Saipan, CM 96950
July 16, 1985

TO THE SECOND NORTHERN MARIANAS CONSTITUTIONAL CONVENTION:

Ever since Cain and Abel, people have been killing other people in progressively brutal ways. Since people will continue slaying each other whether murder is illegal or not, why not legalize homicide and eliminate the "back-alley" jobs?

Then you could take your family member- or whoever you wished dead because they might be a burden inhibiting your lifestyle- to a sanitary hospital and have them done away with by a trained physician. Planned Parenthood would love you for keeping the population down. If the people of Saipan hurry, maybe they could celebrate this "humanistic" practice with the opening of the new, modern health facility.

This is the same kind of logic of pro-abortionists advocating that because mothers will continue to kill their unborn babies, whether or not it's legal, abortion should be legal so the lethal act can be performed in a hospital by a skilled doctor. They close their eyes to the pictures of these tiny mutilated bodies with seared flesh, hardening their hearts to the pain suffered in these torturous deaths.

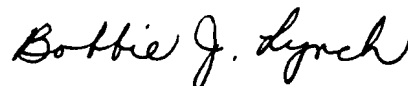

They clamor that illegal abortions result in "botched jobs." But how about the "botched jobs" of legal abortion where the baby is born alive, then thrown in a closet with dirty linen to die of starvation, or strangled by the "skilled" physician well-trained in how to cause life to cease. This is not uncommon practice in the U.S. today where abortions are performed up to the ninth month because of women's "choice."

"You cannot serve two masters." No one can be "pro-choice" and be a Christian. These are not God's ways. Instead of killing innocent babies in the name of "women's choice," we should be helping women to exercise their "choice" before becoming pregnant.

Because of some humanistic Supreme Court Justices, abortion has been forced into the American society. However, other Supreme Court rulings such as slavery have been reversed; and at a time when Americans are fighting and praying to have the Roe versus Wade decision overturned, don't let anyone impose the atrocity of abortion upon Saipan. Even worse, I beg you, don't---willingly by choice---bring this shameful holocaust upon yourselves.

"Whatsoever you do to the least of these little ones, that you do unto me."

Sincerely,

Bobbie J. Lynch
