Dear Howard:

Enclosed is a copy of the letter I sent to the Head Chief DeRoburt. I hope something will develop from this. He could be an extremely valuable client.

I would have gotten this out sooner but somehow or another the Marianas Political Status Commission managed to create some sort of a delay.

No doubt I'll be seeing you soon.

Sincerely yours,

James E. White

Dear Mr. Chariman:

During your most recent trip to Saipan, I had occasion to introduce Mr. Howard P. Willens, an attorney from Washington, D.C., to you at a party given by the High Commissioner. As I indicated at the time, I consider Mr. Willens to be one of the finest, most capable attorneys I have had occasion to meet or work with. After our discussion, I asked Mr. Willens for a short biographical sketch along with one of his business cards for your benefit.

Enclosed please locate Mr. Willens' background paper and his business address. After talking with you, I had an occasion to discuss some of the matters that we referred to and Mr. Willens indicated that he and his office are more than capable of handling your requirements in Washington, should you so desire.

Since our discussion I have had occasion to work with Mr. Willens for an additional four week period wherein my initial impressions were more than substantiated and amplified. I'm sure he will stand ready to assist in any function that you may desire.

Sincerely yours,

James E. White
