MEMORANDUM FOR THE STAFF SECRETARY

FROM: PETER M. FLANIGAN

SUBJECT: Kissinger Memo on Microcosts

Given the time pressure, I will defer to the judgment of the NSC on this question, since the issue seems to involve political and security considerations rather than economic considerations. However, I object to my office having been brought in on this at the last minute. There was obviously insufficient time for my staff to evaluate the proposal and, indeed, the backup papers on which Dr. Kissinger's conclusions and recommendations are based have not been circulated to my office.
