

400 } Section 301(c): I believe the word "not" should be inserted before "subject" in the second line of the section, so that final decisions of the courts of the Commonwealth not subject to further review will be subject to review by the Ninth Circuit.

✓ Section 301(d): I do not understand this provision.

✓ Section 301(e): The reference to "Article IV, Chapter 4 of these Articles" is unclear. There is no Article IV, Chapter.4.

✓ Section 301(f): The meaning of the last sentence of this article is unclear. Do we mean to refer to "goods transported within the territories of the United States"?

✓ Section 505: The portion of section 505 added by the asterisk does not appear clear to me. Is the purpose of this provision to provide that the Commonwealth levies its taxes so as to ensure an equitable sharing by its residents of the burden of supporting the Commonwealth?

Article VI: I understand from our last meeting that this article is being rewritten or reserved so that its terms as to the continuity of, leases may be further negotiated.

I did not comment on minor typographical errors because I assume we will cover them at our next meeting.
