

10/28/77
3:00 p.m.

Mr. Willens:

Mrs. Van Cleve called. "The last I heard was that the Vice President was off but there was an effort underway to activate Hamilton Jordan, and I was told I would be called back with respect to that (some two hours ago, however). The President has signed a statement to the people of the Northern Marianas, and we will have a copy of it later this afternoon and will be glad to make it available -- understand it is very short, so it can be read over the telephone."
