ALL STUDENTS SHOULD ASSEMBLE IN FRONT OF THE CHURCH PROMPTLY AT

10:00 A. M.!

PRAYER OF FATHER ARNOLD BENDOWSKE, O.M. CAP.

Almighty God hear the ardent cry which rises up from every heart on this United Nations Day. Bend tenderly over our aching wounds. Convert the wicked, dry the tears of the afflicted and oppressed, comfort the poor and humble, quench hatreds, sweeten harshness, safeguard the flower of purity in youth, make all men feel the attraction of Christian goodness.

In your name, resounding harmoniously in heaven, may they recognize that they are brothers, and that the nations are members of one family, upon which may there shine forth the sun of a universal and sincere peace. Through Christ our Lord Amen.

U. N. DAY ADDRESS OF CDR. ROBERT D. LAW, JR.  
U.S. Naval Administrator  
Saipan District, Mariana Islands

Mayor Benavente, Honored Guests, Friends

It gives me a great deal of pleasure to be here with you on the occasion of this United Nations Day 1954.

A great deal has been written and even more has been said about what the United Nations Organization means to you and to me and to our friends and to our neighbors.

You are all aware of the fact that the duties of the United Nations Organization are quite varied and cover many fields. These responsibilities range from the fighting of a police action in Korea to the care of little children all over the world.

We do not have time here this morning to discuss all the aspects of what the United Nations stands for.

I would, however, like to touch upon the aspect that most concerns you and me.

Under the United Nations the United States of America has been given the responsibility of administering this section of the world known as the Trust Territory of the Pacific Islands. As you all know in the Saipan District this task has been delegated to the United States Navy.

Let us then take a look at what this means when it comes down to such everyday terms as you and me.

On my part, as the representative of the administering authority I have many duties. All of these duties have to do with making Saipan and the rest of the Saipan District a better place to live for you and your families. To this end we have set up programs to advance the education, the health, the welfare, the economic condition and the overall way of life of the Saipanese.

Daily we work with you people in an attempt to reach these goals.

On your part you have assumed the responsibility of establishing your community as one to be recognized and respected in this world community that is called the United Nations. This task that you have assumed is a large one indeed. In order to achieve the success that you want and deserve, each of you has a large individual responsibility.

You must, each of you, every day and in every way do everything possible toward reaching these goals.

You may ask how you, the individual, may contribute to this cause. The answer to this question is an easy one but it is, at the same time, a broad one.

You must actively participate in your community affairs. You must take an interest in your school programs and the education of yourself and your children. You must learn to believe in and support the sanitation program that is being carried on for your benefit. You must do your best to carry out the policies set up by your own Saipanese Legislature and Government. To sum it up you must all become good citizens of Saipan.

If each of us can, in our own way become a good citizen of our community it then follows naturally that our own community will be a good one. If we can get all of our communities to be good ones we can then hope to band these communities together and achieve the aspirations and goals that the United Nations really stands for.

That is our job. It belongs to each of us. On this United Nations day let us each dedicate ourselves to do our own part to reach the desired goal.

Robert D. Law, Jr.

U. N. DAY ADDRESS OF IGNACIO V. BENAVENTE  
CHIEF COMMISSIONER SAIPAN DISTRICT

Cdr. Law, Honorable guests, Ladies and Gentlemen:

It is with great pleasure that I comply with the wishes of the committees of this celebration, to say a few words to the assembly this morning.

On this occasion I would like to recall to our memory the most important purposes of the United Nations organization.

The United Nations came into existence on October 24, 1945. This means that to-day is the ninth anniversary of the complete ratification of the U. N. Charter by the United Nations members. There are 60 Member Nations in the U. N. organization, which has the United States of America as its leading member.

The purposes of the United Nations are:

1. To maintain international peace and security.
2. To develop friendly relations among nations.
3. To achieve international cooperation in solving international problems of an economic, social, and cultural character, and in promoting and encouraging respect for human rights and for fundamental freedoms for all without distinction as to race, language or religion.

One of the basic objectives of the trusteeship system in the United Nations is to promote our political, economic, social, and educational advancement in the Northern Marianas as well as those of the inhabitants of other islands in this and in the other Trust Territories; and also to promote our progressive development towards self-government as may be appropriate to our political circumstances and our freely expressed wishes.

It is, therefore, the moral obligation for us citizens of the Trust Territory to realize and to appreciate these favorable and friendly purposes and intentions of the United Nations towards us; and it is appropriate and just for us to commemorate and to honor United Nations Days, as we do to-day, as a manifestation of our deep appreciation.

We have seen evidences of the earnest concern of the U. N. for our welfare as a visiting committee visited in Saipan in April 1950; and another committee came to Saipan and Tinian at the end of February last year. The individuals of those committees are being represented, as you can see, on one of the floats taking part in the parade. The intentions of their visits in Saipan and Tinian were not of sightseeing but of investigating whether our Administering Authority is exercising its administration in consonance with the terms of the Trusteeship Agreement and also to listen to whatsoever problems and petitions our representatives may present to them.

We are very fortunate, however, in that we have the U. S. A. as our administering Authority under which administration we are enjoying freedom of religion, and different powers are not completely enjoying. It is undeniable that our Administering Authority is making every effort in our behalf. Never before did we have a greater degree of health, opportunities for higher education, prosperity, and enjoyment of life, as we do have now. These all come through our American Administering Authority.

I wish that we, citizens of this Trust Territory be determined to show our faithfulness and kindness to the Administering Authority and also our faithful and unflinching cooperation and understanding in helping the Administering Authority to carry out its work in these islands. I urge every citizen of Saipan to follow Cdr. Law's very essential advice, that we must strive to become good citizens of Saipan by actively participating in our community affairs. Let us work together in order that we may attain to a higher standard of health and the standard of education we need for our self-government, and also to self-sufficiency. And for the United Nations let us daily pray to God that they may attain to their very important objective which is "To maintain international peace and security" for many years to come.
