MEMORANDUM FOR HOWARD WILLENS

Subject: Marianas -- Commission on Federal Laws

Arnold Liebowitz called for you and got me instead. The sum and substance of the conversation was that Liebowitz would like to be appointed to the Commission. While his interest was directed at being a member, I also got the impression, though he did not say this, that he would be prepared to do some of or all of the substantive work as a staff member or on a consulting basis. I told him I would bring his interest to your attention.

Michael S. Helfer
