High Commissioner

Secretarial Party Tour of Trust Territory

Yesterday, Secretary Seaton departed Kwajalein for American Samoa. He and each member of his party profuzely praised the Trust Territory for the manner in which they had been treated during their trip through Micronesia.

Will you please accept my personal thanks and extend to members of your staff my deep appreciation for their efforts, individually and collectively, in making the Secretarial Party's visit a pleasant one. I am particularly desirous that you express, in writing, the High Commissioner's gratitude to the Palaunas who were responsible for the particularly wonderful evening they gave the party. The Palaunan banquet and dances were still being talked about by members of the Seaton party when I left them yesterday.
