SUBJECT: Opening Statement by High Commissioner of TTPI to Trusteeship Council

As a general rule, the factual information in the Trusteeship Council Report to the Security Council on the TTPI comes from the Special Representative's opening statement, not from his remarks in the question and answer period. Hence any information that the US Delegation wants to have in the Report should be included in the opening statement.

Since the Report contains many recommendations on the TTPI that delegates during the following session usually inquire about, whoever drafts the opening statement should key it to the sections of the previous year's report.

About two months before the Trusteeship Council is scheduled to open, a copy of the previous year's Report on the TTPI and a covering note along the lines of this memo should be sent to the High Commissioner in Saipan.
