SUBJECT: Micronesian Compact

As you will recall, DoD comments regarding what we thought to be an agreed US-Micronesian draft of the Compact were forwarded to Ambassador Williams last month (DEF 5147, 211602Z May 74). However, ISA has now obtained a version prepared by the Joint Committee on Future Status and given to Ambassador Williams by Senator Sali, apparently in April. A copy of this version is attached hereto.

Changes from the agreed 1972 and so-called "Carmel draft" appear for the most part to be set forth in full caps (see Sections 201, 203, 204, 404, 603(b), 604, 801(b), 1001, 1102, 1201, and 1202). However, difference in typing format should not be taken as conclusive evidence that these are the only changes involved.

In order to review this JCFS draft and determine its acceptability from a DoD standpoint, we are scheduling a meeting here on Monday, 17 June, at 1400. Your participation, or that of a representative from your respective offices, is requested.
