This could be as early as July 1976. Under this tentative agreement the U.S. will provide \$13.5 million for each of these years in direct financial grants as follows: a grant of \$8 million a year to help meet the cost of government operations; a grant of \$1.5 million a year to the future Government of the Northern Marianas to be used for economic development loans, with \$500 thousand a year of this amount to be reserved for small loans to farmers and fishermen and to agricultural and marine cooperatives; and a grant of \$4 million a year for Capital Improvement Projects of which at the Marianas Political Status Commission request \$500 thousand a year will be reserved for Rota and \$500 thousand a year for Tinian because of the urgent development needs on those islands. U.S. assistance will be provided in constant 1975 dollars.

In addition, a wide range of services and assistance under regular U.S. federal programs will be available. The United States estimates the value of federal services and assistance at \$3 million a year. The total direct annual assistance is thus estimated at \$16.5 million. This does not include potential additional income from military construction and a growing military presence and spending.
