

(4) Propose to the United States the establishment of a joint legal working group to (a) negotiate and draft the contract between the corporation and the U.S., and (b) satisfy the U.S. that the articles and bylaws prepared by the incorporators are in accordance with the law of the Trust Territory and the Policy Statement.

(5) Request the United States to provide information with respect to the public lands of the Marianas Islands: location and use of the lands; outstanding leases, tenancies at will and by sufferance, and other uses; present rents; nature and machinery of present administrative operations; etc.

(6) Direct the incorporators to propose procedures for transferring control of the public lands from the United States to the corporation, including the identification of required administrative personnel; determination of operating budgets; consideration of whether present revenues are sufficient to sustain the costs of administration; and formulation of transitional procedures, including financing of "start-up" expenses.

(7) Propose to the United States the creation of a joint operational working group to cooperate with the incorporators in planning for the eventual administration of the public lands by the corporation and to insure a smooth transition.
