Dear Mike,

Ed received your cable of this date regarding the Land Corporation. It has been decided here that with the political education for the Plebescite and the involvement not only of MPSC but also of MDL with this project, that it is inappropriate at this time to proceed with the development of the Land Corporation until after the Plebescite is complete.

When I am in Washington in a couple of weeks, I would like to discuss this more fully so that as soon as the Plebescite is complete, this project can be put on the front burner. I look forward to seeing you soon.

Sincerely,

James E. White
Attorney at Law

P.S. I have your personal copies of the signed Covenant which I intend to hand carry back with me. I did not want to trust these to the mails.
