more than a century. Mr.  
Diaz Ordaz received the land  
from an area known as El Chamizal,  
from President Johnson in a

MONTRÉAL, Oct. 29—Expo  
67, the world's fair that drew  
millions of visitors and gave  
Canada a new measure of self-  
esteem, ended today with a  
fireworks display symbolizing  
success and glory.

"Every one of the more than  
50 millions of people who have  
moved across these grounds  
has become more conscious of  
our global neighborhood and of  
the fact that every man on this  
planet is linked to every other  
man," said Prime Minister  
Lester B. Pearson.

Expo, he continued, "has also  
made Canadians more con-  
scious of our capacities and  
our potential as we have seen  
them mirrored in the apprecia-  
tion of our many visitors from  
the other countries."  
The 221,554 people, who  
came to the fair site today  
before the early closing of  
the gates at 2 P.M., lifted the  
cumulative attendance since  
Expo opened on April 27 to  
50,306,648.

Many in the islands have also  
expressed fears that stringent  
economics ordered by President
