July 2, 1973

Mr. Howard P. Willens  
Wilmer, Cutler & Pickering  
900 17th Street, N. W.  
Washington D. C. 20006

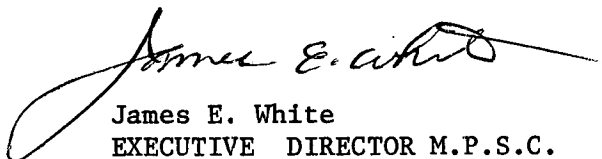

Dear Howard:

Budget time commeth! Presentations are to be made in final form sometime prior to the end of July. Consequently I need the following information based upon the possibility of two separate submissions, one for the period from now until completion of the next session, probably in October, and another from that period through the end of February 1974. I realize this is a difficult requirement, however the more detail that can be shown the more effective this submission will be within the budget itself.

It has not been determined at this time whether the first or both time frames described above will be included within the budget presentation. Consequently I would like them to show separately with cover letters for each. It is my intention at this time to include either one or both along with the respective cover letters in the actual presentation as exhibits.

I anticipate being in Palau and Guam next week and will not return until approximately the tenth or eleventh and I would hope to have this budget work completed by the end of July.

Sincerely yours,

  
James E. White
