Memo for Herman T. Guerrero

From: Howard Willens and Deanne Siemer

Re: Proposals to delete "legislative" matters

---

Attached are proposals 37-47 to deal with the "legislative" matters identified in our memo dated May 1, 1995.

As with the "updating" provisions, we have put them in your name with a specific disclaimer indicating that you are just submitting them for the convenience of the Convention.

We have included all the non-controversial legislative matters, but have omitted those that already are the subject of delegate proposals, including education, gambling, the legislative budget, and the special assistants.
