PLATFORM and PROGRAM of the MICRONESIAN INDEPENDENCE ADVOCATES - 1/-1...11

The Micronesian Independence Advocates is a nationalistic, political organization dedicated to work towards the independence of all Micronesia from the United States of America. We have as our political base the young people of Micronesia, including Micronesian students abroad. We support all organizations and political leaders who want independence for Micronesia and share our goals.

TE MANT OUR SCVEREIGNTY ACKNOWLEDGED.

The start whiteman set foot on our islands, we were independent and starting. For over four hundred years, Micronesia has been ruled to connected by peoples from distant, foreign lands without our . None of the four nations, Spain, Germany, Japan, and the starting as belonging to us. We declare that the sovereignty of Microtic the always resided in the people of Micronesia and we want our starting as to acknowledge this non-negotiable and inalienable

1. TE CANT UNITY OF ALL MICRONESIA.

-

Alsoory. Spain brought us Christianity: Germany brought us copratationy. Spain brought us Christianity: Germany brought us copratationy, Japan fortified our islands and brought upon us the war; the new the United States is making brown-skinned whitemen out of using the state unity in experience and to live under one political entity. The Dongress of Micronesia and other Micronesian institutions have the state united that we can work together toward common good. In political times, a united independent Micronesia is more powerful than six.

3. WE WANT TO PRESERVE TRADITIONS AND CUSTORS OF MICRONESIA.

Despite foreign domination Micronesia has managed to survive all these Micronesia has survived because she has not allowed herself to be totally prostituted by foreign cultural imports. Our survival has also been possible in part due to the importance that every culture in Micronesia attaches to the personal, rather than impersonal relationins. In today's technological world, it is essential that we pre-

4. WE WANT THE LANDS OF MICRONESIA RETURNED TO THE PEOPLE.

The by communities of Micronesia today, much of our land is not controlthe by the people. We want all land, public domain and military ME- 419737

Letention, returned immediately to the people. And since land forms the foundation of our cultures, we believe in the preservation of local, traditional land tenure systems where they exist. We are opposed to the present land cadastex program because we believe that it only individualize and alienate our lands. We support banning sales of lands to foreigners and among Micronesians and the establishment of land lease systems.

5. WE WANT A NATIONAL CONSTITUTION PROMULGATED BY OUR REPRESENTATIVES AND ADOPTED BY OUR PEOPLE.

For all these centuries that we have been occupied, we have been ruled by laws we did not make. Now we want to make our own laws under which we will be governed. Our people should elect representatives to propose a constitution which will be adopted by all the people. The constitution should reflect the customs and traditions of our cultures..

5. WE WANT A GOVERNMENT THAT GIVES POWER TO THE PEOPLE.

In establishing our government, we want the type of government that will give strong voice to the people. We believe that each district chould control its own internal affairs without interference from the powers of the national government should be limited to affairs affecting two or more districts. We support a national executive council population basis.

7. WE WANT AN EDUCATIONAL SYSTEM SUITED AND RELEVANT TO MICROMESIA.

In recent history of Micronesia, especially during the American occupation, we have had educational systems aimed at divorcing incronesians from our island societies and cultures. We support an educational system that enhances our customs and traditions and is oriented to the physical circumstances and realities of Micronesia. We want a system that promotes and protects communalism rather than

8. WE WANT MICRONESIA TO CONTROL ITS OWN ECONOMY.

The real independence of Micronesia will ultimately depend on who controls her economy. Micronesia must control its economy. We want system of economics based not on individual but group profits. We support all cooperative, community-owned and operated business enterbillises. We oppose all foreign enterprises that are not controlled ind operated by Micronesians. We prefer a subsistent but independent sconomy to a remotely-controlled economy. In developing our economy we must primarly depend on ourselves and our own resources.

WE ARE AGAINST ALL FORMS OF OPPRESSION.

There we let, like many other Third World countries, have been oppressed to the second pressed of the second pression, economic or racist,

Euch. A-26 IC Saiper

within and outside of Micronesia and support all peoples fighting against any oppression. We are opposed to any military use of Micronesia by any action for any purpose.

مرينية المتحققة المراجع

Verser spite -

May 1, 1971

WE WANT FELLOW MICRONESIAN BROTHERS AND SISTER ON GUAN AND THE GILBERTS TO BECOME PART OF AN INDEPENDENT AND UNITED MICRONESIA:

We consider Guamnaians and Gilbertese as fellow brothers and sisters. We support their fight to break their respective colonial bondages and want them to join us in a united, independent Micronesia. 11. WE WANT FRIENDSHIPS OF ALL PEOPLES OF THE WORLD.

Micronesians have made no enemies of any people in the world. We want to extend a hand of friendship and brotherhood to any people who wants a decent, humane world. We are willing to trade and exchange knowledge with any nation as long as our independence and sovereignty are not comprimised. We will accept any assistance from any nation and people or group of nations.

12. WE BELIEVE THAT NON-VIOLENCE IS THE ONLY MEANS TO OUR LIBERATION AND ATTAINMENT OF OUR INDEPENDENCE.

Micronesia is too small and has a very small population: We do not hold that liberation and independence of Micronesia can be won through means other than non-violence. We value every Micronesian life to afford its destruction for our cause or any other cause.
