1. Pursuant to the request for information contained in reference (a), the Chief of Naval Operations is advised that funds for survey work are available out of the appropriation made for the acquisition of land in the Trust Territory provided that the indicated survey work is limited to those lands which have been earmarked for retention by the United States of America.

2. Survey work to be performed in connection with post-war damage items are not considered to fall within this category and should be funded from some other appropriate source.
