IX. LOGISTICS

(S) A. Air Force Funding for Tinian: Increase Air Force FY 76 funds by \$10M to accomplish facility designs for Tinian. Conduct a joint OSD/JCS review of mission and facility requirements on Tinian to determine (1) the minimum essential set for DoD purposes and (2) those activities which might best fulfill DoD's commitment to the people of the Marianas. Those parts of the reexamination of DoD requirements on Tinian which relate to war reserve and other materiel storage should be consistent with and integrate the results of a soon-to-be-directed joint-Service review of storage and maintenance of WRM in the Pacific Theater. (This study is to be directed by the JCS under an OSD/JCS steering group.) The Tinian reexamination is to be completed for OSD review and approval prior to submission of the FY 77-81 POM. Funding for OSD-approved projects which are to be accomplished during FY 77-81 will be included in the FY 77-81 Service POMs with no increase in fiscal guidance.
