Dear Jack:

Many thanks for your letter of the 30th calling to our attention Tony Solomon and his report on the Trust Territories. I have looked into Mr. Solomon and find that he is very highly regarded here. As a matter of fact, he has just recently been appointed Deputy Assistant Secretary of State for Economic Affairs in Latin America -- a post for which he appears to be highly qualified.

With regard to the recommendations in the study on the Trust Territories, I can assure you that President Johnson intends to give them full support.

We were very glad that you were able to represent the President at the inauguration of President Park. We look forward to seeing you very soon.

Sincerely,

**WALTER**
