MEMORANDUM FOR MR. WILLENS

Re: Analogies for the Cook Islands  
and St. Vincent

The two analogies and vital statistics sheets which accompany this memorandum were researched and written with the aid of a variety of materials. In the case of the Cook Islands, every effort was made to substantiate specific questions by citing appropriate sections in the Constitution. However, only the Report of the St. Vincent Constitutional Conference and the enabling legislation called the West Indies Act of 1967 were available for St. Vincent. Barry Carter knows the details on that. The cites, therefore, are to the appropriate sections in the Constitution based on a copy of the table of contents and information contained in the Command Paper.

These analogies will be reviewed by Barry Carter, primarily for interpretation and legal specifics. Please consider the attached analogies as drafts subject to his review.
