1. Reference (a) delegated authority to Area Public Works Officer, Marianas, to accept on behalf of the United States of America use permits to be granted by the Trust Territory of the Pacific Islands in connection with Project No. 324 construction, provided there was no continuing requirement for the land and the improvements to be constructed thereon after completion of the construction project by the contractor or by the Government. Construction under **Project** No. 324 has since been completed.

2. Enclosure (1) states a continuing need exists for the BPM cam site area and the Class 2 and 3 plant account property located thereon, and requests formalization by the Government of the Trust Territory of the Navy's continued indefinite use of the same at no cost.

3. It is requested that the delegation contained in reference (a) be extended to enable the APWO MARIANAS to comply with the request made in enclosure (1). It is suggested that disposition of the improvements upon relinquishment of use by the Government, be upon the same conditions as set forth in reference (a).
