Delegate Proposal No. 513

Date: June 24, 1995

It is proposed that a constitutional amendment be prepared that does the following:

Provides that the total government workforce in all executive branch agencies may not exceed a number that is 30% of the voting age population.

[Note: this would not include the legislative branch or the judicial branch of the Commonwealth government; and it would not include local government. This would be a beginning to controlling the overall size of the government.]
