NSC UNDER SECRETARIES COMMITTEE

CONFIDENTIAL  
NSC-U/DM-98-E

## MEMORANDUM FOR THE PRESIDENT

Subject: Micronesian Future Political Status

Ambassador Franklin Haydn Williams, your Personal Representative for Micronesian Status Negotiations, reported to you on June 18, 1974 concerning the most recent round of status talks with the Mariana Islands Political Status Commission (MPSC). These talks resulted in considerable progress toward establishment of a commonwealth relationship between the United States and the Northern Mariana Islands of the Trust Territory of the Pacific Islands, especially in the areas of defense land requirements and future US financial assistance to the Northern Marianas.

Agreement in some areas was reached on an ad referendum basis. Final agreement on several aspects of a future financial relationship requires minor amendment of Ambassador Williams' current negotiating instructions, as approved by you on May 9, 1973.

1. The Ambassador is presently authorized to negotiate guaranteed US assistance to a new Commonwealth of the Northern Marianas for a reasonable period of time. The Ambassador initially proposed a period of five years. Based on his most recent talks with the MPSC, he now recommends that this period be seven years.

2. Your present instructions to Ambassador Williams limit the maximum level of US financial assistance during the above period to \$12 million annually, in constant 1975 dollars. Based on the same talks, Ambassador Williams recommends that this ceiling be increased to \$13.5 million annually in constant 1975 dollars.

The NSC Under Secretaries Committee has reviewed Ambassador Williams' report to you and has examined the above recommendations. The Committee believes that the recommendations are justified by the report, and requests your approval of these recommendations to assure prompt and satisfactory conclusion of the current status negotiations with the Northern Mariana Islands.

In his report to you, Ambassador Williams also mentions special US funding to cover transition costs in the Marianas and the necessity of an early approach to Congress for \$1.5 million for this purpose. While the Committee fully concurs both in the dollar amount and the early approach to Congress, no decision by you is required on these matters since, in your May 9, 1973 Instructions for President's Personal Representative, you gave Ambassador Williams discretionary authority as to timing and dollar amounts for a Marianas transition program.

Ambassador Williams has also noted the MPSC's interest in establishment of an early separate administration for the Northern Mariana Islands, prior to termination of the Trusteeship Agreement, but under that agreement. It is anticipated that a formal request for such separate administration, as an appropriate transitional step to commonwealth status, may be made by the District Legislature of the Northern Mariana Islands in the near future. The NSC Under Secretaries Committee agrees that such a separate administration should be established following a formal request by the District Legislature. Although such an action may be controversial within the United Nations Trusteeship Council (especially in the absence of a prior formal referendum), and among those Micronesians who remain opposed to a

separate commonwealth status for the Northern Mariana Islands, a separate administration nevertheless is an essential transitional step to that status which serves US interests. It is one which can be accomplished within the framework of existing executive orders and the Trusteeship Agreement, and also one which is provided for in Ambassador Williams' current negotiating instructions. Under these circumstances, no decision is required by you on this matter. The character of a separate administration, implementation procedures, and timing will of course require inter-departmental coordination and may also require decisions, as suggested by Ambassador Williams, by the NSC Under Secretaries Committee.

  
Robert S. Ingersoll  
Chairman
