MESSAGE:

Alicia --

Thanks for the fax; it came through fine. Apparently the problem we are having has to do with transmissions from computers, not other fax machines.

Glad the press conference went well. I will start sending more press releases this week. We enjoy reading them (typos and all) in the issues of the Marianas Variety that we get a couple weeks late.

We will be back the week of Sept. 11 if the Legislature doesn't put off the ratification vote on the amendments. Will you ask Bennet if we can take her up on her offer of a place to stay for 10 days until we have to go to Australia? We will be there for a bar conference for a week at the end of September, and then back in Saipan for the rest of the year. When we get back, we'll find another place to rent.

We heard about your uncle (Ed Pangelinan's father) when we went to brief the Washington Rep and his staff on the Constitution last week. The briefing lasted a couple of hours and went reasonably well. We wanted to be sure that the proposed constitutional changes are explained accurately here in Washington.

Deanne

Herman:

Our new fax machine at home is set up, although it seems to have some problems receiving because it is on an auto switcher (we have a lot of equipment on the line). When you have a chance, send us a fax here and see if you can get through. It should be okay.

Deanne
