Memorandum for Mr. Willens

Mike Helfer telephoned Tuesday to suggest that I pull together what I have for a meeting of the Ad Hoc Committee Thursday morning.

The attached paper represents a portion of what I have been working on, namely preparation for the constitutional convention and the convention itself. Coverage of the latter is incomplete.

The introduction also mentions an attempt to deal with the question of an initial legislative program in the Marianas. This information is less extensive and as yet unwritten.

I regret the need to submit this in uncompleted form, however, if after you have reviewed the materials received today, you wish to have me continue to pursue the remainder of the project, I will do so.
