A. R. Kasdan, GC

Your memo to Jorge Cordova, GC, dated November 14, 1974.

This is to confirm what we agreed to today in a meeting with Dana Rodgers. GC will not take any further action on your memo requesting this office to investigate how DO and IO can work together as the Islands of Micronesia develop a new relationship with the United States. We did work on this subject several years ago when Joe Blatchford was the Director. Materials are available in our files.
