

PAUL MARTIN

Jan. 25/71

Herb:

Here is a memo from Marv Stone and a letter from a private industry friend of his concerning problems affecting Micronesia.

Believe that you, toom, are an old Pacific hand.

You might want to look at this, then if you think merited, pass along to Rog Morton.

I'm not sure whether the Kissinger or Ehrlichman setup in the White House handled Micronesia.

Paul Martin

best.

Paul
