Dear Phil:

I enclose two letters and a memo from Wilmer Cutler & Pickering on a matter having to do with the Northern Marianas negotiations.

While I have not read every word of the memo, it does seem to me that the Administration's position is indefensible.

May I suggest that you have your subcommittee staff look into this and that you inquire into it personally when the next hearings are held on the negotiations.

With best wishes,
Sincerely,

Jack

P.S. You no doubt know that Bernie Sisk is sending out telegrams. I replied that I was committed to you.

PPS. Great work in California! and we didn't do so badly in New York either.

See Lloyd Cutler.

Hope this will help?
