Dear Alice,

The signed documents you DHL to me are being hand-carrying by Froilan. I thought I would save money by sending DHL and also they will get there as soon as possible.

I didn't know that things were and probably are hectic out there. I feel sort of guilty by not being there a bit longer but it was getting hard for me to justify my stay there in view that I had been gone for 3 months already. It is my wish to come to Saipan and see the final outcome of the referendum. After reviewing the proposed amendments, I only want to support 20 out of the 44 proposed amendments.

I hope that by now all the journals are completed, proofread and ready to be signed. If you are saying that Bill Nabors did not do any proofreading of the journals, then I agree with you that I don't want to certify for payment the contract of his. I suggest that you inform him to give me a call at office (202) 328-3847 or home (703) 683-6028 and we can discuss this matter. I hope that there is sufficient funds to pay for printing of the journals with Education Department. If there is, go ahead and have it printed. They should be two large volume. I guess you should use your discretion in paying all outstanding obligations so we can close the book. Please let me know ahead of time by telex so that I can write Dept of Finance to officially close the book for ConCon.

The bishop, Tommy boy, was in town for a couple of days. He left for Rome this afternoon for the beautification of Pale San Victores. He said mass in Chamorro at the National Shrine of the Immaculate Concepcion and afterward there was a party at the residence of Froilan. We had people from Virginia, Maryland and New Jersey that came down for the occasion. It was very good. Of course, I joke with him about abortion. I can say that I will not vote for it. I know the moral implication but I personally feel women have rights too despite the fact that the boys of the ConCon power play with their attitude of putting women down or putting them in their place.

Please tell Rita and Louise that I still think of them and will send all of you something from here.

Best regards yan asta otro biaje talo. Despensa sa tigofanaku esti na karta lau malagoyo munahе si Froilan para uchule tate esti.
