Mr. President:

I know that Billie ^XFarnum is interested in being Governor of Samoa. (John Macy mentioned this to you the other day.) However, after meeting with Billie today, Jake Jacobsen and I believe that he could serve a more useful purpose for the President. You will note from the attached that politically he has come from precinct delegate to State Chairman; and his biography shows that he went from a hard working individual to Auditor of the State of Michigan and Congressman by public election. Jake and I believe that he could do practically any job the President would want him to do, even up to and including an Under Secretary's job. He could also be in the Democratic National Committee.

Billie Farnum is completely trustworthy and loyal to the President. He would be helpful to you in any way he could. May we try to find a position more meaningful and helpful to the President for Billy Farnum?
