No new obligations may be incurred after 30 June against FY 1962 allotted O&MN funds. O&MN allotments remain open for two additional years to accommodate obligation adjustments and to liquidate obligations. Suggest COMNAVMARIANAS designate command on Guam to certify for payment as necessary such bills and invoices as may be received against NAVAD Saipan allotments after 30 Jun, and to inspect for satisfactory performance such work as may be completed after 30 June under project orders or contracts which are chargeable to NAVAD Saipan allotments. NSD Guam will perform allotment accounting until final reports are rendered.
