MSH:

Adrian called at 4:40 with the following information for your consideration:

From the Social Security Administration in response to request:

Section 502(a) in the second line -- delete the following words "Titles I, X, XIV and XVI of the Social Security Act" and insert the following -- "Title XVI and Section 228 of Title II of the Social Security Act as they apply to the several states."

Chairman Burton would like to make sure that the GUS (MANY)
Marianas have the full benefits of the new Title XVI before WH (CA)
the end of the Trusteeship, as well as Section 228 of Title II.

If this is agreeable with you, that would be the way to handle
it.

He suggested that in the negotiating history we might want to add a note to the effect that the ______ that we are going to be giving to the people are not from the social security funds but from the general revenues of the United States.

Defense Department changes:

Section 602(b) - there is a technical matter in reference to the Soldiers and Sailors Relief Act. The proper title is "Soldiers and Sailors Civil Relief Act of 1940.

They note that the Act deletes any reference to customs protection. We might want to find language to correct that since it is an oversight, to make sure we don't impose customs taxes on the property of military personnel.

In the fourth line - talking about imposition of customs duties and taxes on U.S. property and activities, we might want to include "instrumentalities".

Adrian also said there is another problem regarding importation of property by civilian employees of the government

Since Adrian is leaving at 8:05 tomorrow morning, he said that you can discuss these changes with Tom Johnson, who will be getting in touch with them out there.
