J-3	INWED	ISA	IN		CAC	
J-4	DAS	I/L			HSC	
J-5	SAGA	G/C			NIC	TOTAL

IMPACT ON PACAF CAPABILITIES AS FOLLOWS:

A. (9) WRM: REVIEW OF THE POSSIBLE STORAGE ROLE FOR TINIAN INDICATES THERE ARE UPPER LIMITS TO TOTAL WRM THAT CAN BE STORED THERE IF IT IS TO BE EFFECTIVELY UTILIZED UNDER SCENARIOS OF EXISTING CONTINGENCY PLANS.

(1) MUNITIONS: IF REQUESTED GUAM FACILITIES ARE CONSTRUCTED, ANDERSEN AFB WILL STORE APPROXIMATELY 40 PERCENT OF THE TOTAL PACAF MUNITIONS REQUIREMENT SUBSEQUENT TO 1978. CONSIDERING THE 50,000 SHORT TONS (ST) UPPER LIMIT ESTABLISHED FOR TINIAN, THESE TWO LOCATIONS (100 MILES APART) WOULD EVENTUALLY STORE APPROXIMATELY 60 PERCENT OF ALL PACAF PREPOSITIONED MUNITIONS.

(2) WAREHOUSING: TINIAN UPPER LIMIT ESTABLISHED AT 170,000 SQ FT.

(3) [REDACTED]

(4) THESE UPPER LIMITS WERE PREDICATED ON THE UNDESIRABILITY OF STORING A LARGER PERCENTAGE OF THE TOTAL PACAF WRM WITHIN A 100-MILE AREA AS WELL AS REAL ESTATE AVAILABILITY ON TINIAN, PORT CAPABILITY, TRANSPORTATION AVAILABILITY AND POSITIONING OF AIRLIFT/SEALIFT. PACAF WRM STORED ON TINIAN AND GUAM MUST BE SHIPPED TO A FORWARD AREA ON IMPLEMENTATION OF CONTINGENCY PLANS. UPON REACHING A CERTAIN STORAGE LEVEL, ASSETS CAN BE SHIPPED JUST AS QUICKLY FROM CONUS TO THE OPERATIONAL THEATER AS THEY CAN FROM GUAM OR TINIAN.

(7)

8. (8-FRD) TACTICAL AIRLIFT FORCES: C-130 AIRCRAFT CURRENTLY ASSIGNED TO PACAF WILL BE REASSIGNED TO MAC IN THE NEAR FUTURE. THEREFORE, PACAF COMMENTS SHOULD BE CONSIDERED IN LIGHT OF STATED MAC REQUIREMENTS FOR TINIAN. CURRENT PROGRAMMED BEDDOWN OF PACAF TACTICAL AIRLIFT IS THREE SQUADRONS AT KADENA AIR BASE. ANY BEDDOWN CONCEPT SHOULD LOCATE THE FORCE AS CLOSE AS POSSIBLE TO POTENTIAL CONTINGENCY AREAS AND/OR CUSTOMERS. FOR THIS REASON, LOCATING TACTICAL AIRLIFT ASSETS PAGE 6 RUHVAAA9433 T O P S E C R E T FRD CINCPAC FOR J-5 AT TINIAN OR ANDERSEN SHOULD OCCUR ONLY IF THERE ARE NO OTHER SUITABLE WESTPAC FORWARD BASING ALTERNATIVES.

(1) DENIAL OF TAIWAN, KOREA, OR PHILIPPINE BASES WOULD NOT IMPACT ON CURRENT PROGRAMMED AIRLIFT BEDDOWN.

(2) DENIAL OF JAPANESE BASES (INCLUDING OKINAWA) WOULD REQUIRE RELOCATION OF AIRLIFT ASSETS. THE FIRST OPTION WOULD BE BEDDOWN OF AFFECTED SQUADRONS AT CLARK. SECOND OPTION WOULD BE ONE OR TWO SQUADRONS AT CLARK WITH THE REMAINDER AT TINIAN/GUAM. THE LAST OPTION WOULD BEDDOWN ALL SQUADRONS AT TINIAN/GUAM.

TOP SECRET PRD CINCPAC FOR J-6 FINAL SECTION OF
RECONNAISSANCE FORCE MUST BE FORWARD BASED IN ORDER TO
ACCOMPLISH AND SUPPORT THE SIOP, COORDINATED RECONNAISSANCE
PLAN, AIR DEFENSE, AND PARPRO MISSIONS. ADDITIONALLY, FORWARD
BASING IS REQUIRED TO MAINTAIN TRAINING PROFICIENCY FOR THE
AREA AND TO HAVE EFFECTIVE INTERPLAY WITH ALLIED MILITARY
FORCES. IF THIS OPTION IS NOT AVAILABLE, THE FORCES WOULD BE
RETURNED TO THE CONUS. TINIANAGUAH WOULD NOT BE A VIABLE
BASING ALTERNATIVE BECAUSE OF THE DISTANCE TO POSSIBLE
CONTINGENCY AREAS, LACK OF A REALISTIC TRAINING ENVIRONMENT,
AND THE FACT THAT AIRCRAFT COULD BE DEPLOYED FROM THE CONUS

DEPLOYING FORCES.

(1) [REDACTED]

[REDACTED]

D. (S)

E. (S) COMMUNICATIONS: THE DENIAL OF BASING RIGHTS IN EITHER KOREA, JAPAN (INCLUDES OKINAWA), TAIWAN, OR THE PHILIPPINES WOULD REQUIRE A LARGE REROUTING AND CONFIGURATION CHANGE IN THE DEFENSE COMMUNICATIONS SYSTEM. THIS IS ESPECIALLY TRUE OF THE NETWORKS TERMINATING IN KOREA IF BASING RIGHTS IN JAPAN ARE LOST. TINIAN IS TOO REMOTE FROM THE AREAS OUTLINED ABOVE TO CONSIDER ITS USE AS A COMMUNICATIONS RELAY. THEREFORE, THE LONG RANGE COMMUNICATIONS REQUIREMENTS FOR TINIAN WOULD CONSIST OF INCREASING LOCAL CAPABILITY TO SUPPORT UNITS RELOCATED THERE AS A RESULT OF LOSING BASING RIGHTS IN OTHER AREAS. IF A CONTINGENCY PLAN IS ACTIVATED IN AN AREA WHERE BASING RIGHTS HAVE BEEN DENIED, MOBILE EQUIPMENT WILL BE REQUIRED TO ESTABLISH AN INITIAL COMMUNICATIONS CAPABILITY UNTIL FIXED FACILITIES CAN BE ESTABLISHED.

4. (S) PRESENT FACILITY PLANNING FOR PROTECTED NEAR TERM

TINIAN REQUIREMENTS IS COMPATIBLE WITH PACAF LONG RANGE REQUIREMENTS. THE FACILITY PLAN WAS DESIGNED TO PERMIT EXPANSION TO SUPPORT ADDITIONAL REQUIREMENTS. HOWEVER, TRADEOFFS WILL BE NECESSARY TO ACCOMMODATE LARGE SCALE ADDITIONAL MISSIONS OR EXPANSION OF EXISTING MISSIONS. FOR EXAMPLE, LARGE AMOUNTS OF LOGISTIC STORAGE WILL SERIOUSLY ERODE THE SIZE OF THE TRAINING AREA. XGDS(2)
