Dear Howard:

Enclosed is a copy of "The Drift of the Commonwealth" talk I mentioned to you and the Report and related papers of the Ad Hoc Advisory Group on the Presidential Vote for Puerto Rico.

I appreciate that these are somewhat tangential to the immediate interest of yours and your associates but they may be helpful in giving you some guidance as to the utility of the Puerto Rico precedent.

I enjoyed the lunch with you and your associates. Obviously the problem is of interest to me so please feel free to give me a call and talk about these matters again.

With best personal regards,

Cordially,

Arnold H. Leibowitz
