MESSAGE

Herman --

Here's the proposed press release. We will need to let the other papers know about the decision to go ahead in November because the President's Page column in the Saipan Tribune proposed for tomorrow makes that announcement and we should not anger the other papers by allowing Broadhurst to scoop them. The President's Page article contains some additional details that the other papers will not get in the release so that Broadhurst gets some advantage from agreeing to allow your column to appear. That seems fair.

I need to know if this is okay so I can drop this off when I go by to see Younis about the inserts as I wind my way to your office for the meeting.

Thanks.

Deanne
