Dear Deanne,

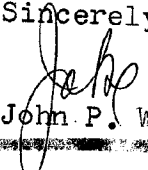

Thanks for your letter this morning and the information about the progress in the Marianas. Thus far I have heard not a scintilla but if I do I shall certainly pass it on. I am pleased the prospects look so good.

Thanks also for putting my name in the Guam affair. I would like to have some summer involvement this year. At the moment I do not know whether I shall be in London another year or not. The administration at Hollins wants me to stay--as I do---to complete whipping this program into shape. My department is pressing for my return. And there are campus problems that I could help with. Either way though I will have a good deal of time between late May and late August to make available to someone.

Did you get the stamps I sent for your son? Tomorrow is another first day of issue but I can't afford these. Strictly for the business clientele: £1, £3, and £5!

Please give my regards to Howard and tell him I am writing one of these days. I am certainly long overdue in my correspondence. Also my best to the whole concon force.

Sincerely,

  
John P. Wheeler, Jr.
