Re: Immigration Data for Guam

Mr. Robert Prosek, of the statistics division of the Immigration Service, returned the call I had made yesterday to Mr. Green, deputy commissioner of the service. Mr. Prosek was familiar with my request. He explained that data for Guam could be made available by a computer run. He is to call me back Monday or Tuesday of next week to tell me precisely which data will be available, and how much it will cost for a special computer run which will produce the data.
