Dear Adrian:

I believe Charles Shorter talked with you while he was here concerning the possibility of getting legal briefs and other information in an attempt to keep Peace Corps lawyers up to date.

Charles has looked in Washington and has been unable to develop the resources that would provide this information. He tried very hard, but as you may know, the expense involved can be considerable and if we get into this type of support, in all fairness we must do the same for all Volunteers.

If anything further comes to light in getting the information materials we will let you know.

Sincerely,

Robert S. Currie
