Memorandum to HPW re Public Corporation

Attached is a draft of the memorandum to the MPSC, summarizing the proposed corporation and making specific recommendations for action. The summary of the long paper has been incorporated in a revised form. The most significant revisions are the treatment of military retention lands (pp. 5-6) and the effort to secure a better corporate law (p. 7).

I am anxious to have your reaction to this draft, since it may take some time to conform both the summary and the body of the long paper to the version of the attached memorandum eventually adopted.
