FIRST MANAGEMENT INTERNS ARRIVE

Saipan, Mariana Islands, Trust Territory of the Pacific Islands,
Sept. 1 . . . . Gideon Doone and Tatasy Wainit of Truk arrived today
in Saipan to begin their management internships with the Personnel
Department and the Economic Development Team, respectively, under
the new training program for potential administrators.

Podis Pedros of Ponape is scheduled to begin his internship
at the Personnel Department later this month.

The Management Intern Program has been initiated to select
and systematically train young Micronesians who have the highest
potential for administrative posts in the Government.  The program
contemplates that the first six months of each intern's employment
will be devoted exclusively to planned systematic training in the
administrative field in which he will be employed. After completion
of the initial training, the management intern is put to work in
a given junior management position under close supervision and
instruction until he has developed full competence in one position;
after which there will be opportunities to broaden his qualifications
by selected rotational assignments.  Candidates for this program
