Memorandum

To: Assistant Secretary - Public Land Management
From: The Under Secretary
Subject: Micronesian Status Legislation

I think it impractical for reasons of time for Frank Bracken to be a regular member of the group which will be negotiating with the Micronesians. On the other hand, I consider it essential that no specific language be adopted until Legislative Counsel has had adequate opportunity to consider and review it. Please keep this in mind and take the necessary steps to insure that Legislative Counsel has this opportunity.
