MEMORANDUM FOR HOWARD WILLENS

Subject: Marianas' Summary Report

Attached is a draft of a revised version of the Summary Report Regarding United States - Marianas Status Negotiations. It basically follows the format of the previous Reports, but is updated to reflect the fourth round of negotiations, and has been altered in certain other respects.

Bracketed material reflects agreements previously reached with the United States, from which the United States is now attempting to withdraw.

As we have discussed, it is intended that this Report can be used both with the Marianas District Legislature and for our purposes here in Washington. It has been written with these dual purposes in mind.

Michael S. Helfer
